I strapped myself in and lay there for hours in a sort of half-doze. Every now and then I would pull myself out for water and to chew a few biscuits. Half the time the captain was in the room with me. I didn't know whether it was day or night, when I heard his angry voice talking to the Scotch engineer. The storm had calmed down a little, and they did not need to yell themselves hoarse. The Scotchman had come to say that the coal was almost gone.

"Burn wood," Busk was ordering. "Burn that door, burn the sides of the bunks, burn everything."

Stoking With Copra

THAT was no solution, and the Scotchman knew it. The captain knew it too. There was not enough wood on that old iron steamer to carry us ten knots. But useless as the idea was, sailors came with an axe, and carried the door away.

When it was gone a whiff of disgusting odor was blown in to me. It seemed to lift me right out of my bunk. I went to look for the captain and ran into him on the bridge.

"Mayer," he said, "this —— old tub is leaking. She's beaten us!"

"Copra!" I answered. "Copra!"

He looked at me as if he thought I was crazy.

"Burn it, man, burn it!"

"——!" he hollered, "why couldn't the mate have thought of that?" Then, "Why couldn't I have thought of it myself?" He eyed me rather sheepishly. "Mayer," he said, "I never saw copra burn. How does she act?"

"Burns like candle grease."

He looked as if I had handed him a thousand dollars. He was a man of fifty, but he ran aft like a boy.

The Poo Ann steamed into Singapore Roads two days late, belching heavy black smoke from engines stoked with cocoanut. The Chinese sampans gathered about to take us ashore. We got into them, but the boats that had counted on cargo went back empty. We had left in the sea one hundred bullocks, thirty-nine wild animals and three deck passengers, carried overboard when a bit of railing broke.

When I went into Mr. John Anderson's office, he jumped when he saw me. "Mayer!" he cried. "I thought you were dead. The Poo Ann was reported lost."

"She's out in the Roads," I said, "but eighteen cases of animals are riding the waves." I felt as if I had robbed the king's treasury.

"Don't pull such a long face," he cried. "You ought to be thankful to be alive. I'm thankful you are, anyway."

"If you feel that way about it," I answered, "I'm thankful, too."

(Copyright, 1924.)

Next Week—Catch of a Magic Net in Thickets of Sumatra.

"Bullocks . . . and cages full of howling beasts were in a sluing sliding mass."

"Burn wood—burn that door—burn the sides of the bunks—burn everything."

Man Hanged by the Moon Burglar Caught by the Storm

ONE of the most important witnesses in a recent British lawsuit was an official of the meteorological office, who testified that, contrary to the evidence of the defendant, rain fell on a certain date vital to the case.

That this class of evidence is often of the greatest importance and that it is frequently called for in courts of law are facts known to comparatively few people.

Weather experts are required to give evidence in a wide range of cases. The exact moment of sunset, proved by a meteorological authority, was an important feature of the evidence given in one case; while in another heavy damages were awarded as a result of an expert showing conclusively that on a given date certain weather conditions, sworn to by the plaintiff, actually prevailed, the defendant's case being thereby discredited.

Of particular interest in this connection was a murder committed in Russia by a man who afterwards fled to England. When the murderer was ultimately arrested at the instance of the Russian police, various witnesses gave, on commission, evidence that was conflicting.

Finally the meteorological departments of the two countries were consulted, when it was found that on the night of the murder there was bright moonlight, and that there could have been no possibility of the man being unrecognized by those witnesses who declared that although they saw him, they were doubtful of his identity. The upshot was that the man was extradited, and eventually convicted of the crime.

This particular case involved questions on which the weather man's testimony is often sought. Experts who have made a close study of the subject say that in the brightest daylight a person with average eyesight can recognize someone well-known to him at a distance of, roughly, 300ft. The approaching person's eyes can ordinarily be distinguished at 250ft., while movements of the limbs can be spotted at anything up to 400ft.

At 1,600 ft. a man or a woman presents an indefinite appearance, and at distances greater than 2,500ft. it is almost impossible to detect at once movement of any kind. These facts have often been referred to and admitted as evidence in law cases.

On one occasion during a heavy thunderstorm at night a burglar, escaping from a house, was seen by two members of the householder's family, who declared that they had a perfectly clear view of the man in the instant of a vivid lightning flash. The burglar's case was that the lightning was not vivid enough to permit of identification in this way.

Meteorological officials were called to show that not only was the lightning intense, but that the most vivid flash of the storm was recorded as having occurred at the exact moment sworn to by the other witnesses. The burglar was found guilty.

Abraham Lincoln once proved the innocence of a man charged with murder by calling evidence to show that on the night on which the crime was committed there was a full moon in a cloudless sky. This evidence, tendered by a prominent meteorological authority, shattered the case for the prosecution, which was subsequently abandoned.—London Tit Bits.

Loyalty

OLD FARMER SETH was on his first trip to London after having spent the fifty odd years of his life in a little out-of-the-way country village. He had arranged for some friends to meet him at the station, so that he would not lose his way in the crowds.

The train steamed into the station and the old farmer alighted. On his arm he carried with great care a large basket, covered with a white cloth.

"What have you got in that basket?" asked one of his friends, when the first greetings were over.

"A present for the King," replied the old man.

"And what is the present?"

"It's a basket of plums."

"But why plums?"

"Well, Ah sees as 'ow in the National Anthem it ses 'Send 'im Victorias.'"—Answers.

New English Station

THE new British government transmitting station at Hillmorton, which is expected to be working before the end of the year, will be one of the largest in the world. The site of the station comprises one and a half square miles; eight or more 800 feet steel masts will be provided, and 1,000 kilowatts will be used in transmission. With this power it is expected that news of imperial significance can be broadcast simultaneously to every British dominion and colony throughout the world.

Serious Intentions

HODGE: "Not married yet?"

Tomkins: "No."

"But I thought you had serious intentions in a certain direction?"

"I did have, but the evening I went to propose to her, before I got a chance, she told me she loved Browning, and Kipling and Shelley. Now, what chance did I have with a girl who was in love with three other fellows?"—Tit-Bits.

Didn't Count

"WHO was with her?" asked the clerk at Willesden.

Witness: "No one, sir."

"Not her husband?"

"Oh, yes, sir, but he doesn't count."—Tit-Bits.

Are You Absorbing More Than Your Share of Radio Waves?

Major Armstrong Says That Volume Decreases According to Number Listening In—Will an Ether Law Become Necessary?

LAWS may soon be necessary to limit the amount of radio energy a fan may draw from the ether, according to Major E. H. Armstrong, who addressed the Institute of Radio Engineers in New York the other day. Instances were given where the energy of a high powered broadcasting station had been almost entirely absorbed by receiving aerials in certain directions.

The rapidly increasing number of stations presents a serious problem in radio, he maintains, and it may become a question for legislators to decide just how much energy a listener is entitled to. It does not matter what kind of set picks up the signal, whether it be regenerating, oscillating or not. Every set absorbs energy from the passing wave.

Much bad reception has been laid to fading, that condition where a signal will drop off to the inaudible point, or laid to unfavorable atmospheric conditions, when the signal is good and bad on alternative nights. Also, much good reception, such as Los Angeles on one tube, has been attributed to Jack Frost, but, while the boy should get all credit due, there is another contributing factor in this phenomena—in fact, the same factor must be considered whenever a rise and fall in signal strength is observed at the receiver. This factor is radiation and re-radiation from neighboring receiving aerials.

It was observed during a recent New York broadcast, which was heard by millions, that the signal from the New York station, received in Pittsburgh continued normally strong until about ten minutes before the service hour. Then the signal gradually dropped off until the volume had decreased to about twenty per-cent. of its original value. After the service, the signal rose suddenly and continued as usual thereafter.

It was learned, after checking up in other directions and obtaining data on transmitting current and conditions at the sending station, that the energy had been absorbed by the thousands of sets tuned to that station.

The squeal of the radiating set is not the only offender, every set on the end of an outside aerial is guilty of interference.

When a set re-radiates it does not, necessarily, have to be oscillating. Any set tuning an outside aerial re-radiates the received wave with additional characteristics, or distortion. This accounts for a large part of the mush and for some of the one-tube records.

Risking Their Lives to Protect the Public

DR. L. R. SPENCER, seated at microscope and his assistant, L. H. King, of U.S. Public Health Service, are the only two allowed by the Bureau to experiment in dangerous work on the dermacentor anderson, commonly known as wood-ticks. These little wood-ticks mean positive death to any human they bite, and have been the direct cause of the depopulation of many miles of valuable land in the State of Montana. Two members of the public health service and one member of the Rockefeller Institute have met their death on this work already. Scientists are now working on a serum which they hope to perfect that will insure the public against such bites. Experiments are now being made on guinea pigs and rabbits for subjects of ticks toll. Dr. Spencer is leaving for Montana, the very heart of the area infected, to carry on his experiments there.

Miss Allen's Tested Recipes

No. 120

Tomato Bisque with Cheese

(Originated by Miss Allen. Pronounced delicious by every one who has tasted it)

1 pint milk
1 quart can tomatoes
2 tablespoonfuls Crisco
2 heaping tablespoonfuls flour
1 cupful grated cheese

Heat milk. Blend Crisco and flour. Add hot milk slowly. Stir smooth. Stir slowly into this the strained tomatoes. Add one teaspoonful salt. Just before serving add grated cheese. When serving add spoonful whipped cream to each plate.

CRISCO
Made in Canada

For light, tender cakes
For digestible and flaky pastry
For crisp, digestible fried foods

GUILD CONTEST FOR MEMBERS

Banquet Given By Losing Team in St. Andrew's Sunday School at Omemee—Eighty Members Present.

OMEMEE, March 27.—In an effort to boost the number of members of the Guild, of St. Andrew's Presbyterian Church, a campaign was begun early in the year. For the purpose of carrying on this campaign, competition was begun by the appointment of two junior members of the Guild, Miss Margaret Parsons and Master Gordon Hayes, as captains of two sides, gold and blue respectively. Each captain put forth every effort during the allotted time, with the result that the "Golds" were successful in obtaining the larger number of members. As it had been previously arranged that the losing side should provide some entertainment for the winners, a banquet was given by the members of the "Blue" side in the Sunday School room of the Church on Wednesday evening, March 26th.

The schoolroom was prettily decorated in rose and white, and the tables, on which the color scheme was carried out, were adorned with flowering plants and pussy willows.

Promptly at seven o'clock the guests assembled, and after a few moments of social intercourse, the Guild members so the number of about eighty, took their places to partake of a sumptuous repast, composed of scalloped potatoes, cold meat, jellies, salads, pickles, bread and butter, pie and cake.

The proceeding of the regular meeting of the Guild, followed consisting of the opening hymn, "All Hail the Power of Jesus' Name," followed by a short passage of Scripture read by the pastor, and repetition of the Lord's Prayer in unison. After business matters were discussed, social activities were begun. All joined in singing many popular and familiar songs, Mrs. F. G. Sandy presiding at the piano in her usual capable manner. A quartette, composed of Mrs. Sandy, Mrs. E. H. Mitchell, Messrs. M. J. Parsons and S. J. Mackay, rendered a selection which received much applause.

The president of the Guild, Mr. H. Lamb, in a brief address, congratulated the energetic youthful captains on the splendid result of their efforts, after which Miss Margaret Parsons, on behalf of the members of the Gold side, in a neat speech, tendered a hearty vote of thanks to the Blue side for the banquet and entertainment provided. On her request, the Golds rose and sang "For They are Jolly Good Fellows." Gordon Hayes, captain of the Blues, afterwards replied in a suitable manner.

Two contests were indulged in by the younger members of the society, the first a gum drop and the second a biscuit contest. Games were then participated in by both old and young, and about ten o'clock the happy gathering broke up after the singing of the National Anthem.

LONDON SLOW.

LONDON, March 28.—London is the slowest moving traffic city in the world, according to Lord Ashfield, who recently surveyed the traffic situation here. Street speeds, he said, have fallen to three miles an hour in certain places. London, he declared, has no effective control of traffic.

SEEK VOICE IN BRITISH POLICY

Premier Bruce Declared Australia Would Have to Consider Some Action If Singapore Naval Base Is Finally Abandoned.

MELBOURNE, Australia, March 27. Canadian Press Cable, via Reuters. — Premier Bruce speaking in the House of Representatives to-day reviewed the work of the Imperial Conference and emphasized Australia's determination to have a voice in framing the British foreign policy, while remaining an integral part of the empire. He considered it incomprehensible, he said, that some members should regard the Singapore naval base as unnecessary. He could not understand such an attitude from patriotic Australians, who had given the matter the slightest thought.

While convinced that Premier Mac Donald had voted in the matter of the abandonment of the Singapore base from the highest motives Australia believed that the abandonment would seriously prejudice peace while its construction would strengthen the league of nations.

Premier Bruce expressed confidence that the British House of Commons ultimately would give a decision on the matter based on the needs of the whole empire.

The commonwealth government, however, did not intend to take the alternative action of providing a naval base itself, Permier Bruce said, although if the views of the Macdonald government were not modified it would be necessary for the Australian government to consider some action to provide for what was believed to be a vital essential.

"If we cannot look Britainwards," declared Premier Bruce, "we must look to ourselves."

Premier Bruce concluded by giving a summary of the resolutions that would be submitted to the House, namely, first, whether Australia desired to be consulted in the framing of the imperial and foreign policy; secondly, whether Australia affirms the principle of joint empire defence to which she would undertake the full burden of her own defence unaided; third, with regard to preference, whether Australia believes in the principle of closer inter-imperial relations, and is prepared to examine methods and means to the achievement thereof.

Premier Bruce later moved resolutions approving the conclusions of the Imperial conference regarding foreign relations, also regarding the questions of defence and tariff preference.

An amendment was moved by W. A. Charlton, leader of the Labor party "that the House approves the British government's foreign policy, which aims at the advancement of peace in the world."

The debate was adjourned.

Easter Wraps

By HEDDA HOYT

NEW YORK, March 28.—(United Press)—New York shops are now displaying their choicest frocks, wraps and suits destined for the Easter outfits. Many women are making their Easter selections at an early date, as the exclusive Easter models are soon picked up, leaving only inconspicuous garments and imitations of the original Parisian models.

Several New York shops are selling Spring imports at the actual cost of importation, as the American-made costumes this season are so lovely that they will undoubtedly be as popular and as costly as the imports. Therefore, the woman who prefers clothes that have a Parisian touch to them can purchase them now as cheaply as she can purchase the better grade American goods.

I shall devote this article to imported wraps ,as they undoubtedly indicate the type of garments which will be reflected in Easter fashions in the United States. It is safe to state that the long coat, fashioned on straight lines, will predominate as an Easter wrap. Capes are not being shown at all, except as small elbow-length affairs on misses' suits and coats. The long cape is conspicuous by its absence.

Easter's Straight-line Coat.

The straight-line coat of the wrap-about variety, fur-trimmed or embroidery-trimmed, is the prevalent style shown among the imports. Fur has never before been so lavishly used for Spring. It is used on collars, cuffs, on front seams and about the hems. Coat materials that are popular are soft-surfaced woolens, brush wools and heavy satins, and these are invariably fur trimmed. Collars are small and are trimmed in fur or embroidery, or both. Sleeves fit rather snugly into arm-holes and flare at the wrist. The huge bell-shaped flares are not in evidence, however. Now and then the satin models use a modified leg-of-mutton sleeve, which is a full sleeve shirred from elbow to wrist.

Black and white combinations are conspicuous on both cloth and satin coats, white fox and ermine being the fur used for such combinations. Brown, light tans, dull greens and light hennas are popular Spring coat shades. Browns and tans favor trimming of Summer, or brown ermine. Henna brushed wool, combined with leopard fur, is a new Parisian conception. Gold and silver flat braid is often used in conjunction with the narrow fur banding.

Parisian Models.

A heavy black satin import modeled on straight lines has a two-inch band of white ermine extending about the collar and to the hem. The ermine is repeated about the cuffs of the garment, which are slightly flaring.

Black moire, trimmed about the collar and cuffs with white fox, is another pretty black and white combination.

Brown brushed wool, trimmed in front seams and hemline has an inch band of gold braid outlining the fur border. The braid is stitched onto the garment, acting as a border to the fur. Tinsel braids are used on many of the fur-trimmed imports in this manner.

A pinkish henna coat, made on straight lines, uses leopard fur in a two-inch band about the collar, cuffs and extending down the front. This makes rather a striking coat for one who likes contrasts.

Heavy tan satin coats have collars, cuffs and hem borders of marmot or premature fox, the fur being used in four-inch width.

Parisians are favoring a shade of rose combined with black and silver. A pretty imported coat of rose brush wool has a narrow band of black sealskin outlining the garment from collar to hem. Black satin bands, about an inch wide, outline the side seams of this coat and extend down the centre of the sleeve. Tiny silver buttons, placed closely together, trim the centre of these black bands.

The Scarf Collar.

Scarf collars adorn many of the satin models. Black satin combined with red is a favorite Parisian combination which is reflected in both gowns and wraps. A simple black satin coat has a black satin scarf lined in bright red satin. Red is repeated in the lining of the coat.

Coat linings this season are either extremely brilliant, using Chinese-figured taffetas and creps, or the rare self-toned. Ornate models usually used the the self-toned linings while sports models and simple coats use brilliantly figured linings.

Three-quarter length coats are alloted to sports wear and evening wear, as the preference for day-time is for the long coat which completely covers the frock. Three-quarter length evening wraps of ermine are among the smartest of evening wraps for Spring. These may be fox-trimmed about the collar and hem.

WOMAN REGISTERS EVERY EARTHQUAKE

Extreme Sensitiveness of English Woman Causes Her to Register Earthquakes In Any Part of World.

LONDON, March 28.—(United Press).—The only human earthquake-register known lives in England.

This person, of such extraordinary sensitiveness, claims that for many years she has been able to "register" almost every earthquake in every part of the world and report it before any news reached this country.

The devastating Japanese quakes affected her so badly that she was almost incapacitated.

Professor H. H. Turner, in a recent article, described the sensations the woman, who prefers that her name be withheld, experiences when a quake is in progress.

"She suffers from a curious nervous tension," he said. "It is as though she were under the influence of electricity. It almost incapacitates her while it lasts, but disappears suddenly."

VOICE OF THE PEOPLE

To the Editor of The Examiner:

Degr Sir.—Will you kindly grant me a small space in your valuable paper for a few words in reply to Mr. J. H. Burnham, re Prohibition. Mr. Burnham trys to show that the people, in trying to enforce prohibition, are going against the will and example of God.

Now, I contend that in trying to enforce prohibition, the people are not only following the example of God himself, but are guided by His spirit. In doing so, let me point Mr. Burnham to the fact that the very first act of God, after the creation of man, was to place prohibition in force in the Garden of Eden, and put a penalty of death against man for breaking the law. And yet it was a failure, because Adam and Eve broke the law and suffered the penalty because they were free to choose. (This is free will as it existed then, and as it is to-day.)

I would also remind Mr. Burnham that God destroyed the world by the flood as a punishment for the wickedness of the people in breaking His law. When will the people learn to choose the right when there is no penalty.. Then we come to Sodom, which God destroyed off the face of the earth because of the wickedness of its people; and there is no doubt that drunkenness was one of their great sins, as is shown by the sequel of the story when Lott got safelytothe mountains; and yet God offered to spare the city for Lott's sake if he could find even five righteous persons, which he could not.

Then I would remind Mr. Burnham that every commandment in the decalogue begins with the words "Thou shalt not," yet man is a free agent. We can choose to obey the law or take the punishment. I hope when the time comes, that every man and woman who has the franchise, even including Mr. Burnham, will vote and work for the success of prohibiiont.—gratefully yours.

A. ALLISON.

Peterboro, Ont.

English Women Demand Their Rights at the Polls

By C. T. HALLINAN

LONDON, March 28 (United Press) —Why should the English businesswoman, who prefers to take her meals in a restaurant instead of in her room, be disfranchised?

Why should the English woman doctor, nurse or teacher, who works and lives in an institution, be disfranchised?

Why should 4,600,000 women, who are over 21 years of age and under 30, be disfranchised?

These are the questions which, in considerable exasperation, English women are pressing upon the Labor government.

For six years, ever since the passage of the "Representation of the People Act," English women over the age of 30 and qualifying as to their respectability in various ways, have enjoyed the vote.

But the tests of respectability—applied to women and not to men—have caused more indignation in the British female breast than the downright disfranchisement of the women between the ages of 21 and 30.

For when the Englishman attempted, in 1918, to enfranchise the respectable section of the female sex, his clumsy devices, it is pointed out, caused all sorts of anomalies. The only way he could define a respectable woman, without frightening Mrs. Grundy, was to define the female voter in terms of status or property.

The English woman, over 30 years of age, who has the ineffable bliss of being married to an Englishman, is solemnly enfranchised. But if she is a spinster, or a widow, she must satisfy the election authorities (a) that she occupies unfurnished premises; (b) occupies them alone—that is, does not share them with a fellow voter—and (c) uses them as a home.

English professional women have been struck from the rolls, because they admitted occupying rooms in which they did no housekeeping. And as for the "regiments of women"—highly intelligent women, too—who live in girls' schools and colleges where they teach or serve as physicians, nurses, matrons and what not—there is no provision in the English law for them.

In their anxiety to prevent "bad women" from coming up to the polls, the draftsmen of the 1918 Act have succeeded in disfranchising, it is declared, more than 60 per cent of the trained professional women," the best brains of their sex."

But the Labor and Liberal parties are pledged to amend the Act so that it will probably pass, very shortly, into the post-Victorian discard.

Then there will be 12,000,000 women on the electoral rolls and 10,000,000 men.

FORESTERS HEADED FOR TORONTO.

TORONTO, March 28.—(Associated Press).—The Independent Order of Foresters, with 165,000 members in Canada and the United States will celebrate its golden anniversary here June 17 when commemorative exercises will be held in the 3,000 courts of the society throughout the two nations, according to an announcement by W. H Hunter, Supreme Chief Ranger.

The order, said Mr. Hunter, has paid out in fraternal benefits $82,000,000, has reserves and surplus of $40,000,000 on hand and its insurance now in force totals $130,000,000. Philanthropic work always has been an important feature in the society's activities.

Prevent Grippe—build resistance with SCOTT'S EMULSION

The World's Record

THE Metropolitan is mutually owned by its 21,000,000 policyholders. Its assets belong to the policyholders. They are accumulated to meet policy obligations and for no other purpose. Every policyholder is a capitalist—an investor—and his interest should be recognized by legislators and commissioners. The policyholders own over $313,000,000 in railroad securities; $606,000,000 in real estate mortgages; $80,000,000 in public utility bonds; $200,000,000 in Government obligations.

Business Statement, December 31, 1923

The Metropolitan is establishing a head office in Canada. It will be located in Ottawa, where land has been purchased on which the Company will erect its own business building. The Canadian business East of the Rocky Mountains will be transferred to the Ottawa office, and hereafter Canadian business East of the Rockies will be transacted in Canada. In effect this means bringing to the Dominion an insurance company having more than $500,000,000 of life insurance in force.

Canadian policies will be issued in Canada, Canadian premiums will be paid to the Canadian office and from this Canadian office the claims will be paid to Canadian beneficiaries.

Third Vice-President ARCHIBALD F. C. FISKE will be the chief executive officer and a staff will be assembled in Ottawa sufficient to handle the Canadian business which has been so rapidly increasing. The number of Metropolitan policies held by Canadians at the end of December, 1923, was 1,921,652, much the largest number held in any company—an indication that the Company has the confidence of Canadians.

The Welfare work of the Company will be continued and extended in Canada exactly as it will in the United States. Except in communities too small to permit the service, the Company sends nurses to Industrial policyholders when they are sick, free of charge. In 1923 these nurses made 2,482,919 visits, of which 280,805 were to Canadians.

The Company distributes a vast number of booklets and pamphlets giving hints as to prevention and cure of disease in an effort to improve health and hygienic conditions among its policyholders. Last year it distributed 33,790,840 such pieces of literature. In Canada 2,288,552 pieces were distributed.

The Metropolitan's total investments in Canada at the end of 1923 were over $105,000,000 of which $43,813,575 was in Canadian Government bonds. This investment, added to the sum paid in Canada to policyholders and for administration expenses and taxes, since the Company began business in the Dominion in November, 1885, exceeds by about fifty million dollars the amount received by the Company in premiums from Canadian policyholders.

Haley Fiske.

HEARTS AFIRE

by May Christie

The Brilliant Novelist of Modern Society

(Continued from Yesterday.)

WH 'S WHO IN THE STORY

Prudence Page—a charming country girl, has fallen in love with

Bert Traymore—a fascinating philanderer, whom a chance meeting brings into her quiet life.

Janet Mercer—Prudence's dearest friend, an older woman, plain but clever, is masseuse to the delicate child of

Mrs. Vansittart—a pleasure-loving woman-of-the-world, owner of Winston Towers, a beautiful summer home.

Virginia Dale—her ward, is a blase beauty, who counts Traymore among her many swains. She is genuinely interested in

Peter Armstrong—a brilliant young inventor, clever and ambitious. His marked attention to Prudence at a ball at Winston Towers leads Virginia to call on the girl the next day in order to ascertain just how far things have gone. Traymore, who has put off meeting Prudence's mother, until the young girl comes to doubt his professed love, choses this day to make his call. He is embarrassed at finding his two sweethearts together, and the situation is awkward, until Peter appears on the scene.

Virginia contrives so that Prudence shall see a love-letter to her (Virginia) from Bert.

Janet, the sensible, has long been madly in love with Will Ogilvie. Now he comes to tell her that he is going abroad. He must say good-bye.

From Ogilvie's outburst, Janet suddenly realises that Will is jealous of Peter Armstrong.

Janet tells Will that if he goes to the ends of the earth she is going with him.

Virginia, in order to achieve radiant glow of youth, administers specially treated mud to her face. While she is thus adorned she is confronted, in the hall, by Mrs. Vansittart's little girl and Peter, who has been playing with the baby.

CHAPTER XXX.

A Cruel Thrust.

Peter Armstrong to have caught her in this awful plight!

Virginia could have screamed in fury and embarrassment. She could have slapped Lucia, whose startled cry had brought this man there, to witness her (Virginia's) disfigurement.

But, of course, he didn't recognise her. Her face was as black as any chimney-sweep's. The mud lay half-an-inch thick upon her nose, her cheels, her chin, her forehead. Every scrap of hair was dragged up tight under a hideous rubber bathing-cap, the sort that Virginia would have scorned to sport upon a bathing beach.

Even her kimona—because of the recent mud-treatment—was her third best, and a sight!

"Black-faced lady!" screamed little Lucia again, and flew like a frightened pigeon into the arms of Peter Armstrong. "Black-faced lady very angry with Lucia!"

Now, if anything in the world could infuriate Peter Armstrong, it was unkindness to a child—particularly a delicate, helpless little creature like Lucia, who (rousing all his protective instincts) had hurled herself, sobbing and trembling, into his arms. He could feel her small heart throbbing like a terrified fledging's in her thin, childish bosom, up against his coat.

And he had heard Virginia's hissed threat and recognised the voice.

In the first unreasoning moment, he thought the girl had done herself up in this guise purposely to torment poor little Lucia.

But one square look at the astounding apparition made his anger die away, and a gale of sudden laughter take its place. Good heavens! Not even on the music halls had he seen such a sketch! Never even on Hallowe'en had any black-faced 'guiser' looked as weird as this!

Before he could say 'one,' or even try to soothe Lucia, the apparition had flung itself into the bathroom, locking the door violently behind it.

"Hush, Lucia! It's all right! Just a little joke! Come, stop trembling and crying!" Peter Armstrong carried her back to the nursery, stroking the curly baby head.

But Lucia—that passionate lover of beauty—wouldn't be easily comforted. She hadn't recognized Virginia's voice, and never for a moment connected the appalling black-faced vision with the pink and blue and golden beauty of her mother's visitor.

"Listen, now, and I'll tell you a story." That magic charm never failed to work, as Peter knew.

"About a lovely princess," chirruped Lucia, the storm abating.

"With golden locks and big blue eyes," supplemented Peter, in his charming, well-bred voice, smiling down at baby Lucia. How easily children's tears were dried! Pity that grown-ups couldn't be the same. Their tears bled inwardly. . . .

"Golden locks and big bleu eyes," repeated Lucia, rapturously. "Just like Miss Jinny." Then her little face clouded over. "But Miss Jinny is always cross with Lucia. This princess wouldn't be cross with Lucia?"

"No; oh no." (Odd how children knew intuitively the character of grown-ups!)

"The black-faced lady cross with Lucia, too—just like Jinny," prattled on the child. Her little brain was working, vaguely, with an idea.

Peter didn't want the idea to develop.

"You just forget about that, and listen to my story, will you?"

Lucia moved restlessly on his knee.

"Back hurts. Want rubbing. Want nurse to come." Her thoughts were off on Janet Mercer's track.

"Nurse will be here soon, if you're a good girl and stay still, and listen to the tale about the princess."

His magic voice at last soothed the child, and presently she lay still, as though hypnotised, her pain forgotten.

Meantime, locked in the bathroom, Virginia stared in fury and in horror at the vision of her own mud-bound features.

"He couldn't have recognized me!" she repeated over and over to herself, as though trying to gain reassurance from the assertion. "Unless that brat of a Lucia told him! How I loathe the child!"

It was only an hour ago that she—Virginia—had left Peter Armstrong at the Green Gables, little thinking that he would follow her so speedily to Winston Towers. (Flattering, that he had followed her so soon, and doubtless most disappointing for Prudence Page! But the whole thing would be ruined if he'd recognized her, looking such a shocking guy! It would be difficult to again convince him of her beauty!

Virginia, however, had long since discovered that worry was a sure and potent destroyer of said beauty. So she forced herself to believe what she wanted to believe, namely, that her identity in the mud episode was an absolute secret.

She bathed and dressed rapidly, emerging from the process radiantly lovely, and sought for Peter Armstrong in the nursery. A woman she heartily disliked was there.

"Are you looking for anyone?" inquired Janet Mercer coolly.

Virginia hesitated, between a desire to snub the upstart creature and a wish to learn Peter's whereabouts.

"I wanted to speak to Mr. Armstrong," she said, finally, looking down her dainty nose at Janet, with an insolence on the part of this haughty beauty could dim that joie-de-vivre. Her lover was her own again, her very own!

Virginia swept out of the nursery in search of Mrs. Vansittart. Perhaps Peter had inquired from the lady of the house as to the whereabouts of his charmer?

But no, he hadn't!

"Do stop trying to cast a spell over every man you meet, my dear Jinny!" Mrs. Vansittart rallied her, teasingly. And then she added—

"It's my belief that the little Page girl has fascinated the woman-hater! Youth and innocence, you know! It works wonders.

"Well, haven't I got both? What are you insinuating? Jinny blurted out, with a twisted smile.

"H'm! I hate to be a critic; but I shouldn't underline either, heavily, in your case!" came back the maddening answer.

To-Morrow's Instalment Tells of Prudence's Rebellion.

(To Be Continued.)

For SURE relief from constipation be sure you get ALL BRAN—Kellogg's!

If you suffer from constipation, you cannot afford to lose time experimenting. The poisons which accumulate while you try ineffective measures can undermine your health.

If eaten regularly, Kellogg's Bran is guaranteed to relieve permanently the most chronic cases of constipation, or your grocer will return your money. It brings you SURE results because it is ALL Bran. Nothing but ALL bran can be wholly effective. Doctors know this! That is why Kellogg's Bran, cooked and krumbled, is endorsed and prescribed by physicians everywhere. It will bring back your health to you. So be sure you get Kellogg's Bran, cooked and krumbled.

You could tell Kellogg's Bran with your eyes closed—once you had tasted that delicious, nut-like flavor. Kellogg's Bran is quite different from ordinary unpalatable brans. The wonderful flavor of Kellogg's is exclusive. You will like it.

Eat at least two tablespoonfuls daily—in chronic cases, that much with every meal. Eat it with milk or cream. Sprinkle it over other cereals. Cook it with hot cereals. Try it in the recipes which are given on the package—such as bran bread, muffins, griddle cakes, etc.

But start eating Kellogg's Bran today. Have each member of your family eat it. Enjoy that perfect health which should be yours. Kellogg's Bran, cooked and krumbled, is sold by all grocers. It is served in individual packages by the leading hotels and clubs. Get it at your restaurant, too! Made in Toronto, Canada.

ADVENTURES OF THE TWINS

By Olive Roberts Barton

THE TIN MOUSE IS FOUND

Just as the Twins were passing the clock.

The rest of the Doofunny people all stayed behind, while Nancy and Nick went off to find the tin mouse.

The tin mouse had hidden somewhere because he knew he was guilty.

This was what he had done. He had jumped out and frightened the pin-cushion lady, and the pin-cushion lady had fallen on the wooden waddle duck, and the wooden waddle duck had such a start that he skidded twenty inches and frightened the tin soldier's horse, and the horse had shied and stepped on the peanut boy, breaking his nose.

There!!! I'm all out of breath. But you see how very guilty the mouse was. No wonder he hid.

Doofunny Land was almost empty, for all the people were waiting at the court house, except those who had duties at home that they just couldn't get away from.

The cuckoo was one.

Just as the Twins were passing the clock where he lived, he popped out. "Cuckoo! Cuckoo! Cuckoo!" he went three times.

"Hello!" cried Nick.

"Hello!" said the cuckoo. "What are you doing in Doofunny Land?"

"Hunting the tin mouse. Did you see him?"

"No—not for a day or two. He always comes to see me regularly, runs up one of my strings and pays me quite a visit. But he hasn't been here lately and I was wondering what was wrong!"

"He's wanted at the court house for breaking the peanut boy's nose," said Nancy.

"Why the idea!" exclaimed the cuckoo. "He's as gentle as a lamb. I don't see how he could."

Next they met a napkin rabbit just sitting there on his hind legs.

"Why aren't you at the court house?" asked Nancy. "You haven't any clock to mind like the cuckoo."

"I know," answered the rabbit, "but I'll tell you a secret. I'm very loose. If I move I'll come all untied. And I feel dreadful about it. It isn't often we have a trial in Doofunny Land and here I am not able to stir a foot."

"But tell me the news, do!"

"The tin mouse," he exclaimed when he heard the story. "Why, he's under that board. I saw him go under a minute ago."

"For goodness sake!" cried the Twins. "And here we have been hunting and hunting for him everywhere. Come on out here, Mister Mouse. You're wanted at the court house."

"I'm not here at all!" squeaked a tiny voice.

"Well, if you're not there, who is?" laughed Nick.

"Nobody!"

"Oh, ho! Nobody! Well, I'll tell Mister Fuzz Wuzz that Mister Nobody is under a board and won't come out.

"I don't care who you tell," squeaked a voice; "just so you don't tell the cat."

Back slipped the Twins to the court house, where Mister Fuzz Wuzz was waiting.

While Sunlight Works

YOU have more leisure hours on wash day if you use Sunlight Soap. Away downstairs in the wash tub this wonderful soap will do the labour. You rub the things with Sunlight—you put them to soak—and then its penetrating, cleansing ingredients search through and through the fibres, loosening even the hardest dirt or the oldest grease stains completely. No wash board rubbing, no boiling, no hard work. Then, with rinsing, the dirt runs away and your clothes are ready for the line, purified and snowy clean.

Wash day should not take your labour—only Sunlight's gentle strength.

MEN! TAKE THIS HOME TREATMENT; REGAIN STRENGTH

Stop Worrying and Create Red Blood, Nourish Your Nerves and Be Strong Again.

Remember how strong you used to be; how steady your nerves were; how your vitality responded to every call you made upon it? Then do not be discouraged even though you are now weak in body and your nerve power seems exhausted. You know that you can pull through to success and happiness just as soon as you can win back your old time vigor and confidence in yourself.

If your body has failed you and you have sacrificed your vitality by overwork or nervous strain, stop worrying and build yourself up again. There is a safe home treatment waiting for you. In twelve days you will feel returning strength.

Start to create red blood that will go pulsing through your veins with the throb of life power. Nourish your nerves which are the driving force of body vitality. Give to your system the elements it must have in abundance to restore you—extracts of beef and malt for strength; iron and maganese to form red blood; glycerophosphates to aid nerve restoration.

Get from your druggist today a generous size bottle of Wincarnis, the restorative that contains these blood, nerve and tissue building elements. This Wincarnis home treatment costs less than ten cents a day. Take it for two weeks and you will know what it will mean to you when you regain your old time strength.

RUBBER BANDS.

Have a supply of rubber bands in the drawer of your kitchen table or in some place where you can get at them readily as they are much more convenient than string for fastening small bundles.

FOR CHILDREN.

Childre should not be given rich desserts. Either fruit or milky custards or puddings, very lightly sweetened are the best choice.

MUSTARD.

Homemade mustard should always be mixed with boiling water, and a little salt should be added to it so it will not dry and cake in the mustard dish.

PUPILS PRESENTED A GOOD PROGRAM

Queen Alexandra Home and School Association Saw Splendid Entertainment.

The large kindergarten room at Queen Alexandra School was filled to capacity Wednesday evening for the splendid entertainment arranged for the Home and School Association by Mr. M. H. Park and the teachers.

The programmes were painted in the school colors, black and yellow, by the older pupils. Mr. M. H. Park acted as master of ceremonies.

Choruses by junior and senior fourth pupils, "Fight the Good Fight," "The Blue Bells of Scotland," "Sweet and Low" and "O! Hush Thee My Baby," were well rendered; euphonium solo, William Peryer; vocal solo, Jack Clayton; piano solo, Phyllis Payne; cornet and euphonium duet, William and Frederick Peryer; followed by a dialogue, "The Visit of Aunt Prudence." They were all splendidly rendered.

The event of the evening was an oratorical contest by pupils from junior and senior fourths, "How Private Patterson Won His V.C.," by William Peryer; "The Life of Pauline Johnson," by Winnifred Vance; "The Rule of Oliver Cromwell," by Marjorie Lang; "The Life of Florence Nightingale," by Vera Stephens; "Seige of Zee Brugge," by Ivison Walker, and "Wolfe's Victory at Quebec," by Margaret Reid. Miss Ross, Mr. P. P. Westbye and Mr. R. C. Flitton were the judges, and as all the pupils were almost perfect—Peterborough's future orators in the making—they had a difficult task, and in consequence awarded three prizes instead of two, the judges contributing the third. The President, Mrs. H. G. Walker, presented the prizes, books, to Vera Stephens, first; Winnifred Vance, second, and Margaret Reid, third, all of junior fourth.

The association took this occasion to express to Mrs. S. F. M. Touchburn their esteem and appreciation for her faithful and untiring efforts as President for the past two years. The Secretary, Mrs. Karl Simpson, read the address, which was signed on behalf of the association by Mesdames Dearborn, Hagerman, Kingdon and Simpson of last year's Executive. Mrs. S. Kingdon then presented a beautiful salad bowl with spoon and fork. Mrs. Touchburn replied in a few heartfelt remarks.

A picture contest in the hall created a diversion and consequent mingling of the guests. Mrs. S. Kingdon had highest score and won a large bunch of daffodils.

The teachers had a table of home-made candy, and a generous sum was added to a splendid collection.

Dainty refreshments were served by Mrs. Geo. Lee and her staff, assisted by members of the association. Mrs. S. F. M. Touchburn and Mrs. F. H. Dearborn cut the ices.

A most enjoyable evening was brought to a close by the singing of the National Anthem.

ARE WOMEN 100 PER CENT. EFFICIENT

How many women do you know who are on hundred per cent efficient? That means every nerve and sinew of the body pulsating with life and health as nature intended. Do your not know more who are half dead and half alive, with aches, pains, nervous, irritable and despondent, making themselves miserable and every one around them? Women in this condition should let Lydia E. Pinkham's Vegetable Compound rebuild and restore them to a normal health condition which will make them one hundred per cent efficient and life worth living. There are women in every section of this country who testify to its merits.

CLEANS KEYS.

When piano keys are yellow, rub them with a little lemon juice and whiting, then remove this with a damp cloth.

MAKING MAKE MONEY MONEY

Brief but Important Lessons in Finance, Markets, Stocks, Bonds and Investments.

If a poor investment is made, accept the loss and let it go at that. Only remember how it happened. Many a man has made poor investment after poor investment just in an attempt to recoup a loss.

It may be good gambling policy to keep betting one way in the hope that the law of averages will help you eventually, but it doesn't work in investments.

It is a favorite stunt of the fake promoter to attempt to sell more worthless stock for old worthless stock and some money to boot. Usually the average man would not thin of purchasing such stock except to recoup a former loss.

If you make a poor investment, accept the loss like a man. Just try to remember why you lost, and apply that experience toward making a good investment next time.

OXO CUBES

Men have trained on OXO, run and jumped, played ball, hockey and lacrosse on OXO.

Women have endured on OXO, nursed on IT built up on IT.

Children have thrived on OXO, grown big and sturdy on IT.

OXO Cubes are warmth and strength.

TREATING MEAT.

As soon as meat is brought into the house, take it out of the wrapping paper, wipe with a damp cloth, cut away any part discolored by a meat hook and set away in a cool place.

FARMERS GIVE UP THE GHOST AND MOVE AWAY

Tired of Trying to Make a Living Off the Farm They Move Into Town

DOWNEYVILLE, March 28.—A very successful auction sale was held here Monday at Mr. Thomas Clancy's when he disposed of his entire stock and farm implements. Everything sold fairly well, despite the almost impassible condition of the roads. Mr. George Jackson, of Port Perry, was the auctioneer. Mr. Clancy, with his wife and family, are moving away shortly from this locality.

Many from here are moving to town, and that means more farms being left idle. There are hundreds of acres of land being left idle for the coming year in this and surrounding districts.

Attended Play.

A large number from here attended the play, in Ennismore, "My Irish Rose," last Wednesday, and report it a splendid success.

Mrs. Daniel Haskins, of Rochester, N.Y., and Mrs. D. J. Winn, of Toronto, who have spent some time the guest of their mother here, Mrs. Crowley, have returned to their homes.

Miss Marjory Murray has just completed her course in the R. M. Baker's school in Lindsay, and has taken a position in that town.

Mr. Francis O'Brien, of Toronto, spent a few days here last week on a business trip, and also called on a few of his old friends.

Mrs. Patrick N. Winn, who has been seriously ill for the past few weeks, is able to be around again.

Among those from here who attended the reception at Mount St. Joseph on Wednesday last in Peterboro, were Mrs. Jos. O'Neill, Mrs. Thomas Harrington and three daughters, Miss Loretto, of Toronto, and Grace and ——, from here; Genevieve Lucas and Edna Scully. Miss Mamie Harrington, daughter of Mrs. Thomas Harrington, was one of those who entered.

Miss Pearl Herlihey is at present spending a few days the guest of friends in Peterboro.

Mr. and Mrs. George O'Donnell were business visitors to Lindsay during the week.

Messrs. Wilfred Gooslin and Albert Clancy are busy sawing in this vicinity at present.

The first wheels were seen this morning here when the funeral of Mrs. Edward Curtin came out from were very bad, while other places they were fairly good. However, if the fine weather continues, it will only be a short time until the roads will be in good shape.

The funeral of the late Mrs. Edward Curtin, of West Ops, was held here Tuesday. Mass was celebrated in St. Mary's Church, Lindsay, and the remains were afterwards placed in the vault here. Mrs. Curtin (nee Rose Milloy) was a resident of this parish until her marriage some years ago, and was well and favorably known here. She leaves to mourn her loss her husband and five children, four brothers—Patrick, in Lindsay, John of this place, George and Thomas in the west—and three sisters—Mrs. Patrick Murphy, in Lindsay; Mrs. Simon Connell, this place; and Miss Elizabeth, in Peterboro.

SAVE THE TROUBLE OF COFFEE MAKING—USE Washington's Coffee IT IS MADE JUST DISSOLVE AND DRINK IT. A GREAT CONVENIENCE AND OH, SO GOOD!

IN MILLBROOK AND DISTRICT

Shadow Social in Grace Presbyterian Church—Personal Mention.

MILLBROOK, March 28.—The "Shadow Social," under the auspices of the C.G.I.T. group of Grace Presbyterian Church, held on Tuesday evening, was well attended, and provided a gathering which was much enjoyed. The basement was suitably decorated with the C.G.I.T. colors of blue and white, and the monogram of the organization was prominently displayed at the rear of the platform. The girls looked very attractive in their white middies with blue collars and cuffs and navy serge skirts, this being the recognised uniform for all Canadian Girls-in-Training groups. Miss Anna Russell, the capable mentor of the Presbyterian "Square," had trained the girls for their entertainment and received well-deserved congratulations upon its success.

Rev. G. S. Gervan occupied the chair, and the following programme was given, each number calling forth hearty encores from the audience:—Opening chorus, by the C.G.I.T. Group; Chairman's remarks; reading—"The Mysterious Letter," by Hazel Armstrong; dialogue—"Happy Helpers, by twelve girls, Alice Armstrong taking the leading part; chorus—"Too many girls," by the Group—Hazel Armstrong, Alice Armstrong, Edna Byers, Dorothy Hall, Norma Staples, Mildred Bothwell, Vanita Ingram, Margaret Armstrong, Elizabeth Russell, Jean Gervan, Kathleen Fowler, Leola Huggins, Jean Bothwell, and Violet Bothwell; reading—"The battle for the pirate's gold," by Elizabeth Russell; piano duet—by Misses Ella Elson and Marguerite Russell; dialogue—"Discharged," by Miss Dorothy Hall as "Miss Golden," and Miss Edna Byers as "Susan," Miss Golden's maid; monologue—"Billy Jones' first day at school," by Kathleen Fowler; recitation—"To be a girl," by Violet Bothwell.

This concluded the formal programme, and was followed by a "Flower contest," in which everybody took part, partners being found by matching numbers. The "Shadow contest," from which the social took its name, was the concluding item, ten of the young people posing behind a curtain disguised in various ways so their identity could not be too easily known, and the audience, retaining the same partners as for the previous competition, guessed to whom the shadow belonged.

Miss Loretta Barnard and Mr. H. R. Armstrong were the winners of the first contest, and Miss E. Todd and Mr. S. Johnston of the second.

Delicious refreshments were served, the C.G.I.T. girls making attentive waitresses, and the singing of the Group closing song, followed by the National Anthem, brought a very pleasant evening to a close.

Mothers' Allowance.

Miss M. Burry, of Peterboro, was in Millbrook and vicinity on Monday in connection with the duties of her position as investigator for the Mothers Allowance Commission. Miss Burry's district covers four counties—Durham, Northumberland, Hastings and Prince Edward Island. Once in three months at least, and oftener if circumstances make it necessary, the investigator must visit all beneficiaries under the Act, and report to the Provincials Commission at Toronto, of which Rev. Peter Bryce is chairman. At present no one in Millbrook is receiving this assistance, which makes the recipient a ward of the Government receiving remuneration for services rendered in the proper care of her children.

The "Wide Awakes" Group of Canadian Girls-in-Training of the Methodist Church, will have charge of the meeting of the Young People's League next Monday evening, March 31st, and will show the series of C.G.I.T. slides from the head office in Toronto. These slides give a clear knowledge of the various forms of activity being carried on under the auspices of the National Girls' Work Board among the 'teen age girls in summer training camps, winter schools conferences, etc., and will prove very interesting. The general public is invited.

The Easter examinations in connection with the Continuation School for Forms I., II. and III., begin on Friday, March 28th, and continue until Friday of the following week.

Mrs. W. D. Leach and family, who moved from Millbrook to Toronto to reside about a year ago, have recently removed to Chicago, where they will make their home.

Died—In Toronto, on Sunday, March 23rd, 1924, Mary Jane Nattrass, relict of thelate Mr. J. A. Richardson, in her 84th year. A funeral service was held at her late residence, 72 Henry Street, on Tuesday, March 25th, at 7.30 p.m. Service was also held at W. J. E. Gillott's funeral parlors, Millbrook, at 2 p.m., on Wednesday, March 26th. Interment in Gardiner's cemetery.

FABLES ON HEALTH

FEED BODY PROPERLY

Had anyone asked Mr. Mann, of Anytown, what a cell was, he probably would have answered "A place where they keep criminals."

Which would have been quite correct, but not complete.

A wiseacre friend reminded him one day that the body is built of many small parts. And cells are the infinitesimally small parts that form the house. All living things are made of cells.

Some 8,000,000 blood cells die every hour and have to be replaced.

The growth of the human takes place only through the making over of food he eats. All living cells need food to maintain life and supply energy for work. Hunger is merely an appeal from cells for food.

To produce heat for the body something must be consumed. Work burns up fuel, like a locomotive. All work done in the body or by the body uses up materials that must be made up thorough food supply. Food is the body's one source of energy.

Scientific estimates show that the body is capable of doing work equal to the lifting of 900 tons one foot from the ground.

"So be careful to feed the body properly."

REGULAR MEETING OF LOCAL W.C.T.U.

Expresses Confidence in Beneficial Effects of the O.T.A.

The regular meeting of the W.C.T.U. was held on Wednesday in the green room of the Young Women's Christian Association, the president, Mrs. M. A. Morrison, in the chair. Several items of business were discussed by the meeting, and the following resolution was passed, with decision to forward copies of same to Hon. Howard Ferguson, premier of Ontario to the Attorney-General, Hon. W. F. Nickle, K.C. and to the local member, W. H. Bradburn, M.P.P. The resolution reads as follows:

"This meeting of the Peterboro W.C.T.U. hereby expresses its confidence in the beneficial effects of the Ontario Temperance Act in this city and district. We most strenuously affirm that this Act has been a safeguard to our homes, a protection from crime and poverty, and a blessing to many women and children who suffered under previous conditions. We strenously disapprove of any action that may tend to weaken enforcement. We consider a plebiscite an unnecessary waste of public money and a pandering to the demands of those who do not put child welfare and home comforts in their right relations.

"We assert that no general demand exists for a vote on this Act. No Boards of Trade and no Manufacturers' Associations are asking for a vote. No societies representative of moral, social, educational or religious conditions are calling for a vote. The demand comes only from those who would sacrifice the welfare of women and children for personal gratification of appetite or for financial gain. From such, we claim it is the duty of the Government to protect us.'

"We stand for this Act, because it has produced results. Drunkards' homes are disappearing from our midst. There are no children unable to attend school through poverty caused by drink. Our streets are becoming safe night and day for women. Our children pass no bars or liquor stores on their way to school. Our city and suburbs, with a population of about 30,000 people, show a remarkable decrease in crime. We have less than one Police Court case per day. Commitments to jail for drunkenness in 1914 were 143. In 1922, they had dropepd to 12.

"In view of such results, we emphatically assert that the duty of the Government is, by its attitude, to encourage the law enforcement officers and to continue to improve enforcement, so that the people of this province may reap the full benefit of a measure in which the welfare and comfort of women and children are so deeply involved.

"And we continue to ask that punishment for sale and disposal of liquor be made more drastic and deterrent, and also that adequate punishment and cancellation of licenses be meted out to doctors and druggists who mis-use their privileges.

"We shall continue to work, pray and vote for a measure that contributes so much to our social, economic, and moral welfare, that protects the child, the home and the community, and we emphatically assert our claim to the aid our Government can render in this matter.

"And we submit that the half-million dollars set aside for the taking of an unnecessary vote might well be used for more efficient enforcement of the Act."

Sundry Business.

Mrs. B. Manning gave a report on the recent convention held in Toronto last week, and also gave a brief report on Williard Hall, the boarding-house for young women maintained under the auspices of the W.C.T.U, in Toronto.

An acknowledgment was read of receipt of two bales of clothing, valued at $122, which were forwarded to the branch of the W.C.T.U. in Northern Ontario, which distributes the contents among the needy Indians of that territory.

Arrangements were discussed for th holding of a tea on next Thursday, April 3rd, at the home of the president, Mrs. M. A. Morrison.

DRINK WATER IF KIDNEYS BOTHER

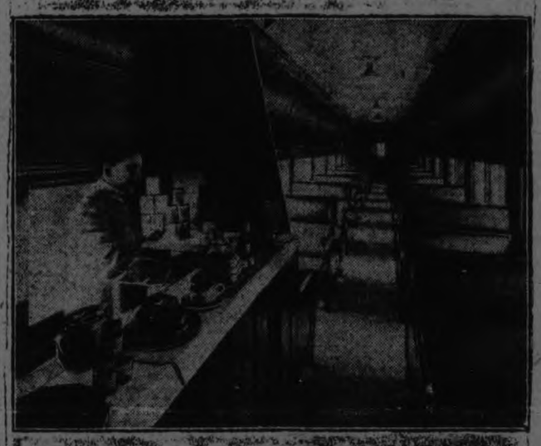
Take a Teaspoonful of Salts if Back Pains or Bladder is Irritated.

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weakens; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids; to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here. Take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure and make a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

LUNCH COUNTER CARS ON NATIONAL



Lunch counter cars which will care for the needs of passengers in the colonist, first class and tourist cars of the main line trains, who do not desire to use the regular dining cars, are being operated by the Canadian National Railways for the convenience of the travelling public, and particularly of immigrants arriving in Canada. As an experiment, lunch counter cars have been placed in service between Winnipeg and Toronto. While these trains carry dining cars and while the Canadian National Railways also have lunch counters and restaurants at all divisional points, it is considered that the lunch counter car will be a great benefit to women travelling with children and to others who may be physically unfit or unable to leave the train at stations because of severe weather, or for other reasons. The lunch counter has been fitted up at one end of a steel colonist car, where the best grade of tea and coffee freshly made will be served. Light meals comprising cereals, sandwiches, pies, preserved fruits and other canned goods will be available at Canadian National standard lunch counter prices. A competent and courteous attendant will be in charge of each lunch counter and service may be secured at any time during the day.

The suggestion of the lunch counter cars was made by Mr. Walter Pratt, General Manager of Dining, Sleeping and Parlor Cars and of Hotels, who has been anxious to provide this facility to further improve travelling conditions and add to the comforts of passengers on the Canadian National Railways."

REVIVAL MISSIONARY SERVICES

Revival and missionary services of the Christian and Missionary Alliance type now being held in this city are the most popular known for a long time. It is not because there is no plain talking about sin, or the atoning blood of Calvary, or the uselessness of mere church membership, or the sensuous pleasures of the world. The old-time Gospel is sung and preached with great force.

The Alliance colored quintette are a band of men consecrated to the great work of singing, as only they can sing the old-time revival songs and many southern Gospel melodies. Yesterday afternoon in Bethany Tabernacle each one told the story of how they came into Gospel service and each one is absolutely definite and clean cut evangelists in life and service.

Miss Jones, from China, who has had some wonderful experience at the hands of the bandits and will tell of these at both meetings today; Rev. William Hay, M.Th., who has travelled widely over the mission fields of the world and been associated with Chapman and Alexander and others in evangelistic work bring their stirring and impressive messages each day. Rev. A. W. Roffe, who presides, is the Canadian superintendent of the Alliance and has done great pioneering service for the Alliance that has required intense earnestness and commanding faith.

The attendance at the services now being held has so increased during the week that once more it is necessary to move to a larger building to accommodate the crowds at the evening meeting. St. Paul's Presbyterian church has been kindly placed at the disposal of the Alliance and the meeting will be held there to-night (Friday) at 7.45 prompt. The afternoon meeting, which is being largely attended, will be held in Bethany Tabernacle today at 3 p.m.

On Saturday a children's meeting will be conducted at the same place (Bethany Tabernacle) at 3 p.m. by Miss Jones from China, and on Sunday there will be three missionary services, that in the morning being held at the Tabernacle at 11 o'clock, and the afternoon and evening at 3 and 7 in the Capitol Theatre.

RICH GOLD FIND MADE BY RUSSIAN

Prospector Works Under Protection of Red Army Troops.

LONDON, March 28.—(United Press). —"Enormously rich gold deposits" have been discovered in Mongolia by an unnamed Russian prospector, working under protection of "Red Army troops" according to the Evening News Peking correspondent. The suggestion is that this alleged discovery accounts for the desire of Kara-Khan, Russia's envoy who is negotiating for recognition by China, to China to prolong the Chino Russian impass according to the correspondent, who says that "under existing conditions Russia holds mongolia through a secret treaty with the Mongol princess."

TRANSPORT DISPUTE NEAR SETTLEMENT

LONDON, March 28.—(Canadian Press).— The Prime Minister after having been in conference during with all parties to transport dispute, including railway leaders, was able to announce to house late last night that, after successful conferences, he had suceeded in bringing two sides together, and had impressed upon them necessity of settlement, which they admitted they were equally desirous of bringing about.

Negotiations have begun, and Prime Minister added, would be continued to-day first step would be to issue proclamation of state of emergency, and he hoped that neither side would take that as threat or provocative.

It is understood that in any proclamation of state of emergency will not be made before Saturday.

Action Over Insurance Dismissed With Costs.

TORONTO, March 27.—Mr. Justice Smith has dismissed with costs the action of Milan Dimitroff, Mike Lyaban and William Nicholichuck of Welland against Cromwell Gonder, insurance agents, of the same place. Plaintiffs had placed insurance through him with two companies licensed to do business in Ontario, but the companies later cancelled the policies, whereupon the agent informed his clients that he could place insurance with companies in the United States not licensed to do business here. These policies ewer accepted by the plaintiffs. While the insurance was current, plaintiffs' grocery store, butcher shop, barber shop and poolroom in the Township of Crowland were destroyed by fire, with a loss of $7,600. It was then found that the insurance companies in the States were insolvent.

Archduke Falls From Grace After 22 Years.

GENEVA, March 28.—(United Press).—Archduke Eugene has at last decided to marry.

For twenty-two years he has remained true to a vow of celibacy he took in his youth, but it is announced at Basle that he is engaged to Mme. Burckhard, a wealthy Swiss widow.

Archduke Eugene is an uncle of the late Emperor Karl. During the war he commanded the Austrian Army on the Piave.

When he was 39 it was reported that the Archduke fell in love with the pretty daughter of a commoner and resolved to renounce his title and birthright in order to marry her. The influence of the whole Hapsburg house was thrown against the match, however, so he didn't.

Last year the Archduke asked the Pope to release him from his vow of celibacy.

Rev. H. J. Weiller, former pastor of the Lutheran Church at Huron, O., has resigned his pulpit and purchased a garage.

NEW UMBRELLA.

One of the most pretentious umbrellas seen this season is very short and stubby as to stature and has a beaded handle.

Your Health

By DR. CLIFFORD C. ROBINSON

COLDS FROM EXPOSURE

Overheating, severe chilling, and getting thoroughly wet by storms are three leading causes of colds by exposure. Carelessness in such matters is a case of ignorance or a wilful neglect of health, that will be sure to show in lessening bodily resistance, before many years have gone by.

This exposure, to which so many severe colds are due, may be of two kinds:

1. The sudden exposure or chilling which often occurs after sweating freely from an overheated body and then a dash out into cold or wet.

2. The longer or continued exposure which may be the result of a long ride, working in a cold room, under adverse conditions or exposure from outdoor labor with insufficient clothing or other protection.

Working in a warm room, with comparatively little clothing on, then going out with the same protection, while perspiring freely, and meeting a cold blast from the north will give you the necessary impetus to a severe cold in the head and chest. The contact is sudden, sure and severe.

To avoid either of these two causes of severe colds is a matter which all persons can control to a great extent. Do not lie down to rest or sleep without cover. Never lie on a cold cement or ground floor for rest with the body heated above normal, or at any time but for a few minutes, when awake.

See that the air supply to your room comes from the proper top window opening and does not fall directly on your resting place.

Look out for bad conditions when working in wet clothes. Change and become thoroughly dry before exposure to cooler air outside.

EFFECT OF DIET.

When reducing, the time and amount of water to be taken is a point of importance. In the real reducing diet I advocate your use of at least one full pint daily.

The bodily loss of water, in one way and another, is about two quarts daily. So in your diet, as advocated in the article on reducing, you will notice the amount is comparatively small.

This gives you a good idea of what part water plays in food and the digestive processes. If your body, under ordinary living conditions, calls for about three or four pints of water daily (although comparatively few take this amount) you can readily see what loss will result through the diet ration.

As no weight reduction is advocated for those under 19 or 20, the amount of water need not vary to the extent of more than one pint either way.

Another important point to be carefully considered, in the reducing regimen, is the attention one must give to keeping careful tab on bodily condition and weight every day or two.

If you feel an uneasy sense of undue weakening after a few days or a week go slow on your exercise programme until the real effect of the reducing diet has become more adapted to the bodily sense of healthy accommodation.

Bear in mind the success of your reducing diet will depend as much on your common sense and attitude of mind as on the diet itself.

A Tale of Two Cities

The Old World—and the New.

The camera recently snapped a telephone worker in Old London in the act of posting up outside one of the city telephone offices, the latest figures of development in the London Area. The 400,077 telephones he is seen announcing would indicate a development, based on a population of seven million, of 5.7 telephones per hundred of population.

At the same time that the above figures were on view in London, there was posted up in the big telephone building on Adelaide Street, Toronto, the regular monthly record of telephone development in that city. The figures for Ontario's metropolis stood at 130,375, which works out on the basis of 600,000 population, at 21.73 telephones per hundred of population.

The contrast between the 5.7 per hundred of London and the 21.73 of Toronto, is no doubt roughly expressive of the attitude of Old and New World residents towards this great modern convenience.

The Referee

HOME-BREW

Some of the big manufacturers of soft drinks are understood to have made large contributions to the prohibition campaign, with the idea that the passing of the saloon would stimulate the sales of soft drinks.

Oscar Hogensen of the Illinois Bottlers of Carbonated Beverages Association says in a speech that prohibition has dealt soft drinks a body blow. Ginger ale and the like have fallen by the wayside. The national drink is "home-brew."

This condition may be temporary. But it illustrates how any movement is apt to become a boomerang.

PRODIGY.

A former child prodigy now 26, who graduated from Harvard when he was 16, recently was discovered working for $23 a week. This has attracted a lot attention and comment. But the chief thing it shows is that Americans measure success by dollars.

That is a wrong notion. Steinmetz didn't leave much. But he was one of the 10 most successful men of his generation.

DARE-DEVIL.

In 1757 John Childs climbed to the top of a high steeple in Boston and jumped off, alighting safely 700 feet away. He was one of the pioneer aviators, demonstrating a sort of parachute contraption. Boston recently honored him with a bronze tablet or scientific billboard.

It takes generations to develop a revolutionary new device like the airplane. You should remember John Childs and other pioneers when you buy your flying flivver—15 years from now?

BRAINS.

The Americans are described as "the best half-educated people in the world," by Israel Zangwill. Dr. Nicholas Murray Butler of Columbia University says Zangwill flatters us—that his estimate is too high.

Butler is right. Even our brainiest men do not know more than a thousandth of 1 per cent of the Truth. Education is simply a process of extending our horizon—revealing the gigantic extent of what we do not know. Man learns little in reality. He merely increases his conception or consciousness of his ignorance.

AUTO

There's an auto or motor truck in our country now for approximately one in every seven people. The latest check-up shows there were 15,281,295 passenger cars and motor trucks in the United States at the beginning of 1924. It was a gain of nearly a fourth in a year.

Twenty years from now, or sooner, you may read similar statistics about airplanes, the coming popular form of transportation. Evolution is taking us off the ground, to which we have been "chained" for thousands of years. It corresponds to the first fish which, wanting to fly, grew its fins into wings.

POISON

Whisky, supplied to bootleggers by the "rum fleet" lurking near New York harbor, has become so impure that confiscated bottles hereafter will not be sold to hospital. This is announced by United States District Attorney William Hayward.

Formerly there was much good liquor, the real stuff from Scotland. After analysis, Uncle Sam sold the best to hospitals. Now it's a rare quart that analyzes pure. Hayward says the rum ships are "floating chemical laboratories to adulterate good liquor or produce synethic whisky."

Rash idiots will sniff and say: "Dry propaganda."

SWEET

People are using less sugar. Willett & Gray, sugar trade authorities, announce that less than 96 pounds of sugar was sold last year for every man, woman and child. This is eight pounds less than the year before, and only 11 pounds more than in the years before the war.

The most logical explanation is that people are making less wine in the cellar. Candy eating continues big. Sugar is a twin brother of alcohol. There are plenty of "candy drunkards."

SHOCK

Fifty thousand volts of electricity passed through an employe of General Electric Co., at Schenectady. His heart and breathing stopped for several minutes. Then he revived. Alive now.

A current of 2000 to 5000 volts would have killed certainly. An overdose of electricity is like and overdose of a certain poison that is fatal in small quantities.

Electricity is the Supreme Mystery, barring the spiritual.

TENANTS

The ideal agricultural situation would be for every farmer to own the land he farms, and get food prices for what he grows. Farm tenantry is a dangerous tendency, though all right in certain cases. So it's good news, that farm tenantry increased only 1 per cent in the 10 years covered by the last census.

About 40 out of every 100 farms are now operated by tenants instead of by the owners. Many a farm, capable of earning only one profit, is trying to earn two under the tenant system.

SHEEP

In a contest in Australia, a man counts 19,217 sheep in an hour and 39 minutes, without a single error, and gets a prize.

Remarkable accuracy of eyesight and thinking.

But the thing impressing us most is that counting over 19,000 sheep didn't put him to sleep. Hereafter we'll try another system. The brain works strange tricks. Maybe you've had the experience of counting imaginary sheep to put you to sleep, and suddenly the sheep changed into cows.

Grand National Run Over the Aintree Course

By P. M. SARL

LIVERPOOL, March 28.—(United Press).—The Grand National Steeplechase, the world's greatest horse race over obstacles, was run today on the famous Aintree track here and aroused the customary enthusiasm and betting.

King George, the Prince of Wales, and a distinguished house party, enjoying the hospitality of the Earl of Derby at his nearby mansion, Knowsley Hall, were early arrivals.

It is computed that it is 5 to 1 against any horse completing the course without mishap, yet gamblers backed their fancy as cheerfully as though it were only a question of the fastest horse winning in a flat race. There are nineteen formidable obstacles to be covered, all but one, the first, having to be negotiated twice, and the full distance of the race is just over four and a half miles—perhaps the severest test of equine stamina apart from jumping ability, that could be devised. The obstacles include fences, stiffly built up with furze-bushes; ditches, brooks, walls, and combinations of all, so that the successful horse is not unjustifiably regarded as the best jumper of his year. Two obstacles, known as Beecher's Brook and Valentine's Brook, provide fearsome leaps, being natural brooklets guarded by stiff furze-bush fences, which require considerable nerve on the part of horse and rider to essay. "Beecher's" has been the watery "grave" of many a heavily-backed "National hope."

After each race there is a "humanitarian" outcry about the severity of the Grand National fences, but it soon dies down, and actually the number of serious accidents is astonishingly small.

The field included several previous winners of the race and many careful backers only touch animals who have proved their ability to complete the course. In addition to the betting on today's race, huge sums were at stake in connection with the numerous "doubles" taken about today's competitors and the winner of the Lincolnshire Handicap last Wednesday.

THE WHOLE FAMILY WAS LAID UP WITH SEVERE COLDS

On the first appearance of a cough or cold our advice to you is to get rid of it before it has a chance to grow worse; gets settled on the lungs, and causes bronchitis, pneumonia, or other serious lung troubles.

Dr. Wood's Norway Pine Syrup will immediately relieve the cold or cough on its inception.

Mrs. David Ayres, Kearney, Ont., writes: "Our whole family was laid up with severe colds ,and we didn't seem to be able to get any relief from anything we used until, one day, a friend came in and told me we would be sure to get rid of our colds if we used Dr. Wood's Norway Pine Syrup. I decided to take her advice, and in no time our colds were all gone.

"Now, knowing the value of your remedy, we will always keep it on hand so as to have it in case of emergency."

Sudbury Youth Chased Four Miles By Wolves.

SUDBURY, March 27.— Johnny Rainville, 19 yearold Coniston trapper, reached Coniston yesterday morning in a state of exhaustion. He had been chased four miles by a pack of wolves, he said. Rainville was out on his trapline when he saw over a dozen of the animals approaching him. He climbed a tree, but it broke beneath his weight, so he took to his heels and, headed for town. He admitted he didn't look back until he reached Coniston, so he couldn't prove the wolves chased him all the way. He started out with a rifle this morning to seek revenge.

Doctor to Airplanes Is a New Profession.

LONDON, March 28.—(Associated Press).—The vogue of flying in virtually all countries has been the means of creating a demand for an airplane "physician and surgeon."

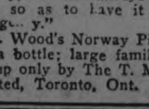
This profession has been taken up by Frank Courtney, who won the King's Cup airplane race here last year. He has been on the Continent testing out new machines, and has now left for the Arctic circle where he will put new machines through their paces. Several other pilots are acting as consulting "surgeons" to airplane makers. When a firm finds any particular plane is not behaving quite as it should, the

PISTOLS

Police Commissioner Enright of New York City again urges Congress to make a law prohibiting the manufacture, sale and possession of pistols—except to officers of the law.

States and individual communities cannot stop the traffic, for pistols can be bought by mail order.

If you want to help disarm the underworld, here is your chance. Write your congressmen, urging the law Enright wants.



Are You Listening In?

Radio Is Coming in Good NOW

Ask any Radio owner, especially those who have a Northern Electric Set, and they will tell you the air is full and overflowing with the most select concerts, sometimes direct from the stage of the great metropolitan theatres, the programmes coming in so realistically, one can imagine they see the performers.

If you are not listening to these nightly concerts, you do not know what you are missing—Radio is an endless source of entertainment—always new, always different and always good.

RADIO COSTS VERY LITTLE

For so little money, there is nothing in a home entertainer to compare with Radio. We can supply a

Northern Electric Detector Unit

Complete with head 'phones, aerial, batteries, etc., a set that will bring in stations as far away as Chicago, Atlanta, Ga.; Davenport, Ia.; Louisville, Ky., etc., and the price is only **$53.00**

The same set without aerial to use an attachment to any electric light socket for **$49.50**

And Easy Terms to pay if desired.

Demonstrations at our store or elsewhere in your home if you wish. We are exclusive Northern Electric district representatives.

DRUG ADDICTS SENTENCED TO 6 MONTH TERM

Additional Fine of $200 Also Imposed -- Minimum Sentence For Persons Convicted Under This Section-- Dr. King Dismissed For Lack of Evidence.

SIX CHARGES

On his appearance before Magistrate O. A. Langley this morning on a second charge of illegally supplying drugs, Dr. De Courcy King was dismissed, no evidence being offered by the crown, represented by G. W. Hatton, K.C., County Crown Attorney. Dr. King was last week fined $300 and costs on a similar charge.

Five men who were arrested on March 6 and 7 on charges of having drugs illegally in their possession appeared for sentence, having previously pleaded guilty to the charges, and were sentenced each to six months imprisonment in the Ontario Reformatory and a fine of $200. In default of payment of the fine two weeks will be added to the term of imprisonment.

Joseph Collins, Alonzo Yorke, Quint Hargrove and Ed. Quinlan were arraigned on one charge each and John Pethick on two charges. Pethick will serve only six months the sentences running concurrently, but the fine in his case is $400. Costs will be added to all the fines.

All the prisoners asked for the leniency of the court, Hargrove declaring he is not an addict and never has been. He said he was not treated by Dr. Morgan because he did not need it. He was simply carrying the drug for another man.

Mr. Strickland, who appeared particularly for Pethick but spoke on be half of all the young men, said since the parent source of supply had been cut off the ends of justice might be served by withdrawing the plea of guilty and releasing the men to report periodically to the police when they could be kept under observation. In regard to Pethick, who is only 19 years of age, he said the boy pleaded guilty before taking legal advice, and a good defence could probably have been entered.

Regrettable Position

Mr. Hatton: "It is most regrettable to see young men in this position, but your hands are tied and you must administer the law no matter what your personal feelings are. No doubt representations will be made to the department and recognizance taken of their condition, and the department will deal with their cases on their merits. Regrettfully I have to say that is as far as the court can go."

Magistrate Langley said it was hard for him to be in this case the arm of the law to pass sentence, and yet it might be the best thing for the men before him. "I takes some will power on your part to get rid of a habit like that. If you think my advice is worth anything at all, try to have the strength of mind to keep away from the drugs. If I had the powe, myself I would not give quite as much imprisonment as I am compelled to in this case. The very lowest I as a Magistrate can impose is six months imprisonment and a fine of $200. If the fine is not paid I must impose further imprisonment to commence at the expiration of the term of imprisonment."

Harry Rush, Esq., J.P., who sat on the bench with Magistrate Langley and was invited to address the accused men, said: "Boys, you are clean looking, good looking, young men and I would strongly recommend you to take your medicine like men and when it is over keep out of bad company and shun drugs. I am very sorry to see you sentenced. Determine you will do what is right in the future."

The Magistrate intimated that he will date the sentences from the day of each man's arrest three weeks ago.

SIR EDMUND WALKER FUNERAL IN TORONTO

One of Largest Funerals in History of the City.

TORONTO, March 28.— (Canadian Press.) — Attended by representative Canadian leaders of government, finance and scholarship, the body of Sir Edmund Walker, president of the Canadian Bank of Commerce and Chancellor of Toronto University, was laid to rest in Mount Pleasant cemetery this afternoon.

Public service in Convocation Hall was a crowded one. Sir Robert Falconer, President of the University, and Rev. H. J. Cody, of St. Paul's Anglican church and member of the Board of Governors, delivered eulogistic addresses. Previous to the public obsequies there was a private family service at the late home of Sir Edmund.

Following the impressive service at Convocation Hall the cortege moved to the cemetery. It was one of the longest funeral processions in the history of the city. The Ontario Legislature adjourned and all lectures at the University were suspended to enable legislators and students to pay their respects to the memory of Sir Edmund.

Pallbearers were four sons of the deceased, Messrs. Ewart, Harold and Alfred Walker and Dr. W. M. Walker, all of Toronto; also two brothers, Messrs. H. B. Walker of Montreal and A. P. Walker, of Pelhamanor, N.Y.

Rapid movements and changes in sun spots are closely related to electrical storms.

Instructions for Use.—All the hours above are given in Central Standard Time. If your city uses Eastern Time, add one hour to each of the periods stated; if your city uses Mountain Time, subtract one hour; if your city uses Pacific Time, subtract two hours. This table includes only the evening broadcasts, and, on Sunday, the late afternoon program.

BRITISH HARVESTERS STILL REFUSE A JOB

Persist in Travelling to the Capital to See Premier.

PRESCOTT, March 28.—(Canadian Press).—The British harvesters marching from Toronto to Ottawa reached here yesterday afternoon, and, judging from their rate of travel, will likely arrive in the capital some time over the weekend. They covered only twelve miles separating Prescott and Brockville yesterday.

Sandwiches, coffee and lodgings were provided the men here last night by the Town Council. The men were offered farm positions and free transportation, but refused, deciding to await the outcome of their mission to the capital.

VARIOUS CRITICISMS OF FOREIGN POLICIES

LONDON, March 28.—(Canadian Press).—In replying to various criticisms concerning the Government's foreign policy, Premier MacDonald took occasion in the House of Commons to deny categorically that the Government had attempted in any way to influence the Experts' Committee in Paris. Remarking that the Government, after considering the experts' reports, would be ready to consult with other Governments concerned for the purpose of defining a common policy, the Premier said:

"Supposing we succeed in clearing the pressing difficulties, then will be the time to put our weight behind the completed League and to have, either by resolutions such as were passed by the American Senate the other day, or by invitation sent by France, America, Italy and ourselves, all nations of the world come together and discuss the whole question of disarmament."

GAVE PASSENGERS A CHANCE TO SEE RACE

LONDON, March 28.—(Canadian Press).—A large number of passengers bound for Canada on the liner Montrose were given an opportunity of witnessing the Grand National Steeplechase at Liverpool to-day. The Montrose was held at the Liverpool landing stage specially for this purpose, and waited long enough to give the passengers time to reach the ship after the race was run.

HOME BANK QUESTION BEFORE A COMMITTEE

OTTAWA, March 28.—(Canadian Press).—The next developments in the Home Bank situation in Parliament are expected before the Banking and Commerce Committee of the House of Commons to which the question was referred by a vote last night. The first meeting of this committee is not expected to take place before a week or so, but it is thought that the committee will get down to work before Easter.

BACK IN THE RANKS.

KINGSTON, Ont., March 27. — Some of the Royal Military College cadets who heretofore wore sashes and other official stripes, are now in the ranks. They have been reduced as a result of the Arnold episode.

MEAT STOCK.

Meat stock; used instead of water in meat sauces, gravies and stews, makes them richer. By boiling meat in stock, the stock itself is enriched.

PRESENTATION TO RETIRING PASTOR

Rev. W. E. and Mrs. Morrow Will Leave For Fonthill Next Week.

The members and adherents of the Park street Baptist church gathered last night to bid farewell to Rev. W. E. Morrow and Mrs. Morrow, who leave for Fonthill next week.

Mr. Jos. Wearing occupied the chair in his usual able manner.

The following programme was given:

Opening hymn, Doxology.
Prayer, Rev. Mr Morrow.
Solo, Mr. M. Dunkley.
Instrumental, Mr. Walter Townsend.
Solo, Miss E. Pilling.
Address, Rev. Dr. Rose.
Solo, Mr. W. H. Moore.
Instrumental, Walter Townsend.

Rev. and Mrs. Morrow were then called to the platform, when Mr. O. S. Matchett read the following address beautifully framed, and at the proper moment Mrs. M. Dunkley presented them with a well filled purse:

Peterboro, March 27, 1924.

Rev. and Mrs. W. E. Morrow, City:

Dear Mr. and Mrs. Morrow: It was with deep regret that we were called upon to accept your resignation who have been our leaders for the past four years.

We have to-night to express to you our deep sorrow at your departure from our midst. We have learned to know your worth since coming amongst us, and we know what we are losing; but distance does not change true friendship, only tends to make it stronger. So among the many new friends you will make in your new field of labor we hope you will not forget the old ones here.

Under your able leadership our church has prospered in every department, and not one of us but has enjoyed and been benefited by your true gospel sermons and interpretations of His Holy Word from Sunday to Sunday.

We wish to express to you both, also to Wilda and Neal, health, happiness and success in your new house —also that we may at some future date, have the pleasure of having you amongst us again, where you will receive a hearty welcome.

Though fate ordains that we must part,
And each fond tie doth sever,
Yet still thou reignest in our hearts,
To be dethroned never.

We cannot let you depart without in some way expressing to you our appreciation of your work now in our midst. We would ask you to accept this purse as a slight token of our love and esteem.

Signed on behalf of the Park street Baptist Church,
Harry Goodwin, Church Clerk.
Alfred Scott, Chairman of the Deacons' Board.
Oscar S. Matchett, Chairman of the Finance Board.
James Garside, Chairman of the Trustee Board.
Jas. I. Maybee, Superintendent of the Sunday School.
Neal F. Porter and Maurice Dunkley, Asst. Sunday School Superintendents.
Mrs. E. G. Johnston, President of the Gleaners' Bible Class.
Alfred Thompson, President of the B.Y.P.U.
Mrs. F. A. Kidd, President of the Ladies' Aid.
Mrs. Robert Wright, President of the Mission Circle.
B. Norma Moore, President of the Mission Band.
B. G. Robinson, Organist and Choir Leader.

Mr. Morrow replied on behalf of himself and Mrs. Morrow very feelingly, after which refreshments were served by the ladies.

The evening was brought to a close by singing "Blest be the Tie that Binds," and prayer by Rev. Dr. Rose.

Mr. Morrow preaches his farewell sermon on Sunday evening, March 30th.

A cordial invitation is extended to all to attend.

POISONS SELF DIDN'T KNOW IT

Merchant Didn't Know What Was the Matter Until Nausea, Sick Headache and Bad Digestion Were Traced to Their Cause.

A local merchant was surprised to find that his tired, nervous, bilious condition was due to poison from the food he ate. Instead of being digested and eliminated properly, his food was poisoning his whole system, causing sick headaches, nausea, sour gas on weak stomach, bad digestion, improper movement of his bowels. Having neglected his liver, that important organ became a menace to his health instead of an an aid. Dr. H. S. Thacher's Liver & Blood medicne, however, made a quick difference in the way he felt, slept, ate and looked. This remarkable remedy acts directly on the liver and keeps the whole system toned up. It is sold with the understanding you will be completely satisfied, otherwise, there will be no cost.

Dr. Thacher's Liver & Blood Syrup is sold and recommended by J. P. Bond, McDermid & Jury and The Warne Drug Company, Limited, in Peterborough; The Tanner Drug Company in Lakefield.

BRITISH FLIERS ARRIVE IN ROME THIS MORNING

ROME, March 28.— (United Press.) —Major MacLaren and his companions of the British round the world flight expedition arrived at Centocelle Airdrome at 7.40 a.m. today, landing their big Napier-Vickers Amphibian plane without a mishap. They left from Lyons, France, yesterday.

In tropical latitudes the direction of prevailing winds is from east to west.

DIAMOND TOKEN WAS PRESENTED TO JOHN ALLEN

Marks Completion of Twenty Years Service to Prudential Insurance Company--Banquet Marked Occasion With Many Guests.

CONGRATULATIONS

Last night was a big night in the life of John I. Allen, superintendent of the Prudential Insurance Company in this district, when he was the guest of honor at a banquet in the Empress Hotel, which marked the completion of his twentieth year of service in the company. The personnel of five staffs joined in doing honor to the celebrant and officers of the company were present from the head office for the occasion. Mayor J. J. Turner, City Solicitor Joseph Wearing, Vincent Eastwood, manager of the Royal Bank, Dr. A. W. McPherson, Dr. Raymore Scott, and others, represented the various city organizations.

The gathering was presided over by E. J. McIver, assistant secretary of the Prudential Company, who read a telegram of regret in his absence from G. N. Gordon, K.C., M.P., Deputy Speaker of the House of Commons, in which he paid a tribute to Mr. Allen and the work he has carried on in Peterboro.

Speaking of the growth of the insurance business in Canada under such men as Mr. Allen, the chairman said twenty years ago there were in force in Canada only 135,000 industrial policies covering $18,000,000 insurance, and there are now 3,000,000 policies, and the amount of insurance is $430,000,000. "On the continent—and I don't think they live long enough in Mexico to take out insurance—at the end of last year there were 59,000,000 industrial policies in force for $9,500,000,000."

The Prudential Company, he explained, has five classes each representing five years of service, the tokens being respectively bronze, silver, gold and diamond. "Any man who has completed twenty years with this or any other good company," he said, "whether given a badge or not, can say, 'I have had twenty years of life'—he has seen it and has helped to make life easier for a great many people. Just as the individual human being is a link between the past and the future so we economically are a link between the present and the future, and as we do our work well or ill will the result be good for the people who come after us."

In presenting the diamond studded locket, emblematic of twenty years' service, to Mr. Allen, Mr. McIvor conveyed the congratulations of the Vice-President of the Company, Edward Grey.

Twenty Years of Life.

Mr. Allen expressed his gratitude and gratification in the receipt of this tangible evidence of recognition of his service. "This represents to me more than its value in gold and diamond," he said. "It means twenty years of my life and service in the interests of the company. I have looked forward to it and I have never in all the years I have served the Prudential Company looked to the money I have made. I have never yet sold a life insurance policy for just what it will bring me, and I never will. Every man in this business should look to the good he can do. The money will come anyway. I wouldn't give up the satisfaction for any money. The man who engages in this business will have the joys and the sorrows as I have had, but he will be a better man in the teachings of the Master of men as well as in the insurance business."

Mayor J. J. Turner said his conception of the life insurance business is "It all depends on your vision." Life insurance will build up industry and thrift, things which are needed in this community, industry to earn, and thrift to save. "You stand in this reconstructive period of the world's history as men with the opportunity to do that which will save old age and provide for dependants. It is a splendid field of endeavor and progress for the man with vision."

Dr. McPherson spoke his appreciation of Mr. Allen's work, and said he deserved the recognition he received.

Mr. Wearing said Mr. Allen had the two qualities that raise a man above his fellows—deadly persistence and sincerely working for the good of humanity. "John Allen is one of the elect with regard to those men who work for the good of humanity," he declared.

Mr. Eastwood in telling his appreciation of Mr. Allen and his work, gave his view of life insurance as it applies to the man on the street.

Cobourg Man Recognized.

E. E. White of Cobourg, received his ten year silver token, and in acknowledging it tendered his gratitude to Mr. Allen, who gave him his first start in the business.

Forty guests were present from all over the district, and the gathering was marked by its hearty good will.

Among those who attended were: Jos. Wearing, V. Eastwood, Dr. J. B. Mann, Dr. A. W. McPherson, Dr Raymore Scott, Mrs. J. I. Allen, Fred Allen, Miss E. Taylor, Miss M. E. Bridge, Miss E. H. Jackson, of Peterboro; E. J. MacIvor, Newark, N. J.; Gordon Pew, Newark, N.J.; A. W. Wray, James O'Toole, W. R. Parnell, T. E. Ross, of Peterboro; W. H. Chapman, Campbellford; G. E. Devell, Wm. McLaren, R. F. Sedgwick, F. J. Flaherty, T. J. Best, W. S. Hamlin, of Peterboro; E. P. Haynes, Lindsay; W. E. Wright, Thomas Record, George C. Roy, of Peterboro; E. E. White, Cobourg; J. N. Trenouth, Port Hope; J. L. Coffey, Cobourg; G. L. Stevens, Cobourg, H. C. Harris, Bowmanville; D. Morris, W. O. Bennett, E. Jeffrey, J. E. Harris, of Oshawa; A. E. Sturgess, Whitby; A. Moffatt, Orillia; S. E. Sugg, Barrie; A. St. Cyr, Orillia; N. T. Caldwell, Orillia; S. C. Chatten, Barrie.

OUT OUR WAY—By Williams

KIWANIS WENT FROM LINDSAY TO AUSTRALIA

Word Pictures of Inspirational Gathering in Lindsay Last Night and of a Tour Through the Southern Continent Given at Weekly Luncheon.

START NEW WORK

Peterboro Kiwanis Club was carried by speakers from Lindsay to Australasia at its weekly luncheon in the Empress Hotel to-day, Jack Marshall telling of the delightful time spent in the Scugog town last night as guests of the Lindsay club, and J. H. Vernor, of the Western Clock Company, painting word pictures of the Australasian countries. Gladstone Brown, assisting the Male Voice Choir in its concert to-night, rendered two selections that called forth hearty applause. Charles Cook, vice-president, was chairman for the occasion.

President Jack Marshall, who headed the Peterboro contingent at Lindsay, said a splendid reception was given the visitors, and the entire programme was an inspiration that meant much to every Kiwanian who attended.

Ernest Smith, of the West Toronto Club, brought the greetings of his branch, and as a follow-up to the Lindsay gathering, advocated more visiting between clubs. He also suggested taking the ladies more into the affairs of the Kiwanis clubs, giving them at least fifty per cent. of the features.

Regarding the business undertaken by Kiwanis in connection with the camp in Jackson Park, President Marshall said the work has been rounded out and completed, and the club is searching for a further outlet for its activities. It has been definitely decided to go into the "Kiwanis daddy" movement, and a committee consisting of John A. McKone, Charles Cook and Jack Marshall, had been appointed to plan the work, and boys who are found in need of guidance of a parental nature will be assigned to the care of individual Kiwanians.

In Australia.

Speaking of the British Dominions, Mr. Vernor said Australasia comprises a vast continent, and Tasmania is a fair-sized State by itself, noted for its splendid apple orchards. Tasmania is a very old colony.

New Zealand is as far from Sydney in Australia as London is from Montreal. It is a very beautiful country. From 1769 to 1840 there were only about one hundred white people settled there. This was due to the fact that the country was settled by the highly civilized Maoris. They were noted for their warfare and the country was an easy one in which to obtain a living. The white people had been unable to make any progress against the natives, but when the chief of the Maoris became old he made peace, and in the last census there were one million people, of whom only 40,000 were natives.

The largest geyser in the world is in New Zealand, erupting mud 14,000 feet into the air. The country around it at times is buried one hundred feet deep in mud from the geyser. An active volcano makes a pretty picture with its rainbow hued rock and sand, and near it is a lake from which can be seen the fissures in the rock from which steam and boiling water issue.

New Zealand is noted for its large dairy industry and wheat, there being very few manufactures.

A narrow guage railroad runs from end to end of the island and a pass good for a year can be purchased for $50, on which one may travel all he wishes.

Of the thirty ocean harbors he had visited Mr. Vernon believes Sydney is the most beautiful.

The continent of Australia is beautiful in scenery—mountains, rivers, deserts, tropics and everything to make living worth while. Here in Canada we have things much more modern than in Australia, where they take life easy. Canada has everything the rest of them have and it is home to us."

Among the Visitors.

Rev. J. W. Gordon, newly-appointed pastor of St. Andrew's Presbyterian church, said there is nothing quite so helpful and wholesome as this atmosphere in which men meet in a spirit of brotherliness.

Other visitors were: W. F. Skitch, president and C. B. Adair, past president, of the Peterboraugh Male Voice Choir; J. H. Vernor, manager of the Western Clock Co.; Ernest Smith, of the West Toronto Club; Stanley Magee and Gordon Thompson of Toronto down-town club.

The booster for the day was John A. McKone and prizes were won by Herb. Gilgour, Walter Stocker and Dr. Jack Green.

DRIED PEAS, BEANS

Dried beans and peas, pound for pound, are much richer in food values than fresh vegetables, but they require great care in cooking so that the tough skins may be made tender.

LABOR GOVT. MAY FALL IF STRIKE IS NOT SETTLED

The Crisis is Considered the Most Serious MacDonald Has Ever Faced

(By Lloyd Allen, United Press Staff Correspondent).

LONDON, March 28. — The Labour Government may fall if Premier MacDonald is unsuccessful in averting a strike of the subway motormen in sympathy with the tramway and omnibus strikers, political observers predicted to-day.

The sympathetic strike is scheduled for midnight, and MacDonald has summoned the opposing parties in the transportation dispute to the Ministry of Labour early to-day for a desperate eleventh-hour effort to avoid the threatened walkout.

Such a strike would complete the paralysis of London's transportation and its consequence might readily involve the fall of the Government.

The crisis is considered the most serious MacDonald yet has faced.

Fearing the strike of the sumway workers inevitable, big business firms to-day converted all available space into bedrooms to accommodate employees who will have to sleep near their jobs.

The strike of electric light employees to plunge the city into darkness in sympathy with the tramway and omnibus strikers is contemplated.

The secretary of the "British Fascisti' has written to Arthur Henderson, Home Secretary, offering the services of that organisation to assist the authorities in connection with the strike, and "prevent violence, intimidation, or destruction of property.'

After the employers and the employees had met at the Ministry of Labour to-day and began a conference, MacDonald hurried away without divulging his destination.

ADVENTURE

Steffansson, famous polar explorer, says he will make no more journeys into the unknown regions. Exploring, he laments, has lost its thrill. The flyig machine, radio and modern inventions have largely taken the uncertainty out of exploring, and have brought ease and comfort in place of old-time hardships and suffering.

Life increasingly becomes "soft". Any student of biology knows that all this tends to weaken humanity. No muscles without exercise. No strength of any sort without obstacles to overcome. The "easy life" destroys civilization the same as individuals.

HEADACHE

Sometimes a violent headache may be relieved in a few minutes by applying a Turkish towel wrung out of hot water to the back of the neck.

At $2400
WILLYS-KNIGHT
Standard Sedan

is value that towers far above any comparison you care to make. Every mile increases an owner's pleasure and pride in the Willys-Knight Sedan. Beautiful coachwork. Deep restful cushions. Amazing quiet inside. Brilliant performance. An engine that never wears out.

Price quoted is f.o.b. Toronto (Taxes Extra.

Canadian Stock Exchange and Mines | New York Stock Exchange and Curb Prices

TO-DAY'S QUOTATIONS AND OPINION AND REVIEWS OF THE MARKETS.

NEW YORK, March 28.—(United Press).—Intimations after the previous close that the bad break in the high-priced industrials had been due to a raid by floor traders and not by the crowd which had engineered the attacks earlier in the week caused the speculative community to believe that the rapid decline had reached its climax in the sudden drops in issues like General Electric, Woolworth, Corn Products and United Fruit.

This belief was borne out by the action of the general list in the early dealings.

American Can. came back two points to 106 on a few sales. While Corn Products made a new low at 166½ against Thursday's high of 176. General Electric rebounded nearly four points. Rally tendencies characterized the whole market through the first hour.

The rails were given an upward impetus by the splendid action of the North-West group, where substantial recoveries were scored by St. Paul Preferred, Northern Pacific, North-Western and Great Northern Preferred. In the industrials the rally was led by Corn Products, which came back two points from the early low of 166½; it is expected at the directors' meeting this afternoon that either a quarterly distribution of $2.50 or a quarterly and an extra dividend totalling that amount will be declared on the old common of $100 par. No action will be taken on the new $25 par shares as such. The directors will also declare the 25 per cent. stock dividend which was recently authorized by the shareholders.

(Quotations Supplied by Arthur C. Hawley. 'Phone 186).

HOME NURSING CLASS FINISHED LAST NIGHT

At the Y.W.C.A. last evening, the Home Nursing Class which has been conducted under the auspices of the Canadian Red Cross Society, under the direction of Mrs. Edward H. Wood, held the last lesson in a course which has been continuing for some time past. Everyone has found the course, which was most complete, a very helpful study, and the members expressed regret that the lectures and demonstrations are finished. Last evening, the class, wishing to show their appreciation of the faithfulness and energy with which Mrs. Wood has conducted the course, presented her with a bouquet of roses and a gift.

On Thursday, April 10th, the Home Nursing classes will meet together for a review of the course.

In Arizona, Feb. 14 is a holiday, it being the anniversary of the State's admission into the Union.

ORE RESOURCES ARE IMPORTANT ONTARIO ASSET

Prominent Speaker at Engineers' Meeting Says Time is Ripe for Action to Develop Native Ores -- Americans Shutting Down.

VITAL PROBLEM

Another revelation of the natural resources of the province of Ontario was made last night when J. D. Jones, M.E.I.C., general manager of the Algoma Steel Corporation, Limited, of Sault Ste. Marie, addressed the local branch of the Engineering Institute on the development of Canadian Iron Ores. He said that increased interest is being taken in the possibilities in this development, and that the problem of making use of Ontario's resources in this line is actively engaging the attention of the members of the iron and steel industry. American producers are considering ways of protecting their rapidly dwindling reserves of high grade ores sufficiently to permit of their extending their capacity to take care of their rapidly increasing per capita consumption of iron and steel products.

"It was thought," he said, "that due to the discovery of immense deposits of rich hematite ores on the south shore of Lake Superior and later on the discovery of the wonderful Mesabi ores of the northwest shore of Lake Superior, that the question of ore reserves had been settled for a long time to come. It is true that even at the present rate of consumption the ore reserves of Lake Superior will last for many years, but when you take into consideration the fact that the large mines are in comparatively few hands the question of ore reserves assumes an aspect that is worthy of the serious consideration not only of members of the iron and steel industry but also of those to whom the industry means much in the development of the manufacturing resources of thir city and state."

The reserves available for furnaces without mines, the speaker pointed out, are entirely dependent on market conditions, or upon the surplus available from widely distributed mines, and these are becoming increasingly difficult to secure. "It seems to me now is the time for united effort on the part of Canadians to solve the problem, and not pursue the policy of waiting for the not far distant time when we will be forced into it. There is not any iron ore being mined in the province of Ontario to-day ,and the blast furnaces of this province are entirely dependent upon American sources for their ore supply. As, to the best of of my konwledge, none of the iron and steel companies of the Dominion have anything more than a minor interest in any of the American ore mines, we are entirely dependent on the ore that is placed on the market from year to year for our supplies. Each succeeding year sees a smaller tonnage available, and it is becoming increasingly difficult to secure ores of the proper chemical analysis required to manufacture the kinds of iron that the market demands. We will be the first to feel this shortage when it becomes acute, and we will be compelled to seek other sources of supply."

Canadian Supply.

Mr. Jones pointed out that the furnace industry can depend on Canadian sources for its ore supply providing the problem of making the supply available can be successfully solved. He outlined technically the methods employed in beneficiating the native ores, and indicated that considerable progress is now being made. Help is needed, however, to carry the industry through its development and experimental stages, when there is no doubt that it would be a paying proposition, a benefit to the country and the means of providing much employment for citizens.

The speaker had suggested to Mr. Drury during the term he was in office that an amount of money be set aside for experimentation and development work, but the committee that investigated the suggestion decided a small bounty would be the better plan. Help of some kind must be forthcoming, he said, if the furnaces of the country are to be kept running when a rapidly approaching exhaustion of American fields of high grade ores makes it impossible for the Canadian furnaces to obtain ore from across the line.

A vote of thanks, moved by E. R. Shirley, vice-chairman, and D. Reed Wren, was conveyed by the Honorary chairman, P. P. Westbye.

The next meeting of the Engineering Institute, on Thursday, April 10, will be addressed on the subject of the making of moving pictures.

NUMBER OF SPEAKERS 2ND BATTALION MEET

The 2nd Battalion, Canadian Expeditionary Force, have made arrangements to hold a re-union dinner at the Hotel Quinte, Belleville, on Good Friday, 18th April.

The dinner is to be designated "The Old Iron Second's Vimy Dinner 1924," and Good Friday, it is explained, was chosen on account of it being a Dominion holiday and on account of providing good hotel accommodation.

A reception will be held at the Armouries in Belleville, where all the members will register and muster before proceeding to the hotel for dinner.

The following will be the chief speakers at the dinner: General Sir Arthur Currie, G.C.M.G., K.C.B., Major-General Sir A. C. Macdonnel, K.C.B., C.M.G., D.S.O., Major-General the Hon. W. A. Griesbach, C.B., C.M.G., D.S.O., Brigadier-General A. E. Swift, D.S.O. and Col. T. T. McLaughlin, C.M.G., D.S.O.

Any local men desirous of attending this function may secure application blanks at The Examiner Office.

CHURCH UNION BILL QUERIED

Referred to the Standing Orders Committee of the Commons to Consider Whether Notice Complied With Rules.

TORONTO, March 28.— (Canadian Press).—After discusing church union bill for nearly four hours today, the private bills committee of Ontario Legislature adjourned to discuss matter further on Tuesday next.

Previous to adjournment to-day an amendment proposed by H. A. Clark, member for Brockville, that Presbyterians be asked to take another general vote on the question was defeated by vote of 26 to 25.

If the motion presented by Alex. Lewis, member Northeast Toronto is adopted by the private bills committee of the legislature a year's hoist will be given to consideration of the church union bill. Members of the committee presented their views on the measure this morning and a suggestion that action on it by Ontario Legislature be postponed until after it had been considered by Federal Parliament gained strong favor in committee.

C. A. McKeown, who is sponsoring the bill, declared that he had much sympathy for those opposed to measure but though it was properly before the committee.

Hon. Manning Doherty, who is a Roman Catholic, declared that his only desire was to carry out will of the people he felt, however, that Presbyterians were far from unanimous and said he could appreciate the feelings of those who thought that their church would be wiped out by legislation. But he was forced to the conclusion that the matter had gone properly through the church courts and therefore would give it his support. Hon. Findlay MacDiarmid, Presbyterian offered opposition to bill, because he thought it savoured of coercion. Sentiment of Presbyterians was daily growing stronger against it. Framers of bill, he said had not put very high value on sentiment and tradition.

Hon. W. E. Raney, said he had received strong protests against bill from Elora and Fergus Presbyterian Churches. He was impressed with arguments of three opposed to the measure, but legislature should not forget that it could not constitute itself church court. He would give his support to bill.

Although the Private Bills committee of the Legislature did not vote directly on the Church Union Bill, the vote of 26 to 25 against the proposal that the bill should not come into force until the Presbyterians vote on it again, is taken to indicate that the committee, by a majority of one, endorses the general principle of the bill. The individual clauses of the bill be dealt with by committee in session again next Tuesday. After that it will come up before the Assembly as a whole when it is understood there will be another discussion and a vote on the measure.

WOMAN 60, AND MAN 39, IN BUSINESS MARRIAGE.

GREELEY, Col., March 28.—A "business marriage," according to the reported terms of a pre-nuptial agreement, occurred here when Mrs. Florence Lear, sixty, became the bride of William H. Barnes, thirty-nine.

According to the asserted arrangement, Barnes relinquishes all claims to have of his wife's estate — the amount allowed him by law—should she die before he dies. In return, Mrs. Barnes is said to have agreed to make a will deeding all of her property to Barnes, the will including a provision that the instrument shall be void if the marriage proves an unhappy one.

57TH CHAPTER HELD ELECTION OFFICERS

Interesting address by Miss Estelle Hewson of Social Hygiene Council.

Yesterday afternoon, the 57th Regimental Chapter I.O.D.E. held its postponed annual meeting, when the election of officers took place, as follows, the majority of the officers and the Regent being re-elected: Regent, Mrs. E. B. Clegg; 1st Vice-Regent, Mrs. C. S. Stapleton; 2nd Vice-Regent, Mrs. A. Stevenson; Secretary, Mrs. C. E. Jamieson; Recording Secretary, Mrs. E. Howson; Treasurer, Miss Mamie Roger; Echoes Secretary, Mrs. R. T. Hounsell; Standard Bearer, Mrs. B. F. McNeely; Educational Secretary, Miss Dorothy Langford; Executive: Mrs. J. Mills, Mrs. V. Eastwood, Mrs. D. Walker, Mrs. S. Clegg, Mrs. J. Holmes, Mrs. B. H. Poole, Mrs. T. W. H. Young, Mrs. R. Cottrell, Mrs. W. Sharpe and Mrs. H. M. Yelland.

At the meeting last month, reports on the society's work during the year were given by the secretary, Mrs. C. E. Jamieson, and the treasurer, Mrs. J. M. Gemmell. At the conclusion of yesterday afternoon's meeting, an excellent address was given on Social Service Hygiene by Miss Estelle Hewson of Toronto, Ontario secretary for the Social Hygiene Society, who also spoke on I.O.D.E. work, from her experience as a member of the Provincial Executive of the I. O. D. E. some years ago.

The society decided to adopt, in conjunction with the Otonabee Chapter, a boy resident in the Armenian home at Georgetown, and also decided to co-operate with the other I.O.D.E. chapters of the city in holding a tag day for the blind in the near future.

WON STEEPLECHASE.

LIVERPOOL, March 28.—(Canadian Prss.)—Master Robert, owned by Lord Airlie, won the Grand National Steeplechase of 5,000 pounds with extras, run here to-day. Flymask was second, and Silvo was third. Winner started at 25 to 1 against. 8 horses finished out of thirty starters and Master Robert won by four lengths.

FIVE MEN ENTOMBED.

WELCH, W. Va., March 28. — (Canadian Press.)—Twenty-five men were entombed to-day in a mine at Yukon, McDowell County, by an explosion, according to reports received here. The men are believed to be dead.

LINDSAY, March 28. — Father James Guiry, who for some time past has been curate of St. Mary's church here has been transferred to the Cathedral at Peterboro. His successor here will be Father W. Meagher, formerly of Lakefield.

ACCORDING TO THE COOK

Serve tartar sauce with fried scallops.

Grease the cup in which molasses is measured and every drop will run out.

Carrots and peas are good to eat and good to look at when cooked together.

Leftover stewed tomatoes can be used in the macaroni or rice and cheese casserole to make a delicious scalloped dish.

Light travels from the sun to the earth in eight minutes and nine seconds.

COOLIDGE ASKED FOR RESIGNATION

Daugherty Did Not Quit of His Own Accord

WASHINGTON, D.C., March 28 —Attorney-General Daugherty resigned to-day. Surrounded by an ever growing storm of criticism, and under the pressure of many of his ranking party leaders, he consented to follow the secretary of navy, Denby into retirement.

His resignation promptly accepted by President Coolidge, clears the administration of last of those cabinet ministers who have become storm centers in oil scandal.

The factor which had greatest weight in bringing the question of Mr. Daugherty's status to an acute issue was conviction on the part of President that under the present conditions public business is not receiving the attention merited it in department of justice.

Resignation was submitted at request of President and in acceding Mr. Daugherty said he desired it to become effective forthwith.

President Coolidge in letter requesting resignation based the request on Attorney-General's refusal to comply with summons by Senate investiagting committee for certain papers relating to gun-running on Mexican Border.

Incident, President said in his letter, "only illustrated difficulties which are certain to recur with ever increasing embarrassment and your inability to perform satisfactorily the duties of Attorney-General under present conditions."

Mr. Daugherty said he tendered his resignation "solely out of deference to your request and in compliance therewith."

POLITICS ENTER INTO THE DEFEAT

PARIS, March 28.—(British United Press).—The Poincare Government was improperly defeated in the Chamber when it actually had a majority of seventeen, it is now alleged in political circles.

A number of deputies charge that the vote of confidence was lost by a false count, manoeuvred by the governments opponent.

Deputy Evain states that he deposited two blue tickets, namely, yes for the government, in the names of deputies Erlich and Corbeiller, but in the count up these showed as white tickets, against the Government.

M. Pate, high commissioner of physical education declares he was not present but somebody voted him against the Government.

Deputies have rectified the votes they claim were not in order until the present records show the Government actually had a majority of 17.

This however, could not change the situation as the government has resigned, neverthless some of the deputies are pressing for obligatory personal votes on important matters hereafter.

Liberte charged the communists with responsibility for the irregularity pointing out that on previous occasions, sometimes four or five votes have been found in the same name.

NEGRO GROCER SHOOTS HIS WIFE NINE TIMES

NEW YORK, March 28.—(Canadian Press.)—Lyne Applewhite, negro grocer, sent nine bullets from an automatic pistol into the body of his sleeping wife to-day and ran to the roof of their tenement house and jumped six floors to his death. Just before the leap he shouted: "This means the electric chair; I will beat them to it."

VICTOR EMMANUEL HAS REACHED NAPLES AGAIN

NAPLES, March 28.— (Canadian Press.) — King Victor Emmanuel was badly shaken up by the derailment of the train on which he was a passenger from Rome. The train reached Naples this morning after some delay.

J. E. SULLIVAN IS CITY LEAGUE'S PRESIDENT

Preliminary Meeting of Local Baseball Club Representatives—All Teams Urged to Send Delegates to Meeting Next Thursday

The meeting of the City Baseball League held last night in the Holy Name Rooms was well attended. Several feams were represented and the election of officers took place. The meeting was presided over by Ed. Wright.

Mr. H. T. McFadden, president of the Canadian General Electric Club, said that the C.G.E. were willing to enter a team in the Intermediate City League if one was formed.

Mr. W. Kay of the Raybestos Company said that the Raybestos would enter a team if a four team league was formed, but if no more than two or three teams could be obtained they did not wish to enter.

Ed. Wright also said that he and Bob Mackey were figuring on taking the last years Adanac team and add a few players to it and enter it either in the Intermediate City League or the East Peterboro League but that they had not yet decided.

In the Junior League there were only two teams represented, those being the Lakeviews and the Crescents which was last year's Sacred Heart team the players of which will be too old to play Juvenile this season. Mr. LeBarr said that he would sooner enter his team in the Central Ontario Junior League if a four team league was not formed. F. Brioux representing the Crescents said that they also intended to enter into the Central Ontario Loop if enough teams were not entered in the City League to have a successful group.

The only representative for a Juvenile team was Charley Curtis, manager of last year's Maple Leafs. The Curlers, last years' Midget champions of Ontario are also expected to play Juvenile this season but they had no representative present last night.

In the Midget series there was only the Sacred Heart represented and no other teams are yet known of. The Bantam series was in the same class with only one team being represented, the Beavers from East City, who will be managed by Mr. Brady.

A bill for $29.20 was entered against last year's City League by L. LeBarr for balls that were supplied by him and not paid for. Mr. A. Kay being the man who looked after the money is to be interviewed by an executive consisting of F. Brioux, W. Prindible and V. O'Connell to see if there is enough money left over from last year to pay Mr. LeBarr and get things cleared up.

Considerable time was spent in choosing a president of the league and at last J. E. Sullivan was decided upon and he was elected.

The rest of the officers were as follows:

1st Vice-President, J. McMartin; 2nd Vice-President, J. E. Munroe; Secretary and Treasurer, Mr. D. Loucks.

Grounds most suitable to be used were also considered and an attempt to obtain the Exhibition Grounds will be made. The Oval, School Grounds and Riverside Park were also considered. Most of the business was left over till next Thursday night when a meeting will be held. All teams are requested to have a representative present so as to see how many teams will be entered and give the managers a chance to see what they are to do.

BROADVIEW AT "Y" SATURDAY

Intermediate Basketball Semi-Final Between the Toronto and Peterboro Y.M.C.A. Teams—City League Series.

Tomorrow night at the "Y" gym the brilliant Broadview "Y" squad of basketball players will play their return game with local intermediates in the return game. This series is the semi-final in O.B.A. Intermediate play offs and will decide which team shall meet the Western representatives for the Ontario title.

This Broadview "Y" crew of Toronto have shaped themselves into a smooth basketball machine that are on the floor to play the game and get baskets. They went through the Toronto schedule with a fair wind and full sail and did not strike a snag during the whole course. They will be a smooth quintette to watch and the fans should be out in droves to see them in action tomorrow evening.

The Pets while admitting they were outclassed in Toronto Wednesday night on the large Toronto floor have hopes. The glow of championship aspirations have no fully faded in the eyes of Doug Loomis or any of the members of his squad, although they were clouded badly in the Toronto game. Around the "Y" the opinion is held that on the home floor the locals will show up to advantage and give the Toronto outfit a bad shaking at least.

Whatever happens, win or lose, the Petes intend to put all they have in tomorrow's game. The game will certainly be worth watching and the gallery should be crowded.

TEST PICTURE.

PARIS, March 28.—Chemical and scientific tests have triumphed for the first time in the French courts in a case concerning the authenticity of a picture sold as a Renoir. Chemical, microscopic and photographic tests showed that the paint and the manner of applying it were not in accordance with Renoir's style, and the buyer has awarded damages against the dealer.

Bowling

BRINTON CARPET INTER-SHOP FIVE PIN LEAGUE

Last night at Solomon's Alleys in the Brinton Carpet League the Windsors took two out of three from the Ardebils. Fairly good scores were set up, but not as good as are usually turned in by this league. Shaughnessy was high man of the evening with 570 and Pearson was next with 514. Shaughnessy had the high single of 247.

Following are the scores:

Windsors—				
Pearson	174	180	160	514
Dorrell	125	166	146	437
T. Martyn	157	153	185	495
L. Martyn	136	157	127	420
Dummy	125	125	125	375
	717	781	743	2241
Ardebils—				
Rundle	170	91	113	374
Kelbrick	178	161	113	452
Helliwell	150	122	149	421
Shaughnessy	113	247	210	570
Dummy	125	125	125	375
	736	746	710	2132

CITY TEN PIN LEAGUE

Last night at Solomon's Alleys in the City Ten Pin League, the De-Laval got away to a good start by taking two out of three from the Lawn Bowlers. Great scores were set up by each team, four out of the five men on the De Laval team rolling well over the 500 mark. The De Laval rolled 953 for their first game and had a total of 2643 for their three games.

Barrette was high man of the evening with 575 and the following were over the 500 mark: Fitzgerald 556, Murray 534, Cairns 533, Garrow 511. Barrette had the high single of 221.

Following are the scores:

De Laval—				
Barrette	221	192	162	575
Garrow	179	169	163	511
Fitzgerald	202	165	189	556
Murray	203	188	143	534
McGee	148	166	157	471
	953	876	814	2643
Lawn Bowlers—				
King	186	145	166	497
Cairns	172	193	168	533
Bacon	135	180	136	451
Gimblett	138	147	154	439
Curvin	135	152	199	486
	766	817	833	2416

LADY BOWLERS PRACTICING

The Belleville lady bowlers who are meeting a picked team of bowlers at the Y.M.C.A. were over all yesterday afternoon practicing at Solomon's Alleys. Some good scores were rolled and the Belleville girls are a seasoned team and they should put a great game with the Peterboro ladies.

BREAKS FIVE PIN RECORD FOR SOLOMON'S ALLEYS

Mr. M. Pappas while rolling yesterday at Solomon's Alleys broke the record score for five pins on the Alleys. Mr. Pappas rolled a sensationally high single game score of 389. This is some score and will take a lot of beating. This score of Mr. Pappas beats the former record held by Pete Travers by five pins. In the game preceding this Mr. Pappas rolled 248 and then he followed his high score of 389 by another beautiful score of 359. This gives him a total of 1006 for his three games. The Examiner is informed that the score set up for three consecutive games by Mr. Pappas breaks the record for the Solomon Alleys. This gives him an average of 335 for his three games.

TORONTO BOWLERS HERE TONIGHT SOLOMON'S ALLEYS

The Toronto ten pin team will be seen in action tonight at Solomn's Alleys against an all star Peterboro team picked by Geo. Dedman. The fans are assured of a great battle between the two teams and anyone wishing to witness a real ten pin clash should be on hand tonight.

After the game the Toronto team will be entertained by the Peterboro bowlers.

CITY BASKETBALL LEAGUE.

The City Basketball League which plays every Tuesday evening in the Y.M.C.A. gym, has just about completed its schedule. This league has supplied some good basketball and given a lot of fellows a chance to stretch their legs while chasing a bounding basketball up the boards. 'Tis a mean game and needs condition. The teams have shown a steady improvement in their play and now show real class and team work.

Following is the team's standing:

	Won.	Lost.	To Play
Quaker Oats	3	1	1
C. P. C.	2	1	2
De Laval	3	2	0
Westclox	3	2	0
Can. Woollens	2	3	0
C. G. E.	0	4	1

The C. P. C. meet the Quaker Oats on Tuesday night and the championship hinges on this game. If the Quakers win they have the title and take the silverware. On the other hand, if the C.P.C. won they are right in line for the ribbons and will only have to put away the Canadian Woollens to capture the League title.

MORE JOBS IN GERMANY.

BERLIN, March 27.—A notable decrease in unemployment in Germany is reported. A month ago 429,000 unemployed were registered, this being a decrease in one month of 122,000. The number of men working on part time was 401,000, a decrease of 242,000.

The city of Boston, Mass., has appropriated $100,000 for experimentation with rubber paving blocks from scrap tires.

FAMOUS COLUMBIA GRID STAR HOPES TO WIN PLACE ON OLYMPIC TRACK TEAM.

WALTER KOPPISCH, COLUMBIA STAR. 1—ON THE MARK. 2—GET SET. 3—GO.

It was Captain Walter Koppisch of Columbia who kept the football season from being a rout for Coach Percy Haughton, former Harvard mentor. Koppisch starred in every game played and was regarded as one of the best backfield men in the country. Koppisch, who also shines on the track, is shown doing his stuff in preparation for the college event and the Olympic tryouts. He hopes to win a place on the U. S. team.

WALES DEFEAT FRANCE 10 TO 6

International Rugby Opened Colombes Stadium For This Year's Olympic Games—Teams Played In Downpour.

PARIS, March 28 (Canadian Press). — The Colombes Stadium at which the 1924 Olympic Games will be staged, was inaugurated semi-officially yesterday with a rugby match between Wales and France, Wales winning by 10 to 8.

This international rugby feature having brought out last year an attendance of from 30,000 to 35,000, was used by the French Olympic Committee as a sort of dress rehearsal for the opening the committee being desirous of ascertaining how the transportation facilities to and from the Stadium worked and how to handle the large crowds of spectators that will gather for the Olympic Games.

So far as the interior of the Stadium is concerned, the general arrangements are good. The spectators expressed satisfaction, even those in the cheaper seats getting a perfect view of the match, while the entire attendance was cleared from the stands after the final whistle in four to five minutes, the exit system proving fully adequate.

The transportation facilities to and from Paris, however, will have to be improved.

The committee explains that the Olympic arrangements are not 25 per cent. completed, and that they will be ready to handle a crowd twice as large as that of yesterday when the first contest is staged on 3rd May.

Yesterday's match was played in a steady downpour of cold rain, making the open seats rather uncomfortable for the spectators.

The grounds and track stood the ordeal well, the track absorbing the rain readily.

The general opinion is that it would be fairly fast even after a heavy storm.

The rain proved real Wales weather. The Welshmen revelled in the heavy going and outshone the Frenchmen in every way.

During the last part of the match the members of the French team, four-fifths of them from Southern France, became badly chilled.

MIAMI RACING PLANT NEARING COMPLETION

MIAMI, Fla., March 28.—(United Press).—The new racing plant of the Miami Jockey Club will be ready for operation next January, officials stated in announcing that reservations had been made by the Sinclair, Loft, Whitney, Cosden and Vanderbilt stables.

Altogether there will be seven stables, with 30 single stalls, and 13 stables with 60 stalls. Actual work on the new track is progressing nicely, although it will require at least six months before the track will be ready for use. The front stretch and the two turns are being mad 80 feet wide, and the back stretch 65 feet wide. The width is because of the ruling of the American Racing Association, that each horse be allowed five feet at the post.

Every effort is being made to have the track completed by November 1. The season on th Maryland and Kentucky tracks close at that time, and the owners will be ready to ship in their strings of horses then.

WAGE SCALE EXTENDED

BUFFALO, N.Y., March 28.—An executive committee of the International Brotherhood of Papermakers drew up yesterday an agreement providing for extension of present wage scales and other working conditions ftaer May 1st, the date the present agreement expires. It was announced the agreement had been ratified by the convention delegates, who have been holding executive session here for more than a week.

Doctor's Bulletins On Morenz Injury

MONTREAL, March 28.—Sir Henry Gray, chief surgeon at the Royal Victoria Hospital, yesterday gave out the following statement on the results of his examination of "Homie" Morenz, Canadien hockey star, who was injured in the Stanley Cup game aaginst Calgary at Ottawa on Saturday night last:

"The ligaments in connection with the collar bone were badly torn and the collar bone itself was slightly dislocated," he said. "but it went back into place by itself. The injuries received will necessitate his keeping quiet for many weeks to come. He will eventually come through all right, but it will take a long time. It should not affect him in the future. He ought to be able to start next season in good condition again. A good rest is what he needs for some time now."

SELKIRK LACKED A SCORING PUNCH

Westerners Were Woefully Weak in the Opening Session—Failed to Cover Soo.

TORONTO, March 28.—(Canadian Press).—There have been many greater Allan Cup finals than that played here last night, in which Soo team defeated Selkirk, champions of west by 6 to 2 and took a strangle hold on the trophy. The fishermen were probably tired after their long journey from Winnipeg and they were puzzled by shifty moves of men from the Northland. Selkirk fell down, where easterners thought they would shine, on the attack. They lacked scoring punch and most of shots directed at "Flat" Walsh were easy to handle.

Selkirk's best period was last when they showed good form in flashes and held Greyhound to a 2 to 1 score. They were woefully weak in opening session but did a little better in second. As for winners they failed to show same high class form that gave them victory on round over Hamilton Tigers. But they were never in danger and they probably thought that there was no real reason why they should extend themselves. This Soo team is an enigma. Sometimes players travel at terrific pace and when they do there is trouble ahead for opposition. Not all of the Selkirk players fell down, little Jack Hughes, the veteran of the team, gave his best and his best was good. He set pace for his team mates and shared with Cecil Browne honor of being best player wearing fish town colors. Selkirk made a mistake of failing to cover Soo players who were waiting for a pass in front of net. Westerners showed speed in flashes but Greyhounds had it all time and they certainly came home in front in this important department of sport. It has generally been rule that teams from west could outskate best in east.

OLD COUNTRY SOCCER GAMES

Amateur Final.

LONDON, March 27.—(Canadian Press Cable.)—The final for the amateur football cup will be played on the Millwall ground April fifth. It is between Erith Selvedere and Clapton.

Thursday Scores.

LONDON, March 28.—(Canadian Press Cable.)— Results of football league games Thursday were:

First Division.

West Ham 2, Huddersfield 3.

Northern Section—Third Division.

Grimsby 1, Wigan 1.

SETTLE NEWARK CASE.

NEWARK, N.J., March 28 (Canadian Press).—Storm signals which have been hoisted over the Newark baseball situation for the past month were withdrawn yesterday after John Conway Toole, president of the International League, announced the entire controversy would be settled amicably out of Court.

TURF CROWDS FOR AINTREE

King George Among the Thousands Who Witnessed the Grand National Steeplechase To-Day.

LIVERPOOL, March 28 (Canadian Press). — All classes of Britons, from Cockneys to courtiers, were represented in the concourse of race fans that poured into Liverpool by road and rail last night to witness the running of the Grand National Steeplechase this afternoon at Aintree.

The Grand National, the longest and most difficult test for horse and jockeys in all the racing world, is to the north of England what the Derby is to the south.

Millions of those who cannot come to see this historic chase of four and one-half miles over high hedges, fences, ditches, and glorious green turf placed bets on the outcome.

Those who give attention day by day to horses have all "put a bit" on their favourite mount, and almost everyone else has caught the betting fever that plagues the pocketbooks of the populace twice yearly—before the Derby and before the Grand National.

Every office has its own sweepstakes; the hospitals have them, and almost any institution in need of funds finds sweepstakes based on the big race a relatively easy method for obtaining relief.

Nearly everybody enters at least one of them, the poor with their pennies and the rich with their pounds.

After the race reporters, prone to dramatising, will write exciting pieces for the papers about some poor mill girl, the only support of her crippled parents, who has become fabulously rich, by having held the winning ticket in the big sweepstakes.

Perhaps there also will be a story of a man who heard of this great luck at the very moment when a cruel landlord was about to eject him for non-payment of rent.

Such things seem to have a way of happening every time the Derby or Grand National is run.

The King, as is his custom, will watch the race at Aintree, as the guest of Lord Derby, who has been giving a house party for the monarch.

The Prince of Wales will not be able to see the race, as he is not yet recovered from his latest steeplechase spill.

DEMPSEY SIGNS FOR WILLS BOUT

Champion Will Fight the Negro Challenger Labor Day at Tiajuana — Net Close to Million.

OMAHA, Neb., March 28.—Jack Kearns, manager of Jack Dempsey, heavyweight boxing champion, declared yesterday that he is on his way to the Pacific coast to sign articles for a finish fight at Tiajuana, Mex., on Labor Day between Jack Dempsey and Harry Wills, negro contender for the title.

The promoter, Mr. Kearns said, is James Coffroth, California sportsman. The match, he predicted, probably would be the champion's only ring engagement in 1924.

"We had our choice of a relative cash consideration for a 20-round bout or a fight that will go down in history as making something entirely distinctive in modern ring annals," Kearns was quoted as saying, adding that he expected the proposed bout would net him and Dempsey, "close to $1,000,000."

"Dempsey and I have been slandered long enough," Kearns said. "It is partly to stop such talk and partly to prove to the world that Wills looks no bigger to Jack than anyone," that the fight would be held, he declared.

Division of Stanley Cup Finals Receipts.

MONTREAL, March 27.—Official figures of the total gate receipts for the four games of the world's hockey series between Canadiens, Vancouver, and Calgary were given out to-day at $23,119.77. Of this sum thirty per cent. or $6,935.34 was paid to the Mount Royal Arena in this city for rental; $5,000 for travelling expenses of the two western clubs and $6,039.27 to the winning players and $4,026.19 to the losing players. The sum of $1,118.37 was divided among the three leagues.

Each of the ten Canadiens received $603.92. The losers end was evenly divided between Calgary and Vancouver. Calgary's share was then divided between eleven players, each man receiving $183. Vancouver's share was divided among ten players, each receiving $201.30.

The club's received nothing.

BROKE BOWLING MARK

CHICAGO, March 27.—(Canadian Press).—Another world's record was set in the American Bowling Congress yesterday, when H. and C. Thomas of Chicago scored 1380 in the doubles. The former mark was held by Wilson and Daw of Milwaukee.

LARGE MIGRATION OF C.O.B. PLAYERS

Most Every Town in Central League Has Lost Some Players -- Petes Lose Four.

OSHAWA, Ont., March 28.—A heavy outflow of ball players is reported from towns in the Central Ontario Baseball League. John H. Williams, the good left-hander of Belleville, is in the Southern training camp with Stallings Rochester squad; Harold Brownscombe, who played in the outer garden for Belleville, is in Toronto; Lloyd W. Chambers, right-hand box artist, Reginald Mills, short-stop and Lol. P. Mingeaud, third corner boy, all from Bowmanville; E. R. Bates, catcher, and J. A. Stark, outfielder, last year with Bowmanville, are back in their home town of Lindsay, and will likely work with the Scugog town in the Intermediate Tir-Country League; Paul Summerfeldt, of Peterboro, is back in Cannington; Scott Hutchison, who was a second-string pitcher for Peterboro, has been returned to the West Peterboro Intermediate League for another season; Leo Comolli and Charles Ansaldo, of the Peterboro infield, are back at their studies in Coborn Class Institute at Boston College.

B. E. "Shiny" Moise, outfielder, with Bowmanville, will captain the Orono team in the Durham and Ontario Intermediate League this summer, and R. D. Patton, who did slab duty for Oshawa in 1919-20-21-22-23, s reported to have located in Western Ontario.

Jack Evans, the well-known rugby player, and who caught for Kingston last year, is reported to be going to Ottawa for a post-graduate course in medicine.

"Mickey" Murray last season with Leaside, is located in Oshawa while the remainder of the Leaside players are to sign on the dotted line with the Oslers, Royals, and Strollers of the Toronto Amateur Baseball Association.

For the first year since the organization of the Central Ontario League, the migration of players is to greatly exceed the new arrivals.

QUITE FAIR

"Here is that suit I bought of you last week," said the angry customer to the tailor. "You said you would return my money if it was not satisfactory."

"That's what I said," responded the polite tailor, rubbing his hands, "but I am happy to tell you that I found the money to be entirely satisfactory."—Reynolds Newspaper (London).

Many, if not all, of the so-called fixed stars are changing their positions.

BELLEVILLE FANS GETTING RESTLESS

The Ontario Says That They Take Their Ball Seriously in Western Ontario.

BELLEVILLE, March 28.—They take their amateur ball seriously in western Ontario. Brantford has lined up a strong team and have secured Del Orcutt, one time star of the old Red Sox team, as manager of the Brants in the Southern County League for the coming season. The services of Freddie Minnes have also been secured to assist Orcutt. Minnes will pay particular attention to the batting, while Del will have charge of the fielding end. This is putting amateur ball on a pretty fine basis and hints a little of professionalism. Other towns are less "fortunate," they cannot stand this expense, and consequently do not measure up in ability.

The time is getting short before the season opens; other towns have drifted into the press with comments as to their possibilities of winning pennants, but not a word from the management of the Grand Trunks. Up to the present no mention has been made of who will lead them in the fight or as to the personnel of the team.

"Let's have a little news on one of the best amateur teams in Ontario," fans who are interested are saying.

BELLEVILLE STILL WANTS A PITCHER

Dark Horses Looking Pretty White Just Now --Heckman Not to Be Worked So Hard.

KINGSTON, Mar. 28.—Tragic silence seems to hang over baseball in Belleville, and the fans in the C.O.B.L. circuit are wondering just where the "villians" will be this summer. The loss of Jack Williams is admitted in Belleville to be a heavy blow to the team, though they are banking heavily on Oulette and dark horses, said animals of a colored shade being very much in the background just at present.

In fact, pitchers do not seem to be any too numerous in the C.O.B.L., though right in Kingston there are several pretty nifty hurling artists, who might show up well in the C.O.B.L. if they were given a chance. Bennett and Quinn are two of the local hurlers who have long since passed the experimental stage, but it is just a question whether either will be available for the local C.O.B.L. team. Bennett showed a world of speed last year and stood up well against heavy hitters, while Karl Quinn pitched some nifty games. Then too if Gallagher assumes the form he boasted a couple of years ago, and which he flashed in one of the home games with Peterboro, he ought to be the big ace in the hole for the local team. The dark-horse pitcher from Queen's University may be persuaded to throw in his lot with the C.O.B.L. team, and if he does, Manager Joe Daley will be sitting pretty.

Even though Oshawa have several recruit slab-artists to try out, it's a cinch Dainty will be worked as Heckman was last year. Patten, the clever right-hander, who tossed from the pitcher's mound for Oshawa for five years, and who went to Pittsburg, is now in the west and is lost to the Motor Town aggregation.

As far as Peterboro is known there is little stirring. It is ten to one the same big managerial mistake will be shown this year in working the head off Heckman. While "Al" is a great twirler, he's only human, and the fact that was used to pitch 184 innings out of 238 innings played by his team is enough to take the heart out of any twirler, and while he may be as good this year, it's not very likely. Hutchinson, who graduated from the Peterboro City League last year, will be worked more frequently this summer, while McElroy will likely be in for a few slaughters.

Oshawa will get into action sooner than expected. They will play an exhibition game with Strollers of Toronto on Saturday, May 10th, and will thus have the jump on the other teams, unless exhibition games are hooked up. The Strollers have several players from the Leaside team of last year, and will give Oshawa a good workout.

The earth's sensible atmosphere extends more than 100 miles in height.

THEATRES

AT THE ROYAL

"HOTTENTOT" FILLED WITH LAUGHS AND THRILLS AT ROYAL

Look out for "The Hottentot," if you've got a cracked lip. We dare you to sit through it and not laugh—not a smile or a titter or a chuckle, but a laugh, honest, hearty and prolonged; a laugh that breaks out, in ripples and rumbles and roars, until it bursts all restraints and becomes a guffaw, plain and unashamed.

Shakespeare, or some other equally talented scribe, could have done full justice to the laughs in "The Hottentot." We can't. Our vocabulary is too restrained and besides we were too busy laughing to make notes. We smiled the first time that Douglas MacLean met a horse in the picture—a decrepit, old cab-hack, that still perked up enough to take a nip at the yachtsman, so evidently afraid of all horse-flesh. We kept right on smiling when we weren't laughing or roaring until he started off in the astounding steeplechase, riding the wild Hottentot, with no more protection from sudden death than five napkins padded together under his jockey cap.

Anyway we both sat back, looking foolish but feeling quite happy because MacLean had gotten over that last awful water jump, where all the other horses were falling with their riders. We never though he'd do it. He didn't either, from the expression of his face.

We are glad we don't reside in a "fashionable hunting community" after watching that race. Some girl as pretty as Madge might put the "come-hither" on us and ask us to ride a fiery Hottentot in a break-neck race. And we surely would succumb if she smiled as Madge does—which would be thoughtless in view of the fact that we have not yet composed a suitable epitaph for ourselves.

We've been to see "The Hottentot" twice since is opened, and still can't seem to get the laughs out of ous system. The censors ought to speak to Thomas H. Ince for putting out a picture that can spoil a man's favorite grouch. Willie Collier's stage play, from which it is taken, was funny, but the picture is hilarious. It's a menace to the public gravity.

VAUDEVILLE AT ROYAL

Two new acts opened at the Royal last night, and both were well received by the large audience present. Both are novelties, and nothing just like them has been presented since the Royal started vaudeville. Hip Raymond, whose name means something to followers of pantomime in England, is ably assitsed by Mildred Maison in an eccentric acrobatic novelty. Hip's clowning gets many a laugh, and some difficult stunts are "put over" with apparent ease. Dick Burton, in a pirate costume, hails from Australia, and, like most of the imported acts, has novelty stamped all over him. His songs are all new and original, also in keeping with the character he portrays. He has a funny line of chatter that kept last night's audience in good humor. The picture, "The Hottentot," is a humdinger. It is reviewed at length elsewhere.

AT THE REGENT

THROUGH FIRE AND WATER

A great treasure has been stolen by a man named Jennaway and hidden on a lonely island.

After a time he falls sick at his island home, and, in his delirious ravings, at the point of death, confesses to the presence of his loot in the house. Dr. Manning, who attends him, overhears, and his cupidity is excited, his whole body and mind being forthwith bent on discovering the whereabouts of the treasure.

Meanwhile, Jennaway's sailor nephew and heir, John Dryden, arrives on the scene—as does also Christine da Roda, the daughter of the man from whom the treasure had been stolen, and who is bent on recovering it.

Dr. Manning endeavours, unsuccessfully, to get Dryden out of the way by flinging him into the river from the dock where he is walking. Baulked in that direction, he tries to ingratiate himself with Christine, and when that trick, too, fails he inveigles the girl to his houseboat, whence she is rescued by Dryden after a fierce fight.

Manning then engages the help of a ruffian named Craill, and the two come upon Dryden in the act of discovering the treasure in the island house. Knocking him senseless, they gag him, tie him to the banister, set the place alight, and make off from the island in a motor boat.

Christine, who had also been imprisoned in her lodgings by the plotters, escapes, swims to the island, and rescues Dryden. Then follows a fierce pursuit by motor boat, each party firing at the other, while the waves break upon the decks of the tiny craft. Manning is shot dead in the fight.

And so his plans are at last brought to naught, the jewels are recovered, and the story closes on a pretty love note.

ETHEL WALKER,

Australian prima donna, in "The Maid of the Mountains," at the Grand to-morrow.

AT THE GRAND

THE MAID OF THE MOUNTAINS

Without doubt the most delightful and popular of all musical comedies is "The Maid of the Mountains," and many thousands of local music and theatre lovers will be sorry to hear that the engagement of this offering at the Grand Theatre, on Saturday, March 29, is the final appearance in this city of this musical comedy, which seems to grow more into the affections of the audiences each succeeding time it is presented.

This production, built by Stanley T. Vermilyea, the well-known composer and producer, which appeared here last autumn, has been without doubt the most popular, and is regarded as the finest company ever sent on tour. Everywhere on the globe, where the English tongue is spoken, this musical play has successful tours to its credit.

Three seasons ago, this attraction first made a tour of Canada, which was a tremendous success, but this present company on this tour has met with even greater success than the first.

This final and farewell visit to this city of this musical play is sure to be one of the most successful of all its engagements, and all regret the passing of one musical comedy that can always be relied upon to fill the much felt need of the best in musical comedy art.

Matinee and evening performances both at popular prices, is a feature of this engagement.

AT THE CAPITOL

At Capitol Saturday morning For Hunchback of Notre Dame

The management of the Capitol theatre have arranged a special showing of The Hunchback of Notre Dame on Saturday morning at 10.30 for the children. A special admission price of 16c will be charged. As well as The Hunchback of Notre Dame, Ruth Roland in The Haunted Valley will be shown.

"THE HUNCHBACK OF NOTRE DAME"

A long queue of people stood in line last night awaiting admission to the Capitol Theatre. The big building was filled to capacity for the first evening performance of a notable picture.

"The Hunchback of Notre Dame" is one those stupendous and remarkable productions which absorb the interest from beginning to end. It is artistic in the extreme, and gives the impression that no detail, however small, has been overlooked in its filming. To transport an entire audience back to a period of the world that dates a decade previous to the discovery of America by Columbus is an achievement indeed. It is like having the pages of history come to life, as the old fairy books used to do, and to bring back to the world of to-day all the long-forgotten peoples who lived and loved in a bygone age. Although a modern audience will shrink in spirit from the torture scenes of mediaeval times, they will see nothing incongruous in their relation to the picture itself. The atmosphere of a grim and ruthless age, when men stood on a level almost with the brutes, has been reproduced with such fidelity that their savage actions are but natural and in perfect keeping with the character of the time.

In the background towers always Notre Dame, the magnificent cathedral of Paris. Anything of peace or beauty that lives in a turbulent picture seems to dwell here, and anything of peace or mercy in the actors has its mainspring also in the beautiful, majestic place. Here is the "hunchback," grotesque, terrible, a misshapen creature, deaf, half-blind, with a shaggy head, a crooked body and a thick tongue that darts in and out from between sharp fang-like teeth. Learing like a satyr on the jeering crowd below, or perched like one of its own hideous gargoyles at a giddy height on the cathedral's massive pillars, he mouths at his tormentors. A characterization hardly to be surpassed is this of the half-human "hunchback," but in the cathedral he too finds his soul, and the jibing creature becomes the saviour of his beloved home and the rescuer of the lovely Esmeralda, whose beauty has penetrated even to his savage heart. When the shaggy creature wars alone, from his airy perch, on the seething crowds below, his acting is thrilling and awe-inspiring. Beating his shaggy breast with triumphant hands, hopping to and fro on his perilous perch, he defends his cathedral, pouring molten lead with superhuman strength on the heads of the mob below, and then dancing in glee as the burned wretches retreat in disorder. And the thought of his loved bells penetrates even to his dying heart as he spends his last gasping minutes in grasping their rope.

"The Hunchback of Notre Dame" has been faithfully reproduced from its creator's famous novel. There is in it all the minute characteriz tion of the author, and also the gloomy spirit that has a final, triumphant ending in the destruction of the lowly creature around whom the tale centres. To allow others to live and be happy, the "hunchback" dies, and so lives as the memorable figure in the tale. The king himself, the aristocrats, the ragged Clopin ("King of Parisian beggars"), one of the most outstanding figures in a wonderful picture; even the lovely Esmeralda, pale into insignificance beside the human monstrosity who capers and jibes in the cathedral tower and gives of his treasured candle-ends to purchase a gown for the girl he befriends. Quasimodo is an unforgettable character.

The Court of Miracles, where the beggars congregate, where "the blind see and the lame walk," shows the muck of Paris in its strength. From here the ragged bands set forth to rescue their beloved Esmeralda, the foster child of their king, Clopin, from a death by hanging. Nearby is the den of the madwoman, one of the tragic figures of a dramatic picture, and nearby, too, is the cathedral, that offers sanctuary to the hunted girl, forced by torture to declare that she has stabbed her lover, and saved at the crucial moment, not by her gallant young suitor, or the scheming Jehan, who seeks to capture her by force, nor by her savage foster father, Clopin, but by the hideous Hunchback, calling "sanctuary" to the soldiers from whom he rescues the maiden.

There are some wonderful scenes. The night picture of the attack on the cathedral, the scene where the ragged mob swarms into the aristocratic ballroom, and the opening scene, "The Festival of Fools," are outstanding. It is a picture which not to have seen is to have missed one of the most superb achievements of the silver sheet, and to have neglected the opportunity of beholding a wonderful and memorable characterization, with Lon Chaney in the role of the hunchback.

With the production is a special musical score, splendidly played by the orchestra, under Miss Gladman's direction, and the singing during the Cathedral interior scenes, by John McCormack records, of the lovely "Ave Maria" and the "Adeste Fidelis."

The comedy that accompanies the picture provides an interesting contrast. It is funny in the extreme, and arouses much laughter with its delineation of the woes of a gentleman who becomes enamored of a type of flower that puts him and his neighbors into a sweet, dreamless sleep.

BUFF AND CUTT HERE TOMORROW

Assurance that Willie Buff and Billy Cutt of Rochester, will be here for Monday night's big boxing bill, was received this morning in a telegram from Buff who wired that Cutt and he will be here to-morrow. Buff asks or training facilities until Monday.

A satisfactory ticket sale is reported and prospects are bright for a bumper house. Everybody will have a clear view of the bouts as the ring will be set up well to the centre of the hall.

THE TRUTH ABOUT "THE HOTTENTOT"

It's one long laugh, intermingled with thrills. It's the best racing story we have ever seen and we've had a lot of them.

A TIP Avoid the Saturday crowds by attending matinee or better still see it to-night.

LOCAL KIWANIANS INVADED LINDSAY

Alex. Dick Now a Knight of the Red Dog Order—Had Cood Time.

LINDSAY, March 28. — The Lindsay Kiwanis Club celebrated its third birthday on Thursday night in a right royal manner.

There were delegations from the Kiwanis Clubs of Peterborough, Toronto, Belleville, Orillia, and Barrie.

Congratuatory addresses were delivered by Kiwanis Jack Marshall, president of the Peterborough Club, President Mercer, Orillia Club, and others.

The address of the evening was delivered by Lieutenant-Governor Halliday, of Toronto.

The Peterborough Kiwanians present were:

Lloyd Hamilton, Chas. Cooke, Bill Williams, Walter Byers, Dr. J. Green, Alex. Dick, Carl McLean, Isaac McNab, Harry Boyle, Jack Marshall, Jack McKone, W. E. Conway, Joe Johns, Bob Mackie, Henry Huffman, Ge. Henderson, Jim Doran, Ed. Taylor, John Meyers.

During the evening Alex. Dick of Peterborough took the initiatory degree in the Red Dog Order, along with other visiting Kiwanians.

MONTREAL PRODUCTION SECURES USE COSTUMES

The complete set of costumes for Gilbert and Sullivan opera "Mikado" owned by Mrs. R. J. Devey, are being used early next week by a company of amateurs in His Majesty's Theatre, Montreal. Some of these costumes were worn in the Earl Grey competition of the Royal Alexandra Theatre, Toronto, many years ago, which occasion the then Governor-General His Excellency Earl Grey personally congratulated Mr. and Mrs. R. J. Devey on the excellence of the production as to singing, staging and dressing.

TRUTH VERSUS ERROR

"Savior of all men, specially of those who believe." 1 Tim 4.10. Those who propagate Satan's lie "thou shalt not surely die," do not admit that all are saved to an entrance into heaven, for they claim that the great majority go down to endless torments. Turning away from those absurdities and looking into and believing the Scripture, we find the statement. "As in Adam all die so in Christ shall all be made alive," 1 Cor. 15.22. So we see Jesus saves all men from death (the extreme penalty for sin in this age). Then man is put on probation or trial for eternal life in the age to come. Those who are specially saved" are those who in this age accept Jesus as Saviour and Lord and who continue to live in obedience to the Spirit until the end of this life. These are heirs of eternal life, and shall not come into judgment or trial in the age to come.—M. T. Butcher 1d 76 1546

Society

Mrs. A. Bentley, 510 Homewood Avenue, was at home to her friends at a charming tea yesterday afternoon. A large number of ladies attended during the hours from four to six o'clock. Mrs. Bentley, wearing black, was assisted in receiving by her sister, Miss Boulton, in grey brocaded crepe. Mrs. R. J. Kidd, in brown, also assisted in the pretty drawing-room, which was very attractive with its cheery fire, and its floral decorations of glowing red tulips. In the tea-room, the table was artistically arranged in a color scheme of mauve and yellow. A filagree silver basket filled with bright yellow tulips and large mauve sweet peas, surrounded with mauve tulle, was in the centre, and silver candlesticks held yellow candles. Mrs. J. H. Seels, wearing black velvet, poured tea, and Mrs. J. W. Meyers, in silver-beaded black crepe, cut the ices. Assistants were Mrs. Geo. H. King, in grey, Mrs. Homer Meyers, in a gown of grey Persian crepe, and Mrs. Roy Shields of Coboconk, in tangerine brocade. Small Jean Meyers, in a frock of apricot silk, was a dainty little attendant at the door.

Rev. Dr. R. C. Blagrave left for Toronto to-day, where he will give an address this afternoon and preach twice on Sunday in St. James' Cathedral.

Mr. and Mrs. J. A. Aylmer have returned from Nova Scotia.

Mrs. Roy Shields of Coboconk is visiting in the city for a few days.

Mrs. W. Dolby went to Port Whitby yesterday for the funeral of her sister, Mrs. W. Cameron.

RECEPTION TO NEW PASTOR

St. Andrew's Congregation to Meet Mr. and Mrs. Gordon on Monday Evening.

A reception to Rev. Mr. Gordon, his wife and family, will be given in the auditorium of St. Andrew's church, on Monday evening, to which all the members, adherents and friends of the congregation are asked to attend. It will take place from 7.30 to 9.30, and will be an informal function, when all present can meet Mr. and Mrs. Gordon and family.

LINDSAY ENGINEER INSTANTLY KILLED

Was Assisting to Replace Derailed Engine on the Track.

LINDSAY, March 28. — This morning, Engineers E. J. Higgs was killed while assisting to place a derailed Canadian National freight engine on the tracks at Waubashene. The engine was derailed on the way to Lindsay, and while helping to replace it Higgs was struck by a side rod and instantly killed. He was a native of England, and was unmarried. For the last fifteen years he has resided with Mayor Graham, of Lindsay, and was highly respected by all who knew him.

OBITUARY

T. H. WILLIAMSON

T. H. Williamson passed away at Pefferlaw, Ontario, on Thursday, March 27, after a year's illness. He was born in Pontypool and resided in Peterboro for 15 years, then moving to Pefferlaw, where he resided with his daughter Mrs. F. J. Hughes, for a number of years he was employed by the C.P.R. railroad as a baggage master. He was a member of the Masonic Lodge also of the I.O.O.F. There are left to mourn his loss besides a sorrowing wife, two sons, Walter of Calgary and Dr. Leslie of Edmonton and one daughter Mrs. F. J. Hughes of Pefferlaw.

The funeral will take place on Monday afternoon at 2 o'clock from D. Belleghem's and Sons funeral chapel and proceed to the Little Lake Cemetery for interment. Rev. A. J. Langford of Trinity Methodist Church will officiate.

The sun's apparent yearly path among the stars is known as the ecliptic.

'BUS WORKERS OBTAIN VIRTUALLY ALL THEY DEMANDED IN STRIKE

Struck For Eight Shillings a Week Increase and Are Given Six With Other Two Fluctuating According to the Cost of Living--Government Was Prepared For Emergency.

Terms to Be Ratified.

LONDON, March 29 (Canadian Press). — London's transport strike was settled last night after day-long negotiations between the tramway and bus workers and the employers on a basis conceding to the workers an immediate advance of six shillings, with the remaining two shillings demanded by the men fluctuating, according to the cost of living index.

Thus, the men get nearly all they originally demanded.

There is no doubt that this ending of a difficult crisis was almost entirely due to the intervention of Premier MacDonald, who has been untiring in devoting himself to securing a settlement.

Late last night the Premier, looking pale and exhausted, left Downing Street for a week-end rest at Chequers Court, his country residence.

Though the strike situation on Thursday night looked hopeful, the Government nevertheless made every preparation for a possible extension of the strike. Some of the Ministers yesterday travelled to Liverpool where King George was attending the Grand National Steeplechase, and the King held a Privy Council there and signed a proclamation providing for a state of emergency, which naturally will not now be required unless, as is considered unlikely, the leaders of the men should refuse to ratify the terms of settement.

The terms of settlement are subject to ratification by both sides, and will not be officially made public until ratified, but the necessary formalities will be made with all haste in order to get the transport services running.

In the meantime, all tube and other threatened sympathetic strikes have been called off and harassed Londoners breathe freely again.

General resumption of the services is not expected before Sunday.

The strike settlement comes as a great relief to the Government as well as to the citizens because although the Ministers had decided to take emergency powers, they were far from agreed on what those powers should be, and almost any move they could have made in this direction risked bringing them into conflict with large sections of the Labour Party itself which would have regarded such exceptional measures inimical to general trade union interests.

CHANCELLOR WHIDDEN AT MURRAY ST. CHURCH

Chancellor Howard B. Whidden of McMaster University, is recognized as one of the foremost leaders of Christian education in Canada. Previous to his coming to his present position he was, for a period of about 14 years, president of Brandon College, and before that he was pastor of a large church in Dayton, Ohio Mr. Whidden is a Nova Scotian and member of a family which has stood for generations among the very best in character and service. He will preach in the Murray Street Baptist Church on Sunday morning.

24 MINERS KILLED IN VIRGINIA MINE

BLUEFIELDS, W. Va., March 29.—Twenty-four men were killed in the mine explosion at Yukon, McDowell county, Friday, according to official reports received at the offices of the Yukon-Pocahontas Coal Company. The blast occurred about three-quarters of a mile inside the workings. Fifteen bodies had been recovered at 5 p.m.

COMMITTEE OF NEUTRAL MINDS

Canadian Representatives on St. Lawrence Waterway Investigation Men of Independent Judgment, Premier King Intimates.

OTTAWA, March 29.—(Canadian Press.)—Men whose "judgment will be recognized as independent" will be appointed by the Canadian government on the Canadian National committee in regard to the St. Lawrence waterway development, stated Premier King in the House of Commons Friday afternoon.

The premier spoke in reply to John Millar, (Progressive Qu'Appelle) who had called his attention to a report that the American government had placed on the national committee of the United States only those favorable to the scheme, and asked whether the Canadian government would take account of the circumstance in making its appointments.

Mr. King said that he was not aware as to whether the American representatives on the national committee were all favorable to the scheme, but that it would be the purpose of the Canadian government to choose men "whose judgment will be recognized as independent."

FRESHETS ARE NOT DAMAGING

Railways Will Escape the Heavy Losses of Last Year From Washouts — Water Moving Off Orderly

MONTREAL, March 29.— Western Canada and the Atlantic region will be saved from the severe floods, which caused millions of dollars' worth of damage to property last year, according to Canadian National Railway officials, who are now attending a conference in Montreal.

A. E. Warren, general manager of the western region and S. S. Brown, general manager of the Atlantic region, are each of the opinion that there will not be in their district a repetition of the heavy floods and the washouts which cost the railways several millions in the spring of 1923. The condition a year ago was brought about by heavy snow followed by severe rains.

This year, with the exception of Quebec and eastern Ontario, the snow fall has not been heavy, and good weather is taking that away easily. The water in the streams and rivers is flowing under the ice in a satisfactory manner, and the spring break up is taking place generally without disturbance. In the west the prospects are for early seeding

Child Burned to Death With Home

CALGARY, Alta., March 29.—Following her mother back into their burning home after her father, who had been overcome by smoke, Edna Read, two years old, daughter of W. H. Read, farmer living nine miles from Dilburne, was burned to death when the home was destroyed.

Mrs. Read had succeeded in getting the three children from the house and was returning for her husband who had been overcome by the smoke when the little tot followed into the flaming house to become lost and meet her death.

The fire started about 9.30 Tuesday evening after the family had retitred and the mother only succeeded in dragging out the children and the father while attired in their night clothes, all that was saved from the blaze.

WINTRY BLAST ON THE LOCAL MARKET

Silver Tongued Orators Had to Work Overtime to Keep Warm--Syrup Plentiful.

The cold, north-east winds, the fur coats and upturned collars of the vendors contrasted strongly this morning on the farmers' market with various wares which usually have their advent with the vernal season.

Shivery fowls in crates, tiny fuzzy puppies, pale green duck eggs, and above all, new maple syrup, generally come in with the spring season.

Although maple syrup is reported as likely to be only a fair crop this spring on account of the cold spell, which has checked the run, the supply was fairly plentiful this morning. The opening price was slightly lower than last year's initial quotation of 80c a quart, being 75c this morning, with one man selling his syrup in Imperial gallon containers at $2.50 a tin.

The cheerful apple man had Spys at 60c and 70c a peck, and Russets at 50c. In competition with the regular fish vendor, was a loquacious gentleman from across the way, advertising loudly the merits of Lake Ontario mullet at "a dollar's worth for a quarter."

Potatoes this morning were $1.90 a bag, and scarce. One had had Early Buckeyes at $2, and prophesied a coming shortage in the great table accessory. Carrots and parsnips were 50c a peck, beets 40c, and turnips 25c. Small quantities of pork and beef were selling at the usual prices, and little live, contented-looking Tamworth porkers, were $8 a pair. Tiny collie pups might be purchased at the very low rate of 25c and 50c a piece from a small boy who kept his charges carefully covered up from the cold blast, and a family of Brown Leghorns was selling for $4. Big, well market Plymouth Rocks were $3 apiece.

A solitary load of hay was priced at $15. Seed clover at one cart was $12.50 per bushel.

The auctioneers were engaged in vocal combat this morning. Stationed for a time about ten feet from one another, their well trained voices mingled in a variety of phrases, that had to do with engaging the attention of the crowd in turn as to the respective merits of such things as straw cutters and table knives.

Upstairs in the basket section dairy produce was plentiful, and fowl was scarce. Butter was selling at 43 and 45c a pound, and eggs at a general quotation of 25c a dozen, with one vendor getting rid of a surplus supply at 24c. Chickens were 28c a pound. Pale green duck eggs were 10c apiece. Cream was 30c a pint.

Voluble young men had charge of a table devoted to the sale of a new type of embroidery needle, with demonstration of proper stitching by the merchants, and were flanked by a table where furniture polish was for sale.

NOW A MAJOR.

Rev. Canon Sawers has been transferred as chaplain from the Prince of Wales Dragoons at Peterboro to the Cobourg Heavy Battery, with rank of Major.

APPROPRIATION FOR EXPERIMENTAL FARMS ATTACKED IN COMMONS

Government Asked For $1,400,000, a Reduction of $125,000 From Last Year's Estimate—Agnes McPhail Moved That the Item Be Pruned of $200,000 — Said Farms Fail to Accomplish What They Inculcate.

COST WARRANTED.

OTTAWA, March 29.—(Canadian Press) In committee of supply Friday afternoon, the House considered the item of $1,400,000 for experimental farms, a reduction of $126,000 from the estimates of last year. Hon. W. E. Motherwell, minister of agriculture, said that while there was no desire on the part of the government to curtail the services of the experimental farm, certain features could be done away with.

E. J. Garland (Progressive, Bow River), asked the minister for a justification of the existence of an experimental station at Fort Vermillion. He believed that the government might consider suspending operations there. Settlers had found they could not live profitably by farming in that section. The minister said that it was a settlement of between three and four hundred and the five acre station maintained there was of considerable value to the settlers.

Mr. Meighen questioned the minister as to the line of policy he was following. Why did he increase the experimental farms vote by $200,000 last year and decrease it by $125,000 this year?

Hopeless Last Year

Mr. Motherwell replied that they had decided without interfering with the value of the work done at the farms, they could cut out some of the "frills and flounces and boulevards" which it had been thought necessary to keep up.

"Why was not that done last year," asked Mr. Meighen.

"It seemed so hopeless last year," replied Mr. Motherwell, "that we did not make the same amount of effort." (Laughter).

Robert Forke wanted to know whether the minister would care to express an opinion on the suggestion that more of the experimental work should be left to the provinces.

Mr. Motherwell answered that wherever it was considered practicable that policy was being followed. It has been followed about as far as it could be except by closing down some dominion institutions altogether. That too, he was prepared to consider.

"We have too many experimental farms in Canada," said Mr. Motherwell. "But they are there and are doing useful work and we must keep them going."

Expenditure Justified

David Spruce (Progressive, Parkdale) asked if the minister thought Canadas experimental farms justified the money spent on them. Mr. Motherwell repled with an emphatic "yes." Thomas Sales (Saltcoats) asked why not scrap the experimental farm at Rosthern and save $20,000 a year? There were no experiments possible at Rosthern which could not be carried out at Saskatoon.

Mr. Motherwell said it would cost more to salvage and transfer valuable equipment there to another farm than to keep the Rosthern farm going. Mr. Sales suggested other economies and asked if a conference between Federal and provincial agriculture experts would not be calculated to effect economy.

Less Useful To-day

John Miller, (Progressive, Qu 'Appelle) said that most Canadian experimental farms were less useful to-day than they were in the past years. The question was whether or not they might be reorganized to restore their full usefulness.

Mr. Motherwell spoke of the difficulty in getting 100 per cent. efficiency from farm labor. He referred also to the inconvenience of appointing farm superintendents by the circuitous route of the civil serious problem of the rotation of crops in the prairies was still unsolved. He doubted if any member of the house had found a successful way out of the difficulty. Experimental farms were carrying on work that might some day lead to the solution of this difficulty in the west.

John Pritchard (Progressive North Wellington) did not believe in curtailing unduly the work of experimental farms, but he thought the Government should make the farms pay. As far as he could gather operations on all experimental farms throughout Canada were unprofitable He advised cutting out the unprofitable features. If farms could not be made to pay there was little use in keeping them going.

Profit in Poultry

Hon. S. F. Tolmie (Conservative Victoria) asked the Minister of Agriculture if the poultry business of Saskatchewan was profitable. Mr. Motherwell said that it had grown enormously, and that the province was now second to Ontario in the shipment of poultry products.

W. W. Campbell (Progressive, Mackenzie) said that he believed chilled meat was being sold in the

HANGMAN ELLIS QUITS HIS JOB

For Over 23 Years He Has Held the Position and Dozens of Criminals Have Passed Through His Hands.

LONDON, March 29.—(Canadian Press).— John Ellis, official hangman of Great Britain has resigned his job, but has not given any reason for doing so.

For over 23 years he had held the position, and dozens of criminals notorious and otherwise passed through his hands to their doom, among whom were Crippen, Roger Casement and Edith Thompson, last woman executed in England.

He is a student of criminology and reads accounts of murder trials in newspapers with professional interest.

His fee for dispatching criminals was fifty shillings and another fifty shillings for "good conduct." Latter amount was paid in consideration of fact that he was forbidden to stay at public house, near scene of an execution.

Ellis is a breeder of poultry and it is said that he is so devoted to his birds that he gets friends to wring necks of those he wants to kill.

FOUR TRAINMEN WERE KILLED IN SMASH-UP.

NEWARK, Ohio., March 29. — (Canadian Press).—Four Baltimore and Ohio Trainmen were reported to have been killed when a freight train on the Shawnee division went through a bridge south of here this morning. High water was said to have caused the trestle to give way.

CALEDONIAN'S SOCIAL EVENING BIG SUCCESS.

The Caledonian Club had a very pleasant social evening last night in Victoria Hall, with an attendance of about 60 of the members and their friends. A feature of the evening was an amateur programme of vocal and instrumental music put on by the club members, fifteen ladies and gentlemen taking part in the contest, which was left to the audience to decide. After much discussion, the winner of the ladies' prize for best amateur work was awarded to a trio dubbing themselves "The Three Mustiteers," consisting of the Misses Jessie Pattison, Jennie Anderson and Jennie Clark. A tie developed for the gentlemen's prize, between T. Williams and W. Grieve, the former finally winning out.

At the conclusion of the programme, cakes and ices were served by the gentlemen's committee in charge of arrangements.

TRIP FROM COAST TO COAST SHOWN AT KNOX

There was a good attendance last evening at Knox church, for a very interesting evening devoted to the showing of a motion picture travelogue, portraying a trip across Canada from Halifax to Vancouver. The trip from coast to coast depicted the principal cities of the Dominion with the most important centres and industries in each. Sub-titles of a descriptive nature were particularly effective, and the picture was enlivened by several humorous interludes, very much enjoyed by the children present. The showing was under the direction of the Canadian Magazine, in co-operation with the Church School, and was presided over by Mr. H. J. McCannon, superintendent of Knox Church Sunday school.

The United States Postal Department was founded in 1790.

ONTARIO HOUSE TO SIT LONGER THAN EXPECTED

Legislature Session Will Be Extended Until Public Accounts Committee Has Thoroughly Explored the Treasury Transactions — Private Bills Committee Has Much Work Left.

BOW TO LABOR.

TORONTO, March 29. — The Legislature session which was nearing an end has taken on a new lease of life. It will not complete its work next week nor perhaps even the week after. In view of the fact that there is considerable work ahead of the private bills and public accounts committee yet the government decided that it could bring on some more important legislation so that the House would waste no time while the committees were catching up.

The Private Bills Committee still has 44 bills to consider and it never gets through more than 9 or 10 at a sitting. The Public Accounts Committee must go further in its investigations to reveal all the transactions of the Treasury Department of the late government so that the public will know everything that went on.

"We will not abridge the sessions of the House until full opportunity has been given to follow up the revelations made by the Public Accounts Committee," said the Premier Friday afternoon.

Trade Union Pressure.

Following this announcement, the government introduced several important measures, one being a new blue sky law by the Attorney General to protect residents of the province against fraudulent stock.

Another bill provides that all brokers dealing in bonds, securities and real estate, must take out licenses.

Hon. W. F. Nickle also withdrew the bill amending the Workmen's Compensation Act and establishing a review board for the decisions of the board. He said the act was withdrawn under the great pressure of the trade unions who were the people most affected by the act. He thought they were mistaken but yielded to them for the preesnt.

Mr. Peter Heenan (Lab., Kenora) expressed appreciation of the government in withdrawing the bill. W. E. N. Sinclair, Liberal leader, said that the introduction of the bill showed that the government was not in touch with public sentiment. The Liberals had intended to have told the government that the bill was unnecessary, but now the government had made that discovery for itself. He hoped that it would be a lesson to the government not to be precipitate in its legislation, and that the Attorney General would be more careful in view of the peaceful interment now being given the bill.

Employees Alter Views.

The premier said this bill had been drafted after conference with the chairman of the Workmen's Compensation Board, employers and employees. The latter had changed their viewpoint, and as these were the men directly affected it was decided to withdraw the bill at their request. He thought that something would have to be done to increase the machinery as the work was too much for the present board. Two hundred cases a day were dealt with.

An act was introduced by the premier encouraging local highways. It proposed to bring materials, gravel, etc., within easier reach of the municipalities.

"The "Blue Sky" Law.

The new "blue sky" law introduced by the Attorney-General, states that the Provincial Secretary or any Crown Attorney on his own initiative or on instructions from the Attorney-

GENERAL ELECTRIC TO ACCEPT ONE PROPOSAL MADE BY THE COUNCIL

Negotiations Brought to a Satisfactory Conclusion—By-law to Go Before the People on April 23rd.

ERA OF EXPANSION

Following conferences between the officials of the Canadian General Electric Company, Limted, and the City Council, it was announced this morning that the company is willing to make an extension to its plant here which may amount to $400,000 if the city will grant an extended fixed assessment, and a by-law will be submitted to the Council on Monday night authorising the taking of a vote of the people on the question.

At the meeting of Manufacturers' Committee which recommended the drawing up of the by-law, Mayor J. J. Turner outlined the conversations and negotiations between members of the Council and representatives of the Canadian General Electric Company regarding expansion of the company which they intended making either in Montreal or Peterborough. He pointed out the efforts made by the city to attract the extension of the plant to Peterborough, and the suggestion was made by the city that the present fixed assessment of the company's property be extended for a period with that view in mind.

Yesterday the Mayor was informed by Mr. E. G. Patterson that the suggestion had been accepted.

Mr. Patterson further elaborated the plans of the company, saying that if the present fixed assessment were extended three years the company would erect another building of brick and steel not less than 87 feet by 160 feet, consisting of three storeys and basement, with approximately 50,000 square feet of floor space, and would install additional machinery. It would expend on its new building and on additional machinery between $300,000 and $400,000, the work to be completed by 1st July, 1925.

Followng this outline of the case,

(Continued on page 2.)

Insured Suicides Pass Auto Deaths

NEW YORK, March 29. — The amount of death claims paid for suicide among its policyholders exceeded by more than $150,000 the claims paid by it for deaths caused by automobile accidents during 1923, the Metropolitan Life Insurance Company announced yesterday.

The total of claims paid to heirs of suicides was $1,300,000. The announcement added:

"The prevention of self-destruction is one of the major problems in the conservation of human life."

THORNTON NOT RESIGNING C.N.R.

London Rumor Claiming National Railway President For British Position Positively Denied In Montreal.

NEW YORK, March 29.—(Canadian Press).—Questioned by the Canadian Press on his arrived here this morning regarding the report that he was to return to England soon as president of a prominent English railway, Sir Henry Thornton, head of the Canadian National Railways, declared that the rumor was news to him.

"I have not heard anything about it," he said, "and I have no intention of returning to England. You may say there is nothing at all in it."

He declined to disclose the nature of his visit here.

QUARTERLY BOARD PASS RESOLUTION

George Street Church Board Approves of O.T.A.

Resolved: That this joint meeting of the quarterly and Trustee Boards of George Street Methodist Church, Peterborough, hereby places itself on record as expressing its appreciation of the Ontario Temperance Act and of the indefatigable efforts of the Attorney-General, Hon. W. F. Nickle, to give it adequate and vigorous enforcement. We realize the difficulties which confront any man who seeks to enforce a law with which certain elements in the Province are not in active sympathy, and wish to assure the Attorney General that he has our unqualified approbation for the splendid endeavors he has put forth to make this law operative to the fullest extent.

We believe that the said law has already proven itself of great benefit to the province in the lessening of crime, the abatement of poverty, the improvement of living conditions, and in the safeguarding of physical and mental efficiency by the acquiring of the habit of indulgence in alcoholic beverages. We respectfully urge that this Act as it now stands be given ample opportunity to demonstrate its growing efficiency in the curtailing and controlling of the liquor traffic. We believe that the present law, which is real "Government control" is far superior to any system of "Government sale," and trust that it may continue to have the active support of your Government.

We deprecate the desire on the part of some to put this province to the unnecessary expense and unsettlement of another referendum so soon after the decisive votes of recent years, but hope that the present act, strengthened and safeguarded, receiving the hearty support of your Government, may become increasingly effective in the regulation and final suppression of the evils of the liquor traffic.

GENERAL ELECTRIC

(Continued from page 1.)

it was moved by Alderman Nagle Phelan that a by-law be prepared to submit to the people to extend the period of the fixed assessment of the Canadian General Electric Company for three years and eight months, or until ten years from 1st January, 1925, on the conditions outlined by Mr. Patterson.

A special meeting of the City Council has been called for Monday night to adopt the committee's report.

Is Only Beginning.

In connection with the proposed extension here it is interesting to note that it was reported at the annual meeting of the Canadian General Electric Company that this extension "will mark the first step in what promises to be a fairly important construction programme."

It has been intimated to the City Council that plans will be prepared immediately and tenders called for. the question will probably be submitted to the people on 23rd April, and in the event of the by-law carrying, as it no doubt will, the company will be prepared to let the contract for construction on 24th April, and building operations will be rushed forward.

Mayor Turner informed The Examiner in an interview this morning that all business organisations in the city, such as the Chamber of Commerce, the Manufacturers' Association, the Retail Merchants' Association, and others, will be asked to cooperate in putting the by-law through with a big majority to show the Canadian General Company that Peterborough will do all it can to encourage the development of business here.

The officials of the company feel very kindly toward the city in consideration of the treatment they have received in the past, and Mr. Patterson referred, in speaking to the Manufacturers' Committee, to the kindly feeling now existing between the company and the city.

It is confidently expected by prominent citizens, and it has been suggested by officials of the company, that this extension is but the beginning of an era of expansion in Peterborough.

Inquiry elicited the fact that the company paid in taxes last year $18,255.12, and payable in 1924, covering the assessment made in 1923, it will be approximately $20,400.00.

Developing New Wealth in Porcupine Gold Fields

We own 100 selected mining claims in the Porcupine gold area, located in Tisdale, Whitney, Deloro, Shaw, Cody and McVittie Townships.

Our mining experts and diamond drilling outfits are constantly on the move, followed by geologists and engineers, where ore veins are uncovered.

The plan of operation is to prove the value of a claim by initial development to make it available for sale to capitalistic interests.

Subscribers to the fund out of which our operations are financed, share in all profits.

There is no personal liability.

Managing-Director.

Try a Great Tenor

PLACE your finger on the big curve of the Tone Arm, while the record of a great tenor is being played. If you feel any vibration, that Tone Arm, whatever else it may be, is not a perfect Tone Arm.

Few Tone Arms are built to withstand such powerful high notes. They make the world's greatest tenor voices harsh and raucous.

The McLagan-Fletcher Tone Arm is of heavy octagonal construction, tapering down to the Reproducer in one piece. It does not vibrate on high C. It does not vibrate at all. Try it with the most powerful tenor a high soprano, a cornet soloist or a brass band selection. The McLagan plays all records.

Thirty beautiful period models in Walnut, Mahogany or Oak.

CAMPBELLFORD'S SEWER PROGRAM

Third Reading of By-Laws For Service On West Side of River—May Buy Rock-Drilling Equipment to Expedite Excavation.

CAMPBELLFORD, March 29. — Dr. John Macoun, T. J. Horkins, appeared before the town council at a special meeting to object to the plan for the construction of sewers which the council has decided upon for the east side. The council last night arranged for the construction of a sewer down Rear Street from Bridge to River Streets, thence to the core wall of the Trent Canal. This sewer is to tap the one on Bridge Street, this, according to Engineer Caddy, being the natural fall and, besides, it was considered advisable to relieve the pressure on the sewer on Bridge Street, which is at present connected with the sewer on Booth and upper Rear Streets.

Dr. Macoun was accompanied by his solicitor, G. A. Payne. Part of the work referred to was decided upon on the initiative plan, the statute providing that in such cases the sewer must be planned and, if the property owners interested object, they are at liberty to appeal to the railway and municipal board, provided that the owners of half the value of the property interested join in the appeal, within 21 days after the first publication of the advertisement. The time for such an appeal has long since expired and no objection to the proposed sewer was heard until recently.

Dr. Macoun argued that the logical course for the service was not along Front Street, but that it should be put in along Second Street from Rear to the River. Under the circumstances the members of the council were unable to see how anything could b done. The by-law for the payment of the sewer has already been passed.

Mr. Horkins is interested in the Bridge Street sewer, and in common with other property owners on that thoroughfare, holds that tapping it at Rear Street will impair its usefulness, as in that event there will not be sufficient pressure to carry the sewage to the river as there is said to be a rise between Front Street and the outlet. It is also claimed by the residents that the pipe in this sewer is sufficiently large to take care of all the flow and that there is no necessity to lessen the pressure. They are of the opinion that the new sewer on Rear Street should be laid without connecting it with the one on Bridge Street.

By-laws Passed

The by-laws for the construction and payment of the sewers on the four streets on the west side as decided upon at the meeting Monday night were given a third reading. On motion of Councillors Abernethy and McDonald, the debenture issue was placed at 15 years.

S. J. Abernethy, who is chairman of the water and light committee, appeared before the council to object to the property owners on the Hastings' Road being charged with the cost of the new water main which wil be placed with the sewer on that thoroughfare and which figures out at 84 cents per foot front. Mr. Abernethy contended that the mains should be paid for out of the surplus in the treasury of the water department, a plan that has prevailed in the past.

Mayor Meyers, also a member of the commission, called attention to the fact that there were little or no such surplus on hand, and Clerk McGregor announced that the balance available was only $300.

New Equipment

The new sewer, as already stated, will be constructed by day labor under the supervision of Street Superintendent Fox, who has had successful experience in this kind of work. On motion of Councillor McDonald and Deputy-reeve Dorie, Mayor Meyers, Councillors Cole and Dorie, were appointed a committee, with power, to negotiate for the purchase of a power rock-drilling equipment for sewer building at a cost not to exceed $1,500. On a recent visit to Toronto, Mayor Meyers investigated the most modern types of such machinery.

On motion of Deputy-reeve Dorie and Councillor Cole, Town Clerk McGregor, who lives on Frank Street, was given permission to connect his residence, if he so desires, with the River Street sewer when completed.

Councillor Cole, as chairman of the committee on roads and bridges, was authorized to have trimmed a number of shade trees on George and River Streets.

All the members of the council were present, except Reeve Davidson, who was in Ottawa.

MEN AND HORSES

How closely related is man to the more intelligent of the animals is seen in many of the ailments to which both are prone and the remedies to which they answer.

Doctors and veterinarians are oftentimes surprised to learn of the similarity of their methods of handling the ailments of man and beast.

Sprains, burns, scalds, scratches and many other minor injuries, many everyday ailments, too in men and animals take the same course, and both answer immediately to the same treatment—Absorbine Jr.

Absorbine was first discovered by a very close student of the horse, W. F. Young, and by him, devoted to its cause. Its very exceptional benefits, however, were promptly seized upon for the human race and, in a milder form, the preparation is sold all over the continent today as Absorbine Jr. It is used for men, women and children everywhere as a positive germicide—a germ killer—and a prompt and certain healer of all hurts. It is useful not only for all the purposes served by ordinary liniments and embrocations, but as a mouth-wash and for anything else where a germicide is needed. Don't wait until you need it. Get it in the house today. $1.25 at your druggist's.

CAMPBELLFORD AND DISTRICT

Chamber of Commerce Annual Meeting Results in a New List of Officers — Town Planning.

CAMPBELLFORD, March 29.—The members of the Chamber of Commerce at their annual meeting last night elected the following officers for the current year:

President—G. A. Kingston.
Vice-President— Dr. O. C. Watson.
Secretary—Wesley Stephens.
Treasurer—J. A. Stewart.
Executive Committee — Clifford Weston, A. L. Reindeau, A. J. Jenkins, S. H. Neale and D. W. Douglas.
Property Committee—A. E. Caddy, Eli Brunette, N. B. Dickson.
Auditors—George Nicol and J. P. Archer.

This is an entirely new list of officers with the exception of the treasurer. Rev. Father Phelan, who has been president since the Chamber of Commerce was organized, in his opening address, stated that he was not in the field for re-election and recommended that a change be made throughout. He regretted that so little had been done during the winter, but added that the inactivity had been general among the Chambers of Commerce in the smaller centres. He expressed the hope that there would be a revival of effort with the coming of spring.

Father Phelan said that the object of the Chamber of Commerce was to advance the commercial, industrial and civic welfare of the community. For this reason he believed that the new president should be a man on the ground floor, a business man who resided down town and was in touch with the people. He advised co-operation and was pleased to note that there were no knockers in Campbellford.

Fee Reduced.

At the last meeting J. A. Stewart had given notice of a motion to reduce the membership fee from $25 to $10. In the absence of Mr. Stewart, who is wintering in the south, this motion was presented by I. A. Humphries and carried unanimously.

Inquiry For Power.

Secretary Humphries read a letter from a resident of Buffalo inquiring as to the chances for obtaining power for a pulp mill, a company of American capitalists looking for a location for such a plant. Mr. Humphries stated that he had called the attention of Engineer Scott to the matter and that Mr. Scott had agreed to bring it before the water and light commission. The engineer, however, held out little hope of the municipal plant being able to furnish the amount of power asked for—from 2,500 to 4,500 horse power.

On motion of Dr. Watson it was decided to make an effort to have the Hydro supply the power if the town cannot do so.

Dr. Watson's Programme.

Dr. Watson, the new vice-president, made a number of suggestions of matters that might be dealt with during the year. The first of these was that an effort be made to have the C.N.R. night train that runs from Lindsay through Peterboro and by way of Millbrook to Port Hope, operated by way of Campbellford. The train could carry a sleeper that could be connected at Belleville with the Montreal express.

Dr. Watson believes that the streets of the town, some of which have as many as four names, should be re-named, Crimean names, such as Inkerman, Balaclava and Sebastopol, could be dropped, and instead of these the names of some of the local heroes of the World War substituted. The designation, Rear Street, he believes should be dropped, as it is a relic of primeval times.

The weekly half holiday should be changed from Friday to Wednesday afternoon, to correspond with that of other towns in the district. At present it is impossible to get a crowd at athletic games on Wednesday afternoons in Campbellford. Merchants may object to the change as they believe that when their stores are open on Wednesday afternoon people from outside come here to trade, but the doctor said the reverse was the case on Friday, so that the local dealers were nothing ahead.

If the streets are not to be paved his year Dr. Watson believes that the Council should at least purchase a road roller to level the thoroughfares and so save the springs in autos. Even if the main roadways were paved the roller would still be needed for the back streets.

There is a prospect that the spur line, so long in disuse, is to be abandoned by the C.N.R. and the rails taken up. Dr. Watson would like to see the right-of-way converted into a boulevard, which could be beautified and maintained as a soldiers' memorial.

The Mayor's Suggestion.

Mayor Meyers said the paving of streets in Campbellford cannot much longer be delayed. During the past three years the sum of $32,000 had been expended on the streets. If this had been paid out for permanent paving the people would have received some benefit, and could see where their money had gone. He did not think there was much prospect of paving this year. All the Council could do under the circumstances was to level the streets and keep them clean.

As to the siding referred to by Dr. Watson, the Mayor said that former Solicitor Humphries had been asked to look into the legal status of this proposition and report to the Council. The Mayor said that there are excellent factory sites along the spur line, and that it may yet prove a valuable asset to the town.

"One thin gwe can do," added the Mayor," is to get the people to improve the appearance of their yards. A large programe of sewer construction has been planned for this year and the sewer on the west side will be practically complete. The people are beginning to realize that sewers are a necessity and I believe that they are and that the amount saved in the prevention of sickness in a good return on the outlay.

Invitation to Sir Adam

Secretary Caddy was instructed to invite Sir Adam Beck and Hon. Robert Cooke M..A. of near Stirling to visit Campbellford as the guest of the Chamber of Commerce to see at first hand the advantages, offered by this town in the location for the Hydro offices now situated in Belleville. The building in which these offices are located have recently been sold and now quarters must be secured. It is believed that Campbellford is the logical location, this being the electrical centre for this section of Ontario.

On motion of Mayor Meyers and Dr. Watson a vote of thanks was tendered Rev. Father Phelan and the other retiring officers. Mayor Meyers expressed the hope that Father Phelan, who has done so much in the past will retain his active interest in the organization. This is the ex-president, in a brief address, promised to do.

The next meeting will be held at the call of the president and executive.

Will Buy Machine

Mayor Meyers, Councillors Cole and Johnston the special committee appointed by the Council, with power, to consider the purchase at a cost not to exceed $1500 of a rock drilling operating machine for sewer construction work, meet last night and decided to close the deal for such equipment. This is regarded as a good investment as the rental of the power driller used last year amounted to about $1000.

Personals

George Goffin and Arthur Druce are spending the week end in Peterborough.

Miss Gladys French is visiting friends in Peterborough.

MISS OULTON.

Announces that she is prepared to interest all looking for smart, up-to-the-minute headwear, at popular prices. All the latest styles are kept in stock. Call and see for yourself. Phone 371. Front Street, Campbellford.

"CASCARETS" BEST BOWEL LAXATIVE

10 Cents a Box! Don't Stay Bilious Sick, Headachy, Constipated

"They Work While You Sleep."

When you feel sick dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two pleasant "Cascarets" to relieve constipation and biliousness. No griping—nicest cathartic-laxative on earth for Men, Women and Children. 10c boxes, also 25 and 50c sizes—any drug store.

PREMIER KING CONCERNED IN BANK INQUEST

Prime Minister May Be a Witness Before Royal Commission-- Declares Deputation Requested Huge Deposit.

HOME BANK INCIDENT

OTTAWA, March 29—(Canadian Press).—The Home Bank depositors throughout Canada may be cheered somewhat by the fact that one of the witnesses likely to appear before Mr. Justice McKeown, Royal Commissioner, is none other than the Prime Minister of Canada. No other inference can be drawn from the remarks of the Right Hon. Mackenzie King as uttered in the House of Commons yesterday morning. Hansard records the following:

Mr. McGhen: "Did the Honorable Minister say these gentlemen came just before the bank closed?"

Mr. Mackenzie King: "My impression is yes. The only recollection I have of any deputation is a deputation that came late one evening to ask if the Government would make some huge deposit in order to meet the situation for the next day, and I myself declined to entertain a thought of the kind. My recollection is that we were told the bank would fail if that were not done, and I think it was the day following, or two days after that, that the bank closed its doors."

The Premier said he was prepared to make a statement before the Royal Commission.

Home-made Remedy Stops Coughs Quickly

The best cough medicine you ever used. A family supply easily and quickly made. Saves about $2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good.

Pour 2½ ounces of Pinex in a 16-oz. bottle; then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make 16 ounces—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

WHERE TO WORSHIP TO-MORROW

GEORGE STREET METHODIST CHURCH

Rev. W. Harold Young, M.A., B.D., Pastor

The Pastor will preach at both services
11 a.m.—"SHALL WE HAVE A REVIVAL"
7 p.m.—"ALMOST, BUT NOT QUITE"

Soloist for To-morrow: Dorothy Allan Park.
Musical Director, John. H. Renwick.

HEARTY WELCOME TO ALL

SATURDAY, MARCH 29, 1924.

THE GRENFELL FUND.

The annual local appeal for funds for Dr. Grenfell's Labrador mission is to be made next week, and the Examiner calls its readers' attention to the announcement from the President of the local association which appears in another column.

The reference to the late Mrs. James Wood will be appreciated.

That Peterborough has for years made a worthwhile contribution to the splendid work launched in Labrador by Dr. Grenfell is due to the interest Mrs. Wood displayed in the mission and the zeal and enthusiasm with which she each year entered into the task of arousing local interest in the work.

Mrs. W. R. Morris, the President of the local association, in her tribute to Mrs. Wood well says: "In continuing to generously support this mission we assist a worthy cause and show honour to the memory of one whose life was fragrant with good deeds unassumingly done."

The Examiner hopes that Peterborough will continue to show its interest in the fund by a generous response.

CHEAPER POWER FOR FARMS.

Much of the coldness towards the Hydro-electric enterprise that has been noticeable in rural districts will be dissipated by the action of the Ontario Government in increasing the bonus for rural power lines, thus bringing the glessing of electric power to many farms where hitherto the cost has prohibited the use of electrical energy.

Many farmers have looked upon the Hydro undertaking as something that was of benefit only to urban residents, and that attitude has been easy to understand, in view of the fact that the majority of farms are without electric light or power.

Under the arrangement at present the Ontario Government pays 50 per cent. of the cost of primary construction, which means the establishment of the main Hydro line through a particular district, a half million dollars being spent on this work this year.

Now the Government proposes to provide a further subsidy of 50 per cent. of the cost of secondary construction, or, in other words, half the cost of the power lines leading from the main trunk line back through the rural concessions.

This bonus will, of course, materially cut power and light costs on the farm, and should be of very material benefit in many rural districts and will do much to popularize Hydro in sections where the feeling toward it has been luke-warm, to say the least.

WHAT IT WOULD COST.

The Western agitation for the completion of the Hudson Bay Railway continues to increase in intensity, and Eastern newspapers and members of Parliament who venture to object to this undertaking, in view of the need of retrenchment, are decidedly unpopular west of the Great Lakes.

At least one Ontario member has received a sharp telegram from a Western Chamber of Commerce, criticizing his attitude towards the pet project of the prairies.

The figures given by the Minister of Railways in the House on Thursday, however, will strengthen Eastern opposition to the completion of the road.

Already the Government has spent on the Hudson Bay Railway approximately $14,500,000, and on the terminal at Port Nelson $6,250,00, a total of $20,750,000.

It is estimated that to carry the steel to tidewater would cost another $5,000,000, and that the expenditure of $20,538,000 more will be necessary to make the harbour ready for shipping grain.

That is a total of $46,500,000, without allowing for extras—and everybody knows how they bob up to add to the original estimate of cost.

Is the present an opportune time to plunge over $25,000,000 in a dubious railway venture?

Remember, the fixed charges on the investment would amount to at least $2,500,000 a year, to which the operating deficit would have to be added.

So far on the section of road in operation this has been kept down to $25,000 a year, but only a minimum service has been given.

An attempt to provide a complete service would occasion a heavy early deficit.

The Progressives should drop either their economy plank or the Hudson Bay Railway project.

The two cannot possible be teamed.

THE CHICAGO STEAL.

One subject has been found on which all the parties in the Federal House are apparently able to agree, namely, the action of the city of Chicago in diverting water that should flow from Lake Michigan into the Great Lakes and down the St. Lawrence.

This bold theft, which violates a definite agreement, was denounced by Liberals, Progressives and Conservatives alike in the House the other day, and speakers from all parts of Canada condemned the action of the Chicago authorities as outrageous and not to be suffered any longer.

The situation can be explained in a few words.

Some years ago a contract was drawn up permitting the sewage authorities of Chicago to divert a certain number of cubic feet of water for sewage purposes.

The agreement as to the amount Chicago could divert was approved by the Governments of Canada and the United States.

In spite of that compact entered into by the two countries the Michigan city has been taking millions of cubic feet of water more each year than the agreement calls for, disregarding the authority of its own Congress and treating the agreement as of no consequence.

Other United States cities situated on the Great Lakes, such as Toledo and Buffalo, are hurt by this illegal diversion, and the situation is becoming intolerable.

The protest that will be entered by the Canadian Government to the Chicago steal should be pointed enough to show that Canada is determined that the compact shall bbe rigidly adhered to on both sides of the line.

THE VALUE OF THE DOLLAR.

At the bottom of an old trunk, a man finds a silver dollar in a pair of trousers he packed away just before the war started in 1914.

This dollar now will buy only as much as 60 cents would have bought in 1914.

In effect, 40 cents of the original dollar has disappeared. That is, 40 per cent. of its buying power has vanished, as a result of the increased cost of living.

He has always been thrifty, but he is wondering if he wouldn't have been better off if he had spent the dollar in 1914.

On the other hand, 10 years have passed since then. If he had put the dollar in a bank at 4 per cent. compound interest, it would have increased to $2 by the year 1932. Money at 4 per cent. doubles in 17 years 246 days.

This phenomenal power of compound interest, however, has just about been canceled by depreciation of buying power, due to higher prices we have to pay now.

The most pathetic sight in Germany is the aged couple who saved for years to provide for their old age and now find their life savings wiped out by the elapse of the mark's value.

But did it ever occur to you, that the same thing on a smaller scale has happened right here in Canada?

Hundreds of thousands of old people thought they had saved enough to care for them in their old age. The rise in cost of living has reduced the buying power of their savings by 40 per cent.

As usual, it's a good rule that won't work both ways. And 60 cents saved now will be worth about $1 later, not counting any increase by interest, provided the buying power of the dollar eventually returns to normal.

Whether the dollar will ever return to normal, is debatable. Few economists expect any sudden return. But history has the reputation of always repeating, and history shows that prices travel in 50-year cycles—roughly, up for 20 years, then down for 30 years, then up again, later down, so on.

Lately prices have been rising again, but they're still much lower than at the peak of the cost of living in 1920. Viewed as a long-range proposition, we may be on the down path again.

Twenty or even 30 years may pass before cost of living gets back to its old-time level, supposing that it ever will. That's just about when old age will be creeping up to many of us. Regardless of how far the cost of living will finally drop, the dollar saved now will be worth much more later in buying power.

CABINET MINISTER.

If eighteen Ministers are essential in Canada, how is it that so often the country gets along so nicely when many of them are out of commission? asks the Ottawa Journal. Mr. Fielding, the ablest brain in the present Cabinet, has been absent from his post for four months. Nothing terrible, however, has happened; and Mr. Robb, not by any means an experienced administrator, now combines Finance with Immigration—without apparently injuring his health. Mr. Murphy has not been in the Post Office Department for three months; Mr. Stewart, the Minister of the Interior, has taken over his work; and when last we saw Mr. Stewart he was looking particularly hearty. There was no Solicitor-General in Canada for upward of a year after Mr. King took office; and, so far as we can see, the Government was no worse then than it is now. And, finally, if it be true that the work performed by our eighteen Cabinet Ministers is so gigantic, how does it come that between July and October Cabinet Ministers are almost as rare in Ottawa as red Indians on the Island of Manhattan?

* * * *

The simple truth is that one-half of the time of Canadian Cabinet Ministers is given to two things: (1) attention to details that could be dealt with by clerks; and (2) attention to party matters that have no relation to the business of the country. Sir George Murray, an English authority who investigated the whole Canadian administrative question, pointed out what could be effected by leaving details to subordinates; anybody who has watched Governments in Ottawa knows what could be achieved if the Cabinet left party politics to the organizers.

A consolidation of departments, a right conception of Ministerial duties, a greater segregation of party organization from national administration could cut Canada's Cabinet from eighteen to twelve, save the country hundreds of thousands of dollars, and make for greater efficiency.

EDITORIAL NOTES AND COMMENT.

March 1924 has regained the reputation lost by the third month of last year, which came in like a lion and went out like a polar bear.

Seventeen thousand immigrants from the Scandanavian countries will reach Canada this year. They are expected to take up land in the West and should develop into useful citizens.

Investigations into the causes of the failure of the Home Bank are necessary and desirable, but the Government would be well advised to move very slowly in regard to re-embursing the depositors for their losses. There is every sympathy for those who suffered because of the crash of the bank, but the only move that the people will support would be an amendment of the Bank Act that would provide against similar disasters.

The death of Sir Edmund Walker will be felt in many circles. He was an outstanding Canadian, and the country is the poorer by his passing.

Four hundred more Hebrideans are sailing this week for Canada. They will be welcome, for the islanders make good citizens.

Stories of the profits made in the United States oil stock deal make the Ontario bond transaction seem very small affairs.

Here is terrible news for some and wonderful news for others. In Paris, many of the dresses for spring are knee high. Some will be longer, of course. They say the length will depend upon personal preference. We say it will depend upon the knees.

TEAPOT NEWS.

Harry Houdini, the magician, is doing some lecturing. If the magician business is slack he can find some work showing politicians how to get out of their troubles.

FIRE NEWS.

Peggy Joyce, actress, has been made an honorary firewoman. Imagine an actress getting dressed in time for a fire! And will she insist on the fire department's using silk hose?

MARKETS.

Reliable news comes from bootlegging circles that Franklin's picture is on the new $100 bills.

WEATHER.

Geese are flying north already, the bunch of geese.

EDITORIAL

A judge has compiled a leap year list of eligible bachelors and given it to the girls. Outside of bringing in a few nervous breakdowns for the doctors, this will do little good. A confirmed bachelor is about as elusive as an unconfirmed report.

SPRING NEWS.

A former Chicago mayor claims there are fish in the South Seas that climb trees. He offers to bet $25,000 that he can prove it. This fish story is the first sign of spring in Chicago.

FINANCES.

Time your overcoat is paid for, spring suits are on the market.

MAY BE LOUD BUT SAY NOTHING.

Congressman Hawes of Missouri owns 35 dogs. Rodolph Valentino, of the movies, has 200 suits of clothes. This just goes to show the trend of men's thoughts. We had rather the dogs. A suit of clothes can't run out and bark at a bill collector.

WASHING NEWS.

Man got arrested for burning laundries. They know of five he burned, and he says there are more. Cops think he was hired to do it. We think he was mad because he had no buttons on his shirt.

FASHIONS.

The short skirts are coming back. Long skirts, it seems, were only adopted for the novelty.

AUTO NOTES.

Maybe the new truth serum would be good for the epidemic of hearings plaguing Washington now.

The tax return that most taxpayers are interested in is the return of 25 per cent of their income tax.

A three-tube set in South Africa picked up Schenectady, N.Y., so the natives may have sprained their tongues pronouncing it.

What the world needs is a good movie scandal to take the place in the papers used by Teapot Dome now.

We don't know much about a bee in a bonnet but a man usually thinks a woman with an Easter bonnet got stung.

Buying an auto is all right if you don't run into too many creditors.

Cow hides, 6c lb.; horse hides, $2-$2.50 each; calf skins, 12c; sheep and lamb skins, $1.00-$1.75 each. shearlings, 20-25c each.

Wool, 23-28c pound.

TORONTO LIVESTOCK

TORONTO, March 28. — With supplies running pretty close to demand this week, the general tone of the market has been steady, closing little firmer than Monday's opening market. There was but a moderate run for Monday, and prices for the best quality offerings, both for domestic and export purposes, were easily maintained at good steady levels with the previous week. Among the common plain rough butcher cattle there was a little easier tendency in sports, the day closing with a few of the common left over. The runs for subsequent markets were lighter than usual, and any shading off in the opening was fully recovered by the end of the week, the whole market closing steady to strong, with a good clean up of all offerings.

Export demand has been fairly active, taking for the week $7.00 to $8.00 cattle, mostly heavy finished beef cattle, including only a small proportion of feeders. Rogers and Maybee expect to be in the market again next week for about the same number of cattle for export.

In the butcher section the demand is keen for choice quality killers, with a very slow market for poor quality and rubbishy cattle.

Calves have held steady and strong.

Lambs steady with very light offerings.

Hog market weaker at the close at $7.25 f.o.b.

General run of export steers steady from $7.50 to $8.

Choice butcher steady, $6.75 to $7. Baby beeves steady $8 to $8.50. Medium butcher, $5.75 to $6.25. Common, $4.25 to $4.75.

Good fat butcher cows firm, $4.50 to $5.

Bull steady $4.25 to $5.

Calves easier, $10 to $11.

Lambs, $14 to $15.

Hogs, $7.25 f.o.b., $7.75 fed and watered, $8.25 off cars with differential, 70c, short haul and 90c long haul, off cars.

Current Quotations.

Choice heavy ex. steers	$7.75	8.25
Good heavy steers	7.25	7.60
Choice short keeps	6.75	7.25
Baby beeves	7.00	9.00
Choice handy weights	7.00	7.25

EGG MARKETS.

OTTAWA, March 29 (Canadian Press). — The general tone of the market is more steady, with slight change in prices. Receipts continue heavy. Ontario country shippers paying extras 23 to 24, firsts 20 to 22, seconds 18 to 20.

Toronto unchanged Retailing specials 38, extras 35, firsts 33.

Montreal no change in the condition of the egg market, prices being steady. Jobbing extras 32, firsts 19, seconds 27. Receipts on Thursday were 2,137 cases as against 2,907 for the same day last week and 2,408 for the corresponding day a year ago.

STERLING RATES.

MONTREAL, March 29 (Canadian Press). — Sterling exchange rates were quoted here yesterday as follow:

Demand	4.4000
Cables	4.4038

CHICAGO GRAIN.

CHICAGO, March 29 (Canadian Press). — Wheat values broke to within a quarter cent of $1.00 a bushel yesterday, with all deliveries reaching a new low record for the season. Reappearance of liquidation on the part of holders of wheat, corn and oats preceded the fresh down turn of prices.

Wheat closed unsettled at 3-4c to 1 3-4c net decline. May $100 1-2 to $1.00 5-8 and July $1.02 1-8, with corn 1-2 to 1 1-2 off; oats 1-2 to 7-8 to 1c lower; and provisions varying from 10c to 12c set back to a gain of 2 cents.

The Pennsylvania Railroad system spent $4,000,000 for water for its locomotives and shops last year.

Sensational New Chick Starter

Free Poultry Course

Twelve lessons by leading, practical experts—FREE to users of Ful-O-Pep feeds. Write us for particulars.

THE new Ful-O-Pep "Chick-Starter" is an achievement of our own Research Department. Combining cod liver oil, it saves practically every chick and produces strong, vigorous birds.

The Ful-O-Pep Calendar gives full particulars. You may have a copy FREE by sending us your name. In it is complete information about poultry raising. It describes every poultry disease and tells how to treat them.

JANETVILLE HAD SPLENDID DEBATE

JANETVILLE, Mar. 28.—One of the most interesting debates held here in some time took place Friday evening in the Sunday school room of the Methodist Church.

The hall was filled with an enthusiastic and appreciative audience, who came expecting an intellectual treat, and were not disappointed.

The subject for discussion was, "Resolved, that greater knowledge is gained from books than from travel." The following was the line-up: The affirmative was ably conducted by Mr. Harry Thornton, teacher of Cedardale Public School; Miss Olive Irvin, teacher of Nestleton Public School, Miss Georgie Howe, and Mr. Archie Stinson. Mr. Cawood, teacher of the Fourteenth Public School; Miss Gray, of Millbrook, teacher of Janetville South School; Mr. R. J. Burn, merchant, and Miss Squire, Public School teacher from Yelverton, ably conducted the negative side.

For the affirmative Mr. Thornton said that history, philosophy, psychology, literature, rhetoric and biography cannot be learned by travel, and books are a guide to almost every branch of knowledge.

Miss Irvin made some good points and clinched them. She said that music and drama cannot be learned by travel; we must have books. The story of Columbus and the discovery of America must be read; you cannot get it by travel. The Bible is man's record. People who cannot find it convenient to travel can read, and reading quiets the nerves. Miss Irvin, continuing, said that books tend to build character. Christianity is carried to the heathen world by the aid of books.

Miss Howe said that for everyone that can travel, a hundred can read. People may not have the means to travel, but books are always available. A sick person or an invalid may not be physically able to travel, but they may read. Free advice is to be obtained from books, while traveling to procure it would entail expense. By reading instead of traveling you avoid mistakes and accidents. Miss Howe, continuing, said that all kinds of valuable reports come from books and not from travel. There are hymn books, song books and prayer books.

Mr. Archie Stinson said that laws cannot be learned by travel. Law books, bank books, time books, account books, school books, and all kinds of business records come from books and not from travel.

The Negative Side

For the negative, Mr. Cawood said that books depend on travel. They are an aid to culture. Art, music, and dress, are studied by travel. Prosperity, due to travel. Travels of Columbus, Cook and other explorers. R. J. Burn said that traveling to the House of Commons was necessary to the blue books and reports of sessions. Business firms employ travellers could not do without them. Trade and commerce require travel, and missionaries must travel to the heathen.

Mr. R. J. Burn, continuing, said that sport and competition demand travel.

Miss Gray, of Millbrook, used her seven minutes in a most energetic and effectual onslaught on all the affirmative points in general, and there was general havoc.

Miss Squires, of Yelverton, said that experience is essential to life, and to the joy of living. This comes from travel. Ships, trains, airships, are for travel. Could you get a sunset out of books? People can live without reading, but if you go to heaven you must travel. Miss Squires further said that, seeing is believing, but reading may not be so. Which would be the most profitable to you to read about a banquet or to attend one? Miss Squires gave a very convincing and logical address.

The judges in the debate were: Miss M. Richardson, teacher of South Janetville Public School; Miss Bone, teacher of Janetville Continuation School, and Rev. G. E. Ross, pastor of the Methodist Church.

The decision was very close, the affirmative gaining by a few points only. About one hundred young people were present.

Janetville Y.P.S. and its groups has had the greatest year of its history, and the moral and spiritual tone has been greatly elevated. The lofty moral stand of the society is having its effect upon the questionable amusements of the community.

A Ready Help For The Girl Who Needs Blood

DURING the critical period between twelve and seventeen there is a special strain on the young girl's system which often leaves her in a weak run-down condition.

She becomes anaemic or bloodless.

The gums and eyelids as well as the complexion generally become very pale and there is weakness and lassitude.

Indigestion and constipation are usual.

There is shortness of breath, palpitation of the heart, headaches and irregularities of the vital organs.

These symptoms are also common to chlorosis in which case the complexion assumes a greenish tinge.

More blood is needed—rich, red, invigorating blood.

Since Dr. Chase's Nerve Food is the greatest of blood builders this is the treatment indicated.

The restorative qualities of Dr. Chase's Nerve Food have never been more certainly proven than in the treatment of young girls for anaemia, chlorosis and such ailments which arise from a debilitated condition of the blood.

Since young girls seldom understand themselves at this age the responsibility rests with the mother.

The whole future health and happiness of your daughter may depend on getting through this critical period in good physical condition.

There is no question of Dr. Chase's Nerve Food being the most effective means of overcoming the anaemic condition.

It is only necessary to have a little patience and keep up the use of the Nerve Food regularly until the growing body is supplied with an abundance of rich, red, life-sustaining blood.

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c. the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kidney-Liver Pills are 35c. a box of 35 pills, instead of 25c. for 25 pills. Edmanson, Bates & Co., Ltd., Toronto.

APPROPRIATION

(Continued from page 1.)

British market as fresh meat, to the detriment of the producer. He believed that Canada should make further efforts to capture the chilled meat business in England.

Argentine Meat

Dr. Tolmie said that he was in London when shipments of frozen meat arrived from Canada in 1921. He did not believe there was any use trying to compete with the Argentine frozen meats in London. The cheap labor in South America enabled them to under-bid the Canadian product. In regard to experimental farms Dr. Tolmie thought Canada had the best system in the world. The only thing that was wrong was the fact that the people who needed the farms most did not use them He was opposed to carrying live-stock breeding on the experimental farms to the point where it would compete with the legitimate private breeders.

G. A. Brethen (Progressive, Peterboro' East) was opposed to the use of experimental farms as breeding depots.

Fail in Practice

Miss Agnes MacPhail (Progressive, Southeast Grey) said that experimental farms had not been able to put into practice, or make pay, the lessons they inculcated. The experimental part of the farms' work should be placed under the industrial research department and the beautiful surroundings under the parks department and the farms themselves should cease to mock, with their expensive grounds, the people who could not afford such comfort. Miss MacPhail moved that the item be reduced by $200,000.

Miss Agnes MacPhail's amendment to place the experimental part of the work under the control of the Council for Industrial Research, was declared lost, and the item carried.

Among the advocates of experimental farms was Hon. S. F. Tolmie, who declared that Canada had the best experimental farm system in the world. Hon. W. R. Motherwell was emphatic in his statement that the farms justified the money that was spent on them.

Camp Fire Points Way to New Supplies of Oil.

BUCHAREST, Rumania, March 29.—(Associated Press).—Some Rumanian shepherd boys started a fire recently, out in the open, to warm themselves. The flames melted the snow, worked their way into a fissure of the ground, and are still shooting up merrily. Thus was a new oil well discovered.

The boys reported the fire to the chief of police of Clausenburg, a nearby town, and this official summoned oil prospectors. The indications are that the new supply is of great volume.

Tornado Killed 3 60 Persons Hurt

SHAWNEE, Okla., March 29.—At least three persons were killed and approximately sixty injured in a tornado that struck this city late Friday. About 250 residences were destroyed.

CAMPBELLFORD AND DISTRICT

Members of Christ Church Bible Class Form Athletic Club.

CAMPBELLFORD, Mar. 28. — The members of Christ Church Bible Class met in the Parish Hall on Thursday night to complete arrangements for forming an athletic club. There were twenty-five men present. Mr. O. H. Gledhill was chairman for the evening. He spoke of the object of the meeting and said they had met to elect officers for the purpose of forming a football team and also a cricket team. He called on Mr. Cubitt to say a few words. Mr. Cubitt said that the class were not able to be together for the summer unless they formed some such organization. The main object was to build up Christ Church Club for the sake of the church. The constitution was formed not to draw men from other churches but to get those who not go to any church.

This was followed by a lively discussion as to who would be eligible for membership of the athletic association and play in the teams. It was finally decided that anyone who was a member of the Bible Class or whose name was on the rector's roll and who would attend 50 per cent. of the meetings of the class or church services would be eligible. It was moved and seconded by Rev. G. C. Clarke and Mr. Parish, that they have a general committe and then a football committee and cricket committee. Carried.

The chairman asked for nominations for the office of president. Mr. O. H. Gledhill was elected by acclamation. On motion of Mr. Baker and Mr. Runions, Mr. S. Neale was elected secretary-treasurer. On motion of Mr. H. Sargeant and Mr. Cubitt, Mr. Neil Dixon was elected vice-president. Two committee men for football were elected, those chosen being Mr. Matt. Sergeant and Mr. E. Armstrong. The two for cricket were, Mr. T. S. Tait and Mr. F. Imming. It was decided by motion that the membership fee of the association be one dollar, and ways and means for raising other necessary funds be handled by the general committee.

Mr. Neil Dixon was appointed trainer for the football team.

Moved by Mr. S. Clegg and seconded by Mr. B. Beatty, that Rev. Mr. Clarke be honorary president. Carried.

The men who were present paid their membership fees. The meeting then adjourned.

Ladies' Aid Meeting

The Ladies' Aid of the Methodist Church held their monthly meeting on Thursday afternoon at the home of Mrs. J. A. Irwin, Front Street. Mrs. Stone, the president, was in the chair. The meeting opened with a hymn, the Lord's Prayer and a Bible lesson, Psalm 24. The minutes were then read by the secretary, Mrs. C. B. Williams, and on motion, approved.

The treasurer, Mrs. C. Davidson, then gave her report. Amount on hand for March was $770.

The fees were brought in by the different collectors present. In connection with the unfinished business of renovating the Sunday school room, it was decided to ask the pastor to call a special meeting of the board to meet with the committee from the Ladies' Aid, already appointed at the February meeting, for the purpose of planning the work on the basement. There were fifteen ladies present. The next meeting in April will be at the home of Mrs. Chas. Davidson and will be the annual meeting, when election of officers will take place. The meeting closed with the Mizpah prayer by Mrs. Ashton

Mrs. Claude Hankinson, of Rochester, is visiting at the home of her parents, Mr. and Mrs. S. J. Abernethy, Sebastapool Street.

Mrs. Walter Lowe, who spent a few days with her mother, Mrs. Oakley, at Hastings, has returned to her home.

Mrs. W. Humphries, of Hastings, has been visiting her uncle and aunt, Mr. and Mrs. Chas. Davidson, Frank Street, this week.

Mr. Wm. Diamond, of Toronto, is in town this week.

IS FATHER OR MOTHER TO BLAME FOR TWINS?

PARIS, March 29. — (United Press).—The secret of the conception of twins, whether it lies with the mother, the father, or both, has stumped the Academy of Medicine here.

Professor M. P. Menetrier called the attention of the Academy to a remarkable case of a woman who by her first marriage had six sets of twins in nine years, and then her husband died of tuberculosis. She married again and had nine children by normal birth. All twenty-one children were boys.

Dr. Menetrier submitted this case as proof that the father was responsible in a case where twins were born. The subject was extensively debated, and the learned professors admitted they did not know.

The American Legion was organized in Paris in 1919.

Alloyed with tin, lead forms solder; alloyed with antimony, it is used for bullets, type metal and the like.

Salary Increase For Judge of the Yukon.

OTTAWA, March 29.—(Canadian Press.)—In committee upon a resolution to increase the salary of a judge of the Yukon Territory, from $7,000 to $9,000, the Minister of Justice explained that at present the judge of the Yukon was paid $7,000 as salary and given an allowance of $5,000. Under the proposed amendment he will receive a salary of $9,000, the same as any other superior court judge, but his living allowance will be reduced to $3,000. The resolution carried.

Premier Orders Speed On Mining Camp Line.

NORTH BAY, March 28. —Premier Ferguson was in long distance conversation with Chairman George W. Lee of the T. and N. O. Commission this morning, and gave instructions that the work on the new South Lorraine branch is to be rushed with all possible speed. Mr. Lee gave orders which will start crews out on the job to-morrow morning and they will finish the survey and lay out the work. "The Premier is very anxious that the work be rushed," said Mr. Lee this afternoon, in discussing the order.

KERRY COW MAKES NEW MILK RECORD

LONDON, March 29.—(Associated Press).—Gort Curly 9th, a Kerry cow, has produced 11,933 pounds of milk in 46 weeks. This is more than 13 times her own weight. In the spring of 1921 a Kerry produced 11,396 pounds, which was said at that time to be a world's record for a cow of her size.

After Nights Of Coughing

Sleep Comes At Last

Home Made Cough Mixture Best of All.

The cough that hangs on and hangs on—the cough you've taken everything for with no results, is just the cough that your own home made cough mixture will end speedily.

Make a supply yourself in a few minutes and keep it on hand this Winter—a half pint doesn't cost much; it's better than any you can buy, and the kiddies love it.

It's a fine remedy for chest colds and acute nasal catarrh.

With speed almost beyond belief this home made cough mixture stops the toughest hang-on cough, and all because in it there is a substance (too costly for ordinary cough syrups) that immediately cover the membrane like a soothing, healing poultice and blessed relief comes at once.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it.

Any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

REAL SILK SCARCE IN GERMANY

BERLIN, March 29.—(Associated Press).—Women shoppers say real silk has become very scarce in Germany, chiefly because of import restrictions. As a consequence there has developed such an enormous demand for artificial silk that wholesalers assert they have orders on hand from the German trade alone which will take the manufacturers four months to fill.

INDIGESTION, GAS, UPSET STOMACH

Instantly- "Pape's Diapepsin" Corrects Stomach so Meals Digest.

The moment you eat a tablet of "Pape's Diapepsin" your indigestion is gone. No more distress from a sour, acid, upset stomach. No flatulence, heartburn, palpitation, or misery-making gases. Correct your digestion for a few cents. Each package guaranteed by druggist to overcome stomach trouble.

WINTER RACING KILLS 18 HORSES

LONDON, March 29.—(Associated Press).—There has been an unprecedented number of fatalities recently in horse racing over hurdles and in steeplechasing, due very largely to the slippery ground after overnight frosts.

During a recent period of 18 days, 11 horses were killed while participating in races at various meetings, one being the steeplechaser "Southampton," worth $10,000. There were two cases in which horses slipped and broke their necks, one had a broken back and the others were so badly injured that had to be shot. Only the jockeys in each case were not.

TINFOIL BANNED FROM JAIL.

SANTA BARBARA, Cal., March 29.—(Associated Press). — Ready-made cigarettes in the original packages have been banned from the county jailu here as the result of a demonstration by a prisoner. He handed the sheriff a metal ball weighing half a pound, with the remark, "I could put that in a sock and knock you out." The ball was made of tinfoil taken from cigarette packages.

Almost all countries use standard time that differs from Greenwich time by a whole number of hours or half-hours.

Former French Soldier Refuses to Write Grave Inscription.

PARIS, March 29. — (United Press).—The report of the death of Paul Francois Charles Flour was not only exaggerated, but carried to a distressing extreme. He has flatly refused to write an inscription on the stone marking his grave.

Paul Francois Charles was a French soldier during the war. While he was at home in 1916 on leave his wife received an official notification of his death. After explaining that there was a mistake he rejoined his regiment.

He came safely through the war, but some months ago his family was requested to claim a medal which had been awarded to him posthumously for valor. He replied that he could not accept the medal under the misunderstanding, and further assured the authorities that he was quite alive.

Recently another official letter was received inviting the family to be present at the exhumation of Paul Francois Charles Flour's remains, which were to be reinterred in the Bar-le-Duc Cemetery.

Once more he wrote that the record of his death was erroneous.

The only reply was another letter asking what inscription was to be put on his grave.

A GOOD SPRING TONIC

One That Will Quickly Improve Your Health.

With the passing of winter many people feel weak, depressed and easily tired. No particular disease, but the system lacks tone. You find yourself tired, low-spirited, unable to get sound sleep at night. All this is the result of closer indoor confinement of the winter months, and shows that the blood has become thin and watery. New enriched blood is what you need to put you right, and there is no other medicine can give you this new blood as surely and as speedily as Dr. Williams' Pink Pills. This new blood goes to every part of the body and quickly improves the general health. The digestion is toned up, you have a better appetite, nerves are strengthened, and sleep is refreshing. The value of Dr. Williams' Pink Pills when the system is run down is shown by the experience of Mrs. Peter Arendt, Ravenscrag, Sask., who says: "I was in a badly run-down condition, and prostrated with nervousness. I did not sleep at night and grew so weak that when I tried to move about I would be overcome with dizziness. I heard about Dr. Williams' Pink Pills and got a supply. After I had taken a few boxes I began to feel better. Continuing the use of these pills my appetite improved, I slept better at night and I was soon as well as ever I had been. I have also given Dr. Williams' Pink Pills to my daughter, aged fourteen, with the best of results. I desire in this way to express my thanks for the great benefit I have found through the use of these pills, and to recommend them to others in need of a blood-building medicine."

You can get these pills through any dealer in medicine, or by mail, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

GERMANS TAKE TO CHEWING GUM

BERLIN, March 29.—(Associated Press).—"Kau gummi," which in English means chewing gum, has appeared in Berlin. It is manufactured in Germany, wrapped in oiled paper and sold in packages a little smaller than the American brands. Salesmen recommend "kau gummi" as especially good for "athletes and stenographers."

There are 454,899 miles of post routes in the United States.

POINCARE'S NEW CABINET DROPS TEN MINISTERS

Only Two "Ruhr Men" Retained By the French Premier Out of Wreck Caused By Deputies' Vote of No Confidence Last Wednesday—Meets President To-Day.

CONTINUE POLICIES.

PARIS, March 29. — The French ministerial crisis came to an end on Friday evening by the formation of a new cabinet to take the place of that which resigned last Wednesday following a vote of lack of confidence in the Chamber of Deputies.

Raymond Poincare who headed the old Cabinet, and who, at the request of President Millerand, accepted the task of forming a new one, called on the president at nine o'clock last night and submitted to him the names of the men who will take charge of the ship of state.

The personnel of the new ministry follows:

Premier and Minister of Foreign Affairs, M. Poincare.

Minister of Justice and Vice-President of the Cabinet, Lefebvre Du Prey.

Minister of the Interior, Justin De Selves.

Minister of Finance, M. Francois-Marsal.

Minister of War, M. Maginot.

Minister of Public Works, M. Le Trocquer.

Minister of Commerce, M. Loucheur.

Minister of Hygiene and Labor, Daniel Vincent.

Minister of Education, Henry De Jouvenal.

Minister of Colonies, Jean Fabry.

Minister of the Navy, M. Bokanowski.

Minister of Agriculture, M. Capus.

Minister of Devastated Regions, Louis Marin.

The New Ministers.

M. Poincare and his official family this afternoon were to pay an official visit to the Elysee Palace to be formally welcomed by M. Millerand. Premier Poincare has retained only two of his former colleagues in the Cabinet, having called in ten new men to assist him in his policy of "firmness in foreign affairs, law, order and internal economy."

The Premier had his new government ready just 24 hours after President Millerand officially requested him to retain the helm.

Adhere to Ruhr Policy.

The fact that M. Maginot, Minister of War, and M. Letrocquer, Minister of Works, "the two Ruhr men," were the only ministers M. Poincare extricated from the wreck of his old cabinet, is interpreted as being significant that M. Poincare intends to continue the policy so often repeated by him and confirmed Thursday by President Millerand:

"France cannot evacuate the Ruhr until there has been complete payment of reparations."

M. Maginot and Letrocquer are the two ministers who have been most intimately connected with the Ruhr occupation, aside from the Premier himself.

ONTARIO HOUSE

(Continued from page 1.)

General, may investigate the sale or the offer for sale, of any securities, and shall have full power of a court to compel evidence concerning them. After investigation, the Crown Attorney makes a report to the Provincial Secretary, who may publish a warning or may take action against those trying to sell the securities which have been adversely reported upon.

There are several strict clauses about prospectuses. No prospectus shall be advertised which has not been filed with the Provincial Secretary. The prospectus must contain the name and address of the issuer and the particulars of incorporation; names and addresses of directors; nature of business, scope of power of corporation, authorizd capital, issued capital, particulars of liabilities, and other details about profits, preferences, etc. The prospectus must be signed by all persons who are principals in the flotation, and if the company is domiciled outside of Ontario a copy of the prospectus shall be filed by a registered Ontario broker. The act provides for a director withdrawing from a prospectus upon discovering what he believes to be misrepresentation, providing that he gives notice to the public of what he thinks those misrepresentations are. Directors under the act may be made liable for any damages to a subscriber by reason of misrepresentation in the prospectus.

RECORD MAPLE PRODUCE.

QUEBEC, March 29.—The Province of Quebec which produces more than half of the maple crop of the world, is getting ready for a record production this season, according to C. Vaillancourt, director of the maple sugar service at the Parliament Buildings.

British Navy Cruiser Fleet Nearly Double the United States.

LONDON, March 29.—(Associated Press).—The British navy will have almost as many cruisers as the combined fleets of the United States and Japan when the five cruisers on which bids have been asked have been built.

Answering questions in the House of Commons recently, the Parliamentary Secretary to the Admiralty said the number of cruisers and light cruisers in the world's great navies was at present as follows: British Empire, 43; United States, 29; Japan, 28, France, 16.

Maintenance Pays!

Home, Factory, Farm Building or Garage

An occasional coating of Barrett Liquid Elastigum adds years of service to "rubber" or other prepared roofings.

Wherever a waterproof patch is needed, there is nothing so satisfactory as Plastic Elastigum.

Everjet Paint prevents rust, has large covering power and is inexpensive.

PERHAPS you have a roof that needs slight repair—perhaps machinery or other equipment is beginning to rust. A few dollars invested now in property maintenance may save you a good stiff bill later.

Which of these Barrett Money Savers can help you the most?

Barrett Liquid Elastigum is a cement in liquid form, composed of time-tested waterproofing materials and asbestos fibres. It is unequalled for keeping the surface of prepared and "rubber" roofing in watertight condition, and it is low in cost.

Barrett Plastic Elastigum—"the waterproof cement of a hundred uses"—stops roof leaks, repairs flashings, gutters, cisterns, etc. It is acid-proof, waterproof, sticks tenaciously to wet or dry surfaces. Low in price, comes ready for use.

Everjet Elastic Carbon Paint is a glossy, black paint for all metal or wood surfaces. It has scores of uses—for metal roofs, smoke stacks, boilers and radiators, furnaces and registers, machinery, water tanks (inside and outside); fence posts and fencing, farm implements, etc., etc. It prevents rust, has large covering power and is very durable as well as inexpensive.

Ask your dealer to show you the Barrett Repair and Maintenance Specialties.

Get the Facts

Write and tell us what your maintenance problem is. Send us a postal card or brief letter—today! We will send you literature that will help you.

(Rummage.)

Month-End Sale Continued Monday All Goods Advertised in To-Night's and Friday's Paper Will be on Sale all day Monday.

MALE VOICE CHOIR CONCERT

(By Jeannette)

The Peterboro Male Voice Choir last night at the Grand Opera House brought another season of hard work to a close with their fourth annual concert. Although the attendance might have been better, there was a sufficiently large and appreciative audience to afford the fifty-eight choristers and their director the support which they earned so well. The lower floor and the balcony was fairly well filled, with a few dozen devotees of music in the upper gallery.

The choir progresses upward from season to season in an ascending scale of endeavor and rendition which should afford much satisfaction to the citizens of Peterboro generally to the choir itself and to their conductor, M. B. Chenhall, who wielded his baton last night in a manner that brought out every least nuance of tone and phrasing. Mr. Chenhall has the happy, unobstrusive faculty of bringing his group of fine songsters by imperceptible gradations up to swelling outbursts of concerted, massive sound and also of diminishing their tones to soft, hushed effects. In a varied programme whose contrasting numbers brought out to their fullest the resources of the singers and their director, the Male Voice Choir last night demonstrated its right to be considered one of the most finished musical organizations in the city.

Three visiting vocalists from Toronto, made their initial bow to Peterboro audiences last evening, and their work, in keeping with the high standard set by the choir which sponsored their debut here, brought them repeated and enthusiastic applause. Perhaps the tenor, Mr. Gladstone Brown, made the strongest impression on his hearers, judging by the renewed and vehement encores that would not be stilled, and forced him back for a double number after his rendition of his first song. Mr. Brown has one of those clear, golden, vibrant tenor voices that rings out, apparently without much effort on the part of its possessor, in a pure stream of echoing sweetness. Essentially a 'heart' voice, the choice of selections was good. As an opening number, Mr. Brown sang "Nervaia," an Oriental love song, its flowing cadences ringing clear over sensuous accompaniment. As an encore, "Mother o' Mine" was given, in the manner that only a voice of this timbre could render the pathetic, poignant sweetness of the old song. To the applause, insistent and repeated, which followed the rendition of 'La Donna e Mobile,' from "Rigoletto,' Mr. Brown came back with a selection from the opera featured on last evening's programme, "Maritana," in "Let Me Like a Soldier Fall" which orchestral accompaniment. As a second encore he gave the favorite English ballad, "Come to the Fair." Mr. Brown, who is a native of Guelph, has a pleasing personality and stage presence that adds much to the charm of his fine voice.

Miss Nellye Gill made a very pleasing impression on her audience. Singing with finished ease, her well-trained voice is a high, lyric soprano with a suggestion of coloratura sence in its silver music. Ligh delicate in fibre, it has, too, a iance very manifest in the fu soaring strains that come in admirable style from the youthful singer's throat. A slender figure in unrelieved white, Miss Gill's quartette of dainty musical morceaux included Puccini's "Minuet," sung in Italian, the dainty little "Answer," in which the sweet singer's fragile, yet powerful tones were apparent in the finely spun melody; the pretty "Trees," and a French song, "Stances de Venus,' with a lovely encore in "Ye Banks and Brae of Bonnie Doon.'

M. Murray-Davey, basso-baritone, proved to be an unusual type of singer, with a foreign atmosphere of finished artistry that reminds one of his birth in the Isle of Guernsey one of the Channel Islands, and his short residence on this side of the water. Mr. Davey has a voice of extraordinary power and range, wonderfully resonant, deep, rich, cello-like, sinking to unbelievable depths with ease, and rising to a rich baritone height. He uses it with dignified and yet dramatic effect, rolling his finales slightly, and holding the last notes in lingering, sustained effect. A recitative from Handel's "Scipio," "Hear me, ye winds and waves," was his opening contribution, followed by an emotional lyric, "Le Cor." To the repeated applause which followed, he gave the old drinking song, "In Cellar Cool."

Although the visiting artists created a splendid impression on an appreciative audience, to the Choir itself belong the honors of the evening. To a technical finish and a compact rounded, tone, they added last night a very noticeable quality in their constant attention to time and rhythm. In attack and release, through an exacting programme, their work was perfection. An opening number was the bright, brief "Hail, Smiling Morn," followed by a descriptive piece, "The Bell Man," deep-toned, with simulated bell effect. The trio was completed by a beautiful rendition, with orchestral intervals, of Sullivan's "The Lost Chord," in which Mr. H. Rush's good baritone was heard to splendid advantage in solo work. To the applause which followed the majestic, noble tones of the third number came, in hushed tones, "Abide With Me."

A second trio of numbers included the varied music which was a pleasing attribute of last night's splendid programme. "New Life, New Love" was a dainty vernal number, followed by a charming rendition, with odd refrain, in which the quick voices of the Choir sounded like the tones of a picked stringed instrument, in "Sweetheart, Awake," the title of a pizzicato Serenade, in which a background of concerted voices followed the music of a quartette, composed of E. Jones, C. H. Crowe, T. Pitchford, and W. F. Skitch, with Mr. Jones' clear, pure tenor in the ascendant. The trio concluded with one of the brightest numbers of the evening, the jaunty "Mulligan Musketeers," which proved to the full the Choir's grasp of fine tonal effects. Their gay, martial rendition of the cheerful piece, its descriptive rhythm including many unexpected intervals, was done "a capella," as were several of the numbers.

In "The Fishermen," the Choir demonstrated again its capacity for descriptive effects in tone. This Glee depicts the fishermen setting forth under fair winds for the fishing grounds, toiling at the harvest of the sea, returning under a threatening storm and giving thanks to God as they reach harbor. The different effects in a difficult and trying number were depicted with ease and ability by the concerted voices, which progressed from the launching to the thankful return. "Rolling Down to Rio," a rover's song, done in bold, nautical, rolling style, followed, and then the "King Charles" number, the warning to the ill-fated king, one of those descriptive pieces in which the Choir excels, and in which its grasp of fine detail work and intelligent appreciation of the music is so admirably displayed. Their robust, full-voiced treatment of this number was one of the high lights in a fine programme.

In its selections from "Maritana," the little known but very tuneful opera of William Vincent Wallace the Choir excelled. Assistants to the choral rendition of its selections were the three visiting artists: Miss Gill taking the part of "Maritana," M. Murray-Davey of "Don Jose," and Mr. Brown of "Don Caesar." Miss Gill sang beautifully the solo, "Scenes that are Brightest," the duett, "That Voice: 'Tis Hers," was sung by Mr. Davey and Mr. Brown, and the three artists took part in the trio, "What Mystery," with the Choir in the background. This number, in its several sections, with the superb conclusion, was a magnificent effort. The three fine voices formed a wonderful thread of varied melody against the Choir's background of deep tone, and the entire rendition was one of outstanding artistic effort, that brought repeated applause and a repetition of the finale.

Exemplified in the perfection of the entertainment last evening was the expressed desire of the Choir: "To give the citizens an outstanding, high-class musical performance in the vocal art."

To Mr. M. B. Chenhall, the musical director of the Male Voice Choir, much of the credit for the finished quality of last night's concert is due. His quiet, but firm, direction of his singers, the very evident attention which they give to his slightest movement with the baton, are evidences of the control which he exercises over the group, whose singing was a demonstration of co-operative effort between the Choir and their leader. Their execution of difficult and exacting music in a varied programme is undoubtedly due to the hard work and outstanding musical ability of the conductor.

Miss Muriel Bridge, also, the Choir's youthful accompanist, had a prominent part in the success of the performance. Her work was eminently satisfactory, and the sureness of her execution provided the finishing touch to the high standard maintained throughout. Miss Bridge and Miss Gill were recipients last evening of handsome floral tributes. Miss Gill, a sister of the vocalist, provided accompaniment for her numbers, Mr. Chenhall played for Mr. Brown and Mr. Davey, and Mr. George Howarth led the Grand Opera House orchestra.

Officers of the Male Voice Choir are as follows: Honorary President, J. M. Greene; Past President, C. B. Adair; President, W. F. Skitch; Vice-President, John Anderson; Secretary-Treasurer, C. S. Thompson, B.A.; Assistant Secretary, F. E. Kerr, B.A.; Musical Director, Martin B. Chenhall. The executive committee is composed of the following members: Chairman, Membership Committee, P. Naish; Chairman, Music Committee, W. H. Moore; Chairman, Social Committee, P. Manning; Chairman, Publicity Committee, F. Sutcliffe. Accompanist, Miss Muriel Bridge; Librarian, W. J. Rome.

CHILDREN CRY FOR "CASTORIA"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups. Contains no narcotics. Proven directions are on each package. Physicians everywhere recommend it. The kind you have always bought bears signature of

Chas. H. Fletcher.

"Even better than my former Essex"
And Costs $230 Less

Advantages of both Hudson and the former Essex are combined in the new Essex Coach.

And with finer body and a 6-cylinder motor, built on Hudson patents, its cost is $230 less than Essex closed car comforts ever sold for.

It continues the famous Essex qualities of performance, economy and reliability.

Steering is like guiding a bicycle. Gears shift easily. Care of the car calls for little more than keeping it lubricated.

Its economy includes not only exceptional gas, oil and tire mileage, but a policy of minimum maintenance cost with parts prices that will astonish you.

Canadian Stock Exchange and Mines | New York Stock Exchange and Curb Prices

TO-DAY'S QUOTATIONS AND OPINION AND REVIEWS OF THE MARKETS.

NEW YORK, March 29.—(United Press). — Stocks showed traces of fatigue in to-day's brief session on the stock exchange which was natural enough in view of the gruelling treatment they have undergone most of the week. Selling pressure was lifted in the early trading but the general list failed to generate any rallying power and the professional drive was resumed with such vigour toward the close that new lows on the movement were forced in numerous issues.

Developments in the business situation still failed to offer a real excuse for the persistent shrinkage of stock values. Trade reviewers pointed out that with all the drawbacks, a big industrial turnover was in progress.

Building will soon be in full season swing and final consumptive power should improve.

The weekly mercantile reviews reported conditions in general business similar to those prevailing in the stock market, that is declining prices due solely to the lack of confidence.

But in the commodity markets a remarkable situation was described. It was pointed out that bank clearings and railway traffic were still running at a record rate and that merchandise stocks were in a low state, guaranteeing good trade even if there are no signs of an impending boom. Active industrials continued to show indications of improvement in the early dealings, its movement being carried forward from the previous close. Steel, Studebaker, and other speculatives scored records and the list as a whole had a steadier tone.

The rallying tendencies acquired no special vigour in the first hour, but some improvement was noticeable in many sections of the list.

With selling pressure lifted, the volume of dealings showed considerable shrinkage from the rate recently maintained.

(Quotations Supplied by Arthur C. Hawley. 'Phone 136).

BUILDING STARTS IN PETERBOROUGH

Three New Buildings Under Way—Builders Are Optimistic

Building has already started in Peterboro, and promises to open up well with the early spring. Builders and contractors are optimistic, although most of the work now in progress is in the nature of repairs and alterations.

The largest contract issued this year is for the building of a stable and drive shed and altering a house on the property lately acquired by J. E. A. Fitzgerald, at 247 Hunter St. The stable will be 30 feet by 26 feet of solid brick, and the shed 76 feet by 20 feet, of concrete blocks. General repairs will be made to the house now situated on the property, the contract calling for a new roof and re-stuccoing of the walls. The cost will be $4500, and the work is being done by C. H. Huffman & Son.

Another new building is an addition to W. J. Oke's warehouse, at Bethune and Simcoe streets. This will be 50 feet by 15 feet, with cement walls, and will cost $600.

A small storehouse, 20 feet by 14 feet is being erected for Fred Rowan on Dalhousie street, at a cost of $150.00.

An encouraging feature in the building prospects this year, is the early start made possible by the good weather, operations having commenced a full month ahead of last year.

Free to Asthma and Hay Fever Sufferers

Free Trial of Method That Anyone Can Use Without Discomfort or Loss of Time.

We have a method for the control of Asthma, and we want you to try it at our expense. No matter whether your case is of long standing or present as Chronic Asthma or Hay Fever, you should send for a free Trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with Asthma or Hay Fever, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our expense, that our method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms.

This free offer is too important to neglect a single day. Write now and begin the method at once. Send no money. Simply mail coupon below. Do it To-day—you even do not pay postage.

BARGAIN ANNEX ONLY.

LAKEFIELD CIRCLE HAD GOOD MEETING

Returned Missionary From South China Was the Speaker of the Day.

LAKEFIELD, March 29.— On Thursday afternoon the Mission Circle of the Baptist Church held an open meeting in the church to which an invitation to the other women's missionary societies in the village was extended. Between fifty and sixty ladies gathered at the meeting and enjoyed very much the address of Miss Jones, who was the speaker of the afternoon and also the programme provided by the Mission Circle.

Mrs. J. C. Harvey was in the chair and Mrs. T. L. White presided at the organ. After devotional exercises to open the meeting which included a prayer by Mrs. S. Hunter and a Bible reading by Mrs. Harvey; Misses C. Doidge and E. Webster sang a duet which was heartily appreciated.

Miss Jones, who is a missionary on furlough from South China, told some of the customs of the Chinese in the section of the country in which she labors in a mission school.

The Chinese worship their idols of wood and stone but many have accepted Christ as their Master and have abandoned idol worship and become Christians. There is no home love or home life as we understand it in China and the lack of it is responsible for many of their troubles. A marriage in China is arranged by the mothers of the contracting parties and the choice of the young people has no part in it. Very often children are pledged in marriage in their infancy and this agreement is much more binding than anything we have in America, they would never think of breaking it off.

As polygamy is permitted a man may have as many wives as he has a mind to pay for. This practice does not tend to make a happy home as there is often quarreling and jealousy among the wives, of whom the first wife is chief and is known as the "Big Wife" and she controls the other wives and arranges marriages for their children regardless of their desires. Another abuse in the country is slavery which is permitted by the authorities who do not object to the beating of slaves by their masters as long as their lives are spared. Many slaves take their own lives to escape the intolerable conditions of their lives. There is a great reverence shown to old people in China which is, of course, commendable.

Miss Jones described a Chinese wedding which she attended, the bride being a girl from the Mission School in which Miss Jones is a teacher. The contrast to a Canadian wedding where the happy wife is the centre of attraction, was quite remarkable. The sad countenance of the bride who alone of all guests did not partake of the twenty course wedding feast and who with lowered eyes served the guests with tea was a revelation to Miss Jones.

Funerals in China are also different from those we are accustomed to. A child is never given a funeral but it buried in a shallow grave wrapped up in some wrappings but with no coffin. It is not uncommon to find that the dogs dig up the bodies and devour them. Adults are buried with more ceremony and are put in coffins but are also interred in shallow graves. A large and imposing funeral is considered desirable by the Chinese.

These people are very faithful to their idols and do not lose faith in them but continue to hope for fulfillment of their desires.

Affectionate demonstrations between friends or singing are frowned down upon as savoring of the prostitute class. The missionaries are teaching the children to sing and find them apt pupils but the efforts of the adults are rather weird. "Jesus Saviour, Pilot Me," is a great favorite and the children love to sing it.

Speaking of the difficulties and the hardships of the work, Miss Jones finds the scarcity of workers to go among the people who are eager to learn, the greatest trial of all. To listen to them pleading for teacher and to know there is no one to send is heart breaking and she especially desired the prayers of the ladies that the Lord of the Harvest would send forth laborers into the field, as the numbers are at present far too few to cope with the great work. The Chinese are ready to make sacrifices to get the gospel and it is our part to send it to them.

Mrs. P. L. Jull led in prayer after which Mrs. Harvey closed the meeting which adjourned to the schoolroom of the church where tea was served and a social hour was spent. The ladies of the Mission Circle served the tea and entertained the visitors in an extremely pleasant manner.

Personals.

Miss Bessie Allen, of Marlbank, spent the week-end with Mr. and Mrs. H. R. Wagar.

Miss Jones of China was the guest of Mr. and Mrs. H. W. Stock during her stay in the village.

Mrs. H. R. Wagar was in Peterboro on Monday.

Mrs. O. A. Langley of Peterboro was in the village on Thursday.

Mrs. H. J. Stuart was a visitor to Peterboro on Wednesday.

Rev. and Mrs. Walter Cox are in Toronto for a few days this week.

Mrs. Marling was in Peterboro on Wednesday.

LARGE SUM WAS NOT COLLECTED BY GOVERNMENT

Hon. James Lyons Found $2,400,000 In Outstanding Debts Left By Drury Administration—Alleges Improper Pressure On Lumber Company and Sum Agreed on Was Not Collected.

TO CONSERVE TIMBER

TORONTO, March 29. — Hon Jas Lyons, Minister of Lands and Forests, continuing his address in the Legislature on Friday on the work on his department and Northern Ontario affairs, said that when the new government came into power it found $2,400,000 in outstanding debts which the Drury government had not collected. The Minister also cited a settlement of the claim by the Drury Government in which he stated improper pressure had been brought to bear on the company.

There was a claim against Austin & Nicholson, lumber company, of $2,831,529, for trespass on Crown lands and under-selling of logs. The Drury government had reduced the claim to $1,336,000, but it was not met. Then Arthur Roebuck was engaged to get a settlement. He secured a settlement for $28,880.

"A decrease of 90 per cent.!" commented Mr. Mageau.

"Yes," said the Minister, "and the agreement was drawn up by Mr. Roebuck, and Nicholson was forced almost at the point of the pistol to sign it. He was told that his company would not receive a permit to cut timber. Even after all this which happened in August, 1922, the government had not collected that $28,000 when it went out of power, although Mr. Roebuck had been paid $7000 for his services."

Mr. Lyons said he had a sworn affidavit from Mr. Nicholson that he was forced to sign the agreement under penalty of not securing further permission to cut timber.

Mr. Lyons said that it would be the policy of the government to conserve and protect timber rather than start elaborate reforestry. He criticised the sale of the English River limits to E. W. Backus as the opposite of conservation of timber and pulpwood resources, and stated that really only one pulp industry had been started with the assistance of the Drury government. He also accused the late administration of giving away water rights.

WOULD LICENSE AND RECORD ALL SALES OF ARMS

League of Nations Sub-Committee Adopts Plan That Would Subject Traffic in Munitions to Government Control — Submitted to Council of League.

CONSULT U.S. VIEWS.

PARIS, March 29.—A plan for a convention restricting international traffic in arms and munitions, designed to replace the convention of St. German, has been adopted by the League of Nations 'sub-committee on arms. The committee began its deliberations on the subject last Monday and finished its work Friday.

The text as adopted is based upon the plan drawn up by Prof. Dupriez, of Louvain University; Major Mills of England; Admiral Marquis De Magaz, Spain, and Leon Jouhaux, France.

Its authors kept in mind the fact that the text of the plan should be such as could be accepted by the United States, regardless of what the ultimate relations of America and the League might prove to be. In effect, it provides that traffic in arms should be subjected to a system of governmental licenses, leaving the respective governments free to grant or refuse them.

Register Licenses.

In order to insure international control, the plan calls for special organism, either a bureau, commission or institute, to be created by the Council of the League, whose mission would be to look after application of the convention, keep a registry of licenses issued and make an annual report to the Council.

This body's relations to the League of Nations would be similar to those of the commissions on the opium traffic, the protection of women and children and others of a humanitarian character in which the United States is a collaborator.

Political Aspects.

The plan will be examined from a technical viewpoint by the military commission of the League and then be referred to the temporary commission on armaments for examination during its plenary session at Geneva next June. Certain political aspects have been reserved for direct study by the League Council, which will decide whether or not the plan is to be submitted to the International Conference of plenipotentiaries at which the subject is to be definitely discussed.

A report presented by Colonel Carnegie, representing Canada, on the private manufacture of arms, has been referred to the sub-committee of experts which is to meet the end of April.

OPPOSE CHURCH UNION.

OTTAWA, March 29.—(Canadian Press.)—Petitions against the passing of the church union bill, from St. Paul's Presbyterian church, Fredericton, and from St. Andrew's church, St. John, were tabled in the house of commons yesterday by H. B. Hanson, (Conservative, York-Sunbury), and Murray Maclaren (Conservative, St. John).

EQUALITY IN DIVORCE LAW.

OTTAWA, March 29.—(Canadian Press.)— J. T. Shaw (Independent, Calgary West), introduced a bill, the object of which is to place the sexes on equality so far as obtaining divorce is concerned, at the opening of the house of commons Friday. He explained that the bill was in line with the resolution which he introduced some days ago. The bill was given first reading.

GAUVREAU FOUND GUILTY.

YARMOUTH, N.S., March 29.—Captain Andrew Gauvreau, former skipper of the schooner Douglas B. Conrad, was found guilty of receiving unlawfully $25,000 worth of alcohol from the Weymouth schooner Lucille B., in Boston Bay last August.

LADY BYNG SAILING.

ST. JOHN, N.B., March 29.—Her Excellency Lady Byng of Vimy and party arrived in the city en route to England. Her Excellency and party took passage on the S.S. Montclare.

MAPLE SYRUP RUN IS REPORTED GOOD.

Farmers Are Busy Getting Ready For the Spring Rush in Cavan Township

CAVAN, March 29.—The farmers are busy getting wood cut and making maple syrup. They report a very good run so far.

The roads are in a very bad condition just at present some places deep drifts and more places the snow all gone.

Mrs. A. E. Earchman has returned to her home in Carlton Place after a few days visit with her sister, Miss E. Hutchinson.

Fred Parineau has returned from Toronto.

Harry Seymour is in Bowmanville attending the sale of Holstein cattle. Mr. Seymour took several fine head of cattle with him.

Mr. and Mrs. Wm. Peacock were visitors to Emily last week.

Percy Seymour went to Bowmanville on Wednesday to attend the Holstein sale.

Mr. and Mrs. B. F. Carley and family intend leaving this week for their new home in Shelbourne.

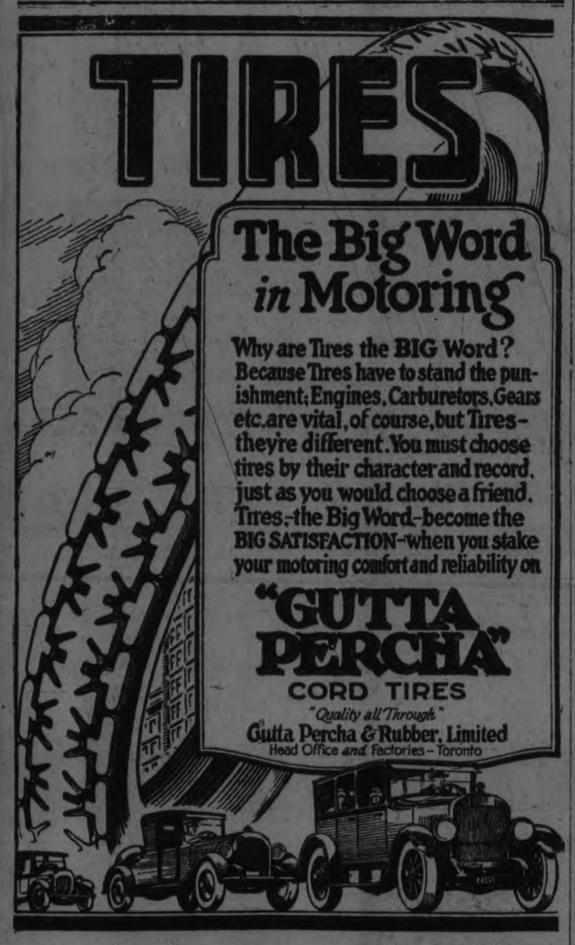
The Tuxis Boys held a social evening in the hall on Thursday evening.

CLAIMS RICH ESTATE

WINNIPEG, Man., March 29.—Claiming to be the son of Baron Egerton, of Tatten, Cheshire, Stanley Robert Prest, of Winnipeg, will press his claim as heir to an estate valued at $250,000,000, and has retained a local firm of solicitors to represent his interests.

SHIP MOVEMENTS

ST. JOHN, N.B. March 28. — Arrived—Canadian Carrier, West Indies; Cleared Schr. St. Clair Theriault, Barbadoes; Sailed, Montclare, Liverpool; Someno, London, via Halifax; Stal, Havana; Canadian Inventor, Antwerp.



Demand BAYER ASPIRIN

SAY "BAYER" when you buy—Genuine

Proved safe by millions and prescribed by physicians for

Colds Headache Neuralgia Lumbago
Pain Toothache Neuritis Rheumatism

Genuine → Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

BRUNSWICK

This Brunswick

Console phonograph of authentic design and superior workmanship.

The ROYAL Model ~ $160.00

There's an almost human quality about a Brunswick phonograph—due to the fact that the men who build it put their whole hearts and souls into their work. Generations of skilled Brunswick craftsmen have built wisely and well with the result that the name "Brunswick" carries the convincing message of superlative quality.

The Brunswick Royal Model offers an unparalleled value at $160.00. Clarity of tone and faithfulness of reproduction, exquisite workmanship, choice woods of velvety finish, all combine to make the Royal Model an outstanding value among phonographs.

Only $10.

Cash is all you need to pay down to secure immediate possession of this fine Brunswick. Small weekly or monthly payments at your convenience will take care of the balance.

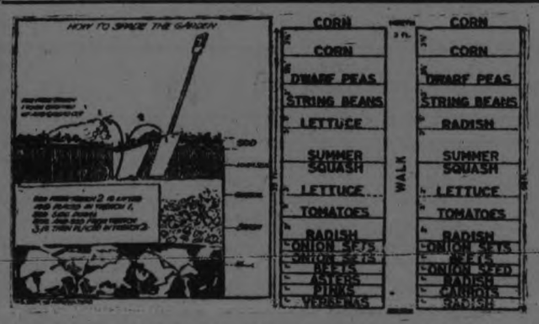
YOUR GARDEN



CORRECT WAY TO SPADE (LEFT) AND A GARDEN PLAN.

Gardening is lots of fun. Likewise, it's both recreative and profitable.

Why not have a garden yourself this year?

That idle bit of background is just the thing for one. Get out and make it pay its keep.

Even if you live in an apartment house, a garden is still possible.

Join in with neighbors and rent a nearby vacant lot for the purpose.

You'll find property owners generally agreeable to such a plan.

The unused portion of a city lot usually averages about one-fiftieth of an acre.

During the war, gardens planted on plots that size were made to yield $100 in vegetable produce.

Divide that sum by 12 and you will at once see how a garden can cut down on the annual allowance for rent.

Don't locate your garden, though, on land which the sun can't shine on at least five hours each day.

Don't plan one where cinders, rocks and other debris.

Test the soil for fertility first. You can do this very easily by putting a small amount in a cup and mixing it to the consistency of thick cream.

Into this solution place a small strip of litmus paper (blue), which can be had at most any drugstore. If after two hours, any part of the immersed litmus turns red, your garden needs lime.

To provide this, scatter a coat of the hydrated or air-slaked variety over your ground after it has been turned.

One application a year is sufficient But do not mix the lime with commercial fertilizer as the lime releases the needed nitrogen.

Always apply lime to the surface only. Never turn it under. And don't apply it to land intended for Irish potatoes, as it has a tendency to infest the tubers with scab.

It is always best to plan the garden beforehand on paper. In this way you can allot different spaces to each crop.

The rows should run north and south if possible. But it is more important that they run the long way of the garden.

Arrange the plan so that tall-growing plants will not overshadow the smaller ones.

To-morrow: Preparing the soil.

HEART'S AFIRE

by May Christie

The Brilliant Novelist of Modern Society

(Continued from Yesterday.)

WHO'S WHO IN THE STORY

Prudence Page, a charming country girl, has fallen in love with

Bert Traymore, a fascinating philanderer, who is in no danger of losing his heart over any woman.

Janet Mercer, Prudence's dearest friend, an older woman, plain but clever, is in love with Will Ogilvie. She is masseuse to the delicate child of

Mrs. Vansittart, a pleasure-loving woman-of-the-world, owner of Winston Towers, a beautiful summer home, which she fills with visitors.

Virginia Dale, her ward, is a blase beauty, who counts Traymore among her many swains. She is genuinely interested in

Peter Armstrong, a brilliant young inventor, clever and ambitious, who has evinced considerable admiration for Prudence. Virginia finds nothing to admire in the country "chit," as she calls the girl.

Traymore is attempting to convince both Virginia and Prudence of his love, and Prudence is suffering deeply.

CHAPTER XXXI.

Prudence's Rebellion

There are many types of women in the world. There are many shades and grades of character.

But in matters of the heart, two kinds stand out. The woman—hard and self-absorbed and greedy, who grabs everything she can, and gives nothing in return, or anyhow, the minimum. And her ardent, whole-hearted antithesis, to whom love is everything, and who is generous to a degree.

Of the latter type was Prudence Page. A born lover. Contrary to her name, she loved, perhaps not wisely, but with a whole-hearted devotion that women of the stamp of Miss Virginia Dale could never hope to understand, nor would they want to, in their selfishness.

Even as a tiny tot, Prudence had loved devotedly. Her mother, her dolls, the tiny animals about the farm.

"That child's head will never govern her heart," an observing neighbour had remarked.

"I wouldn't have her different for the world," the fond mother had replied.

Now, however, she was 'afraid' for the warm-hearted little daughter. With reason, too. Her own worldly experience might be small, but one really didn't need experience to sum up Mr. Bertram Traymore! Never would he make her Prudence happy.

Already there were shadows coming and going on the girl's hitherto unclouded face. Already Prudence's rippling laugh—that always, in her mother's ears had sounded like a freshet of delight—was silenced.

And she would spend hours along in the solitude of her room, apparently doing nothing . . . sitting by the window that overlooked the winding ribbon of road that led from Winston Towers, like little Sister Anne, waiting and watching.

In the morning, too, at breakfast-time, there would be violet shadows underneath her eyes, and the lids swollen suspiciously. She had cried herself to sleep the night before, the mother guessed.

What could be done? What said? Each human soul has its isolation, its holy ground whereon others—not even a mother—may intrude. Each human soul has its secrets and its reticences.

"If it only had been Mr. Armstrong!" Mrs. Page said to her husband, wistfully.

"Tush!" He was impatient at the very idea of his little Prudence with a lover! "Leave the child be! If she has a fancy for the foppish chap you speak of, she'll outgrow it! Calf love! It'll pass!"

"But he's the kind that will bring pain into her life."

Mr. Page had glared at that announcement.

"Let me get my hands on him and I'll horsewhip him. Just let me talk to Prudence. What does a mere child like her want to imagine she's in love for, I'd like to know?"

His wife regretted unburdening herself to him.

She had yielded to a foolish impulse in confiding the weight of her worries to someone who—being a mere man—didn't understand. ....

"Don't say a word to Prudence." She laid a hand on her husband's arm. "Mind, the girl hasn't spoken to me on the subject. It's just what I noticed, what I guessed."

Then a stop'll have to be put to" to it. I won't have you upset by any nonsense of the sort. Why, the child won't be marriageable for years!" He was indignant.

"Promise not to speak to her," his wife implored. Prudence was high-spirited, and who knows that if she thought her own folk had turned against her, she might run away with Bertram Traymore!

Mr. Page had grunted and said nothing, but his manner towards his daughter was a queer mixture of thoughtfulness and watchful anxiety. He loved her very dearly, but he didn't in the least understand her.

Why must she be so restless? Why could she settle to nothing? If he himself had a worry on his mind, he'd work it off with hard manual labor of some sort, and feel all the better afterwards.

He'd sent her on an errand. A brisk walk would do her good. There was rain-shine on the sunlit earth this morning, and the world was full of perfume, and the smell of green, growing things. Already the meadow grass was tall enough to hide the young rabbits.

"I want you to go to the library for me, Prue, and get that new book on the culture of sweet -peas. It's a two-mile walk each way, but it'll brisk you up a bit. Nothing like air and exercise, you know."

He hoped she wouldn't guess his motive.

She consented, listlessly. Anything to 'pass the time.'

"And what does a young girl want with 'passing the time'?" her father counter-thrust. "Leave that to the old folks. You ought to be living, eagerly, zestfully, every second of day!"

"But nothing ever happens, buried alive in the country," said Prudence apathetically.

"Never happens? Gracious me! And the callers you've had. And the parties up at the Towers! What more do you want?"

(What was the new generation coming to? Restless, dissatisfied, hard to please, sighing for the moon! When he was young, the women were content to work hard, and stay at home, and then—marrying some worthy fellow—change one brand of monotony for another. That was woman's life, and no grumbles about it, either. It was their proper sphere.)

Prudence was speaking. Her peach-like skin had a vivid flush that glowed below the surface, as though brilliant lamps were lit.

"What more do I want? Don't you understand that I've got nothing—nothing—in my life?" A passion of resentment rang in her young voice

"Nothing? Wha—whadda you mean?" muttered her father, taken aback at her vehemence. "You have a home, and a good bed to sleep in, and food to eat, and——"

"Even the animals have that! A human being has a—a soul——"

He stared at her. Wasn't there something almost indecent, blatant, as it were, in talking of one's 'soul'? What had come over Prudence in the last week or two? Where was his simple, unquestioning, unanalytical young daughter?

"It's souls that make us different from the beasts," she was panting, fire in her eyes. "You expect me to feed the chickens and work about the house and farm, and—and let my heart stifle, and my brain die from want of nourishment and clever companionship—and my soul starve! But I tell you I won't stand it! I'm going off into the world, and stand on my own feet and earn my living, and—and live!"

With a sinking heart her father heard the ultimatum, and stood staring at his daughter, wordless and aghast.

In To-morrow's Instalment Prudence is Unaccountably Thrilled. (To Be Continued.)

THE TREACHERY OF SPRING

False Sunshine Brings Colds, Backache and Rheumatism.

Spring may be a time of sunshine, buds and flowers; but it is also a time of driving rain, chilling winds, draughts and fogs.

We say "spring is here" and the first thing we know, we sneeze and cough; sometimes we are ill for weeks with grippe, tonsillitis or pneumonia. Spring is danger time, and everyone should guard their health by taking "Fruit-a-tives" during the breaking up of winter and the coming of warm weather.

These wonderful tablets—made from concentrated and intensified fruit juices—purify and enrich the blood—regulate kidneys, bowels and skin—and by building up the whole system, protect you against sudden weather changes.

25c. and 50c. a box—at all dealers or Fruit-a-tives Limited, Ottawa.

Internal Bathing Meant Life Itself to 93-year-old Man.

All the physics of doctors couldn't give health to this 93-year-old-man. Internal Bathing, the common-sense warm water method of cleansing the intestines, gave him vigor in place of the infirmities of old age.

The letter from Mr. Amos Ganter of 57 James Street, St. John, N. B., is only one of thousands from men and women who have found the way back to health by Internal Bathing. He writes:

"Dear Mr. Tyrrell: "I believe the J. B. L. Cascade is one of the greatest inventions for sound health in the world. For years I was troubled with constipation, which was poisoning my whole system, and I was losing flesh. Purgatives failed to have any effect upon me, but only acted more like a poison; I would take a burning itch in my hands—a most distressing feeling—and purple spots would come out on the backs of my my hands Everyone thought I was nearing the end because of my old age. But I can thank Dr. Tyrrell and the J. B. L. Cascade for restoring me to health I am now perfectly healthy and regular, and never use drugs."

People who are losing flesh, whose appetites are failing, and who are losing their health and sleep, due to constipation, headaches or biliousness, should stop using pills or laxatives and start Bathing Internally.

The J. B. L. Cascade is shown and explained at Warne Drug Co.

Ask for free booklet, "The What, the Why, the Way of Internal Bathing," or write to Tyrell's Hygienic Institue, 163 College Street, Toronto, Ont.

JEALOUSLY GUARDED.

MANCHESTER, Eng., March 29.—The great seal of England, of which Lord Haldane again becomes custodian, has had several strange adventures. Besides being stolen and thrown into rivers, it was once buried to escape being burned. In 1812 Lord Chancellor Eldon's house took fire and he rushed away with the seal and buried it in the garden The next morning he could not remember where he had buried it and the family had to poke the garden with sticks before it was located.

LEGION WILL AID ORPHANS.

INDIANAPOLIS, March 29. + (Associated Press).—The American Legion has announced a campaign to provide for "those who cannot ask for aid, and would not if they could," the orphans of war.

Through the sale of poppies, the official flower of the league, during the week preceding Memorial Day, it will collect funds for this welfare work, the care and education of the fast growing army of war orphans.

MAKING MONEY MAKE MONEY

Brief but Important Lessons in Finance, Markets, Stocks, Bonds and Investments.

Any man who is inclined towards the purchase of gilt-edge bonds instead of more speculative securities should do so, and feel sure that it will prove profitable in the long run.

Over a long period of time the wealth of the world mounts up at much less than 3 per cent compounded semi-annually. Why? Because wars destroy so much.

Similarly, the average investor finds his wealth accumulating very slowly because he loses large sums grabbing for high yields.

In both cases a slow and sure course would show highly profitable results in the long run. Often it is the hurry to accumulate that leads nations into war and the average individual into trying for unsafe high yields.

The old fable of the hare and the tortoise still holds true. If a man is inclined to be a tortoise, then there is no reason for him to imitate or envy the hare, because most of the hares never "get there."

YOUR HEALTH

DR. CLIFFORD ROBINSON

There is evidently much to be said against the carelessness in recognizing and immediately placing quarantine on what are called light cases of many children's diseases.

To properly give the necessary safeguarding to our children is one of the action which must be taken at once, in the case of scarlet fever, in its so called light form.

Even in select or first class communities, where living conditions and environment are of the very best, too much care cannot be taken in giving adequate protection to the children.

If school officials and parents, co-operating with physicians and the Board of Health, are strict in this matter, a great step in prevention of epidemic conditions will result.

The greatest danger is in the cases of diphtheria, meningitis and tuberculosis. In these three, infection is due to germs. Others, such as German measles, chicken pox and mumps, are not regarded as dangerous to life, but may also cause epidemic conditions.

Epidemics are spread by means of personal contact more than by any other carries. Do your best to protect your children from innocent contagion.

CHILDHOOD CONSTIPATION

Constipated children can find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which never fail to regulate the bowels and stomach, thus driving out constipation and indigestion; cold and simple fevers. Concerning them Mrs. Gaspard Daigle, Demain, Que., writes: "Baby's Own Tablets have been of great benefit to my little boy,' who was suffering from constipation and indigestion. They quickly relieved him and now he is in the best of health." The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams 'Medicine Co., Brockville, Ont.

HUSBAND DECLARES HE MISSES NAGGING WIFE.

LOS ANGELES, March 29. — William H. James is a mail carrier, Mrs. Maybelle C. James in a suit for separate maintenance filed in the Superior Court charges her husband with failure to provide and cruel and inhuman treatment.

She filed with her complaint a letter from her husband which she alleged caused deep mental anguish. The letter read in part:

"Yes, I miss you, but just in one way. I miss your continual nagging. I can at least have a little peace. You want your young life to yourself; now take it."

LET A TRAINED NURSE TELL YOU

Some simple facts concerning the recent discovery which solves the age-old problem of womankind

By ELLEN J. BUCKLAND
Graduate Nurse

Only a woman can possibly realize what this discovery means in general comfort, convenience and consequent peace of mind. It decides the most vexing questions which women have been trying to answer since the beginning of time.

The solving of the problem was accomplished by a new product called Kotex, which I ask you to try without cost. A free sample will be sent you if you will only mail the coupon to me.

This sample is the surest and simplest explanation of what Kotex is and what it will do.

What you will find

That Kotex is a pure, white, light-weight product, with super-absorbent qualities.

It instantly absorbs 16 times its own weight, and holds it. It is 5 times more absorbent than ordinary cotton.

Judge for yourself what these qualities mean! No more anxiety or fear of embarrassment.

Equally important, Kotex offers dainty immaculateness which delights the fastidious woman. And—ease of disposal which you never before dreamed of!

Simply mail the coupon

To learn all this and much more which I cannot explain here, you have only to mail the coupon.

The free sample of Kotex, in a perfectly plain package, will come by return mail. With it I will send you a special book, written by a doctor, which explains the health value of Kotex.

Since I know from professional as well as personal experience what Kotex will mean to you, I urge you to mail this coupon without delay.

Kotex may be had at all drug and department stores —in two sizes—Kotex regular and Kotex-Super.

GRENFELL LABRADOR MISSION

The Peterborough branch of the Grenfell Labrador Medical Mission will make its annual appeal for funds during the coming week — March 30th-April 5th. The people of the city and surrounding district have always shown great interest in this Mission and have responded most generously to the annual appeal.

The Local Grenfell Association feel that the interest taken in Dr. Grenfells' work is largely due to the influence of the late Mrs. James Wood. Mrs. Wood for many years was local treasurer of the Grenfell Association, carrying on alone the work of interesting and informing the public, and arranging for the annual appeal for funds. When the Local Branch of the Association was formed a few years ago Mrs. Wood was persuaded to retain the office of treasurer. She has been a source of inspiration to the members and her enthusiasm at dadvice will be sorely missed. The correspondent secretary of the Canadain Grenfell Association writes: "I was exceedingly sorry to learn of the death of our much beloved Mrs. James Wood, and the loss your branch sustains in her removal. I only hope, in memory of her splendid service, and because the Grenfell work has a real place in the Mission activity of Peterborough now, that the ranks will close in and help to make up for our great loss."

No cause was dearer to Mrs. Wood than the Labrador Medical Mission. In continuing to generously support this mission, we assist a worthy cause and show honor to the memory of one whose life was "fragrant with good deeds unassumingly done."

KATE MORRIS, President.

Explorer Says Airships Can't Reach the Pole.

LONON, March 29.—(United Press).—At the age of 72, Captain Joseph E. Bernier is about to set out for his eleventh trip of exploration to the Arctic.

In 1904, on behalf of the Canadian Government, he took possession of the Arctic Islands, bringing 500,000 square miles of territory and 40,000 square miles of fishing rights within the Dominion administration.

"The object of my expeditions," he said, "is to maintain those rights which we have established in the North."

The population chiefly comprises Eskimos, among which are two white men (one a deserter from his ship), who have raised Eskimo families and lived in the North for twenty-five years. Captain Bernier takes out with him settlers, various representatives of the Canadian Government, and mounted police.

Commenting on the proposal to reach the North Pole by airship. Captain Bernier said:

"Polar exploration is impracticable and unsafe by air. A balloon or airship like the Shenandoah would soon be covered so heavily with frost that it would be impossible to rise again once the airship came down. Furthermore, landing in the Polar basin is next to impossible, for the surface is waterlogged in the summer.

"If any air party ever did land they would damage their vessel in the rugged and waterlogged country and inevitably perish."

Autumobiles on rails are coming into general use on railroads in France.

MOTHER!

Clean Child's Bowels with "California Fig Syrup"

Even if cross, feverish, bilious, constipated or full of cold, children love the pleasant taste of "California Fig Syrup." A teaspoonful never fails to clean the liver and bowels.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

It Has Healed Many of Eczema Why Not You?

If you are afflicted with skin disease, the kind that seems to baffle medical treatments, investigate this discovery. Many skin specialists are now using it in preference to their own prescriptions.

The formula is being published and physicians note that it contains the rare ingredient—D. D. D.

How long have you had to endure disfiguring hearts — humiliation — itching — pain? How many times have you looked into the mirror and wished you had an unblemished skin? How many times have you followed hopeful advice in vain?

You will not be disappointed in the action of this remedy. It works instantly on the inflamed and tortured skin. The rough, unsightly surfaces assume that healthy look you have perhaps not known for years.

A soft, fragrant, powerful agent, beautiful in color, pleasant in odor, a cooling, soothing fluid. D. D. D. is the ideal treatment for the most sensitive skin.

D.D.D.

We guarantee D. D. D.—The first bottle relieves you or your money back. $1.25 a bottle. Try D. D. D. soap too.

McDermid & Jury, Druggists, E. L. Payne, Druggist, J. P. Bond, Druggist.

CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn soft, corn or corn between the toes, and foot calluses, without soreness or irritation.

Don't Pay $1,400 or More

for a car, without knowing what the leader offers in the fine-car field

WE made a canvass of many who bought rivals of Studebakers. We said, "Tell us why you liked your car the better."

The majority said, "We did not even look at the Studebaker." Most of them bought new models of the car they owned before.

* * *

Yet Studebaker is a leader in the fine-car field today. Studebaker builds more quality cars than any other plant in the world.

Last year, 145,167 fine-car buyers paid $201,000,000 for Studebaker cars. Nearly three times as many as in 1920.

Is it fair to yourself—or fair to us—not to learn the reasons for this trend?

Facts to consider

Studebaker assets are $90,000,000—all staked on satisfying, better than others, buyers of high-grade cars.

$50,000,000 in modern plants and equipment, of which $32,000,000 has been added during the past five years.

$10,000,000 in body plants to give you superlative beauty.

125 experts who devote their whole time to studying betterments.

* * *

Consider Studebaker history. For 72 years this concern has stood for high principles and policies.

For two generations, against all the world, it held first place in horse-drawn vehicles.

Now for years its name and fame have been committed to like attainments in fine motor cars.

If you only knew

There is no room here for details and comparisons. You will find them all in Studebaker showrooms. But let us cite some significant facts.

That lack of vibration, so conspicuous in Studebakers, costs us $600,000 yearly in extra machining of crank shafts.

That matchless strength in vital parts comes from the costliest steels. For some we add 15% to the quoted price to get exactness in them.

That Chase Mohair, used in our closed cars, is made from the soft fleece of Angora goats. Cotton or ordinary wool, or a combination of both, could reduce our price $100 to $150 per car, but it would sacrifice Studebaker quality.

Note the bumpers, the steel trunk, the extra cord tires, the motometer, the courtesy light on some models. Figure what they would cost as extras.

The infinite care

We employ 1,200 inspectors to make 30,000 inspections of the material and workmanship in each Studebaker car—before it leaves the factory.

If you want beauty, fine upholstery, rich finish and equipment, consider that Studebaker has had more experience in fine coach building than any other motor car maker.

* * *

These are facts you should know. They are inducing 150,000 per year to choose Studebaker cars.

Some sell under $1,500. Some meet every requirement in size and power and luxury. But the chassis are all alike, save in size. The same steels, the same standards throughout. Every important Studebaker part represents the best we know.

* * *

People have learned these facts—hundreds of thousands of them. The demand for Studebakers has almost trebled in three years.

Investigate the reasons. You will find them by the scores. Then, if you choose a rival car, we shall have nothing more to say.

See the Studebakers

Studebaker builds more fine cars than any other plant in the world.

Last year 145,167 wise motor car buyers paid $201,000,000 for Studebakers.

The demand has almost trebled in the past three years.

It is folly to buy a car in this class without knowing what we give.

THE WORLD'S LARGEST PRODUCER OF QUALITY AUTOMOBILES

Cut Throat of Dead Man By His Request.

PARIS, March 29. — (United Press).—Fearing the fate that almost fell to Prince Matsukata of Japan, that of being buried alive, a resident of the St. Marquerite quarter left written instructions that before his coffin was sealed his throat should be cut. His wish was fulfilled.

The man had been ill and felt that death was near. His end was hastened by his constant fear that he would pass into a state of unconsciousness and be buried before he was actually dead.

The family physician contented himself with cutting the veins in the man's wrist. The widow, however, felt that the wish of her husband had not been fulfilled, so she went to police headquarters to get authorization for the post-mortem operation. A surgeon was called and with a commissioner of police as witness the operation was performed.

Discussion in medical circles on the uncertainty when death takes place has brought out several opinions that the ordinary methods of ascertaining death may fail in extraordinary cases, when only decomposition can be positive.

Physicians say the simplest method, which is practically certain, is to prick the skin with a needle. If the patient is alive the hole made will close and become imperceptible, but if dead it will remain quite visible.

During their luminous flights, meteors are generally eight to 25 miles in height.

A quicker job - A better job

WHETHER you employ the paperhanger or whether you do the job yourself, you can now redecorate your rooms quicker, better and at less cost than formerly.

Staunton Semi-Trimmed Wallpaper simplifies the job throughout. Its advantages over the old-fashioned papers are obvious at a glance.

Semi-trimming eliminates all the old, troublesome and uncertain methods of trimming. No scissors, knife, or straightedge are required. You simply give the ends of the roll a rap on table or floor, and *the selvage falls off*, leaving the paper perfectly trimmed to a thousandth part of an inch. Think of the time and trouble saved—of the litter and muss you avoid—of how semi-trimmed wallpaper reduces the paperhanger's time and cost.

And above all, think of the perfect job that results. No white edges, no imperfect seams — just a beautiful design which looks like one piece on the wall.

Ask your dealer to show you the patterns.

EXQUISITE IN DESIGN

Staunton Semi-Trimmed Wallpaper is marked by that fine quality which has distinguished the products of the Staunton industry for 67 years past. The 1923-4 Staunton line embraces a wonderful range of new and original designs in modish colorings and exquisite finishes.

AMENDMENT TO LEMIEUX ACT

Bill Amended By Senate At Last Session Introduced In the Commons Again By Hon. James Murdock.

OTTAWA, March 29.— (Canadian Press)— Two bills received third reading in the house of commons Friday afternoon. The first was the measure introduced by Hon. James Murdock, minister of labor, to clear up the interpretation of the Lemieux Act by providing explicitly that there should be no reduction of pay within industries covered by the act except after an inquiry of a board of investigation. This bill was passed by the house last year but subsequently amended by the senate in a manner which was rejected by the commons.

The second bill given a third reading contains amendments to the penitentiaries act, and was introduced by Hon. Ernest Lapointe, minister of justice. The first amendment purports to give the warden and his officers power to prevent the escape and to effect thes arrest and recapture of escaping convicts; the second deals with the place where a convict is to be detained pending an appeal against his conviction or sentence.

Japanese Interest In Disarmament Growing.

TOKIO, March 29.— Japanese interest in the further limitation of naval armaments is increasing.

The Tokio Hazahi pointed out the chief hope for progress in that direction lies not in Washington, but in London where the British labor government following abandonment of the Singapore base, has given further evidences of a desire to lighten armaments. Success, the newspaper adds, depends on London's ability to bring into line France, whose policy is opposed to Great Britain's. It was contended by the Nichi Nichi that the league of nations is the proper instrument through which to seek further disarmaments.

BURNED HIS MONEY AND THEN COMMITS SUICIDE

MARSEILLES, March 29.— (United Press).—Nobody could have been more disgusted with life than Lean-Louis Astruc, aged 72, whose body was found hanging to a tree in the forest of La Sale, near Lavaur. At his feet was a small heap of ashes. They proved to be bank notes. The old man had burned his fortune, amounting to about 9,000 francs.

Getting bald, hair falling and fading? If you want to grow new, healthy hair right away I will send you absolutely Free, a sample of the famous Alexander Glandahair. No cost, no obligation, just sent name to ALEXANDER LABORATORIES, 207 Bohan Bldg., Toronto, Canada.

PAGAN GODS WREAK VENGEANCE ON MEN.

Violators of Temple Made Merry on Worship Site—Many Misadventures.

HONOLULU, March 29.—(Associated Press)—The gods of ancient Hawaii again wreaked their vengeance upon the whites who made merry upon the site of a former heiau, or old-time temple of worship, according to Hawaiian superstition, when the famous clubhouse of the Order of Elks on the beach at Waikiki was damaged by fire to the extent of $65,000.

The flames, caused by defective wiring, were the last of a series of untoward events, including murder, that occurred at the site of the heiau, which nestles at the foot of Diamond Head. According to Hawaiian medicine men, only evil will come to those who desecrate the site of an ancient heiau.

The clubhouse was built many years ago by the late James B. Castle, a descendant of the missionaries who came from New England to the islands in 1820, as a residence for his family. During the occupancy of the Castle family two Japanese were murdered in the grounds and attention was called at that time to the tradition of the heiau.

IRISH COMPOSER DEAD

LONDON, March 29.—(Canadian Press).—Sir Charles Villiers Stanford, the noted Irish composer, died to-day at his home here.

Born in Dublin in 1858, Stanford, for many years was organist of the Trinity College, Professor of Music, at Cambridge University and Conductor of Cambridge University Musical Society for more than twenty years.

Stanford's music has been adjudged by critics as strongly individualistic with characteristics imparted His Irish symphony has been frequently performed here and abroad and his light opera 'Shamus O'Brien' had long run in London in 90's. His choral writings are accounted his strongest works, notably his choral ballad 'Revenge' and his five "Songs of Sea" for soloist, Malu chorus and orchestra.

NINE PERSONS DEAD AS RESULT TORNADO.

KANSAS CITY, March 29—(Canadian Press).— Nine persons are dead, between 75 and 100 injured, several probably fatally, and property damaged estimated at hundreds of thousands of dollars, is toll of Tornado and Wind Storms that swept parts of Oklahoma, Kansas, Texas, Missouri and Illinois, late yesterday, eight persons were killed and more than seventy injured at Shawnee, Oklahoma.

TODAY I AM REAL WELL

So Writes Woman After Taking Lydia E. Pinkham's Vegetable Compound

Jamestown, N.Y.—"I was nervous, easily excited and discouraged and had no ambition. Part of the time I was not able to sit up as I suffered with pains in my back and with weakness. I took Lydia E. Pinkham's Vegetable Compound, both the liquid and tablet forms, and used Lydia E. Pinkham's Sanative Wash for inflammation. Today I am real well and run a rooming house and do the work. I recommend your medicine to every woman who complains, and you may use my letter to help any one else. I am passing through the Change of Life now and I keep the Vegetable Compound in the house, ready to take when I feel the need of it."—Mrs. ALICE D. DAVIS, 203 W. Second St., Jamestown, N. Y.

Often some slight derangement may cause a general upset condition of the whole system, indicated by such symptoms as nervousness, backache, lack of ambition and general weakness.

Lydia E. Pinkham's Vegetable Compound will be found a splendid medicine for such troubles. In many cases it has removed the cause of the trouble.

TRANSPORT WORKERS TO HOLD A MEETING.

LONDON, March 29.—(Canadian Press). — Delegates of Transport Workers Union and Tramway and Bus Companies met at eleven o'clock this morning to discuss terms of strike settlement proposed in consequence of yesterday's negotiations. If delegates ratify terms they will remain to be put before workers for ballot and according to union secretary work will now here be resumed until result is declared.

Terms are announced to include wage advance of six shillings, with remaining two shillings demanded by men fluctuating, according to the cost of living index.

WOMEN! DYE FADED THINGS NEW AGAIN

Dye or Tint any Worn, Shabby Garment or Drapery

Diamond Dyes

Each 15-cent package of "Diamond Dyes" contains directions so simple that any woman can dye or tint any old, worn, faded thing new, even if she has never dyed before. Choose any color at drug store.

NERVE, WE'D CALL IT

WICHITA, Kas., March 27—Sign here on a bootlegger's house: "Fresh Corn Likker, $5 per quart. No sales made to minors or policemen."

COULDN'T SLEEP HEART WAS BAD NERVES A WRECK

Mr. H. A. Reid, Upper Musquodoboit, N.S., writes:—"I am very thankful fro the benefit I have received by using Milburn's Heart and Nerve Pills.

When I came home from overseas, in 1920, my heart was very badly affected by concussion, and my nerves were a dreadful wreck. I was very short winded, and could not possibly sleep at night, in fact, I was in such a condition I felt as if I did not wish anyone to speak to me. I thought I would try Milburn's Heart and Nerve Pills, and before I had taken two boxes I could enjoy a good night's rest as well as anyone.

There are lots of returned men who are suffering the same as I did, and I feel sure that if they would only try Milburn's Heart and Nerve Pills they will receive the same relief that I have."

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto.

ACQUITTED OF MURDER

BRIDGETON, N.J. March 29.—Thompson Dickson, 53, to-night was acquitted on a charge of murdering his fifteen-year-old daughter Emma, last September in the rear of their Bricksboro home. The jury brought in the verdict for acquittal after two hour session. Only one ballet was necessary.

New Wallpapers for Spring

MAYOR WILL GIVE MARBLES TO BOYS

Girls Are Also Eligible for Gift of 15,000 Marbles to City Children.

Fifteen thousand or more marbles will be distributed next Saturday to boys and girls under twelve years of age by His Worship Mayor Turner, the allowance to each child depending on the capacity of his or her hand.

The scene of this wholesale distribution of "marbles" will probably be Victoria Park bandstand, but the definite decision on this important point will be made next week. Meantime, His Worship has ordered 15,000 marbles and a supply of alleys, and is asking prominent sportsmen in the city to assist him in the distribution.

Next Saturday will be a joyful occasion for boys and girls under twelve.

GOING TO WESTERN CANADA?

Every year at this season hundreds of families consider paying a visit to one of the three Prairie Provinces, with the idea of permanently locating there if they find suitable locations.

The very best train to take from Toronto is the National, the steel equipped Canadian National train leaving Toronto every day at 10.45 p.m. The National offers exceptional service, carrying Standard Sleeping Car, Diner and Compartment Observation Car and Coaches, as well as Tourist Sleeper and Colonist Cars.

The Colonist passengers will find the lunch counter service a great convenience. An attendant is on duty all day from whom hot and cold drinks, as well as the regular lunch counter food may be purchased.

Get further particulars from any Canadian National Ticket Agent.

KING'S TREASURER FAILS TO PAY.

LONDON, March 29 (United News). — 'The King's Treasurer and Keeper of the Privy Purse," sounds like a powerful job, but evidently it doesn't carry much salary.

Sir Frederick Ponsonby, who fills the exalted position, was summoned to appear at Guildford Court on Friday for non-payment of taxes. He failed to arrive, and the case was adjourned.

BRITISH HARVESTERS REACH OTTAWA TO-DAY

OTTAWA, March 29.—(Canadian Press).—British harvesters hiking from Toronto to lay their grievances before Premier Mackenzie King will start on last leg of their journey this morning and should reach Ottawa to-night. They covered thirty one miles from Prescott to Kemptville yesterday. Stopping at the latter town over night.

Eat and Get Thin

This is turning an old phrase face about, but modern methods of reducing fat have made the revision possible.

If you are overfat and also averse to physical exertion; if you are likewise fond of the table, and still want to reduce your excess flesh several pounds, do this: Go to your druggist (or write the Marmola Company, 4612 Woodward ave., Detroit, Mich.) and give him (or send them) one dollar. For this modest amount of money the druggist will put you in the way of satisfying your ambition for a nice, trim, slim figure. He will hand you a case of Marmola Prescription Tablets (compounded in accordance with the famous Marmola Prescription) one of which you must take after each meal and at bedtime until you begin to lose your fat steadily and easily. Then continue the treatment until your weight is what you desire. Marmola Prescription Tablets are not only harmless, but really beneficial to the general health. You don't need starvation diet or weakening exercises. Just go on eating what you like, leave exercising to the athletes, but take your little tablet faithfully, and without a doubt that flabby flesh will quickly take unto itself wings, leaving behind it your natural self, neatly clothed in firm flesh and trim muscles.

WARKWORTH NEWS

WARWORTH, March 29.—Mrs. Chas. Wolfraim of Castleton is spending a few days with her parents, Mr. and Mrs. W. J. Harper.

Mr. Carmen Carlan spent Thursday in Campbellford on business.

Mr. Wm. Bensley of Trenton was in town on business.

Mr. and Mrs. Wm. Glover entertained a number of friends on Wednesday evening.

"HOME FOR EASTER."

A most convenient service is provided by Canadian National Railways for all those who desire to take advantage of the long week-end at Easter or to enjoy a more extended holiday during that period. Parents or relatives wishing to bring students or pupils at school, etc., home for the holiday can arrange all details through the Railway Company. Any Canadian National Agent will transmit to all parts of the System orders for the delivery of rail tickets, sleeping car berths or parlor car seats, and if required a cash payment for travelling expenses and will cheerfully render any other service that may be desired. Personal attention will be given passengers at ticket offices or depots and everything possible will be done to contribute to the comfort and safety of those who may be entrusted to the care of a Canadian National Representative.

For further particulars apply to any Canadian National Railway Ticket Agent.

"I prefer that one it has Hardwood Floors"

THOSE who rent or buy houses are influenced in their choice by the floors—"Are they hardwood?" Hardwood floors—they know—are sanitary—beautiful—convenient. To say a house has "Hardwood Floors throughout" is a strong selling argument. SEAMAN-KENT HARDWOOD FLOORING is most skilfully made. It has the exact amount of moisture that science demands. It is tongued and grooved on sides and ends to fit snugly and permanently. It is perfectly matched for beauty. If you are building a house lay SEAMAN-KENT HARDWOOD FLOORING—or if your present house has rough unsightly floors, you can add immeasurably to its value and beauty by a surprisingly small expenditure.

SEAMAN-KENT HARDWOOD FLOORING

PETERBOROUGH GOOD SAMARITANS

Do Not Pass By on the Other Side of Distress and Affliction

"When a certain man fell among thieves, and was stripped of his raiment, beaten and left half dead, both Priest and Levite passed by him on the other side. But a certain good Samaritan, when he saw the stricken man, had compassion on him, bound up his wounds, brought him to an inn and took care of him."

Such is the first lesson in philanthropy, and the responsibility of those bodily sound and blessed with wirldly advantages for the wellbeing of those less fortunately circumstanced, taught by the founder of the Christian era. 'Tis an old, old story that parable of the good Samaritan, but it breathes of that love of all mankind which is one of the principle precepts of our faith. If the human race is to attain those benevolent ideals inculcated by the Great Master, philanthropy must know no bounds except those of prudence and practicability. The afflicted we have always with us—men, women and children—and it is the duty of society to minister to their care and uplift.

This leads to the thought that there are in Peterboro a body of Good Samaritans who, like their prototype of old, are doing a God-given work. Known as the Health Association, unlike the Priest and Levite of Palestine, these philanthropic men and women do not pass by on "the other side" of distress and suffering among their fellow-mortals. On the contrary, they rejoice in ministering to the needs of those whose lives have fallen in underprivileged paths—with nursing care, sustenance, sanitary and dietary instructions and medical attention.

Then there are the little children of poorly circumstanced parents—some sick or under-nourished, and others crippled—whose physical, mental and even recreation wants are supplied by these modern Good Samaritans. In this connection the Children's Camp in Jackson Park resounds each year to the merry, happy shouts of grateful youngsters. For there, well-fed and capably supervised, hundreds each summer indulge in invigorating games and pastimes, revelling in the luxury of Mother Nature's gifts amid surroundings laden with health-building ozone and the stimulating fragrance of sympathetic pines.

But all of this Good Samaritanism takes money to no inconsiderable extent. And while members of the Health Association themselves contribute generously to the funds necessary for carrying on their own exemplary work, they must also have support from other sources. To this end the receipts of the Peterboro Motor Show are donated to the Health Association, and those receipts are needed this year that their good work be not restricted. Remember, our annual Motor Show is set for April 23, 24 and 25, and upon its success depends the continued success of the Health Association and in no small measure the maintenance and growth of the kiddies' camp in Jackson Park.

It is to be hoped that all will feel the urge to patronize the Motor Show next month, in the interests of its ultimate objective as briefly outlined here; and that the attendance in support of so worthy a cause may be counted by legions. No pains are being spared to make the event more worth-while than ever, both in exhibits and entertaining attractions.

HIGH BLOOD PRESSURE

The secrecy of long life is in the arteries. People who allow their arteries to become clogged up, causing high blood pressure, as a rule do not live long. "GAR-LIXIR" H.B.P. treatment is the great arterial purger. It softens the hardening walls and clears the clogged vessels and it is not long before the patient is conscious of returning good health as the heart begins to resume its normal action. "H.B.P." is now obtainable at BOND'S Drug Store: $2.00 per bottle with booklet of instructions.

JACK DERRY IS TO MANAGE THE KINGSTON TEAM

Circle Six May Enter the Junior Central Ontario League — Seek Local Grouping.

POWELL IS OUT.

KINGSTON, March 29.—(Special to the Examiner).—Announcement was made to-day that Jack Derry, who acted as Manager of the Kingston team in the Central Ontario Baseball League for a time last summer would pilot the Circle Six Junior baseball team and that the Circle Six might also enter the Junior Central Ontario League. It is pointed out that if the team can be grouped with Belleville, Trenton, Picton and Napanee, things would go well with them. Every trip could be made by car and local games could be played at the Cricket Field. It is very likely that Circle Six will be seen in action in the Central Ontario Junior series.

Jack Powell will be unable to handle the Circle Six this summer owing to lack of time but he will be in charge of the hockey team next winter.

RINK RATS GAVE A PRESENTATION

Lakefield Caretaker of Hockey Rink Honored at Close of Season.

LAKEFIELD, March 29.—On Wednesday evening the members of the Rink Rats hockey team waited on "Dad" Morin at the rink and presented him with a pipe as a small remembrance. Harry Stabler read the following address and Lionel Lawless made the presentation.

Lakefield, Ont.
March 26th, 1924

Dear Dad Morin,—

As the hockey season is drawing to a close we feel that we must not conclude our season's games without an expression of our appreciation of your kindness to us. You have never failed us in all our games. We knew we had your backing and that meant a great deal to us, helping us in victory and encouraging us in defeat.

We beg you to accept this pipe with our affectionate regards and hope that it will always bring happy memories of your boys, The Rink Rats.

The address was signed by:

Lionel Lawless, Kenneth Junkin, Eric Morin, Enith Wannamaker, Glen Wannamaker, Harry Stabler, Elwood Northey, Halph Hendren, Harold Hamblin, Gerald Sherin.

Mr. Morin made a suitable reply thanking the boys for their gift and assuring them of the pleasure the association with them had been and while several of them would be past the junior age limit, he hoped to keep up the team which he had built up ten years ago.

Mr. Morin has been a booster for junior hockey for years he shares with Rev. A. W. Mackenzie the credit of bringing the Junior League into being and in encouraging the boys.

The Grove boys presented Mr. Morin last week with a handsome pipe in token of their appreciation of his many acts of kindness and encouragement.

SANTAL MIDY CAPSULES — Easy to Take—Quick to Relieve CATARRH of the BLADDER — Safe, Successful — Each Capsule bears name MIDY — Beware of counterfeits

BOYS!

When Dad comes home to-night remind him of that "MASSEY" that he was going to get you. He has probably forgotten how hard you worked at school, how many errands you run for Mother and how hard it is for you to amuse yourself while all you playmates are out riding their bicycles. Dad is a good sport, he was young himself once and he knows better than you do how good bicycle riding is for you. Mother knows too She knows that it would be a pleasure for you to go her errands if you had a "MASSEY." Now tonight when Dad has had his supper, before he starts to read, brush his coat and hat and take him by the hand and bring him to WHITE'S to pick out your bicycle. He doesn't have to pay cash.

To the first boy that brings his Dad in tonight to buy his new "MASSEY" we will give a

Baseball Bat and Glove FREE!

NOW BOYS, TONIGHT!

GLENNA COLLETT

Winner of the North and South Women's Golf Championship, at Pinehurst, N.C. She defeated Louise Fordyce, of Youngston, O., by five up and three to play in final.

MISS COLLETT KEEPS TROPHY

Brilliant Young Golfer Never In Danger In the Finals At Pinehurst Tournament.

PINEHURST, N.C., March 29.—Miss Glenna Collett of Providence, North and South titleholder, and former national champion, yesterday captured the 22nd annual North and South Womens' Golf Championship, by defeating Miss Louise Fordyce, Youngstown, Ohio, 5 and 3. Miss Collett never was in danger and played par golf or better on nine of the fifteen holes required to end the match.

Miss Collett went out in 36, one above par. On two holes she shot birdies, making the sixth in two. She was six up on Miss Fordyce at the turn, but slumped and lost the tenth, eleventh and thirteen holes, winning the twelfth and fifteenth and halving the fourteenth.

The cards:

Miss Collett:			
Out	445	452	444—36
In	505	634	— —65
Miss Fordyce:			
Out	656	543	455—43
In	456	535	— —71

OWEN SOUNDERS WON O.H.A. CUP

Outplayed by Calgary in Last Night's Final Game and Tied 2-2, Their Lead in First Game Carried Them Through.

WINNIPEG, March 29.—(Canadian Press.)—Owen Sound's valiant young hockey brigade will take the O. H. A. Memorial Cup back east with them as the result of playing a tie game with Calgary here last night in the final for the Canadian Junior Championship as their 5 to 3 victory in the first game gave them a two goal margin on the round. But no team escaped with the championship after being so badly outplayed as the easterners did tonight. For fifty minutes of the sixty they were behind their own centre, battling desperately to stave off the attacks of the fighting western lads and they succeeded, though outclassed and outplayed. Owen Sound gave a wonderful exhibtion of defensive tactics and on the head of 16-year old Hedley Smith, the Owen Sound aggregation must place the crown of victory. This young lad staved off waht looked like certain defeat by his marvelous stops. Even at that the Calgary team claimed two goals which the officials refused to allow. Both disputed goals were claimed by the Calgary players to have hit Grey's nets and rebounded into play. Despite protests from the westerners and the crowd alike, the officials ruled otherwise. Owen Sound collectively did not measure up to their initial appearance here, but as individual lights, Graham and Cain stood out as stars of the first magnitude. This pair gave a brilliant performance of defence play, and at the finish they were completely exhausted, but showed a fighting spirit which gave their team the Dominion honors.

Cyclists Cancelled Paris Race Entries.

PARIS, March 29 (Canadian Press). — Complaints against Alfred Grenda, Alex. McBeath, and Anthony Beckman, six-day bicycle riders, for alleged broken contracts, were lodged yesterday with the International Cycling Union by Robert Desmarets, manager of the Paris Velodrome.

He claims that these riders promised to participate, and accepted terms, in the Paris six-day race, beginning 7th April.

The manager says he holds a contract signed by Grenda, while he has cabled acceptances of his offer to McBeath and Beckman.

All three of them now have cancelled their entries.

Paul Rosseau, secretary of the Cycling Union, will refer the matter to Frank L. Kramer, chairman of the Board of Control of the National Cycling Association, in the United States.

Greek chronology was reckoned in cycles of four years, corresponding with the periodic Olympic games held on the plain of Olympia.

LADY CURLERS HELD MEETING

Mrs. A. W. Turner Elected President—Encouraging Reports By Officers.

PRIZES PRESENTED.

The annual meeting of the Peterboro Ladies' Curling Club was held yesterday afternoon, with a good attendance of the members present. The president, Mrs. W. J. Oke, occupied the chair. Reports of the year's work, showing a generally successful period just ended, were given by the secretary, Mrs. R. H. Turner, and the treasurer, Mrs. R. M. Waddell. Mrs. Turner's report was a concise review of the season's activities in Peterboro, Toronto and Montreal, and concluded with the following paragraphs:

"At a meeting of the executive, held Thursday afternoon, March 20, several matters came up for consideration. After a good deal of discussion, it was moved, seconded and carried that next season, no new members be accepted unless willing to come in unattached. Mrs. W. J. Oke, Mrs. H. W. Cressman and Mrs. A. W. Turner were appointed a nominating committee. Mrs. H. O. Fisk was chosen convenor of the social committee, with the privilege of choosing her own assistants.

"This concludes a very successful season's play. The thanks of the club are due Mr. J. Metheral, for his kindness in helping make the draw for the Sturgeon Shield, also to Mr. Angus McIntosh for many kindnesses shown during the season.

Mrs. R. M. Waddell's report of the finances of the society was as follows: Receipts, Jan. 1, 1924, balance on hand, 26.16; Fees, $155. Total, $181.16. Expenditures: O.C.A. fees, $2; L.O.C.A. fees, $2; fees to Peterboro Curling Club, $124; to Mr. McIntosh, $5; to Schneider Bros. (engraving), $4; to Mr. A. Gibson (engraving), $2.50; to Mrs. Turner (secretary's expenses), $3.50. Total $143.00. Balance on hand, $38.16.

Mrs. W. H. Hill moved a vote of thanks, seconded by Mrs. H. O. Fisk to president, secretary and treasurer, for their hard work during the year. The report of the nominating committee was read by Mrs. Oke, and adopted. The officers for the ensuing years are as follows:

President, Mrs. A. W. Turner; vice-president, Mrs. H. O. Fisk; secretary, Mrs. R. H. Turner; treasurer, Mrs. R. M. Waddell; Executive: Mrs. W. J. Oke, Mrs. W. H. Hill, Mrs. A. E. Coulthard, Mrs. H. W. Cressman, Mrs. C. E. Jamieson, Miss E. Morrow, Miss C. Littlefield, and the officers; Games committee, Mrs. R. Grant, Mrs. H. W. Cressman, Mrs. H. O. Fisk, Mrs. R. H. Turner. Representatives to the O.C.A. to be the Tankard skips.

Trophies and special prizes were then presented, as follows: The Gibson Trophy, won by Mrs. A. E. Coulthard's rink, presented by Mrs. Alex Gibson, and accepted, in Mrs. Coulthard's absence, by Mrs. A. W. Turner, vice skip. Individual prizes given by Mrs. Oke, retiring president, were presented to the personnel of the rink: Mrs. R. A. Carmen, Mrs. W. Comstock, Mrs. A. W. Turner, Mrs. A. E. Coulthard.

The Waddell trophy, won by Mrs. W. Oke's rink, was presented by Mrs. R. M. Waddell and accepted by Mrs. Oke, with individual prizes given by Mrs. Waddell, to Miss L. Jobbitt, Mrs. H. W. Darcy, Miss M. Neill and Mrs. Oke.

Prizes for the vice skips' competition, presented by Mrs. R. H. Turner and Mrs. A. W. Cressman, were won by Mrs. R. Grant's rink, with the following personnel: Mrs. H. Beal, Miss C. Littlefield, Mrs. C. E. Jamieson and Mrs. R. Grant.

Games arranged while the rinks were taking part in the Montreal competitions were won by a rink with Mrs. C. E. Jamieson as skip, and members in Miss L. Jobbitt, Miss M. Fanning and Mrs. A. W. Turner.

The Sturgeon Shield went to a mixed rink skipped by Mrs. C. E. Jamieson, with the following personnel: Mrs. M. B. Chenhall, Mrs. H. W. Darcy and Mr. W. Thompson. Presentation was made by R. Sturgeon and accepted by Mrs. Jamieson. Runners-up in this competition were Mrs. R. M. Waddell's rink, with members in Mr. Bowes, Mrs. W. Comstock and H. F. Foote. Each member of thees two rinks received individual prizes.

Mrs. W. H. Hill and Miss F. Gladman each presented the members of their rinks with pretty pins, and Mrs. H. O. Fisk also presented her rink, composed of Mrs. J. H. Vernor, Mrs. N. Geale and Mrs. E. H. Wood, with a gift.

NEWARK GIRL TRACK STAR.

One of the outstanding girl athletes of the country is Minnie Wolbert, of Newark, N.J., who holds the national outdoor record for the 50-yard run, 75-yard run and the discus throw.

BAD BLOOD PIMPLES AND BOILES
Banished By
Burdock Blood Bitters

Miss Irene A. Matthews, Stayner, Ont., writes:—"I thought I would write and tell you of the experience and benefit I have derived from Burdock Blood Bitters.

Some few months ago I was troubled with bad blood which broke out on my face in the nature of pimples, boils and ring-worm, and I got so bad I really did not know what to do.

I was ashamed to go anywhere, and the itching and burning caused such a terrible sensation I could get no relief day or night.

One day a friend advised me to use Burdock Blood Bitters. I used one bottle and felt quite a relief, and by the time I had taken 3 bottles I was completely relieved.

I cannot praise B.B.B. enough and I hope anyone afflicted like I was will get the same benefit I received."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Dodgers' Holdout Will Report For Training.

NEW YORK, March 29 (Canadian Press). — Johnny Jones, star shortstop of the Portland, Oregon, Club of the Pacific Coast League, who was purchased by Brooklyn for 25,000, will report at once to the Brooklyn's training camp at Clearwater, Fla., according to advices from there yesterday.

Janes had refused to report until he received a slice of his purchase and although no details of the settlement were disclosed, it was understood the player's terms were met.

GRANITES SEEK FRANCHISE AS PROFESSIONALS

Players Who Won Amateur Championship of the World at Chamonix Will Be Acquisition in Canadian Professional Hockey.

DRAWING CARDS

OTTAWA, March 29. Canadian Press. — The Canadian Hockey team which won the world's amateur hockey championship at the Olympic games at Chamonix this year will play in the National Hockey League next year if their application for the franchise in the professional circuit is accepted at a meeting of the N.H.L. in Montreal to-day, and it is most likely that the application will be accepted, Ottawa, Canadiens and Hamilton, it is expected, will support the admission of this team, which would greatly strengthen the N.H.L. The Granite players themselves, and some relatives of the players, will constitute the members who will hold stock in the new professional club.

This move of the Granites has been expected here ever since the return of the champions from the Olympiad when they declined to compete in the Allan Cup series, and their members refused tempting offers from the pro. clubs.

The Granites should prove a strong drawing card here where professional hockey makes a big appeal.

Authority to make the application was received by Major McDowell, from Pete Campbell, who for several years past has been manager of the Granite Club. The application will be made as an entire team, and the Granites will likely play at the new artificial ice rink now being re-constructed at Toronto, and known formerly as the Ravina.

MEETING OF THE MERCANTILE LEAGUE

There will be a meeting of the Mercantile Baseball League Monday, March 31, at 8 o'clock in the Chamber of Commerce rooms.

This will be the first meeting held by this league and it is important that all teams have a representative on hand to get the league under way. Several teams have signified their intentions of playing Mercantile this year and a strong league is looked for. It is expected that a good turn out of players and representatives will attend the meeting and start things going.

ARRANGE TOUR OF CANADIANS

Details of Soccer Team's Trip to Australia Arranged--Sail From Vancouver On April 9.

WINNIPEG, March 29 (Canadian Press). — All arrangements have been completed for the Australian tour of the Canadian soccer team during May, June and July, it was announced by Sam Davidson, secretary of the Dominion Football Association here yesterday.

There is only one change from the original team selected, R. McDonald, of Hamilton, being unable to make the trip owing to business reasons, his place being taken by H. Chapman, of Ladysmith, B.C.

Montreal and Toronto players will leave for Vancouver on 3rd April, and will be joined en route West by the various players selected from Western points, arriving at the coast on 8th April, where an exhibition will be played at Vancouver and on 9th April a game will be played at Victoria, the team embarking the same day on the steamship Niagara for Sydney, reaching the New South Wales city on 3rd May.

James Adams, D.F.A. Council member for British Columbia, will accompany the team as manager on the tour of the Antipodes.

The following itinerary has been arranged by the Australian Football Association: 10th to 28th May, New South Wales; 31st May to 9th June, Queensland; New South Wales to the end of June; 3rd to 10th July, Victoria; 11th to 15th July, South Australia; West Australia to 19th July; Adelaide, to 26th July; 30th July, Sydney.

On 31st July the team will sail for Vancouver, reaching there on 22nd August.

Wills' Manager Unaware of Dempsey Engagement

NEW YORK, March 29 (Canadian Press). — If the proposed heavyweight title match at Tia Juana, Mexcio, between Jack Dempsey and Harry Wills has practically been arranged, as reported, Paddy Mullins, the big negroe's manager, is not aware of it.

Mullins yesterday said he was sceptical of the statements credited to both Jack Kearns, the champion's manager, and Promoter James J. Coffroth, that negotiations were nearly completed, but hastened to admit that he was ready to match his charge with the champion under any reasonable conditions.

He has received no word from Coffroth, however, he declared.

THEATRES

AT THE CAPITOL

ALGERIAN VILLAGES BROUGHT TO HOLLYWOOD.

Replica of Streets and Bazaars Built for Norma Talmadge's "The Song of Love."

Experts Build Sets. Technicalities Followed in Exact Detail—Costs Staggering Sum to Perfect.

If Norma Talmadge will not go to the mountain, then the mountain must come to Norma.

With all his canniness, old Mohammed could have learned a lesson from the movie makers of to-day. For the founder of Islam deemed himself important to move a mountain. A film producer, on the other hand, considers the moving of a hilly eminence a mere detail in the day's activities. Whole nations, bag and baggage, are transported from the realm of fancy to Hollywood to provide the setting of a film story.

In making her latest Joseph M. Schenck-First National love tale, "The Son of Love," which comes to the Capitol on Monday, Tuesday and Wednesday next, Norma Talmadge had the sun-scorched boundaries of Algeria plucked out of the map of Northern Africa and set down in a corner of the United Studios at the behest of her director, Chester Franklin.

Algeria Transported

Transporting Algeria for "The Song of Love" was a job done with a neatness suggestive of necromancy. The entire acting was carried under the lids of four men. Meaning, of course, that the architectural and the topographical details were stored away in the minds of a quartette of technical experts, two of whom were imported from the Levant for technical consultation. For the moving picture producer's way of bringing the mountain to Mohammed is to build it in replica.

To stroll through the streets of the native quarter built for Norma Talmadge's "The Song of Love" is verily to be in Algeria. The streets of yellow, baked-mud walls and filagreed balcony windows of the picture are the streets of Algeria. The bazaars, with their heaps of rugs, brassware, perfume jars and pottery, would awaken familiar memories for anyone who has visited the actual purlieus of the country portrayed. The swarthy, long-robed natives, the veiled women, the asses, camels and children swarming the narrow twisted streets, heighten the effect of realism. Indeed, a pass through the gateway of the United Studios during the making of the picture was equivalent to a trip by Nagle Carpet.

TWO ACTS OF HIGH CLASS VAUDEVILLE AT CAPITOL

Two acts of carefully selected vaudeville will inaugurate the Capitol Theatre's new policy of pictures and vaudeville starting next Monday. The usual matinee and night performances will be given and the usual prices will prevail. The opening vaudeville bill will consist of Maples and Pach in a comedy singing and dancing act, and Hope and Mantion in a novelty musical act of unusual merit. The feature picture will be Norma Talmadge in "The Song of Love", her very latest picture.

TONIGHT IS LAST CHANCE TO SEE "THE HUNCHBACK OF NOTRE DAME"

Tonight will see the final showing of "The Hunchback of Notre Dame" at the Capitol Theatre. During its engagement here, this attraction has broken all house records for attendance. Lon Chaney in the role of the Hunchback is conceded to do some of the finest acting ever shown on the silver screen. This picture will positively not be shown again this season in Peterboro.

WILLIE COLLIER BREAKS ALL HIS RECORDS WITH "THE HOTTENTOT"

Acclaimed "Funniest in Years."

A record run of two years, playing Broadway and touring the country, was was made by Willie Collier and his company with the stage play "The Hottentot," which has been adapted for the screen by Thomas H. Ince.

The play, which was hailed by the critics as "the funniest in years," drew such tremendous crowds that the run in New York City lasted an entire year. The screen version is said to be even funnier than the play and features a spectacular steeplechase that could not be shown on the stage.

The original stage company, with Willie Collier as the star laughmaker, opened in Philadelphia in December, 1919, played a six weeks' engagement there, then went on to Baltimore and Buffalo. Opening in New York City in January, it played a steady engagement at the Cohan theatre until the following December, when it passed its three hundredth performance. From the Cohan, the company jumped to the Blackstone in Chicago; filled a three months' engagement and then went on a successful year's tour that took in all the principal cities of the United States and Canada.

With the record success of the stage play already established, the announcement of an Ince screen version of "The Hottentot" has aroused unusual interest throughout the country. The picture promises to outstrip the play in popularity.

It closes a successful engagement at the Royal to-night at 7 and 9 p.m.

AT THE GRAND

THE MAID OF THE MOUNTAINS

In the very popular musical comedy success, "The Maid of the Mountains" at the Grand Theatre to-night, the leading role of "Baldasarre," the brigand chief, is filled by Walter Greaza, that sterling artist, well known for his having appeared in leading roles in many of the biggest stage successes of the present age.

It was while attending the University of Wisconsin, he had his first opportunity to display his talents for the stage in the playlets so often presented in many of the larger universities. Shortly after graduation, Mr. Greaza felt the call of the stage more than his chosen profession, which, to attain, he had studied constantly and diligently for many years. Shortly after his premiere on the stage he was picked to fill leading roles in such well-known stage offerings as "Little Boy Blue," "Gay Young Bride," "Gypsy Trail," and other musical comedies; and it was only last year he appeared in the leading male role with May Robson in "Mother's Millions," on a tour of Canada.

His work in this leading role of this musical comedy has been lauded everywhere in terms of highest praise. He is unquestionably one of the best musical comedy artists ever to have visited Canada, and he always can be sure of a warm welcome on his future appearances in this city.

Popular prices will prevail for this engagement to give everyone the opportunity of seeing this musical favorite before it closes its season.

AT THE REGENT

"THE SOCIAL CODE" HAILED AT VIOLA DANA'S GREATEST

Metro Star coming to the Regent Theatre in Thrilling Picture by Rita Weiman.

It will be most welcome news to the film fans of this city to learn that Viola Dana in "The Social Code," her latest Metro feature, is coming to the Regent Theatre next week. Wherever it has been shown to date, "The Social Code" has been hailed as Miss Dana's finest contribution to the screen and in it she forsakes light comedy to give a remarkably clever performance in a tensely dramatic offering.

The story of "The Social Code" concerns the exciting murder of a society clubman and the manner in which two innocent women are brought into the case because of the blackmailing methods of the dead man. It is an adaptation of Rita Weiman's story, "To Whom it May Concern," one of the finest things the noted author has ever written and it is safe to say that no more absorbing drama has been seen on any screen in many months.

Sumptuous settings, showing the homes and clubs of Long Island society folk, provide an elaborate background for the thrilling story, and it permits the star to wear numberless fashionable gowns that are sure to delight the feminine eye.

Miss Dana's supporting cast is sure to find favor among the patrons of the silent drama. Malcolmn McGregor plays the leading male role, while Huntly Gordon is another prominent member. Syril Chadwick is seen as the blackmailing clubman, while Miss Dana's sister, Edna Flugrath, appears with her for the first time in several years and strangely enough enacts the role of her sister in the film.

"The Social Code" was directed by Oscar Apfel, who has a long list of successes to his credit. He has made a motion picture of unusual appeal, interesting from beginning to end, and one that the management of the Regent Theatre is particularly fortunate in being able to present to its patrons. As usual, a carefully selected programme of short subjects will be presented in conjunction with "The Social Code."

JOE JORDON
vs.
BILLY CUTT of Rochester

HARVEY SMITH
vs.
TONY MINNICOLA

RAY MILLARD
vs.
L. MINNICOLA

And Four Real Good Preliminaries.

(Auspices P.A.A.A.)

The Ring has been Set Up in the Centre of the Hall.

ALL READY FOR MONDAY'S BILL

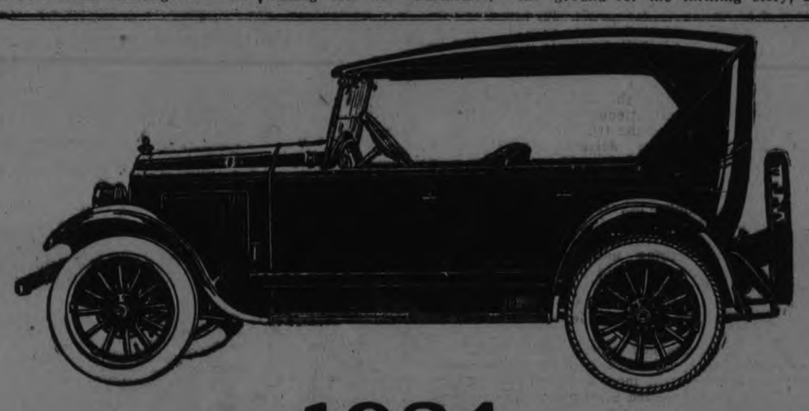
Buff and Cutt Are Here and Fans Promised Snappy Card.

There will be no dull moments in Monday's bill of boxing at the G.W.V.A. hall. Every bout promises to be brimful of action ,and the four main bouts with Willie Buff and Billy Cutt of Rochester, Lorne Combe, Joe Jordon, Tony Minnicola, Harvey Smith, Ray Millard and L. Minnicola inside the squared ring is undoubtedly the best looking card yet offered to the fans. Four preliminaries complete the bill

The fans are going to get an eye-opener when they see Buff in action, against Lorne Combe. The featherweight champion has great speed and cleverness, and is always a big drawing card in tournaments held across the line. Of equal interest is the return of Billy Cutt, who this time will have to face a hard hitter in Joe Jordon.

The Rochester boxers arrived in the city to-day.

Half a dozen Georgia girls some time ago starte da goat farm near Atlanta with a herd of 400 goats.



1924
McLaughlin-Buick Features

FOUR-WHEEL brakes are on all the 1924 McLaughlin-Buick models. These brakes make it possible for the driver to stop the car in a fraction of the time and distance required with the conventional two-wheel brakes. It also eliminates skidding when the car is brought to a halt.

Both the four and six-cylinder models have the proverbial McLaughlin-Buick stamina and ruggedness. Hill-climbing power and the ability to travel rough roads with ease are typically McLaughlin-Buick characteristics.

The 1924 cars—the finest McLaughlin-Buick has yet built—are notable contributions to the science of automobile building as well as ideal cars for owners who want the greatest value possible in return for a moderate purchase price.

There are 14 McLaughlin-Buick Models to Choose From

Parker to the position of cashier in the Peterboro Customs Office This is the first time that such an appointment has been made in Peterboro. Mr. Parker has been ten years in the service.

TOPS FOR CAR OR TRUCK.

Auto top and cushion covers of all makes and models fitted to your car; also truck tops, cushions and windows. Buggy tops recovered and repaired.

The undersigned has followed the carriage trimming trade in Peterborough for forty-five years as a specialty, and can assure satisfaction to all comers. Call at 404 George street. G. R. McCrea. s-tu.-135.

WHAT THE PACKAGE DOES

Tea growers have found from experience that it is necessary immediately to pack tea in air-tight metal-lined chests, to preserve the flavour and goodness of the leaf. Equally so is an air-tight package necessary for the small lots of tea for individual consumption. Bulk tea is always inferior tea because it is exposed to air. The "SALADA" air-tight aluminum package is the most efficient way of preserving tea known.

HELD RUMMAGE SALE.

There was a good attendance yesterday in Trinity Reid Street Hall for the rummage sale, tea, and sale of home-made cooking, held under the auspices of the W.M.S. of Trinity Methodist Church. Mrs. S. D. Carver's group supervised the tea-room and sale of cooking, with Mrs. A. Follis in charge of the tea table, prettily decorated with daffodils and pussy willows, and Mrs. A. Stenson supervising the sale of home-made cooking. The rummage sale was in charge of Mrs. R. Bugg.

A EUCHRE PARTY

The regular weekly euchre party of the Sons of England was held in their hall last evening, when an enjoyable time was spent by the members and friends present. Refreshments and community singing were enjoyed at the conclusion of the card games, for which prizes were won by Mrs. F. Parsons and Mr. Ben Robinson, with consolation awards to Miss L. Campbell and Mr. Thos. Greenwood.

AT KNOX TOMORROW.

In the morning the minister will deal with that side of Jesus' character which is often ignored, His severity. Was He ever severe? With whom? And why? Was it a defect in His character, outgrown and charitably overlooked by His church today? So it would seem, forsooth.

In the evening the subject will be, "Bolshevism in Our Churches." The Red philosophy is not confined to Russia, nor to the state, nor to the home. It raises its head to strike at all authority. Bishop and Presbyter alike hear its hiss. Is it Presbyterian? or anti-Presbyterian?

GAVE EUCHRE PARTY.

An enjoyable euchre party and dance, with an attendance that filled their hall, was held by the Woodmen of the World last evening. Excellent music for dancing was provided by Messrs. Follis and Tucker Prizes for euchre were won by Mrs. L. James and Mr. J. Cullen, with consolation prizes won by Mrs. Powell and Mr. D. Quinlan.

"LITTLE THEATRE CLUB."

Rehearsals are now in progress for the production by the "Little Theatre Club," under the direction of Mrs. W. McKee Bingham, of a short play entitled "Melange," written by Miss Kathleen McCarthy (Jeanette.)

The play will be produced at the Capitol Theatre, April 7th, 8th and 9th, and is already attracting much interest and atention.

CHIMNEY FIRES.

Yesterday afternoon was very busy for the firemen, they answered three calls during the afternoon, two being chimney fires and a third a chimney and ceiling being set on fire by overheated pipes that were too close to the ceiling. The only damage done was at a fire on Hilliard Street where the ceiling caught on fire. The first call was at 12.03 to a chimney fire at 120 Hilliard Street. Chemicals were used and there was a slight damage. The next call was to a chimney fire at 1 p.m. to a small chimney fire at 208 Lansdown street. Chemicals were used and there was no damage. At 5.27 they were called out once more to 236 Rubidge street to a chimney fire. No damage.

FUNERAL FRIDAY

The funeral of Frank J. Murray, took place on Friday morning, from his home 254 Reid street, at 8.30 o'clock and from St. Peter's Cathedral at 9.00.

Mr. Murray's death was a shock and loss not only to his immediate family, but to the whole community and the high esteem in which he was held was well evidenced in the concourse of people who visited his home from the moment word was given out of his death.

Delegations of Prayer Societies led by Sisters from the schools which his children attended paid their respects during the two days. In the evening hours delegations from the Ladies' Societies, Choir and Sodalities, while late on in the night, bodies from the Knights of Columbus, Catholic Foresters, and Holy Name Society and citizens in general paid their last respects to the man who of a retiring unassuming disposition was nothing but a wonderful citizen a true friend an indulent husband and father whose home and family are his pride and joy.

Long before the bell tolled the great cathedral was filled only reserving pews for the mourners, the crowd being augmented by the Peterboro Mfg Co., who closed their doors to pay their respects. The cortege passed through a guard of honour of Knights of Columbus, Catholic Foresters and Holy Name to the strains of the beautiful hymn "A Message to the Sacred Heart" sung by the Cathedral Choir which was assisted in the mass proper by the Chancel Choir directed by Father Finn.

Mr. Murray leaves to mourn, his wife Mrs. Emma Kearns Murray, daughters Lorette, Florence, Frances, Stella and Genevieve. Sons Joseph and Richard, brothers: Bernard of Downeyville, P. J. of Flint, Mich, and Thoma of Portland, Oregon; sisters, Mrs. K. M. Lynch of Peterboro, Mrs. Thomas Clancy and Mrs. J. J. Fox of Downeyville and Miss Anna Murray of Rochester, N. Y. and a host of friends.

BOY STRUCK BY AN AUTOMOBILE

Driver of the Car Failed to Report and Police Action Will Follow.

Yesterday evening at five minutes to five a young men driving a Ford car on Park street, opposite the residence of Dr. M. A. Morrison, knocked down and ran over a young boy. The driver of the car did not report the circumstance and the Examiner finds on enquiry at the Police station that the driver did not make a report to the police. This is contrary to the Motor Vehicles Act and will result in police action in order that this young man may be made betted acquainted with the rules and regulations of the road and the public protected. The injured boy will recover.

Stenhousemuir 0, Vale of Leven 1.

BELFAST, March 29.—(Canadian Press).—Queen's Island defeated Willowfield 1 to 0 in the final for the Irish soccer championship played here to-day.

CARD OF THANKS

Mrs. Michael Cadigan wishes to thank the Sisters and nurses of the St. Joseph's Hospital, Dr. F. P. McNulty, Quaker Oats Company for flowers and the neighbours and friends for the kind sympathy they gave her husband in her recent bereavement.

IN MEMORIAM.

WARREN. — In loving memory of Doris Catherine Warren.
And with the morn her angel face will smile,
Which we have loved long since but lost a while.
—Inserted by her aunt and cousin, Mrs. M. Farthing and Lillian.

IN MEMORIAM.

In loving memory of Doris, beloved daughter of Mr. and Mrs. J. Warren, who departed this life on March 30, 1920:
In sorrow we waited day by day,
And watched her suffering there,
Slowly but surely passing away,
From the pain she scarce could bear.

And then God called from His throne above,
Her sufferings and pain are past,
We know she has gone to realms of love,
And in heaven has peace at last.

It is not the tears at the time that are shed,
That tells of the heart that is torn,
But the passionate tears, in after years,
And remembrance silently borne.
—Ever remembered by Mother, father, and sister, Violet.
1d77-1568

IN MEMORIAM.

McGRATH—In loving memory of Mrs. David McGrath, who departed this life March 29th, 1923.

'Tis sweet to know we'll meet again,
And some day understand
Why the angels came and took our friend
Away to a better land.

A land where the richest flowers grow,
Sweet flowers of every clime;
And ever-living waters flow
Fed by a power divine.

And on that morn
A wondrous light we'll see;
Our friend, a beautiful angel,
Calling to you and to me.

Like the lilies at Easter-tide, such was her life—pure and beautiful.

—Billie and Bobby Harrison, Sault Ste. Marie, Ont.

MANY DEAD FROM THE STORM AREA

Eight Persons Killed at One Place by a Windstorm.

KANSAS CITY, Mo., March 29 (United Press). — A check-up today in the wake of the tornadoes and electrical storms which swept Kansas, Oklahoma, and Texas late on Friday disclosed 15 or more reported dead, 200 injured, and heavy property damage throughout the three states.

Heavy rains following the tornadoes made relief work difficult and caused additional suffering.

Detachments of the National Guard were ordered out in Kansas and Oklahoma and other relief parties were pushing into the storm-ridden area.

Heaviest loss was reported at Shawnee, Okla., where eight were killed by the wind storm which swept a path one block wide and four blocks long, through the residential district of the town.

Two hundred homes were destroyed.

FURTHER DAMAGE.

CHARLESTON, Mo., March 29 (Canadian Press). — Three persons were killed, fifteen injured, and many miles of telephone wires and other property damaged in the windstorm which swept through southeastern Missouri at two o'clock this morning.

Society

Mr. and Mrs. S. Oldham, Peterboro, wish to announce the engagement of their daughter, Hilda Mae, to Mr. Alexander Roderick Munro of Hamilton, the wedding to take place in Toronto.

At the conclusion of the business session of the Peterboro Ladies' Curling Club, who held their annual meeting yesterday afternoon, the ladies spent a social hour, when afternoon tea was served from a table prettily centred with red cyclamen. Mrs. W. J. Oke poured tea. Mrs. H. O. Fisk, convenor of the social committee, was assisted by Mrs. J. H. Vernor, Mrs. R. A. Carmen, and the Misses Laura Belleghem, Lillian Green and Marguerite Fanning.

Mr. and Mrs. G. W. Fitzgerald are spending the week end with friends in Lindsay.

Friends in the city of Mr. Bradel, a former resident of Peterboro and foreman at the Colonial Weaving Company, will regret to learn of his death. Mr. Bradel was identified recently with the Canadian Label and Webbing Company of 9 Morrow avenue, Toronto.

GIRLS! LOTS OF BEAUTIFUL HAIR

35-Cent "Danderine" Does Wonders for Lifeless, Neglected Hair.

A gleamy mass of luxuriant hair full of gloss, lustre and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

Falling hair, itching scalp, and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated, taking on new strength, colour and youthful beauty. "Danderine" is delightful on the hair; a refreshing, stimulating tonic —not sticky or greasy! Any drug-store.

Telephone Tonight Before the Supply is Gone

A carload of good maple and beech hardwood, cut in stove length, which we advertised earlier in the week, was delayed for some unavoidable reasons and did not arrive until last evening. While it lasts we will sell this wood from the car at ten dollars a cord. Get your order in to-night and make sure of getting a supply.—W. H. Baker, Peterboro Planing Mill. Telephone 1452J.

WEDDING BELLS

JOHNS—LLOYD.

On Friday afternoon, March 28th, at the house of Evangelist A. G. Bentley, 378 Stewart Street, a quiet but pretty wedding took place when Mabel Lloyd was united in marriage to George Edward Johns. The bride was attired in silver grey satin, and carried a bouquet of roses. She was attended by her sister, Miss Ada Lloyd, in blue satin, carrying carnations. Mr. Alex. Johns, brother of the groom, acted as best man. Mr. and Mrs. Johns will reside in Toronto.

The marriage ceremony was conducted by Evangelist A. G. Bentley.

She Always Keeps Them in The House

Ontario Lady Recommends Dodd's Kidney Pills.

She Says They Are An Excellent Remedy for Lame Back.

DUNBAR, Ont., March 28.—(Special)—"I have been a user of Dodd's Kidney Pills for twenty years and find them good for lame back." Such is the tribute Mrs. A. Barkley, a well-known and respected resident here, pays to the old Canadian kidney remedy, Dodd's Kidney Pills.

"I recommend them to everyone, and am never without them in the house."

All that is claimed for Dodd's Kidney Pills is that they are a kidney remedy. They heal and strengthen the kidneys. They are used to treat rheumatism, dropsy, backache, urinary troubles, diabetes, and heart disease, because all these ills are either of the kidneys or caused by diseased kidneys.

Women's troubles, or nearly all of them, come from sick kidneys. Dodd's Kidney Pills will relieve kidney trouble, no matter where or in what form it is.

IN MEMORIAM.

FAMILY OF FIVE SWEPT TO DEATH BY FLOOD THAT UPROOTED TREE IN WHICH THEY SOUGHT SAFETY

Potomac River Bursting Its Banks Reported to Have Carried Off Six Other Victims, Members of the Same Family Engulfed With Their Home--Score of Blocks in Pittsburgh Inundated By Swollen Head Waters of the Ohio River—Trains Stalled, Tracks Damaged and Many Families Homeless

TRAIL OF WRECKAGE COSTS MILLIONS

KITZMILLER, Md., March 31.—(Canadian Press).—Five persons, members of an entire family, were drowned Saturday when a tree to which they were clinging was uprooted and swept away by the flood waters of the Potomac River. Two of the bodies were recovered Sunday.

The victims were Mr. and Mrs Samuel Beeman, their two children and David Beeman, grandfather of the children. They had left their home when it was flooded and had sought safety in a tree. The force of the current with their added weight uprooted the tree and swept it away. The bodies recovered were those of the two children, a girl and a boy.

Fifteen homes in this town were carried away by the flood. The bank building was the only structure left intact in the business section. A 100-foot bridge connecting Kitzmiller and Blaine, W. Va., was moved from its foundation, but not swept away.

Sir Reported Drowned.

CUMBERLAND, Md., March 31.—Six persons, composing an entire family, were reported yesterday as having lost their lives at McCoole, Md., 280 miles west of here, when their home was swept from its foundation and carried down the Potomac river. The family consisted of Mr. and Mrs. John Devilbliss and their four children. All wires into the town were broken by the flood and the report could not be verified.

Pittsburgh Flooded.

PITTSBURGH, Pa., March 31.—A score of city blocks in the lower sections were inundated and sections for several miles up-stream laid waste when both the Allegheny and Monongahela rivers, meeting here to form the Ohio, left their banks Sunday in Pittsburgh's greatest flood in ten years. No loss of life was reported.

The crest of the flood was reached at 1 o'clock Sunday at 29.2 feet, seven feet above the flood stage. A slow recession began at dusk.

Traffic Delayed.

Railroads following the courses of the various rivers were greatly affected. Baltimore and Ohio lines between Pittsburgh and Baltimore were under water at various points and trains were re-routed over the Pennsylvania to Baltimore, where they proceeded on their own lines. Traffic was delayed for 24 hours over the Pittsburgh and Lake Erie lines through the Monongahala Valley and the flooding of the Pittsburgh terminal tracks caused trains to be re-routed at McKeesport to the Baltimore and Ohio tracks and run into Pittsburgh terminal of that road. A landslide occurred on the Monongahela division of the Pennsylvania, but was cleared away within a few hours.

Business Suffers.

Thousands of basements in the affected area were flooded and many industrial plants along both the Monongahela and Alegheny rivers will be forced to suspend operations until damage wrought by the flood can be repaired. Rowboats and canoes weer pressed into service to establish communiction between flooded districts and to remove marooned residents. At McKeesport several streets were under six feet of water. At Dravosburg, near McKeesport, six hundred families fled from their homes when the water reached the second floor.

Tide Subsiding.

Cumberland, Md., March 31.—The flood waters of Wills' Creek and the Potomac river were returning to their channels to-day, leaving scenes of desolation in their wake. Only one small section was under water in the city proper and the water was receding rapidly. Ridgeley and Dixie, however, two towns on the West Virginia side of the Potomac, remained inundated as was a wide area in the lower Potomac Valley.

Great havoc was wrought by the flood. Many miles of railroad track were washed away, two big steel bridges and a number of smaller structures were destroyed, while hundreds of buildings and houses were damaged and in some instances washed away.

Preparations were under way for relief work but it was believed that local organizations would be able to handle the situation. Until the plans for relief work are perfected those in need were being cared for by the pople of their respective communities.

Trains at Standstill.

Railroad traffic in and out of Cumberland was at a standstill. Five Baltimore and Ohio passenger trains, including the Capital Limited, were flood-bound at various points, while one Western Maryland train was stranded three miles west of Keyser, West Virginia. The passengers from that train spent the day at Keyser.

Cumberland was without light or power again last night, owing to the failure of the power plant during the flood.

Members of Company G, of the National Guard, were assisting the police in patrolling the streets. Every member of the police force has been on duty since Saturday with short rest periods. Food was being served to them by the local Red Cross chapter.

Damage of Millions.

Mayor Thomas W. Koon placed an estimate of $1,000,000 upon the individual property damage in Cumberland and $200,000 upon damage to the city streets. The damage to railroad property was estimated at at another million dollars.

HEAVY PROPERTY LOSS.

KANSAS CITY, Mo., March 31 (Canadian Press). — The number of known dead from the severe storm that swept south-west on Friday stood at fourteen last night with the total property damage running into hundreds of thousands of dollars.

Hundreds of persons were injured. Eight lives were taken by the tornado that ripped across Central Oklahoma, centering at Shawnee.

Other cities that reported heavy property damage were Enid, Guthrie, Frederick, Noble, Hillis, and Holdenville.

The known dead in South-eastern Missouri increased to five yesterday, with one expected to die and unconfirmed reports of four others having perished.

Dead in Missouri include a a woman at Cape Girardeau, a woman near Sikeston, an infant near Charleston, and an unidentified negro.

Benjamin Wintroub was killed at Shelbina, Mo., when a brick wall, left standing from the fire, blew over on him.

In Kansas and Texas several persons were injured and considerable property damage done.

TOLL OF 13 LIVES.

PITTSBURGH, Pa., March 31 (Canadian Press).—Floods in Pennsylvania, West Virginia, and Maryland caused by warm rains and by melting snows in the mountains have devastated a wide area in those States last night, taken toll of 13 lives, and caused millions of dollars damage to property.

After having flooded, an area of 175 miles, extending from its head waters at Gorman, Md., to Harper's Ferry, West Virginia, with greatest damage done at Cumberland, Md., the Potomac River was rapidly returning to its channel.

Western Pennsylvania district, Monongahela and Allegheny Rivers, meeting here to form the Ohio, swept over the lower sections of their valleys, and the Youghiogheny River, coming down the Allegheny Mountains, floored the section extending from Connellsville to McKee's, a short distance of 40 miles.

The Ohio River here reached the stage of 29.2 feet, 7 feet above the flood stage, but was receding last night at the rate of one-tenth of a foot an hour.

Cities along the Ohio River, however, were preparing for flood waters to-day.

An entire family of five persons was drowned at Kitzmiller, Md., three children lost their lives at Melcroft, Pa., and another child was drowned at Johnstown, Pa., while a father and mother were drowned rescuing their children at Pittsburg.

Other flood casualties occurred at Connellsville and Newcastle.

Mayor Quits Golf As Sunday Example

Noon Design

PHILADELPHIA, March 31.—Mayor Kendrick will play no more Sunday golf, according to the Rev. Dr. W. E. P. Haas, Assistant Secretary of the Philadelphia Conference of the Methodist Episcopal Church.

In a discussion of Sunday laws at the conference today in Lancaster Dr. Haas, who is pastor of the Wharton Memorial Church said:

"Recently the Mayor told me he could no longer conscientiously play Sunday golf, because he felt as a city official he should set an example by obeying all laws."

DENVER KLAN WAS ATTACKED

Riot Squads of Police Called Out Early Sunday Morning—Ku Klux Bill Peddlers Met Opposition.

DENVER, Colo., March 31—Police riot squads were called out early Sunday morning to quell a riot at Ninth and Downing Streets, in the Capitol Hill district. Approximately 200 men and boys were engaged in the fighting during which several shots were fired. It was reported to police that men distributing handbills favorable to the Ku Klux Klan were attacked by citizens who are opposed to the organization.

A ROUGH PASSAGE PREMIER POINCARE

Premier Was Not His Old Fighting Self

(By Webb Miller, United Press Staff Correspondent).

PARIS, March 31.—Premier Poincare received a reception from the Chamber of Deputies to-day, when he read his Ministerial declaration and presented the new Cabinet.

Frequent interruptions and laughter came from the Left benches.

Poincare was not his old, fighting self. His hands trembled, and he appeared noticeably overstrained.

Angry at his interrupters, the Premier stopped reading. "Name of a dog," shouted Deputy Lacotte, Radical leader. "Cannot we laugh?" Poincare retorted that he would reread his sentences each time there was an interruption. There were plenty of these, and at one time he read a phrase seven times. The white-bearded little statesman shook with rage as the Radical deputies ridiculed his announcement of the new Ministers, because four of them were Poincare's opponents, and politicians feel he has made a political compromise. When the reading was over, the Premier concluded that the Chamber postpone the interpellations, which were on the lips of the Opposition leaders, until to-morrow.

The deputies finally agreed to this, and agreed to the discussion of provisional credits which are badly needed by the devastated regions.

Scattered applause greeted Poincare's remarks on occasions, and really hearty applause when he referred to the continuance of the Ruhr policy.

The continuance of the foreign policies of the preceding Government and drastic domestic economy were the keynotes of Premier Poincare's Ministerial declaration. High spots of the declaration were: "France's greatest desire is to reach accord with her allies and associates on the two questions on which her future depends, reparations and security."

"The day the treaties are fulfilled and France has obtained reparations and security she will be the first to give an example of magnanimity."

"Let peace be given to-morrow and we will march with great haste towards the new sun the world has waited for so long. We must not introduce the slightest germ of inflation into our finances. We have creditors as well as debtors, and until a concerted settlement intervenes the situation demands attentive reserve."

LIGHTNING PUT OUT LIGHT AND STRUCK HOUSES

One Verandah Wrecked and Twelve Windows Smashed-- Fuses Blew Out in Sub-station.

LASTS TWO HOURS

A severe electric storm swept down on Peterboro on Saturday evening, doused the city lights for two hours, wrecked a verandah and did other damage and swept on its way to strike barns and buildings in the country districts. The worst sufferer in the city was Herbert Johnson, whose at 658 Aylmer Street was struck about 6.30. The bolt carried away an end of the verandah, smashed twelve windows, burned up a wire clothes line and knocked plaster from the interior walls. The telephone was put out of commission, and all the fuses in the house were burned out. Where the bolt struck the wall it left a scorched mark but failed to set fire to the woodwork.

Mr. Johnson, who served overseas, likens the affair to the arrival of a 5.9 sheil, and says the effect was about the same. He was seated at supper with his family when the lightning struck, and considers it a miracle that no one was hurt.

An electric stove was struck in the home of George Roy Powell on Cricket Place, without much damage and in another house the curtains were torn from an attic window.

Two Switches Blown.

In the sub-station behind the Peterboro Cereal Company the lightning blew out two switches, plunging the city into darkness, and set the wood cornice afire. Considering the amount of damage done, good time was made in repairs, the men transferring the two circuits in about two hours and restoring the service about 7.30.

Meantime early Saturday night shoppers did their business by candle light and lamp light, and vendors of candles did a better business than in several months. At least one family which depends upon an electric stove for cooking purposes was compelled to seek a meal in a restaurant after waiting an hour for the power to be turned on.

LOCAL MAIL MEN FIRM IN DEMAND

Only One Man on Local Staff Voted Against Strike -- Believe Their Claim is a Fair One.

Asked by the Examiner to-day regarding the threatened postal strike, Postmaster John Corkery deprecated the probability of such an event. The question of salaries is now in the hands of a commission, he said and an adjustment will probably be satisfactorily made.

The objection of the men is levelled at the bonus system, whereby an amount is added to the salary, based on the amount of the salary. The men would prefer a straight salary, and contend that with the cost of living at its present height the amount of wages should not be decreased.

In conversation with a mail carrier later the Examiner was informed that only one man in the postal service of Peterborough voted against the strike in the event of its being necessary to safeguard their interests. The vote was taken last week.

There are seventeen routes in the city, ochupying seventeen regular men and three spare men; two parcel post carriers, and others, making a total of about 25 men. This informant said the railway mail clerks, the post office clerks, who have their own union, and even the locomotive engineers, are solidly behind the carriers in their protest against a decrease in salaries.

"We don't want to strike," this man said, "but with anything less than we are now paid life would not be worth living. Or this job a man has no cushioned seat for his old age. When he reaches a certain time in life he must give up the work."

Fairs of Kent County Decide to Co-operate.

CHATHAM, Ont., March 31. — A Kent County Fairs Association was organized at a meeting here Saturday afternoon, with W. C. Sturgiss, Dresden, president.

Other officers were: Vice-President Mos. Roe, of Merling; Secretary-Treasurer, J. Webster, of Florence.

The object of the association, is to standardize the price of admission to be charged at the various county fairs as well as the attractions to be offered.

Escaped Convict Soon Overtaken

KINGSTON, March 31.—(Canadian Press).—William Hubert Jones, a convict at the Portsmouth Penitentiary who has served nearly a year of a two and a half year sentence received at Brampton, Ont., made an unsuccessful attempt to escape at 2.30 on Saturday afternoon while working outside the walls of the penitentiary as a member of the prison farm gang.

The gang were at work in a old stone quarry, Jones getting through the fence and seeking cover in the surrounding bush. Officials at the pentitentiary recaptured the convict after he had been at liberty only about thirty-five minutes, Jones allowing himing himself to be taken back to the institution without offering resistance. An investigation into the incident is being held by pentitientiary officials.

CANADA LACKS FAITH IN SELF

Is Country Too Big, Asks Hon. Frank Oliver, Or Are People Too Little—Finds Evidences of Doubt and Pessimism.

MONTREAL, March 31 (Canadian Press). — "Is it because Canada is too big or because the people are too little that whispers of fear and lack of confidence characterises so many men of affairs to-day?" asked the Hon. Frank Oliver, addressing the members of the Montreal Reform Club here on Saturday.

As a member of the Railway Commission, Mr. Oliver said he could not talk politics. He expressed anxiety at the "lack of confidence in themselves and the lack of faith in the country by many of those who come before the Railway Commission in all parts of the Dominion."

Mr. Oliver charged that the men of to-day seemed to be so obsessed with the idea of difficulties on every hand that they looked upon the future with pessimism. In the old days of the North-West Company, the merchants were men of faith and courage.

"You cannot," he concluded, "carry on the business of a country like Canada as if it were a parish, when it should be done in the Empire way. The country's affairs must be handled by big men in a big way."

SWALLOWED NAILS AS A PROFESSION

William Bartell, However, Bit off too Much When He Included a Spike on Saturday--Seriously Ill

CHICAGO, March 31.—(Canadian Press).—Two hundred and seventy-five individual objects were taken from the stomach of William Bartell, "professional swallower," in an operation performed by Dr. Max. Thorek, at the American hospital yesterday.

The surgeon's official inventory follows: Upholstery tacks 1, nails 110, nuts 2, screws 3, tack-heads 4, parts of safety pins 65, whole safety pins 12, paper clips 22, bolts 4, curtain hooks 1, can openers 1, beer checks 1, washers 2, cartridges 2, dimes 1, thumb tacks 32.

The list, according to Dr. Thorek, does not include "crockery, glass or brick."

Bartell was taken ill with peritonitis after swallowing a spike at the Logan Square Theatre on Saturday night. The spike penetrated the wall of his stomach. His condition is regarded as serious.

MONTREAL PAYS TRIBUTE TO NEW FRENCH CONSUL

Baron de Vitrolles Welcomed at Banquet Saturday Night By Representatives of State and Church —Ties With France Still Strong.

ENCOURAGE TRADE.

MONTREAL, March 30. — Canadian Press. — State and church, representatives of Montreal's higher educational movement, citizens prominent in the business and social life of the community and representatives of the bench, joined in welcoming to Canada the new Consul-General of France, Baron de Vitrolles, and Madame de Vitrolles, at a banquet here on Saturday night.

Senator Dandurand in greeting the new Consul said a new epoch for Canada was dawning as illustrated by the fact that soon the Dominion was to send a representative to Washington.

Premier Taschereau said those of French descent in Canada wished to keep intact the ties that bound them to France, and had done so, otherwise how could the French-Canadian miracle, be explained. Another link with France was the sixty thousand Canadians fallen in the war, who sleep on French soil. For our wheat paper, pulp, asbestos, cheese and fish he hoped France would send to Canada objects of art, beautiful creations for the use of women, and also the wines of France, if he might say so without offending the president of the temperance league present, Chief Justice Lafontaine.

Archbishop Gauthier told of the interest which P. E. Naggiar, Baron de Vitrolles' predecessor, had taken in educational matters in Montreal, and hoped the new consul-general would continue that interest.

Senator Beaubien told of his experiences on the Canadian exhibition train through France and of the reception accorded him there.

Among those present were: Hon. L. A. David, Mr. Justice Surveyor, Mayor Joseph Beaubien, Senator Beique, Senator Casgrain, Right Hon. C. J. Doherty, Mr. Justice Archer, Fernand Rinfret, M. P., and Hon. George A. Simard.

TWO NEW MEMBERS ON HARBOR BOARD

A. O. Hogg and A. A. Mulholland Appointed by Dominion Government.

TORONTO, March 31. —(Canadian Press.)—A. O. Hogg, immediate past president of the Toronto Board of Trade, and A. A. Mulholland, retired business man and prominent Liberal of this city, have been named for appointment by the Dominion Government to the Toronto Board of Harbor Commissioners. The appointments have received the approval of Honorable George P. Graham, Minister of Railways, and will be formally passed by the Dominion Cabinet at a meeting called for to-day. The naming of Mr. Hogg was, upon the recommandation of the Toronto Board of Trade. The appointment of Mr. Mulholland is direct from the Dominion Government.

BRITISH ROUND THE WORLD PLANE DELAYED

(By Anthony Papayannakis, United Press Staff Correspondent).

ATHENS, March 31.—The British round-the-world flight plane was down to-day, after a forced landing in Lake Saint Mathew on the Island of Corfu.

Major Stuart MacLaren, the flight commander, was understood to be rushing the minor repairs to the big amphibian Napier Vickers machine in the hope of being able to proceed to Athens. The plane was flying from Rome to the Greek capital when it was forced down while over Corfu.

The Island of Corfu is a Greek possession in the Ionian Sea, a short distance off the mainland, where Greece and Albania meet. It was recently seized by Italy in reprisal for the murder of an Italian commission in Epiras.

EYES DESERVE PROTECTION

Why go on straining them? Eyes behave better and last longer when taken proper care of, besides the added comfort of using the right glasses when needed. See W. H. Lacey, Optometrist, 410 George St., Phone 1160.

Intoxicants May Be Fed to Cattle

CORNWALL, Ont., March 31.—(Canadian Press).—Cattle are entitled to eat intoxicants testing 14.35 proof alcohol, according to a ruling handed down by Magistrate Clines here Saturday.. A preparation of molasses used by farmers in this district for making straw and marsh hay more palatable for cattle was found to test 14.35 per cent. proof spirits. As a result Antoine St. Onge, farmer, Clengarry county, appeared in police court here Saturday, afternoon, charged with trafficking in intoxicants. Magistrate Clines, however, dismissed the case on the ground that no proof had been submitted that the mixture was being used for any other purpose than that for cattle feed.

LIGHTSHIP HIT BY FREIGHTER

Dragging Itself to Staten Island With Great Hole In Port Quarter—Struck By British Vessel In Fog

NEW YORK, March 31 (Canadian Press). — Rammed by the British freighter Castilean in a fog yesterday afternoon, the Fire Island lightship, with a gaping hole in its port quarter, was proceeding to Tompkinsville, Staten Island, accompanied by the steamer Dorothy Luckenbach, the coastguard cutter Gresham, and the lighthouse tender Spruce, all summoned by an S.O.S. call.

Damage to the Castilean was not known.

Sunday afternoon radio programmes were interrupted when naval communications ordered all broadcasting stations to "clear the air" following the receipt of the S.O.S., which indicated that the lightship was sinking with 15 men aboard.

It was stated at Naval Communications that the lightship would not sink unless caught in heavy weather before it reached the shore.

The crew of 15 men were not taken off, but were in no danger because of the escorting vessels.

The Castilean, owned by the Westcott and Laurence Line, a British company, left Boston on Saturday for New York. She is 331 feet long and has a gross tonnage of 3,067.

FATHER AND SON KILLED BY TRAIN

Driving to Church When Express Crashed Into Their Buggy -- Horse Killed Too.

ST. THOMAS, March 31 (Canadian Press). — Michael Briody, well-known Aldborough farmer, aged about 45 years, and Thomas Briody, his son, aged 12 years, were struck by a Michigan Central passenger west-bound train No. 47, on the second level crossing east of West Lorne yesterday, and instantly killed.

The victims were driving to the Roman Catholic Church in West Lorne in a buggy, and evidently did not see the speeding train until it was on them.

The horse was also killed, and the buggy demolished.

The bodies were thrown some distance by the engine.

There is a clear view of the tracks at the crossing.

Mr. Briody was popular in the district. He is survived by his wife and daughter.

FIRE DESTROYS HOME IN VICTORIA COUNTY

KING'S WHARF, March 31.—On Saturday fire destroyed the home of Michael Murphy, who resides near here. Mr. Murphy was away at the time, and when discovered, the fire was burning through the roof. Neighbors turned in and saved the barn.

SENATOR'S WIFE GOING BACK TO FARM AND WORK

Mrs. Magnus Johnson Happy to Leave Washington and the Official Life She Found Impossible to Like—Home For Spring Planting.

MAGNUS TO "BACH."

WASHINGTON, March 31.—Senator Magnus Johnson of Minnesota, is about to become a "bachelor." That is to say, Mrs. Johnson finds it impossible to get accustomed to this climate and she has decided to gather up the "little Johnsons" and go back home to their farm.

She will leave Tuesday so as to reach home in time for the Spring planting. She will leave "Magnus to shift for himself," she said.

Plans to Cook

The Senator has made no plans "for a home or habitation" while Mrs. Johnson is away. He said he will probably get a small apartment and "go it alone, doing his own cooking."

For some time Mrs. Johnson has been discontented with life in Washington. In the first place, she had much trouble in keeping the furnace going in her little bungalow at Takoma Park, a suburb. She had never used coal, and on more than one occasion she let the fire get out, with the result that waterpipes were frozen, causing much trouble and inconvenience, said: while we have colder weather in Minnesota than we had here this winter, we were always able to keep warm out there by burning wood. This is the first time that I ever used coal, and it cannot compare with wood as a fuel.

Mrs Johnson Pleased

Mrs. Johnson is looking forward to her return home with the enthusiasm of a school girl. When she came here last December to take her place among the Senate ladies, it was the first time she had been away over night from the farm. She said she has tried her best to fall into official life, here and to became a part of it, but finds it impossible.

All sorts of efforts have been made by the Senate ladies to make Mrs. Johnson happy and contented while here, but their efforts were in vain.

While all the Cabinet members' wives and the wives of Senators and others high in official life here called on her, she returned few calls In her home she was gracious and hospitable, but she made no secret of the fact that she did her own washing.

THE WEATHER.

We had a varied assortment of weather over the week-end—hail, rain (freezing as it fell), snow and sleet, to the accompaniment of thunder and lighting. This (Monday) morning was quite sharp, the thermometer showing 9 degrees above zero. This is cold, but a year ago this morning it was 3 below. A year ago to-morrow was Easter Sunday. It was a genuine winter day, 4 below zero, with good sleighing and 15 inches of snow on the ground.—W.P.

Because she is teaching her pupils that the earth is flat, Mrs. C. E. Critchlow, a Palm Beach, Fla., school teacher, has been asked to resign.

But They Did See Cupid!

Junius Connors, hand soap salesman and newspaper vendor in New Orleans, gave a lecture one day at the Mississippi School for the Blind. He told how he, though sightless, had won his fight. After his talk, he confided to an instructor how mighty lonely he was. The instructor gave him the names of several blind pupils to whom he might write. One was Katie Blackledge of Bethel, Miss. Now John and Katie have a little "love nest' in New Orleans. They're spending their honeymoon there.

PRESENT GOVERNMENT IS NOT STABLE ENOUGH

TORONTO, March 31 (Special to The Examiner). — A London cable says: "There exists the belief in some sections of Labour, and almost universally outside of Labour, that the MacDonald Cabinet is not strong enough to weather the coming storm.

In this case dissolution, with a general election, is not far off, and may be fought out in accompaniment to big strikes and lock-outs.

Former Premier Baldwin is evidently of this latter opinion, as in a telegram to the conference of the Yorkshire Unionist Clubs yesterday he said:

"The Conservative Party is the present bulwark against revolutionary Socialism. I look to our Yorkshire clubmen to do their duty to the King and country in our coming fight."

"This language is usually used by the party leader only on the eve of an election, and personally I believe the chances are even that Premier MacDonad will not last more than another six weeks, if so long, in office.

WHOLE WORLD TO HEAR KING GEORE'S ADDRESS

LONDON, March 31 (Canadian Press). — King George will deliver an address that is expected to be heard around the world at 11.30 a.m. (Greenwich time) on 23rd April, when he will formally open the British Empire Exhibition at Wembley.

For the first time in English history the actual voice of the monarch will be broadcasted and heard simultaneously in the homes of hundreds of thousands of his subjects who have seen him in public, but have never heard him speak, and by hundreds of thousands of others who have never even viewed his Royal person.

The King's actual speech may not carry to the ends of the Empire by wireless, but the undersea cables will take his message where the air waves fail.

As soon as the words leave his mouth they will be flashed from a special station in the Exposition grounds along the all-British cable route across Canada to New Zealand and Australia, thence to India and South Africa, and back to Wembley, thus encircling the world, the Imperial cable stations completing the circuit within five minutes.

WARKWORTH RUMORS OF GRAFT IN HYDRO BOND SALE PROVED BASELESS

Village's Intention to Issue Debentures Was Read By Toronto Bond House in the Peterboro Examiner — Debentures Are Unsigned Awaiting Audit of Village Hydro Commission's Books.

ELECTION ISSUE.

(By a Staff Reporter).

WARKWORTH, March 31. — Probably no comit..nity ever had as hard a fight to secure the benefits of Hydro as did the police village of Warkworth. It was an ambitious move for so small a place, and the first problem was to convince the Hydro Commission that it could be made to pay. A transmission line had to be built from Bradley's Corners, about five miles away. Then there was opposition both within and without the village, the situation being specially peculiar owing to status of Warkworth, the management of those affairs of importance was really in the hands of the Township Council, on which the village had no representative.

In order to get Hydro power and light it was necessary for the village to incur a debt of $11,000, to be provided for by a debenture issue, the bonds to be guaranteed by the township as a whole. There were not lacking persons in the rural sections who, perhaps for lack of understanding of the situation, contended that the township residents were required to help pay for the "great white way" of the village. The guarantee of the bonds was a mere formality. Warkworth has an assessed value of $80,000, probably about half of its real material worth, and not a cent of debt outside these debentures. There was little danger of the village, one of the wealthiest in Ontario, defaulting; and as soon as it was settled that the bonds were to be issued, a purchaser appeared.

The Bond Issue.

This Hydro problem has figured in the municipal elections in Warkworth for years, and the fight was waged with more than the usual bitterness last January, when all but one member of the council were defeated. The bond question is still acute here. It is claimed that the township Council had no right to dispose of the debenture—that this was a matter that belonged to the village commissioners. The bonds were disposed of by private sale instead of being advertised, and there was objection to this also. That an audit of the books of the commissioners was demanded, and this is now being made by order of the Council and is still in progress. The report of Auditors Bowen and Smith will be presented to the Council at the next regular meeting on April 7th.

Ex-Reeve Hermiston Speaks.

Ex-Reeve Hermiston says that while last year's Council may have erred in some details, yet, in the main, their action was legal. The Council had to issue debentures when the villagers asked that this be done. The law, he says, is clear on that point. The bonds were disposed of at private sale without the expense and delay of advertising, because it was felt that the price offered by a representative of the Bird, Harris Company, of Toronto, 105, their first bid being 102, was considered the best that could be obtained even if the issue had been advertised. Township solicitor I. A. Humphries, of Campbellford, was consulted, and the Council was guided by his advice in every step which they undertook.

It was found that the time required between the second and third reading of the by-law providing for the bond issue, had not been allowed to elapse by the Council of 1923; so to make everything legal, the new Council were required to give the by-law a third reading. Now, Reeve McCubbin and Treasurer Bryce refuse to sign the by-laws until the audit above referred to is completed. A petition, signed by sixteen of the ratepayers of the village, having been presented to the Council asking that this action be taken.

Village Saving Money.

The bonds bear interest at the rate of 6 per cent. As the issue sold for 108 this reduces the interest charge to about 5½ per cent. The village, while the sale of the bonds is held up, is paying the Hydro 7 per cent. on a debt of $1,000, and is paying 6½ per cent. on $8,000 borrowed to carry them over until the money for the bonds is received.

Reeve McCubbin has been authorized to secure legal advice before signing the bonds. Some of the residents of Warkworth are not slow to declare that any expense, due to the excess interest they are now paying, or to any other cause, will not be borne by the village, but by the township in the last analysis.

Talk of Graft.

There has been talk of graft in connection with the sale of the debentures, some people maintaining that the fact that there was a purchaser for the bonds on hand before the issue was made public tended to show that the Toronto firm had been notified, for a consideration, by some party here.

Township Clerk P. S. Ewing wrote the Toronto firm with regard to this point and has received an emphatic disclaimer, the letter being on file in the clerk's office. The first intimation that the firm had was through reading in The Peterborough Examiner that the issue had been decided upon. The investment was regarded as a gilt-edged proposition, hence the haste of the firm to get in on the ground floor.

It is pointed out that it is nothing unusual for a municipality, whose credit is unimpaired, to receive bids for debentures before they are advertised. Campbellford had offers for its high school debentures before they were put on the market. The question of advertising is left to the discretion of the Council. Warkworth's bonds might have been sold locally, but it is doubtful whether any local bid would have exceeded, if it had equalled, the 105 received.

Hydro is Flourishing.

Warkworth pays $85 a horse-power for its light and power. This figure may appear excessive, but in actual practice the cost does not look so serious. One patron of the system, who has 26 lights, an electric range, vacuum cleaner, toaster and iron in his residence, pays $5 a month. His highest monthly bill since the system was installed was $6.90. The commission is steadily accumulating a surplus which, next year, will be applied to a reduction of the rates. There are new patrons constantly coming in, and the local lineman is unable to keep up with the orders for wiring houses.

BOY'S BAD COLD TURNED TO BRONCHITIS

The frequency with which bronchitis develops into pneumonia is appreciated by very few mothers. The danger of pneumonia is, probably, well understood too, but how many mothers take into consideration that a neglected attack of bronchitis frequently leads to this dangerous disease.

We would advise all mothers to give their children Dr. Wood's Norway Pine Syrup the first moment they show any symptoms of a cold or cough as by doing this they save them from an attack of bronchitis or pneumonia.

Mrs. Lawrence Quick, Sandwich, Ont., writes:—"My little boy, six years old, had a bad cold which turned to bronchitis. I tried every thing I thought would be best for it but did not see him getting any better. I was told to try Dr. Wood's Norway Pine Syrup, and after giving him two bottles he got wonderful relief. I cannot praise it enough.'

Price 35c. a bottle; large family size 60c.; put up by the T. Milburn Co., Limited, Toronto, Ont.

RADIO PROGRAMS

MONDAY, MARCH 31.

KDKA, PITTSBURGH—326

8.15 p.m.—University of Pittsburgh Extension Course—Opening night, with music by the Pitt male quartet, and addresses by representatives of the school.

8.45 p.m.—Concert by the KDKA Little Symphony Orchestra, conducted by Victor Saudek, assisted by Barbara Bess Wellman, contralto; William Hasselman, baritone.

WBZ, SPRINGFIELD—337.

7.40 p.m.—Concert by WBZ Trio.

WLW, CINCINNATI—390

9 p.m.—Special concert from the College of Music; Ladies' quartet—Florence Teal Wats, Carry Schaefer, Nora Beck Thuman and Beatrix Williams Chipman; violin solos by John Eversman; piano solos and accompaniments by Miss Dorothy Stoizenbach and Mr. Clifford Lang.

WHAZ, TROY—380.

9 p.m.—Program by four blind artists, under the direction of Thompson Courtney of Troy, N.Y., pianist, assited by the Capital District Harmony Boys' Trio, composed of Joseph Carroll of Albany, Frank Hackett of Cohoes and John Nugent of Troy.

9.45 p.m.—Garden Talk by John Jeanin.

10.45 p.m.—Program of popular dance music by the Campus Serenaders. Rensselaer Polytechnic Institute Students' Orchestra.

WWJ, DETROIT—517.

7.00 p.m.—The Detroit News Orchestra; the Chapel Four, Miss Albertine Schmidtke, soprano; Mildred Williams, contralto; Paul Herbster, tenor, and Henry Horn, bass; Lenten speaker.

WOC, DAVENPORT—484.

7.30 p.m.—Sandman's visit.
9.00 p.m.—Musical program; Erwin Swindell, Musical Director.

WGY, SCHENECTADY—380

7.15 p.m.—Address, "The Essentials in Co-operative Marketing Movement," H. E. Babcock.

THE REASON FOR ALUMINUM

Because tea deteriorates very rapidly if exposed to the air many tests and experiments have been made to find an efficient means of packing it so as to preserve the flavor. The "Salada" Tea Company first used lead packages but some years ago adopted aluminum foil, aluminum being more durable and lighter than lead, besides of course being absolutely sanitary and air-tight. This method of packing tea is admitted to be the most effective known to preserve the flavor of the tea. All "Salada" is sold in air-tight aluminum packages.

COBOURG AND DISTRICT

COBOURG, March 31.—Rev. Canon Sawers has been transferred as chaplain from the Prince of Wales Dragoons at Peterborough to the Cobourg Heavy Battery, with the rank of major.

Chancel Redecorated.

The chancel of St. Peter's Church here, of which Rev. Canon Sawers is rector, has been redecorated, and the church will be opened for service next Sunday. Mr. P. Bradbury did the work. The services last Sunday were held in the Parish Hall.

Plainville W.M.S.

At the last meeting of the W.M.S. of Plainville Methodist Church, the following officers were elected:

President—Mrs. Frank Westington.

Vice-President—Mrs. Frank Halligan.

Secretary—Miss Sarah King.

Treasurer—Miss Stella West.

Organist—Miss Beatrice Timlin.

Corresponding Secretary—Mrs. M. F. Ames.

Presentation at Bethesda.

Mr. Everett Phelp and his bride, before her marriage Miss Irene Chestnut of Welcome, were given a pleasant surprise at their home at Bethesda, when about sixty-five members of the Bethesda church gathered at their home to spend a pleasant social evening with them. At an opportune moment the presentation was made on behalf of those assembled of two beautiful chairs to Mr. and Mrs. Phelp. Mr. H. Tinney read a suitable address, and the presentation was made by Messrs. Wilbar Simpson and Stuart Morton. The evening was pleasantly spent with games and music. A dainty luncheon was served by the ladies.

Setting Out Walnut Trees.

A walnut plantation of between 1,200 and 1,500 trees is being set out on the farm of Mr. A. A. Rolph, Clarke Township.

Death of Former Resident.

Edward Mersiam, a former resident of Cobourg, has passed away at Pittsburg, Pa., where the family removed to from Cobourg a year or two ago. He was a man who was generally esteemed during his residence here.

Death of Mr. David Kernaghan.

The death of David Kernaghan, an esteemed Lakeport citizen, took place at the hospital here following an operation for appendicitis. He married Miss Conroy of Haldimand Township, who survives him with a family of sons and daughters. He was 60 years of age.

Death of George S. Morrow

George S. Morrow, a former Darlington township resident, who went west about five years ago, died in Winnipeg on Thursday last. He was a carpenter and a builder. He leaves a widow and family, a brother John Morrow and two sisters, Mrs. Frank Everson and Miss Morrow, residing at Courtice.

Farmers Moving in Newcastle District.

Mr. Sam Fudge has sold his farm near Newcastle on the Provincial Highway, and is returning to Toronto. Other changes in the locality are Jas. Clark is moving to the Burnham farm, on the lakeshore, and Mrs. Thomas Powell is moving upon the farm he is leaving; Mr. Fred Parker is moving to his new home on the Lakeshore, and Mrs. Robert Reid is succeeding him on the Dr. Farncomb farm.

Several Auction Sales.

James McCartney of Darlington township had a sale of farm stock and implements to-day. Mr. Samuel Fudge of Clarke Township held a similar sale to-day.

Presentation at Bethel Grove.

A few evenings ago about twenty friends from Bethel Grove drove over to the Zealand farm, near Port Hope to honor Mr. and Mrs. Herbert Moore, who had recently moved there. In appropriate words at a timely moment, Mr. and Mrs. Moore were presented with a clock and a cold meat fork, while those present united in wishing their host and hostess abundant health, happiness and prosperity in their new home.

Hobart—Bradley.

The marriage took place on Monday at the Baptist parsonage, at Colborne, Rev. L. H. Coles officiating, of Miss Dorothy Bradley, daughter of Mr. and Mrs. C. A. Bradley, Grafton, to Mr. Charles H. Hobart, of Cobourg. The bride was unattended. Mr. and Mrs. Hobart left afterwards for a trip to eastern points before taking up residence near Cobourg.

CHURCH UNION CAMPBELLFORD

Dr. A. H. Denoon Spoke in Support of Organic Union Yesterday—Two Sides of Question.

CAMPBELLFORD, March 31. — Carrying out the programme arranged some time ago by the session, to have two outstanding speakers discuss the church union question, from different standpoints, Rev. Dr. A. H. Denoon, pastor of the Avenue Road Presbyterian Church, preached at both services in St. Andrew's Church yesterday, in support of organic union. Selecting as the Bible lesson in the morning the same passage, the 17th chapter of the Gospel of St. John, and choosing the identical text, verses 20 and 21, as was used by Rev. T. Crawford Brown, who spoke in opposition to organic union from the same pulpit, the previous Sunday, Dr. Denoon placed an entirely different interpretation upon the spoken words of the Saviour, where he prayed that all who believe in His teachings should be one even as the Father and Son are one.

Beginning his address by thanking the members of the session for permission to speak in the church, Dr. Denoon preached for over an hour, presenting his side of the case, without any sign of bitterness or prejudice. Only once in the morning did he make direct reply or reference to any statement of Rev. T. Crawford Brown on the previous Sunday, and that he did without mentioning Mr. Brown's name. It is not fair to say, Dr. Denoon contended, that organic union was first conceived in the mind of a professor who spent only a short time in Canada. Neither is it fair to say that the movement is a conspiracy on the part of some of the leaders to get possession of the property to to disrupt the church. The latter charge he characterized as a libel upon the living and the dead, men who from the highest Christian motives had worked for church union from the beginning.

History of the Movement.

Dr. Denoon, who was formerly a missionary and a pastor in the west, and who spent three years as a chaplain overseas, gave a concise history of the church union movement, a knowledge of which, he said, was essential in order to properly understand it. The movement began about 30 years ago in the west when the pioneer workers found there was overlapping of effort.

In 1899 the Home Mission Committee of the Presbyterian Church, took up the matter, and at their request the General Assembly appointed a committee to confer with the committees of the Methodist and Congregational churches. This joint committee met three times in as many years and voted that no missionary should be sent into a field where one was already stationed.

In 1902 a definite proposal for organic union came from the Methodist General Conference, which met that year in Winnipeg. They asked the Presbyterians to appoint a committee, and the assembly referred the question to the committee corresponding with other churches.

This committee passed a resolution to the effect that organic union was both desirable and practicable. The joint committee representing the three churches, met and passed a resolution, stating that in the opinion of the members organic union was desirable, feasible and practicable. The members of the committee were unanimous, they had seen the overlapping of effort and had a vision of a united church. They agreed that union could be consumated without the sacrifice of principle. Organic union was conceived in the minds of gifted and godly men.

Basis of Union.

Dr. Denoon next took up the basis of union which he dealt with under five heads—doctrine, policy, ministry, administration and law of the church.

Few Presbyterians, he said, could find any difference in the doctrine as proposed for the United Church and that taught in the Westminster Confession of Faith. It should be remembered that the Confession of Faith had been drawn up in the days of controversy and contained some doctrines that had probably been over-emphasised.

The speaker said that at the beginnig, while he was pastor of a church in Halifax, he had been opposed to church union, but he had consulted with leaders in the movement, and had received from them the assurance that the doctrine of the proposed new church was in keeping with the teachings of Scripture. He accepted this view convinced that if this doctrine could be accepted by men who had spent their lives teaching doctrine it was good enough for him. Any one can accept the doctrine with the assurance that it is in line with the teachings of the church in the past.

Question of Policy.

Dr. Denoon maintained that the policy of the proposed United Church is distinctly Presbyterian. The session and the Presbytery are retained. The synod becomes the conference, which is to meet every two years. It is time that the ordination of ministers is to rest with the conference, but before this is done the candidates for the ministry must be recommended by the Presbytery, who also examines the candidates. The ordination by the conference is an additional safeguard. The policy is essentially Presbyterian as it is representative government in its highest form.

The Barrier Act is retained in the new policy, and before the general conference can make any change in the doctrine of the Church the consent of the people must be secured.

"We are not putting anything over on our Methodist friends," said Dr. Denoon, "but for some time their doctrine has been approximating ours."

Before a young man can begin to study for the ministry the session or presbytery must recommend him, every year while he is at college he must be recommended by the presbytery who, at last examine him and recommend him for ordination.

Calling a Minister.

If the three churches are united any congregation can extend a call to a minister and the Settlement Committee will place him when he is called. Under the prerent regulations a presbytery has the right to set aside a call and send a minister to a church that has not called him. A minister can remain in a church as long as he likes, and as long as the congregation want him. A congregation can call a minister now, but it is sometimes not too easy to get rid of him. In the United Church every needy congregation will have a minister and every minister will be given a charge.

The Enabling Act.

Dr. Denoon said that the Church Union Bill now before the Provincial Legislatures and the Dominion Parliament is simply the embodiment of the principals agreed upon by the three churches. Referring to the majority vote of one in favour of church union in the committee of the Legislature, Dr. Denoon said:

"Are we going to allow Anglicans and others to tell us that the voice of the churches that have spoken is not sufficient?"

The speaker advised his hearers to examine and study carefully the basis of union. There is a great work for the church to do. In the province of Alberta 43 per cent. of the population are non-Anglo-Saxon and in Saskatchewan 51 per cent. are aliens. In the city of Toronto 58,000 of the people are not Anglo-Saxon.

If it is proposed to bring these people int, the light of Christianity, the work cannot be accomplished by a divided church.

Declaring that he believed in organic union with all his heart, the speaker went on to tell of his work overseas where he spent two years on the battle front. When he ministered to dying or wounded men, none ever inquired to what denomination he belonged. He does not believe in diversity in union, but in the unity that only makes the two churches one.

The Evening Service.

In the event of the consummation of church union how will the congregation of St. Andrews' church in Campbellford be affected?

That point, upon which so much difference of opinion appears to exist locally, was made clear by Dr. Denoon in his evening discourse. Two alternatives would be open to the people. They could vote to enter the union and at the same time decide to continue as they are without change of ministers or officials, or they could by a majority vote, adopt the form of government of the United Church.

The text chosen by Dr. Denoon for his evening sermon was the words of Paul to the Corinthians, "We are one in Christ Jesus," and a large congregation, made up of representatives from the various evangelistic churches of the town, listened with the closest attention to a clear and forceful exposition of the principles of organic union.

Organic union, he said, had been pure in its origin, regular in procedure and every step in its development had been constitutional. The late Dr. Cavan, principal of Knox College, was quoted as saying that where there were no conscientious scruples at stake the churches should unite to heal the schism in the body of Christ. The Anglicans and the Baptists had been asked to join the union movement but had refused.

The Presbyterians are not sacrificing anything in doctrine, policy or administration. The doctrine of the United Church is pure and simple, the policy is Presbyterian and the ministry is safeguarded.

Professor Curtis, of Edinburgh, has published an article in which he says that the proposed United Church of Canada is Presbyterian and that in policy and doctrine it is in line with the Church of Scotland. This was proof that in the judgment of competent men there is nothing to keep the United Church and the Church of Scotland apart.

How Denominations Voted.

When the basis of union was passed upon by the three churches interested the Congregationalists voted on the question in separate congregtaion.

The Methodists in general conference adopted it by a two-thirds vote.

The Presbyterians supported it by a majority in the assembly and 53 out of 66 presbyteries pronounced for it.

In 1911 and in 1915 the people of the Presbyterian church voted for it. There is nothing in the government of the church that requires a popular vote, but this question was so important that it was deemed best to give the people a chance to express their opinions. In that year a majority of the adherents, members, elders, presbyteries, the synod and the assembly declared for organic union.

In 1915 another vote was taken and it was clearly understood that the issue would depend upon the result of that vote. Fifty-six thousand members and 53 presbyteries were in favour of union and the assembly of 1916 voted for it, the record being 406 to 90.

The assembly of 1917 decided to defer the consideration of the question until the second assembly after the war. It was claimed that there were thousands of young Presbyterians who were in the military service in 1915 and who did not vote on the question, but Dr. Denoon contended that the majority of these voted before they went overseas, as he himself did.

Another objection urged by those opposed to union is that the membership of the Presbyterian church has increased since 1915 and for that reason aonther vote should be taken. Dr. Denoon contended that these new members understood that when they joined it the Presbyterian church was committed to organic union.

In 1916 there were only about 16 union or co-operative churches in the west. The growth of union had been slow for the previous 17 years but since the churches have declared for it, union churches have sprung up all over the country. In some places it is the Presbyterian churches that are closed, in others the Methodist.

If organic union is a good thing for the mission fields of the west, it should be adopted in Toronto and the other large centres.

In 1917 the assembly decided to foster these union churches and now there are 1,245 representing about 3,000 congregtaions in existence.

Benefit of Union

Organic union would make for economy but that is the smallest and weakest reason that can be urged in its favor. It would save money and men. Ninety-five per cent of the foreign misionaries are in favor of union. There are in the home mission field 521 charges that receive $300 a year and of these 296 have sixty families or less.

The East needs union just as much as does the West. The rural sections are becoming depopulated so that the churches are finding it difficult to maintain themselves. In the Presbytery of Halifax alone there are 28 congregations in which some form of union exists. A great deal has been accomplished since 1916 but a great deal remains to be done.

Dr. Denoon is convinced that organic union will make for efficiency and righteousness. The will of the majority, he says must prevail in the church as in the state. We should in deciding the question drop all personal feelings.

"Some people," said the speaker, object to giving up the name of the Presbyterian church. For my own part I love the church but I love Christianity better and it I can advance the cause of Christ by giving up the name, Presbyterian, I am prepared to do so.

"In the United Church, we are going to have the order of the Presbyterianes, the fervour of the Methodists and independence of the congregationalists. All the vital things in our doctrine and policy are retained to us. By uniting our forces we can do much to strengthen the life of our countrfy.

Veteran In the Service

One fact that has been remarked on here since these special speakers in the field that they make the two churches one.

HASTINGS AND THE DISTRICT

No Unemployment in the Town -- Personal News of Interest.

HASTINGS, March 31.—Hastings can boast of no lack of employment at the present time. The Hastings Foundry and Mr. McGrath's sawmill are running to full capacity, and the Hastings Tanning Company are also busy. The latter have six cars of finished leather to be rushed out at once.

Saturday's Storm.

The first electric storm of this year passed over here on Saturday evening. A remarkable feature of the storm was that a heavy flurry of snow and hail fell, while the lightning and thunder was flashing and rolling. Two years ago last month another such storm prevailed one Sunday evening. Some of the old-time weather prophets say this is a sign of a cold and backward spring.

Miss Sabra Huycke.

Word has been received here by relatives of the sad death of Miss Sabra Huycke, who died in Peterboro on Sunday, March 30, 1924. Miss Huycke was born here in Hastings, and lived here for some time, leaving here for Peterboro with her parents.

Her father and sister Gertrude and brother Asa are the surviving relatives.

Mr. L. T. Huycke and Mr. Chas. Huycke, both of Hastings, are uncles of the deceased.

The sympathy of the community is extended to the family.

Moving to Peterboro.

Mr. Stanley Stevenson spent the week-end with his parents. Stanley has accepted the position of treasurer of the Grand Opera House, Peterboro, and will be missed in the sports here for this season, as he played both lacrosse and baseball.

General News

Mr. Chas. Davidson of Campbellford will be at the Claredon House Hastings on Tuesday, April 1st 1924 to issue auto license from 9 a.m. until 5 p.m.

Maple Syrup is coming in for sale the prices for some arranging from $2.00 to $2.50 per gallon.

Miss Lillian Condon of Lakefield, is the guest of her cousin Miss Eva Barry.

Mrs. W. T. Tate is visiting at the home of her daughter Mrs. J. G. Staples in Lindsay.

Mr. E. A. Fairman spent Sunday at his home in Campbellford.

Mr. J. C. Wilson has accepted a position in the shipping department of the Hastings Tanning Co.

Miss Rosamond Hubbs spent Saturday in Peterboro.

Mr. A. U. Bailey and son Paul wkere visitors to Peterboro on Saturdayy.

Mr. Arthur Armour of Campbellford was in the village on Friday.

Miss Laura Walsh has returned from visiting friends in Peterboro and Lakefield.

Mr. R. Chapman of Keene spent the week end at his home here.

Miss Muriel Cruickshank was in Campbellford on Thursday.

Mrs. W. Atkinson and son Percy of Peterboro are spending a few days at the home of the former's mother, Mrs. S. Carter.

Mrs. J. Cruickshank spent Thursday in Campbellford.

Miss Lillian Montgomery was in Peterboro on Saturday.

SEVEN YEAR OLD CHILD KILLED BY AUTOMOBILE

TORONTO March 31 (Canadian Press). — Running in front of an automobile at Dundas and Dufferin Streets on Sunday afternoon, Jack Sullivan, aged seven, of Harrison Street, was knocked down, and so badly injured that he died two hours later in the Hospital for Sick Children.

The automobile was driven by John Wynne, Perth Avenue.

A bit of solder and touch of flux make the best connection.

DOMINION WIDE POSTAL STRIKE ON APRIL 14th

Unless Salaries of Postal Employees in All Branches Are Revised Upward, National Strike Will Be Instituted.

IMMEDIATE ACTION

TORONTO, March 31. Canadian Press. — A strike of postal employees of all branches of the service will begin on April 14th, unless the Federal government by that date has revised upward the salaries of thousands of employees of its postal department.

The strike will be national in its scope. The votes of local branches of the different organizations which comprise the Canadian Federation of Postal Employees, are 96 per cent. in favor of a strike if the government fails to meet their demand. They have been sent from every part of Canada to the officials of the Federation in Toronto.

The date of the strike was fixed yesterday at a meeting in the labor Temple, held under the auspices of the Federation, and presided over by M. Crosby.

The meeting was called to give every employee of the service an opportunity to hear a report from the deputation which had been despatched two weeks ago to Ottawa, when the employees were informed, through a press despatch, that the bonus that they had been receiving would be cut 50 per cent. The report which was presented by G. R. Jackson, chairman of the Federation, and an official of the Railway Mail Clerk's Association, wa considered unsatisfactory, and as an attempt upon the part of the Government to evade the questions put before it.

Inform Premier.

In the message which will be wired to Premier King to-day, the decision of the Federation will be formally communicated to the Government. Mr. Jackson refused to state the date upon which the service would cease to function, explaining courtesy compelled the Federation to give its decision in its entiret, to the government before making it public.

Mr. Jackson intimated that discussion of the bonus was over, and that the government must at once revise upward the salaries of the postal employees. He claimed this revision could be made within a few days, since the postal department had already been reorganized.

EAST EMILY BARN STRUCK IN STORM

Two Animals Killed and Young Farmer Knocked Unconscious.

EAST EMILY, March 31.— On Saturday evening during the progress of the thunder and sleet storm the barn of Mr. Evans Storey, was struck by lightning. The cattle in the barn were stunned and one heavy registered animal was killed and also one ewe. Mr. Esmond Storey son of Mr. Evans Storey who was in the barn at the time was knocked unconscious but this morning is able to be around although still suffering from the effects of the shock. The barn was badly damaged.

Ten years ago Mr. Evans Storey lost a barn by lightning and last year his house was struck but not destroyed.

SNOW AND THUNDER IN THE ONE STORM

Weather Sharps Say This Means Cold Weather and Late Spring.

CAMPBELLFORD, March 31. — The people of this town on Saturday evening witnessed the rare phenomenon of snow falling to the accompaniment of heavy thunder and vivid flashes of lightning. Those who profess to be learned in weather lore says that this indicates a spell of cold weather and a late spring. Last evening an infant blizzard made it uncomfortable for the worshippers on their way to and from the different churches. The ground at the time of writing is covered with snow.

Sale of Cooking.

The ladies of St. Mary's Parish held a very successful sale of homemade cooking on Saturday afternoon and they wish to thank all those who assisted in any way. The net receipts amounted to the handsome sum of $165.35.

There were three guessing contests, the winners of which were as follows:

Prize donated by Charles Black, won by Edmund Blute.

Cake donated by Mrs. Daniel Black, won by Mrs. Peter Corkery.

Jar of cakes, donated by Mrs. Michael O'Donahue, won by George Nicol.

Mr. Black Undecided.

Rev. N. H. MacGillivary, pastor of the Presbyterian Church in Orillia, to which Rev. J. J. Black, of Burnbrae, recently received a call to become assistant pastor and director of religious education, was in town Saturday and went out to Burnbrae to urge Mr. Black to accept the call. Mr. Black promised to give a definite answer in a few days.

Home From New York.

Dr. E. F. and Mrs. Richardson have returned from New York, where they have been since Christmas, and where the doctor took a special course in one of the hospitals in that city.

AT THE REGENT.

The programme for the week at the Regent Theatre is as follows:

Monday, Tuesday and Wednesday — "The Count of Monte Cristo," the dramatization of Alexandre Dumas' famous novel of that name. This is one of the most thrilling pictures ever shown on a screen in Campbellford, and is well worthy a generous patronage.

Friday and Saturday, with usual Saturday matinee—Priscilla Dean in "The White Tiger." Miss Dean is always a favorite with a Campbellford audience.

There will be no picture shown Thursday evening as the theatre has been engaged by the Twelve O'Clock Club for their fortnightly dance.

A tramp, footsore and hungry, approached a man ploughing in a field by the roadside. "Say, boss, it's gettin' dusk, can I stay at your place all night?"

"I dunno," was the cautious reply. "You'll have to ask the old woman. I can hardly stay there myself."

HOUSING AND LABOUR.

The Labour Party of Britain has made the housing issue particularly its own—in its public propaganda, says the Brandon Sun. It has, however, sought to make it a state task, this adequate supply of dwellings to help in upbuilding good citizenship. What may come of all the talk remains to be seen at no distant date. The present Government accepts the matter as a social problem such as transportation and education. The administration is going to propose the building of 120,000 houses a year to rent for nine shillings a week. The fate of the plan before Parliament is problematical. There is some suspicion of the labour unions who have forced the hands of the Government in this matter.

The main cause of the housing shortage in Britain is undoubtedly due to the restrictions placed by the unions on the bricklayers. The output of labour has been so reduced by union regulations that it does not pay to erect houses. The "ca' canny" rule in the building trades has produced unemployment in an industry that absorbs much labour as it has prevented investment of capital in dwellings. Those who were loudest in demanding houses and better housing are actually most responsible for the dearth of homes. The unions defeated the law of supply and demand and caused suffering among the people as well as all the evils of overcrowding and the ill-effects of inferior dwellings for use as family protection. The ideals of family life are destroyed when no decent homes are available to the people.

AN EXPERT NEEDED.

The present session of the Ontario Legislature should not pass without the appointment of a permanent financial controller for the Province, or at least without the passing of legislation authorizing the Government to select such an official.

The Premier announced soon after he came into power that a controller would be appointed, but afterwards intimated that there was difficulty in finding the proper man, owing to the high value financial experts put upon their services.

Undoubtedly to secure an official with the proper qualifications the Province will have to pay handsomely, but an experienced and competent financier, given authority enough to ignore political influences and run the financial operations of Ontario on a business-like basis, would be worth a big salary.

The revelations before the Public Accounts Committee of gross incompetency on the part of the Hon. Peter Smith in particular and the Drury Government in general, incompetency that resulted in the Province paying out in buying tax-exempt issues sums many thousands of dollars above the market value, show how useful an efficient financial controller could be.

All treasurers of course are not Peter Smiths, but few of them have the technical efficiency to guide the financial affairs of the Province with the utmost accuracy.

The services of a financial expert should be available at all times for that purpose, even if it will be necessary to pay a salary much bigger than the Premier receives.

A LABOUR VICTORY.

The bill to amend the Workmen's Compensation Act has been withdrawn by the Ontario Government as a result of the strong opposition offered by labour organizations to the proposed changes in the administration of that measure.

The amendments were considered by the Government to have been in the interests of labour, but the workers themselves could not see the matter in that light, and their attitude is not unnatural.

As the Examiner pointed out when Mr. Nickle's bill was introduced, the feature about the Workmen's Compensation Act that most appealed to the people for whose benefit the measure was framed was the absence of the element of litigation from the operation of the Act.

Its working was simplicity itself, and that phase was appreciated by labor as a refreshing change from old conditions, under which an injured workman often had to choose between accepting an inadequate compensation for his injuries or engage in litigation which, with his case carried from one court to another, usually left him the loser.

The introduction of an amendment therefore that provided for an appeal board, even if the privilege of appealing would perhaps work out to the advantage of the injured worker much more frequently than it would help his employer, was not hailed with enthusiasm in labour circles, and the Government has hastened to withdraw its legislation, doubtless feeling that from a political standpoint there would be no advantage in passing a measure that no matter how beneficial it might prove labour did not want.

PAGE PETER SMITH.

The Legislature, which was expected to wind up the session this week, may sit for several weeks because of the amount of work that the Private Bills and Public Accounts Committee still have in hand.

The fact that this will afford an opportunity for a thorough investigation of the financial operations of the late government will be appreciated by the public, anxious that the revelations already made by the Public Accounts Committee should be followed up.

In this connection there is a general desire to hear from the Hon. Peter Smith.

So far the former Provincial Treasurer has not been called upon by the committee, but as the inquiry could not possibly be considered complete until he has been heard, he will undoubtedly be given an opportunity to explain.

The people of the Province are eager to learn how unknown brokers could walk into his office and sell him bonds at par that could have been obtained by him at many points below that figure.

And there are several other matters upon which the ...ion. Peter might be expected to throw some light.

So far he has remained silent.

Silence is an admirable quality sometimes, but not in the case of a former Cabinet Minister charged with almost unbelievable financial incompetency.

Peter Smith should be heard.

THE C.G.E. EXPANSION.

The announcement that the Canadian General Electric Company proposes to make a $400,000 extension to its local establishment, will be received with much satisfaction by the citizens of Peterborough, particularly as this addition is regarded as the beginning of an era of expansion that will see the present capacity of the local plant greatly enlarged, with a consequent increase in the working force and a general impetus imparted to business.

The company is accepting the city's offer to extend the present fixed assessment for 3 years, and the Council will at a meeting to-night pass a by-law providing for a vote to be taken on this question next month.

The Examiner feels that the people of Peterborough will have little hesitation in approving of this concession, in view of the benefits that will accrue from the enlargement of the C.G.E. plant.

Were a new industry to come along and offer to spend between $300,000 or $400,000 on building and machinery there is no doubt but that the citizens would favour a fixed assessment being granted.

There is no reason to suppose then that in the case of an old and long established local industry which has played such a prominent part in the building up of Peterborough there will be any less favourable reception accorded.

The vote should be large enough to show the officials of the Canadian General Electric Company that Peterborough appreciates the value of the plant to the community and welcomes the announcement of the beginning of a programme of expansion.

A STEP BACK IN INDIA.

Those who are interested in the welfare of India—quite apart from her value to the British Empire—will note with deep regret that the Viceroy has been compelled to exercise his power to "certify" such measures as a finance bill to the Council or State (or Upper House) as essential to the welfare of the Empire of India, in which case they can be put into force, even though previously rejected by the largely elective, Legislative Assembly. The Council of State has now adopted this year's Finance Bill or Budget which the Assembly had voted down.

This means that the Viceroy has been driven to revert to the old system of governing India—in this regard at all events—without reference to any Parliamentary body. It signals the failure, thus far, of the new Montague-Chelmsford scheme for an experimental measure of Indian self-government. Obviously, some sort of a budget must be passed or the Indian services could not go on. The Swaraj majority in the Assembly refused to pass the Budget proposed by the Executive, knowing perfectly well that this would not kill the budget or drive the Executive from office, but would strike a blow at the Montague compromise.

The Swarajists are consistent in demanding that their Home Rule shall be supported by control of "the power of the purse." But the British authorities are not ready to go that far yet. They desire, in a word, to work a sort of "limited liability" revolution in India. But revolutions have never yet recognized any such restriction. They always want to go full circle. So the Swarajists have set themselves deliberately to proving the present partially autonomous institutions to be unworkable. They think the result will be "more autonomy." But it is just possible that the British authorities may deduce rather that, as the limited measure of autonomy possible under present conditions has not been accepted in a loyal spirit of co-operation by the politically-minded sections of the Indian population, the whole scheme had better be withdrawn.

This would be a step backward, and would be recognized as such by every British statesman having anything to do with India. Life-long students of the Indian problem like Sir Malcolm Halley are quite convinced that no British regime can last in India which lacks the co-operation of the enlightened, responsible and constructive elements among the native population. The wealthy Parsees of Bombay, for instance, cannot be autocratically governed by aliens as if they were a tribe of African bushmen.

But the trouble has been that, even with the exceedingly narrow franchise which everybody agrees is the best possible yet for India, the elections resulted in submerging these responsible commercial, financial and industrial elements with a flood of "pleaders" (lawyers) and other glib leaders of discontent. It is not commercial India which dominates the Assembly, but oratorical India. The Bombay members were with the Government, but they were out-voted.

So the British Raj is in the position of defending commercial India—and incidentally the ninety-four per cent. of Indians who are illiterate—against a handful of successful agitators who have captured a majority in the Assembly. When the Prince of Wales was in India he was approached by a great delegation of the lower castes who pleaded with him to maintain British rule and not expose them to the tyranny of their own upper castes. There are hundreds, if not thousands, of British men and women in India, many of them missionaries, who feel a very heavy sense of responsibility toward this overwhelming majority of illiterate, unenfranchised, poverty-ridden peasant and village peoples in India, and would be very loth to desert them at the bidding of a group of "intelligenzia" who at best only represent an infinitesimal fraction of the people of India.—Montreal Star.

EDITORIAL NOTES AND COMMENT.

March used the last few days to show us what kind of a bad month it might have been.

The Greyhounds are the top dogs in hockey circles.

The Public Accounts Committee inquiry will not be complete until Hon. Peter Smith has been heard. The people of the Province are waiting to hear his explanation of the bond deals.

Parliament should not forget the grievances of the rural mail carriers, because they have no organization to stand behind their claim.

The Progressives will never ride into power on the Hudson Bay Railway.

The people of Peterborough are reminded that the annual appeal for funds for the Grenfell Mission is being made this week.

It Pays to Advertise !

WISE AND OTHERWISE

In Texas a farmer has inherited $700,000. If he is careful this will be enough money to raise chickens three years, or to keep on farming four more years, or to send his son to college.

GARDEN HINTS.

Run bean vines on sticks instead of strings. The psychological effect of strings is to make the beans become stringy.

MUSIC NOTES.

Throw rocks at a policeman. If he doesn't catch you you will have some thing to sing about.

AUTO HELPS.

Autos are like radios. You can look at them and tell what distance you will get.

TO STAY SINGLE.

Let her know you are jealous.

SOCIETY.

Announcement is made that a special meeting of the Ladies' Aid Society will be held to-morrow behind closed doors to aid the ladies in finding out why Mrs. So-and-so has circles under her eyes lately.

FASHIONS.

The average length of dresses in Paris now is four inches from the knee, but we don't know if this is above or below the knee.

HOME HELPS.

Polished floors will not be scratched if you make the family go barefoot.

HOW TO MARRY.

When he invites you out to dinner order the cheapest dishes.

The rain falls on the just and the unjust, but especilly on the just started picnic.

The height of folly is doing crazy stunts in an airplane.

A stitch in time saves wondering if the hole in your sock shows.

The female of the species gets more sleep than the male.

Faint heart never won fair lady, but faint whisperings have.

While confession is good for the soul it causes many a black eye.

Experience is the best teacher, but her course is the longest and hardest and the only degree you get is the third degree.

Girls will be girls even though according to the new straight styles, they try to look like boys.

The only way to hold your own is to hold your own tongue.

If you think your luck is going to be bad it gets disgusted and is bad.

Among the shaky movements on foot is a woman in tight shoes.

Girls! Women! get a Husband

Husband need shaves, wear holes in their socks, smoke tobacco, don't make enough money, stay out late at night, and all such things as that, but no home is complete without one.

They track mud into the house, snore when they sleep, get mad when women have no reason for doing things, leave their dirty shirts in the middle of the floor, and smile at other women, but they are necessary.

A girl trying to catch a husband should eat lots of corn-on-the-cob. The exercise makes her lips soft, pliable and warm.

Health Hints

Never trim your nails with a hatchet or try to step off a street car backwards.

Brother Tom's Kitchen

Carrots improve soup if you leave them out.

Bedtime Story

'But she heard us laughing and pulled the shade down."

Spring makes people lazy. The other seasons that make people lazy are summer, fall and winter.

It pays to be honest, and it costs.

Keeping a stove from smoking is easier than keeping a boy from smoking.

If you must get mad at the wet this April, consider Burma; its annual rainfall is about 600 inches.

A big company is placing on the market a new oil which quiets engines. If successful it should be used by political machines.

Music Notes

A marble placed in the mouth while practicing singing may choke you and tickle the neighbors.

Home Helps

Keep one of the windows locks broken so you can always get in when you forget your key.

Garden Hints

Don't be optimistic. Don't get so far in debt to your grocer you can't buy veetables on credit.

Etiquette

On being run over by an auto smile and say, "Excuse me, I didn't know you were using the road."

Weather

The spring poets have started their "Oh, what is so raring?"

PETERBOROUGH MARKETS.

Fruit.

Bananas, 50-60c doz., lb. 13c; Florida oranges 25-60c; California navel oranges, 25-70c; tangerine oranges, 40-60c; grape fruit, 2 to 6 for 25c; lemons, 30-40c doz.; apples, 40-95c peck; table apples, 50-60c doz.; Delicious apples, 50c doz.; Spies, 50c-80c peck, $6-$9 barrel; cooking apples 25-50c pk.; California grapes, 40c lb.; pineapples, 40-50c ea.; dates, 15-20c lb. Fard dates, 30c lb.; figs, 15-50c lb.; cranberries, 20-25c qt.; strawberries, 35c qt. box; bitter Italian oranges, 50c doz.

Vegetables.

Potatoes, 35c peck, bag, $1.80 to $2.00; beets, 60c peck; carrots, 60c peck; turnips, 25c peck; parsnips, 60c peck; cooking onions, 3 lbs 25c; Spanish onions, 3 lbs. 25c; green onions, 5c bunch; dried peas, 13c lb.; dried beans, 10c lb.; cabbage, 5-20c head, lb. 7c; leaf lettuce 5c, head lettuce 20-25c; cauliflower 30-50c; tomatoes, Florida, 40c lb.; hothouse, 50 cents pound; endive, 10-20c; celery, 10-25c; parsley, 5c; watercress, 5c; Florida peppers, 10-15c each; new carrots, 10-15c bun.; imported green onions, 5-10c bunch, spinach, 20c lb.; mushrooms, $1.25 lb.; Lima beans, 2 lbs. 25c; new cabbage, 15c lb.; rhubarb, 15c; cucumbers, 50-60c each; artichokes, 25c each.

Nuts—Walnuts 25-30c lb.; budded 40-50c lb.; Brazil nuts, 25-30c lb; chestnuts, 30-35c lb.; almonds 25c; shelled almonds, 40-80c lb.; cocoanuts, 10-15c each.

Dairy Products.

Butter, creamery, 44-50c lb.; dairy, 41-45c; baking, 35c; oleomargarine, 25c lb.; lard, 18-24c; shortening, 18-20c; cheese, 28-40c lb.

Eggs: (Government graded); fresh specials, 40c doz.; fresh extras, 35c doz.; fresh firsts, 33c doz.; fresh seconds, 30c dozen.

Honey: Comb, dark and light, 20-25c; amber, 5 and 10 lb., 63c and $1.20; clover, 5 and 10 lb., 73c and $1.40; buckwheat, 10lb., 95c.

Fish.

Pink salmon, 20c lb.; red salmon, 20-25c pound; salmon trout, 24c lb; salmon snacks, 35c pound; white fish, 20-22c; halibut, 35c; smelts, 15-35c pound; place, 2 pounds 25c; haddies, 18-20c; boneless, 25c; fillets, 25c; kippered herring, 20c; salt herring, 45-75c doz.; sea herring 10c lb.; fresh sea herring, 2lbs. 25c; boned cod, 20c lb.; oysters, $1.50-$1.75 qt.; shrimps, 40c pt.; fillet mackerel 2 lbs. 35c; Italian bloaters, 5c each; ciscoes, 25c lb.

Meats.

—Retail—

Beef, 10-30c lb.; pork, 15-35c; veal, 15-30c pound; lamb, 15-30c lb.; mutton, 10-25c lb.; bacon, 29-40c; sausage 18-20c lb.; chicken, 28c lb.

—Wholesale—

Hogs — Thick, smooth, cut, $8.00 cwt.; select graded $8.80; dressed head on, $12.00; head off, $13.00.

Grain (Wholesale) and Flour (Retail).

Fall Marquis wheat, 85-$1.00 bush; oats, 44-55c; rye, 65-75c; barley, 60-65c; alsike, $4-$5; peas, $1-$1.25 bush; buckwheat, 75c; red clover, $5-$10 bush.; sweet clover, $4.50.

Flour, half bbl., $3.35-$4.25; pastry flour, 24-lb. bag, 75-90c.

Hay, Bran, Etc. (Wholesale).

Loose hay, $14-$15; baled hay, $17; straw, $9-$12; bran, $28-$30 ton; shorts, $33 ton.

Hides and Wool (Wholesale).

Cow hides, 6c lb.; horse hides, $2-$2.50 each; calf skins, 12c; sheep and lamb skins, $1.00-$1.75 each.

shearlings, 20-25c each.

Wool, 23-28c pound.

MONTREAL PRODUCE.

MONTREAL, March 31 (Canadian Press). — Cash grain was quiet on Saturday's local market. There was little doing in flour. A steady trade continues in millfeed but the rolled oats market was quiet. An active business was passing in eggs. Total receipts from 1st May to date were 603,725 cases as against 580,784 cases in the preceding period. The butter market closed quiet. Total receipts from 1st May to date have been 158,346 packages less than in the same period of 1922-1923. There is virtually no business in cheese. Total receipts from 1st May to date have been 132,492 boxes in excess of the same period of 1922-1923.

CHICAGO GRAIN.

CHICAGO, March 31 (Canadian Press), — Word that the Government Supervisor of Trading in futures grain had called attention to what he regarded as overselling of corn had much to do on Saturday with a quick advance in the price of corn, and of wheat and oats as well.

General evening-up of accounts by dealers who had been engaged on the bear side took place, and with offerings light the advance easily ensued.

Corn closed nervous, 3-4c to 7-8c to 1 1-8c net higher, May 76c to 76 1-8c.

The wheat finish was unselected 1-4c to 3-4c up, May $1.01 to $1.01 1-8 and July $102 5-8; oats at 1-2c to 34c gain, and provisions varying from unchanged figures to a rise of 15c.

GRAIN STOCKS.

FORT WILLIAM, Ont., March 31 (Canadian Press). — Stocks of grain in store at the head of the Lakes rose during the past week by over 850,000 bushels, the total now being approximately sixty million bushels, to which may be added over three and a quarter million bushels afloat on the harbour.

GIRL RESCUED AT RICE LAKE

Isabelle Ferguson, Riding Pony From Margaret's Island, Broke Through the Ice — George Ivatt Fell Through Air Hole.

ROSENEATH, Mar. 28.—The ice in Rice Lake is becoming very unsafe for travel. Miss Isabelle Ferguson, who resides on Margaret's Island, while crossing to the mainland yesterday, riding a pony, was suddenly precipitated into the water. Messrs. Wm. Taylor and George Ivatt were near at hand and after a little trouble succeeded in getting the girl and the pony out safely. While they were finishing the trip, Mr. Ivatt also struck on an air-hole and received a cold bath but was got out without much difficulty.

Mrs. Rev. Walsh is suffering from a severe cold.

Mrs. Annie Lapp is confined to her bed with a cold.

George-Sherwin

A pretty wedding took place on Wednesday, March 26, when Miss Millie, third eldest, daughter of Mr. Fred Sherwin and the late Mrs. Sherwin, of Roseneath, became the wife of Edward George, eldest son of Mrs. Thomas George, of Alnwick Township, the Rev. A. R. Walsh officiating.

The bride, given away by her father, was becomingly attired in her travelling suit of navy with sand hat, blouse and gloves. At precisely four o'clock the bride took her place with her sister, Miss Carrie, as bridesmaid, while the groom was supported by his brother, John George.

After the wedding supper at five o'clock the happy couple left for Hastings, where they took the train. They will spend their honeymoon in Niagara Falls and Port Credit. On their return they will take up their residence on a farm of Mr. Walter Grigg, near Dunnet's Landing.

Before leaving Port Credit, Miss Sherwin was tendered a miscellaneous shower by her many girl friends when she received many valuable and useful presents.

C.G.I.T. Meeting

The regular meeting of the C.G.I.T. was held at the parsonage on Wednesday evening. There were sixteen members present. A pleasant feature of the meeting was the presentation of a merit pin to Miss Grace Blodgett for good attendance. The meeting closed with the singing of C.G.I.T. songs.

Report L.O.L. Convention

L.O.L. No. 261 held their regular monthly meeting on Tuesday evening. There was a good attendance, considering the condition of the roads. The initiatary degree was conferred upon Mr. Fred George in a very able manner. After the initiation, short addresses were delivered by Messrs. John Mattress, Worshipful Master; J. G. Honey, District Master, and C. W. Varcoe, Past Master, on the work of the Grand Orange Lodge of Ontario East, which held its annual convention in Peterboro' last week.

Jeanne Gordon, young contralto with the Metropolitan Opera Company, collects porcelain china banks as a hobby.

LUMBAGO RELIEVED

Rid yourself of those twinges. Apply Sloan's gently without rubbing. It sends straight to the pain-ridden tissues the fresh new blood that they need to heal them. Relief is quick and lasting. Get a bottle from your druggist today and have it on hand—35 cents.

Peterboro-Made Sporting Goods

Peterboro Canoes Prominent In Every Big Sporting Department — Trade Journal Article on Local Firms.

The March issue of the "Sport Goods Journal of Canada" contains several articles which deal with Peterboro firms and their products in very complimentary terms. Sports goods of all sorts are necessarily the only products touched on. There is quite a lengthy article having to do with the Peterboro Canoe Company, and the article, headed "Peterboro Canoe Company's plant a model of Efficiency," open with the sentences: "Two things struck me when I visited the Peterboro Canoe Company's plant not many days ago. One was the courtesy of the officials. The other was the apparent efficiency on all sides." The articles goes on to describe in detail the inner workings of the plant and the methods used in canoe construction. A fine cut of the plant accompanies the story.

On another page is an article headed "Peterboro can boast of several enterprising manufacturers and dealers in sport goods and recreational equipment" which contains references to several local dealers in sport goods. In it are mentioned Messrs. B. P. Ackerman, Son & Company, Messrs. J. J. Turner & Sons, accompanied by a cut of Mayor Turner, head of the firm; the Canadian Canoe Company, White's Cycles and Sports Limited, L. W. LeBarr's store, and Simpson, Copping & Company, as purveyors of sporting goods. The Albion Knitting Company, the Lavoie Knitters, Campbell & Best, and the Peterboro Hardware Company are also mentioned, the two latter as being dealers in fishing tackle. Cuts of White's Cycles and Sports Limited store, and of the president and vice-president, Messrs. Frank W. White and Oliver White, also a reproduction of the photograph of the Peterboro Snowshoe and Ski Club, accompany the lengthy space devoted to the White firm.

Miss Lena Michelson for seven years has served as wireless operator on a big tank steamer of which her father is captain.

Why Ford Predominates

Many Reasons From Many Users

If you were to ask the next fifty Ford owners you meet why they prefer Fords, you would get a wide variety of answers.

Some would say, "Because they seem never to wear out;" others would answer, "Because they cost so little." Many would reply "Because I can get service anywhere;" and just as many, "Because it is the only car I can afford to own."

All would tell you, "Because they master a bad road in any weather," a woman driver would respond, "Because I can drive it so easily." From the fleet-owners you would hear, "Because I can buy two or three or four Ford Trucks for the price of one big truck.

Wherever you might inquire you would hear expressed these basic reasons why Ford predominates—why, year after year, Ford sales equal the total sales of all other cars combined.

DOING GOOD WORK IN QUEBEC

F. M. Rutherford has just returned from Lennoxville, Que., where he delivered seven 2-year-old heifers to Stephane Borly, B.S.A., Federal Live Stock Branch, Sherbrooke, Que. The lot included 1 heifer from Chas. Macoun, Campbellford, 2 heifers from Hector Wood, Ivanhoe, 2 heifers from F. M. Rutherford, Bonar Law.

These heifers are to be used in a boys' club of 22 members at Waterloo, Que. They weer a splendid, uniform lot and Mr. Borly was pleased with the shipment. A splendid work of this kind is being done in Quebec province. Several clubs have been organized and interest and competition among the boys is very keen. They test and exhibit these heifers and often they form the nucleus of a rapidly developing herd, Mr. Borly reports that three heifers which Mr. Rutherford sold about sixteen months ago have upheld the splendid record of Carisbrooke stock.

1. Alice of Carisbrook, sired by Bonnie Doon of Menie, produced a net revenue of $169.33, cost of feed $56.15. Net profit $113.18.

2. Carisbrooke June, sired by a son of Hillside Peter Pan. Net revenue $162.09, cost of feed $57.50. Net profit $104.57. The boy who owns her refused $150 for her calf. These two heifers were estimated on actual butter sold at an average of 45 cents a pound and skim milk 25 cents a hundred.

3. Carisbrooke Perfect Lady 2nd, sired by son of Hillside Peter Pan, net revenue $250.28, cost of feed $70.09, net profit $189.19. This heifer's milk was sold 40 cents a gallon. Her bull calf sold for $100. If work of this kind was carried on more in Ontario it would be a great inducement to keep boys on the farm.

Returning Mr. Rutherford visited the following well known breeders and exhibitors: E. C. Bridge, Beauharnois; Gilbert McMillan, Huntingdon; R. R. Ness & Sons, Howick. Mr. Ness has 130 head at present and has 3 imported sires in his herd. Albert Ness, who owns some of the finest Clydesdales in Canada; also David Ness. Mr. Borly is in need of more heifers immediately, and any one having some for sale might communicate with Mr. Rutherford.

Mr. Rutherford has also purchased a new herd sire "Springburn Golden Beauty," 5 years old, bred by Gilbert McMillan, Huntingdon, Que. "Springburn Golden Beauty" is sired by Mr. McMillan's "Golden Love," an one of his best cows, Beauty (52643). His dam has two honour roll (305 dy.) records, 10320 milk and 300 lbs. fat and 9,000 lbs. milk and 355 fat. His sister, Lady Beauty (52917) has five records as follows: 2 yr. old 9,203 lbs. milk, 380 fat; 3 yr. old 10,322 lbs. milk, 458 fat, honour roll (305 dys); 4 yr. old, 10,183 lbs. milk, 446 fat, honour roll (305 dys.); 5 yr. old, 9,459 lbs. milk, 406 fat, honour roll (305 dys.); 6 yr. old, 10,560 lbs. milk, 453 fat, honour roll (305 dys.).

Another sister, "Beauty's Love" (50699) has two records: 3 yr. old, 7,719 milk, 293 fat, honour roll; 4 yr. old, 8,312 milk, 321 fat, honour roll.

This heifer has always been in Mr. McMillan's show herd and has never had a good milking chance. She and her sister were 1st prize "produce of a dam at 1922 Royal Winter Fair. They also stand 2nd and 4th in the get of a sire.

This bull should be a fine addition to the herd and combined with Carisbrooke blood, should give some real quality Ayrshires.

One is for You

A free test of a way to fight film on teeth

This ten-day test is yours for the asking. It will show you the way to whiter, cleaner teeth. It will convince you that old methods of teeth cleaning are wrong.

Let us prove that to you.

Film—your enemy

That viscous film you feel on teeth is the foe you have to fight. It clings and stays. No ordinary tooth paste can effectively combat it.

Food stains, etc., discolor it, then it forms dingy coats. That is why teeth lose luster.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Thus film causes most tooth troubles.

Modern science has for years sought ways to fight that film, and two methods have been found. One disintegrates the film at all stages of formation, one removes it without harmful scouring.

These methods have proved themselves effective in many careful tests. A new-type tooth paste has been created to apply them daily. The name is Pepsodent.

You'll quickly see

Pepsodent brings astonishing results. It does more than fight film. It multiplies the alkalinity of the saliva, which is there to neutralize mouth acids. It multiplies the ptyalin in saliva, which is there to digest starch deposits on teeth.

These combined results will be a revelation to you.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth become whiter as the film-coats disappear.

Compare the new way with the old, and you will know in ten days what is best. Cut out coupon now.

Protect the Enamel

Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combatant which contains harsh grit.

W.H. NELSON WON ELECTION FIGHT

Was Re-elected Deputy Reeve of Percy Township

WARKWORTH, March 31.—In one of the most exciting and stubbornly fought municipal contests Percy Township has ever witnessed, ex-Deputy-Reeve W. H. Nelson was elected Deputy-Reeve to fill the vacancy caused by his own resignation, defeating John Allen by a majority of 45. In spite of the condition of the roads, there was a good vote polled, the result in each of the six sub-divisions being as follows:

	Nelson	Allen
Wilson Settlement	42	18
Norham	108	125
Warkworth Village	171	152
Dartford	95	82
Cobourg Road	33	24
Dutch Line	48	51
Total	497	452

Majority for Nelson—45.

Dartford district is the home of both candidates. Deputy-Reeve Nelson resigned some time ago when proceedings were started to unseat him on the ground that he could not legally hold the position as he was a school trustee in his section.

Sawmill Destroyed, Village Threatened.

BROCKVILLE, March 31. — The central portion of the village of Lyn, situated in the township of Elizabethtown, 5 miles west of here, was threatened by fire which last night totally destroyed the sawmill owned and operated by Orville A. Brundice.

New equipment had but recently been installed in the mill, which was a frame structure, and one of the oldest in the village. For many years it was operated as a last factory. Assistance was sent from the Brockville fire department, and the damage was largely confined to the mill, although several of the adjacent buildings were scorched.

The loss is set at $3,000.

HIS SLUGGISH LIVER MADE HIM FEEL DROWSY AND TIRED ALL THE TIME

When your liver becomes sluggish and inactive your whole health suffers, and the only way you can get back to feeling right is to make your liver right.

This you can do by the use of Milburn's Laxa-Liver Pills as they will stimulate the sluggish liver clean away all waste and poisonous matter from the system, and prevent, as well as relieve, all complications arising from a liver that has become inactive.

Mr. E. Hazel East Florenceville N.B., writes: —"I had been troubled with my liver and felt drowsy and tired all the time, and was unable to do my work with any comfort. I took your Milburn's Laxa-Liver Pills and to-day I am a different man, and would not be without them in the house."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

TOOK UNLICENSED INSURANCE, MUST NOW BEAR OWN LOSSES.

TORONTO, March 31. — That those who insure in an unlicensed insurance company must take their own risk, was the text of a judgment handed down at Osgoode Hall by Mr. Justice Smith.

Milan, Dimitroff, and others, merchants of Crowland Township, Welland, had an agreement with Cromwell Gonder whereby he arranged to have the plaintiff's goods insured. Later a fire took place, and they were told that the company carrying the insurance was not licensed in Ontario and was insolvent. The merchants subsequently sued Gonders for $7,600 and were awarded $5,000, but the Supreme Court of Canada ordered a new trial, which was heard before Mr. Justice Smith.

In dismissing the action His Lordship said: "I think that the defendant was entirely justified in telling the plaintiffs that he could not get them insured in licensed companies. He was guilty of no fraud, but said he could get insurance in unlicensed American companies, which Dimitroff accepted, and this constituted the whole contract."

WILLS TO GET A CHANCE.

NEW YORK, March 31 (Canadian Press). — Harry Wills, New Orleans negro, who has practically been barred for two years from the pugilistic "inner circle," yesterday took the first definite step toward reaching his goal of a title match with Jack Dempsey when he signed with Tex Rickard for two bouts this summer.

Rickard, in the most important pronouncement so far affecting the 1924 heavyweight programme, disclosed that Wills had signed for a match in June or July with Luis Firpo, or one of two other Latin-American prospects, and also, if successful in this test, for a title contest with Dempsey in September.

ALL HOPE ABANDONED.

BLUEFIELD, W. Va., March 29. —(Canadian Press).—Hope that any of the twenty-six men who were entombed by an explosion in the mine of the Yukon-Pocahontas Company at Yukon, would be brought out alive was virtually abandoned late last night.

Radio Mast

An old factory chimney in Plymouth, England, has been pressed into service as an aerial support for the new radio broadcasting station to be established there. Mr. Hine, steeplejack, of Battersea, affixed the aerial.

IN MILLBROOK AND DISTRICT

MILLBROOK, March 29.—The late Mrs. Joseph A. Richardson, whose maiden name was Mary Jane Nattrass, and whose death, following an extended illness, took place in Toronto last Sunday, was born in Cavan Township eighty-four years ago on May 25th, 1840.

Deceased was one of a family of six children, the other two daughters, Mrs. Steinthorpe and Mrs. James Richardson, having predeceased their sister, while of the three sons only one brother, Thomas Alfred Nattrass, of Alberta, still survives.

For some years after her marriage to the late Mr. J. A. Richardson, they resided in Millbrook, living in the late W. S. Given's homestead, now owned and occupied by Mr. H. A. Elson. Here their two sons were born, one of whom died when quite young from typhoid fever. The other, Wayne, lived to manhood, when he, too, passed away after an illness with the same disease. The late Mr. Richardson, who predeceased his wife nearly three years ago, was well known in railway circles throughout Canada through his long tenure of office as district and Canadian passenger agent of the Wabash railway.

Forty years ago, Mr. and Mrs. Richardson moved to Toronto to reside. For many years the latter was a faithful member of Broadway Tabernacle, and prior to that, of the Elm Street Methodist Church. Deceased was widely known and loved for her genuine Christian character and for the generous support which she gave to missions and to various forms of benevolent enterprise. No worthy claim presented to her for sympathy or aid, financial or otherwise, went unrecognized.

Besides her brother in the West, the immediate survivors are two grandsons, Clifford J. and Carleton S., both of Toronto, and five great-grandchildren.

Her pastor, Rev. W. L. Lawrence, B.A., conducted a largely-attended and impressive service at her late residence, 72 Henry Street, Toronto, on Tuesday evening, March 25th, the remains being brought to Millbrook on Wednesday at noon for interment beside her husband in the family burial plot at Gardiner's cemetery.

Rev. S. T. Tucker had charge of the brief service held at the undertaking parlors here, and also at the grave side, and referred in feeling terms to the fact that, although he had not the privilege of a personal acquaintance with the deceased, he had friends in Toronto, residing near her late home, who spoke in the highest terms of her Christian life and example.

The pall-bearers were: two grandsons, Messrs. Clifford and Carleton Richardson, of Toronto; two nephews, I. M. and H. Nattrass; a brother-in-law, James Donaldson; and G. E. Burnham.

At C.N.R. Conference.

Mr. P. Stinson attended the quarterly conference of C.N.R. officials which met in Lindsay on Tuesday, district extending from Portland, Maine, on the east, to Toronto on the west. Many important matters were under discussion, and keen disappointment was felt that Sir Henry Thornton, who had expected to be present, was called to New York instead.

The Rotary Club entertained the visitors at luncheon and the Board of Trade at dinner, the speakers in the evening being two former Millbrook boys, C. E. Weeks and T. B. Stinson, K.C.

Mr. F. W. Burton went to Lindsay for the At Home held in the Armouries in the evening, the C.N.R. employees of Lindsay being hosts for the latter function.

Mrs. (Rev.) J. E. Beckel Ill.

The many friends of Rev. James E. Beckel, of Castleton, who spent his last pastorate on the Bethany circuit, will regret to learn that Mrs. Beckel is seriously ill at the Oshawa Hospital. As director of religious education for the Bay of Quinte Conference, Mr. Beckel is well known as a successful organizer and speaker in all forms of young people's work, and there will be a general desire that Mrs. Beckel, whose illness has extended over a period of some weeks, may soon be restored to good health. Mr. Beckel spent the last week-end with her in Oshawa.

350 Contributed.

Three hundred and fifty dollars was received in contributions in connection with the 34th anniversary of the Bowmanville Methodist Church last Sunday, Rev. W. Harold Young, of Peterboro, speaking at the three services of the day. Rev. S. C. Moore, pastor of the church, was, in the early years of his ministry, a popular pastor on the Cavan South circuit, now united with the Millbrook charge. Rev. Mr. Young, who was born in Millbrook during his father's pastorate here, made his first appearance before a Bowmanville congregation on Sunday, the practical and interesting addresses which he delivered winning him a cordial reception, and assuring him of a welcome whenever his next visit shall be made.

Mrs. W. D. Bragg Dead.

Much sympathy will be felt for Mrs. J. W. Hamilton, who has been visiting her mother, Mrs. R. Osborne of Bowmanville, being called home owing to the serious illness of her sister, Mrs. Wesley D. Bragg, of Newcastle, the latter passing away at noon on Tuesday, March 25th, Mrs. Bragg's illness extended over a period of two months, and though two nurses were in attendance, and the best of medical aid was secured, her many friends in and around Newcastle who had been earnestly hoping and praying for her recovery, were saddened beyond measure when the news came that the Angel of Death had called her. Only a few weeks ago a large number of young people from the Methodist Sunday School, Newcastle, spent a delightful evening with Mr. and Mrs. Bragg and their daughters, in their home, none then realizing that it was the last time her hospitality would be enjoyed.

Deceased had been a very faithful member of the Newcastle Methodist Church, and, with her husband and family, took an active and capable part in all its undertakings and organizations, and her removal creates a vacancy which it will be difficult to fill.

Mr. Bragg and his three daughters —Mrs. Howard Allin, Miss Beatrice and Miss Grace—will have the deepest sympathy of the entire community in their time of bereavement. The funeral took place from the family residence on the Kingston Road, East, on Friday, March 28th, at 2 p.m. Interment at Bowmanville cemetery.

Leonard Morton, the eleven-year-old son of Mr. and Mrs. J. Morton, Pontypool, who was operated on for appendicitis in Dr. H. A. Turner's private hospital last Saturday, is progressing favorably toward recovery. Dr. Cameron, of Peterboro, was here to assist with the operation.

Mr. and Mrs. E. H. Syer, of Millbrook, announce the engagement of their daughter, Edna, of Toronto, to Mr. W. H. Clegg, of Montreal. The marriage will take place on April 12th.

POLICIES OF FORMER CABINET TO CONTINUE

PARIS, March 29.—(United Press) —The policies of the former Poincare Cabinet, both foreign and domestic, will be continued by the new Ministry, it was declared by the leading members of the Cabinet after its first formal conference with the Premier this morning.

M. Poincare officially presented all the members of his new Cabinet to President Millerand at the Palace of Elysee at noon. The President warmly congratulated the Premier on having succeeded in grouping about him the "most brilliant personalities composing his Cabinet." He added that the new Government could be assured of the President's full collaboration on all occasions in conformity with the nation's best interests for the settlement of the difficult problems of the present situation.

GREEK MILLIONAIRES IN FAVOR OF REPUBLIC.

LONDON, March 29. — (United Press).—Fifteen Greek millionaires have formed a committee of propaganda in favor of a Republic, according to the Daily Express. The group includes George Averoff, Greece's greatest landed proprietory; M. Panayotpoulos, the banker, and M. E. Embiricos, the "Greek armament king." The papers on which the people will vote at a national plebiscite on the question of Monarchy or Republic are white for the latter and yellow for the former. The Government chose yellow for the Monarchy owing to the popular dislike for that color, which always is associated with malaria.

Always

A safe and soothing remedy for cuts, burns, or skin troubles. Protects, relieves and heals. Take internally for coughs and sore throats.

"BOOSTER" CLUB FOR MARMORA

Public Meeting Monday to Consider Organization of a Board of Trade—Possibilities of Town Not Being Realized.

MARMORA, Mar. 29.—Marmora folk have apparently awakened and are beginning to see that the village cannot progress if everybody remains of the "knocker" type. Last week saw the birth of the "Booster" Club, which, as far as the merchants are concerned, is merely a board of trade. On March 31 a public meeting will be held at which all good, loyal citizens should be in attendance.

Marmora has been exceptionally well favored by nature in order to grow into a thriving town of perhaps twice its present population. It has great mineral possibilities as well as being a centre of a big farming and lumbering area. Thousands of horsepower is going to waste on the Crowe River, while power is being brought from a distance to Marmora and Deloro at a heavy cost. It is thus seen that the forming of the "Booster" Club should be by no means in vain.

But the town cannot grow, in spite of the foregoing reasons, if its citizens continue to live for themselves only, and give most of their trade to mail order stores instead of the home merchants

Then, there are those who continually make the lives of the members of the council unbearable by their lack of co-operation. They demand economy and low taxes and at the same time look for many expensive improvements. The people should make their choice as to who should be the village executives and then co-operate with them.

It is to be hoped that this venture will bear fruit and it certainly will, if everyone gets behind and boosts it. Therefore, on Monday night the town hall must be filled to capacity with "boosters." But "knockers" please stay at home.

Car Upset

On Wednesday morning a car owned by Mr. Walter Clark, Deloro, turned turtle a short distance west of Deloro Village. Mr. Clark had several men in his car and was returning from the midnight shift. Mr. Joseph Doyle sustained two fractured ribs, but the rest of the party escaped injury.

Mr. Jack Barry, who has been working at Milnet, near Sudbury, all winter, is visiting his mother.

The home of Mr. and Mrs. John Gehan was blessed with a baby girl on Monday.

TOWN WAS SCORCHED.

SASKATOON, March 31 (Canadian Press). — Damages close to $100,000 was caused by fire that destroyed almost an entire block of buildings in the town of Maville, on Saturday.

FISH CAKES.

Leftover fish may be made into delicious fish cakes by mixing with cornmeal mush in the proportion of two cups of meal and one of fish, held together by an egg. Green pepper or onion juice may be added for flavor.

CAMPBELLFORD AND DISTRICT

Social Hour at the Home of Mrs. R. Weston—Will Leave Campbellford.

CAMPBELLFORD, March 31. — A very pleasant afternoon was spent at the home of Mrs. R. Weston, on Friday, 28th March. The members of the Women's Christian Temperance Union met to have a social hour with the president and first vice-president, who are leaving town to live in Toronto, Mrs. R. Ballantyne, president, and Mrs. M. Hart first vice-president, leave on Thursday of next week for Toronto, where they have bought new homes. Mrs. R. Weston, the hostess, made a few remarks as to the object of the meeting and how sorry the W. C. T. U. members are at losing two of their officers, and how they will be missed in the work of the society as well as in the church to which they belong. Mrs. Weston, on behalf of the society, wished them all success and happiness in their new homes. Then she called on Mrs. L. Diamond to occupy the chair, and the following programme was given:

Solo—"Keep on Hopin'," Mrs. E. Bates.

Reading—"Prince Eric's Lily Wife," Mrs. Kingston.

Duet—"Breathe on Me, Oh God," Mrs. Hume and Mrs. T. Free.

Reading—"The Dandy Fifth," Mrs. Hammond.

Solo—"The Choir Boy," Mrs. C. W. Turner.

The programme ended, the hymn, "God be with you till we meet again," was sung, and prayer led by Mrs. Ashton. Afterwards all enjoyed the refreshments, which were supplied by the officers of the W. C. T. U., and a social hour was spent.

Mrs. Hume moved, seconded by Mrs. W. Hall, that a vote of thanks be tendered to Mrs. Weston as hostess, and the executive for the splendid lunch and for the programme.

Mrs. Hume also spoke of the great work done by the ladies who were leaving. This motion was carried, and hearty applause was given by those present.

Mrs. Ballantyne and Mrs. Hart each responded in a few words, and Mrs. Weston on behalf of the executive, he splendid afternoon closed by all singing "Blest be the tie that binds."

Born — In Campbellford, on 22nd March, 1924, to Mr. and Mrs. Bensinger, River Road—a son.

STEAMER CRIPPLED

NORFOLK, Va., March 30.—The French steamer Tours, which was in collision with the United States steamer Edward Luckenbach yesterday about 55 miles of Cape Charles, passed in through the Virginia Capes last night with a hole in her port side and leaking badly. The Luckenbach and the Coast Guard cutter Manning escorted the Frenchman. The vesels are bound for Hampton Roads.

WAFFLE PLEATING.

Waffle pleating is a new wrinkle from Paris, and it makes a pattern resembling that on the breakfast waffle. It is used on frocks and also on scarf ends.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears.

Try Musterole for sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it may prevent pneumonia). 40c and 75c. at all druggists.

The Musterole Co. of Canada, Ltd., Montreal.

MUSTEROLE WILL NOT BLISTER

Better than a mustard plaster

Farmers Complain That Their Crops Too Heavy.

By M. T. MEADOWS.

BUENOS AIRES, March 29.—(United Press).—Argentina is a wonderful country and the mass psychology of great groups of her producers is more wonderful.

It is not rare to hear Argentine farmers, for instance, lamenting what one might call an excess of good fortune. Indeed, this is what is occurring in the Province of Tucuman, the centre of Argentina's sugar industry, due to the fact that on top of an increase of 45,000 acres planted to cane, the yield per acre of the whole crop promises to break all records.

In fact, some of the sugar people in Tucuman are on the verge of hysteria, and the deliberate distruction of crops have been carried out in certain regions. In the same way, during years of abundance the fruit-growers in the Tigre district near Buenos Aires dump into the river great quantities of fruit rather than allow any of this to be sold below the exorbitant prices charged in the city markets of Buenos Aires.

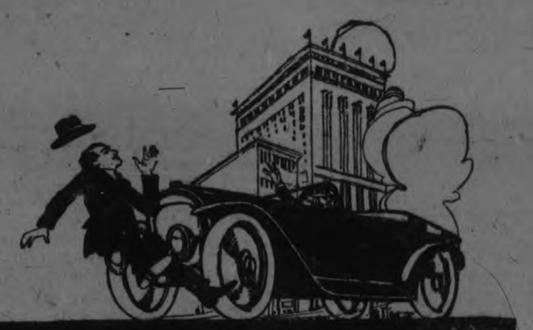
Likewise, the corn farmers of the country may be heard on all sides lamenting the fact that the corn crop this year is likely to exceed any ever produced and as a result a decline in prices may become inevitable.

From the potato-producing centres of the Province of Buenos Aires comes the same wail of overproduction.

TESTING FLOUR.

To test flour for bread making, wet a small quantity in cold water and work it into a stiff dough. If the dough becomes stiff and elastic the flour will make good bread.

FIRST AND PARAMOUNT, ABSOLUTE SECURITY TO POLICYHOLDERS



"I'LL take the chance of my early death," you say.

But you don't take the chance—you compel your wife and little ones to take it. Do you think that's fair to them?

Don't risk their future welfare! Invest a few dollars each year in an Imperial Life policy. It will provide for your family if you should die—it will care for yourself if you live to old age.

Our free booklet, "The Creation of an Estate," tells more about it. Ask for a copy to-day. You'll find it interesting.

MAN DRAINS BOTTLE AS SQUAD AIMS

The Fiddler Plays While the Executioner Works and Man Waits For Death.

(By Bob Dorman.)

SOLEDAD, Vera Cruz, Mexico, March 31. — The fiddler plays while the executioner works.

An the whole town turns out to see the condemned man go to his death.

Federal officers want it that way. It's an object lesson to others.

Take the executioner of Adrian Hermandez. The band wasn't there, but nearly all Soledad was.

Hernandez, a soldier in the army of General Eugenio Martinez, had been caught robbing a store. Now strict orders had been issued by Martinez against any looting. And Hermandez had disobeyed them.

A summary court martial was held that night. Hernandez was ordered to be shot at dawn.

Drinks and Smokes.

The break of day found a grim column of troops wending its way through the dust of the adobe lined streets. In the centre walked Hermandez, a stoical figure, nonchalantly smoking a cigarette.

Arriving at the scene of the robbery officers quickly formed a hollow square, Inside stood Hernandez, and the firing squad. Outside pressed against the lines of soldiers were the citizens of Soledad.

Men, women, children—all had come to see the final act.

The doomed man is led to the adobe wall of the store that he robbed. A bottle of tequila—the fiery drink of Mexico—is handed him. He drains it to the last drop, and then hurls the empty bottle against a rock.

He lights another cigarette, says a few words to the officer commanding the firing squad, who draws some money from his pocket.

A soldier leaves to return in a few minutes with another bottle of tequila.

Defiant unto Death.

Two swallows and the bottle is crashed against a rock.

Hernandez draws himself up. Defiantly he faces the store he robbed, his back to the firing squad.

Three sharp words break the early morning stillness—"Ready — Aim — Fire."

Hernandez has paid the penalty of his theft.

Lt. Col. Ramirez steps forward. His quiet voice sternly rises.

"Men, let your comrade serve as an example. You came to give guarantees—not to rob. March."

SAYS ICE IS SOLID AND WATER LOW

Chief Dan Whetung Does Not Remember the Water So Low at Buckhorn--Crossed on Ice.

Chief Dan Whetung of Curve Lake Reserve told The Examiner to-day that the ice is still so solid at the Curve Lake crossing that he drove over it this morning, and expects to cross again this afternoon, while the creeks and streams are still icebound. As a consequence, the trapping, which was expected a few days ago to be early, has not yet opened up.

The Chief, who is versed in such matters, declared the water has never been so low in his memory as it is now above Buckhorn, and The Examiner later verified this in an interview with Captain Richard Carson, game inspector.

Regarding the roads, Chief Whetung said they are in very bad condition, especially through Ennismore, and while fairly good in well-drained localities, they are almost impassable in others.

BOY RESCUED FATHER FROM A VICIOUS BULL

TORONTO, March 31 (Canadian Press). — Rushing into a pen at the Union Stock Yards, West Toronto, where two infuriated bulls had locked horns on Sunday morning, Michael Murphy, aged 55 years, of Keele Street, an attendant, was himself attacked.

He was forced into a corner by one of the bulls, and was being crushed when Murphy's young son, Edward, agd 15 years, entered with a heavy stick, saving his father from almost certain death.

Dr. George H. Gardiner, of Annette Street, who was called, found Mr. Murphy suffering from severe internal injuries caused by being forced against the side of the cattle pen.

The injured man was taken home in Speers' private ambulance.

NEGRO SLAYER MET DEATH EARLY TO-DAY

BELLEFONTE, March 31.—(Canadian Press.) —Lorenzo Savage, negro "Voodoo Doctor," of Pittsburgh, the convicted slayer of Miss Elsie Barthel, nurse, was electrocuted at the Penitentiary here to-day. Savage went to his death calmly.

Prosecuting Attorney charged that Savage killed Miss Bartel when she refused to pay for a "love charm."

GRENFELL LABRADOR MISSION

The Ministerial Association at its meeting on March 24th g. e its hearty endorsation to the Grenfell Mission, among the fishermen, along the barren coast of Labrador. It is hoped that the financial response may be worthy of the object.

Yours Sincerely,
C. W. ROSE.

The articles which have been published this week, have been sent to the local Society by Miss Warne, the coresponding secretary of the Labrador Medical Mission, or taken from the Grenfell Association Magazine, "Among the Deep Sea Fishers."

Those interested i the work are reminded that the annual member ship fee is only $2 and includes the quarterly magazine, and that a large membership will insure a regular income for the Mission.

A brief history of the Mission follows:

Dr. Wilfrid T. Greiffell, C.M.B., was sent out to Labrador in 1892 by the Royal National Mission to Deep Sea Fishers. On that occasion he found an honest, simple people totally lacking medical or surgical care, uneducated and without schools, earning by diligence a precarious living through fishing, furring and sealing and carrying on trade mostly through a system of barter. During the last 30 years, Dr. Grenfell, aided by other splendid medical men, nurses and teachers, has established eight hospitals at strategic points, four of which are open all the year, and the others situated on the fishing grounds, in the summer time only. There are other proofs of the advancement, a Seamen's Institute at St. John's, Newfoundland, provides a home when on shore for sailors, sealers and fishermen. A new cement block Orphanage has just been completed where the orphanage family is now housed, educated and equipped to earn a living. These orphans have one or both parents dead, and would get no chance in the world, but for that provided by this Mission. Industrial classes provide a means whereby women and girls can help out the meagre income, while nutrition classes for sub-normal babies and little children, give many a good physical start. Summer schools conducted by over 30 volunteer teachers, are steadily raising the standard of education in that remote part of the British Empire. Much has been done; more r ains to be done. Would you not like to have a share in supporting this humanitarian work? All funds are voluntarily contributed, and consist largely of annual membership of $2 a year or more. Your co-operation will be most welcome in carrying on the various activities of the Grenfell Medical Mission on our own North Atlantic Seaboard.

Subscriptions may be received by the Examiner, or may be sent to Mrs F. M. Somerville, 16 Inverlea Street, Peterborough.

Calomel is Greatest Medicine in The World

Cleans and Tones Up the Whole System

Your liver is poisoning the whole system, causing a tired feeling in the morning, sick headache, bad taste in mouth, sour stomach, indigestion, constipation, kidney trouble, etc. There is only one drug known that acts directly upon the liver, and that is calomel! Because so many people object to the ordinary calomel, it is now put up in a new form, called Tanol Calomel Tablets, which act with a gentle movement of the bowels and no salts or seidlitz powders are needed to remove it from the system, as it is self-eliminating. Get a few of these Tanol Calomel Tablets from the druggist and they will make you feel 100 per cent. better. For sale at Weber's Drug Store, Charlotte street. m.s tf

GROWING DISCONTENT IS THEME DISCUSSION

Two Million Workers Involved in Movement For Increased Pay.

LONDON, March 31.—(Canadian Press).—Existing and constantly growing discontent among the workers is the theme of much comment in the London press to-day. In section after section of industry demands for higher wages have reached a point of crisis, and it claimed that fully two million workers are involved in a big movement for increased pay.

Conservative and Liberal papers charge trade unions and their leaders with taking a narrow view of the opportunity presented by the accessation of the Labor party to power, holding that the Government's duty is to do what the unions desire and making demands which the country cannot grant. In these comments the Government is represented as in a critical position, the insistence of its supporters that it will introduce in the House of Commons a Minimum Wage Bill for the miners' benefit being cited as one instance of how the administration has been put in a serious fix.

GERMAN CYCLE RIDER SAYS HE HATES WAR

PARIS, March 31 (Canadian Press). — "I hate war, its horrors and massacres, and I take off my hat, in profound pity at the graves of the men who have been its victims, regardless of their nationalities."

Thus spoke Carl Wittig, German rider, yesterday at the conclurion of the 50 kilometer paced bicycle race which he won.

It was his retort to the newspaper criticism over the fact that he last Sunday was warmly greeted by the spectators at Veldrome, and presented with a bouquet for his gameness. After the race Wittig placed the bouquet at the foot of the monument erected o the French bicycle riders killed in the war.

NEWCOMERS ARRIVED IN TORONTO SUNDAY

TORONTO, March 31.—(Canadian Press). — Substantiating the claims that one of the largest immigration movements for several years is taking place at present, was the arrival in Toronto yesterday of over 400 new citizens. For the past two weeks a steady stream of winter arrivals has been remarkably increased, and special trains of both railways have been utilized to carry the westward-bound tide.

Toronto receives approximately 150 of yesterday's total, the remainder being distributed throughout Western Ontario and the Prairie Provinces.

MUSSOLINI PREDICTS UPRISING IN ENGLAND

LONDON, March 31. — (United Press). — Premier Mussolini of Italy foresees, "sooner or later," an uprising of the middle classes in England in a somewhat different form from the Fascisti, Sir Eric Hambro, prominent British banker, said to-day in an interview.

Sir Eric referred to a recent conversation with the Italian dictator in which Mussolini visualized an entire Europe under the spell of Fascismo.

"The keynote of Fascism is a realization that capital is the friend of the people," Mussolini said, according to the banker.

"For this reason they will eventually succeed in eliminating onpressive taxation from capital, thereby hastening a revival of industry."

Sir Eric predicted that Mussolini would have no difficulty in balancing the Italian budget with such views.

FARMERS SEEK SUMMER LABOR

As High as $45 Offered With Board for Thoroughly Experienced Farm Hands-Local Situation.

Employment in Peterboro is at a low ebb just now, but this is treated as the slump in business that invariably preceds the opening up of the spring season work, varying with the uncertainty of the weather at this season.

The greatest number of calls on the books of the local branch of the Government Employment Bureau, Mr. Hugh Robertson, superintendent, said to day, and a fairly good range of wages prevail. While it is true that some farmers offer as low as $15 and board, this for inexperienced men, the majority offer more, and some go as high as $45 and board. The general wages in this district appear to be around $30 and board for a month's work on a farm, this of course being for experienced farm hands. Boys are offered $15 and $16 and board.

Employers of farm labor in this district are learning that the men they employ are not willing to work in summer for the same wages they receive in winter, and some who allowed good farm hands to leave rather than pay a higher scale are finding difficulty in replacing them.

Building has not claimed many men yet, but reports are optimistic from several builders, some having contracts for several houses, indicating that when the weather warrants a start being made there will be considerable building under way. lyqfi sc c.Ssce k2i. Tse v mhtmhth

MR. JOHN R. MARSHALL ADDRESSED YOUNG MEN

Mr. John R. Marshall of the Canadian Nashua Paper Co., and President of the Kiwanis Club was the special speaker yesterday afternoon at a meeting of the young men of Murray Street Baptist Church. Mr. Marshall spoke on the need of all young men having faith, hope, and charity showing how Paul had epitomized these qualities as the three essentials in life. In an eloquent address the speaker applied the maxim annunciated by the writer of Corinthians to the different phases of present day life and urged upon his hearers the necessity of acquiring the qualities described. The Sunday previous the class was addressed by Mr. J. F. H. Wallace, manager of the Sun Life Assurance Co.

BOND'S DRUG STORE
COR. GEORGE and HUNTER STS.

Look Out, Jack!

This youngster, Thomas F. Garland Jr. of Milwaukee, is quite pugilistic already, even though he is only sev en months old. Just look at the pass he's making at his Daddy's nose. And you ought to see him performing from a coat hanger trapeze. He tips the scales at 22 pounds. At birth he weighed 9 3-4.

POSTAL MONEY ORDER

The purchase of Post Office Money Orders is recommended to the public as the safest, surest, most advantageous and most economical method of transmitting money through the mails.

It is always unwise to take unnecessary risk by enclosing currency in ordinary letters, which may be received by others than the intended addressees.

Money Orders may be obtained at any Money Order office in Canada, and are made payable in most every Country in the World. The greatest possible care is taken to insure payment to the designated payee immediately upon presentation of the Order.

In connection with Post Office Money Orders payable in foreign countries, remitters in Canada are assured that the payee will receive exact equivalents in foreign currency of amounts deposited, in accordance with current exchange quotations.

On the 1st July next, the Department will adopt for use in Canada the new Form of Order which has been in effect with the United States since the 1st of November, last, with such entire satisfaction. The ease and facilities with which these Orders are issued and paid are being greatly appreciated, and the so-called "Red Tape" feature of Post Office Orders has been entirely eliminated.

Postal Money Orders which have become lost or destroyed are duplicated without extra cost upon application, and the amounts are either paid or repaid as desired.

The Post Office Money Order Service protects the purchaser of a Money Order and guarantees prompt payment to the Payee.

DO NOT ENCLOSE CASH IN LETTERS. SAFETY FIRST. SEND MONEY BY POST OFFICE MONEY ORDER.

ENTERED ENGAGEMENT WHILE ONCE MARRIED

Mrs. Rose Hammerstrom of Ottawa, Fails to Gain Property of Fire Victim

NEW LISKEARD, March 31.—(Canadian Press).—Mrs. Rose Hammerstrom, of Ottawa, has failed in her action to recover certain articles of jewelry and silverware and some furs from the estate of the late H. H. Elphick, victim of the Haileybury fire disaster of eighteen months ago.

Mr. Justice Kelly, giving judgment in the case at the close of the supreme court sittings here, holds that there had been no legal transfer of the property claimed. His Lordship also declares that the whole transaction would fail on the ground of public policy, inasmuch as the alleged engagement to marry which the plaintiff said existed between her self and Elphick was entered into while Mrs. Hammerstrom was a maried woman, although living apart from her husband.

The plaintiff was housekeeper for Elphick and it was alleged at the trial that they were to have been married when stens had been taken to secure her freedom.

Why Not Learn?

How many of us have all the attachments for our sewing machines but never use one of them? It is only a question of learning how, and a half hour at the shop where the machine was purchased would save many hours of labor.

MEASLES ATTACK THE CHILDREN'S SHELTER

Three Children Are Seized and Home Quarantined--A Runaway and a Bequest in the Week's Work.

Three children at the Children's Shelter are undergoing an attack of measles, supposed to have been brought here from London with a new arrival, and the Shelter is quarantined as a result.

Ten of the children could be placed immediately, Mr. G. W. Powell, superintendent, told The Examiner, but for this quarantine, and he intimated that the outbreak is being passed around, so it is problematical when the children can be sent to their positions.

One of the Shelter boys, Kenneth Windover, who had been working on a farm near Millbrook, ran away from his foster home last week with a Barnardo Home boy, and the two were missing for three or four days. On Saturday they were found on farms near Ida Church.

A bequest of $200 was received on Saturday from the estate of the late Mrs. Caroline White, of Dummer Township.

NEW YORK WOMEN AIM TO IMPROVE CHILD'S HEALTH.

Trying to Make May Day This Year a National Children's Health Day.

By Hortense Saunders.

NEW YORK, March 31. — Make May Day, this year, a national children's health day.

That's the ambition of a group of New York Society women, who aim to better the health of 35 million children of the United States, including the two million babies born each year.

"May Day belongs so especially to the children," says Mrs. Oren Root, leader of the health crusade, "that it seems the time, above all others, to call attention to the importance of child health. It marks the time when children return to the outdoors, the gayest season of the year."

Five thousand men and women are working under the banner of the Child Health Association.

Surveys are being made in 84 cities representing all sorts of climatic and industrial conditions, to show just how much milk each child gets, how pure it is, what medical supervision and care is given to the children in the schools, and what opportunities for healthful play and hygienic homes are afforded.

They are even going into the matter of what time each child goes to bed at night and what time he arises in the morning!

"We want to make use of all this information to emphasize that child health is the personal concern of every citizen in the United States," Mrs. Root declares.

"We hope that, wherever these May Day celebrations are held people will ask themselves: 'Is the water supply of our community pure?' 'Are vital statistics properly kept?' 'Are our children suffering from malnutrition?' 'Is our milk supply properly inspected?'

"In other words, we want May Day to mean a day for the people of the United States to stop and think of these things, and having thought —to act."

Mrs. Root calls attention to the fact that physical examinations, given 22 million school children, show that five million have defective eyes, a million have defective hearing, a million have active tuberculosis, and a quarter million have organic heart trouble, and three to five million are underfed.

"Showing surely," adds Mrs. Root, "that something should be done."

POLICE AMALGAMATION TO AFFESCT PETERBORO

The amalgamation of the Highway police with the Provincial Police Force will probably affect Peterborough, Provincial Constable R. F. Davis said to-day, but in what way he is not certain. There will probably be one man detailed to highway work while one carries on the duties for which he, as provincial constable is now responsible.

An announcement of this amalgamation, which will do away with the special force instituted by Mr. Biggs in the regime of the late government, was made by Hon. G. Howard Ferguson a few days ago. There will now be a special branch of the Provincial Police Force to attend to highway matters, but the amalgamation will reduce the total number of men needed by the province. This will insure, it is expected, more uniformity of administration.

PLEATED APRON.

An apron of accordion pleating is effective in crepe, satin, chiffon, or practically any material, and is an excellent idea since the pleating never comes out.

CLARENCE TOPPING APPEAL UP TODAY

Unless Court Interferes Topping Will Hang Next Month.

TORONTO, March 31.— (Canadian Press)—Second divisional court, Chief Justice Latchford, presiding this morning reserved judgment on application by D. A. J. Swanson, representing Clarence Topping, for a new trial. Topping is sentenced to hang on April 10th for murder at London, in November of Geraldine Durston, court suggested that Mr. Swanson should telegraph to Department of Justice for mental examination of Topping suggested by trial judge be made at once, E. Bayly, K. C., Deputy Attorney General for crown, stated that he had written department calling attention to imminence of excution "it is only proper", said Chief Justice Latchford" that examination should be made. Question is whether what occurred at the trial was such an interference with administration of justice that it would warrant us saying there was miscarriage of justice, in my view it was not, I shall have to consult my colleagues."

Y.W.C.A. WEEK'S ACTIVITIES.

Special attention is called this week to the sewing meetings each afternoon and evening. On Tuesday and Thursday evenings the older girls of the Association are especially asked to help. The help of everyone will be appreciated as there is a great deal of work to be done.

The "Y" courts are open for Badminton games and many are learning and enjoying the game. Reservation may be made at the office. The Beginner's Ukulele class meets on Tuesday at 5 and the advanced class at 7 on Tuesday.

A week from Thursday the 9 Home Nursing classes will meet for a review, conducted by Dr. E. Wood.

The big gymnasium pageant will be given in the Grand Opera House on May 2 and 3. Tickets are already out for sale. All pupils are requested to attend every class from now to the exhibition. Parents and guardians are asked to please co-operate.

The activities for the week are:

Monday— 2.00, Sewing meeting; 4.15, Intermediate gym; 6.30, De Laval basketball; 8.00, Elementary gym class and Senior school gi

Tuesday— 2.00, Sewing eting; 4.00, Elocution lessons; 4.00, Boys' special class; 4.45, Junior school girls special; 5.00, Ukulele class; 5.30, Collegiate basketball; 7.00, Ukulele class; 7.00, Quaker basketball; 7.30, Sewing meeting; 7.30, Home nursing class; 8.00, Senior gym class.

Wednesday— 2.00, Sewing meeting; 4.30, Intermediate gym special; 5.30, Junior aesthetic; 6.30, Western Clock basketball; 7.30, Cumjoynus club; 7.30, Cheerio club; 7.30, Home Nursing club; 7.30, United club.

Thursday —2.00, Sewing meeting; 4.00, Collegiate basketball; 7.00, Normal School basketball; 7.00, Senior aesthetic dancing; 7.30, Sewing meeting; 8.00, Ladies' gym.

Friday — 2.00, Sewing meeting; 4.00, Babies' class special; 4.45, Senior school girls' gym.; 4.30, C.O.S. club; 7.30 Monday and Tuesday night, senior gym. classes.

Saturday—9.30, Junior gym.; 10.45, Babies' gym.; 2.00, Ever Bright Club; 2.00, Sunshine club; 4.00-9.30, Badminton games.

DAUGHERTY HAS NOTHING AGAINST THE PRESIDENT

ATLANTIC CITY, March 31 (Canadian Press). — Former Attorney-General Daugherty, in a formal statement issued last night, declared that he had no personal feeling against President Coolidge, and made known his intention of helping the Chief Executive "at any personal sacrifice."

MILK PRICE SET BY CHEESE COST

One Firm Reduces Price in Peterborough, Now on Level With Majority at 10 Cents.

With the advent of spring has come a reduction in the price of milk retailed by the Milk Products Company, bringing it to the level of the average independent dealer, but so far as could be ascertained from a few of the smaller dealers to-day, no general reduction below 10 cents is proposed.

G. A. Gillespie, manager of the Milk Products plant, said the reason for this decrease is the outlook for the cheese industry. All indications now are that the price of cheese will be lower this year, hence the reduction in the cost of milk. As usual at this time of year, the supply of milk is increasing, and this has a downward tendency on the price also.

Peterboro, with ten-cent milk, is as low as any city in the Province, according to the Government statistics, and is two and a half cents below the average for the Province, which is 12.5.

Ten cents a quart is the low mark in Ontario, Brockville, Kingston, Orillia, Guelph and Woodstock being the only other cities having so low a price, and on the other hand milk costs 20 cents a quart in Timmins, 15 cents in Windsor, 14 cents in Port Arthur and Fort William, and 13 cents in several other cities. The average price in the Dominion is the same as for Ontario, 12.5 cents, and only three cities in the Dominion have a price as low as 9 cents.

A BROADWAY COMEDIAN OCCUPIED THE PULPIT

NEW YORK, March 31.—(Canadian Press).—"Many have condemned me for continuing in my profession," said Fred Stone, Broadway comedian, speaking yesterday from the pulpit of Chelsea Methodist Church, "but men are not obliged to give up their business to become Christians. We have wonderfully religious people on the stage of all creeds.

"I will give my best to my audience, if my experience helps others to gain happier thought in life, and if I can be the means of advancing the faith I have adopted, I shall feel that I have been rewarded beyond my deserts."

Health is Practically Everything to Everybody

GOOD HEALTH—that rare feeling of perfect physical fitness—is the most-sought-for blessing in the world. It is practically everything to everybody. It is so definitely related to the things we eat that certain foods are a boon to the health of mankind.

Grape-Nuts is one of these foods!

For into Grape-Nuts goes all the nourishment of Nature's finest grains—wheat and barley. These grains supply Phosphorus for strength and vigor. Starches, happily changed to sugar form, by a special process of slow baking, to build and repair tissues. And roughage—to clear the body of toxic poisons.

Grape-Nuts have that delicious flavor. The tasty goodness of them makes you want to eat them. Their crispness makes you chew it—it is good for the teeth. It is easily digested, soundly nourishing and economical, because each package contains a great many helpings. Serve it right from the package—with cream or milk. Your grocer has it.

GRAPE-NUTS CLUSTERS

1 teaspoon butter, 2 tablespoons cream or top milk, 1 cup Grape-Nuts, 2 squares unsweetened chocolate.

Melt chocolate in double boiler, stir in butter, cream and Grape-Nuts. Drop from a spoon onto marble slab or oiled paper and let stand to harden. This recipe makes 12 to 15 clusters.

YOUR GARDEN

SOIL PREPARATION

Once you have the site for your garden selected, the next thing to do is get ready to plant it.

If the surface ground is so hard it cannot be spaded or plowed, a mattock should be used and the soil broken to a depth of eight or 10 inches.

Plenty of manure should be turned under. But do not use sawdust and mill-shavings on garden land.

Nothing is gained by working the land before it is sufficiently dry.

And remember that the longer rest you allow between spading and planting, the better your garden will grow.

Plants do not live by water alone. They require air, too.

And the only chance air has of reaching the roots is by filtering into the ground after it has been turned and broken.

To see if the soil is ready for planting after you have prepared it, press a small quantity in the palm of the hand.

If it is too wet for working it will adhere in a solid mass. But if dry enough to work it will crumble apart.

Should conditions be favorable following this test rake and hoe the soil to a depth of four to five inches.

Coal ashes have little value as fertilizer. Their function when employed is mainly to loosen the soil and make it workable.

Rotted leaves also make good fertilizer.

But organic matter obtained from barnyards should be employed with care, as it may burn the seeds if placed in direct contact with them.

Best results are obtained with commercial fertilizers, where there is plenty of manure or organic matter in the soil.

Nitrate of soda is frequently used as a side-dressing, especially with crops grown for their leaf value, rather than for fruit.

The ideal soil is a dark, sandy loam rich in organic retentive matter to hold large quantities of moisture, which carry the crops through periods of drought.

Be sure you have all debris, such as tin cans, rocks and other trash removed from the land before planting.

Expensive tools for the garden are not necessary. A good spade or spading fork, a hoe, a steel rake, a trowel and a watering can are all the implements required for cultivation of the small plot.

If weeds grew rank upon the land it is a good indication that the soil is good.

But don't plant anything near maples and oaks. These trees steal the moisture and food from the crops.

To-morrow: Selection of seeds, and how, what and when to plant.

Norwood Correspondence

NORWOOD, March 31.—Mrs. Howard and daughter Lois, who have been visiting her mother, Mrs. Richard Beamish, returned home to Smith's Falls on Monday.

Mrs. F. J. Pearce was in Peterborough on Tuesday.

Mrs. I. Puffer and Miss Mabel Puffer were recent guests of Mr. Gordon Puffer, Peterboro.

Mr. C. W. Waters was in Toronto during the week on business.

Mrs. John McNeely of Peterborough is a guest at the home of her brother, W. J. McLaughlin.

Mrs. W. A. F. Campbell of Port Hope is visiting her mother, Mrs. J. B. Pearce.

Mrs. George Kirk and daughter Lila spent Tuesday in Peterborough.

Miss Blanche Pearce was in Peterborough on Wednesday.

Mrs. Wm. Chamberlain spent Wednesday in Peterborough.

Mrs. Outwater visited friends in Peterborough during the week.

Mr. F. J. Squire of Havelock was in the village on Wednesday.

Mr. F. J. Stewart was in Peterborough on Thursday on business.

Mr. M. Lonsborough was in Peterborough on Thursday.

Mrs. M. Engisch was in Peterborough on Thursday.

Mr. George Salome was on a business trip to Toronto during the week.

Mr. Harry Harper of Havelock was in the village on Wednesday.

Mr. Scott of the Union Bank staff, Campbellford, is relieving in the local branch.

Mrs. Jas. McNichol and Miss Annie McNichol visited the former's daughter, Mrs. W. J. Grady in Peterborough, on Friday.

Mrs. Lorne Fife was removed to the Nicholls Hospital, Peterborough, on Tuesday afternoon. Mrs. Fife has been seriously ill for some time.

Mrs. Herb McKay of Bethel was a recent guest of friends here.

Mr. and Mrs. John E. Roxburgh were in Toronto during the week attending the funeral of the late Miss Janet Manson, whose death occurred Wednesday in the Pembroke Y. W. A. The deceased had been superintendent of that organization since 1911.

Mrs. Thos. Ridyard of Detroit, Mich., is a guest at the home of her father, Mr. Wm. Rogers.

Mr. H. A. McColl has purchased from Mr. T. E. Finlay the brick house on Queen street, lately occupied by Mr. John Rogers.

Mr. I. Rusaw has purchased from Mr. J. Gardner the house on Colborne street recently occupied by Mr. Thos. McMaster.

Mr. Thos. McMaster is moving to the apartments over Mr. Stevens' harness shop on Peterborough street.

An illustrated lecture was given on Friday evening in the Baptist Church by Mr. Wilkinson, missionary to Africa.

A play, entitled "The Young Country Schoolma'am," will be presented in the Town Hall, Norwood, on Friday evening, April 4th, by some of the members of the Young People's League of the Methodist Church.

The Ladies' Aid of the Methodist Church held a tea and sale of homemade cookin, at the home of Mrs. B. W. Squire on Wednesday afternoon.

The W.M.S. of St. Andrew's Presbyterian Church held their March tea on Thursday afternoon at the home of Mrs. Hugh Robb.

SOUTH SEA PEARLS CLOTHE TAHITANS IN SILK RAIMENT.

Rich Returns For Divers Off Hikueru This Season--Successful Divers Clothe Wives in Finest Silk.

PAPEETE, Tahiti, March 31.—Pearl diving off the island of Hikueru has yielded rich returns during the season just closed. Both pearl shells and pearls of high value have been found in large numbers in the waters of the lagoon.

These pearl oyster beds had been under restriction for a number of years and for that reason the jewel crop was unusually good.

The diving is done by natives who have trained themselves from childhood to descend to great depths and remain under water a long time. No diving machines are permitted.

The Tahiti merchants establish stations at the island during the season to buy shells and to sell provisions and luxuries to the divers and their families. Representatives from Paris jewelry houses always are on hand to compete for the better quality pearls. Pearls of lesser value fall into the hands of speculatively inclined Chinese and European schooner captains. From long experience the natives are fully aware of the value of their finds, so that not many bargains are available.

The South Sea island native reacts to prosperity ostentatiously. The wife of the successful diver parades the white coral beach of Hikueru clad in brilliant silks, high heel shoes, picture hats and most costly Chinese shawls. In the island of Bora Bora, where the high price of vanilla beans has raised growers of that staple to temporary affluence, the Chinese shawl has been by the men as the insignia of great riches. It is worn draped around the neck, with the embroidered ends hanging gracefully down the back and chest. The real vanilla barons wear, in addition, a second shawl of a different color about the waist.

Many stories of lucky finds at Hikuern have drifted into Papeete. One tells how the keeper of a semaphore signal at Papeete, who went to the island on a holiday, happened to see a large pearl oyster lying in a shallow water near the beach, dived for it and on opening it found a pearl for which he received 15,000 francs. Another relates that an old native woman, while fishing on the reef, stubbed her toe against an oyster that yielded a gem worth $1,000 gold.

Riches, however, never do a Tahitian native any permanent good. They are dissipated immediately in fine clothes, cases of tinned salmon (no native will wet his toe in the sea in search of fish if canned salmon can be had), guitars, accordions, and all manner of trivial amusements.

Then, when the tide af affluence has ebbed, the Tabitian returns to his loin cloth and his bread-fruit and fish diet until another crop of copra or vanilla has matured, or the restriction has been taken off another pearl island. But in the prosperous era he has lived gorgeously.

AVOID SOGGY FAT.

When frying doughnuts or making French fried potatoes in deep fat, avoid using too many pieces at one time, or the fat will be absorbed by the food.

TRAGEDY TOOK LOVING MOTHER

Mrs. Bauer's Every Moment Devoted to Little Girls, Says Her Parent.

Latter Had Premonition.

NEW YORK, March 31.—Somewhere a man is hiding or fleeing because he has broken the most primitive law of mankind—he has killed the mother of two young children. He has taken away the natural protector of two little girls.

Mrs. George Pero, the mother of Mrs. Maude Bauer, told of what motherhood had meant to her daughter. She said:

"Maude's every moment was devoted to the two children. She not only bathed them and dressed them and cooked the right kind of food fo them, but she was their companion.

"She used to tell them stories, and she used to take them for long walks and for rides. In the Summertime she took them swimming.

"More than that, she laid aside a little every month, so that when they were old enough she could send them to college."

What Can Atone?

Mrs. Pero let her eyes fall before the question that has recurred to her ever since the dread afternoon of the tragedy:

"What can atone for the loss to these children of their high-hearted young mother? What can ever bring back the beauty and love of her motherhood to them?"

It makes little difference whether the slayer of this young mother is found; little Maude and Helen Bauer have lost the most precious thing in the world.

Somewhere wanders at large a dangerous creature who insanely kills women; out of the world has gone a fine mother who was doing the most constructive job in the world—raising her family in love and high ideals.

Would Not Scream

Mrs. Pero looks out thoughtfully upon the world of facts and tells of that afternoon on the lonely road:

"When I saw my daughter's body lying there wanted to scream out, but I knew that would be the worst thing in the world for the children to hear. I had to keep a tight hold on myself to keep them from receiving a deep shock.

"It really made very little difference how I suffered at seeing my daughter there; the important thing was to shield Maude and Helen.

"They will remember their mother as strong and young and beautiful. That is something."

Maude Bauer was born on Staten Island in the neighborhood where she was living at the time of her death. Her childhood and young girlhood were spent among persons who live simply and placidly. Her mother told of how she sang in the choir:

"Maude had a lovely alto voice—not powerful, but most pleasant. She was soloist at the Park Baptist Church for many years."

Trained as Nurse

Mrs. Bauer took a nurse's training course at the Parker Hospital in New Brunswick. After that she returned to Staten Island and lived with her parents.

Eight years ago she was married to Walter Bauer. Last year the Bauers lived at Keyport, but a contemplated change in his business caused them to go back to Staten Island and stay with Mrs. Bauer's parents.

They were looking for a house to buy in Rutherford or Linden, New Jersey.

Mrs. Pero said:

"My daughter was always very strong and self-reliant. She could swim and skate and play tennis with the best of them. I think when she put up a fight in that closed car her slayer realized that he had met his match and in fear resorted to his pistol."

Mrs. Pero then remembered an intuitive warning. She said:

"I felt a strange uneasiness when Maude started out up the road. I never had felt it before."

DYING MAN CALLING LOST SON BY RADIO

Boy Ran Away to Become Minister Thirty-two Years Ago —Father Seeks Him Now.

WINDSOR, March 31 (Canadian Press). — Critically ill from an attack of pneumonia, from the effects of which physicians declare he is unlikely to recover, George Liezert, aged 79, lies gasping his life away.

His only hope is that before the Grim Reaper comes his only son William whom he has not seen since the boy ran away from home 32 years ago, following a parental reprimand, will reach his bedside in time to say farewell.

In an effort to locate the son, who after leaving home took the name of Murray and later became a Methodist minister, the aid of radio has been sought.

From broadcasting stations in Detroit last week appeals were broadcasted requesting the knowledge of Rev. William Murray.

Yesterday afternoon a message came from Detroit stating that "Rev. William Murray is pastor of the Methodist Church at Rose City, Mich."

RADIO NOTES.

Diaphragms Are Delicate.

The caps on telephone receivers should not be unscrewed unless it is absolutely necessary. If this must be done to tighten connections, etc., be carefull not to bend or dent the diaphgram in any way.

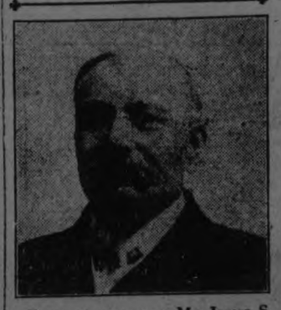
Fading Signals.

When a station "fades out' after it has been tuned in there is no use trying to find it by shifting the tuning dial. By waiting a few seconds the station will come in again with maximum intensity.

Remove Tubes Before Repairing.

Never begin repairs on a set or make a change in the hook-up until all the tubes are removed and laid carefully away. A fairly heavy tap with a screwdriver or other tool will break the glass bulb of a tube.

Health Restored by The Fruit Treatment



Fourteen years ago, Mr. James S. Delgaty, of Gilbert Plains, Man., was a nervous wreck. His system was shattered by Nervous Prostration, and he was reduced in weight from 170 to 115 pounds.

He wrote on May 15th, 1917, "Every medicine I tried proved useless until a friend induced me to take 'Fruit-a-tives.' I began to mend at once. After using this fruit medicine for three months, I was back to normal. I have never had such good health as I have enjoyed the past six years. We are never without a box of 'Fruit-a-tives' in the house."

Writing again on September 27th, 1923, Mr. Delgaty says, "I stand by my letter to you in 1917—I still recommend 'Fruit-a-tives'."

"Fruit-a-tives" is a complete fruit treatment—being made of the juices of fresh ripe fruits and tonics.

25c. and 50c. a box—6 for $2.50—at druggists or sent postpaid by Fruit-a-tives Limited, Ottawa.

MAKING MONEY MAKE MONEY

Brief but Important Lessons in Finance, Markets, Stocks, Bonds and Investments.

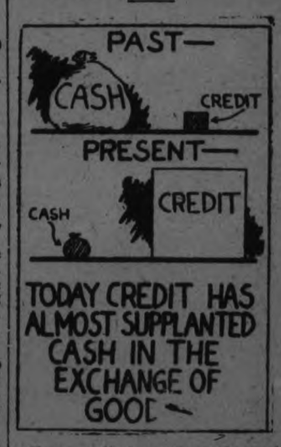
The New York Stock exchange does a great deal to prevent bucketing by denying ticker service to firms which cannot prove that they are respectable and reliable.

Even a bucket shop must have quotations on stock and bonds. No one will be fooled consistently by a concern which has no ticker service.

The New York Stock Exchange has a committee which is continually checking up doubtful firms. If a firm's conduct is unbusinesslike, the ticker service is taken out.

If crooked brokers could easily obtain quotations, one of the greatest handicaps to bucketing would be removed, and we would undoubtedly see a great spurt in the business of bucketing.

Before buying stocks from a broker who claims to be a member of the New York Stock Exchange, be sure he has a ticker.



Your credit in constant jeopardy will work for you no more efficiently than an employee in constant fear.

Credit is as sensitive as your neighbor's feelings. You cannot afford to be careless with either. Many men have ruined their credit and come to grief through their careless willingness to become responsible for others.

Surety is the protection the other fellow demands against the risk you are willing to take for nothing. If there were not risk involved, there would be no surety required. When men who cannot afford to lose money sign as sureties, they take chances they have no right to ask a friend to be your surety unless that friends can afford to lose the money. There are regular surety companies doing this sort of business.

Efficient "DX" Tuning.

Get into the habit of using the earphones when tuning in a station before turning on the loud speaker. It is easier to control the regeneration in this way and less squealing will be heard in others' receivers.

IN A MILLINERY SHOP

THE CHILD'S LUNCH BOX.

Never put any food objectionable to the child in the lunch box. See that the lunch box contains just as well-balanced food as the child would receive were he to eat at home. A small covered jar may be tucked in one corner of the box to contain a surprise of some sort—a little pudding, a few pieces of candy—anything pleasing that will make the jar more or less of a mystery.

CHEAPER CUTS.

Instead of always buying steaks and chops, which are the most expensive of meats, remember that the cheaper cuts may be used for meat pie, meat loaf, pot roast, hamburger or stew.

STRAIGHT PICTURES.

If pictures get out of alignment, hang them in this manner: Put the cord over the hook so that the picture faces the wall, but is quite straight. Then turn it over to the right side. The loop formed will prevent the cord from slipping.

Canada's Muzzled and Gagged Industries

THERE are some industries making products so good it is a shame not to spread the news about them all over Canada.

These industries might truly be termed Canada's *muzzled* and *gagged* industries.

The factory wheels turn, but the public hears them not. These industries do not speak to the great consuming public. They are silent. The mass of the people knows little or nothing about the good products these industries make.

Not knowing the true merits of the products of these *muzzled* and *gagged* industries, consumers are indifferent about them. They sidetrack them in favor of goods more widely known and more energetically sold.

The *muzzled* and *gagged* industries need to speak out. They need to tell the people about the quality of their goods.

Unless a manufacturer shows enough confidence in the merits of his product to come right out boldly in the newspapers, magazines and farm papers and advertise it, how can he expect the public to buy it with confidence or give it the preference?

It is only products the people know by reputation that they buy with ease and confidence.

National Advertising is the greatest creator and enhancer of reputation, the business world has ever known. It is the voice by which modern industries speak to vast audiences of consumers. By its use, many new products have been able, in a few years, to establish themselves on the market, and outstrip in sales and prestige older unadvertised lines that have been on the market for many long years. Advertising, also, has helped many an old industry get a stronger hold on its market and increase its prestige and sales.

Proofs of the power of advertising are known to you and to all of us. What it is doing for others it can do for you.

Let us help you take off the *muzzle* and remove the *gag* from your industry. Our large organization of experienced advertising men has helped other makers of good products to speak out successfully to the public. A conference with us, either in your office or in ours, will not obligate you in any way.

Service with Sincerity

HEARTS AFIRE

by May Christie

The Brilliant Novelist of Modern Society

(Continued from Saturday)

WHO'S WHO IN THE STORY

Prudence Page, a charming country girl, has fallen in love with

Bert Traymore, a fascinating philanderer, who is in no danger of losing his heart over any woman.

Janet Mercer, Prudence's dearest friend, an older woman, plain but clever, is in love with Will Ogilvie. She is masseuse to the delicate child of

Mrs. Vansittart, a pleasure-loving woman-of-the-world, owner of Winston Towers, a beautiful summer home, which she fills with visitors.

Virginia Dale, her ward, is a blase beauty, who counts Traymore among her many swains. She is genuinely interested in

Peter Armstrong, a brilliant young inventor, clever and ambitious, who has evinced considerable admiration for Prudence. Virginia finds nothing to admire in the country "chit," as she calls the girl.

Traymore is attempting to convince both Virginia and Prudence of his love, and Prudence is suffering deeply.

In an outburst to her father, Prudence tells him that she is not content with life on the farm.

CHAPTER XXXII.

A Perturbing Thrill

Prudence walked along the country roads towards the library, revolt against her present circumstances still welling in her consciousness, mingled with regret at having caused her father pain.

But, worst of all, was the interminable heartache over Traymore's conduct.

She hadn't seen or heard of him in days and days!

True love didn't act that way.

And—and the awful discovery of that letter to Virginia Dale—she couldn't shake it from her mind!

She hated Traymore even while she loved him. Queer anomaly!

And yet she longed for him, his kisses and his insincere love-phrases. To drug her mind with them meant a cessation from this pain.

It had rained heavily in the night, and ineffably sweet breezes fanned her flushed young face as she tramped along the winding roads that led to the little country town where the library was located. 'Growing weather,' the farmers called it; matter-of-fact men they were.

"Father would like me to marry one of them," thought Prudence, the tide of resentment welling in her heart again, and her soft lips curling in an unaccustomed twist of scorn. "Father would like me to be a vegetable, and 'safe'."

Who wanted safety when the outside world must be so wonderful and so inspiring?

Oh, to forget Bertram Traymore and his kind!

Alas! she couldn't!

She passed the wood that had been their trysting-place a score of times. Spikes of flowered bluebell that would soon spread to a sapphire flood, grew to its very edge. There was the butter yellow of bunched cowslips in the meadow, too, and in the marshy great splashes of king-cup gold. And all along the roadside there were trails of blue, blue seedwell that had drunk refreshingly of the soft April rain.

If the course of true love had run smoothly, never would she have wished to leave this lovely spot.

But, to-day, its beauty hurt her, just as Bert had hurt her, with his gay good looks and smiling care-freeness.

Swallows, their wings intensely blue in the sunshine, skimmed across the road. The warmth had opened more fully the moist sprays of the fruit-trees, too, and all the orchards of the countryside were blushing rosily. Chaffinches were warbling gaily everywhere, taunting Prudence with their song of joy and love fulfilled.

She swung along the road, her vagrant mind on Bert . . . Virginia Dale . . . hope of a coming letter . . . hope of an explanation . . . hope of an opportunity to grant him full forgiveness.

Ah! but would he give her such a chance? Had he not—(oh, painful, agonizing thought)—had he not planned this turn of affairs, just to let her know that he was 'through' with her?

If so, she couldn't beat it . . .

So wrapped up was she in her own perturbing thoughts that she failed to see a figure that she knew strolling in a cottage garden.

It was a very pretty cottage, set back a little from the road, with a big shed built on at the side for a laboratory.

But the tenant, at the moment, wasn't working. He was out in the early sunshine, taking a 'breather' from his toil, succumbing to the magic of a sweet spring morning, and listening to the deep humming of the bees about the hive.

"Good morning, Miss Prudence. Whither away?"

She started at the sound of Peter Armstrong's voice, for a moment staring at him stupidly.

"I—I didn't recognize you." Yes, of course, it was he, in the very shabby suit he'd worn the first occasion of their meeting, when she took him for a tramp! "I'm going to the library to get a book on sweet pea growing."

"Oh, I have a couple that maybe you'd like to have a look at." He opened the garden gate invitingly, his eyes eager. "Do come in and have a look at my domain."

She hesitated. Then, catching sight of old Nanny moving about the interior of Pear-Tree Cottage, yielded to curiosity, and an impulse for company and distraction.

"Just for a moment. I—I'd like to see the new addition. I can't pronounce its name right, lab—labor——"

"That's the Latin for 'work'," said Peter Armstrong, with a genial grin. "Nothing like hard toil, you know, to chase away the blues."

"I've got the blues this morning," supplemented Prudence, unexpectedly. "Can you give me a job?"

He laughed outright.

"Your job is just to go around looking the way you look just now. That's accomplishment enough."

She flushed. Bert Traymore often had said that sort of thing, but with a glib quickness the other lacked.

And Peter Armstrong's eyes—such handsome eyes—looked directly at one—honest and sincere. He didn't pay one compliments. Everything he said he meant. That was one sure thing about him.

"But I don't have to work to make myself look the—the way I do."

She flushed hotly after the words were spoken, for fear he would misunderstand and think her vain.

But, for answer, he merely led the way to his laboratory.

It was a long, low shed, with several skylights and a couple of windows, giving lots of light for the 'experiments' conducted in the place.

A long shelf, crammed with books of reference, records of work accomplished, and bundles of paper, ran along one side of the room.

Below the shelf there was a long table with lots of bottles on it, of queer shapes and sizes—burettes, pipettes, and measuring flasks; a delicate balance, in a glass case, held a prominent position.

And on another, smaller, table in the centre of the place, was a queer, muddy mess, that looked like blacklead. The greasy mixture was on Peter Armstrong's coat, too, and a little of it on his hands.

"I've been mixing up lubricants," he said, cheerfully, noticing her glance. "I test them on these little spinning fraction discs"—he indicated the articles in question—"blending different kinds of oil with graphite."

Prudence didn't understand it, but the sound of his attractive voice somehow seemed to ease her pain. He talked as though he really enjoyed her company, and desired it.

"I wish I had a career," she said suddenly. "I envy workers, like yourself. I wish I were different from the—the stupid, dull creature I am——"

"Don't talk like that! If you only knew——!" the man began.

Their eyes met, his holding hers in an odd spell that sent a strange, perturbing thrill through every fibre of her being.

In To-morrow's Installment Virginia Suffers a Mishap.

PLAY PRESENTED AT WARKWORTH

New Members Received By Ladies' Aid of Methodist Church—Personal News From Percy Village.

WARKWORTH, Mar. 31.—Mr. and Mrs. Milford McVety were in Brighton on Thursday attending the funeral of the latter's uncle.

Mr. and Mrs. F. H. Moore entertained a number of friends on Thursday evening.

Mr. Geo. Stewart, of Belleville, was in town a few days, the latter part of the week, on business.

The Ladies' Aid of the Methodist Church held their regular meeting at the home of Mrs. S. A. Kemp. Two new members were added to the list.

A number of friends were entertained by Miss Nellie Ewing on Friday evening.

The play, "Red Acre Farm," which was given by the Oak Heights Dramatic Club in the town hall, Friday evening, under the auspices of the Women's Institute, was a success.

Contracts for Hydro lighting have been taken out by Mr. Harold Insley and Mr. Oscar Phillips.

LONDON CORNFLAKE CO. AND KELLOGG COMPANY AMALGAMATE.

Plant to Be Doubled.

LONDON, Ont., March 31. — Important negotiations for a large merging of commercial interests were concluded when the Battle Creek Toasted Corn Flake Company of city and the Kellogg Company of Battle Creek, Mich., were merged. This merger is of more than passing interest to the general public, because not only does it amicably terminate a long period of litigation, but it will enable the two companies to greatly enlarge their present manufacturing capacity, which has become a necessity to supply the rapidly increasing demand for the products of these two companies.

It is announced that the Toronto plant will be transferred to the new head office and mills in London, and increased production will take place with the least possible delay.

Mr. W. K. Kellogg and Mr. J. L. Kellogg, president and secretary of the Kellogg Company, were in the city for the closing of the deal, and Mr. J. F. O'Brien, vice-president and general manager of sales, who accompanied them, stated that the merger of the Canadian and American companies would enable the Canadian Company to at once cope with the huge daily increasing demand for Kellogg's breakfast cereals.

ADVENTURES OF THE TWINS

By Olive Roberts Barton

PATENT-LEATHER PUSS PAYS A PENNY

"This is great for me!" he shouted at them.

"Well," said Mister Fuzz Wuzz, the pipe-cleaner man, when the Twins got back to the courthouse in Doofunny Land, "did you find the tin mouse?"

"Yes," said Nick, "he's under a board and won't come out He says to tell you he isn't there!"

"That shows that his guilt is as plain as the tail on my back," said the patent-leather cat. "I knew it all the time."

"I'm not so sure about that," said the rubber dog, and he whistled indignantly through the top of his head by drawing in a deep(breath and then letting it out until his sides touched.

"Gentlemen! Gentlemen!" cried Mister Fuzz Wuzz, hammering loudly. "That is no place to fight. And since the mouse won't come to court, the court will go to the mouse. Come, ladies and gentlemen."

The napkin rabbit saw them coming and flopped his ears with joy. "This is great for me!" he shouted at them. "I can't move because I am coming untied. But now I'll see everything."

"My goodness gracious!" cried Nancy. "I could have tied you together. I never thought of it. Here I'll give you a good pull and you'll stay together for a long time. There! How's that?"

"Oh, fine, thank you!" cried the napkin rabbit, hopping around and shaking his nubbin of a tail. "That's like old times."

"Say," said Mister Fuzz Wuzz sternly, "is this a trial or a hospital for fixing rabbits? We'd better get down to business. Sit down everybody. Where did you say the tin mouse was?"

"He's hiding under that board," said the napkin bunny. "I've been watching so he couldn't get away."

"Are you there, Mister Mouse?" called Mister Fuzz Wuzz sharply.

"No," came a squeaky voice. "I'm not here at all! But if I was, I wouldn't come out anyway with that old cat there."

The patent-leather cat trembled with rage, but said nothing.

"Then we shall try you where you are," said Mister Fuzz Wuzz. "Now give us your testimony."

"My wh—what?" came the voice. "I never had anything like that in all my life."

"I mean, tell us all you know about the peanut boy's broken nose," said the pipe-cleaner man. "Did you or did you not break it?"

"Never did! Cross my heart!" came the tin mouse's voice promptly.

"Well, it's all the same thing," declared Mister Fuzz Wuzz. "You jumped at the pin-cushion lady, and she fell on the wooden waddle duck and he skidded and frightened the tin soldier's horse, and he stepped on the peanut boy and broke his nose. So it's your fault."

At that the tin mouse came popping out. "Yes, but who scared me?" he squeaked. "I was running from that cat there—and it's all his fault!"

Patent leather puss would have blushed if he hadn't been so black. But he looked guilty and tried to sneak away.

"No, sir! Come back here and pay the peanut boy one penny for damages," cried Mister Fuzz Wuzz. "Either that or go to jail for a week."

"I'll pay," said Puss meekly.

The rubber dog was so overjoyed that he whistled through the top of his head again.

Corns

No Paring—*End Them*

Don't let the agony of corns destroy your comfort. Apply Blue-jay—and instantly the pain vanishes. Then the corn loosens and comes out. Does away with dangerous paring. Get Blue-jay at any drug store.

Blue-jay

©B&B 1924

VOICE OF THE PEOPLE

To the Editor of The Examiner:

Sir,—The following resolution of The Children's Aid Society of Toronto, is the first sign of returning sanity. It will probably take about three years more before the patient reform people, who have so nearly wrecked everything, will get back to their boxes.

Toronto, March 27.—The Children's Aid Society has launched a movement to surround children as far as possible with good influences in their own homes. In a statement just issued it asserts:

"Public institutions may be well conducted and no expense spared, and yet the moral life of children brought up under this concrete and artificial plan is rarely of the type that will withstand the struggles and temptations of actual life when the world is to be faced as it must inevitably be sooner or later.

"Public sentiment is the mighty force that keeps the community clean and the Children's Aid Society can exert great influence in creating a high standard of public morals."

RADIO NEWS

Sixteen stations in the United States now broadcast on battery power alone.

Debating by radio from one continent to another may come sooner than expected.

Fifty million dollars will be spent on vacuum tubes alone in 1924, estimates Roger W. Babson, economist.

MARMORA NEWS

MARMORA, March 31.—A party of the Bell Telephone men are in town making alterations and repairs on the telephone line to Deloro.

The old game of marbles has at last gained the favor of the younger generation of the village. Even the older boys of the continuation school have seen the merits of the game, and in order not to miss the fun altogether, are taking it up, in spite of the fact that they are a little old for such amusement. The local merchants report a lively sale of marbles and pin-money seems to be going more for marbles than for the old standby, candy.

Mr. George Johnson has moved his family from Deloro and has taken up Mr. Donald Chisholme's farm just south of the village.

Mr. Frank Smith, Madoc, paid a short visit to the town on Friday.

On Friday evening the Lenten service in St. Paul's Anglican Church was taken by the Rev. W. H. Tawle of Rawdon. His words were based upon the idea contained in Matt. 5: 1-16.

If we live the true Christian life it will be evident to those around us just as it is evident that a candle shows its light to those around. This thought of us as the "light of the world" was emphasized by Rev. Tawle all through his discourse.

Mr. Ray Jones was a visitor to Madoc on Wednesday.

Miss Anna Burnes entertained a number of her young friends on her birthday, Wednesday.

Miss Violet Deacon has again opened a branch millinery store at Frankford. Her sister, Mrs. Myrtle Loveless, spent Wednesday and Thursday there this week at the millinery opening. They report that their business seems flourishing.

Miss Aileen Quinn, of Tweed, is at present with her sister, Miss Kathleen Quin.

The maple syrup season is beginning again. The first price asked was $2.75 a gallon.

Mrs. Hamilton Crawford, with her daughter, Grace, is spending a few days in Colborne with her daughter, Miss Dorothy Denike.

Within the last couple of weeks Mr. Donald Marett has become the proud possessor of a new radio.

The girls of the Cheerful Workers' Class of the Methodist Sunday School are busy practising a play entitled, "Aunt Susan's Visit."

The Rev. D. R. Clare is spending a week's holiday in Baptiste with the Rev. Terril of Napanee.

The Rev. C. I. Wickware, of Cloyne, is taking the regular services in the Methodist churches of Deloro, Springbrook and Marmora on Sunday.

Mr. F. S. Pearce spent last week in Montreal on business.

CRANBERRIES.

When cooking cranberries, it is well to prepare more than you will use immediately and put some away in jars for later consumption. It goes well with any kind of meat.

PARTNERS.

(H. F. White, in Los Angeles Times)

He came to me, when all the world seemed dark,
Though sunlight filled the skies;
He came and sat beside me in the park,
And looked his understanding in my eyes.

We talked as man to man, I told him how
I'd tried and failed—and failed;
And so had he, he said, but would not bow,
Nor own defeat, though everywhere assailed.

His touch upon my knee brought courage new,
His kinship buoyed me up;
We're partners now, we're going to see it through—
I and that blessed, brave-souled dauntless pup.

HEMORRHOIDS

Do not suffer another day with Itching, Bleeding, or Protruding Piles or Hemorrhoids. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 60c a box; all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free.

A PAGE ABOUT PEOPLE

Sidelights on Men and Women in the Public Eye

IS HEREDITY CAUSE OF YOUR FAMILY DUNCE

Leacock Once Made This Soothing Suggestion for an Ignorant Son to His Irate Papa

"IT is an amazing fact, but it is nevertheless true, that Mr. Rudyard Kipling or Sir James Barrie, or, let us say, ex-President Eliot, of Harvard, would fail hopelessly in English if they tried to pass the entrance examination of any American or Canadian university. King George, from whom presumably the King's English flows as from its fountain source, might get perhaps half-way through a high school in the subject."

Stephen Leacock

This is the opinion of Mr. Stephen Leacock. For ten years, he tells us, he was a schoolmaster. For those ten years he carried away nothing in money and less in experience.

But fortunately for us, unlike the bitter experience of many months, they have provided him with the material for his amusing volume, "College Days."

In this he continues, with his usual humor, his thoughts of English as she is taught at college.

As for Shakespeare, I doubt if he knew enough of what is called English by our education departments to get beyond a kindergarten.

As to passing an examination on one of his own plays, such as set by our colleges for matriculation, he couldn't have done it; he hadn't the brains—at least, not the kind of brains that are needed for it.

These are not exaggerations; they are facts. I admit that when the facts are not good enough I always exaggerate them. This time they don't need it.

The greatest nuisance of all to the schoolmaster, in Mr Leacock's opinion, is the parent who does his boy's home exercises and works his boy's sums. Probably his intentions are of the best, but:

Whenever I found myself correcting exercises that had obviously been done for the boys in their homes I used to say to them: "Paul, tell your father he must use the ablative after pro."

"Yes, sir," says the boy.

"And Edward, you tell your grandmother that her use of the dative case simply won't do. She's getting along nicely and I'm well satisfied with the way she's doing, but I cannot have her using the dative right and left on every occasion. Tell her it won't do."

"Yes, sir," says little Edward.

Once a parent who did not do the boy's exercise, but felt that he must have an active share in it, after letting him do it himself wrote across the face of it a withering comment to Mr. Leacock which read:

"From this exercise you can see that my boy, after six months of your teaching, is completely ignorant. How do you account for it?"

Mr. Leacock sent the exercise back to him with the added note: "I think it must be hereditary."

CUTE WAY OF MODERN MISS TO BREAK IT TO FATHER

AS instancing the independence of the modern society girl, Lady Askwith recently told a delightful little story concerning a young woman of twenty-two, or thereabouts, who came home one day in unusually high spirits.

"Well, dad," she cried, throwing her arms round her paternal relative's neck, "everything's settled. I've arranged our wedding for early in February."

"But I never knew you were engaged," said the astonished father.

"My dear old dad," she said, "don't you ever read the papers?"

PLEASED TO SEE HIM—GO

NOTHING can exceed the polished urbanity of Lord Curzon's manner.

"Lord Curzon was wonderfully kind when I called upon him," an American said the other day. "His manner was cordial in the extreme," continued the gentleman from across the herring pond. "Several times he got up and shook hands with me before I came away!"

Figure of Justice Incarnate Was Counsel Who Sealed Crippen's Doom

Carried Collection of Colored Pencils—Used Blue and Red Ink Pens—Master of the Art of Concealing His Hand—Death of Sir Richard Muir, Great English Counsel.

IT was when Sir Richard Muir began to marshal the evidence against him that Dr. Crippen felt he was doomed.

Never, perhaps, in the history of the Old Bailey has there been a trial more dramatic in incident, never one more intensely followed by the whole world.

Behind it all an impassionate figure of justice incarnate, was Sir Richard in those months of 1910. Remorselessly, deadly in accuracy, the great counsel's cross-examination of the little medical man after one of the most brutal poisoning cases of a wife in criminal history, reconstructed, piece by piece, the scattered puzzle blocks of evidence, that inevitably brought the prisoner's doom nearer minute by minute.

And now the great counsel will be heard no more. Death called him suddenly from influenza and double pneumonia in his 67th year.

Yet, so long as the art of cross-examination is studied, the fame of this formidable counsel will not fade. He studiously eschewed "fireworks," preferring to rely on the deadly logic of facts, which he was wont to marshal in a masterly way.

To prisoners and opposing counsel there was something hypnotic about Sir Richard's calm, deliberate methods.

These could not be better illustrated than the incident related by Lord Hewart, the Lord Chief Justice, at the Old Bailey Bar mess dinner in 1922.

Lord Hewart recalled that in one of the first cases in which he was engaged at Liverpool Assizes he heard with fear and trembling that Richard Muir was against him. He had heard of Muir as a sound and careful lawyer, with a great reputation, and he watched, as if fascinated, his opponent's preparations when the case was reached. He saw Sir Richard produce a large bundle rolled up in an indiarubber band.

Those were his carefully-made notes. He then put down side by side a red pencil, a blue pencil, a green pencil, a pencil with green one end and red the other, a blue ink pen, a red ink pen. Passages in his notes and copy-letters were scored underneath in blue, or red, or green, and Muir afterwards confessed to him, when questioned on the subject, that "red" at least meant danger. He admired Muir's conduct of the case immensely, and they had been friends ever since.

In appearance Sir Richard was short and thick-set. He looked more like a successful merchant than a prominent criminal barrister. He had a kindly blue eye, which one does not usually associate with a public prosecutor.

However, on occasion, he could be severe. His remorseless cross-examination of Crippen, which lasted three hours and 48 minutes, will stand out as one of the most famous performances in the history of the criminal bar. The kindliness had gone out of his blue eyes that day.

Many people will remember the grim manner in which he opened his speech for the prosecution, particularly the solemn way in which he described Mrs. Crippen's disappearance.

"From that moment," he said, "she passed out of the world that knew her (pause) as completely as if she were dead (pause).

"She left behind her everything she would have left behind her if she had died (pause). Money, jewels, furs, clothes, home, husband, (pause), all left (long pause).

"Crippen, the prisoner, made up his mind

Sir Richard Muir

that not only had she left, but left never to return (pause)."

Then came Crippen's ordeal of near four hours under cross-examination.

Sir Richard was a master of the art of concealing his hand. Seemingly innocent questions were put at first to witness. Then counsel would unexpectedly start on another track and with dramatic suddenness return to a previous subject, making it impossible for the man in the box to invent plausible explanations.

Crippen proved himself on the whole a skilful witness, but under the baffling cross-examination of Sir Richard his composure completely deserted him, and when he left the box it was realized by all in court that his fate was sealed. This was the peroration:

If the remains are not those of Belle Elmore, what conceivable explanation is there? None has been offered.

Who mutilated her body and put the remains there? Who but the tenant had the opportunity, the skill, the access to the pyjama jacket, pieces of which—Crippen's own pyjama jacket—were found in the grave?

And Sir Richard was right. Many people have not yet forgotten Crippen's cry from the dock as the jury returned with a verdict of guilty. In loud, emphatic tones he exclaimed, "I still protest my innocence."

Strangely coincident with the death of the great counsel is the published assurance in Old Country newspapers of one of the only two men competent to speak, that Crippen, hanged for the murder of his actress wife thirteen odd years ago, confessed to his crime before he went to the scaffold.

Thus the popular belief that he died proclaiming and protesting his innocence to the last is shattered. How Crippen killed Belle Elmore and buried her mutilated body in a cellar in Hilldrop-crescent, N. W.; how he fled the country with Ethel le Neve, his mistress; how the couple in disguise were arrested on an Atlantic liner—these are episodes in the story well remembered to this day.

Writing in the 'Express,' Mr. Newton Crippen's solicitor, says: "Prison governors, warders, chaplains, all denied that he had confessed. Nevertheless, he did—and to me. During a certain period of the proceedings, at one of our interviews, at which I was accompanied by a secretary, Crippen made a full confession of the murder. He told me the story of his life with Belle Elmore; how she grew bad-tempered and slovenly, and was gradually dragging him down. He told how, after a trip to America, she boasted to him of a lover who wished her to remain with him there. Finally, he was driven so desperate that he determined to get rid of her. As a doctor he could easily obtain drugs, and he decided on hyoscin, a little-known drug, used as a sedative and very powerful. After the dinner party on January 31 he gave his wife a glass of stout containing hyoscin. An hour later Belle Elmore was dead.

"'The knife with which I dismembered the body I flung over the garden wall at night,' added Crippen. And, search as I would, I could never discover it.' Somewhere, rusted and stained, that damning bit of evidence lay hidden in the bushes of a suburban garden while Crippen was fighting for his life!"

Despite the vigor and thoroughness of his methods, it could never be said that Sir Richard fought for convictions. He was always scrupulously fair. Long years as a crown prosecutor had perhaps given him a cold, unflinching manner, and he certainly had on occasions a sceptical and penetrating glance; but he was a man who concealed beneath the surface much sensibility and kindness. In his work he never forgot that the prosecuting counsel exercised the functions of a minister of justice

Sir Richard David Muir, who was born at Greenock, climbed to his high position from quite humble beginnings. His father was a shoemaker. Previous to his migration to London he was employed in the office of a Newfoundland merchant. Arrived in London, he studied at King's College, and while awaiting success at the law he looked—as many others have done—to journalism for a livelihood. The Times engaged him on its parliamentary staff, where he acquired so complete a mastery of shorthand as to earn for himself the name of the "writing wonder." He was called to the bar at Middle Temple in 1884.

He also appeared in many other famous trials, including the following: Stinie Morrison, Smith (Brides in the Bath), Seddon (poisoning case), Ronald True, who was convicted of murder and reprieved, and the Brixton taxicab murder trial last year. Recent cases in which he was engaged at the Old Bailey included the Lord Alfred Douglas libel trial.

A NOVEL PETITION

KNOWN years ago on the stage as "The Gibson Girl," Mrs. Evans, wife of Major J. M. J. Evans, M.C., and the proud mother of a baby boy, tells a delightful story of a small girl who was saying her prayers.

"And please God," she begged, "make Rome the capital of Turkey!"

"Oh, darling," exclaimed her mother, "why do you say that?"

"Because I put it like that in my examination papers to-day," came the reply.

Guarded Room Mystery Caught Even New York

Leading Financiers of the City Came to Col. Shaw and Floated His Mine

COL. GEORGE A. SHAW, the well-known veteran mining promoter, who is over 80 years of age and still actively engaged, likes to tell the following story as typical of American enterprise.

It was back in the early nineties when the colonel was trying to float the Silver Mountain Mining Company. In and about Toronto it had been impossible to interest capital in the proposed venture. Packing a large leather grip full of samples of silver ore, the colonel proceeded direct to the Hotel Astor, New York city, where he was at that time practically unknown. "I want a room and bath for myself, and I want the adjoining room to store my grips. These are fully insured, but I want a special man to be put on guard, and no one, not even the maid, must be permitted to enter this room, except in my presence," the colonel told the clerk as he registered. Lifting his eyebrows in surprise, the clerk asked no questions and proceeded to accommodate his new guest.

Col. Geo. A. Shaw

"That afternoon," relates the colonel, "half a dozen newspapermen visited my room in an effort to get a story of the mysteriously guarded room adjoining mine. Of course, I would say nothing—not that day. The following day, however, I let it be known that the mysterious room contained samples of the finest ore ever mined in northern Ontario. Within twenty-four hours I was visited by several of the leading financiers in New York, and within three weeks after my arrival I was on my way back to Toronto with an agreement to pay me $10,000 in cash, which they paid, and further to form a $2,000,000 company into which they were to put at least $25,000 for working capital and give my partner, Oliver Daunis, and me 30 per cent of the company's stock fully paid up. And now, as I look back thirty years, I am glad to say the venture on the part of my new American friends proved to be a great success, for as far as I can estimate the various owners took over a million and a half out of the mine I sold them."

WRITING in a contemporary Mr. James Douglas points out that Miss Mabel Normand, the Los Angeles film actress, is one of the few cinema artistes who have never been divorced. It seems a pity to drag up a thing like that just now.—Punch.

Balieff Throws Chairs at Company Then Pours Jokes Into the Wounds

Creator and Conductor of La Chauve Souris Looks Like Bulgy Butler—Made Fame in the Dumps and Depths—Cabaret Cafe Was Called "The Bat" Because Bat Flew Out—Clapped Into Jail by Lenin

By R. C. READE

THE full-moon face of Nikita Balieff for the first time is at last going to take a rise out of Canadians.

This creator and conductor of La Chauve Souris, in Russian "Letutchaya Muish" and in English "The Bat," is the world's unique jester. He is Coquelin and Charlie Chaplin, Gallagher and Shean, Will Rogers and Raymond Hitchcock, Puck and Grimaldi all rolled into one, a super clown and a super wit, a reincarnation of the mediæval fool who was his monarch's wisest counsellor.

He is bald as an egg, but he has never had a shower of them. He loves to shut his eyes and stick out his tongue at his audience, but he is not blind as a bat to humanity's foibles. He looks like a bulgy butler or a paunchy Punchinello and has Billiken eyes and a cherubic face as childlike and bland as that of Bret Harte's Ah Sin.

Nikita Balieff

But this innocent is a Russian Peck's bad boy, accustomed to say bold impudent things. In his Balieff scrambled English he teaches his audience the Russian A, B, C, and then scolds them because they can't learn it. The other day he said to a Chicago audience, "Z'Americans are nozzo vurr smart. You have what you call the thick head. When I vas littel babe I learn Russian much more quick than you."

When Czar Nicholas visited him in his Moscow cellar he put the autocrat of all the Russias through his alphabet, and said, patronizingly, "Soon you will speak Russian as well as English."

Lenin came to his show, and he tried the same kind of public familiarity, but the Soviet frowned on court jesters. Lenin clapped Balieff, it is true, but into jail. Balieff will never discuss this incident. "The thought of it," he says, "is too, too bitter."

He ought to be used to massacres. He is an Armenian. He played as a school boy, and his father put him into his factory. As soon as he was in charge, the only production was the production of plays. He joined the army at the time of the Japanese war, but deserted it at Vladivostok for a musical company. He got put in the clink for his Glinka.

Balieff has as great a genius for raising money as for raising laughs. The Moscow Art Players were stranded in Berlin and he borrowed $16,000 for them. They made him secretary, but would never let him play. At last he got a one-line part, but, after the 250th rehearsal, on the eve of the first performance, it was turned into a mere walk-on part. Then he became Cousin Theodore in Knut Hamsun's "In the Claws of Life." His role consisted in opening his mouth to speak, never speaking, for some other character constantly interrupted him.

They made him the slice of bread in Maeterlinck's "Blue Bird," but he wanted the whole loaf. This master of gab wearied of the gag and went into a cellar near the Kremlin, not to sulk, but to laugh. His cabaret cave was called "The Bat," because when the door was first opened a bat flew out of it. Now whenever Balieff opens his mouth an epigram flies out of it.

Before he came two years ago to the Century Theatre roof and the top of the amusement stage, he made his fame in the dumps and in the depths. His first cellar was a cafe for artists only. They ate and literally drank in his jokes. His second cellar was a little larger, but still only for the profession. In his third cellar he let in the tired business men of Moscow and charged $6, real gold dollars, which is more than he has ever charged in America.

A Balieff show is an omnium gatherum of everything Russian and of everything farcical and artistic everywhere. It is full of Balalaikas and Pavlovas and Bakst landscapes. He mimics Russian tragedy and Italian opera. Perhaps its nearest equivalent in English is Bottom's Pyramus and Thisbe in Midsummer Night's Dream.

But always in the beginning is Balieff, his lips red with murdered English like the following, "Denickis nom-ber-r-r onde progrom iade pfooden soldiers." Here is another characteristic prologue: "Ere come my grand quart. Two gret Ressian theatre fight for zis quart. Z'Moscow theatre she want him to sink in Petrograd. Z'Petrograd theatre she want him to sink in Moscow. Zey sink a Spanish limonade. You don't understand z'Spanish? I make it izzy for you. Zey sink him in Ressian."

This highbrow with the horse laugh though he mocks at the "Russian soul" has himself a Russian soul. When he is in a rage he throws chairs at his company and then pours jokes into their wounds. His wit is like the bat: It flies best by night. He never mourns except in the morning.

This fat man, whom all the world loves, loves his own stomach more than anything else in the world. He likes a menu as exotic as his Chauve Souris. "My Russian soul," he has said comically, "is in my stomach."

Another of his witticisms is, "My first play was about a distillery. Now I play in the dry country."

He gets $4,000 a week, but when he took out his first American naturalization papers he exclaimed: "I starf no more. Now I have a certificate to teach z'American."

Last winter he was asked to be the judge of the smallest foot in an actress' beauty show at the Plaza Hotel. The final pair were placed on a dais and Balieff slowly bent his corpulent form to their feet. He searched the floor in mock bewilderment and exclaimed, "Where are zese feet? Zey are too small. I cannot see them."

President Beatty Helps Proves Real Railroader

DORVAL, about ten miles west of Windsor Station, Montreal, is one of those little places where nothing much ever happens. Commuters use it going to and from pretty homes on the nearby banks of the St. Lawrence river. At other times it's a quiet enough place, particularly on a summer's evening about eight o'clock when commuters have commuted and the workers are at rest. That is why the station agent there, working long after regular hours one evening not long since, appeared to be a very lonely young man, even though he was too busy at his desk to notice it.

E. W. Beatty

He was a young agent, temporarily on the job to replace a man on holidays, and the monthly balance sheet, the first he had ever tackled, refused to balance with that exactness considered desirable in Canadian Pacific circles. Vainly he put one set of figures against another until the prospect of an all-night job began to be unpleasantly assured.

At a point where hope seemed about to finally dissolve, footsteps sounded from the other end of the station platform. They advanced until the fading evening light at the doorway was blocked by a figure, and a voice asked:

"Do you know if No. 17 is going to stop here to-night?"

The young agent did not know, and he said so. He knew little except that the balance and [illegible] to be found if it took a week. The stranger walked up and down the platform while two friends who had come with him engaged in conversation at the far end. He had spoken as one who knew something about trains, he might even know something of station agent's balances. The young man was desperate enough to try anything, besides the stranger's face was not unfamiliar; he had seen it somewhere, probably about Windsor Station, where railroad men pass and repass like bees in a hive. Desperation impelled him to the platform.

"Are you a railroad man?" he asked.

Obviously astonished, the stranger admitted that he was.

"Do you know anything about balance sheets?"

The stranger did, and a moment later both he and the agent were busy with cash book, delivery book and outstanding sheet until, fifteen minutes later, the noise of No. 17 slowing up outside brought the joint operations to a close, but not before several elusive items had been brought to book.

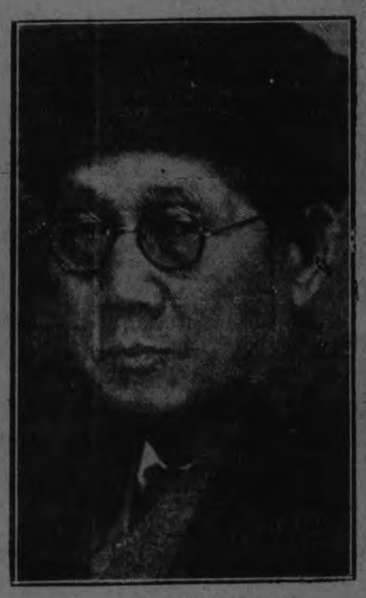
"You ought to be all right now," said the stranger, going to the door. "Check over the rest of the figures and you'll probably find your balance." So saying he left the station and saw his friends aboard the train.

As he turned to leave the platform the youth hurried after him. "I'm ever so much obliged to you," he said. "Do you mind telling me your name?"

"Beatty," replied the stranger, but his pleasant nod and "good night" seemed to in no way dispel the agent's sudden consternation.

"Are you the president?" gasped the youth.

"Yes," replied Mr. Beatty. "But that isn't important; the main thing is to get that balance [illegible]"



Jap is Russian Bolshevik

KATAYAMA, former leader of the Japanese Socialist party, is now an exile in Moscow, where he is a member of the Presidium, the ruling committee of the Third Internationale, the extreme left wing of Russian Socialism.

WOULDN'T BE A TOMCAT SAYS G. BERNARD SHAW

Other Material Was Just as Good Advertisement for Mrs. Pankhurst's Meeting, She Wrote Back

DR. C. J. O. HASTINGS, Toronto's genial medical health officer, when officiating recently at the opening meeting of a health gathering told a good story about Mrs. Pankhurst who is now a Canadian citizen interested in the social hygiene movement and whom Dr. Hastings characterizes as "a motherly soul, whom to know was to love."

Mrs. Pankhurst

"Years ago when this effective lady was engaged in the militant suffrage campaign in England," said the doctor, a man who was present at one of the big rallies in Albert Hall, popped up and yelled at Mrs. Pankhurst, 'If you were my wife, I'd murder you.' 'If I were your wife, you wouldn't have to,' retorted Mrs. Pankhurst.

"I can't remember that this ever happened to me," said Mrs. Pankhurst to the doctor after the meeting, but I can tell you what did happen to one of the speakers for suffrage. After she had said her say, just such a man as you describe rose heatedly to shout, 'If you were my wife I'd poison you.' 'No you wouldn't,' said she, 'I'd do it myself.'"

Another witty incident in which Mrs. Pankhurst crossed swords with Bernard Shaw is recalled by his new play, "Saint Joan."

Shaw's belief in the equality of the sexes is well known and has been a leading factor in both his writings and his life.

"We knew," said Mrs. Pankhurst, "all of us in the suffrage movement in Britain, that Bernard Shaw was theoretically with us. So, on one occasion I determined to try him out as a practiser of his preachments. We were soon to have a large meeting in Albert Hall and I wrote to Mr. Shaw and asked him to address us. He wrote back promptly to say that he not only believed in suffrage for women but in their duty to fight for it. "But," continued he, "if you or anybody else thinks that I am going to be the tame Tomcat of the suffrage movement or any other women's movement in this country, you will find yourself mistaken. I shall not be able to speak at the Albert Hall meeting."

Mrs. Pankhurst did not take this chivalry from Shaw sitting down. She replied to him in due season to this effect. "Dear Mr. Shaw. So sorry that you did not see your way clear to speak for us in Albert Hall, but it did not matter. We wanted you principally as an advertisement, and we found other material which did us just as well."

Booth's Retort Crushes Vanderbilt's Son-in-Law

Veteran Lumberman Considered His Time Was Most Valuable — Quietly Pocketed $250,000 Deposit

MANY anecdotes are told of Mr. J. R. Booth, the 96-year-old lumberman of Ottawa, whose granddaughter was married last week to Prince Erik of Denmark.

At one time he gave an option on his railway—the Canada Atlantic, afterwards sold to the Grand Trunk for about $13,000,000—to the Vanderbilt interests, who sent Dr. Seward Webb, of New York (son-in-law of W. H. Vanderbilt), to Ottawa to interview Mr. Booth. He arrived in his private train of three cars, with an observation room over the locomotive.

J. R. Booth

The doctor, immaculate in a sealskin coat, top hat, patent leather shoes and diamond ring, emerged on the station platform for his interview at 8.30 a.m. Mr. Booth was across the tracks in a reefer coat, flannel shirt, and bowery cap.

Dr. Webb walked up and down, nervously, for nearly half an hour, glancing frequently at his watch. Finally, he said to a station hand: "Do you know where Mr. Booth is?"

"He's over there," replied the man, pointing to the magnate.

The doctor picked his way across the tracks and greeted Mr. Booth by saying: "I've been waiting for you for over twenty minutes, and my time is valuable."

The lumber king replied, quietly: "Well, I've been waiting for you for over half an hour, and my time is more valuable than yours."

Incidentally, the option was not taken up and Mr. Booth quietly pocketed the $250,000 deposit.

GREATEST COMPLIMENT EVER PAID TO CLERGYMAN

THE Bishop of London is never tired of impressing upon his clergy the necessity of tact and carefulness in dealing with individual members of their flocks, and as an example of his meaning he once cited the following story:

A curate in a poor parish, whom we will call Mr. Brown, had left, and the vicar was going his rounds, when he met a certain old woman.

"Well, Mrs. Smith," said he, "so Mr. Brown has gone away from us at last."

"Yes, sir," replied the old dame, "and I'm sorry for it. I don't 'old with curicks as a rule, well knowin' what a noosance they are pokin' their noses into our places just when they b'aint wanted. But Mr. Brown was different; he allus know'd when it was washin' day."

"I regard that," remarked the Bishop, "as one of the greatest compliments ever paid to a clergyman."

Disillusioned

"CAN I sell you a set of Shakespeare?" asked the affable agent.

"I don't think so," replied the patient person, "but I won't say for sure. After thinking over a lot of things I've been persuaded to buy at most anything seems possible."—Answers.

LAKEFIELD CURLERS PUT PLEASANT PERIOD TO WINTER OF SPORT

Annual Meeting and Banquet Marked By Warm Fellowship — Dr. S. J. Gibson Succeeds H. G. Fitzgerald as President of the Club — Treasury Carries Credit Balance.

PRIZES PRESENTED.

Lakefield, Mar. 29.—The annual meeting and banquet of the Lakefield Curling Club was held in the Oddfellows' Hall on Thursday evening. There was an attendance of more than ninety per cent. of the members and associate members, and the spirit of good fellowship (one of the attributes of the club) was never more in evidence than at this closing meeting of the season of 1924. N. G. Fitzgerald occupied the chair and in a witty speech, opened the meeting for business.

The report of the secretary-treasurer showed a substantial cash balance which was gratifying and augers well for another season. The membership list was a representative one and while not quite as large as last year, was still between 60 and 70, which is a goodly number for a village of Lakefield's size.

J. C. Strickland took the chair for the election of officers which was then held. These officers were elected:

President, Dr. S. J. Gibson; vice-president, J. E. Galvin; secretary-treasurer, Percy Spence.

Executive Committee—W. J. Charlton, C. S. Tanner, N. R. Wagar, Jas. Millar, George N. Spence.

Then to Supper

There was a card game provided for the associate members at which prizes were offered for the best euchre players.

Supper was served about 10:30 in Leonard's hall, and was provided by the vice-president's rinks. A committee consisting of Messrs. G. G. Connell, J. W. Ridpath, W. G Morrison, Chas. Lake and B. Q. Dench, took charge of the arrangements which were carried through without a hitch. The vice-president, Dr. Gibson, made the tea, which was of excellent quality and much appreciated.

The supper menu included cold meats of various kinds, fish, salad, pies, cakes, sandwiches and numerous other dainties, in fact, to quote the words of Harry Lauder, "Mon, but that was a spread." The curlers were lauded to the committee for their splendid management. When the last biscuit, with its accompaniment of cheese, had vanished, and the cigars were being lighted, the third and not least important part of the programme took place, that of the presentation of prizes. So numerous and generous were the prizes that it carried one back to the days when every good little boy was rewarded.

Prizes Presented

The first trophy was the Fitzgerald trophy for the local competition which was won by J. C. Strickland's rink and with D. H. Charlton's rink, the runners-up.

The prizes to the winners were pipes, and to the runners-up leather collar boxes.

The winning rink were: Frank Pearson, S. J. Charlton, E. A. Tanner, J. C. Strickland, skip, and the runners-up were: E. H. Northey, Ed. Watson, Jas. Millar, D. H. Charlton, skip.

Last year R. C. Chittick's rink won, with B. Q. Dench's rink second.

Mr. Fitzgerald presented the trophy.

The Casement Cup

W. H. Casement presented his trophy, which was awarded in the local bonspiel.

This was won by Rev. P. L. Jull's rink, with D. H. Charlton's rink the runners-up. Mr. Jull's rink might easily be called a picked rink as it was composed of the two clerical members of the club, the principal of the high school and the warden of the county.

The first prizes were fountain pens and were awarded to Rev. J. J. Garvey, Martin Coughlin, J. M. Simpson and Rev. P. L. Jull, skip. The runners-up, W. H. Casement, J. R. Hill, E. A. Tanner, D. H. Charlton, skip, were given shaving brushes. Last year D. H. Charlton won the trophy, with Dr. Gibson the runner-up.

E. A. Tanner Trophy

Owing to the unavoidable absence of E. A. Tanner in Toronto, the Tanner cup for the vice-skip's bonspiel was presented by C. S. Tanner, and was won by Percy Spence's rink, with G. G. Connell the runner-up.

The prizes, which were cigars, were given to R. C. Chittick, Dr. G. E. Renwick, D. H. Webster, Percy Spence, skip.

Jack-knives were given as second prizes to U. A. Moore, T. B. Marling, Ed. Watson, G. G. Connell, skip.

Last year, R. J. Jory's rink won the trophy with G. G. Connell, also, the runner-up. As G. G. Connell has been the runner-up for two consecutive years, a special prize was given him, consisting of a handsome pair of antlers, secured by the president at considerable personal risk. Accompanying this beautiful offering were a number of batteries, no longer in their first high-powdered freshness, but still weighty.

The Douro Cup

The Douro cup, which was given last year to the rink which was beaten in the local competition by the greatest number of points, and was won by J. E. Galvin's rink, was presented by Mr. Galvin to Dr. Moore, whose rink this year occupied the same position. This cup, which is a veritable triumph of the tinsmith's art, was presented with regret as Mr. Galvin admitted that he hated to part with it. Accompanying this trophy were China loving-cups, which were highly prized by the recipients who were: R. H. Little, J. R. Hill, E. W. Bailey, and Dr. Moore.

President Remembered

J. W. Ridpath presented H. G. Fitzgerald, the retiring president, with a token of regard, not only from himself, but from the club, which would serve as a reminder during the summer of his position during the winter. Mr. Fitzgerald, who was taken by surpsise, replied in a "peppy" little speech, thanking the club for their offering and asserting that when he found the donor someone would travel to Kingston.

Dr. S. J. Gibson presented the prizes to the associate members, who do not contest with "stane and besom" but with the mysterious ways of the right and left bower. F. J. Burgess won the first prize, a box of cigars, and John Blewett, the second prize, a pipe.

The prize winners made short speeches, which were heartily enjoyed, being enriched by anecdotes. Two outstanding speeches of the evening were those of Rev. P. L. Jull and J. R. Hill.

Votes of thanks were tendered the Oddfellows, and W. W. Leonard, for the use of their halls, and also to Theodore Crawford and S. W. Sutton for their work in connection with the schedule of games, and by the president's rinks to the vice-president's rinks which provided such a splendid repast.

The occasion will pass into history as one of the happiest ever spent in the village—a community gathering, in every sense of the word. As one curler regretfully said as he wended his way home, "a year is a long time to wait for another."

Hamilton Relay Team to Compete

PHILADELPHIA, March 31. — (Canadian Press). —The Hamilton Collegiate Institute of Canada will be represented in three events in the annual relay carnival at the University of Pennsylvania next month, relay officials announced today.

The Canadian school's track athletes are coached by Captain J. R. Cornelius, recently appointed head track and field coach for the Canadian Olympic team. They will be entered here in the inter-scholastic medley relay championship of America and the interscholastic two-mile and one-mile high school championships. Last year the team finished second on the interscholastic medley, third in the one-mile and won the two-mile.

PETES BEATEN BY TORONTO TEAM

In One of the Fastest Games Seen This Year the Locals Were Eliminated From O. B. A. Race.

Treating the fans to some of the fastest basketball seen on the local "Y" floor in years, the Broadview Y.M.C.A. quintette defeated the locals 38 to 20 Saturday evening, thus eliminating the Petes from the O.B.A. The Toronto team will now meet the western repersentatives in the finals.

The Broadview squad played a brand of basketball that ranked nearly on a par with that exhibited here by the famous Association College team of Chicago. They have lightning combination, work the ball down swiftly after a "throw-up" and they make every shot count. They are strong defensively and kept the Petes from working in. Walken, Mercer and Rankin were the best. The two forwards were as slippery as eels and could "plug" the basket equally well from close in or well out.

The Petes, although they never really had a chance, fought gamely. Rus. Pogue and "Hip" Hardill were the best for the locals, and the Petes 'centre didn't have his usual horseshoe luck. The Petes had their hands full trying to watch their checks.

The Toronto outfit were supreme right from the outset. They had chased in ten points before Rus. Pogue dropped in Peterborough's first basket. Hardill scored immediately after. At the end of the first period Toronto had 18 points to the Petes 10.

In the second half the Petes scored another eight points, but Toronto chased in an even twenty. The boys who guarded the score board had to be good in arithmetic because the Toronto points did not come singly but in flocks:

Summary:

WIFE LOSES AL HOPE THAT HUERTA IS ALIVE

NEW ORLEANS, March 30. — Senora de la Huerta, wife of the Mexican rebel leader, told the New Orleans Item to-day she believed her husband to be dead.

She added that she came here with the understanding he would arrive March 18. De la Huerta, according to the Mexico City government, is known to have boarded a vessel at Frontera, Tabasco, March 18. It is feared the vessel foundered in a storm.

PORT HOPE TO ENTER JUNIOR

Oshawa May Put Two Teams In Proposed Central Ontario Minor League — Lindsay and Bowmanville Unheard From.

In an item that appeared in the Port Hope Guide on Friday it said that they were in favor of the Junior Central Ontario League and that they consider it a move in the right way. At present they have not yet found a team to enter in this loop but they are scouring the town for recruits and one is sure that they have enough baseball material in their to make up a team that will give any of the rest a good battle.

Oshawa are also strongly in favor of this league and at present it is thought that two teams will be entered. Both of these teams played junior ball last year and were only beaten during the summer by each other. They are both so evenly matched that both think they have a chance in the finals and want to enter in this league. Cobourg are expected to enter a team but no word has yet been received from either Lindsay or Bowmanville. Along with the Lakeviews of Peterboro the Crescents, last year's Sacred Heart team are in favor of entering a team if a City League is not formed. If all these teams are entered it will make a six team group.

Mr. J. J. Solomon and L. LeBarr who are both strongly in favor of this league and are doing all in their power to promote it state that they have no doubt that the league will be a success.

Mr. Solomon has written to all the surrounding towns, explaining the league and inviting them to join it. He expects that a meeting will be called in Port Hope some time next week in an effort to get the league started, and draw up the schedule for the coming season. Two representatives from each town wishing to enter a team or wanting to find out the ins and outs of the league are requested to attend so that the league will be certain of how many teams will be entered.

Lindsay Not Optimistic.

If one judged by the articles on baseball players being issued from the headquarters of the Central League at Oshawa, one would be led to believe that a number of old Lindsay C.O.B.L. players are already back here for the coming season. Such, however, is not the case, says the "Post."

Lloyd Chambers, pitcher, and Redge Mills short stop, of the Bowmanville nine, (both Lindsay boys) have been in Toronto all winter where they have good positions and where they figured prominently in industrial hockey league circles. "Batsy" Bates has been working in Orillia for some months past and will turn out with Orillia Tri-County League team. Jack Stark is, it is believed, still in Bowmanville.

Locally the prospects for baseball are not a bit bright, but hopes are entertained that the town will after all be represented by a good team. Entry has been made in the Tri-County League where they play a first class brand of intermediate baseball. As to a team—that has to come. Baseball in the Tri-County League should help to develop players and at the same time bring many fans to Lindsay on baseball days.

Lindsay will also have a junior baseball league and will be represented in the O.B.A.A. as in former years. This is the brand of ball that should be encouraged as it develops material.

It is also hoped to establish a public school league.

Several fans and players would like to see a senior town league and there is a possibility of this branch of baseball being organized.

SATURDAY EXHIBITION GAMES.

Boxer Suffers From Concussion of Brain.

NEW YORK, March 30.—Peter Swan, 18 year old boxer, who suffered concusion of the brain and a possible fracture of the skull when he knocked out last night in a boxing bout with Harry Mills, to-night was said to be in a serious condition at the hospital where he is under treatment.

Swan was knocked out in the fourth round after having fought a losing battle from the beginning of the bout: He remained unconscious or half an hour.

Giants Have Smallest Pitcher in Gearin

DENNIS GEARIN

SARASOTA, Flar., March 31.—In Denny Gearin the New York Giants boast the smallest pitcher in the major leagues. Gearin's ability, however, is not measured by his size. Bought from Milwaukee late last season Gearin managed to break in a few games at a Giant. He worked 24 innings and is credited with one victory and a defeat. Gearin is a southpaw. McGraw is hoping he will make the grade.

BOXING COMMITTEE'S REMINDER TO FANDOM

Peterborough, March 31, 1924.

Sporting Editor of Examiner,—

May the Boxing Committee be permitted to ask the sportsmen of the city for their support at tonight's boxing show at the G.W.V.A. Hall? We have as visitors from the United States two clever boxers, both of them clean-cut athletes and a credit to the sport. The conduct of our own boxers in and out of the ring has been that of good sportsmen. The bill of eight bouts tonight is a particularly good one, and a large attendance of fans will mean much encouragement to all those taking part.

Yours truly,
BOXING COMMITTEE OF P.A.A.A.

BOSTON TURNED ON PITTSBURG

After Two Defeats in U. S. Hockey Finals the Eastern Champions Won By Score of 4-1.

BOSTON, March 30. — Boston Athletic Association hockey team, champions of the eastern Division of the United States' Amateur Hockey Association, last night turned the tables on Pittsburgh after two straight defeats, winning from the western champions, 4 to 1, in the third game of the East-West series for the national championship.

The westerners played a listless game and Boston was on the attack throughout. Worters, Pittsburgh goal-tender, had 25 stops, to 12 by Lacroix, defending the Boston nets. Manners, shooting from centre ice, scored Pittsburgh's only goal eight minutes after the game started. Enwright, substituting for Cronin, tied the score two minutes later.

Boston scored again in the second period when Harrington drove in a pass from Small behind the Pittsburgh net. Geran and Harrington scored in the final period, the last goal being made when McGovern, substituting for Conacher, was off the ice. There were only two penalties in the game and McGovern had both of them. The fourth game will be played in Pittsburgh April 2. The line-up:

Boston A.A. (4)—Left wing, Harrington; centre, Geran; right wing, Cronin; left defence, Smith; right defence, Small; goal, Lacroix.

Pittsburgh (1)—Left wing, McCurry; centre, Cotton; right wing, McKinnon; left defence, Conacher; right defence, Manners; goal, Worters.

Referees —Steve Vair, Toronto; Frank Synnott, Boston.

World-Wide Junior Olympic Announced.

CHICAGO, March 31— A world wide junior olympic, open in 26 countries, is a feature of plans for Boys' Week, April 27 to May 3, according to an announcement by the National Boys' Week Committee of which President Coolidge is the honorary head. Four events are to be run off simultaneously in thousands of cities and towns on May 3, and winners' names and the time will be sent here by cable and telegraph.

The events are to be a sprint, distance throw, broad jump and barchinning.

DEMPSEY NOT ENGAGED

LOS ANGELES, Calif., March 30 ....Just to clear the atmosphere of any doubt regarding Jack Dempsey's 1924 ring campaign, Jack Kearns, the heavyweight champion's manager, who arrived yesterday from the east, announced he has signed no contract for Dempsey to fight anyone. Kearns left last night for San Diego, where he will join the champion.

STRIBLING AND M'TIGUE MEET

Second Encounter of Light Heavyweights — Fight Starts at Newark at 10 O'clock To-Night.

NEW YORK, March 31. —Mike McTigue, guardian of the world's 175 pound pugilistic crown, will meet one of the most formidable opponents in his division to-night, at Newark, N.J., when he meets Young Stribling, Macon, Ga. schoolboy, in a 12-round bout.

Physically the two light heavyweights will be well matched. Stribling faces the task of having to stop McTigue to gain the title which the Irishman won a year ago from Battling Siki. If the battle goes the limit, Mike will not lose his title, even if outpointed.

McTigue has been idle ever since his sensational draw with Stribling at Columbus, Ga., last October, while the Georgian has kept himself on edge with a steady campaign of bouts. Both have wound up their heavy training, and are taking only light exercises to keep limbered up. McTigue declared to-day he was in the best condition of his career and is fully confident of his ability to stop his youthful challenger.

On the other hand, Stribling, speaking through "Pa" Stribling, asserted that after Monday's battle the light heavyweight crown will rest on new shoulders.

The McTigue-Stribling bout will start about 10 p.m., and be preceded by several preliminaries, including a 10-round semi-final match between Paul Berlenbach, hard-hitting New Yorker, and Harry Krohn, of Akron, Ohio.

Newark Franchise Dispute Is Settled.

NEW YORK, March 30. —The waters of agitation which have surged unhampered around control of the Newark International League baseball franchise since February 1, assumed a placid aspect yesterday when the two warring factions settled their differences out of court and control of the club legally passed from the hands of the Newark syndicate, headed by Michael McTighe, to the former owners, William H. Ashton and Bernard Moan, of Baltimore.

Peace was declared following a conference between the rival factions and President John Conway Toole at which it was agreed to withdraw all pending court actions. McTighe relinquished all claims to the franchise and officially turned over his interests to the Baltimore men, for which, it is understood, he received a small consideration.

U. S. SOCCER CHAMPIONS

ST. LOUIS, Mo., March 31—The a smooth running attack and well-nigh impenetrable defense, became the United States soccer champions Saturday by defeating the Vesper-Buicks of St. Louis, aggressive contenders for the national title, 4 to 2.

BELLEVILLE GIRLS BEAT PETES TEAM

Two Teams Invaded the Local "Y" and Defeated Them by 207 Points in Three Games--Petes to Play Return Game Soon.

BELLEVILLE, March 29. — Ten Belleville lady bowlers, their followers and two male escorts who arrived back "within the shadows of the fold," at the dead of night on Thursday, will fast for two days, after the generous banquet which was supplied them by the officials of Peterboro Y.M.C.A. following the two exhibition games which they bowled Thursday afternoon. The success of the banquet reflected much credit on Max Sloan, social director at the Peterboro "Y." One hundred and fifty enjoyed the excellent "spread," after which several neat speeches were given. Miss Stella Ford gave a very neat speech in response to the toast to the visitors. Peterboro bowlers are coming to Belleville sometime to play the return engagement, but not until they learn more about the game, for the locals won everything hands down.

The first game was played at 3.30 p.m. and in the first string the local bowlers got away to a good start, obtaining a lead of 41 points. Although they lost a portion of this in the second frame, they more than made up for it in the third, finishing up the three games with 207 points to the good.

The Peterboro bowlers have a "pinch hitter" system, whereby they use seven players on a team instead of five, the two extra members substituting when any regular member of the team happens to make a low score. In this game Miss Coon replaced Miss Porter in the last two frames and Miss Sayers relieved Mrs. Beal in the last frame.

The second fixture followed immediately after the first and this also went to the visitors who won each of the three strings. The Belleville ladies were winners by 335 pins when the scorer checked up at the conclusion of the game. Miss Goyer's three string score in this game was the highest score of the two contests and her single score the high single of the game.

The trip to Peterboro was replete with thrills and romantic occurrences according to a despatch received from an unknown source. On the way up there was furors in camp as it was rumored that "purse snatchers" were aboard. Later it developed that only one purse was lost (thirty cents). The bowlers played cards on the way out and many of the party are grateful for the 'feed' which they were tendered (gratis).

Miss Bessie Sayers will be presented with a gold mounted riding crop, in the near distant future. It is the prize awarded to the first young lady who would be capable of "subduing" one male member of the party "post-haste." The heavy grip "packed" by "Jovial" Jim Alexander, contained four B balls for the benefit of "Strike" Ford. When a Peterboro bowler "copped" the Belleville balls, Miss Ford gave her the D. Jim all but missed the train at Port Hope, the fact that he is a long distance runner saving the situation which drew "shouts" from the other members of the party. Jim it seems was stealing a "beauty sleep" on the railway's time. It would have been bad to be stranded in Port Hope with a heavy grip. Coffee was served to one member of the party at Cobourg, and Harry Poste, understudy to escort Alexander, was severely censured on the homeward trip. It appears that Harry inadvertently (?) neglected members of his own party—well, Harry can tell who they were.

One young lady forgot her emerald ear-rings and naturally suffered from the cold on the way home.

Owing to Mrs. Lee's strenuous efforts to reach the four pin, she had to be given first aid on the train coming home. Mrs. Beal was unable to accompany the team home at all so remained over the week-end to recuperate. Miss McColl had to be locked on the train to get her back to Broadway. Frances Potter strayed from the fold after the banquet but returned just as the train pulled out.

HARRY GREB INJURED.

BOSTON, March 30.—A bout between Harry Greb, middleweight champion, and Kid Norfolk, light heavyweight, scheduled to take place here next Friday night, has been indefinitely postponed, it is indicated by the promoters. According to information received from Greb's manager, the champion received a bad cut over one eye in a motor car accident yesterday. The injury, requiring four stitches, will make it impossible for Greb to box here Friday, the promoters were informed.

KINGSTON TEAM LOOK DANGEROUS

Strengthening In All Departments Will Present a Classy Lineup.

KINGSTON, March 31.— Just a few more weeks and the local C. O. B. L. team will be on the field at the Fair Grounds forgetting there ever was such a thing as winter, and proceeding to limber up for the coming season to which indications point as the best ever experienced in Kingston.

It doesn't take much to arouse the interest of local fans in baseball, for Kingston has just as hot a stove-league as has any big league city and the fans are all set for a bumper season. Local club officials made a visit to the Fair grounds this morning looking over the field. Out in deep centre the erstwhile skating rink is now just a pool of water and if Old Sol stays on the job for a stretch of two or three days, the entire field will be as dry as "Pussy-foot" Johnston would like to see the world. As it is the greater part of the field is even now almost ready for the husky cohorts of the Daley Clan.

Contrary to reports it is expected Herbie Teepell will be on deck again and will likely be groomed for an outfield job. Teep is a mighty handy man to have around a team, for he can hop in at short-stop and keep his head in the air and both feet on the ground. While he's not exactly a player of Herculean proportions he has a noodle that functions in the pinches. Used regularly Teep should go good, for he's a flash on the paths.

The pitching staff naturally causes a great deal of speculation among the fans and it is in this vital spot that Manager Daley intends to show greater strength. The Nubian beast of burden, otherwise known as the dark horse from Queen's, is daily getting nearer to the local team, and the prospects are that he will toss them up for Daley's team this summer.

Then there is "Teddy" Gallagher, and while he might not have been a howling sucess last year, he's determined to show the C. O. B. L. fans he still can catch winning ball. If Teddy gets going right there will be no stopping him. He's the kind of pitcher who turns in either a very good game or a pretty bad one. If he's right he's unbeatable; when he's not right he's duck soup for the other clubs. And everybody knows how he can twirl when he's right. If he gets down to business and pitches as he knows how, everything will be cushy.

But Mgr. Daley is not spending too much energy over the pitching staff. He knows, as every smart baseball man knows, that it won't win him a raft of games to have the team strong as onions in the box and weak as boarding-house tea in the other positions. A bang-up outfield, a snappy infield, a good receiving staff, and a bunch of murderers with the stick will overcome slight pitching weakness, and the fans will have an agreeable surprise when the curtain goes up for the first game here. If things pan out as they ought there certainly will be few managerial woes on the team this year.

More women in porportion to men are employed in factories in Japan.

WESTERNERS WIN FINAL GAME BUT LOSE THE ROUND

Sault Ste. Marie Are Champions of O.H.A. Series--Carried Off the Silverware by 6 to 3 on the Round.

TORONTO, March 31.—(Canadian Press).—Showing a wonderful reversal of form, characterized by strenuous tactics, the Selkirk players, champions of the Manitoba League and the Western representatives in the Allan Cup finals, defeated Saulte Ste. Marie, the pride of the northland, by 1 to 0 here on Saturday night. But the Greyhounds, having taken the opening game by 6 to 2, won the round and the Canadian championship by 6 to 3. The northerners stuck closely to a defensive battle throughout, but played better hockey, and it was apparent that had they needed a victory they were powerful enough to achieve that aim.

It was with the criticism of the fans ringing in their ears that the fishtown players opened up a fierce offensive early in the game and demonstrated in a hurry that they were determined to battle to the last ditch for the Cup.

The Westerners played a vastly different game from that they were guilty of in the first contest. They had the speed and used it to good advantage, and their attack was dangerous every time the puck carriers swung down the ice two or three abreast. Only the wizardry of Walsh prevented them from winning by several more goals.

Sault Ste. Marie has every right to feel proud of the team which overcame all opposition in the march to the Canadian championship. The Greyhounds compare favorably with any team that has gone before them. They are consistent and effective, and without doubt the best trained team that the O.H.A. ever sent after the silverware.

BEST BOXING OF SEASON TONIGHT

Tonight's the night of the big boxing bill at the G.W.V.A. hall, and it confidently expected that the card will prove to be the best show yet put on by the P.A.A.A. boxing committee. Great interest is being evinced in the appearence in the ring of Willie Buff, the sensational Rochester boxer, who will meet Lorne Combe, and a second visit by Billy Cutt who faces sturdy Joe Jordon. The main bouts have been arranged so that the Cutt-Jordon bout will go on at 9.15 o'clock to be followed by Harvey Smith and Tony Minnicola, and Ray Millard and L. Minnicola, and conclude with the Buff-Combe clash. The preliminaries of four bouts will start at 8.15 o'clock. Ringside reserved seats may be had up to eight o'clock at the Empress Hotel.

Mrs. Annie M. Dike, an American woman, is the first of her sex in America to be admitted to the French Academy of Agriculture.

Mothers!

Give the children WRIGLEY'S after every meal

A prominent physician says:

"It is surprising how free from decay the teeth can be kept by using gum after each meal."

You know how hard it is to get the children to clean their teeth. By giving them WRIGLEY'S you not only reward them for cleaning their teeth, but *the reward is actually the means of performing this important service!*

WRIGLEY'S aids digestion too, and acts as an antiseptic wash for the mouth and throat. Several flavors—all of WRIGLEY quality.

The Flavor Lasts

R. M. GLOVER, Managing Director.

WEDNESDAY, MARCH 19, 1924.

TODAY'S GUEST.

Although not heard of in political circles until he ntered the field as a candidate in the general election ast June, the name of Hon. J. S. Martin, Provincial Minister of Agriculture, who gave an address here this fternoon under the auspices of the Peterborough Industrial Exhibition, is famous.

Mr. Martin is the Wynadotte king of America, and his birds have captured all the prizes worth capturing in the biggest competitions on this Continent.

At the age of thirty-two years he was a school teacher; then he embarked into the poultry business, specializing in the breed that has made him an international figure, and 1924 finds him wealthy and prosperous and, incidentally, a member of the Provincial Cabinet.

He has shown that the man who goes into an enterprise with energy and vision and determination is bound to win through to success.

He has taken one department of farming, and by scientific methods has climbed to the top of the ladder, thus demonstrating the opportunities there are in the country for those able to take advantage of them.

The Minister of Agriculture is well qualified to speak to farmers, therefore, for he has proven his theory first before bringing it to the attention of others.

A FITTING TRIBUTE.

The decision of the Reception Committee of the y Council to banquet the Peterborough Intermediate ockey team as a testimonial to the gallant fight they nade the Ontario championship and as a recognion of the manner in which they conducted themselves uring the season, will meet with the approval of citiens generally.

The tendency sometimes is to place too much stress pon winning and not enough upon playing the game.

It always nice to win, of course, but the team that p fairly and in a sportsmanlike manner, that keeps head in victory and does not lose its heart in defeat t fights until the last notch, and if it must go down down fighting, is entitled to just as much credit the more fortunate team that secures the final victor

In uring for the second year the right to represent tern Ontario in the semi-finals and in going to the last round, only to lose by a solitary sp the Peterborough hockeyists have added to the wh won last summer by Peterborough baseball teams ed ning four Provincial championships, and it is fitG hat there should be some civic recognition of te exploits upon the ice.

thi The Reception Committee does well under the circo ances in arranging for a complimentary banquet De Ca players who brought so much credit to their su city.

th pr co

A FINANCIAL PLOT.

Soon after the general election last June Hon. G. agnguson announced the intention of the new Govhent to appoint a financial controller for the Provhon an expert financier who would exercise a general be apervision over financial transactions and keep the Sance out of questionable and unwise transactions. Mnce then there has been little heard of the proAs but the revelations before the Public Accounts be cmittee, showing that one broker made $100,000 out bond deal handled for the Drury Government, pos that a financial comptroller would have little difcu in earning his salary many times over each year. inc t has been shown that one-sixteenth of one per six would have been an ample margin of profit for tiealer in question, or a little over $6,000; instead dis as rewarded at the rate of one per cent., clearing ge 000.

of he Province should have saved some $94,000 on sio ransaction, and it is impossible to think that with dev pert financier to superintend such deals that any r would be able to walk off with $100,000 of the CO e's money for a few hours' work.

he right man for such a position could command lary, but he would earn it and it woe be a COB fitable investment for the Province.

The Col to open the case shows how easy it would be for a cious controller of finance to save the Province presented s money on deals of this kind.

this week, good fin rnment would be well advised in looking membersh financier with the necessary qualifications cessful and him enough to secure his services, no forward t as follows: he is now employed.

Hon. P ntion of one bond transaction such as was Hon. V almost under the eyes of the Hon. Peter S. Haas, well, ould be ample justification for the appointment. Mrs. Province has needed and still needs a financial

the cowardly course of eliminating all religion from our schools.

"Now a child can be taught all about the wars and the armours of pagan gods, but the teacher dare not teach of Christ crucified, of the Sermon on the Mount, or even of the lessons of the Old Testament.

"No similar subject has the slightest tendency to develop the heart, to teach that evil must be avoided not only because of punishment but because it offends the law of Almighty God.

"The result is that the old maxim that 'Fear of the Lord is the beginning of wisdom' has been corrupted into 'Fear of the law is the beginning of prosperity.'

"Which means that everything is all right providing you're not found out.

"Why should it not be so?

"The child in school is taught a whole system of secular life without a single moral sanction.

"Then, as a thing apart, as a secondary thought, there is injected from some source or other, if the child is fortunate, some system of religious instruction, but more often than not he is denied even this."

HOW TAXATION AFFECTS WAGES.

There is something illogical in the assertion, which is being made in certain quarters across the international boundary, that the taxation of corporate surplus would be an approach to "equality." It is based on the superficially plausible assumption that taxes would thus fall on the shoulders best able to bear them, and be lifted from weaker shoulders. When examined, however, this plausibility disappears in large degree. If surplus capital is taxed, then precisely in the measure that it passes from the possession of individuals to the public treasury is its power to produce wages reduced. That is sound economics, and no amount of argument can make it otherwise.

We must all have a clear and rational realization of what produces wages before we can talk about this matter intelligently. Wages grow out of capital at work. Idle money is inert. Capital is made up of savings. It is not in the hands of a certain class, as some badly informed people assert. Every dollar put into a savings bank, or into an insurance policy, is capital. It must be made to earn, and the only way it can earn is to be put into some productive industry. The surplus of a commercial corporation consists wholly of savings. It could not very well be anything else.

We should all see very clearly, therefore, the relationship between capital and wages. It is not straining the truth to say that the more capital there is available the more wages there will be; and if that be true, then the reverse is also true—less capital, less wages. It seems necessary to emphasize this economic fact, since unthinking people are likely to be impressed by the false doctrine that if capital were made to pay all the taxes, or nearly all, the only sufferers would be the capitalists. The heaviest sufferer would really be the wage earner, since capital is the source of his supplies.

In this matter we should clearly identify the intensely co-operative character of society. Instead of the social fabric being made up of two classes, capitalists and workers, as the extreme Socialists are so fond of asserting, it really consists of many units very closely knit together by the force of economic laws. Thousands of men are capitalists without knowing it. Every man, for example, who saves a few dollars of money and invests it, could be so classified. He may be a mechanic and an ardent labor unionist. That makes no difference. If he is an investor in anything he is a capitalist. He is not different from the millionaire owner of a factory except in degree.

It seems to be necessary to lay a groundwork of this nature in order to come back with a clear mind to our starting point. Taxation is both necessary and unavoidable; but high taxation is unnecessary, avoidable, and very hurtful. The state or the municipality levies taxes in order to provide services essential for community life; yet the moment the impost passes a certain point it is likely to do more harm than good. That point can be readily indicated. The moment an excessive levy is made on the savings of the people—and all taxes come out of savings—at that very instant a process is set in motion which finally, and very definitely, limits the amount of money available for wages.

This brings the matter home to ordinary people with a direct personal significance. It has always been a fallacy to assume that taxes necessarily come out of the pockets of those who pay them. Paradoxical as it may seem, the burden may easily fall more heavily on the man who pays $1 than on the man who pays $10,000. The latter may be able to pass nearly every penny of his tax bill on to others—the consumers of what he produces, for example—while the other may pay indirectly throughout the entire year in lowered wages or unemployment. If taxes are needlessly high, that is almost certain to happen to him.

The point which this hasty review of the matter is intended to make clear is, that we lose sight of fundamental truth when we think about taxes in any other than the community sense; for so closely are all the units of a community bound together by interests in common, that it is impossible to cast a burden on the shoulders of any particular class without all other classes feeling it. The word "class" is here used for purposes of argument only. It is a misused term, and has little meaning in our time. We merely turn out the light when we argue as though there were sharp and permanent lines of cleavage in society, except in a very limited and unimportant degree. So far as the effect of high taxation is concerned, all lines of superficial separation practically disappear. Therefore there should be a general and concerted effort to resist excessive and unnecessary taxation in the interest of the common good.—Ottawa Journal.

EDITORIAL NOTES AND COMMENT.

Two Quebec children, locked in their home, were burned to death. The parents should be indicted for criminal negligence.

A strike among the letter carriers would not be a novel affair. The posties are accustomed to walk out every morning.

The Dumbells have proved once again that it is not necessary to import entertainers. This Canadian product ranks with the best.

WHEELS APPEAR ON DELORA ROAD

Removal of Snow For the Winter Traffic Leaves Highway Bare At An Earlier Date Than Usual

MARMORA, March 18. — Although much snow lies on the ground, it is unusual to see buggies and lumber wagons being used on the Deloro-Marmora road. The explanation is that the snow plough which was used on the road, while a great benefit to car owners, is now proving itself a great annoyance to drivers of horse drawn vehicles.

NEWS OF BETHANY AND THE DISTRICT

Horse Broke Loose From the Church Shed—Personals.

BETHANY, March 19.—A number from here attended the funeral of the late Valentine Rowan to Mount Pleasant Cemetery on Friday. Mr. Rowan was an old resident of Manvers Township, and only left farming a year ago on account of ill-health. On leaving the farm Mr. and Mrs. Rowan made their home with their daughter, Mrs. D. White, of Cavan.

A horse belonging to Mr. C. Patton broke loose from the church shed on Saturday night, and followed the road to the 8th Line of Cavan when it took to the railway, overturning the cutter and breaking the harness. The horse was recovered on the boundary near Mr. Thos. Wilson's.

Teaming is the order of the day. The farmers are getting their wood delivered and the ice harvest is being completed.

Messrs. Twigg and Staples shipped a carload of stock to Toronto on Saturday.

Mrs. Carscadden and her sister, Miss Preston, were visitors in Peterboro on Saturday.

Mr. J. J. Preston was a visitor in Toronto last week.

Rev. Adams, former Methodist minister, Bethany, was a visitor here in connection with the Navy League last week.

Mr. Isaac Fallis was a visitor in Peterboro on Saturday.

Mr. F. C. Dawe shiped a carload of potatoes to Peterboro on Friday.

Miss Neta Wake visited friends in Lindsay on Saturday.

Mr. Charles Reynolds, of Lindsay, was the guest of his parents, Mr. and Mrs. F. Reynolds, on Thursday.

Mr. Harry Hutchinson was a Peterboro visitor on Thursday.

Mr. Bert Monk is spending a few weeks among friends and relatives in Detroit.

Miss Pearl Twigg, of Peterboro, spent the week-end at her home here.

Mr. Harvey Fallis was a business visitor in Peterboro on Saturday.

The Manvers Council held their regular meeting in the Town Hall on Saturday.

TWO THOUSAND MORE JOBS.

BEDFORD, Ind., March 19.—(United Press)—Two thousand men will soon be added to the army of workers now employed in the quarries of the Bedford-Bloomingtn district, according to an announcement by the Indiana Limestone Quarrymen's Association.

Get this Poultry Book FREE

THE Ful-O-Pep Poultry Calendar is full of practical helps on poultry raising. It tells about poultry diseases and how to cure them. It shows you how to save practically every chick. It tells how to get more eggs and better birds for market. It tells about the new "Chick-Starter" with cod liver oil which ensures healthy, vigorous birds.

Send no money. Just drop us a line and we will send you the book by return mail.

HASTINGS AND THE DISTRICT

Funeral of Mrs. Samuel Stickles Monday--Personals.

Hastings, Mar. 19 Funeral of Mrs Sam Stickles was held on Monday afternoon. The remains were conveyed to the Presbyterian church, where service was held. The pastor, Rev. D. A. Thomson preached from the text, "Thou shalt be missed for Thy seat will be empty." The pall bearers were: Alex. Wilson, Dr. J. H. Hess, Henry McMillan, Charles Fowds, Wm. Hill and Wm. Learmouth.

The floral tributes were many showing the high esteem in which deceased was held by her neighbors and friends.

The place of interment was Trent Valley Cemetery.

Rev. M. L. Hinton spent Monday in Campbellford, attending a meeting of the Ministerial Association.

St. Patrick's Day was ushered in with a piercing wind, typical March weather.

The roads and pavements are in such an icy condition that walking is very dangerous.

The weekly prayer service of the Methodist church was held at the home of Mrs. John Johnston.

Percy Beavis has disposed of his fine team of black horses to a buyer from Peterboro.

Mrs. Roy Watson and daughter, Evelyn, have returned from a visit with Peterboro friends.

Dr. J. H. Hess spent Saturday in Peterboro.

Miss E. Angus and brother of Rochester are in town attending the funeral of their sister, Mrs. Sam Stickles.

Earl and Howard Firman of Campbellford, spent Sunday with Mr. and Mrs. V. German.

$380 FOR AUTOGRAPH.

BERLIN, March 19. — An autograph letter of Franz Schubert, dated the year of his death, was sold for $380 at a local auction. A letter of Goethe came next, with $265.

A WAR MADE TOWN IS IN DIFFICULTY

Failure of Implement Works Results in Exodus of 2,000 -- Others Too Hardup to Move.

QUEBEC, March 19.—The failure of the Machine Agricole, which brought a bank to the verge of collapse and resulted in the intervention of the Provincial Government, may also cause the ruin of the town of Montmagny, if the facts disclosed by Premier Taschereau and Hon. J. E. Caron, Minister of Agriculture, by a delegation headed by Messrs. Therriault, M.L.A. for L'Islet, and Charles A. Paquet, M.L.A. for Montmagny, are supported by developments.

Eight years ago 1,500 men were employed in the factory of Machine Agricole on the fabrication of shells, and for two years after the war over 1,000 working men found employment in the plant, which had been transformed to a farm implement concern.

For two years past the plant has been closed down as a result of the failure of the company, which involved about $10,000,000. Unable to earn their living any longer, two thousand people left the one-time prosperous town, generally for the United States and industrial centres of the province. Others remained, awaiting the confirmation of reports which from time to time were afloat regarding the re-opening of the works.

However, nothing has yet occurred, and thousands of people are unable to live any longer under the present conditions. In fact, it is stated, hardship is such that many have been unable to find means of moving to other sections of the province.

Added to the case of individuals now comes the announcement that the municipality is menaced by financial difficulties unless business becomes normal again.

In a century of time at New York and in 87 years at New Orleans, the yearly means of temperature have not varied more than five or six degrees.

ELECT GEORGE PORTER GRAND MASTER OF THE ROYAL BLACK CHAPTER

Coincidence is That Chapter Had Its Birth in Peterborough Forty-eight Years Ago Today Other District Men Elected Officers for This Year.

SPLENDID REPORTS

Forty-eght years ago on March 19, the Grand Black Chapter of Eastern Ontario was initiated in Peterboro under Grand Master T. W. Kenny, a relative of this year's retiring Grand Master, E. Armstrong, whose position was yesterday taken on election by anoth r Peterborough man, George Porter.

The annual convention of the Grand Black Chapter opened in Victoria Hall yesterday morning, and concluded at night to make way for the opening to-day of the Grand Orange Lodge of Ontario East.

Addresses of welcome to the city were given by Mayor J. J. Turner, Alderman R. N. Jones and Walter Stocker; the Ladies' Orange Benevolent Association, and the local Royal Black Preceptory 261. These were replied to by T. K. Allen, of Kemptville; Rev. T. M. Patterson, Grand Chaplain, and H. B. Fetterly, Grand Censor.

Keen interest was taken in the deliberations that followed the presentation of reports by several committees, all of which were enthusiastic, and indicated considerable progress during the year.

The Finance Committee showed a healthy condition, and a large increase in membership was reported, while the correspondence committee congratulated the retiring Grand Master on the success attained under his leadership, and complimented the other officers on their work.

The district covered by the Grand Black Chapter of Eastern Ontario extends from Durham to the eastern boundary of Ontario, and two hundred delegates from this territory attended the convention yesterday.

A resolution was passed asking the co-operation of the brethren in the celebration of the 140th anniversary of the United Empire Loyalist settlement in Belleville on June 17, when an Orange parade will be held A grant of $100 was made to the True Blue Orphanage at Richmond Hill and the usual grant allowed The Sentinel.

The election of officers resulted as follows:

Grand Master, George Porter, Peterboro; Deputy Grand Master, G. A. Lount, Cornwall; Associate D. G.M. S. G. Kerr, Belleville; Grand Chaplain Rev. R. M. Patterson, Fraserville; Deputy Grand Chaplains Rev. A. L. Geen, Belleville and Rev. H. W. W. Bromwich, Halleystation; Grand Registrar, D. J. Sutherland, Ottawa; Deputy Grand Registrar H. P. Leslie, Ottawa; Grand Treasurer James Moore, Eganville; Deputy Grand Treasurer G. F. Reid Corbyville; Grand Lecturer E. F. Reid, Peterboro; Deputy Grand Lecturer, Joseph Lisk, Eganville; Grand Censor H. B. Fatterly, Winchester; Deputy Grand Censor, T. H. Rice, Omemee; Grand Standard Bearer E. Bell, Belleville; Deputy Grand Standard Barer W. G. Graham, Carp; Grand Marshall Col. T. W. Beckett, Kemptville; Grand Pursuivant J. A. Tysick, Perth; Deputy Grand Pursuivant W. E. Higgs, Lindsay; Grand Committee: T. H. Cathcart, Ottawa; E. H. Jinks, Consecon; P. McDonald, Douglas; S. S. Cromwell, Broadville; J. E. Porter, Smith's Falls; M. C. Reynolds; Foxboro; Alonzo Moncrief, Omemee.

HON. W. D. McPHERSON, K.C., Grand Master of the Orange Order, who will address a meeting in the Grand Opera House this evening in connection with the convention of the Grand Orange Lodge of Ontario East.

KING GOVERNMENT WINS FIRST HOUSE DIVISION BY DEFINITE MAJORITY

Issue Was on Address in Reply to Speech From the Throne --Majority of 121 is Record for 20 Years -- Conservatives Voted Solidly for Amendment.

OTHER PARTIES UNITE

OTTAWA, March 19.—(Canadian Press).—On the first division of the present session, the Mackenzie King administration was sustained shortly before 1 o'clock this morning by a majority of 121. The issue was the acceptance or rejection of the address in reply to the speech from the Throne, and the division was recorded as 167 to 46. The carrying of the main motion, a pure formality followed immediately upon the defeat of the amendment of Donald Sutherland (Conservative, South Oxford) by the vote above named. The majority probably constitutes a record for a period of 20 years.

For the amendment motion—calling for the protection of home industry and the maintenance of the home market—the Conservatives voted solidly, the Progressives and Liberals uniting in opposition.

Three supporters of the Government who had raised their voice against the tariff-reduction clause of the speech — Messrs. H. M. Marler (St. Lawrence), W. D. Euler (South Waterloo) and W. G. Raymond (Brantford) — were loudly cheered when they placed their voting strength behind their leader. Hearty applause also greeted the act of voting by the various party leaders, three new members and the member for South-East Grey (Miss MacPhail). There were six pairs and some seven or eight absentees.

A double division terminated the discussion that had entered its third week and had been participated in by no fewer than 57 members of the House. For some time it had generally been conceded that the Government would win a large majority on the division, but the actual vote came almost in the nature of a mild surprise.

Defends Premier.

The closing day of the debate on the address in the House yesterday brought a number of speeches.

Hon. C. P. Graham, Minister of Railways, and a Canadian delegate to the Imperial Conference, warmly defended Premier King's attitude at the conference. The Prime Minister, he declared, had been zealous at the conference in defence of Canadian interests. Mr. Graham admitted that it had been a mistake to buy the "Paris building" (the Hotel Scribe). Sir Henry Thornton had made mistakes, but the only people who never made mistakes were dead.

Hon. S. F. Tolmie, Minister of Agriculture in the late Government, challenged statements that the dry-dock at Esquimault was unnecessary and badly located.

Statements that the dock was unnecessary or that it was badly located, Dr. Tolmie declared, were incorrect. The business of the port of Vancouver was growing with great rapidity, and large vessels were entering that port more and more frequently. A portion of the coast of Vancouver Island was extremely dangerous to shipping, and a dry-dock was required to make repairs to such vessels as suffered mishap. The location of the dock was at a central point where the British Government had established a naval station, and Yarrows, Limited, the great British shipbuilders, had built a plant. It was conveniently situated to care for injured ships.

Makes a Family Supply of Cough Remedy

Really better than ready-made cough syrups, and saves about $2. Easily and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a 16-oz. bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is 16 ounces of really better cough syrup than you could buy ready-made and saves easily $2. Tastes pleasant and never spoils.

This Pinex and Syrup preparation hits right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

Pinex's use will usually overcome even a severe cough and for bronchitis, hoarseness and bronchial asthma it is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

OBITUARY

MRS. ELIZA STAPLES BOLTON.

The death occurred suddenly yesterday at her late residence, Lot 8, Concession 10, Douro Township, of Mrs. Eliza Staples Bolton, aged ninety years and six months. The deceased, who had been ill for only a week past, was a native of Kent, England, and had resided at her home in Douro during the past sixty years. She was a member of the Methodist Church at Lakefield.

Survivors are eight daughters, Mrs. T. Collins, of Paisley, Ontario; Mrs. G. King, of Bad Axe, Michigan; Mrs. E. Miller, of Rochester, N.Y.; Mrs. T. Head, of Toronto; Mrs. J. Webster, of Otonabee; Mrs. W. G. Anderson, of Smith; Mrs. D. Anderson, at Lock 24, and Mrs. R. Tedford of Lakefield; seven sons, Thomas, of Sebrington, Ontario; James, of Wallaceburg; Francis, of Courtright; William of Peterborough; Frederick, of Lakefield; Charles and Robert of Douro; also one sister, Mrs. W. Chapman, of Peterborough. Mr. Bolton's husband, James Bolton, pre-deceased her about 25 years ago.

The funeral will take place from the residence of the deceased's son, Robert Bolton, River Road, Douro, on Friday at 1.30 p.m. to the Little Lake Cemetery. Services will be conducted by Rev. Mr. Reddick, of Lakefield.

CANADA HAS NOT YET APPROVED RUM TREATY

LONDON, March 19 (United News) — Canada and the Irish Free State have not yet approved the treaty between the United States and Britain to regulate the search and seizure of rum runners off the American coast and extend the three-mile limit, but the treaty will be ratified as soon as their approval is received.

This announcemet regarding the liquor pact was made in the House of Commons yesterday by Arthur Ponsonby, Under-Secretary for Foreign Affairs.

IN MILLBROOK AND DISTRICT

Pupils of Mrs. W. C. Allen Held a Recital -- Personal Mention.

MILLBROOK, March 19.—Mrs. W. C. Allen held a successful recital with her pupils on Friday afternoon at the Rectory, many of the parents and other friends being invited to enjoy the occasion. Mrs. Allen's pupils always do her credit, and the musicale on Friday showed their advancement and also the thorough sympathy existing between their teacher and themselves. The latter element was especially evident in the duets which Mrs. Allen played with some of those taking part, and warm congratulations were showered upon the rector's wife for the excellent knowledge, both in reading and technique, resulting from her efficient tuition.

Tea was served and a delightful social time enjoyed before the guests, numbering about fifty, left for home.

Mrs. L. H. Winslow assisted her mother during the afternoon and evening.

Bible Class Event.

The sale of home-made baking held on Saturday afternoon in C. Garside's store under the auspices of the Boneka Bible Class of the Methodist Sunday School, Mrs. L. Rea, teacher, proved most successful.

A tempting array of pies, tea biscuits, cakes, cookies, etc., filled the shelves and counter, and customers were not lacking as everything was disposed of at an early hour, and a larger supply could have been sold had more been on hand.

The financial receipts were satisfactory and reached the necessary amount for the special object which the class had in view. Mrs. Rea acted as cashier, and others assisting were the President, Mrs. F. W. Smith, the convenor of the Social Committee, Mrs. H. A. Earle, Mrs. T. H. Aiken, Mrs. Ross Edmunds, Mrs. John Rowland, Mrs. G. Freelove and Mrs. Arthur Fallis.

Mrs. W. Sanderson and daughter Margaret, who have been visiting in town for the past few weeks, left for their home in St. Catharines on Monday, Mrs. G. Sanderson acompanying them. Mrs. W. Bingham, who is en route for California to join her husband, was with the party as far as Toronto.

The orchestra, under the leadership of Mr. G A. Duncan, went to Centreville on Friday evening and gave much appreciated assistance with the programme at the entertainment in the U.F.O. Hall. The members of the orchestra included: Messrs. G. A. Duncan J. L. Byam, J. Isbister, H. Janes, F. Rowe, Ernest Burnham, Lloyd and Billy Byam, Miss May Byam, Miss Lola Carley presided at the piano.

The G.W.V.A. intend holding their usual dance on Easter Monday in the Armouries. Good music by a four-piece orchestra. A large attendance is looked for.

Mrs. R. J. Doak and son Albert returned home after an extended visit with her daughter Mrs. B H. Price, of Orillia.

Miss Mamie Collins left this week for an extended visit with her cousin, Miss Helen Armstrong, of Fergus, and her brother, Mr. Walter Collins of Kitchener. Miss Collins will also visit friends in Toronto on her way home.

Mr. A. Williamson, of Haileybury, is visiting his parents, Mr. and Mrs. W. Williamson, 7th Line, Cavan.

Miss Ethel Richardson has accepted the position of soloist in the choir of hte Methodist Church, and is also training the choir for their Easter music.

New members have been added and the music on Sunday was excellent. The solo, "O Lord, Correct me," sung by Miss Richardson at the morning session, was much appreciated.

Mrs. H. Mulligan has gone to Ottawa to be present at the golden anniversary of St. Paul's Presbyterian church, of which her brotrer, the late Rev. Dr. Armstrong was the first pastor.

Mr. and Mrs. H. Johnston, and Mrs. Stinson, Sr., of Janetville, who were guests of Mr. and Mrs. P. Stinson, have returned home.

Mrs. Whitten, who has been in Elizabeth, N. J., for the winter months, has returned, and is with her daughter, Mrs. H. J. Grassett, for the summer.

The farmers are taking advantage of the last of the selighing to bring in their grain and Attwood and Sheppard's chopping mill is running overtime to keep pace with the demand. A large quantity of logs has also been drawn in but opportunity for cutting these must wait until the rush for grinding grain has passed. W. G. Russell's & Sons' mill is running busily every day, however, cutting the supply of logs which is augmented daily and which is fully up to if not above the average of other seasons.

Card of Thanks.

Mrs. Valentine Rowan, and Mr. and Mrs. David White of Cavan, wish to express their appreciation of the kindness and sympathy extended to them by their neighbors and other friends, during the time of recent bereavement through the death of husband and father, the late Mr. Valentine Rowan.

DUBLIN STREETS SCENE OF FIGHT

Mutinous Officers Rounded Up and Captured in Public House After Battle.

DUBLIN, March 19. — (United Press)—Troops today surrounded a public house in Parnell street, where mutinous army officers were hiding, forced an entrance and arrested nine of the officers who had fled to the roof.

The arrests came after a siege of hours in which machine gun units, armored cars and scores of troops, and the police participated.

At 2.30 a.m. troops and police surrounded the house following a report that the mutineers headed by General Tobin and Colonel Dalton, were holding a meeting.

A messenger was sent to the door to demand that the mutineers surrender. His answer was a volley of pistols shots. Additional troops with machine guns and armored cars were called at once and a cordon thrown about the entire block.

A huge crowd gathered despite the intermittent firing.

Finally at 11.40 a.m. a detachment rushed at the door of the building and seized nine men who were firing from the roof.

Twenty or thirty other officers apparently had escaped and search of adoining houses was started at once.

As the police were taking the prisoners away, one man leaped from the motor van, but was recaptured after being fired on by the military cordon.

The identity of the prisoners was not disclosed, but one report was that a member of the Cabinet had attended the mutineers meeting.

The mutiny of free state troops had been under way for more than a week, many officers and men having abandoned their posts as a protest against the government's army reorganization plan.

REVISED FREIGHT RATE IS EXPECTED IN APRIL

OTTAWA March 19 (Canadian Press). — It was stated last night in well-informed circles that on 10th April there will be filed a revised tariff on freight rates for all the Eastern lines of the Canadian National Railways, effective on 14th April.

It is believed that material reductions in rates will be announced.

A THOUSAND CHILDREN FROZE IN TWO MONTHS

BERLIN, March 19. — (United Press.) — Press reports published here state that more than 1,000 Moscow children froze between December 1923 and January of this year.

SINGAPORE

(Continued from page 1.)

the Prime Minister said: "I think that argument is wrong."

Mr. MacDonald went on to say that the scheme would hinder confidence, and that its abandonment was an earhest of Great Britain's good faith. Nevertheless, the world should know that if they were driven to extend they would extend. Practical necessity for the scheme, however, had not arisen, and it was the Government's duty to prevent it from arising.

Former Premier Baldwin declared that the Conservatives regarded the Singapore plan as of such importance they would bring up the whole subject on the report stage of the naval appropriations.

Lord's Express Regret.

Meanwhile, in the House of Lords, an amendment moved by Lord Curzon that "the development of the Singapore base is urgently required for the protection of our commerce, the security of our dominions and the future maintenance of peace, and its abandonment is deeply regretted by the House," was carried on division, 50 to 19.

Parliamentary Secretary Ammon introduced the naval estimates, details of which were given out several days ago by Viscount Chelmsford. These amount to £55,800,000, a reduction of £2,200,000 as compared with the estimates for the present year. The total strength of the personnel, including officers and men, now is 100,500, as compared with 99,500 for 1923-24.

Mr. Ammon said that by the time the five proposed cruisers were completed, eleven or sixteen of those now in commission would have been scrapped or relegated to the reserve as the cruisers which participated in the great war would not have an effective life of more than ten years.

Naval Replacement.

Similarly, it would be necessary in two or three years to begin the replacement of destroyers. Since that type of destroyers required for work outside the North Sea differed from the existing type built for work in that area, it would be necessary to build one or more for a try-out before a replacement programme could be undertaken. The time had arrived when the construction of cruisers for replacement could be no longer delayed.

Of the 48 light cruisers possessed by the Empire, ten were already past or almost past an efficient age; some others were so light that they were not suitable for operations on the long trade routes.

Arrangeemnts had been made to maintain an adequate oil reserve to meet the needs of the fleet and the Admiralty felt a greater sense of security in this connection owing to the Governments' decision to retain its control of the Anglo-Persian Oil Company and to maintain its contracts.

Battleships Building.

Progress in constructing the battleships Rodney and Nelson was seriously affected by the boilermakers' lockout last year, but it is expected that the work on the cruisers Effingham, Frobisher and Emerald will be completed in the next fiscal year and the Enterprise completed by January, 1925.

An addition of one thousand to the personnel was needed to help man the Rodney and Nelson.

Curiously, while the Government had the support of the Liberals and the Laborites, and only Conservative opposition against it, on the Singapore question, the position was reversed on the cruiser building programme, when the Conservatives sided with the Government, while the Liberals and a section of the Laborites were arrayed against it.

Policy Inconsistent.

Sir John Simon, former Home Secretary, pointed out that the Prime Minister's reasons for abandoning Singapore applied exactly against the building of more cruisers.

Hugh Seeley, Liberal, introduced an amendment that the building programme was not needed and was not justified on the ground on relieving unemployment; that, likewise, it was calculated to increase competition in armaments.

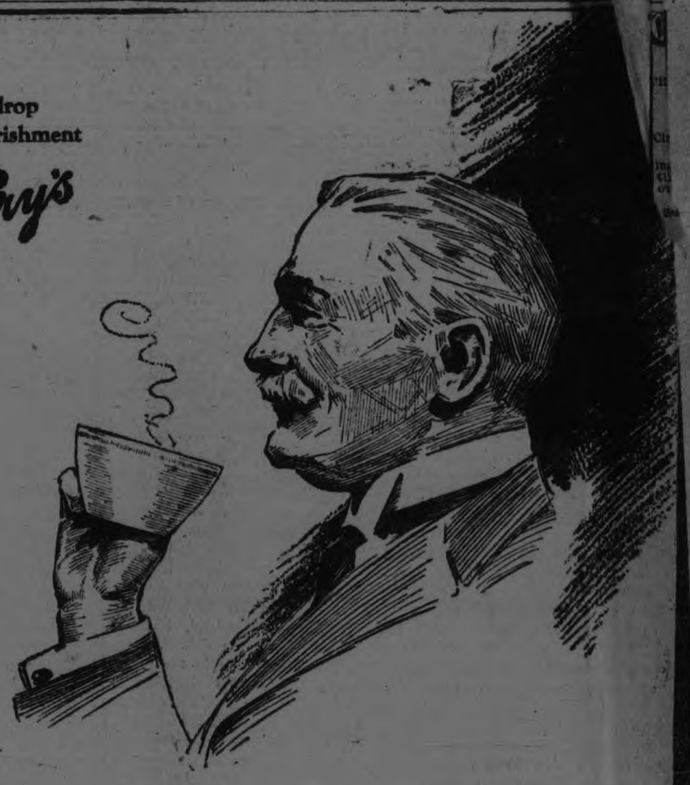
Frank Hodges, Civil Lord of the Admiralty, explained that the programme did not go beyond necessary replacements, and Mr. Seeley's amendment was defeated, 304 to 114.

W. S. FIELDING WILL LEAVE FOR HOLIDAY

OTTAWA, March 19.—(Canadian Press)—It is understood that on advice of his physician Right Hon. W. S. Fielding, Minister of Finance has been confined to his home here by illness since last December, will leave to-day for Atlantic City, accompanied by members of his family. It is hoped that change of scenery and atmosphere at Seaside will contribute considerably towards resting his health. Hon. Edmund Bristol of Toronto, who has reputation of being chronic absentee from Parliament has been "paired" with Mr. Fielding.

Every drop is nourishment

Fry's



DR. Andrew Wilson, the eminent British authority, once said of the cocoa bean—"It is a kind of vegetable egg which contains all that is needed to build up a living body." Tea and coffee are mere infusions—but cocoa is an actual food in itself. Business men should remember that.

Cocoa, made the FRY way, from the world's choicest beans, is pure, extremely soluble and of most delicious flavour. Nearly two hundred years' knowledge of the cocoa business stands back of FRY'S. Of course, remember

"Nothing will do but FRY'S."

With Your Favourite Cereal

A product of The Quaker Mills, Peterborough and Saskatoon

Try three tablespoons of Tillson's *natural* Bran mixed with your favorite cereal every morning. *Natural* Bran is nature's bowel stimulant. It is an efficient laxative.

Eat bran bread or bran muffins at any meal. Made with Tillson's Bran they are delicious. They supply you with needed "roughage."

Recipes for bran baking in each carton.

Fashions For Spring Opening

In our presentation are versions of the mode, which reflect and interpret all the new fashion notes—in silhouette in detail, in fabric and in color, presenting them in varied phases that will ideally meet every preference. Amazing in their variety—charming in their newness, chickness in every style.

Thursday, Friday, Saturday

THE SUITS

Tailored, box and boyish form models share honors in this extensive collection of new Spring Suits. Twills, hair line stripes and tricotines of fine quality go into their making while irreproachable tailoring and careful finishing further their smartness. Colors include mocha, moss, sand, navy and black.

THE COATS

Continue in the straight and narrow way, but with all sorts of fascinating variations. Twill cords and tricotines for the more formal of wraps, and new wooly materials, Hy-lo, Mah Jong, and Teddy Bear Cloth coats of the sport persuas Mocha, navy blue, beige, ca and redwood shades are colors.

THE FROCK

Follow delightful modes. tinct portrayals of the ne silhouettes, treated in an ind ual manner and developed the season's newest fabrics are incomparably smart.

We cordially invite your inspection and comparison

BOWLING

PETES AND TORONTO PLAYED A TIE GAME

The Harris Dairy team of Toronto and the all-star team from Peterboro played a tie game Friday night at Solomon's Alleys. The method of scoring an important game of this kind is the same as that used in the big tournaments. The total number of pins for the three games are counted and not the best two out of three. Both teams therefore, finished a tie, each having 2547 pins.

No sensational scores were set up by either team but good steady rolling featured. Curvin was the high man of the evening with a nice score of 544 for his three games. Kearns was next with 529. Curvin had the high single of 202.

There was a great crowd on hand and they packed the alleys. So great was the crowd that some could not gain admission. Those who were lucky enough to gain admission witnessed three nice games.

The Toronto bowlers proved themselves real gentlemen and sports and they found the Peterboro team the same. A return game with the Toronto bowlers will be played by the Peterboro team in Toronto next Saturday.

Following are the scores:

Harris Dairy—				
Truhler	138	170	201	509
Scott	184	141	163	488
Kearns	155	178	196	529
Donaldson	154	179	180	522
Cusack	174	167	158	499
	805	835	907	2547
Peterboro—				
J. C. Green	160	141	199	500
Hayes	190	170	153	513
Dawson	183	140	170	493
Dedman	185	167	145	497
Curvin	159	202	183	544
	877	820	850	2547

TIED FOR HIGH SINGLE

Mrs. G. Johnson and Miss M. Porter both finished a tie for last week's prize given for the lady rolling the highest single at Solomon's Alleys. Both ladies rolled a nice high single score of 215.

WINS BLIND SCORE.

Geo. Cairns won the blind score prize for the Mercantile League, defeating H. Ballard. Both Cairns and Ballard were tied at the end of the rolling for the prize, each rolling the perfect score. Friday night when they rolled off for the prize each finished with 149. This necessitated and extra game and Cairns won rolling 149, while Ballard rolled 139.

TORONTO BOWLERS WERE BANQUETED.

Following their game at Solomon's Alleys Friday night the Toronto bowlers were banqueted and entertained by the Peterboro bowlers at the Class Cafe.

After the meal a few speeches were made and singing also featured the program. The Toronto bowlers thanked the Peterboro team for their fine reception and assured them of a good time next Saturday when they play the return game in Toronto.

THIS WEEK'S BOWLING AT SOLOMON'S ALLEYS

(City Ten Pin League)
Monday at 8—High Rollers vs Crescents.
Tuesday at 8—De Laval vs Examiner.
Thursday at 8—Lawn Bowlers vs C.P.C.
Friday at 8—C.P.C. vs Belmont Club.

(Brinton Carpet Intershop League)
Tuesday and Thursday at 7 p.m.

(Examiner Intershop League)
Wednesday at 5 p.m.

(Belmont Club Tournament)
Wednesday at 7 p.m.

(Ladies Five Pin League)
Wednesday at 8.30 p.m.

INDIVIDUAL AVERAGES OF CITY TEN PIN LEAGUE

The following are the individual averages of each player of the City Ten Pin League complied by the Examiner Bowling Editor.

Jake Solomon won the high average for the season finishing with an average of 182 for 41 games. Dr. J. C. Green won the high three games for the season with a lovely score of 630. Bill Smithson won the high single with a nice game of 264.

The following are the averages in the order that the teams finished:

SOO GREYHOUNDS TO SWITCH OVER

Team Wants to Turn Professional -- Application Going In.

MONTREAL, March 31.—(Canadian Press).—The Soo Greyhounds, who on Saturday night won the Canadian amateur hockey honors and the Allan Cup, may operate a team in the National Hockey League next season. This development in the hockey situation arose Saturday during the progress of the spring meeting of the N. H. L. when President Frank Calder received a long distance 'phone call from George McNamara, who coaches the Soo team, stating that he and his team wished to ally themselves with the professional circuit, and proposed to operate the team with Detroit as the home city. President Calder advised Mr. McNamara to submit an application for franchise through the formal channels, and promised that it would receive full consideration by the League officers. This proposal from the Soo management followed upon the report that the Toronto Granites, Olympic hockey champions, were to seek a berth with the professionals. Their application was not submitted at Saturday's meeting here. Major McDowell, of the Ottawa Hockey Association, stated that he had not been retained to present their claims.

The trading of players, the proposed addition of two United States clubs to the circuit, the possible inclusion of other Canadian teams in order to bring the league to a six-club organization, and the question of artificial ice plants were all discussed at length, but beyond the general cleaning up of the year's business and clarifying to a degree of the present situation in professional hockey, nothing definite developed.

COBOURG GOLF CLUB READY FOR OPENING

COBOURG, March 28 (Special).—The Cobourg Golf Club is preparing to open the season here under auspicious circumstances. The reports presented at the annual meeting, held this week, showed the club to be in good financial standing. A large membership is expected, and a successful and enjoyable season is looked forward to. Officers were elected as follows:—

Hon. President—W. L. Abbott.
Hon. Vice-presidents—F. G. Kay, S. Haas, W. J. Croxen, A. R. Maxwell, Mrs. Rowe, Mrs. G. F. Oliver, Mrs. A. G. Miles.
President—Capt. C. D. Dick.
Vice-president and chairman of grounds—J. E. Stone.
Chairman House Committee—H. C. Higginbottom.
Captain—W. H. Roper.
Directors—John Dick, D. H. Burn, R. T. Mohan, R. E. Barnes, K. K. McCallum, Miss Johnston, Mrs. Hayden, Mrs. Forrest.
Ladies' March Committee—Mrs. John Dick, Mrs. H. C. Higginbottom, Mrs. D. H. Burn.

CRICKET NEWS

A meeting was held in the Chamber of Commerce on Friday evening March 28, with an attendance from each club, the following rules were down. Each club entering the Association will send their representative to a meeting to be held on Friday evening April 4, 1924 at 7.30 p.m. and all entrance fees must be in by that date.

The entrance fee to the Association is $15.00 per club, the Association to provide everythin except the bats, and the Association to bear the expense of keeping the crease in good shape. Be sure to have your representative on hand next Friday.

The moon always presents the same face to us.

LEAGUE SOCCER IN BACKGROUND

Cardiff's Hope Dimmed By Draw With Everton — Bury and Crystal Palace Provided Lively Football.

LONDON, March 31 (Canadian Press Cable).—League football was somewhat out of the picture on Saturday in view of the Cup tie semi-finals at which the gate receipts at Sheffield were led 4,400, at Birmingham led 3,733.

In the First Division Cardiff City seem to be on a decline and their goalless draw with Everton to some extent spoils their hope of heading the league table.

Spurs who were defeated by Liverpool by the only goal scored, played cleverly, but were ineffective near goal.

West Ham defeated West Bromwich by 1 to 0, but both teams were stale, and the game was without interest. Ruffell scored the only and winning goal for West Ham, and there was some doubt as to whether it was not offside.

Swansea was erratic against Portsmouth, and this accounts for the latter's easy 3 to 0 victory. Offside tactics failed to save the Welsh team.

The Bury-Crystal Palace match resulting in a 1-1 draw, produced some lively football, and Bury missed their chance by taking the game by failing to score from a penalty shot.

Fulham who lost to Leicester City by 2-1 were a disjointed team, and only their sound defence averted a big defeat.

Southampton had all the worst of the exchanges, but managed to scrape through with a goalless draw against Clapton Orient on the latter's ground.

Millwall defeated Plymouth by 1 to 0, and they owe their victory to the vigour of their attack, Plymouth giving way in a clever game.

Hopkins of Brighton scored all their three goals against Norwich City, who failed to respond. This is the second time this season that Hopkins has performed the hat trick.

A curious situation will be created if Fulham and Bristol City are relegated from the Second Division. Both are Southern clubs, and they will undoubtedly prefer to play in the Southern section of the Third Division.

CORINTHIANS WON.

LONDON, March 31 (Canadian Press Cable).—In a friendly Association football game on Saturday, Brmingham defeated the Army by 2 goals to 1.

Another friendly game was staged between Chelsea and Corinthians, and provided one of the best struggles seen at Stamford Bridge this season. Creek scored twice for the amateurs, and after this Chelsea, stung to desperate endeavours, fought as though relegation were at stake.

Andy Wilson played experimentally at inside left, but was unable to lead his men to victory.

The amateurs gave a first-class all-round display, and won by 2 goals to 0.

$15,000 SOCCER STAR FOR WANDERERS' TEAM

NEW YORK, March 31.—The greatest capture in the history of Soccer football in this country has been made by the Brooklyn Wanderers in the person of George Brewester, Scotch International star, who will make his first appearance on Sunday at Wanderers' Stadium, Brooklyn, in an American League match against New York.

Brewster was purchased by Everton from Aberdeen for $15,000, and later Wolverhampton Wanderers purchased his release from Everton. He is considered one of the greatest centre halves playing the game and was capped for Scotland against England in 1921.

MISS IRMA WRIGHT WON CHAMPIONSHIP

Typists Compete in Massey Hall on Saturday

TORONTO, March 31.—(Canadian Press).—On the Massey Hall stage 100 typists competed on Saturday night for the championship honors, and in spite of bad weather, 3,000 people were there to cheer them on. Seldom has there been a typewriting contest to equal this, either in number of entrants or number of spectators.

In the international championship event Miss Bessie Friedman was first, with a net rate of 131 words a minute; George Gaskill second with 128 words a minute.

The Canadian championship was won by Miss Irma Wright, 115 words a minute; Ethel Hahndorf, 108; Lottie Betts, 105; Rita Spencer, 104; Doris Russell, 100.

Christmas and New Year are observed the world over.

Mars will be unusually brilliant in the summer months.

Norma Talmadge and Joseph Schildkraut in "The Song of Love"

Norma Talmadge and her new leading man, Joseph Schildkraut, the famous stage actor, in "The Song of Love," at the Capitol to-day, Tuesday and Wednesday.

FOOTBALL MEETING

The annual general meeting of the Peterboro and District Junior Football Association will be held at the Chamber of Commerce on Wednesday evening April 2nd at 7.30 p.m. All interested in Junior Football are cordially invited to attend. Medals will be presented to the De Laval Juniors winners of last season's Junior League by His Worship the Mayor.

FROM PINE BLUFF

A recent issue of the "Pine Bluff Daily Graphic", published at Pine Bluff, Arkansas, contains an account of a movie film entitled "Youth's Romance," which is being filmed in Pine Bluff by the Athenian Picture Corporation of Los Angeles, who are using home talent for the production. The paper records as present among those who took tests to permit them to take part in the movie, of Col. J. W. Merriam. Col. Merriam was the oldest of those applying, and gave his age as 69 and his weight at 170, with a height of five feet, six inches.

Col. J. W. Merriam was born and raised near Hiawatha, Ontario, and was a member at one time of "Number Two, Company 57th Battalion British Volunteers," known as "The Peterboro Rangers." A few years ago, The Examiner published and article by him immortalizing "The Lost Battalion."

BABY

Did you read about the 22-pound baby born recently in New York City? Every woman on earth would be interested in this baby—walk blocks to see it. It's a girl, Rosa. When she came into the world she was 26 inches tall, nearly 16 inches around the chest. A delightful baby, health, cooing, gurgling.

If you want to break up a dry discussion of politics, just mention this baby.

Babies in general can't get too much atention. They later will shoulder, and possibly solve, the frightful mess our generation has made of the world's affairs.

In these, however, will be found the chemical basis. Put them down in your note book.

THEATRES

AT THE REGENT

"THE SOCIAL CODE" SHOWS VIOLA DANA AT HER BEST.

Metro Star Triumphs in Photoplay of Society and Blackmail.

It is always refreshing to see a Viola Dana picture and this is especially true of her latest Metro starring vehicle, "The Social Code," which opened an engagement at the Regent Theatre to-day. In it the versatile Miss Dana turns from light comedy to drama and offers one of the most captivating performances it has been our good fortune to witness for some long time.

As a member of the Long Island society colony Miss Dana enacts the role of a young girl who faces disgrace to protect her married sister. The role calls for a number of highly dramatic and emotional scenes, in each of which the charming little star acquits herself superbly. "The Social Code" is another genuine triumph for Miss Dana and will be hailed with delight by her many admirers.

Supporting the star are Malcolm McGregor, playing a juvenile role in excellent fashion; Edna Flugarth, sister of the star both in real and reel life; Huntly Gordon, Gyril Chadwick, John Sainpolis and William Humphrey. These players have all been well chosen for their respective parts and work for the general good of the picture as a whole rather than for individual glory. The result is a decidedly well acted photo-drama.

"The Social Code" is an adaptation of Rita Weiman's story, "To Whom It May Concern," which enjoyed wide popularity in print but seems destined to find even greater success as a motion picture. It was adapted for the screen by Rex Taylor. The direction of Oscar Apfel adds more fame to this capable producer, who has brought out forcibly the high lights of the drama. John Arnold was responsible for the excellent photography.

The story is built around the mystery of the murder of a notorious clubman and it holds spectators breathless with suspense.

Short Review.

Viola Dana in her latest Metro offering, "The Social Code," is the featured attraction at the Regent Theatre this week. The new photoplay can be heartily recommended as thoroughly worth while and one that film fans will not want to miss.

"The Social Code" is a modern society drama, with numberless thrills, highly dramatic scenes, elaborate sets and enacted by a cast that could hardly be improved upon. It was adapted by Rex Taylor from Rita Weiman's story, "To Whom It May Concern," and directed by Oscar Apfel.

AT THE ROYAL

"MINNIE" IS LISTED AS EXCEPTIONAL PICTURE

Another picture of exceptional entertainment value is coming to the Royal Theatre next Thursday. It is Marshall Neilan's latest production, "Minnie," released by Associated First National. In this picture Neilan has featured the beautiful Leatrice Joy and popular Matt Moore and has backed them with a cast that fit nicely into his story of happenings in a small town hotel.

Minnie's father owns the hotel, but he is more interested in a radio invention that will give off power to run trucks, water pumps and other necessities that require motivation. So Minnie becomes the drudge. In taking this role Miss Joy has to cover up her beauty, has to dab her face with grease paint and powder and let her pretty black hair hang loose. She wears a mole, too. But she's funny. She does the oddest things in her anger against the people who are constantly sneering at her homeliness.

For the first time in his screen career Matt Moore steps out of "straight" roles to do a character part. He's the inquisitive but forgetful reporter. And he's full of fine humor, too. Those who see the picture at the Royal will agree that Matt Moore was never more delightful.

In cast also are George Barnum, Josephine Crowell, Helen Lynch, Raymond Griffith, as a chewing gum salesman Richard Wayne, Tom Wilson and George Dromgold, that give the picture its many laughs and side splitting humor.

AT THE GRAND

THE MAID OF THE MOUNTAINS.

"The Maid of the Mountains," that most tuneful of comic operas, paid a return visit to the Grand on Saturday, with the same excellent company as was seen here earlier in the season, and added to the laurels won on that occasion. The production was thoroughly enjoyable, with not a weak spot in the cast, and the singing both of principals and chorus was much above the average. Particularly was this true of Miss Ethel Walker, the Australian prima donna, who scored heavily in the role of Teresa, and Louis A. Templeman, a splendid baritone, whose handling of the fine numbers that fall to the lot of Beppo, was a feature of the "Farewell" song, with a depth of feeling that made a lasting impression, and her rendition of the always popular "Love Will Find a Way," was equally effective. Mr. Templeman's singing of "Live for To-day," and the lilting "Bachelor Gay" number, as of splendid quality. Walter Greaza's portrayal of the part of Baldasarre, left nothing to be desired, and the comedy roles were well taken care of by Ronald McMillan as Tonio. Herman Hirshberg as Gener Malona, and Sam A. Burton, as Crupet; Mona Desmond scored as Vittoria and the Angela of Mary Angell, was a convincing piece of acting.

The whole production was artistic and effective, and it was unfortunate that the audience was not nearly as large as the merit of the attraction warranted.

It was the farewell appearance of "The Maid of the Mountains" here and its passage is to be regretted.

AT THE CAPITOL

ACTRESS PLAYS FEMININE SHEIK.

Norma Talmadge Appears As the Arabian Dancing Girl in "The Song of Love."

Norma Talmadge has introduced another Hollywood novelty which it is predicted will cause an even greater furore among both feminine and masculine patrons of the theatre than the Sheiks.

She has brought the Ouled Nail dancing girl to Hollywood. Of course, Norma's is an idealized version of this strange creature of the Sahara, who in real life is very, very good, but dances very intriguingly. The Ouled Nail dancer, say members of Norma's entourage, will appeal both to women and to men.

Like the sheik who seized what he wanted in caveman fashion, Norma's Ouled Nail girl fights savagely to obtain the man she covets. And she gets him.

"The Song of Love," which is a drama of the Algerian Sahara, will be shown at the Capitol Theatre to-day, Tuesday and Wednesday.

Joseph Schildkraut, idol of feminine theatre-goers of two continents, heads the supporting cast, which also includes Arthur Edmund Carewe, the "Svengali" of "Trilby"; Maude Wayne, Hector V. Sarno, Laurence Wheat, Mario Carillo, James Cooley, Albert Prisco and Earl Schenck.

"The Song of Love" is a First National attraction, produced by Joseph M. Schenck.

SELECTED VAUDEVILLE AT CAPITOL THEATRE TO-NIGHT

The first bill of the Capitol's new policy of presenting a programme of selected vaudeville opened at that theatre this afternoon to a good audience who were greatly pleased with the programme. Maples and Pach, in a pleasing medley of singing and dancing, delighted the audience, while Hope and Mantion, in a novelty musical act, were found to be tip-top entertainers.

Norma Talmadge in her latest picture, "The Song of Love," in which the popular star appears as a dancing girl of the desert, is a romantic drama of love and adventure. A longer review will appear in Tuesday night's paper.

The Capitol has made an excellent start with its vaudeville, and Capitol patrons look forward to seeing many more high-grade entertainers.

LARRY SEMON AT CAPITOL IN NEW COMEDY THURSDAY.

Larry Semon, the Laugh King, will appear at the Capitol next Thursday, Friday, and Saturday in his latest comedy, "Trouble Brewing." Every Larry Semon comedy is good, and this one is reported to be one of his best. William De Mille's story, "Ice Bound," featuring Richard Dix and Lois Wilson, will be the feature attraction.

Capitol selected vaudeville will also be presented.

LITTLE THEATRE CLUB SOON TO APPEAR AT CAPITOL THEATRE.

An announcement of unusual local interest comes from the Capitol Theatre, where the Peterborough Little Theatre Club are busy rehearsing a comedy in one-act, to be offered at the Capitol on Monday, Tuesday, and Wednesday, 7th, 8th, and 9th May.

Mrs. W. McKee Bingham is directing the newest production of the Peterborough players, with Mrs. E. H. Wood as stage manager. The comedy is called "Melage," or "Three Women and a Man," and is the work of Miss Kathleen L. McCarthy (Jeannette of The Examiner).

In the cast are Miss Clare Mason, Mr. J. Galger, Mrs. McKee Bingham, Miss Dorothy Engel, Miss Mathilde Masson, Miss Jean Eastwood, and Miss Audrey Huycke.

Special stage settings are being prepared.

Along with this act will be presented Thomas Meighan in his latest comedy hit, "Pied Piper Malone," and Capitol selected vaudeville.

HUNTLEY GORDON AND GERT RUDE ASTOR in "The Wanters" now playing the Royal.

GLORIA SWANSON
in her first dual-role production

POWER RATE TO BACKUS RAISED BY GOVERNMENT

Province Would Have Lost $4,500,000, Premier Ferguson Declared, If the Contract Made By Drury Government Had Held--Three Dollar Increase Per Horse-Power.

RAMSDEN A TOOL.

TORONTO, March 19. — In a discussion on Hydro estimates in the Legislature on Tuesday afternoon, Premier Ferguson attacked the late Drury government for its hydro power contract with the Great Lakes Pulp and Paper Company, at the head of the lakes.

Hon. W. E. Raney, the former Attorney-General, defended the transaction. The premier said the contract had been obtained by "devious means."

The Premier said that the contract given by the late government for $18 per horse power from the Hydro development had been cancelled by the new government and that a new contract calling for $21 per horse power had been signed by the company.

"The Great Lakes Pulp and Power Company is owned by E. W. Backus" said the premier. "This is not the first thing that the former government gave to Mr. Backus, but we will pick a few of them off before I am through. I believe that he got many things he was not entitled to, and we are going to see that we get them back or see that he pays fairer prices for them."

The Premier contended that if the contract made by the Drury government had held the province would have lost $4,500,000.

New Agreement.

The Great Lakes Pulp and Paper Company had a contract with the Hearst government. When the Drury government came into power the company had failed to live up to certain conditions. The Drury government took the matter to the court which held that the contract was not binding on the company. The government therefore entered into a new contract by which the company was to pay $18 per horse power for power from the Ontario Hydro development in that section.

The Premier held that although the courts found no legal obligation to carry out the original agreement that there was a moral obligation. He accused the former Attorney-General, Mr. Raney, of extending the time for the company to fulfill its obligations against the advice of his counsel who advised that the company could be held to the letter of the agreement.

Ramsden Stool Pigeon.

"The next devious method," said the premier, was the putting of Geo. Ramsden on the Ontario Hydro Electric Power Commission. Mr. Ramsden was put there for no other purpose than to force the rate through. He was taking the orders of the government in doing so. The Prime Minister of the time put his case in the hands of a stool pigeon. The government decided what it wanted done on the Hydro Commission and Mr. Ramsden did it. The two members of the commission, Col Carmichael and Mr. Ramsden tried to coerce Sir Adam Beck, the chairman, into the iniquitious concession to this company. Backus here the other day saw that he had got an advantage from the late government no other company was getting and was willing to pay $21. With that other advantage given him of the tremendous limits around Kenora he still has such an advantage over other companies that he is well able and willing to pay $21 for his power, instead of $18. The late government either sat in with him and played with him or he played with them and they didn't know it. The government of that time got his benediction, if not his benefaction.

Mr. Doherty objected to the insinuation and the Premier said he had no proof of benefaction and that he did not make a statement that there had been any.

Raney's Defense.

Mr. Raney said that when the agreement was made by the Drury government Mr. Backus was not with the company. Mr. Halstead was the man acting on behalf of the company. As the courts held that the original contract was not binding the government made a new agreement which he held was the best that could have been made at the time. The first agreement with the Hearst government had left the power price blank, he said.

Naval Manoeuvres Have Caused Stir

LONDON, March 19 (Canadian Press Cable). — As an opposite example of foreign susceptibilities in naval matters, Viscount Chelmsford First Lord of the Admiralty, referred in the House of Lords yesterday to the stir caused abroad by the choice of the Mediterranean for the British naval manoeuvres, which was a "perfectly innocent act on our part."

Lord Chelmsford pointed out that the Western Mediterranean had been used by the British for winter naval exercises for 30 years. Similar exercises to the present were carried out in 1922 in the same neighbourhood, and would similarly have taken place last year but for the situation at the Dardanelles.

PARIS DECREES FILMY DRESSES

Fashionable Summer Girl Will Seem Incarnation of Botticelli Woman—One-Button "Pocketbook Frock" a Novelty.

PARIS, March 19. — After 400 years the "Botticelli woman" has come into her own through the medium of the house of Lenieff, whose Summer collection strives to make every woman look as though she had just stepped out of one of the famous Italian's canvases.

Floating draperies, filmy veils and printed crepes, often designed with garlands of flowers as girdles, give the creations the essence of Springtime.

Sets World's Record

Another daring novelty is the "pocketbook frock," which is nothing less than a straight piece of shiny satin made to resemble black leather and which, instead of being sewn at the sides, is fastened like a pocketbook with a simple press button at the waist. The gown doubles over in front.

When the single button is unfastened the frock slips off like a waistcoat. Women declare it is the most practical style yet invented as it can be put on in twenty seconds—declared to be the world's record for dressing.

On the Riviera the week has been enlivened by one murder, one suicide, and one sensational divorce with the titled French husband of an American woman a fugitive from justice.

The beautiful young English dancer, Mary Vivian, was shot and killed by a jealous Italian whom she had repulsed. Then Vladimir Zempolsky, Roman engineer, went "banco" for fifty thousand francs and, not having the cash, committed suicide over the gaming table.

Police Seeking Count

The climax of these sensations came when the Countess Garnier des Garets, the former Jean Beyrens of New York, obtained a divorce and immediately thereafter complained to the police that her husband had escaped to Italy after signing numerous checks in her name.

The police are now seeking the Count while the courts have given him, by default, six months in jail with damages of one franc for his wife.

HE'S HAPPY.

W. B. Cochran, San Francisco auto washer, fell for a glibtongued land salesman's chatter. He paid $800 for 82 acres in Texas. But Lady Luck played him false. It was all sand. One day, though, an oil man came along. He offered Cochran $350,000 for that sand. Now Cochran plans to keep on laundering Rolls Royces for awhile, then start out to have a good time for himself.

BROKERS' BOOKS DISCLOSE NAMES OF OIL TRADERS

Senators Curtis and Elkins, Five Ex-Members of House of Representatives and Coolidge's Secretary Mentioned — Fall and Daugherty In New Evidence.

FALL SOUGHT COVER

WASHINGTON, March 19—(Canadian Press). — Attorney - General Daugherty and Albert B. Fall, former Secretary of the Interior, figured separately in two new chapters written yesterday into the record of the Oil Committee as the Senate investigators renewed their quest for all of the facts connected with the leasing of the United States naval oil reserves.

One story was that on the day the Sinclair lease of Teapot Dome was announced officially, Mr. Daugherty changed his margin account in Sinclair oil stock at a Washington brokerage house from his own name to that of W. W. Spade, a member of the firm, who then was carrying a large account for Jess W. Smith, personal friend and confidant of the Attorney-General.

Fall's Concealment.

The other chapter had to do with still another apparent attempt by Fall to conceal through the statement of an old friend that he had obtained $100,000 from Edward L. Doheny, California oil magnate, late in 1921, when he enlarged and improved his New Mexico ranch holdings.

Besides the dealings the Attorney-General had in oil stocks, the committee obtained from its expert accountant, Louis F. Bond, detailed accounts of transactions in oil stocks by two senators, Curtis of Kansas, Assistant Republican leader in the Senate, and Elkins of West Virginia, and five then members of the House, including C. Bascom Slemp, now secretary to President Coolidge.

Approached By Fall.

Both the stock transactions and the story of Price McKinney, of Cleveland, Ohio, that Fall sought to have him agree to say he had loaned the former Interior Secretary money will be followed by the committee. Members regard McKinney's statement yesterday one of the more important that has been developed in connection with the oil leases.

Identifying himself as an old friend of Fall, McKinney, a mine owner, testified that late in 1923 he had received a letter from the former Secretary, "asking me if I would state that I had made the loan for the purchase of the ranches of property bought in New Mexico."

The witness said he had not answered the letter and that Clarence C. Chase, son-in-law of Fall, had called upon him at Cleveland a day or two after Thanksgiving Day, which was November 29, to take up the subject.

Refused to Lie.

"I think I did most of the talking," he said. "It only got started, and I said: 'I have not made him a loan, and I could not say that I have'."

Asked if he had the Fall letter, McKinney said he had destroyed it "when Mr. Doheny testified that he himself had made the loan."

At the time Chase visited McKinney, the committee was seeking the source of the funds which Fall evidently had received and the latter was preparing to come to Washington to testify, according to telegrams placed into the record.

SCOTS WANT PART OF THE HEIR'S TITLE

LONDON, March 19.— Queen Mary sat recently in a crowded lecture room at University College and heard Dr. Walter Seton, professor in Scottish history, argue that the heir to the throne of Great Britain should be called "The Prince of Scotland and Wales," instead of simply the Prince of Wales. Queen Mary's response to the appeal was a smile and a nod.

Professor Seton argued that as far back as 1100 the eldest son of the King of England was known as "The Prince of Scotland," and that it was in later years that the heir became the Prince of Wales by legislative enactment.

HUNT ELUSIVE WOLF.

LORAIN, O., March 19.—The countryside hereabouts is worked up over a big wolf hunt that has been undertaken by farmers. No one will swear he has seen the wolf or wolves, but reports of slain sheep and other livestock caused the farmers to spread a dragnet. They had their trouble for their pains. So far the only animals encountered have been rabbits, and the season for them is over.

BRITISH CROWN ONCE BELONGED TO HIS FAMILY

Recognized In British Records As Lord of Achmores and Balnabadoch--Only Few Persons Dwell on These Estates To-Day — Stewart Possesses Old Documents By Australia

ONLY PLEBEIAN NOW.

OAKLAND, Cal., March 19. — A claimant to the British throne washes dishes, mows the lawn about his modest home here, and minds the kiddies while his wife goes a-shopping.

He is Charles Stewart, descended from the Stuart family which once ruled Britain. According to records handed down for hundreds of years he should be ruling over Great Britain to-day.

But only his closest friends know Charles Stewart—that's the way he's spelling his name—for other than an everyday citizen. Incognito, he lives in a four-room suite in a double house in a quiet residential section.

For he bowed to the evil luck—"the curse of the Stuarts"—that has followed his family for generations.

A dilapidated trunk, filled with the relics that date back to Bonnie Prince Charlie's day and documents authenticating Charles Stewart's regal claims remain as a last trace of his ancestor's old power.

Occasionally Stewart will open this trunk and reverently tell the story of the Royal House to Charles James William, just turned six, and Robert, going on three, "next in succession should Charles die."

Alfred Irvine Leon Charles Francis Edward James Stewart — that's how he's listed in British records—is recognised as Lord of Achmores and Balnabadoch.

It means little, though. Scarcely half a hundred men, women, and children dwell on these estates in Scotland to-day.

Stewart, however, isn't expecting King George to abdicate in his favour.

"I could never accept the throne with Ramsay MacDonald in power," he sighs.

"It is gall to us all to see a MacDonald, descended from the strongest of the Jacobites, loyal defenders of the House of Stuart, in the role of a Labour leader."

BRITAIN WILL INVITE PEACE

MacDonald Enunciates International Policy In New Form—Military Machine Efficient But Reduced to Mere Nucleus.

LONDON, March 19. Canadian Press Cable. — The government's international policy was given in a nutshell and in new form by Premier MacDonald in the course of last night's House of Commons debate, as follows:

"We have a short time, and I am afraid it is going to be only a short time, during which this country can rest absolutely secure that there will be no war overtake it within a certain limited number of years. We can use that time by merely trusting to the development of military defences thereby encouraging and inviting every other country to trust to exactly the same thing. We can use a year or two in pursuing a totally different policy of keeping the military forces right down to a nucleus, and keeping them efficient. No rust; don't make any mistake about that. No rust; no disintegration. Brains, energy and decision all the time, but an absolute nucleus. Nothing more than a nucleus.

During that time this country ought to show the same energy and the same decision in pursuing other matters as it has shown in achieving security. The government will be ready to enter into agreements and arrangements for disarmament, and to take steps towards disarmament, but if these advances fail, then this nation will unfortunately have to go back to other considerations."

HOW NATURAL!

CHICAGO, March 19.—Chicago ministers complained that Voliva was broadcasting unseemly language over the radio. As a consequence, nearly every station from Singapore to Zanzibar is expected to tune in on the urbulent wave from Zion City.

EYES DESERVE PROTECTION
Why go on straining them? Eyes behave better and last longer when taken proper care of, besides the added comfort of using the right glasses when needed. See W. H. Lacey, Optometrist, 410 George St., Phone 1160.

French Army to Be Re-organized

PARIS, March 19 (Canadian Press Cable via Havas). — The Chamber of Deputies is now considering a plan for a general reorganisation of the Army.

Deputy Jean Fabrey, reporter for the Army Committee, states that French military policy is essentially defensive in conformity to the following principles:

First—To protect the national territory against invasion.

Second—To use in wartime all the resources of the territory.

Third—Not to hold that national territory is confined to Europe and France.....And

Fourth—To secure by way of alliance the assistance of the largest number of states.

The Chamber will consider the army concentration plan to-day.

ABANDON BASE AT SINGAPORE SAYS PREMIER

Scheme Begun By the Conservative Government Would Have Detrimental Effect on Britain's Foreign Policy, Stated the Premier — Was Desired

NAVAL ESTIMATES.

LONDON, March 19.—The simultaneous announcement in the House of Lords and the House of Commons Tuesday of the Labor Government's abandonment of the previous Government's scheme to develop Sinagpore as a naval base was sharply criticized in both Houses by those who hold that the scheme is an essential part of Great Britain's complete defensive naval policy in the Pacific.

In the Commons Charles P. Ammon, Parliamentary Secretary to the Admiralty, announced the Government's decision not to proceed further with the Singapore scheme. In the Lords a motion was carried, 56 to 19, expressing "deep regret" at the Government's action.

Among the Government's critics, Lieutenant Colonel Amery, former First Lord of the Admiralty, informed Mr. Ammon that when the Conservatives returned to power they would not lose an instant in resuming the scheme. He said that Singapore was the only point from which British trade in the Indian Ocean and the Pacific could be effectively protected and the only station from which Australia and New Zealand could be assisted in a naval way. Dropping the project was tantamount to telling the Dominions that the Government was no longer prepared to help them.

Affect Foreign Policy.

Premier MacDonald explained that the Government had abandoned the scheme, because, if proceeded with, it would exercise a most detrimental effect on Great Britain's general foreign policy. He contended that the argument for the base was contrary to the Washington agrement. He defined the Governments' position in a statement which Viscount Chelmsford, First Lord of the Admiralty, also read in the House of Lords, and which Prime Minister said embodied the views of the Admiralty.

In effect the statement declared that the scheme would create mistrust and competition in armaments in the Far East.

The Government, Premier MacDonald explained, had consulted with the Dominions. Canada had replied that she would refrain from advice; South Africa wholly adhered to abandonment of the scheme, while Australia, New Zealand and Newfoundland favored its execution, India expressed no definite opinion.

Australia's Argument.

Australia argued that it would be better to continue the Singapore development, which could be scrapped if a disarmament agreement was reached later. Commenting on this,

(Continued on Page 3)

IT LOOKED REAL.

NEW YORK, March 19. — Carl Roost, sanitary engineer, slipped on a banana peel in Eighth Avenue, and the bottle he was carrying smashed to the sidewalk. The crowd that immediately collected walked away disgustedly when minute examination revealed that the bottle contained vinegar.

FATHER DIDN'T MARRY

BERLIN, March 19.—(United Press).—Willy Schnabel, hotel owner in Cliestow, has been sentenced to life imprisonment for killing his father with an ax to prevent the father from re-marrying.

THE FINDINGS REVEAL LACK OF DISCIPLINE

Seniors Attempted to Impress the Juniors With Lot of Old-time Bunk.

ARNOLD BACKFIRED

KINGSTON, Ont., March 19.—In regard to Canadians at the Royal Military College it was learned this morning that over two years ago the commandant found that fagging and other traditional impositions on juniors was in vogue and that he issued instructions that they must cease.

Other commandants had attempted the abolition of initiations etc., and their customs had dwindled down to harmless duties, and in this way the officers at the college did effective service in suppressing all indulgencies and remained loyal in carrying out the commandant's wishes. These officers passed out of the college and others succeeded them and unknown to the commandant, serious and dangeroues practices were allowed to grow and develop until checked by the withdrawal of Cadet Arnold, who refused to be coerced and browbeaten as had been attempted. It is stated that the result of his investigation was a real surprise to the commandant, who had been under the conviction that these of the succeeding classes had continued to enforce discipline as he had suggested several years before and it is on account of this knowledge that he has been compelled to adopt disciplinary measures in the hope that no such unfortunate developments will again befall the institution. It is not likely that a great deal will be learned from the college in regard to the actual findings by the commandant in the Arnold case, it is understood. Nothing will be given out except through head quarters in Ottawa it is believed that punishment will be dealt out for disregard of the commandant's instructions.

JAPANESE PRINCE DIED LAST NIGHT

TOKIO, March 19. — (Canadian Press.)— Prince Hiratada Kwacho, head of one of the collaterial branches of the Imperial Japanese family, died to-night of spinal meningitis.

LIMIT OF ENDURANCE.

WASHINGTON, March 19. — Harry Jameson, arrested for assault and battery, told the Judge how it came about: "We was shootin' craps, yo' honor, an' when Ah discovered one of them other boys was playin' with loaded dice, Ah couldn't forbear myself. So Ah crowned him."

Inasmuch as the coronation ceremony was performed with a brick, Jameson had to pay "25 and costs."

HALF NATION'S ORANGES COME FROM CALIFORNIA

SAN FRANCISCO, March 19.—(Associated Press).—The California citrus crop last year sold for a total of $105,000,000 according to figures compiled by the University of California. This represented the gross profit, and about one-third of it went for transportation expenses.

Although more than 50,000 carloads or oranges were shipped, the consumption of the United States was nearly twice that amount. Lemons amounted to 8,741 carloads, 88 percent of the country's total consumption.

MYSTERIOUS MAIL.

COLUMBUS, O., March 19.—Howard Rhodes, author and publicist, received a mysterious package from New York containing nothing but a pair of bull's horns. He thinks it's a practical joke, for in the last few months the mail from New York has brought him, without any explanation whatever, such things as old shoes, funny pictures and a recipe for cooking carp.

C. A. LOUNT,
Grandmaster of Ontario East, who is here in connection with the Grand Lodge meeting.

FREE DRINK TO YOUNG CLERICS

Labor Member Objects to "Jamie" Brown's Allowance As High Commissioner of the Church of Scotland's General Assembly.

LONDON, March 19. Canadian Press Cable. — Thomas Johnston, Labor M.P., for Stirling and Western Clackmannan, in the House of Commons on Tuesday, suggested that in view of the necessity for retrenchment the annual payment of 2,000 pounds from the public funds to the high commissioner of the general assembly of the Church of Scotland, should be stopped.

William Adamson, secretary for Scotland, said that the grant was made to the high commissioner so that he could meet the expenses incurred by him in the discharge of his duties. He said he understood that this sum was not more than sufficient to meet the expenses of the office. He could not see why the stoppage of this payment should be recommended.

Mr. Johnston: Does Mr. Adamson think it adds dignity to this office that the high commissioner should be made a channel through which a large sum of money is spent in a wasteful manner, including the free supply of drink to the young clergymen of the Church of Scotland?

This query was greeted with loud laughter and cries were addresses to the Scottish secretary to "answer."

Jack Jones, Labor member for Silvertown, West Ham, asked what was wrong with these gentlemen having a drink?

This sally was followed by more laughter.

Secretary Adamson did not say anything further on the matter.

James Brown, Labor member of the House of Commons for the South Ayrshire division of Ayr and Bute, formerly a miner, will be the next Lord High Commissioner of the General Assembly of the Church of Scotland, a position that for more than two centuries has been held by members of the Scottish nobility.

KILLED HER MOTHER TO STOP HER SUFFERING

GENEVA, March 19.—(United Press).—A girl who killed her invalid mother to relieve her of further suffering has been acquitted of murder and set free here.

Mlle. Helene Moller nursed her mother with the utmost devotion for many weeks, but she could not stop the pain, and she was tortured by seeing her mother suffer. So she gave her mother three doses of veronal, which were fatal.

Three medical specialists declared at the trial that the girl was of sound mind and that the filial sentiments were intensely developed. They concluded that after a severe moral struggle she was driven by her excessive love of her mother to kill her to terminate her suffering.

Open Meeting
MAURICE HUTTON, M.A., Oxon., Principal of University College, Toronto, will Address an Open Meeting of the Women's Canadian Club on Thursday, 20th March, at 8 p.m., in the Collegiate Institute Hall.
His subject will be "The Gilbert and Sullivan Operas."
Music under direction of Mrs. McKee Bingham. Non-members, 25 cents. 1d-68

DELORME JURY DISAGREED IN MURDER TRIAL

Jury Discharged and Court Adjourned Until Crown Officials Confer on Case.

THANKED THE JURY

MONTREAL, Que., March 19.—(Canadian Press.)— Disagreement was reported by the jury in the Delorme murder trial when court opened this morning. The jury was discharged.

The Judge adjourned court till to-morrow morning. In the meantime Crown officials will confer in regard to future action in the case.

In thanking the jury Mr. Justice Martineau added his tribute to the counsel in the case.

"I repeat, you have given me that loyal co-operation in a measure greater than I dared hope for," he said.

In behalf of the defence, Alban Germain, K.C., replied: "The remarks of the Honorable President of this Tribunal are more than compensation for the work which the lawyers have had to undertake in this case," he declared.

In paying tribute Crown Prosecutor Calder said: "Heavy task we accepted has been greatly diminished by that perfect loyalty, courtesy and gentlemanliness which we have always found in the members of the bar of Montreal."

"I saw it said in an American newspaper recently," said Mr. Calder, "that this trial has been conducted in a manner that showed the entire continent how justice can be dignified and respected."

"If we have not reached the final result in the case, it is something enormous to have given to the entire continent an example of justice."

Court officials announced the jury split ten for acquittal and two for conviction. No juryman, however, could be got to confirm these figures.

Monstrous Alibi.

In describing the theory of the Crown to account for the murder, Mr. German said it must have been "a truly diabolical comedy organized and prepared by Father Delorme and his three sisters" to provide the necessary alibi he said, the sisters must have shaken up the furnace, knocked on the floors so that the neighbors could hear.

"I won't believe such a monstrous thing," shouted Mr. German. "That Father Delorme could have reached a point which Satan has never attained. I have never seen such intelligent perversity and calculated morbidity as has been shown in this case in the preparation of the prosecution."

At one point of his speech Mr. German apologized to the jurors for his lengthy explanations. "Forgive me," he said, "if I am long. I did not expect to make a long speech and I know that you are anxious to return to your homes."

He wheeled about and pointed to Abbe Delorme. "That man," he exclaimed, "has been waiting for two years for his liberty, so be a little patient yet."

Division of Address.

Mr. German separated his address into three categories. The motives or interest of the crime; what took place on January 6, 1922, the day when Raoul Delorme disappeared and is supposed to have been killed and finally, all the facts subsequent to the finding of the body at Snowdon, up to the time of Father Delorme's arrest on February 14, 1922.

As to the first alleged motive of the will, he told the jury that it did not exist since the accused could not benefit under it. As to the taking out of $25,000 insurance on Raoul's life, he said that Frtaher Delorme was invited to take out the big policy without having solicited any such amount. As to the audits of Father Delorme's finances by the accountant Marien, he found it strange that everything should be charged to the Abbe and nothing to Raoul.

EXHIBIT ATTRACTS A LARGE AUDIENCE

Many Had to Be Turned Away Last Evening--The Program Today.

Many people had to be turned away from the Social Hygiene Exhibit last night owing to the limited space. Yesterday was Rotary Day and the speakers and assistants were all volunteers from that organization.

In the afternoon assistants were Rotarians W. Thompson, Frank Linton, Noble Kelly, F. H. Dobbin and Reid Wren. These same volunteers assisted again in the evening.

Rotarian A. Y. McNair, M.B., director of Branch Laboratories, spoke in the afternoon to 104 citizens, and told the audience very striking and plain facts on the seriousness of this public health menace, which he said in the United States stands third as cause of death, tuberculosis and pneumonia ranking third. He said that if there were as many animals taken of in a year by one particular scourge, the entire community would be up in arms about it, but the inertia of the same public to appreciate straight facts, and by hiding behind that old cloak of modesty and apparent ignorance of this problem, this scourge was allowed to grow into the greatest social problem we have to-day to drag out into the light and fight as we have all other scourges in their day.

Dr. McNair gave very startling figures regarding the percentage of the population suffering from either of these two venereal diseases. His appeal to all that makes for the best in every boy, young man and father, he based on the statement that "The Nation marches forward on the feet of Little Children." Dr. McNair also spoke during the evening session on the government clinics where free treatment is given throughout Ontario to needy cases who cannot afford to pay for the same.

The hall was crowed to the doors by eight o'clock, and it was necessary to show the film "The Gift of Life," again at 9 o'clock for those unable to get in for the first showing.

Rotarian A. Mowat, Inspector of Public Schools, in the evening, in a most interesting address, touched on the points of social hygiene from the educator's point of view. He stressed that in all surveys made it was particularly noticeable that in most cases of immorality the victims had left school before the age of fourteen and practically none of them had gone into the High School.

Mr. Mowat stressed the importance of good reading, and spoke of the difficulty in keeping out undesirable literature not only from the news-stands, but from the library shelves. He deplored the fact that a leading American woman educationalist recently upheld the equality of women by approving of women living according to men's standard of morals, instead of insisting on men raising their standard to that expected of women. Dignitaries of the Catholic Church should be respected, he said, in their condemnation of extreme dress and dancing. Peterboro was to be congratulated in their School Board for furnishing the community with such fine large schools, with airy halls and teachers of the best character. This has much to do with the moulding of the finest tye of boys and girls, and their example means much to the pupils. In closing he spoke of the desirability of more home life and more neighborliness, in every community.

From five to six hundred people in all saw the exhibit yesterday and many of these enrolled as members of the Peterboro Social Hygiene Council to assist their capable president, Dr. N. H. Sutton, and his executive in carrying on further educational propaganda along these lines in this community.

Owing to the immense crowds that will still want to see this exhibit (today being the last day for men) there will be two showings of the film to-night, one at seven and one at nine o'clock.

To-morrow the exhibit opens for women only during the same hours, and Mrs. Emmeline Pankhurst of Toronto, will be the special speaker both afternoon and evening. Miss Edna Moore, Prov. Board of Health, wil show the film.

Programme for To-day.

Those volunteering their assistance at the exhibit this afternoon between three-thirty and six, are Dr. F. P. McNulty, in charge of the model cases, Mr. G. H. Roper, Y.M.C.A. Secretary, will be the special speaker. His topic will be "Social Hygiene and its Relation to Every Boy and Young Man."

There will be two showings of the film to-night, one at seven-thirty and the second one at nine. The addresses will be given between the showing of the film. Special speaker for to-night will be Dr. G. S. Cameron. Dr. J. M. O'Brien, Dr. A. Y. McNair, Dr. N. H. Sutton and Dr. F. O'Reilly will be in charge during the evening.

To-day is the last showing for men only; exhibit opens to-morrow for women for the rest of the week.

Developing New Wealth in Porcupine Gold Fields

We own 100 selected mining claims in the Porcupine gold area, located in Tisdale, Whitney, Deloro, Shaw, Cody and McVittie Townships.

Our mining experts and diamond drilling outfits are constantly on the move, followed by geologists and engineers, where ore veins are uncovered.

The plan of operation is to prove the value of a claim by initial development to make it available for sale to capitalistic interests.

Subscribers to the fund out of which our operations are financed, share in all profits.

There is no personal liability.

Write for booklet and information.

ELECT GEORGE PORTER GRAND MASTER OF THE ROYAL BLACK CHAPTER

Coincidence is That Chapter Had Its Birth in Peterborough Forty-eight Years Ago Today Other District Men Elected Officers for This Year.

SPLENDID REPORTS

Forty-eght years ago on March 19, the Grand Black Chapter of Eastern Ontario was initiated in Peterboro under Grand Master T. W. Kenny, a relative of this year's retiring Grand Master, E. Armstrong, whose position was yesterday taken on election by anoth r Peterborough man, George Porter.

The annual convention of the Grand Black Chapter opened in Victoria Hall yesterday morning, and concluded at night to make way for the opening to-day of the Grand Orange Lodge of Ontario East.

Addresses of welcome to the city were given by Mayor J. J. Turner, Alderman R. N. Jones and Walter Stocker; the Ladies' Orange Benevolent Association, and the local Royal Black Preceptory 261. These were replied to by T. K. Allen, of Kemptville; Rev. E. M. Patterson, Grand Chaplain, and H. B. Fetterly, Grand Censor.

Keen interest was taken in the deliberations that followed the presentation of reports by several committees, all of which were enthusiastic, and indicated considerable progress during the year.

The Finance Committee showed a healthy condition, and a large increase in membership was reported, while the correspondence committee congratulated the retiring Grand Master on the success attained under his leadership, and complimented the other officers on their work.

The district covered by the Grand Black Chapter of Eastern Ontario extends from Durham to the eastern boundary of Ontario, and two hundred delegates from this territory attended the convention yesterday.

A resolution was passed asking the co-operation of the brethren in the celebration of the 140th anniversary of the United Empire Loyalist settlement in Belleville on June 17, when an Orange parade will be held A grant of $100 was made to the True Blue Orphanage at Richmond Hill and the usual grant allowed The Sentinel.

The election of officers resulted as follows:

Grand Master, George Porter, Peterboro; Deputy Grand Master, G. A. Lount, Cornwall; Associate D. G.M. S. G. Kerr, Belleville; Grand Chaplain Rev. R. M. Patterson, Fraserville; Deputy Grand Chaplains Rev. A. L. Geen, Belleville and Rev. H. W. W. Bromwich, Halley station; Grand Registrar, D. J. Sutherland, Ottawa; Deputy Grand Registrar H. P. Leslie, Ottawa; Grand Treasurer James Moore, Eganville; Deputy Grand Treasurer G. F. Reid Corbyville; Grand Lecturer E. F. Reid, Peterboro; Deputy Grand Lecturer, Joseph Lisk, Eganville; Grand Censor H. B. Fatterly, Winchester; Deputy Grand Censor, T. H. Rice, Omemee; Grand Standard Bearer E. Bell, Belleville; Deputy Grand Standard Barer W. G. Graham, Carp; Grand Marshall Col. T. W. Beckett, Kemptville; Grand Pursuivant J. A. Tysick, Perth; Deputy Grand Pursuivant W. E. Higgs, Lindsay; Grand Committee: T. H. Cathcart, Ottawa; E. H. Jinks, Consecon; P. McDonald, Douglas; S. S. Cromwell, Broadville; J. E. Porter, Smith's Falls; M. C. Reynolds, Foxboro; Alonzo Moncrief, Omemee.

HON. W. D. McPHERSON, K.C., Grand Master of the Orange Order, who will address a meeting in the Grand Opera House this evening in connection with the convention of the Grand Orange Lodge of Ontario East.

KING GOVERNMENT WINS FIRST HOUSE DIVISION BY DEFINITE MAJORITY

Issue Was on Address in Reply to Speech From the Throne --Majority of 121 is Record for 20 Years -- Conservatives Voted Solidly for Amendment.

OTHER PARTIES UNITE

OTTAWA, March 19.—(Canadian Press).—On the first division of the present session, the Mackenzie King administration was sustained shortly before 1 o'clock this morning by a majority of 121. The issue was the acceptance or rejection of the address in reply to the speech from the Throne, and the division was recorded as 167 to 46. The carrying of the main motion, a pure formality followed immediately upon the defeat of the amendment of Donald Sutherland (Conservative, South Oxford(by the vote above named. The majority probably constitutes a record for a period of 20 years.

For the amendment motion—calling for the protection of home industry and the maintenance of the home market — the Conservatives voted solidly, the Progressives and Liberals uniting in opposition.

Three supporters of the Government who had raised their voice against the tariff-reduction clause of the speech — Messrs. H. M. Marler (St. Lawrence), W. D. Euler (South Waterloo) and W. G. Raymond (Brantford) — were loudly cheered when they placed their voting strength behind their leader. Hearty applause also greeted the act of voting by the various party leaders, three new members and the member for South-East Grey (Miss MacPhail). There were six pairs and some seven or eight absentees.

A double division terminated the discussion that had entered its third week and had been participated in by no fewer than 57 members of the House. For some time it had generally been conceded that the Government would win a large majority on the division, but the actual vote came almost in the nature of a mild surprise.

Defends Premier.

The closing day of the debate on the address in the House yesterday brought a number of speeches.

Hon. C. P. Graham, Minister of Railways, and a Canadian delegate to the Imperial Conference, warmly defended Premier King's attitude at the conference. The Prime Minister, he declared, had been zealous at the conference in defence of Canadian interests. Mr. Graham admitted that it had been a mistake to buy the "Paris building" (the Hotel Scribe). Sir Henry Thornton had made mistakes, but the only people who never made mistakes were dead.

Hon. S. F. Tolmie, Minister of Agriculture in the late Government, challenged statements that the dry-dock at Esquimault was unnecessary and badly located.

Statements that the dock was unnecessary or that it was badly located, Dr. Tolmie declared, were incorrect. The business of the port of Vancouver was growing with great rapidity, and large vessels were entering that port more and more frequently. A portion of the coast of Vancouver Island was extremely dangerous to shipping, and a dry-dock was required to make repairs to such vessels as suffered mishap. The location of the dock was at a central point where the British Government had established a naval station, and Yarrows, Limited, the great British shipbuilders, had built a plant. It was conveniently situated to care for injured ships.

Makes a Family Supply of Cough Remedy

Really better than ready-made cough syrup, and saves about $2. Easily and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a 16-oz. bottle and fill the bottle with syrup, using either plain granulated sugar syrup, strained molasses, honey, or corn syrup, as desired. The result is 16 ounces of really better cough syrup than you could buy ready-made and saves easily $2. Tastes pleasant and never spoils.

This Pinex and Syrup preparation is right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

Pinex's use will usually overcome the worst cough and for bronchitis, hoarseness and bronchial asthma there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs. To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

OBITUARY

MRS. ELIZA STAPLES BOLTON.

The death occurred suddenly yesterday at her late residence, Lot 8, Concession 10, Douro Township, of Mrs. Eliza Staples Bolton, aged ninety years and six months. The deceased, who had been ill for only a week past, was a native of Kent, England, and had resided at her home in Douro during the past sixty years. She was a member of the Methodist Church at Lakefield.

Survivors are eight daughters, Mrs. T. Collins, of Paisley, Ontario; Mrs. G. King, of Bad Axe, Michigan; Mrs. E. Miller, of Rochester, N.Y.; Mrs. T. Head, of Toronto; Mrs. J. Webster, of Otonabee; Mrs. W. G. Anderson, of Smith; Mrs. D. Anderson, at Lock 24, and Mrs. R. Tedford of Lakefield; seven sons, Thomas, of Sebrington, Ontario; James, of Wallaceburg; Francis, of Courtright; William of Peterborough; Frederick, of Lakefield; Charles and Robert of Douro; also one sister, Mrs. W. Chapman, of Peterborough. Mr. Bolton's husband, James Bolton, pre-deceased her about 25 years ago.

The funeral will take place from the residence of the deceased's son, Robert Bolton, River Road, Douro, on Friday at 1.30 p.m. to the Little Lake Cemetery. Services will be conducted by Rev. Mr. Reddick, of Lakefield.

CANADA HAS NOT YET APPROVED RUM TREATY

LONDON, March 19 (United News) — Canada and the Irish Free State have not yet approved the treaty between the United States and Britain to regulate the search and seizure of rum runners off the American coast and extend the three-mile limit, but the treaty will be ratified as soon as their approval is received.

This announcemet regarding the liquor pact was made in the House of Commons yesterday by Arthur Ponsonby, Under-Secretary for Foreign Affairs.

IN MILLBROOK AND DISTRICT

Pupils of Mrs. W. C. Allen Held a Recital -- Personal Mention.

MILLBROOK, March 19.—Mrs. W. C. Allen held a successful recital with her pupils on Friday afternoon at the Rectory, many of the parents and other friends being invited to enjoy the occasion. Mrs. Allen's pupils always do her credit, and the musicale on Friday showed their advancement and also the thorough sympathy existing between their teacher and themselves. The latter element was especially evident in the duets which Mrs. Allen played with some of those taking part, and warm congratulations were showered upon the rector's wife for the excellent knowledge, both in reading and technique, resulting from her efficient tuition.

Tea was served and a delightful social time enjoyed before the guests, numbering about fifty, left for home.

Mrs. L. H. Winslow assisted her mother during the afternoon and evening.

Bible Class Event.

The sale of home-made baking held on Saturday afternoon in C. Garside's store under the auspices of the Boneka Bible Class of the Methodist Sunday School, Mrs. L. Rea, teacher, proved most successful.

A tempting array of pies, tea biscuits, cakes, cookies, etc., filled the shelves and counter, and customers were not lacking as everything was disposed of at an early hour, and a larger supply could have been sold had more been on hand.

The financial receipts were satisfactory and reached the necessary amount for the special object which the class had in view. Mrs. Rea acted as cashier, and others assisting were the President, Mrs. F. W. Smith, the convenor of the Social Committee, Mrs. H. A. Earle, Mrs. T. H. Aiken, Mrs. Ross Edmunds, Mrs. John Rowland, Mrs. G. Freelove and Mrs. Arthur Fallis.

Mrs. W. Sanderson and daughter Margaret, who have been visiting in town for the past few weeks, left for their home in St. Catharines on Monday, Mrs. G. Sanderson acompanying them. Mrs. W. Bingham, who is en route for California to join her husband, was with the party as far as Toronto.

The orchestra, under the leadership of Mr. G A. Duncan, went to Centreville on Friday evening and gave much appreciated assistance with the programme at the entertainment in the U.F.O. Hall. The members of the orchestra included: Messrs. G. A. Duncan J. L. Byam, J. Isbister, H. Janes, F. Rowe, Ernest Burnham, Lloyd and Billy Byam, Miss May Byam, Miss Lola Carley presided at the piano.

The G.W.V.A. intend holding their usual dance on Easter Monday in the Armouries. Good music by a four-piece orchestra. A large attendance is looked for.

Mrs. R. J. Doak and son Albert returned home after an extended visit with her daughter Mrs. B H. Price, of Orillia.

Miss Mamie Collins left this week for an extended visit with her cousin, Miss Helen Armstrong, of Fergus, and her brother, Mr. Walter Collins of Kitchener. Miss Collins will also visit friends in Toronto on her way home.

Mr. A. Williamson, of Haileybury, is visiting his parents, Mr. and Mrs. W. Williamson, 7th Line, Cavan.

Miss Ethel Richardson has accepted the position of soloist in the choir of hte Methodist Church, and is also training the choir for their Easter music.

New members have been added and the music on Sunday was excellent. The solo, "O Lord, Correct me," sung by Miss Richardson at the morning session, was much appreciated.

Mrs. H. Mulligan has gone to Ottawa to be present at the golden anniversary of St. Paul's Presbyterian church, of which her brotrer, the late Rev. Dr. Armstrong was the first pastor.

Mr. and Mrs. H. Johnston, and Mrs. Stinson, Sr., of Janetville, who were guests of Mr. and Mrs. P. Stinson, have returned home.

Mrs. Whisten, who has been in Elizabeth, N. J., for the winter months, has returned, and is with her daughter, Mrs. H. J. Grassett, for the summer.

The farmers are taking advantage of the last of the selighing to bring in their grain and Attwood and Sheppard's chopping mill is running overtime to keep pace with the demand. A large quantity of logs has also been drawn in but opportunity for cutting these must wait until the rush for grinding grain has passed. W. G. Russell's & Sons' mill is running busily every day, however, cutting the supply of logs which is augmented daily and which is fully up to if not above the average of other seasons.

Card of Thanks.

Mrs. Valentine Rowan, and Mr. and Mrs. David White of Cavan, wish to express their appreciation of the kindness and sympathy extended to them by their neighbors and other friends, during the time of recent bereavement through the death of husband and father, the late Mr. Valentine Rowan.

DUBLIN STREETS SCENE OF FIGHT

Mutinous Officers Rounded Up and Captured in Public House After Battle.

DUBLIN, March 19. — (United Press)—Troops today surrounded a public house in Parnell street, where mutinous army officers were hiding, forced an entrance and arrested nine of the officers who had fled to the roof.

The arrests came after a siege of hours in which machine gun units, armored cars and scores of troops, and the police participated.

At 2.30 a.m. troops and police surrounded the house following a report that the mutineers headed by General Tobin and Colonel Dalton, were holding a meeting.

A messenger was sent to the door to demand that the mutineers surrender. His answer was a volley of pistols shots. Additional troops with machine guns and armored cars were called at once and a cordon thrown about the entire block.

A huge crowd gathered despite the intermittent firing.

Finally at 11.40 a.m. a detachment rushed at the door of the building and seized nine men who were firing from the roof.

Twenty or thirty other officers apparently had escaped and search of adoining houses was started at once.

As the police were taking the prisoners away, one man leaped from the motor van, but was recaptured after being fired on by the military cordon.

The identity of the prisoners was not disclosed, but one report was that a member of the Cabinet had attended the mutineers meeting.

The mutiny of free state troops had been under way for more than a week, many officers and men having abandoned their posts as a protest against the government's army reorganization plan.

REVISED FREIGHT RATE IS EXPECTED IN APRIL

OTTAWA, March 19 (Canadian Press). — It was stated last night in well-informed circles that on 10th April there will be filed a revised tariff on freight rates for all the Eastern lines of the Canadian National Railways, effective on 14th April.

It is believed that material reductions in rates will be announced.

A THOUSAND CHILDREN FROZE IN TWO MONTHS

BERLIN, March 19. — (United Press.) — Press reports published here state that more than 1,000 Moscow children froze between December 1923 and January of this year.

SINGAPORE

(Continued from page 1.)

the Prime Minister said: "I think that argument is wrong."

Mr. MacDonald went on to say that the scheme would hinder confidence, and that its abandonment was an earhest of Great Britain's good faith. Nevertheless, the world should know that if they were driven to extend they would extend. Practical necessity for the scheme, however, had not arisen, and it was the Government's duty to prevent it from arising.

Former Premier Baldwin declared that the Conservatives regarded the Singapore plan as of such importance they would bring up the whole subject on the report stage of the naval appropriations.

Lord's Express Regret.

Meanwhile, in the House of Lords, an amendment moved by Lord Curzon that "the development of the Singapore base is urgently required for the protection of our commerce, the security of our dominions and the future maintenance of peace, and its abandonment is deeply regretted by the House," was carried on division, 56 to 19.

Parliamentary Secretary Ammon introduced the naval estimates, details of which were given out several days ago by Viscount Chelmsford. These amount to £55,800,000, a reduction of £2,200,000 as compared with the estimates for the present year. The total strength of the personnel, including officers and men, now is 100,500, as compared with 99,500 for 1923-24.

Mr. Ammon said that by the time the five proposed cruisers were completed, eleven or sixteen of those now in commission would have been scrapped or relegated to the reserve as the cruisers which participated in the great war would not have an effective life of more than ten years.

Naval Replacement.

Similarly, it would be necessary in two or three years to begin the replacement of destroyers. Since that type of destroyers required for work outside the North Sea differed from the existing type built for work in that area, it would be necessary to build one or more for a try-out before a replacement programme could be undertaken. The time had arrived when the construction of cruisers for replacement could be no longer delayed.

Of the 48 light cruisers possessed by the Empire, ten were already past or almost past an efficient age; some others were so light that they were not suitable for operations on the long trade routes.

Ar angeemnts had been made to maintain an adequate oil reserve to meet the needs of the fleet and the Admiralty felt a greater sense of security in this connection owing to the Governments' decision to retain its control of the Anglo-Persian Oil Company and to maintain its contracts.

Battleships Building.

Progress in constructing the battleships Rodney and Nelson was seriously affected by the boilermakers' lockout last year, but it is expected that the work on the cruisers Effingham, Frobisher and Emerald will be completed in the next fiscal year and the Enterprise completed by January, 1925.

An addition of one thousand to the personnel was needed to help man the Rodney and Nelson.

Curiously, while the Government had the support of the Liberals and the Laborites, and only Conservative opposition against it, on the Singapore question, the position was reversed on the cruiser building programme, when the Conservatives sided with the Government, while the Liberals and a section of the Laborites were arrayed against it.

Policy Inconsistent.

Sir John Simon, former Home Secretary, pointed out that the Prime Minister's reasons for abandoning Singapore applied exactly against the building of more cruisers.

Hugh Seeley, Liberal, introduced an amendment that the building programme was not needed and was not justified on the ground on relieving unemployment; that, likewise, it was calculated to increase competition in armaments.

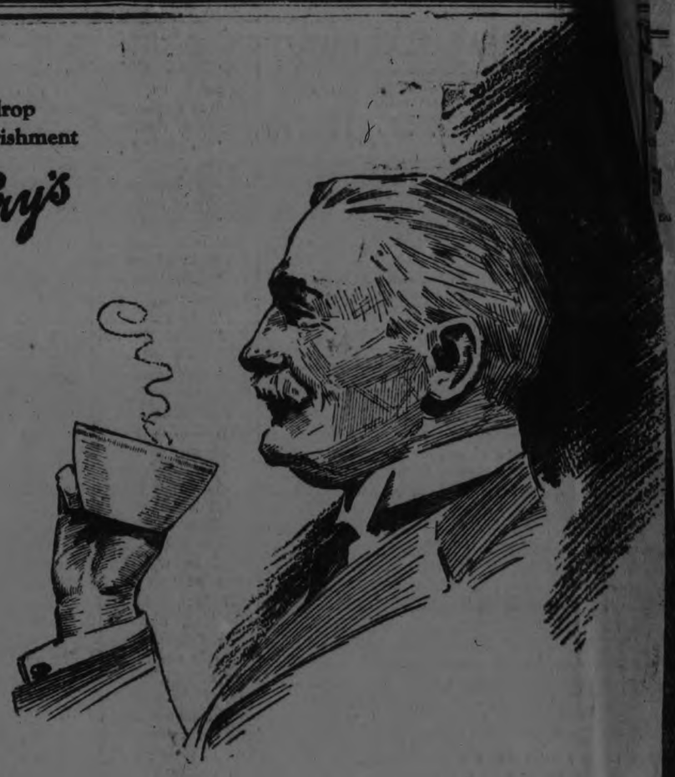
Frank Hodges, Civil Lord of the Admiralty, explained that the programme did not go beyond necessary replacements, and Mr. Seeley's amendment was defeated, 304 to 114.

W. S. FIELDING WILL LEAVE FOR HOLIDAY

OTTAWA, March 19.—(Canadian Press)—It is understood that on advice of his physician Right Hon. W. S. Fielding., Minister of Finance has been confined to his home here by illness since last December, will leave to-day for Atlantic City, accompanied by members of his family. It is hoped that change of scenery and atmosphere at Seaside will contribute considerably towards rest ing his health. Hon. Edmund Bristol of Toronto, who has reputation of of being chronic absentee from Parliament has been "paired" with Mr. Fielding.

Every drop is nourishment

Fry's



DR. Andrew Wilson, the eminent British authority, once said of the cocoa bean—"It is a kind of vegetable egg which contains all that is needed to build up a living body." Tea and coffee are mere infusions—but cocoa is an actual food in itself. Business men should remember that.

Cocoa, made the FRY way, from the world's choicest beans, is pure, extremely soluble and of most delicious flavour. Nearly two hundred years' knowledge of the cocoa business stands back of FRY'S. Of course, remember

"Nothing will do but FRY'S."

Fashions For Spring Opening

In our presentation are versions of the mode, which reflect and interpret all the new fashion notes—in silhouette in detail, in fabric and in color, presenting them in varied phases that will ideally meet every preference. Amazing in their variety—charming in their newness, chickness in every style.

Thursday, Friday, Saturday

THE SUITS

Tailored, box and boyish form models share honors in this extensive collection of new Spring Suits. Twills, hair line stripes and tricotines of fine quality go into their making while irreproachable tailoring and careful finishing further their smartness. Colors include mocha, moss, sand, navy and black.

THE COATS

Continue in the straight and narrow way, but with all sorts of fascinating variations. Twill cords and tricotines for the more formal of wraps, and new wooly materials, Hy-lo, Mah Jong, and Teddy Bear Cloth coats of the sport persuasion. Mocha, navy blue, beige, c and redwood shades are colors.

THE FROCK

Follow delightful modes, tinct portrayals of the ne silhouettes, treated in an ind ual manner and developed the season's newest fabrics are incomparably smart.

We cordially invite your inspection and comparison

WEDNESDAY, MARCH 19, 1924.

TODAY'S GUEST.

Although not heard of in political circles until he ntered the field as a candidate in the general election ast June, the name of Hon. J. S. Martin, Provincial linister of Agriculture, who gave an address here this fternoon under the auspices of the Peterborough Industrial Exhibition, is famous.

Mr. Martin is the Wynadotte king of America, and his birds have captured all the prizes worth capturing in the biggest competitions on this Continent.

At the age of thirty-two years he was a school teacher; then he embarked into the poultry business, specializing in the breed that has made him an international figure, and 1924 finds him wealthy and prosperous and, incidentally, a member of the Provincial Cabinet.

He has shown that the man who goes into an enterprise with energy and vision and determination is bound to win through to success.

He has taken one department of farming, and by scientific methods has climbed to the top of the ladder, thus demonstrating the opportunities there are in the country for those able to take advantage of them.

The Minister of Agriculture is well qualified to speak to farmers, therefore, for he has proven his theory first before bringing it to the attention of others.

A FITTING TRIBUTE.

The decision of the Reception Committee of the ty Council to banquet the Peterborough Intermediate ockey eam as a testimonial to the gallant fight they nade the Ontario championship and as a recognition o e manner in which they conducted themselves uring e season, will meet with the approval of citiens g rally.

The endency sometimes is to place too much stress pon ning and not enough upon playing the game.

It always nice to win, of course, but the team hat p fairly and in a sportsmanlike manner, that keeps ead in victory and does not lose its heart in defeat t fights until the last notch, and if it must go down down fighting, is entitled to just as much credit the more fortunate team that secures the final victory.

In turing for the second year the right to represent tern Ontario in the semi-finals and in going through the last round, only to lose by a solitary goal, the Peterborough hockeyists have added to the laurels won last summer by Peterborough baseball teams in winning four Provincial championships, and it is fitting that there should be some civic recognition of their exploits upon the ice.

The Reception Committee does well under the circumstances in arranging for a complimentary banquet to the players who brought so much credit to their home city.

A FINANCIAL PLOT.

Soon after the general election last June Hon. G. H. Ferguson announced the intention of the new Government to appoint a financial controller for the Province, an expert financier who would exercise a general supervision over financial transactions and keep the Province out of questionable and unwise transactions.

Since then ther has been little heard of the proposal, but the revelations before the Public Accounts Committee, showing that one broker made $100,000 out f a bond deal handled for the Drury Government, how that a financial comptroller would have little difficulty in earning his salary many times over each year.

It has been shown that one-sixteenth of one per nt. would have been an ample margin of profit for e dealer in question, or a little over $6,000; instead was rewarded at the rate of one per cent., clearing 00,000.

The Province should have saved some $94,000 on s transaction, and it is impossible to think that with expert financier to superintend such deals that any ker would be able to walk off with $100,000 of the ple's money for a few hours' work.

The right man for such a position could command ary, but he would earn it and it would be a fitable investment for the Province.

he case shows how easy it would be for a ntroller of finance to save the Province money on deals of this kind.

rnment would be well advised in looking financier with the necessary qualifications him enough to secure his services, no he is now employed.

ntion of one bond transaction such as was almost under the eyes of the Hon. Peter ould be ample justification for the appointment. Province has needed and still needs a financial

YOUTHFUL CRIMINALS.

outstanding feature of the present crime the fact that the majority of the gunmen and dits and killers are mere youths, many of them boys t yet out of their 'teen.

Judge Alfred J. Talley of the Court of General ssions, New York, has been struck by this fact, and a recent article makes some interesting comments the situation.

"I tried a murder case recently," he said, "in which not a single person was over 21. The defendant was 20, the boy he killed was 19 and the witnesses ranged from 16 to 19 years. Court records in newspapers show that the desperate crimes today are boys of ragic things I ths whose est and ways

the cowardly course of eliminating all religion from our schools.

"Now a child can be taught all about the wars and the armours of pagan gods, but the teacher dare not teach of Christ crucified, of the Sermon on the Mount, or even of the lessons of the Old Testament.

"No similar subject has the slightest tendency to develop the heart, to teach that evil must be avoided not only because of punishment but because it offends the law of Almighty God.

"The result is that the old maxim that 'Fear of the Lord is the beginning of wisdom' has been corrupted into 'Fear of the law is the beginning of prosperity.'

"Which means that everything is all right providing you're not found out.

"Why should it not be so?

"The child in school is taught a whole system of secular life without a single moral sanction.

"Then, as a thing apart, as a secondary thought, there is injected from some source or other, if the child is fortunate, some system of religious instruction, but more often than not he is denied even this."

HOW TAXATION AFFECTS WAGES.

There is something illogical in the assertion, which is being made in certain quarters across the international boundary, that the taxation of corporate surplus would be an approach to "equality." It is based on the superficially plausible assumption that taxes would thus fall on the shoulders best able to bear them, and be lifted from weaker shoulders. When examined, however, this plausibility disappears in large degree. If surplus capital is taxed, then precisely in the measure that it passes from the possession of individuals to the public treasury is its power to produce wages reduced. That is sound economics, and no amount of argument can make it otherwise.

We must all have a clear and rational realization of what produces wages before we can talk about this matter intelligently. Wages grow out of capital at work. Idle money is inert. Capital is made up of savings. It is not in the hands of a certain class, as some badly informed people assert. Every dollar put into a savings bank, or into an insurance policy, is capital. It must be made to earn, and the only way it can earn is to be put into some productive industry. The surplus of a commercial corporation consists wholly of savings. It could not very well be anything else.

We should all see very clearly, therefore, the relationship between capital and wages. It is not straining the truth to say that the more capital there is available the more wages there will be; and if that be true, then the reverse is also true—less capital, less wages. It seems necessary to emphasize this economic fact, since unthinking people are likely to be impressed by the false doctrine that if capital were made to pay all the taxes, or nearly all, the only sufferers would be the capitalists. The heaviest sufferer would really be the wage earner, since capital is the source of his supplies.

In this matter we should clearly identify the intensely co-operative character of society. Instead of the social fabric being made up of two classes, capitalists and workers, as the extreme Socialists are so fond of asserting, it really consists of many units very closely knit together by the force of economic laws. Thousands of men are capitalists without knowing it. Every man, for example, who saves a few dollars of money and invests it, could be so classified. He may be a mechanic and an ardent labor unionist. That makes no difference. If he is an investor in anything he is a capitalist. He is not different from the millionaire owner of a factory except in degree.

It seems to be necessary to lay a groundwork of this nature in order to come back with a clear mind to our starting point. Taxation is both necessary and unavoidable; but high taxation is unnecessary, avoidable, and very hurtful. The state or the municipality levies taxes in order to provide services essential for community life; yet the moment the impost passes a certain point it is likely to do more harm than good. That point can be readily indicated. The moment an excessive levy is made on the savings of the people—and all taxes come out of savings—at that very instant a process is set in motion which finally, and very definitely, limits the amount of money available for wages.

This brings the matter home to ordinary people with a direct personal significance. It has always been a fallacy to assume that taxes necessarily come out of the pockets of those who pay them. Paradoxical as it may seem, the burden may easily fall more heavily on the man who pays $1 than on the man who pays $10,000. The latter may be able to pass nearly every penny of his tax bill on to others—the consumers of what he produces, for example—while the other may pay indirectly throughout the entire year in lowered wages or unemployment. If taxes are needlessly high, that is almost certain to happen to him.

The point which this hasty review of the matter is intended to make clear is, that we lose sight of fundamental truth when we think about taxes in any other than the community sense; for so closely are all the units of a community bound together by interests in common, that it is impossible to cast a burden on the shoulders of any particular class without all other classes feeling it. The word "class" is here used for purposes of argument only. It is a misused term, and has little meaning in our time. We merely turn out the light when we argue as though there were sharp and permanent lines of cleavage in society, except in a very limited and unimportant degree. So far as the effect of high taxation is concerned, all lines of superficial separation practically disappear. Therefore there should be a general and concerted effort to resist excessive and unnecessary taxation in the interest of the common good.—Ottawa Journal.

EDITORIAL NOTES AND COMMENT.

NEWS OF BETHANY AND THE DISTRICT

Horse Broke Loose From the Church Shed—Personals.

BETHANY, March 19.—A number from here attended the funeral of the late Valentine Rowan to Mount Pleasant Cemetery on Friday. Mr. Rowan was an old resident of Manvers Township, and only left farming a year ago on account of ill-health. On leaving the farm Mr. and Mrs. Rowan made their home with their daughter, Mrs. D. White, of Cavan.

A horse belonging to Mr. C. Patton broke loose from the church shed on Saturday night, and followed the road to the 8th Line of Cavan when it took to the railway, overturning the cutter and breaking the harness. The horse was recovered on the boundary near Mr. Thos. Wilson's.

Teaming is the order of the day. The farmers are getting their wood delivered and the ice harvest is being completed.

Messrs. Twigg and Staples shipped a carload of stock to Toronto on Saturday.

Mrs. Carscadden and her sister, Miss Preston, were visitors in Peterboro on Saturday.

Mr. J. J. Preston was a visitor in Toronto last week.

Rev. Adams, former Methodist minister, Bethany, was a visitor here in connection with the Navy League last week.

Mr. Isaac Fallis was a visitor in Peterboro on Saturday.

Mr. F. C. Dawe shiped a carload of potatoes to Peterboro on Friday.

Miss Neta Wake visited friends in Lindsay on Saturday.

Mr. Charles Reynolds, of Lindsay, was the guest of his parents, Mr. and Mrs. F. Reynolds, on Thursday.

Mr. Harry Hutchinson was a Peterboro visitor on Thursday.

Mr. Bert Monk is spending a few weeks among friends and relatives in Detroit.

Miss Pearl Twigg, of Peterboro, spent the week-end at her home here.

Mr. Harvey Fallis was a business visitor in Peterboro on Saturday.

The Manvers Council held their regular meeting in the Town Hall on Saturday.

TWO THOUSAND MORE JOBS.

BEDFORD, Ind., Mach 19.—(United Press)—Two thousand men will soon be added to the army of workers now employed in the quarries of the Bedford-Bloomingtn district, according to an announcement by the Indiana Limestone Quarrymen's Association.

Get this Poultry Book FREE

HASTINGS AND THE DISTRICT

Funeral of Mrs. Samuel Stickles Monday--Personals.

Hastings, Mar. 19 Funeral of Mrs Sam Stickles was held on Monday afternoon. The remains were conveyed to the Presbyterian church, where service was held. The pastor, Rev. D. A. Thomson preached from the text. "Thou shalt be missed for Thy seat will be empty." The pall bearers were: Alex. Wilson, Dr. J. H. Hess, Henry McMillan, Charles Fowds, Wm. Hill and Wm. Lear, Jr. Interment was in Trent Valley Cemetery.

The floral tributes were many showing the high esteem in which deceased was held by her neighbors and friends.

The place of interment was Trent Valley Cemetery.

Rev. M. L. Hinton spent Monday in Campbellford, attending a meeting of the Ministerial Association.

St. Patrick's Day was ushered in with a piercing wind, typical March weather.

The roads and pavements are in such an icy condition that walking is very dangerous.

The weekly prayer service of the Methodist church was held at the home of Mrs. John Johnston.

Percy Beavis has disposed of his fine team of black horses to a buyer from Peterboro.

Mrs. Roy Watson and daughter, Evelyn, have returned from a visit with Peterboro friends.

Dr. J. H. Hess spent Saturday in Peterboro.

Miss E. Angus and brother of Rochester are in town attending the funeral of their sister, Mrs. Sam Stickles.

Earl and Howard Firman of Campbellford, spent Sunday with Mr. and Mrs. V. German.

$380 FOR AUTOGRAPH.

BERLIN, March 19. — An autograph letter of Franz Schubert, dated the year of his death, was sold for $380 at a local auction. A letter of Goethe came next, with $265.

A WAR MADE TOWN IS IN DIFFICULTY

Failure of Implement Works Results in Exodus of 2,000 -- Others Too Hardup to Move.

QUEBEC, March 19.—The failure of the Machine Agricole, which brought a bank to the verge of collapse and resulted in the intervention of the Provincial Government, may also cause the ruin of the town of Montmagny, if the facts disclosed by Premier Taschereau and Hon. J. E. Caron, Minister of Agriculture, by a delegation headed by Messrs. Thériault, M.L.A. for L'Islet, and Charles A. Paquet, M.L.A. for Montmagny, are supported by developments.

Eight years ago 1,500 men were employed in the factory of Machine Agricole on the fabrication of shells, and for two years after the war over 1,000 working men found employment in the plant, which had been transformed to a farm implement concern.

For two years past the plant has been closed down as a result of the failure of the company, which involved about $10,000,000. Unable to earn their living any longer, two thousand people left the one-time prosperous town, generally for the United States and industrial centres of the province. Others remained, awaiting the confirmation of reports which from time to time were afloat regarding the re-opening of the works.

However, nothing has yet occurred, and thousands of people are unable to live any longer under the present conditions. In fact, it is stated, hardship is such that many have been unable to find means of moving to other sections of the province.

Added to the case of individuals now comes the announcement that the municipality is menaced by financial difficulties unless business becomes normal again.

In a century of time at New York and in 87 years at New Orleans, the yearly means of temperature have not varied more than five or six degrees.

NEEDED IN EVERY HOME

Cobourg and District

COBOURG, March 18. — The Provincial Highway is now stated to be passable so that motor vehicles can make the trip through from Toronto this far, but excepting some of the big trucks tht have ventured down with goods for the merchants there is not much traffic as yet. The Provincial Road east from Cobourg to Grafton and beyond is open to motor traffic.

Death of Mrs. Goldsmith

Mrs. Ruth Goldsmith, born at Warkworth in 1855, being a daughter of the late James Gorman, died in Belleville on Wednesday, where she has resided for the past thirty years. She is survived by two sons, Dr. Perry G. Goldsmith and Ernest Goldsmith, Toronto and two daughters, Mrs. Norman Evans, Toronto, Mrs. Lorne Cawthrope, Belleville. The funeral took place at Belleville on Friday.

Greene—Leon

At the Methodist parsonage, Camborne, the marriage was solemnized on Wednesday of last week of Mildred Charlotte, youngest daughter of Mr. and Mrs. Joseph H. Leon, Camborne to Merwin E. Grieve, youngest son of Mr. and Mrs. James Grieve, Coldsprings. Rev. F. J. Horwood conducted the ceremony.

The bride wore a becoming dress of brown silk Canton crepe, and was attended by Miss Norma Richards, Baltimore. Mr. Melville Leon, brother of the bride was groomsman. They will reside at Cold sprins.

Shower for a Recent Bride

Some thirty or more residents of Londonald assembled at the home of Mr. and Mrs. Arthur Samons, Colborne, to honor Mrs. Harvey McGowan, formerly Miss Helen Samons, by a miscellaneous shower. The young couple received many useful and pretty gifts. Mr. and Mrs. McGowan will reside at Bancroft.

Contract Let

Mr. Clarence Maybee, Smithfield, has taken it is stated, a contract for the erection of a new shed 50 feet by 100 feet for the Methodist church at Frankford.

Auction Sale

At the week end, George Winter, who resides near Castleton sold his farm stock implements and household effects.

On Saturday John Grimes and Son, Brighton, had a sale of stock, grain and other things at Brighton.

Castleton Women's Institute

The Castleton Women's Institute met on Thursday at the home of Mrs. Gerald Wellon. The timely subject discussed was "making the common place life interesting. The program was in charge of Miss Helen Cameron.

DISASTROUS FIRE IN SUNDERLAND TOWNSHIP

LINDSAY, March 19.— A disastrous fire occurred at Sunderland on Sunday night about twelve o'clock, when the house, barn and implement house belonging to Mr. Earl Woodward, was completely destroyed, together with all his implements, a new automobile, his entire stock, which was large and of the very best, all of his grain and the contents of his house. Mr. Woodward was not at home when the fire occurred, but was just returning when he saw the barn in flames. He had barely time to rescue his mother and sister, who were asleep in the house, so rapidly did the fire spread, there being a very high wind. The fire started in the barn, but the cause is unknown. Mr. Woodward carried some insurance on his property, but it will not nearly cover his heavy loss.

How contagions spread

IN the world of school and play all children are equal. Youngsters from homes less clean than yours come into intimate contact with your children.

To guard against contagion, make sure that your children are completely cleaned and purified whenever they come in from play.

Your great ally is Lifebuoy Health Soap. The safe antiseptic ingredient of Lifebuoy penetrates each dirt-laden pore. Rich, creamy lather carries it into every cranny of the skin. The healthful odour vanishes a few seconds after use, but the protection remains.

LIFEBUOY HEALTH SOAP

More than Soap - a Health Habit

Keep your children safe with Lifebuoy. Teach them to use it often.

LEVER BROTHERS LIMITED TORONTO

Ls-4-86

CAVAN TOWNSHIP COUNCIL

The regular March meeting of the Cavan Council was held in the Council Chamber, Town Hall.

The members were all present, with the Reeve, Mr. J. L. M'Camus, presiding.

The minutes of the last meeting were read, and on the motion of Dep.-Reeve Robison and Coun. Hootom, were adopted.

Communications.

From Gordon and Obrien, acknowledging receipt of cheque for $5.00 in settlement of H. Laing's claim for damages by winter road.

From K. A. Cockburn, advising the Council that a portion of road between Cavan and South Monaghan, at Scott's Corners, taken over by the highway, would revert to the municipalities for maintenance.

From R. C. Muir, chief engineer of public highways, stating that Cavan's subsidy for expenditures on township roads in 1923, to the amount of $1,611.27, had been forwarded to the treasury department, and that Cavan would receive a cheque for same in due course.

From the department of highways, acknowledging the receipt of copies of by-laws Nos. 638 and 639, providing for expenditure on roads and the appointment of a road overseer.

From W. R. Johnston and George Jones, declining the appointments as path masters.

Mr. James Foster asked the Council for the usual grant of $15.00 for the use of a roadway through his farm in lieu of the quarter line.

Elson-Hooton—That James Foster be paid the sum of $15.00 for the use of his road for the year 1924. Carried.

Mr. Alfred Gilmour presented a bill of $10.00 for damages to fence and fields by use of winter road through his farm.

Hooton-Elson—That Mr. Gilmour be paid $5.00 for damages by winter road. Carried.

Mr. Harry Ruddy addressed the Council, stating that he had never been notified by the pathmaster in his division to do his statute labor; that he had not had the opportunity to earn this amount of his tax bill, and that he should not be called upon to pay the amount of his statute labor in cash when he was desirous of working it out on the roads, and asked for this privilege.

Elson-Hooton—That H. Ruddy be allowed to draw 5 cords of stone for crushing, and that he be allowed $15.00 for this work. Carried.

Mr. Wm. H. Wood appeared before the Council and complained of the blocked condition of the road on the Manvers boundary, opposite Concession 5. This trouble being caused by the drifting of sand and snow.

Elson-Robison—That Coun. Fallis be a committee to meet a representative of Manvers Council and endeavor to make some provision to remedy the condition of the road complained of by Mr. Wood. Carried.

Messrs. F. W. and Milton Fallis waited on the Council asking for a grant for a wire fence on the west side of the quarter road, Con. 5, stating that this road drifted in and became impassible every winter. It was decided by the Council to make a grant for the purchase of wire for this road fence.

Reeve Staples, of Manvers Township, addressed the Council, saying that one, John Cox, who had been sent to the Nichols Hospital from Bethany, had for some time previous to this been working with farmers in Cavan as well as with farmers in Manvers, and thought that Cavan was liable for their share of the hospital fees, amounting in all to $32.50, and asked the Cavan Council to pay half of this bill.

Hooton-Fallis—That Cavan pay $15.00 to Manvers as part payment of the hospital fees of John Cox. A vote being taken, the motion was supported by Councillors Hooton and Fallis, Dep.-Reeve Robison, and Coun. Elson voting nay. The Reeve declared the motion lost.

Fallis-Robison—That each Commissioner be allowed to spend to the amount of $300 in his division. Carried.

That the Reeve sign the following orders. Carried.

Telephone Co. account, $2.47; J. N. McGill, registrar, births, deaths, etc., $13.25; J. A. Morton, S.S. 18, $100; J. Handley, on account making snow plows, $75; J. Foster, for roadway through farm, 1924, $15; T. Bradburn, damages by winter road, 3 years, $10; T. Madill, work, Con. 10, $2.50; J. A. Huston, rebate on taxes on account of fire, $13; Alf. Gilmour, damages by winter road, $5; R. O. Larmer, work on Con. 6, $6; R. Henderson, rebate dog tax, $2; W. Wood, roadway through farm, 1924, $10; L. H. Winslow, putting in culvert, Con. 10, $12, services school attendance officer, $[illegible]; C. Coulter, rebate on taxes non-collectable, $82.36, balance of salary as collector, 50, postages, $5—$137.36; James Sexsmith, on account hauling stone, $100, wood for engine crushing stone, $15—$115; R. Kicks & Co., account cement, $68.40; C. W. Richards, account stationery and supplies, $37.12, on printing con. $50—$87.12; N. F. MacNachtan, for treasurer's bond, $20; J. N. McGill, on salaries, $37.50.

Robison-Hooton—That the Council adjourn to meet April 16th at 1.30 p.m. Carried.

So gripeless—nicest cathartic-laxative on earth for Men, Women and Children. 10c boxes, also 25 and 50c sizes—any drug store.

OIL PROBE SHOWS UP SOME NEW MEN

Enquiry Widens Out at Each Hearing--Trading in Oil Stocks.

WASHINGTON, March 19 (Canadian Press). — Attorney-General Daugherty, Senators Curtis of Kansas and Elkins of West Virginia, and C. Bascom Slemp, now Secretary to President Coolidge were among the public officials who had transactions in Sinclair or Doheny oil stocks around the time of the leases of the Naval Oil Reserves.

Slemp at the time was a member of the House.

Other representatives dealing in stocks included A. B. Rouse, Kentucky, Wells Goodykoontz, of West Virginia, and Thomas J. Ryan, of New York.

Names were disclosed before the Senate Oil Committee to-day when it called to the stand Louis F. Bond, Federal Trade Commission accountant, and who has examined the books of a number of brokerage houses.

Attorney - General Daugherty bought 100 shares of Pan-American (the Doheny Coy. that leased the California Reserve) and sold at a profit of 543.40, the accountant said.

Mr. Daugherty himself has disclosed previously that he had some dealings in Sinclair stock both before and after he entered the Cabinet.

The Attorney-General account with W. B. Hibbs & Company of Washington, was opened in November, 1921, Bond said, in his own name, and subsequently changed to the name of W. W. Spaid, member of Hibbs & Company.

On 9th October, 1922, the Attorney-General sold 500 shares of Sinclair Consolidated, and on 27th October he purchased an equal amount of the same stock, Bond said.

COMPARATIVE NAVAL STRENGTH REVEALED

The Figures Exclude the Vessels Condemned by Conference.

LONDON, March 19. — United States, Great Britain and Japan is shown in an Admiralty white paper published to-day. The figures exclude the vessels condemned at the Washington limitation of armaments conference, and are as follows:

Type	U.S.	Britain.	Japan.
Battleships	18	18	5
Battle cruisers	0	4	0
Cruisers	10	2	0
Light cruisers	15	48	17
Destroyers	309	186	78
Submarines	115	61	44
Aux. vessels	10	106	11

HE'D HAVE IT MENDED.

One day as a farmer of extraordinary meanness was starting out for the town to do his weekly shopping—for even he had to buy something for the support of his family—his wife came out and asked him to buy her a darning-needle.

"What's the matter with the one I bought you last winter?" asked the farmer.

"The eye's broken out," she replied.

"Bring the needle here," he said; "I'm not going to allow such extravagance. I'll have the needle mended."

The woman was wise in her generation, and made no protest. She brought the broken needle.

The economical farmer rode away into the town and stopped first of all at the blacksmith's shop. He took out the needle and handed it to the blacksmith. "I want that mended," he said.

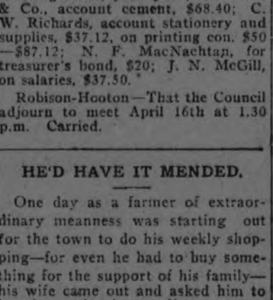
The blacksmith knew his customer and keeping his face perfectly straight, said the eye should be mended in an hour's time.

The farmer rode away and the blacksmith walked across the street and bought a new needle for a farthing. When the farmer called again the blacksmith gave him the new needle.

The farmer looked at the smooth polished surface of the steel, and remarked that it was a good job. "How much will it be?" said he.

"Twopence," said the blacksmith, and the farmer as he paid it remarked that he knew that the needle could be mended, but his wife would have gone to the expense of buying a new one if he hadn't interfered.—Cork Examiner.

Really Clean and Sanitary



Woodwork, nickel, enamel, tile and linoleum all shine like new under the magic spell of Gold Dust. Easy to use. Cannot mar polished surfaces because it contains no grit of any kind.

Cleans—Disinfects

FRUIT TREATMENT FOR CONSTIPATION

Quick and Permanent Relief By Taking "Fruit-a-tives"

What a glorious feeling it is to be well! What a relief to be free of cathartics, salts, laxatives and purgatives that merely aggravate constipation and are so unpleasant to take and so weakening in their effect!

What a satisfaction to know that the juices of apples, oranges, figs and prunes will absolutely and permanently relieve constipation. By a certain process, the juices of these fruits can be concentrated and combined with tonics—and it is these intensified fruit juices that correct constipation, relieve headaches and biliousness, and make you well and keep you well.

"Fruit-a-tives" are sold everywhere at 25c. and 50c. a box—or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

A PLOT TO SHOW FIGHT PICTURES

Evidence Submitted to the Investigating Committee Today.

WASHINGTON, March 18—(Canadian Press). — Attorney-General Daugherty is being kept in office by President Coolidge, solely because of Mr. Daugherty's supposed political influence in the forthcoming campaign, Senator Caraway, Democrat, Arkansas, to-day charged in Senate. "Everyone knows there would be a quick change of the Attorney-General if Mr. Coolidge were not a candidate for re-election," said the Senator.

The story alleging that Attorney-General Daugherty was himself concerned in an unlawful conspiracy to exhibit the Dempsey-Carpentier fight films and had suggested that those behind the scheme should get fifty per cent. "cut" in profits, were related to-day to the Senate committee investigating the Department of Justice. Gerald O. Holdridge, former Secretary of the Department, told the story as he said it had been related to him by Jap Muma, the New York correspondent of the Cincinnati Enquirer, and one of these named as a backer of the distribution plan. Holdridge read to the committee under oath a long statement regarding his conversations with Muma, and at the end of the statement there was an endorsement by Thomas Spellacy, another former Department agent, saying the assertions made were "absolutely true." Spellacy, Holdridge said, was present when he talked with Muma. After he had heard Muma's story Holdridge went on. He came to Washington and related it to William J. Burns, head of the Justice Department's Bureau of Investigation. Instead of ordering any prosecutions, however, he said Burns transferred him to a long pending bank case. Some time afterward he said he quit the Government "in disgust." According to Muma, as quoted by Holdridge, the plan to show pictures over the country, desupite Federal law against their transportation across State lines, followed the private exhibition at the home here of Edward B. McLean, attended by President Harding and members of the Cabinet.

The equatorial diameter of the earth is 7926.5 miles and the polar diameter 7899.6 miles.

Heinie is beginning to suspect that evasion is about as unprofitable as invasion.—Dubuque American Tribune.

CAVAN A. Y. P. A. HAS REORGANIZED

Officers Elected for the New Church Year--Cavan News.

CAVAN, March 19.—The A.Y.P.A. of St. John's Church has re-organized for the new church year. The meeting was held at the home of Mr. W. H. Lough. Mr. Robert McCamus was elected chairman of the meeting. The following are the officers:

President—Mrs. L. H. Winslow.
Vice-President—Mr. Roy Lough.
Treasurer—Mr. A. Braithwaite.
Secretary—B. McNeil.
Programme Committee—Miss Jean Lough, Messrs. Harry Thomas, Tom McCamus, Chas. Thacker.
Social Committee—Miss Bertha Touchbourn, Mrs. Tippet, Miss Cora Braithwaite and Mrs. Robert McCamus.
Missionary Committee — Miss Vivian Lough, Miss Cora Braithwaite, Mr. Clare Winslow and Leonard McNeil.
Play Committee—Mrs. Winslow, Miss Jean Lough, Mrs. Herb Suney, B. McNeil.

St. John's W. A.

The regular monthly meeting of the Women's Auxiliary of St. John's Church was held at Mrs. Herb Seeney's. A fairly good number were in attendance, but owing to sickness and other doings it was not as large as formerly.

Roads Are Good.

The roads in rural districts are remarkably good for this season of the year. The snow sank gradually and the cold spell of the last few days has made them firm again. Much teaming is being done.

Personals.

Mr. and Mrs. Bell, Toronto, attended the funeral of Mrs. Bell's father, the late V. Roan, on Friday.

Among those from a distance who attended the funeral of the late V. Roan were: Mr. and Mrs. John McGee and Mr. and Mrs. E. Hanna, Janetville; Mr. and Mrs. J. McGill, Centreville; Mr. Stacey and Mr. R. McGill, Yelverton; Mr. Dick, Emily, and many others from Bethany and other parts of Manvers. Rev. V. Walker, Janetville, conducted the funeral services, assisted by Rev. R. T. Richards, Cavan.

NEWS TRENT RIVER AND THE DISTRICT

Ice on the Back Channel is Going Out—Trappers Busy.

TRENT RIVER, March 19. — Rev. Mr. McIlroy, of Knox Church, Havelock, took the service here on Sunday, and gave a most helpful address, at the close of which Mr. McIlroy requested the choir to render an appropriate hymn, "O Happy Day," giving the sermon in song and story.

High winds prevailed here all Saturday night, continuing on Sunday.

Messrs. Tom, Will and Norman Wight spent Saturday afternoon digging out the roads near Maple Grove Cemetery, trying to make the road possible for a car to get through.

Miss Annie Wight spent Saturday in Peterborough.

Mrs. James Cook and Miss Irene Brown, of West Seymour, go to Peterborough on Wednesday as delegates to the Provincial Grand Lodge which is meeting there.

The death took place on Saturday of Mrs. J. Elmhirst at her home, West Seymour. The funeral took place yesterday. Interment was at Maple Grove Cemetery.

The Women's Institute of Seymour West will hold their regular meeting at Mrs. George Brown's on Thursday afternoon, 20th March, at 2.30 o'clock. All the ladies are requested All the ladies are etaoin shrdlu thm to be present.

Mr. Knowlton Waters, Lot 1, Con. 11, Seymour, will hold a sale of farm stock, etc., on Thursday, 20th March.

The ice on the back channel has cleared away earlier this year than in previous years, allowing the trappers to use their canoes daily.

SECRET OF KEEPING YOUNG

Why is it that some women look older at thirty-five than others do at fifty? Why is it that so many women are always run-down, weak, pale, nervous, irritable and unhappy? Health, vitality and freedom from pain and disease alone can prevent the signs of age from fastening themselves upon women. All over the country women are awakening to the fact that the ills, aches and pains of women may be relieved by Lydia E. Pinkham's Vegetable Compound, and the result is renewed life, energy and the glow of health. In fact the secret of keeping young is to ward off all internal ailments that cause premature old age which is easily accomplished by this remarkable root and herb remedy.

FIND HEART OF VOLTAIRE.

PARIS, March 19. — (United Press).—The heart of Voltaire, believed to have been stolen from the National Library sixty years ago, has been found in a part of the building rarely frequented. There can be no question about its genuineness, for all the documents certifying that is is the hart of the great satirist were found with it. The heart is contained in a metal coffer. It was found in a space hollowed out in the pedestal of Houdon's original statue of Voltaire.

INFANTS DELIGHT TOILET SOAP

When the wind blows strong

Keep the pores of children's skin breathing freely. Wash the little ones often. Keep the glow of health and happiness alive with the wholesome purity of a white soap—boretted and with that dash of delicate fragrance.

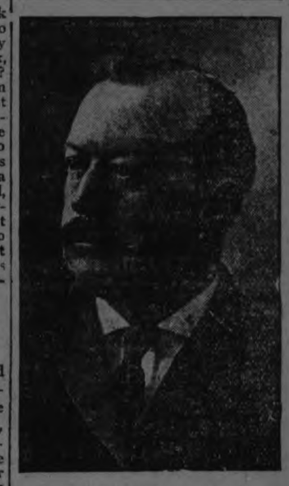
All the family use it

Blood Clot Ends Life of Athletic Director.

NEW YORK, March 19 (Canadian Press). — Elwood S. Brown, vice-president and executive officer of the National Amateur Athletic Federation, who has been active for years in the development of physical education and athletics, particularly in the Far East and South America, died yesterday at an Englewood, N. J., hospital.

Mr. Brown suffered a heart attack two weeks ago after a game of handball. He apparently was recovering when a blood clot developed in his leg, necessitating an amputation, the effects of which he did not survive.

Mr. Brown was associated with the Y.M.C.A. in most of his work here and abroad.



HON. DR. J. W. EDWARDS,
Past Grand Master of Ontario East and Deputy Grand Master of British America, who will be here in connection with the Grand Orange Lodge convention.

Made in Canada

Bon Ami

—makes the tub snow-white

BON AMI not only makes the tub clean and white, but actually makes it glisten.

For this soft cleaning mineral not only cleans, but has a real polishing quality. Just sprinkle a little of the powder on a damp cloth. Give the tub a few brisk rubs and away goes the dirt. And it does not scratch the delicate enamel.

Bon Ami also cleans the nickel faucets—makes them look like new.

The Brilliant Novelist of Modern Society

(Continued from Yesterday.)

WHO'S WHO IN THE STORY

Prudence Page—a charming country girl, has fallen in love with

Bert Traymore—a fascinating philanderer, whom a chance meeting meeting brings into her quiet life.

Janet Mercer—Prudence's dearest friend, an older woman, plain but clever, is masseuse to the delicate child of

Mrs. Vansittart—a pleasure - loving woman-of-the-world, owner of Winston Towers, a beautiful summer home. She invites Prudence to a ball at the Towers. Prudence accepts, and finds herself a wall-flower, neglected by Traymore, who has professed to love her, slips away into the darkness.

Virginia Dale—Mrs. Vansittart's ward is a blase beauty, who counts Traymore among her many swains. She is the belle of the ball, but she is disappointed not to find among her many admirers

Peter Armstrong—a brilliant young inventor, clever and ambitious. He meets Prudence in her head-long flight from the ballroom, and after confessing that his love has proved false—from this Prudence deduces that he is in love with Virginia—he persuades the girl to return to the dance with him.

Prudence creates a sensation by reappearing at the ball with Peter, who is something of a social 'lion.'

Prudence's popularity is greater even than Virginia's and Traymore is once again the ardent lover.

Traymore again promises to call at Prudence's home, but at the appointed time, Prudence is astounded to find Virginia on the steps of her home.

CHAPTER XXII.

Undercurrents.

Virginia had come to reconnoitre. She was no shy young woman. No, not she! She believed in taking fate in her own two hands—slim, white, cruel-looking paws they were—and wresting from the fickle jade everything her greedy soul desired.

A chit like Prudence Page wasn't going to disconcert her. No, of course not. She was too experienced a campaigner. She would find out all she wanted, skilful tactician that she was.

Even if cruder methods must be resorted to, Virginia wouldn't flinch.

And yet——

The stupid child was staring at her almost as though she were a ghost, and not a human being. It was going to be rather tiresome, this interview.

"Don't you recognise me?" queried the newcomer, partly raising her eyes to Prudence on the step above her.

The girl nodded, but said nothing. She didn't even ask her to come in or make any motion that might lead the visitor to think that she was welcome. Dull, these country maidens were! Odd, that the chit had had a 'following' last night! Of course, Peter Armstrong had been responsible for that. He was just the type of man to be sorry for the 'under dog.' (Virginia never wasted pity on lost causes.)

"Well, you don't seem overjoyed to see me!" she spoke again, this time in bantering vien, although an annoyed gleam sparkled in her eye.

"I was not expecting you," said Prudence, quietly and with dignity.

"Maybe expecting someone else?" The child had a gala look about her.

"If I come in, should I be spoiling sport? I'd hate to be a kill-joy."

With an effort Prudence answered. "My mother's in the parlor. If you're tired after your walk, and would like a cup of tea——"

Virginia gave an affective squeal of pleasure. (A new 'line' must be adopted with this not-to-be-overawed person; better be more cordial, as it were.)

"There's nothing I'd enjoy better." She insinuated herself down the narrow hallway. "So this is Mrs. Page, is it? How d'you do?"

Prudence's mother was dazzled by the fashionable apparition. The parlor of the Green Gables hadn't seen such clothes in all its life before. And the scent of the wild flowers Prudence had plucked was completely overshadowed by the exotic perfume wafted from the beauty, which filled the small apartment like a sweet narcotic—heady, almost overpowering . . .

Indeed, there was something very overpowering about this gorgeously attired young woman. Mrs. Page felt the sudden change in atmosphere the moment she came in—a change that was not due to perfume, or to pretty clothes alone . . .

"Mother, this is Miss Virginia Dale, from the Towers: Miss Dale, my mother." With a composed simplicity did Prudence effect the introduction.

"Delighted to meet you, I am sure," gushed Miss Virginia, extending a patronizing hand. "What a charming rustic place you have here!"

Her tone was such as the squire's daughter might use to the humblest cottager on the estate, or a high-born philanthropic visitor to the denizen of city slum.

"Very different to the Towers," said Prudence's mother, glancing helplessly towards her child, who would understand better how to cop with the society lady.

"So restful!" gurgled Virginia, casting off her cloak, and at a quick glance taking in the general aspect of the room. No, not at all bad for such ordinary people! Nothing pretentious, of course. They couldn't afford it. But they'd spared her the horrors of crochet antimicassars, stuffed birds, waxed fruit under glass, what-nots, dried grass in vases, and all the other accessories that folks of this class seemed to love!

There were no shell ornaments upon the mantelpiece, nor was it covered by a red plush strip of velvet. And the usual plethora of photographs was missing, thank the lord!

"The last cottage of this type that I was in, had bead-screens instead of window-curtains," the visitor announced, with a titter; "I'm glad Mrs. Page, that you don't indulge in such atrocities!"

Prudence's mother looked bewildered. Personally, she had always thought long curtains or dangling beads against the light, extremely pretty and artistic, and was about to say so when Prudence intervened.

"Even though we're plain, country people, there's such a thing as libraries where one can get books on interior decoration. I've studied them quite a bit."

There was an edge to the girl's fresh voice that her mother was quick to sense. What was the matter? Had this haughty dame come here to humble Prudence? And did Prudence know and resent that fact?

"Then, my dear," announced Virginia Dale, "why don't you go to the city and start business on your own, if you're artistically inclined? Why not have an office as an interior decorator? Why hide your talents under a bushel?"

A quick fear clutched the mother's heart. Had this woman come here to wean Prudence away from the family roof-tree?

"We're old-fashioned people, Miss Dale, and we like to keep our child at home." A hurt note was in her gentle voice.

"Oh, but it doesn't pay to be behind the times!"

To which Prudence replied, in a level little voice, that yet had a sort of challenge in it:

"Old fashioned people sometimes get there first, Miss Dale! The tortoise won the race against the hare, didn't he?"

Virginia was astounded at the thrust Who would have credited this young chit with a remark like that?

She'd come here to spy the land out, to reconnoitre, but she certainly hadn't expected to find a foeman worthy of her steel!

"Won't you infuse the tea, dear?" Mrs Page was saying to her daughter. "We can have some made freshly for your friend when he arrives."

"Ah-ha!" Virginia raised her head like a well-bred charger who scents the battlefield. "So, as I thought, there was a 'beau' expected, was there? And you wouldn't tell me!"

Mrs. Page felt anger welling up in her. This woman might be 'in society'—and she certainly was lovely to look upon—but there was no real friendliness in her eyes, and her voice held an overbearing insolence, which must be checked at once.

"My daughter has many friends, whom we are always glad to welcome," she said, frigidly.

"Naturally!" Virginia's smile was very meaning. "The more the merrier!"

Prudence felt miserably uncomfortable. 'Under-currents' were so hard to cope with!

There was pain, too, at Bert's second failure to keep his promise. Oh, where was he? Had he sent Virginia Dale to show her (Prudence) how little she counted in his life?

Then, as she made a move to go and get the tea, she saw—through the window—Bert Traymore coming up the flagged path to the door!

In To-morrow's Instalment Traymore Is In An Embarrassing Position.

(To Be Continued.)

Victim of Accident Was to Wed In April.

MONTREAL, March 18.— From injuries suffered to his spine and skull in an automobile accident last Sunday, Ernest A. Stewart, chief accountant of the Montreal Tramways Company died in the Royal Victoria Hospital to-day.

Mr. Stewart, who was 38 years old, was driving a car which skidded and crashed into an iron trolley pole.

He was engaged to be married and the wedding had been fixed for the latter part of April. A verdict of natural death was returned at the coroners' inquest held here this afternoon.

PUMP BALL FROM LUNG.

PRAGUE, March 19.—A 16-year-old youth, blowing steel balls through a blowpipe, inhaled too strongly and drew one into his lung. Efforts to extract it with forceps and a magnet were unsuccessful. Then a rubber hose was introduced until is end touched the obstruction, and an air pump was used. It succeeded almost immediately.

Stops falling hair—

There's an appealing beauty in lovely hair. A charm that is rarely a natural gift yet one that may be secured by careful, thoughtful attention to the scalp and hair.

To end diseases of the scalp such as dandruff, falling hair and to stimulate dry, brittle hair into new life try this treatment.

COALITION IN VICTORIA ENDS

Premier Lawson Resigned Over Opposition of the Farmers and Forms New Government Entirely of Liberals.

MELBOURNE, Australia, March 19. Canadian Press Cable via Reuters. — H. S. W. Lawson, who resigned the premiership of Victoria a few days ago, and was accompanied in his resignation by the ministers of his government, because of the decision of the Farmers' party at a recent conference to retain the right to contest any seat in the state, has formed a new gove.ament composed entirely of Liberals.

The resignation of the Lawson government took place a few days ago. The continuation of the coalition government was regarded by Premier Lawson as impossible in view of the Farmers' party having decided to contest parliamentary seats. The decision was taken without consulting the leader of the Farmers' party, a member of the coalition government, John Allan, president of the board of land and works, commissioner of Crown Lands and survey, and Minister of Immigration. None of the ministers belonging to the Farmers party had anything to do with the conference decision.

FRANC REACHED HIGH FOR YEAR

Passed Previous High Level of January In Rebound From Recent Depression.

NEW YORK, March 19. — In its sensational recovery from a new low record for all time established ten days ago, the French franc yesterday crossed five cents to a new high price for the year at 5.08. The previous high level of 5.04½ cents was reached on January 2. After that date the franc declined almost steadily until March 8th, when the climax of the foreign offensive against it forced the quotation down to 3.45 cents.

While official verification was lacking, it was reported in the financial district that the French government has as yet found it unnecessary to use any part of its $100,000,000 credit to bolster up the currency, the buying coming entirely from speculative and commercial interests. One of the interesting features in connection with the recovery of the franc is the fact that the overnight gain in the demand rate invariably has been about ten points, reflecting accumulation of orders from abroad.

ENTERTAIN THORNTON.

LINDSAY, March 18. — The Board of Trade is making extensive preparations to welcome and entertain Sir Henry Thornton and some 75 C.N.R. officials on Tuesday, March 25th. A big banquet will be held.

TWO MEMBERS OF CABINET CALLED

Washington Investigation Hears That Friend of Attorney - General Received $6,000 Hush Money In Liquor Case.

WASHINGTON, March 19.—Threading its way through a maze of bewildering charges and suspicions the Senate Committee investigating Attorney-General Daugherty yesterday heard testimony about deals in liquor, lotteries and motion picture films; subpoenaed two cabinet officers to appear before it; and was again rebuked by Mr. Daugherty for the character of the evidnc it has admitted to its official records.

The principal witness of the day, William A. Orr, of New York, in part confirmed and in part denied the story of previous witnesses about an arrangment to exhibit the Dempsey-Carpentier fight pictures without prosecution. He then contributed another thriller to the committee's long list of sensational episodes by admitting that he had paid at least $8,000, collected from various drug companies, to Howard Mannington, a friend of the Attorney-General, for the purpose of keeping certain liquor cases "out of court."

Summer Secretaries

The two cabinet officers summoned to testify were Secretaries Mellon of the Treasury and Weeks of the War Department. They will be asked about various statements made in previous testimony, but their testimony is expected to deal largely with liquor permits, handled through the Treasury, and with the Standard Air craft case, in connection with which Gaston B. Means has testified that he received $100,000 for Jess Smith.

Along with the two members of the Cabinet, the committee subpoenaed several other officials and former officials of high rank.

Mannington Next

Last night committee members were considering how they might be able to bring Mannington before them. He is understood to be in Paris, connected in some capacity with Charles G. Dawes, and it is possible that the State Department may be asked to help in summoning him to Washington. In addition, Secretary Hughes and Postmaster-General New, who have issued statements about their presence at the home here of Edward B. McLean when the prizefight pictures were shown there, may be asked to come before the committee to explain conflicting stories as to just who made up the company entertained that night by the publisher.

Mr. Daugherty's attack on his accusers last night took the form of a long statement, in which he reviewed the activities of his department and declared that nothing had been produced so far before the committee bearing on the department's efficiency.

BREEDERS SEEK A "CUSSLESS" CAT

ANCHORAGE, Alaska, March 19.—When "Shorty" Wehnke began experimenting with crossing pine marten with cats the outlook was very bright for a new species of fur which combined the sheen of the marten and the spread of the cat.

All went well until some of "Shorty's" martenocats escaped and took to the alleys. These animals had all the characteristics of the marten for climbing and hopping about, rustling food in barns and from kitchens, but also retained the disreputable vocabulary of a tomcat.

Whenever a martenocat mounts a telephone or electric-light pole, to have an argument with a member of his species, the neighborhood becomes untenable. Now Wehnke is trying to develop a "cussless" cat, while carrying out his crossing of puss and muskela pennanti

PAPER MILL CLOSED.

GRAND FALLS, Nf., March 18.—The Northcliffe paper mill here was shut down to-day as a result of a wage dispute. Workers claimed they had been locked out by the management. About 800 men are affected.

After Nights Of Coughing

Sleep Comes At Last

Home Made Cough Mixture Best of All.

The cough that hangs on and hangs on—the cough you've taken everything for with no results, is just the cough that your own home made cough mixture will end speedily.

Make a supply yourself in a few minutes and keep it on hand this Winter—a half pint doesn't cost much; it's better than any you can buy, and the kiddies love it.

It's a fine remedy for chest colds and acute nasal catarrh.

With speed almost beyond belief this home made cough mixture stops the toughest hang-on cough, and all because in it there is a substance (too costly for ordinary cough syrups) that immediately cover the membrane like a soothing, healing poultice and blessed relief comes at once.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it.

Any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

HOW THEY WORK IT IN MOSCOW

BY JOHN GRANDENZ . . .

MOSCOW, March 19.—(United Press).—"Have you seen a policeman around," asks an apparently breathless pedestrian.

"No," replies the fur-clad object of the query.

"Well, then, give me your coat!"

The story is varied this year. Taking off the fur coat demands too much time and the policeman might really appear. So this year the street thieves are specializing on fur caps. It is easier and quicker.

"Bang!" you get a crack on the ear and your fur cap rolls a yard away. A man pounces on it. That's all! You are left capless, with the mercury doing stunts at 20 below.

OPERA STARS STRIKE.

BUCHAREST, Rumania, March 19.—The leading artists of the Rumanian opera have gone on strike because of the Government's decision to end state control and hand the opera over to private enterprises with reduced Government subsidy.

MOTHER!

Child's Best Laxative is "California Fig Syrup"

Tongue Shows if Bilious, Constipated

Hurry Mother! Even a fretful, peevish child loves the pleasant taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Royal Footwear Co.

CHARLOTTE STREET

British Columbia Asks Federal Bounty On Iron.

OTTAWA, March 18.—(Canadian Press.)— Hon. Wm. Sloan, British Columbia Minister of Mines, to-day presented to Premier King and members of the Cabinet a copy of a resolution passed by the British Columbia Legislature in December last. The resolution endorses the principle of the granting of a bounty by the Dominion Government on pig iron and associated products manufactured in British Columbia from British Columbia iron ores.

BUILDING PERMITS DECLINE.

OTTAWA, March 18.—(Canadian Press.)—According to reports from 56 cities tabulated by the Dominion Bureau of Statistics, the value of building permits issued declined from $4,021,088 in January to $3,657,525 in February, 1924. In February, 1923, these cities had authorized building to the value of $5,599,821. There were, therefore, reductions of $363,563 or 9 per cent. during February as compared with the presiding month, and of $1,942,296 or 35 per cent. as compared with February of last year.

NEVER USED 'PHONE.

PARIS, March 19. — A man who never has used the telephone has been discovered in Paris. He is Alfred Vallette, editor of the Mercure de France. He transacts all business by mail. He says he admires the telephone, but would not have one.

VERY EFFECTIVE.

Cross stitching is very effective on white silk crepe frocks if it is done in striking, crude colors.

STREET FLOOR ONLY.

CONSERVATIVES WILL COMPRISE COMMITTEE

Premier Ferguson Denies That the New Highway Advisory Board Is For Political Purposes — Must Be In Sympathy With the Government's Policy.

TORONTO, March 19.—Liberals in the Legislature Tuesday put themselves on record as strongly opposed to the creation of an advisory committee of members of the House to the Minister of Highways.

"The committee will be nothing more than a political committee" said W. E. N. Sinclair, Liberal leader. "Its duty is to consult with the Minister of highways, but the main highway to be considered will be the highway to political success at the next election."

The Premier denied that it was for political purposes and stated that the committee took away none of the rights of the members of the Legislature as had been declared by A. Belanger (Lib. Russell). The Premier announced that it was the intention of the government to promote a more intensive local highway program. Municipalities would be advised to have local road superintendents and to cut out all statute labor.

Partisan Committee

A. Belanger maintained that the committee usurped the function of administration from the Minister and his staff. The committee's was worse than other committees because its members would be taken only from the supporters of the government. The Premier said the government wanted members who were wholly in sympathy with the general policy of the government.

H. A. Fisher (Lib West Ottawa) said the making of the committee started a system to get jobs for government side and two from the opposition groups. J. A. Sangster (Glengarry) would see no use for the committee at all as the best information the government could secure was from the county engineers and road superintendents.

Suburban Commissioners

The government amended the bill changing the time at which the clause that members of municipal councils cannot be members if suburban road commissions. The clause will be effective January 1, 1925 instead of July 1, 1924.

The bill licensing saw, pulp and paper mills passed through committee without amendment. The Minister of Lands and Forests announced that all saw mills including the small portabe affairs in old Ontario would be required to take out the license at a nominal fee of $3 a year. The bill to prevent municipalities form bonusing industries also passed through committee.

Hon. Chas. McCrea Minister of Mines introduced a bill changing slightly the system of awarding compensation to farmers whose crops were damaged by the sulphur fumes from nickle refining plants. The mines will be required to pay into a fund up to $5000 for the payment of the arbitrator who settles the claims of the farmers.

Motor Highways

Another new act will give cities the right to stipulate what streets through motor traffic shall take through their municipalities. Another act proposes to divide Scarborough on the outskirts of Toronto into two townships. First reading was given a bill giving the College of Pharmacy more authority in the matter of disciplining its members guilty of offences against the narcotic drug act and the O.T.A. It also establishes a higher educational standard for druggists.

In taking up the Hydro estimates the Premier announced that Sir Adam Beck proposed to review hydro affairs next week in the House. He also announced further supplemetary estimates coming down today and the main estimates next week.

Enjoy Eating Without Dyspepsia

Eat What You Like, Avoid or Stop Sour Risings, Gassiness and Such Distress—Stuart's Dyspepsia Tablet Make Your Stomach Comfortable.

In the day's battle with all sorts of business complexities, many a man invites trouble by going without food. He wants to avoid distress but merely brings it on. If he will eat his regular meals and help them to digest by using Stuart's Dyspepsia Tablets he will work better, eat better, sleep better and feel good all the time, if he has been bothered with indigestion. These Tablets give the stomach the alkaline effect to make it sweet, stop acid risings and gassiness, digest meats and prepare the food for nourishment. It is a valuable aid to those who work hard and need the vital elements of good food. Get a 60-cent box of Stuart's Dyspepsia Tablets at any druggist and fortify yourself in the battles of the business world.

Slayer of Wife and Son Killed in Duel.

CASPER, Wyo., March 18. — Fred Vand Gordon, aged 42, a real estate agent of this city, was shot to death in a duel with Sheriff Albert Payton of Converse county, at Douglas, Wyo., on Sunday, when the officer entered a hotel where Van Gordon had taken a room, to arrest him on a charge of slaying his wife and a 12-year old son, Arthur.

The bodies of Mrs. Pearl Van Gordon, the wife (a prominent society woman), and the son were found floating in Dump Bridge Creek, two miles east of Casper, at noon, on Sunday. The lad had been shot twice.

Van Gordon had become involved in financial difficulties, and according to his friends, was being threatened with arrest by his creditors on a charge of forgery and embezzlement.

SOCIAL HYGIENE COUNCIL

Miss Estelle Hewson, Ontario Secretary of the Social Hygiene Council, visiting the city this week in connection with the Social Hygiene exhibit, is quite enthusiastic over the reception accorded the exhibit in Peterborough. Fifty new members have been added to the local membership, a great deal of interest is being manifested in the posters and models and slides on view, and large representative gatherings have been present at every lecture so far. A response to their efforts to enlist public opinion in a widespread campaign against the spread of venereal disease is an encouragement to the efforts of the Council, which has for its special aim the enlightenment of the minds of the growing generation as to the evils and penalties of social disease. The mainspring of the idea in the background of the Council's fight is the conviction that if a realization of the terrible penalties that follow in the wake of sins of this nature can be awakened in the minds of the youth of the nation, if their impressionable young minds can be impregnated with sufficient distaste for indulgence that brings as a logical punishment the trail of loathsome disease, not only for themselves, but for their possible offspring of many generations to come, that such a knowledge will work with deterrent effect on the evil impulses of human nature. Possibly the slogan of the Council, working out through its creed as enunciated by Miss Hewson, might be the old one, "Knowledge is Power," and the saying, "The truth shall make us free," might be considered also as part of the programme of a campaign that aims to tear the veil of secrecy from around an ancient canker. "People have started to find out that it pays to call a spade by its proper name," said Miss Hewson. "Don't you think that many young people would hesitate about rushing into such evils if they could see the consequences of terrible disease and blindness and death that result from them? There are many death certificates that fail to bear the true description of their owner's disease, and plenty of cases of so-called 'appendicitis' among women that call for operations necessitated by other causes. I have seen examples of veneral disease transmitted from a father to an innocent child that left his offspring blinded from birth, with no hope of recovery."

Although the main efforts of the Council centre about the growing youth, and results cannot yet be measured with any degree of accuracy, still, within the last three years, Miss Hewson declares, beneficial effects have been noted. In one large establishment in Toronto, the girls are bringing with them individual hand towels, instead of using the former towel common to all, and, in connection with venereal disease clinics, it is noted that, after study of the literature afforded them, the patients are anxious to continue their treatments and to strive harder than ever to free themselves of disease. In Toronto, at a recent exhibit, where representatives of many classes and creeds gathered, several Chinese missionaries took away literature to be translated into their own language for use in their own country.

Miss Hewson, whose experience as a V.A.D. worker, and executive service for many years in Windsor in the efforts of the Red Cross Society and I.O.D.E. for social betterment of various sorts, has been added to by assistance in giving treatments to actual sufferers from social disease, has been active for the past two years in the work of the Council in the Province. She formed a member of the trio, with Mrs. Pankhurst at its head, that toured Northern Ontario last summer, going along as secretary and chauffeur, on a trip that covered six thousand miles, and included the giving of thirty-seven lectures within five weeks. The reception of the party throughout the North was wonderful, declared Miss Hewson, who thought that the quiet lives of the people in that district and the absence of anything of much interest in their lives led them to welcome the travellers. Interest inspired by curiosity may possibly have something to do with the first visits of many to the exhibit, Miss Hewson thinks, but she is firmly convinced that most people become easily seized of the importance of the campaign being conducted by the Council.

To Dr. Gordon Bates belongs, in Miss Hewson's opinion, much of the credit for the success of the campaign of the Council, and much credit is due also to the enthusiasm of Mrs. Pankhurst in the cause. Mrs. Pankhurst, with her pleasant voice, her outstanding eloquence, and "her habit of never seeming to get tired and therefore never tiring her hearers," was referred to, while the four foster children whom she has adopted from various sections of the British Isles, and is having educated in the way that she considers best, by a private governess, rather than in schools, at her home in Toronto. Mrs. Pankhurst is popular with those who gather as much to see her as to hear what she has to say, but it took her some time, it seems, to become accustomed to the spirit of Canada that "has to be shown" before it will believe. The attitude of the British public, ready, it appears, to rally to the leader who could flourish a banner and speak in eloquent periods, is not duplicated, it appears, on this side of the water, not, at least, among conservative-minded Canadians.

Get Two Trial Boxes

PAZO OINTMENT is a Guaranteed Remedy for all forms of Piles.

Pay your druggist $1.20 for two boxes of PAZO OINTMENT. When you have used the two boxes, if you are not satisfied with the results obtained, we will send $1.20 to your druggist and request him to hand it to you.

We prefer to handle this through the druggist because his customers are usually his friends and will be honest with him.

ENO'S FRUIT SALT

VOICE OF PEOPLE

Lakefield, 17th March, 1924.
Editor of The Examiner.

Sir,—In case some of your readers should have overlooked it, kindly publish again Mr. J. H. Burnham's recipe for booze, as it appeared in your paper of this date.—Yours,

J. F. Lilliecrap.

Recipe.

Take a quart sealer of black currants, empty it into a large stone demijohn, fill that up with water, and by putting it corked into a warm room and shaking it daily for ten days and then let it settle, you have a highly alconolic wine.—Eureka.

Editor of Examiner,

Sir,—In your comment on Mr. Speakman's speech in the House of Commons in Friday's Examiner, in which he said "that if a farmer was bonused from 20 to 40 years and could not make farming pay it was time he quit the farm," you state that no industry has received so much assistance from Federal and Provincial Governments as has agriculture. On reading this anyone might think that this assistance was in the nature of a direct bonus to farmers.

How is this money spent? A good share is paid in salaries to officials of the various departments of agriculture, Dominion and Provincial, all over Canada, to instructors in agricultural colleges and schools, to managers and helpers in a score or more of experimental farms and stations and in paying the upkeep of these institutions. Every year hundreds of thousands of dollars are paid to fairs and exhibitions, such as the Canadian National, Royal Winter Fair, Guelph Winter Fair, London and Ottawa Exhibitions and a few hundred county and township fairs. Breeders' associations, fruit growers', poultry, horticultural and plowmen's organizations are all helped. These aim to show the farmer how to produce larger crops and improve his herds and flocks. There is no comparison between this and the bonuses and tariff concessions granted to other industries.

Granting that millions have been spent on agriculture, the farmers, who are from 40 to 50 per cent. of the population, have paid a large share in Federal and Provincial taxes toward these grants. I heard the late Dr. C. C. James, who was Deputy-Minister of Agriculture in Ontario for many years, says, at a banquet in Peterborough, that every dollar that the Government spends to assist agriculture adds two dollars to the wealth of the country. I wonder if every dollar the taxpayer pays in extra prices, owing to protective tariffs and to bonus industries, grant free sites and tax exemptions, adds as much.

The work of men like Dr. Saunders of Ottawa in producing Marquis wheat, and Dr. C. A. Zavitz and his assistants of Guelph in improving varieties of barley, oats, wheat, etc., has added more to the wealth of Canada than all the grants to agriculture since Confederation. The sum total of all grants would be a small item in comparison to assistance given to powerful railroad corporations or to slices of our natural resources given for a mere song to friends of various Governments in the past.

Thanking you, Mr. Editor.
C. S. BROWN,
R. R. No. 9,
Peterborough.

SNAKE HAD RING.

LONDON, March 19. — A quaint ring, discovered in the mouth of one of the stone snakes in the statuary of the fountain of Hotel Savoy, has been restored to its owner after an interval of seven years. At a dance in 1917, a friend of the owner placed the ring in the snake's mouth and the two were unable to retrieve it.

AIR ROUTE SAFEST.

PARIS, March 19. — The airplane is the safest transport. This is the of many on both sides of the English Channel and is backed up by insurance companies whose rates by air are only half the railway and the boat costs.

CANADA SEEKS SETTLERS.

VICTORIA, B. C., March 19.—A campaign to induce immigrants from Great Britain to settle on the rich agricultural lands in British Columbia is being launched by the Provincial Government here. Land will be sold to settlers for about $3 an acre.

Your Health

By DR. CLIFFORD C. ROBINSON

SPRING MEDICINE.

It is said the greatest American pastime is running to catch a train; and the most futile indoor pastime is taking tonics and spring medicine for the purpose of building up the blood.

Just why this special campaign for dosing the system with so-called blood purifiers should occur in the spring, has never been clearly explained. It may be that some more iron is needed in the blood in spring, as many people are apt to use an ill-balanced diet for a large part of the winter. The vegetables and fruits, which are the most important sources of iron in our foodstuffs, are often neglected to a most alarming extent, and, of course, the bodily health suffers.

Neglect to continue the use of green vegetables and fresh, juicy fruits, with their life-givng iron and salty compounds, causes a certain sluggishness in the blood formation. Spring medicine is not the remedy.

The appetite must be wooed and won into natural and wholesome paths by proper, nourishing food that will give more iron and renewed "pep' than pine buds, wintergreen, and boneset taken as a "blood tonic."

There is no question whatever of the superiority of natural foods over any kind of spring medicine or iron compounds, in furnishing elements for body building and repair. The proper vitamines will be found in fresh milk, eggs, fruit, and vegetables. Don't neglect the vegetable oil on your salads. They furnish a most life-giving element.

Eat green stuff to get back your normal iron supply. The amount of iron for reserve, that is found in varying amounts in the liver, spleen and bone marrow must also be renewed and maintained for a healthy, normal body in spring time.

ADVENTURES OF THE TWINS

By Olive Roberts Earton

"Yes, siree!" said the Scarecrow of Benstalk Land, shaking his wobbly straw head. "There is a treasure buried right there where that mound is, as sure as you're alive. I heard the thieves quite plainly even if it was too dark to see their faces. And by daylight they were gone. I've been dying of curiosity ever since.'

"Come on, Nancy, let's dig down and find out,' cried Nick. "Maybe it's the rest of the treasure that Jack's giant hid.

So the two children set to work with a will, but they had no shovels and soon got very tired.

Suddenly they heard a grunting noise and along came one of the Beanstalk pigs, his wet nose close to the ground, sniffing and snuffing like everything.

When he saw the Twins he blinked his queer little eyes. "Hello," he squealed. "Who in creation are you? I thought I knew all the wood creatures by sight."

"We're not wood creatures. We came up from the earth on a beanstalk!" Nick told him. "We're Twins!"

"Twins! Well, I declare!" laughed the Beanstalk pig. "You're queer fruit to grow on a beanstalk! But, say! If you came from the earth, did you see any truffles? I like truffles awfully, but they are hard to get as they grow away down under the ground like potatoes. The only way I can find them is to root with my nose."

"Oh, dear," cried Nancy as an idea struck her. "Can you really dig with your nose?"

"Can't I just!" remarked the pig with pride. "It is my chief accomplishment. I'll show you how, if you like."

"Please do," begged Nancy. "And if you don't mind will you dig here wheer this pile of dirt is?"

"Certainly," said the pig obligingly, and set to work with a will.

Piggy worked so fast that soon he disappeared altogether.

All at once he stuck out his head and said. "There's something hard here. I can't go down any further. Besides there is an iron ring in it, and I can't bear the sight of a ring. They always make me nervous, for I had one in my nose once."

"We're very much obliged anyway," said Nick. "You've done us quite a favor."

"You're welcome!" said the pig. "But I guess I'll be going. My mouth is watering more than ever for a truffle. Goodby."

When he had gone, the Scarecrow said in a weak voice. "Oh, do hurry and open the box, children, for that must be what it is. I'm getting weak with excitement."

But the Twins couldn't budge the heavy lid any more than you could lift the roof off the schoolhouse.

"Go to the palace!" said the Scarecrow, "and bring the king and queen. Most likely it is theirs anyway. Who else would have such a fortune?"

So off to the palace of Beanstalk Land trudged the Twins.

There stood the bald-headed gatekeeper and the 20 stiff servants just as they had left them. And all the lords and ladies, too. And there sat the king and queen and the court cat and everybody just as though nothing had happened.

(To Be Continued)

BOX COUCH.

When storage space is lacking, a box couch is a very valuable acquisition.

GERMAN PAPER PROPOSES KEEP SPECIFIC AT HOME

BERLIN, March 19. — (United Press.)— A proposal that Germany should keep from France a newly discovered specific against sleeping sickness was voiced by the Deutsche Zeitung to-day. The cure is known as "Germanin."

Herr Escherics, founder of the original Bavarian Fascist organizatoins, advocated keeping the specific from all nations until Germany's colonies, lost in the world war, should be returned to her.

The Deutsche Zeitung makes its specific suggestion about the French however, on the ground that France would thus be prevented from recruiting any more colored colonial troops, to which the Germans particularly object.

GRATED CHEESE.

If you serve grated cheese with your soup the nutritive value will be much greater.

CANADIAN TYPEWRITING CHAMPIONSHIP CONTEST

One Section of Dominion-Wide Speed Trials to Take Place in Peterboro

The Canadian Typewriting Championship Contest, to be held on Saturday, March 29th, has a special interest for the speed artists in this district. Peterboro has been selected as one of the centres at which the contest will take place, doing away with the necessity of making a trip to Toronto, in order to compete. The contest will be held in the Peterboro business college at 8 p.m., on Saturday, March 29th, simultaneously with the similar contests being held at other points. Results from all outside contests will be forwarded to the Central Committee at Toronto for final awards. The contest is open to all typists, whether students of the Business College or Collegiate, or graduates engaged in actual office work, and it is expected that a large number of Peterboro's speedy typists will take advantage of the opportunity to compete, so advantageously afforded them.

A number of prominent citizens are expected to be present at the trials, and the public are also invited to attend what promises to be most interesting event.

DYNAMITE SMUGGLING GAINS IN SOUTHERN PHILIPPINES.

MANILA, March 19.—(Associated Press).— Smuggling of dynamite from British North Borneo into the Sulu archipelago is increasing despite the efforts of the Philippines customs authorities. The dynamite is chiefly used by the Moros to kill fish in the waters of the southern islands, although the practice has been prohibited by law for many years.

The Moros, who are familiar with all the small coves and harbors, are able to evade the customs authorities who have only a limited patrol service in that region. In their fast vintas (native sailboats) the Moros are able to load their cargoes of dynamite, and frequently a shipment of opium, on the Borneo coast and under cover of darkness slip across to one of the small islands in the Sulu group, only a few miles away.

Only in rare instances are these smugglers caught, customs officials say.

ATTEMPT SUICIDE DUE TO DOMESTIC TROUBLE

HAMILTON, March 19. — Canadian Press. — Domestic unhappiness is alleged to have prompted the action of Mrs. Gladys Bradley, aged 26, formerly of this city, and latterly of Jarvis street, Toronto, who was found in a Hamilton cemetery yesterday afternoon, having swallowed a quantity of essence of camphor. She will likely recover.

Mrs. Bradley was removed to the general hospital, where she refused to tell her name She was subsequently recognized by nurses, who remembered her as having been treated in an institution about one year ago.

The woman was reluctant to discuss her personal affairs, other than to state that her husband is living in San Francisco. She admitted, it is said, being unhappy as a result fo domestic matters.

AMERICANS DISAPPOINT GERMANS IN BERLIN'S SIX-DAY BICYCLE RACE

BERLIN, March 19.—(Associated Press).—The performance of five American riders who participated in a six-day bicycle race here recently was a disappointment generally to the Berlin sport writers who agreed that the Americans by no means made the showing that was expected of them.

Fred Taylor, of Newark, N.J., and Harry Kaiser, of The Bronx, N.Y., finished fourth in the race, while Percy Lawrence and Willie Hanley, both of San Francisco, were sixth. Hans Orth, also of San Francisco, paired with a German rider, was not among the prize-winners. The race was won by a German team which far out-distanced all competitors.

LITERATURE STUDY CLUB

The Art and Literature Study Club in connection with the Women's Art Association, held a meeting last evening at the home of Mrs. C. B. Adair, Homewood avenue, with an attendance of twenty-four ladies. The French school of art was the subject under discussion last evening, and interesting papers on Watteau and Fragonard were given by Mrs. L. J. Pettit and Mrs. V. Foster. The period prior to the French Revolution was taken, as being the time when French art achieved its most original and highest quality.

Mrs. Pettit's paper was preceded by a reference to the genre school of art, of which Watteau was a brilliant exponent. A brief outline of the painter's life was given. Born in Valenciennes, he went to Paris in early youth, dying at the age of thirty-seven, from tuberculosis. He was a pupil of Claude Audran at the Conservatoire in the Luxembourg Palace, and it was during his seven years spent at the studio of his teacher that he observed from the windows those scenes in the Palace gardens which were the inspiration of much of his later work. The court life of that time has been reproduced in the gay, dainty and frivolous pictures of Watteau. Within the Palace gates, the spirit of luxury and irresponsibility existed, regardless of the seething forces of the revolution, gathering without, and it is this atmosphere which lives in the master's art.

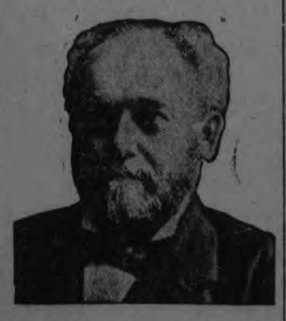
Watteau was anxious to obtain the coveted Prix de Rome, but failed at his first attempt, winning only the second prize, which was not sufficiently large to defray the expenses of the study in Italy that he craved. Several of his earlier pictures, hanging in the Academy, attracted the attention of a former celebrity, Monsieu de la Fosse, who sought out the then unknown artist and advised him that Rome could do nothing for him. It was with the help of this man that Watteau finally became a member of the Academy, his inclusion being exceptionable on account of his lack of the influential friends and money which were usually necessary for admission.

The pictures of Watteau have a touch of unreality that was commented on. This is due largely to the fact that while of a serious mind himself he observed and painted people who were essentially frivolous. Behind the frothy surface, he saw the dangers of revolution and death. An attribute to the painter's art was the fine proportions given his figures, which are always made to assume their proper place in their surroundings.

The work of Fragonard, a contemporary of Watteau who flourished also in the pre-revolution days, and whose work has just lately come into considerable prominence, was described by Mrs. V. Foster. An outline of the painter's life was given, and his work was contrasted with that of Boucher and Chardin. He went to Italy for a course of study, remembering the advice of his master to refrain from taking Raphael too seriously. The lighter school of art exemplified in the work of French painters had a strong exponent in Fragonard, whose art was influenced by the frivolous spirit of the times in which he lived. Some of his best work is in the five panels depicting "The Romance of Youth," now in the possession of Mr. Frick of New York, who has reproduced as a setting for the paintings a room as nearly identical as possible with the one for which they were designed. "The Swing" and "The Face of a Child" are also well-known examples of Fragonard's art, and "The Bathers" is a notable instance of his handling of the nude in art. Fragonard brought out the beauty, rather than the sensuousness, of his figures, his work contrasting favorably with the heavy handling of this type of subject by other masters.

The next meeting of the club will take place in a fortnight's time at the home of Mrs. J. John, 362 Simcoe street. The Spanish school of art will be considered, and special reference to the work of Velasquez and Murillo.

CHARACTER TELLS THE STORY!



People throughout this county are giving more thought to hygiene and to the purity of remedies on the market, but no one doubts the purity of Doctor Pierce's vegetable medicines, for they have been so favourably known for over fifty years that everyone knows they are just what they are claimed to be. These medicines are the result of long research by a well-known physician, R. V. Pierce, M.D., who compounded them from health-giving herbs and roots long used in sickness by the Indians. Dr. Pierce's reputation as a leading and honored citizen of Buffalo, is a sufficient guarantee for the purity of that splendid tonic and blood purifier, the Golden Medical Discovery, and the equally fine nerve tonic and system builder for women's ailments, Dr. Pierce's Favorite Prescription. Send 10c for trial package tablets to Dr. Pierce's Labratory in Bridgeburg, Ontario.

REMOVING STAINS.

Remove fruit stains by soaking them half an hour in cold water, then pour boiling water through them and dry immediately.

Report of Squires Enquiry Complete.

ST. JOHN'S, N.F., March 19 (Canadian Press). — Thomas Hollis Walker, Recorder of Derby, England, who last week here completed an investigation int,, the charges arising out of the fall of the Squires Government in Newfoundland last year, sailed for England yesterday.

He was named as Royal Commissioner for this inquiry by the British Colonial Office at the request of the Newfoundland Government.

The report of Commissioner Walker is believed to be in the hands of Governor Allardyce, and will be made public by the Government.

Boston Dressmakers Wanted 40-Hour Week.

BOSTON, March 19 (Canadian Press). — A partial settlement of a strike of nearly 2,000 dress and waist makers which began five weeks ago, was arranged here when the strikers votd to accept a compromise proposal made by Mayor Curley.

The strike was called to force a demand for a five-day 40-hour week. The employers wished to maintain the existing 44-hour week.

The compromise offered by the Mayor and accepted by the union was a 42-hour week.

ASPIRIN

Beware of Imitations!

Demand

Unless you see the "Bayer Cross on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

Colds	Headache
Toothache	Lumbago
Earache	Rheumatism
Neuralgia	Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Good News For Every Car-Owner

A New Way To Buy Batteries

Up until recently you have been paying high prices for batteries. There was a sharp reduction in battery prices last fall, led by Exide.

Up until now, getting the battery you want has often been a matter of much inconvenience. Now, Exide is able to announce another step forward.

When you have wanted a particular make of battery, as most car owners do, you have had to hunt out the service station that sold that one make of battery. It has been a fixed rule of the trade that each battery service station sell only one make of battery.

This practice has meant not only inconvenience to you but has been the principal cause of high battery prices.

If the service station can sell but one make of battery, its sales are limited. Limited sales require larger profit per sale if the dealer is to make a reasonable income. This extra expense comes out of your pocket without giving you any additional value.

Therefore, now, Exide has decided to break through the convention of years regarding exclusive service stations.

We have announced to the trade our readiness to sell Exide Batteries to any and all reputable battery dealers.

Go to any service station or dealer in batteries and ask for an Exide for your car. We have done our part to enable him to furnish it to you at a profit to himself. The same holds true of an Exide for your Radio set.

Who Pays for "Free Service?"

Another reform in which Exide is taking the leadership is in doing away with "free service."

You do not get something for nothing in this world; not for long, anyway. For years it has been the practice for service stations to test batteries free, to supply them with distilled water free and to render other kinds of service at less than cost.

Somebody has been paying for this. You have been paying for your own service in advance, in the original price you paid for your battery. You have also been paying for service which was extended free to all makes of batteries, even to those orphan batteries that have no service stations of their own. All this has gone on the price of YOUR Battery.

We believe that such practices are relics of a moss-covered past, unjust to the car owner and unfair to the service station.

Pay for What You Get

We have recommended to all service stations that they charge a reasonable fee for service. Not only is it fair play to the service station, but it is for your own interest in keeping down the purchase price of batteries. If you find a battery man reluctant to make a charge for servicing your battery (perhaps he has done it free for years) we hope you will insist on his taking a reasonable fee.

When you buy an Exide Battery today you are paying for nothing but the battery. The price is lower than ever before—the quality unchanged.

When you do not need any service, why pay for it hidden in the first price? When you do need service, pay for it at the time. Isn't that reasonable?

So, our policy, which we believe will appeal to all forward looking men and which, we hope, will be followed by other battery manufacturers, is: "Let the battery user get the battery he wants—at a reasonable price—where he prefers to deal, and pay the dealer for service when he gets it."

This advertisement is intended to help bring about Better Business Methods in the Battery Industry of Canada, which we believe will benefit all battery users, dealers and manufacturers alike.

THE LONG-LIFE BATTERY FOR YOUR CAR

BASKET SOCIAL AT MILLBROOK

Mrs. G. W. Sayles Won Prize For Best Decorated Basket at Social In the Methodist Church Basement—Receipts $50.

MILLBROOK, March 18—The first basket social ever held in connection with the Methodist church, Millbrook, was carried through to a most successful conclusion on the evening of St. Patrick's Day, under the joint auspices of the C.S.E.T. and C.G.I.T. organizations.

The basement was appropriately decorated with green and white streamers, shamrocks, and lengths of art paper depicting Irish lads and lassies gayly dancing in light-hearted mirth. Green shades on the lights gave a pretty effect, and most of th young people wore a shamrock pinned on coat lapel, or dress, the girls of the C.G.I.T. group wearing white bands on their hair with three of the dainty green emblems across the forehead.

Nearly forty beautifully trimmed baskets, of many shapes and designs were brought in, two large tables near the platform being reserved for displaying their attractiveness. A prize had been offered for the finest basket, the points to be taken into consideration in judging being; originality of design, daintiness and beauty of trimming, and appropriateness to the occasion—St. Patrick's Day. The judges were Mrs. W. W. Gillott, Miss Ethel Richardson and Miss A. Hampton, and they found their task a most difficult one. The award was finally given to Mrs. G. W. Sayles' basket which was green covered with a golden Irish harp, flanked by two tiny pots of green shamrock, standing upright on the lid.

Mr. G. W. Sayles made a most efficient auctioneer for the baskets at the conclusion of the programme, the prize one bringing the highest bid, three dollars and five cents. The lowest was thirty-five cents and the baskets averaged nearly on dollar each.

Rev. S. T. Tucker acted as chairman and the following programme was well received calling forth many demands for encores from the audience which practically filled the basement:

Opening Hymn, "Just as I am, young, strong and free." This hymn is a part of the ritual of the C.S.E.T. and C.G.I.T.. groups.

Invocation.

Chairman's remarks.

Chorus, "Pretty Kitty Kelly," by the Wide Awakes C.G.I.T. group.

"A message," by Mary Burnham Bryar Edmunds and Leon Raper.

"Clock Song," by Lawrence Row land (singer concealed in a big clock.)

Cornet duet, by Mr. G. E. and Ernest Burnham.

Recitation, "Pat's Reason," by Elsie Spence.

Piano duet by Miss Ethel Richard son and Gladys Tucker.

Duet, "I love the Girls," by Keith Barnard and Lawrence Rowland.

Piano solo by Miss Estelle Hetherington.

Duet with cornet and saxaphone by Ernest Burnham and H. Janes.

Reading, 'Selling the baby," by Jean Burnham.

Solo, "Love the Pedlar," by Miss Ethel Richardson.

Trio, cornets and saxaphone, G. E. Burnham, H. Janes and Ernest Burnham.

Auctioning of baskets by Mr. G. W. Sayles.

Presentation of prize, box of home made candy, to owner of prettiest basket, Mrs. G. W. Sayles.

Refreshments, and closing with National Anthem.

The bonspiel with carpet balls, for which the boys had challenged the girls, and the contest which had been arranged for, had to be postponed owing to the lateness of the hour. The receipts were in the neighborhood of $50,00.

Misses E. Richardson, S. Hetherington and G. Tucker were the efficient accompanists for the evening.

JAPANESE SUBMARINE SANK WITH ALL CREW

LONDON, March 19.— (United Press.) — Four officers and forty men have gone down in a Japanese submarine, which collided with a warship off the Port of Sasebo, on the west coast of the Island of Kiushu, 30 miles north of Nagasaki, according to a despatch here to-day. The submarine sank in 26 fanthoms of water.

Rescue workers are doing their utmost to reach the underseas craft in the hope taht the crew still may be alive.

Be Careful What You Wash Your Hair With

When you wash your hair, be careful what you use. Do not use prepared shampoos or anything else that contains too much free alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified cocoanut oil shampoo, for this is pure and entirely greaseless. It is inexpensive and beats anything else all to pieces.

Simply moisten your hair with water and rub it in. Two or three teaspoonfuls of Mulsified will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy, wavy, and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store, and a few ounces will last everyone in the family for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

REDUCTION IN FREIGHT RATES

Class Rates Effected Between Maritime Provinces.

MONTREAL, March 19.—(Canadian Press).—The announcement is made by the Canadian Freight Association of a reduction of "class rates" between points in New Brunswick, Nova Scotia, Prince Edward Island and Montreal and west to Windsor, Sault Ste. Marie, Port Arthur and Armstrong.

These reductions will restore, the announcement says, "in some measure the relationship which existed for many years prior to the war."

The announcement made by the Canadian Freight Association reads: "The Canadian railways directly interested in the movement of freight traffic between the Maritime Provinces and Ontario and Quebec have been engaged for some months past in making an analysis of a survey of the situation, with the result that, effective April 14th, certain reductions will be made in class rates between points in New Brunswick, Nova Scotia and Prince Edward Island and Montreal and west to Windsor, Sault Ste. Marie and Armstrong and Port Arthur.

"These reductions will restore, in some measure,the relationship which existed for many years prior to the war and prior to the changes authorized from time to time by various orders of the Governor in Council and of the Board of Railway Commissioners for Canada."

BRITISH COMPANY ISSUED STATEMENT

British Warships Not Supplied With Oil by E. L. Doheny.

LONDON, March 19. — (United Press).—The British Mexican Petroleum Company to-day issued a statement denying the testimony of Henry Woodhouse before the Senate Oil Committee in Washington.

British warships were not supplied with oil from any of E. L. Doheny's storage tanks, the statement said, and the British Government was not connected with any old contracts between British and American companies.

The statement explained that the British company shared privately with Doheny the output of certain wells until last November, but since that time any oil that has been bought has been in accordance with the usual commercial routine.

The British Government did not furnish any money to Doheny's company.

FRANK P. JONES

(Financial Post.)

Whenever a large-sized job crops up in Canada and a really big organizer and executive is required to fill it, it seems to be the general habit to ask Frank P. Jones to give a change of venue to his time c..d. That happened when Max Aitken formed the Canada Cemnt Company. He picked Jones as the one man big enough to run the organization and Jones accepted the post. Ever since then people have been picking Jones for big jobs. He was sent for by Ottawa during the war to run the war trade board; he was taken along to the peace conference as Sir Robert Bordn's Col. House; he was asked to take over the job of running the Canadian Government railways; he was asked to drag the Riordon companies from their finacial quagmires; he was mentioned as the one man who could reorganize and run the British Empire Steel Corporation.

Such a man must indeep be an executive of broad calibre. Frank P. Jones is every inch of that. The story of his rise proves the opportunities for success in Canada.

Stoked a Boiler at 18.

Frank Jones started at the very bottom of the lader. He started there from choice. He came from an excellent family in Brockville, and had a good education, for he attended the Royal Military College. He was 18 when he left school and went to work. With his education and his family's friendships he could have started off in any one of a number of easy jobs. But he chose deliberately to start at the bottom of the ladder, and so he began his business career firing a boiler in Gananoque.

After a few years in Gananoque, Frank Jones stepped into the line of work for which he has had a real flare all his life—selling. He sold insurance for the Canada Life Insurance, but only for a few months, for he got as far as Peterboro and thche changed his affiliation to the Canadian General Electric Company. He was recognized as a good salesman, and the C. G. E. wanted him.

Again Goes into the Shops.

Frank Jones' first move was to astonish his new employers by asking for a job in the shops.

"But we want you as a salesman," they told him.

Jones insisted on donning a pair of overalls and getting to work in the factory. 'How can I sell your equipment if I don't know how it's made, and if I don't know anything about electricity?" he demanded. One year he put in on hard work, rather dirty work, but when he was through he knew the goods he was selling.

He knew them well and he sold them well. His fame as a salesman spread, and through the medium of one of the salesmen of the Nova Scotia Steel and Forge Company, reached the ears of Graham Fraser in New Glasgow, N.S. Fraser had founded the steel industry in Nova Scotia with his little forge. And when his salesman died, Jones was asked by Fraser to take over the work. On the first of January, 1894, Jones became a steelman. He was a steelman for sixteen years to the day when he became head of the Canada Cement Comany.

Yes, It's Pretty Big World!

These two little polar bear cubs are getting their first look at the great wide world. They don't know exactly how to dope it all out. Born last December, their mother has just brought them out of their den. The one between mama's paws seems to be more bashful than his brother.

SISTER MARY'S KITCHEN

By SISTER MARY

LUNCHEON DISHES

These are the days when hearty luncheon dishes with a good "hot" peppery taste are most relished.

The platter of thinly sliced meat, cool salad and water-like bread and butter that is so quickly and easily prepared for the hot weather luncheon is not for January days.

No busy housekeeper like to spend much time over the preparation of the noon meal if a dinner is to be prepared for the evening. She feels as if she is tied to sink and cook stove if two hot cooked meals must be prepared and served.

These luncheon dishes are quickly and easily prepared. Tomato soup aids in their preparation and at the same time uses to advantage this delectable bit of left-over that might otherwise go "begging."

Tomato Cheese

Two cups chopped cheese, 1 cup milk, 1 cup tomato soup, 8 triangles toast.

Put about one teaspoon of butter in a smooth sauce pan, add cheese and melt, stirring constantly. Slowly add milk, stirring until well blended. Stir in soup and cook, stirring constantly until thick and smooth. Season with salt and pepper and add one-half teaspoon Worchestershire sauce if liked. Pour over hot toast and serve.

Tomato Macaroni

One cup broken macaroni, 1 cup tomato soup, ½ cup chopped cheese, salt and pepper, tiny pinch of mustard.

Cook macaroni in boiling salted water for 20 minutes. Drain and blanch under cold water. Drain and put in a buttered baking dish. Pour over tomato soup, cover with finely chopped cheese and bake in a hot oven until the cheese is melted and slightly browned. It will take about 15 minutes.

Rice With Sausage Sauce

Two cups hot steamed rice, 1 cup tomato soup, 1 cup milk, 1 cup chopped cooked sausage, 4 tablespoons grated cheese, 1 tablespoon flour.

Drop rice by spoonfuls onto a large, hot platter. Heat soup and milk. Stir in flour mixed to a smooth paste with a little cold milk. Add sausage and cook until thick. Pour over molds of rice, sprinkle with grated cheese and garnish with sprigs of parsley.

The use of tomato soup makes it unnecessary to add soda to the mixture before adding the milk. If canned, strain tomatoes are used soda must be added to prevent curdling of milk.

The use of soup in these recipes also adds a piquancy to the dish, the seasoning of the soup itself lending much to flavoring of the whole.

Scalloped corn with tomato soup used two bits of left-overs palatably.

Scalloped Corn With Tomato Soup

One cup canned corn, 1 cup tomato soup, 1 cup cracker crumbs, 2 tablespoons butter, ½ teaspoon salt, ½ teaspoon celery salt, ¼ teaspoon onion pepper, 1 canned pimento (if at hand).

Put a layer of crumbs in a buttered baking dish. Add corn and soup mixed and seasoned and a few shreds of pimento. Add another layer of crumbs and continue layer for layer of crumbs and vegetables until all is used. Dot with bits of butter and bake in a quick oven for 25 minutes.

A SUBMARINE LOST.

SAZBO, Japan, March 19 (Canadian Press). — Submarine No. 43, of the Japanese Navy, collided to-day with the warship Tatsuta, ten miles outside of Sazbo Harbour, and sank in 26 fathoms of water.

Four officers and forty men were aboard.

There is little hope that there will be any survivors.

Sazbo is a naval port on the Island of Kyushu, just north of the Island of Hondou.

THE QUALITY OF BULK TEA

The quality of bulk tea is always unreliable for several reasons. In the first place, being unlabelled its origin is unknown, and there is no one who has any particular responsibility for its goodness. In the second place, it is exposed to the air, and, therefore, very quickly loses its flavor and freshness. Even if it were as good as "SALADA" in the first place, it would rapidly deteriorate and in any case it would be impossible for any dealer to follow consistently the same quality through out the year. "SALADA" always maintains an unvarying high standard possible through skilful blending.

NATIVE THRIFT WAS UNDOING OF McTAVISH

CHICAGO, March 19 (Canadian Press). — It was the native thrift of Andy McTavish that led to his undoing.

Mr. McTavish, who is a Scotsman, had robbed a telephone box. His loot consisted of pickles and slugs, with a heavy proportion of slugs.

Unfortunately, Mr. McTavish encountered a druggist in whose store the telephone booth was located, accompanied by two detectives, and a lively race ensued.

McTavish, closely pressed by an increasing throng of pursuers, began to jettison his cargo by dropping a nickel at a time.

The crowd would stop to salvage the nickel, thus giving McTavish a slight lead.

The ruse was successful, and in half a dozen blocks fifteen groups were butting one another about, gleaning nickels.

Then McTavish made his fatal error. In his excitement he dropped a silver dollar.

This was quite too much for Scottish thrift, and he had knocked down three men in the battle to recover the dollar when the police swarmed over him.

MOUNT PLEASANT WOMEN'S CONCERT

Funds Received By the Women's Institute Will Be Used For Local Improvements.

OMEMEE, March 18. — Mount Pleasant, Cavan Township, on March the 14th saw an interesting programme presented in the Temperance Hall, under the auspices of the Women's Institute. The proceeds amounting to $20 are to be devoted to local improvements for the village. This little society has many local improvements to its credit, for example, the cement walks.

The first on the programme was the auctioning of goods donated by members, Mr. William Howden being the capable auctioneer. Mr. Chester Best delighted the audience with a solo and encore, Mr. Hubert Lowes also gave a solo, and Mr. W. Howden a reading, while the Rev. J. A. Black gave an interesting address on "Gardening." The best of all was a debate which was decided in favor of the affirmative, the subject being, "Resolved that Single Blessedness is Better than Married Bliss." Mrs. N. Fee and W. H. Lowes supported and affirmative, while Mrs. James Fee and Mrs. Thomas Graham upheld the negative.

An enjoyable evening was concluded with God Save the King.

A PRESENTATION TO MR. AND MRS. TUCKER

Will Reside at Gore's Landing in Future—The Address.

COBOURG, March 10. — At Fenella recently the friends and neighbors of Mr. and Mrs. Milford Tucker gathered at their home for a farewell evening on the eve of their departure for their new home at Gore's Landing. They presented them with a library table and gasoline lamp and the following address:

Dear Mr. and Mrs. Tucker: When we asked for the privilege of your house for an evening's pleasure we were not thinking wholly of ourselves. We, your friends, are here to express to you our sorrow at your departure from our midst, which is to take place so soon.

You have both spent your life so far among us, therefore we know your worth, and know what we are losing. But distance does not change true friendship—only tends to make it stronger. So among the many new friends you will make we hope you will not forget the old ones.

You have shown yourseelves to be the best of neighbors in every way, always ready and willing to help, and as a slight token in appreciation of you we ask you to accept this table and lamp.

We hope that you will live long to enjoy them and as you use them every day they will bring you pleasant rememberance of your life here.

We wish you health, happiness and success in your new home.

Signed on behalf of the community, Frank Macklin, Bruce Macklin, Earl Boyle.

Mr. and Mrs. Tucker, both thanked their friends for their kindness towards them. The rest of the evening was spent in games and dancing.

The Crow of Croup A Warning To All Mothers

Croup starts with a dry cough and rattling in the throat; after which the croup crow gives warning of the diseases. The child, after tossing restlessly about, will start up with a flushed face, protuding eyeballs, and a distressing look of terror and anxiety. There is a struggle for breath, and the expectoration of the mucous matter is so difficult to get rid of that the effort appears to threaten strangulation.

On the first sign of the "croupy crow" mothers should administer Dr. Wood's Norway Pine Syrup, and thus give the child prompt and permament relief, and perhaps the life saved by taking this precaution.

Mrs. H. A. Langhorn, Hamilton, Ont., writes:—"My little boy was very bad with the croup and I could not get anything to relieve him until I tried Dr. Wood's Norway Pine Syrup. I cannot praise it too highly for the relief it gave him."

Price 35c. a bottle; the large family size 60c; put up only by the The T. Milburn Co., Limited, Toronto, Ont.

More than $300,000,000 has been realized in sales of British government wool stocks. The Dominions got more than $60,000,000 of this sum.

REMEMBER—

The Genuine Sale of Electrical Supplies and Appliances at

50c on the Dollar will positively end

on the 25th instant. Come Early.

EVERYTHING MUST GO.

ROUND ROBIN SAID TO BE CIRCULATED

Some of the Provincial Members Would Like Indemnity Increased.

TORONTO, March 19.— (Canadian Press.)—It was rumored at the Parliament Buildings yesterday that a round robin was being circulated among members of the Legislature as a preliminary measure to securing from the Government an increase in sessional indemnity. When questioned last night two Toronto members said they had not heard of such a step being taken, although both admitted that there was some talk around the corridors on possibilities of an increase.

One of the members stated that he understood that some of the legislators felt that their allowances should be increased from the existing $1,400 to $2,000 and mentioned that the paper had been circulated stating that members of the Ontario house were paid smaller indemnities than those of any other provincial legislatures, excepting Prince Edward Island. Another stated that he had heard similar talk, but he did not think anything would come of it.

COW LEANED AGAINST THE ANGLICAN CHURCH

TORONTO, March 19 (Canadian Press). — The Bill to incorporate the Village of Windermere was passed yesterday by the Private Bills Committee of the Legislature, and the committee had much fun in the process.

Appearing for the Township of (Watt, opposing the Bill, Gordon Waldron, K.C., said that complains of the area seeking incorporation against the Township seemed to be that William Atkins' cow leaned against the Anglican Church and pushed it from its foundations.

SIX VILLAGES DESTROYED.

TOKIO, March 19 (Canadian Press), — Six villages have been wiped out by the forest fire which has raged since Saturday, about 170 miles from here.

Twenty persons are believed to have perished.

SHILOH STOPS THAT COUGH

Your grand-parents used it. Safe sure and efficient. Small dose means economy and does not upset the stomach. Get Shiloh, at all dealers 30c, 60c and $1.20.

Spring is Here— You Need a Tonic

Canadian Typewriting Championship

Typewriting Contests sanctioned by Canadian Contest Committee, and conducted simultaneously in Toronto, Edmonton, Calgary, Vancouver, Victoria, Brockville, and Peterborough, under control of sub-committees responsible to the Contest Judge. The complete results will include records made in all contests.

Contestants for this District, will compete in

Peterboro Business College

at 8 p.m. on SATURDAY, MARCH 29th

REGULATIONS.

Contestants may write on any make of typewriter equipped with pica type.

All Contestants in the various classes will write at the same time, copying for fifteen minutes from printed non-technical English text. The record made by any Contestant will count in other classifications in which such Contestant may be eligible.

Machines must be in place by 7.30 p.m. on date of Contest.

Contestants must provide their own desks or use the equipment provided by the School.

Entry Forms, properly filled in and accompanied by an entry fee of 50c, must be handed to J. A. McKone, President of Business College, not later than the day preceding the Contest.

All Contests will be governed by the Rules of the Canadian Contest Committee.

CLASSES.

International Championship: Open to all typists. Prizes—Gold, Silver and Bronze Medals.

Canadian Championship: Open to Canadian typists resident in Canada not less than six months prior to the date of the Contest. Winner to retain the Trophy for one year. Silver and Bronze Medals to second and third respectively.

Inter-Provincial Championship: All typists eligible to write in the Canadian Championship are automatically entered in this Contest, but the winner of the Canadian Championship Contest will be debarred from also winning the Inter-Provincial Championship. Prizes—Gold, Silver, and Bronze Medals.

Intermediate Championship: Open to typists who commenced the study of typewriting since August 1st, 1922. Affidavits will be required from the winners. Prizes —Silver Cup, Silver and Bronze Medals.

Novice or School Championship: Open to any typists who commenced the study of typewriting since August 1, 1923. Prizes—Silver Cup, Silver and Bronze Medals.

Accuracy Championship: Open to all typists. The winner will be the typists whose paper contains the least errors, but no paper with a net rate of less than 60 words per minute will be considered. Contestants may erase and correct an error at the time, but corrections must be neatly made. The Judge has the right to disqualify any paper for careless erasing or which shows traces of erased characters, and no paper with more than six erasures will be considered. Prizes — Silver Cup, Silver and Bronze Medals.

One-Minute Championship: Open to all Canadian typists. Prize—Miniature Silver Trophy.

ADDITIONAL PRIZES.

Typewriter Company awards will be given to typists writing at the required standards. The Underwood Diamond Medal will be awarded to any Canadian Typist who equals the present Canadian Record of 113 words per minute.

Further Information may be obtained from J. A. McKONE, Peterborough Business College.

FIRPO DETERMINED TO ABANDON GLOVED GAME

Repeats Announcement That His Bout With Al Reich In April Will Be His Last — Friends Try to Dissuade Him — Dempsey Doubts It.

BUENOS AIRES, March 19. ½ Notwithstanding that scores of Luis Firpo's friends and admirers sought throughout the day to persuade him to change his mind, the South American heavy-weight declared to the Associated Press correspondent last night that he intended to stand fast by his resolution to abandon fighting altogether.

'Hokum" Says Dempsey

SALT LAKE CITY, Utah, March 19.—Jack Dempsey, world's heavyweight champion, does not take much stock in press reports of Luis Angel Firpo's contemplated retirement.

"That's a lot of hokum, I think," he said after seeing the reports.

"It looks like a publicity scheme and perhaps a move toward increasing his demands for future fights in the United States," Dempsey said.

"The shrill cry of the American Eagle is too tempting for any fellow who can 'sock' like the 'Wild Bull of the Pampas," he added.

Bombshell in New York

NEW YORK, March 19.—Luis Angel Firpo's announcement that he would retire from the ring after fighting Al. Reich of United States, at Buenos Aires, next month, came as something of a bombshell yesterday in pugilistic circles, where its effect on the year's fistic program was the chief topic. In some quarters there was skepticism over Firpo's assertion and a belief that sufficient financial inducements would influence the giant Argentine to change his mind.

William McCarney, Firpo's United States representative, who arranged an extended exhibition and fighting tour of the United States and Canada during the summer, late today had received no direct word from Firpo and was holding his program in abeyance until receipt of advice from the South American.

Rejected Rickard's Bid

Tex Rickard, under whose guidance the colorful South American climbed spectacularly in six months from obscurity to a record-breaking title fight with Jack Dempsey, was in Washington and his associates would make no comment. Rickard, it was believed, had obtained Dempsey's consent to a return match with Firpo next September here, but cable reports last night said the Argentine rejected Rickard's latest fight bid, a $500,000 offer for bouts with Harry Wills and Dempsey.

Should Firpo carry out his announced intention, however, Latin color to the fistic program would not be lacking. Erminio Spalla, Italian holder of the European heavy weight title, who was knocked out in 14 rounds by Firpo recently, and Quintin Romero-Rojas promising Chilean heavyweight, have accepted Rickard's offers for a series of matches here. Rojas may make his debut in May at Madison Square Garden against Floyd Johnson of Iowa.

HOCKEY RESULTS

Hockey games, played Tuesday night resulted as follows.

Allan Cup, Eastern Semi-Finals

*Sault Ste. Marie, 8; Hamilton 3.
*Sault Ste Marie wins round 9 to 6

Stanley Cup Semi-Finals

Canadians, 3; Vancouver 2.

U.S.A.H.A.

Cleveland, 1; Pittsburg, 0.

ZBYSZKO WILL DESERT MAT FOR GRAND OPERA

NEW YORK, March 19.—Wladek Zbyszko, Polish contender for the heavyweight wrestling title, has decided to forsake the mat in the near future for an operatic career, according to his friends.

Zbyszko, it is said, long has yearned to develop his voice and go on the stage. His godfather was Ignace Paderewski, noted pianist. He was a close friend of the late Enrico Caruso and has many intimates among present-day stars of grand opera.

Softball Meeting on Friday Night

All teams, wishing, to enter Peterborough Soft Ball League must have their representatives at a meeting to be held Friday, March. 21st,. 8 p.m.,. at. the Chamber of Commerce Building. Entrance. fee,. as last. season, must be handed to secretary at this meeting.

Bowling

NASHUA WIN THREE

Last night at Solomon's Alleys in the Mercantile Five Pin eLague, the Nashua Paper took three straight from the William Hamilton. The Nashua crew were in great shape and rolled some fine scores.

ROLL FOR BLIND SCORE

On Monday next the members of the different teams in the Mercantile League will roll for the blind score which will be announced later. One game played entitles you to roll in the blind score. There is a valuable prize given for this event.

BRINTON CARPET LEAGUE

Last night at Solomon's Alleys in the Brinton Carpet League the Ardebils took three straight from the Carltons.

Some nices scores were rolled, Curtis being high man with 605 and Shaughnessy next with 522. Curtis had the high single, a beautiful game of 283.

Following are the scores:

Ardebils—				
Rundle	116	173	154	443
Kilbrick	176	200	137	513
Hellewell	190	160	124	474
Shaughnessy	231	119	172	522
Dummy	125	125	125	375
	838	777	712	2327
Carltons—				
Dorrell	193	127	147	467
Thomas	163	166	137	466
Curtis	166	283	156	605
O'dette	146	167	166	479
Taylor	255	110	117	482
	923	853	723	2499

BIG GAME TONIGHT

The Bell Telephone and the Red Ferns meet tonight in the final game of the Mercantile League. Three wins for the Bell Telephone tonight will give them the championship of the second half. If the Red Ferns can take a fall out of the Telephone gang they will go into a tie with the Nashua Paper. At any rate a good game is expected and there no doubt will be a good crowd on hand to witness this fixture.

NEW TEN PIN LEAGUE

The C.G.E. last night entered the new ten pin league, making seven teams already to date. A couple of more teams are expected to enter before the meeting on Friday night, when the schedule will be arranged and other particulars looked after.

FAN WAS BETTER MAN.

MILWAUKEE, Wis., March 19. Tony Dennis, professional boxer, is suing the Milwaukee Auditorium Co. for $2,000 alleging he was worsted in an encounter with a fight fan after leaving the ring during a boxing show here. Dennis claims his left hand is injured and that he is handicapped in following the fistic profession.

MERE GIRL, SKATE STAR.

MARIBEL VINSON

One of the most gifted and yet youngest contenders in the women's national skating championships held recently at Philadelphia was little Maribel Vinson. Little Maribel barely 12, was one of the most graceful entries in the fancy figure events.

SAULT SENIORS PACE BENGALS OUT OF FINALS

Show Their Title to "Greyhound" Soubriquet--Played Rings Around Yellow and Black and Won Round by Three Goals.

WON GAME 8 to 3

TORONTO, March 19.— (Canadian Press.)—Maintaining as killing a pace as that which gave them the name of "Greyhounds," Sault Ste. Marie seniors last night swept the Hamilton Tigers "off their feet" in a game that will go down in history as one of the most thrilling of them all, winning by 8 to 3, and took the Allan Cup round and N.O.H.A.-O.H.A. championship by 9 to 6. The Northerners won on their merits. They outplayed the Bengals everywhere in the first and final periods and demonstrated that when they are at the top of their form they are one of the strongest amateur teams that ever chased the puck in this country. As on the previous night when a vast throng thronged the Arena to see the junior battle of the year, there were no vacant seats, and standing room was at a premium. The roars of the fans as far as noise goes, were never surpassed at the local arena.

The Greyhounds' travelling pace, which beggars description, provided most of the thrills, but it was only a last period rally which gave them the honors. In the first period the Northerners scored two goals in a row and played rings around the yellow and black, but they faded away to almost nothing in the next session, and Cooper, on bullet-like drives from the wing, equalled the score. Two goals down on the round, the Greyhounds entered the last period with their supporters shaking in their shoes, and then occurred one of those epic affairs which are seldom seen in real life.

In one minute and twenty seconds the Soo scored three goals, and they did it with such neatness and despatch that it was all over before the Tigers realized what was happening.

That rally will never be forgotten by Sault fans or those in the Ambitious City either. It was the most thrilling feat of the year. The Greyhounds just outclassed their opponents and raced in on Stewart at will. Badly disorganized during this short time the Tigers rallied, and for the next ten minutes held the Northerners at bay. It was a toss-up at this stage with the Greyhounds striving desperately to hold their precious lead, and the Tigers training every bit of energy to tie the score, and it remained for "Dutch" Cain, former St. Mary's and Aura Lee defence man to break up the game.

Never a high class scorer, Cain got his chance to play when Coach McNamara decided that his team needed more defensive strength. Cain supplied the strength all right and also showed that he is second to none as a brilliant rusher. Several times he raced past the Tiger front line and peppered fast shots at Stewart and finally when Day drew a penalty Cain dashed down the centre, swerved sharply to the right and with a shot that would have done credit to "Babe" Dye, beat Stewart from thirty feet away. That shot broke up the battle.

Dempsey Says Film Rights Were Sold.

SALT LAKE CITY, Utah, March 19 (Canadian Press). — Jack Dempsey declared yesterday that neither he nor Jack Kearns, his manager, has had an interest in the Dempsey-Carpentier fight picture since it has been exhibited and he does not anticipate being called to testify before the Senate Committee investigating irregularities in its display.

"Kearns and I disposed of our interest in the films to Tex Rickey and Fred Quimby, film producer, before the picture was made," he said.

OTTAWA GIRLS CAMPBELLFORD

First of Home and Home Series With Campbellford--Score Was 9-0 in Favor of Ottawa.

CAMPBELLFORD, March 19. — Displaying a brand of hockey that would do credit to some boys' teams, "Ottawa Alerts," last year's champions of the O.L.H.A., romped away from Campbellford girls here last night to the tune of 9 to 0.

The game was the first of the home and home games in the semi-finals, and was witnessed by the largest crowd of the season, nearly every available inch being occupied, and boys were parked on the upstairs dressing room with their heads touching the roof. While they were disappointed in the result, they were a good natured crowd and gave vent to their feelings in no uncertain manner whenever the local girls were in a position to score.

The "Alerts" are all good stickhandlers and fast skaters, play their positions well, and the forwards back check all the time. Shirley Moulds, the little left winger, was the star of the game. She skated miles, backchecked all the way, and was up with every play, and she was generally given the puck when in a position to shoot, and she certainly can shoot. She scored five of the Alerts' goals and only for the good work of Harriet Potts in the Campbellford nets, she would have had more.

Evelyn Irwin and Marion Giles had a busy time on the other wing and there wasn't much to choose between them, the Ottawa lady having a shade in speed. Evelyn was one of the best checkers of the locals, and the Ottawa girls found her very hard to pass. Grace Blue and Miss Turner had another merry battle in mid-ice, and when the Ottawa centre kept the Campbellford star of the score sheet, she did a good night's work. It is the first time in two years Grace has failed to score at least one goal in a game.

The Ottawa defence pair kept the Campbellford girls from getting close in, and Miss Dawson looked after the rest.

Helen Wood was good defensively and made many dangerous rushes into enemy territory. Harriet Potts was as busy as an ice cream vendor on circus day, and it was no fault of her's the locals were beaten. All the shots that beat her were from very close in, and for every one that beat her she stopped a half dozen.

As in a horse race, speed wins. So it was last night. The Alerts had the speed and they used it to the best advantage. When they got possession of the rubber they broke fast and generally three abreast, and when they lost the disk they skated back and cut off the puck-carrier.

The Game.

The Alerts attacked from the first face-off, and kept the puck in Campbellford's half for some minutes. Miss Giles got the first score when she took a pass from Miss Turner right in front.

Grace Blue gave the fans their first chance to exercise their vocal organs when she went down the side but missed the net by inches.

Miss Moulds came right back, circled the defence, and flipped the rubber in the net. Miss Potts stopped shots from Miss Hagan and Miss Moulds, and Miss Shore tested Miss Dawson before the period ended. Score 2 to 0.

The Ottawas played their best hockey in this period. They tried every trick they knew, and Miss Potts was about the busiest woman on the ice. It was well on in the period before Miss Giles took a pass from Miss Anderson and scored, and Miss Moulds repeated alone a minute later.

Miss Giles shot from the side and Miss Potts stopped the shot with her pads. But Miss Anderson came in fast to bat in the rebound.

Ottawa 5, Campbellford 0.

Campbellford ladies had more of the play in the last period, but the Ottawas checked them close, and they could not get in for a close shot. Miss Turner got one for the Alerts half-way through the period, and Miss Moulds finished up a grand night's play by scoring three in a row, and bringing the total up to 9, which should be sufficient to carry them through to the final round against North Toronto.

The Line-ups.

Ottawa Alerts — Miss Dawson, goal; Miss E. Ault, right defence; Miss B. Hagan, left defence; Miss T. Turner, centre; Miss M. Giles, right wing; Miss S. Moulds, left wing; Miss L. Forward and Miss E. Anderson, subs.

Campbellford — Miss H. Potts, goal; Miss E. Ferris, right defence; Miss H. Wood, left defence; Miss G. Blue, centre; Miss V. Shore, right wing; Miss E. Irwin, left wing; Miss B. Blue and Miss K. Dolman, subs.

Referee, Charles Holmes, Campbellford.

Joint Naval Policy Within the Empire.

LONDON, March 19.—Charles P. Ammon, Parliamentary Secretary to the Admiralty, in announcing that the Labor Government would not proceed with the development of the Singapore naval base, outlined the Government's views regarding the position of the Dominions in the naval defense plan of the British Empire.

The lines on which the Empire proposes to proceed, said the Parliamentary Secretary, were development of the Dominions' navies under administrative and executive command of their own officers, each separate navy being the responsibility of its own government. All, however, would work in close co-operation under the guidance of a common doctrine.

In England it is estimated that government services absorb 23 per cent of the national income.

EXAMINER TEAM GAVE LAKEFIELD A GREAT BATTLE

But Lost by the Score of 5 Goals to 4, One of Lakefield's Goals Being Kicked Into the Net by L. Sabatino.

A team representing the Examiner went to Lakefield Monday, and took a crack at the Lakefield Intermediates, who turned out to be no kid glove players. The Examiner boys put up a great battle against the northerners, but were defeated by the score of 5 goals to 4; one of these being kicked into the net by L. Sabatino in the second period. The Northerners were inclined to mix it a little and before the game was over Referee Bill Collins had handed out six penalties to the Lakefield team and two to the Examiner team. One of these was a five minute one given to L. Sabatino for throwing his stick at McDougal. At first Sabatino refused to leave the ice, and a fight nearly took place but he soon cooled down and left the ice, and the game was once more started. Jack Sabatino his brother, played a good clean game, and was undoubtedly one of the outstanding players of his team. Blewitt and L. Sabatino were the 'bad men' of the night and they caused plenty of trouble.

Bill Collins had his work cut out for him when he tackled the job of watching L. Sabatino, who was either chopping somebody or going to chop somebody at every period of the game.

For the Examiner, Long in goal worked wonders and turned away a flock of shots from all directions. H. McDougall at centre also showed up well and he figured in three of the Examiner's goals. McClarty and Mickey Williams on the defence also played a good game, and they saved Long in the nets a much busier time than he had.

The score by periods was as follows:

First period: Lakefield 2; Examiner 1.

Second period: Lakefield 3; Examiner 2.

Third period; Lakefield 5; Examiner 4.

The teams lined up as follows:

Examiner: Goal, Long; defence, McClarty and Micky Williams; centre, H. McDougal; right wing, G. Williams; left wing, E. Williams; sub., J. Martchen.

Lakefield: Goal, Webster, defence, J. Sabatino and B. Blewitt; centre, L. Sabatino; right wing, Ridpath; left wing, Ridpath; subs., Simpson and Hull.

Referee: Bill Collins.

You Can Eat Anything You Like And Not Have HEARTBURN

In all cases of heartburn there is a gnawing and burning pain in the stomach attended by a disturbed appetite, as when too much food is taken into the stomach it is liable to ferment and become extremely sour, vomiting occurs, and what is thrown up is generally sour and bitter. When you are in this condition you will find that Milburn's Laxa-Liver Pills will give you relief right away.

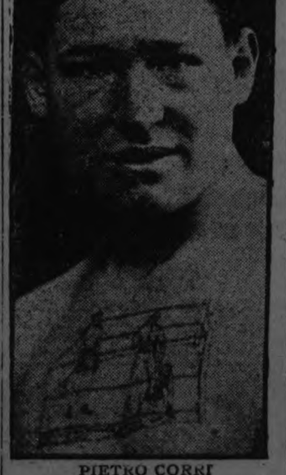
Mr. Joseph H. MacDonald, Christmas Island, N.S., writes:—"Two years ago I suffered all the time from heartburn. I took one vial of Milburn's Laxa-Liver Pills and have never been troubled since.

It is very nice to be able to eat anything you like and not have heart burn any more."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The honor of being the first woman counsel to defend a case at the "Old Bailey" in London has been accorded to Miss Helena Normanton. The defendant picked her out to defend him under the impression that she was a man.

A KNOCKOUT ON HIS CHEST.



PIETRO CORRI

Comes now Pietro Corri an Alpine mountaineer of Italian-Belgian stock who yearns for a chance to win the world's heavyweight championship.

On Pietro Corri manly chest is depicted in lurid hues a prize ring showing a fighter being counted out.

"That's a sketch of my last knock-out," explains Pietro—failing to specify whether he or his opponent is being counted out.

Ogden's CUT PLUG TOBACCO

RUTH PLANS TO PASS UP SCIENCE FOR SWATTING

(By Joe Williams.)

NEW ORLEANS, March 19. — Several years back the Sunday editor of a Cleveland paper sent this writer out to the American League park in that city to get a feature story about Babe Ruth.

"Ask him to tell you the secret of his great hitting," prompted the genius of the editorial floor.

Ruth was then in the midst of his great batting orgy, the one which lifted him to the top of the world as the games' most remarkable home-run swatter.

I asked Ruth the question in the editor's precise words. The Babe was knocking long flies to the outfield at the time and perspiring Yankee athletes pulled the drives down against the concrete wall in deep mid-field.

"I just bust 'em," answered the Babe, with a laconic finality that would have shamed Maupassant himself.

The reader will recall that the Babe continued to bust 'em with great frequency and ferocity for a couple of seasons to come. But last year and the year before the Babe did not go in for busting exclusively. Rather he took his hits as they came regardless of size or character.

Wants His Home Runs.

Matters may be a bit different with the Babe this year; he confides privately that he prefers busting in its crude, elementary forms to the higher and more polished elements of offense, known generally as plain base-hitting.

In short, the Babe cares not who leads the league in hitting if he may gather additional glory as a home-run hitter. This is set forth conspicuously ofr two reasons: (1) because it comes from the Babe himself and (2) because much has been written in recent weeks anent the Babe's aspirations to lead the league's batters.

Ruth has a perfectly logical notion that Ban John's new policy of keeping balls slightly soiled and not too badly nicked in play will help him build up a new home-run record.

Fewer Bases on Balls?

"I think the pitchers will pitch to me oftener with the old balls than they did with the new ones," says the Babe. "The pitchers are supposed to attain greater effectiveness with discolored balls and that should encourage them to take more chances with the dangerous hitters.

"I am certainly willing to gamble with them. They walked me 170 times last year. That was just 170 chances to make base hits they took away from me, at least one or two of which, you'll concede, might have gone for homers. Let 'em cut that number in half this year and see — well, see if I don't get more than 41 anway.'

For the benefit of the stupid children in the back row it is repeated that the Babe made 41 homers last year, and was tied with Cy Williams of the Phillies for the season's honors.

CHEMICAL SOCIETY TO MEET AT WASHINGTON.

WASHINGTON, March 19. — (United Press).—Helium, as an instrument of United States superiority in aviation, progress of chemistry in this country since colonial days, development of the rubber industry, nation-wide educational reform, and agriculture and the food supply, will be stressed at the big spring meeting of the American Chemical Society, it is announced here by President Leo H. Baekeland, will be held here April 21 to 26.

Hundreds of papers dealing with chemistry, said to be now in its most fruitful era, will be read by distinguished scientists representing practically all the leading colleges, technical schols and universities, industrial enterprises and state and federal governments.

Among the 3000 members of the Congress of Soviets of the Russian Union there are 37 women.

Beside being the town attorney, Msis Ethle Proffet is the only woman attorney in Pharaoh, Okla.

Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole.

Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation.

It has all the good qualities of the old-fashioned mustard plaster without the blister.

Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief.

Have Musterole handy for emergency use. It may prevent serious illness. 40c and 75c, at all druggists.

The Musterole Co. of Canada, Ltd., Montreal.

MUSTEROLE WILL NOT BLISTER

Better than a mustard plaster

Sarazen's No Romeo As Teacher Maiden Finds

HOLLYWOOD - BY-THE-SEA, Fla., March 19—Gene Sarazen, 1922 national open golf champion, spending the winter in Florida, is teaching his fiancee, Mary Peck of Miami, how to play golf.

Her first lesson was taken near the eighteenth green of the links here the other day, far from the crowd that would have liked to be in hearing distance. There is a touch of modesty about Gene.

Briefly here, is the first lesson:

"Here's the way to hold the club. Get the grip this way," said Sarazen to Miss Peck. "Put some 'pep' in your stroke as you bring the club back. Hold you head still. You'll break you arm some time when you bring the club up that way. Now finish the stroke and follow through. Be serious about this game. This is no tea dance."

These commands were not sweet-scented words, which a Romeo gives to his Juliet, according to the books, but commands, with the military cut to them.

"Don't be so rough," fired back Miss Peck. "Wait till I've played as much golf as you and I'll know more about it."

One might have suspected that the rough stuff in this lesson was theatrical rather than real.

Then they went to the putting green.

"Hold the club this way," said Sarazen. "Get the line to the hole. Go for the back of the cup. Hit the ball firmly. It won't run off the links."

Miss Peck sank several long putts.

"I have seen the time I would have given $100 to sink putts like that," said Sarazen.

After the lesson Sarazen said: "Now let's see you swing."

Miss Peck swung her club, with reasonably good golf form.

"For the first lesson, said Sarazen, "that's fine—I think you are a comer."

CANADIENS TOOK LEAD LAST NIGHT

Vancouver Was Working Under Several Handicaps--Score Was 3-2.

MONTREAL, March 19.—(Canadian Press).—The Canadiens took the lead in the semi-final series for the Stanley Cup and the world's professional hockey honors when they defeated the Vancouver Maroons 3 to 2, in the first game of the round, played at Mount Royal Arena last night. Six thousand five hundred hockey enthusiasts packed the ring to witness the first cup struggle played here in eight years, and while they found frequent spectacular rushes over which to enthuse, the tussle as a whole was not a particularly brilliant display, much faster and more strenuously contested battles having been witnessed here in League games the past season. The Canadiens were below their usual form, and lacked combination and finished hockey which featured their games in the play-off with the Ottawa Senators for N.H.L. title.

Vancouver was playing under several handicaps. The players had only arrived here from Winnipeg and were still somewhat lethargic after the journey. Added to this, Alfi Skinner and Bostrum were suffering from colds and were not up to their usual form, while the team as a whole was playing under Eastern rules, to which the players are unaccustomed.

Bowling

LADIES' LEAGUE AT Y.M.C.A.

The Reds sprung a surprise in the Ladies' League at the "Y" on Monday night by taking three straight from the Pounders. Miss Coulter rolled the high single of the night with 162, while Miss Hall was high for three games with 429.

Pounders—				
Miss Coulter ..	85	162	92—	339
Miss Adams . ..	141	76	120—	337

W.R. WIDDISS WINS THE CHAMPIONSHIP

Defeated R. G. Sturgeon by the Score of 13 to 4

In the play-off last night for second and third place in the city curling championship, W. R. Widdess, with his son "Doug." playing lead for him, defeated R. G. Sturgeon, with the latter's son also playing lead, by the score of 13 shots to 4, and thereby won the right to be called the second best skip in the city. Both teams have been playing very good all season, but Sturgeon's rink slipped last night and had to be satisfied with third place.

The personnel of the rinks and their results:

D. Widdess	R. Sturgeon
L. Ackford	W. R. Cormack
J. R. Marshall	J. Wiley
W. R. Widdess	R. G. Sturgeon
Skip 13	Skip 4

BOXING AT ROYAL

Bobby Diamont and Charlie Raymonde, who will meet Bobby Eber of Hamilton and Kid Roy of Montreal for the world's championship featherweight and bantamweight titles, which are now held by Eber and Roy, clashed last night at the Royal Theatre in a six-round exhibition bout that was full of thrills.

First they went through their everyday ground exercises and then they did a little shadow boxing to get warmed up before they locked horns with each other.

Diamont led with a left to Raymonde's jaw and the fight began.

Both boys did a lot of in-fighting and showed all kinds of footwork and ability to guard.

The fight went six one-minute rounds, but when it was over both boys looked nearly as fresh as when they started.

SINGAPORE NAVAL BASE BOTHERING AUSTRALIA

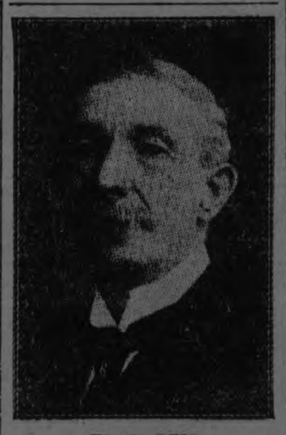
MELBOURNE, Australia, March 18.—Premier Bruce of Australia has cabled Premier MacDonald urging the British Government to reconsider its decision not to proceed further with the development of the Singapore naval base. Mr. Bruce promised to submit to the Federal Parliament proposals for a substantial contribution by Australia towards the project.

INCOME TAX ISSUE

TORONTO, March 19.—(Canadian Press)—Municipal committee of the Legislature heard arguments this morning for and against bill proposed by F. C. McBrien, South West Toronto to increase municipal exemption on income tax of householders from $2,000 to $2,500 and of non householders from $1,000 to $1,250. Representatives from Niagara Falls opposed measure stating that it would give no relief where most needed. Discussion was adjourned until to-morrow.

GRAND ORANGE LODGE OF EASTERN ONTARIO MEETS IN PETERBORO

Five Hundred Delegates Gather for Sixty-Fifth Annual Convention--Mayor Turner and E.F. Reid Present Addresses of Welcome.

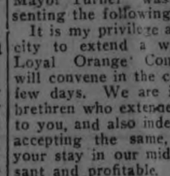


W. C. REID

of Belleville, Ontario Grand Treasurer of Ontario East, who is attending the Grand Orange Lodge convention in Peterboro.

LADIES' LODGE TOO

The sixty-fifth annual session of the Right Worshipful Provincial Grand Orange Lodge of Ontario East opened in Victoria Hall this morning at 10 o'clock, with Right Worshipful Grand Master C. A. Lount, of Cornwall, presiding, assisted by Major H. A. Graham, Deputy Grand Master and Colonel T. A. Kidd, Junior Deputy Grand Master. This is the first time since 1913 that the Grand Lodge has met in Peterborough, and in the intervening eleven years the Peterborough county lodge has grown extensively, as was indicated in addresses this afternoon. There were upwards of five hundred delegates present for the opening ceremonies this forenoon, and the gathering was described by prominent officers as an exceptionally good Grand Lodge.



Among the prominent members present are Most Worshipful Brother the Honorable W. G. McPherson, of Toronto, Grand Master of the Grand Orange Lodge of British America; Most Worshipful Brother Thomas A. Duff, of Toronto; Most Worshipful Brother Thomas H. Bell, secretary-treasurer of the Grand Orange Lodge of British America benefit fund; Most Worshipful Brother Loftus H. Reid, secretary of the joint legislative committee; and Right Worshipful Brother Rev. W. L. L. Lawrence, Deputy Grand Master of Ontario West.

Past Grand Masters of Ontario East present for the convention are Right Worshipful Brethren Duncan Munro of Cornwall; Judge McLean, of Picton; Dr. J. W. Edwards of Kingston; George Boyce of Carleton County, and W. E. Tummon, of Tweed.

Worshipful Brother S. B. Ware, of Toronto, an old Peterborough boy, is also among those present. He was for a large number of years, grand secretary of the county lodge of West Peterborough, and his father organized the first Royal Black Preceptory in Peterborough.

Addresses of Welcome.

A deputation from Vimy Ridge Loyal Orange Benevolent Association of Peterborough, waited on the Grand Orange Lodge this forenoon and presented an address of welcome which was replied to by Worshipful Brother H. C. Shipmen, D.C. M. of Ottawa.

In the afternoon His Worship Mayor Turner was a visitor, presenting the following address:

It is my privilege as Mayor of the city to extend a welcome to this Loyal Orange Convention which will convene in the city for the next few days. We are indebted to the brethren who extended the invitation to you, and also indebted to you for accepting the same, and we trust your stay in our midst will be pleasant and profitable.

No doubt many problems connected with the working of the Order will be presented and discussed, and I earnestly hope a satisfactory solution will be arrived at.

All legislation at the present time, whether municipal, Provincial, or Federal Governments, tends towards peace and the re-establishment of industry and thrift, and it is only by inculcating this principle and following to a logical conclusion by putting int, everyday practice that the present industrial depression will be solved and general prosperity perch on our banners once more.

In your meditations you will no doubt think of the widows and orphans, and you are to be commended for the magnificent work which is being done to relieve distress, educate and look after the children.

Again I reiterate the warm welcome which is extended by the City of Peterborough, and we trust you will carry away pleasant recollections and we look forward to a return visit at some future time.

On behalf of the Orange Brethren of Peterboro, the following address was presented by Ernest F. Reid, County Master:

On behalf of the brethren of Peterboro City and County, we extend to you a most hearty and cordial welcome to this, the best small city in the province of Ontario.

Since 1913, when this Right Worshipful Lodge met in this city, our Order has increased by leaps and bounds, not only in membership, but financially, and we now find ourselves in a position that only by real work will we be able to maintain. It is true that during the war years we as well as other fraternal organnal organizations, found our primary lodge meetings sparsely attended,owing to a very large percentage of our membership going overseas, and just here I would like to mention one rural lodge in this county with a membership of 35, that sent 27 of its members overseas, about one-third of whom did not return. To a great extent the work of our association fell on the shoulders of a few of the most energetic members, and to them we owe our position at the present time.

And so we are meeting once more in Peterboro, the Electric City, and we can assure you that not only our own members welcome you, but our citizens welcome you, because of the principles for which we stand, and we know that our citizens are also impressed with the importance of the influence of our association in the public welfare of our country and nation and on their behalf we would ask you to accept their good wishes that your visit to our city may be pleasant, your discussions and deliberations may be profitable, and that you may all return to your homes with a renewed inspiration and zeal to uphold the cause, which means so much to Canada and the whole world.

Our Worthy Mayor, Bro. J. J. Turner, and members of the city council have addressed you and offered to you the freedom of the city, and I am sure that if any of our visiting brethren would like to avail themselves of the privilege of visiting any of our industrial establishments that His Worship the Mayor will be only too glad to arrange same for them.

May the blessing of God rest upon your labors and may He grant that these sessions may accomplish much good and give much inspiration to carry on for another year, and that the bonds of brotherhood may be greatly strengthened by our meeting together once again.

Genuinely glad are we to have you with us once more. Again we welcome you and trust that your visit to our city will have been well worth while.

Signed on behalf of the Brethren of Peterboro:

E. F. Reid, County Master; W. I. Lockie, Dist. Master No. 1 D; F. E. Pearson, Dist. Master No. 2 D; Fred T. Brown, Dist. Master No. 3 D.

Committees Appointed.

The following committees were struck this forenoon, and will present their reports after deliberating:

Credentials: H. C. Shipman, Ottawa; Creighton Devitt, West Durham; Rev. A. L. Geen, Belleville; Thomas McLeod, Glengarry; Christopher McRae, Stormount; W. E. Latimer, Grenville.

Correspondence: W. E. Tummon, Tweed; T. K. Allen, Kemptville; W. Duvall, Stormont; Herbert Graham, Brittania Bay; W. N. Ostrom, Ottawa; George Beattie, Dundas.

Finance: H. F. Fetterley, Dundas; E. M. Barrett, Ottawa; H. A. Graham, Kingston; E. Reid, Peterboro; William Hoocy, West Dundas.

Suspensions and Expulsions: C. H. Wood, Kingston; Joseph Lisk, Renfrew; Thomas I. Milligan, Prince Edward; A. B. McIntosh, Northumberland; A. W. Dies, Leeds; Amos Tysick, Lanark.

Petitions and Appeals: S. M. Scott, Lindsay; George Snyder, Lanark; S. S. Cromwell, Brockville; S. W. Reynolds, Haliburton; W. A. Kirkpatrick, Frontenac; G. W. Henderson, South Hastings.

Returns: Joseph Foster, Moscow; George Boyce, Carleton; Ernest Baptie, East Peterboro; N. R. Stout, North Hastings; O. H. Switzer, Russell; S. J. Alton, Centre Frontenac; Rev. George Nicholl, Lennox and Addington.

Press: J. J. Cunnigham, Peterboro; M. J. O'Brien, Ottawa; Harry Braund, Lindsay.

Ladies Also Meet.

At the ladies' lodge this forenoon a standing committee was appointed with the following representation: L. Clark, Cornwall; J. Manley, Peterboro; P. Fetherstone, Ottawa; M. Beaven, Ottawa, and J. Mills, of Smith's Falls.

Up to noon nearly two hundred ladies had registered and more were expected to arrive for the afternoon session.

EVELYN BRENT and CHARLES GERRARD in "LOVING LIES".

At the Grand Thursday, Friday and Saturday

VOICE OF THE PEOPLE

To the Editor of The Examiner:

Sir,—Will you permit me to say in reply to some good people who lament my stand on prohibition, that they do not seem to be aware that prohibition of the application of force where religion and education were formerly utilized, means the ulimate abolition of both religion and education. What is the good of pointing out to people the value of religion and education when you acknowledge yourselves that they have proved a failure and that while they may do for ornament, we have to substitute gaols for churches and schools when it comes to the test. If prohibition is a success then as the hard-headed practical taxpayer says, "away with that other stuff! What good is education? What good is religion? Even ministers say the Bible is a hoax and it's all an enoromus expense, too. Let us quit both and just "prohibit" things and then we will not need churches and schools and colleges and missions, etc."

That is what is coming. I have been pleading for the old order, for reform through the man himself, as the old religion and the old system of education tried to bring about. I have not lost my faith. But if in the course of time religion and education are showing themselves to be practically useless and enormously expensive, while force is much better and cheaper—those like myself will have to give in I suppose. It will, however, be a sad day when we recognize the fact that our churches and schools were only useless ornaments and a useless expense. It will mean a great change. Perhaps it is coming. But I will continue to plead aaginst it as long as I can. Do not forget that prohibition is a new thing introduced because the old means were a failure. Failures do not last long after being found out.

J. H. BURNHAM.

NEWS WARKWORTH AND THE DISTRICT.

WARKWORTH, May 18.—Miss I. Barclay returned on Monday after spending the week end in Toronto.

Miss L. Donovan of Tamworth, is visiting her cousin, Mrs. O. M. Smale.

Mr. and Mrs. A. M. Smale entertained a number of friends Monday evening.

Mr. J. E. Thompson and family attended the funeral of the late Mrs. S. Stickles, Hastings, on Monday.

Mr. Cecil Crydeman of Toronto, spent a few days recently with relatives in town.

Mr. Sam Clarke, of Cobourg, is spending a few days in town.

Mr. David Harnden is sawyer for Mr. Sam Clarke, and started work on Monday in the mill here. It is thought that the cut of logs is bigger than ever seen before in Warkworth mill.

A BELGIUM MEMORIAL ERECTED FOR CANUCKS

BRUSSELS, March 19.— (Canadian Press.)—In fulfilment of the request from the City of Ottawa, the City of Louvain is sending to Canada stones from the ruins of the Louvain library and other historic buildings for use in a war memorial to Canadians who fell in France and Belgium.

The Belgian memorial to Canadians in October, 1918, during the construction of a bridge for transport of British troops over the Lys river, near Courtrai, will be dedicated in May. It will be composed of large blocks of granite surmounted by the figure of a Canadian moose.

NIAGARA FALLS HAS ANOTHER DEATH CASE

NIAGARA FALLS, N. Y., March 19. — The police here had no sooner identified the man who leaped from the lower steel arch bridge into the lower rapids at midnight on Monday as George Snyder of this city, than they were confronted with another suicide tragedy.

A dark grey overcoat and an empty bottle that had contained poison were found on the Goat Island bridge a few yards out from the mainland last night, and the police believe that their owner leaped to his death from the Goat Island bridge into the rapids above the Falls.

THEATRES

AT THE GRAND

"LOVING LIES."

The salt breath of the sea is in every minute of "Loving Lies," the special feature picture which was shown at the Grand last night, and will be repeated on Thursday, Friday and Saturday. "Loving Lies" is based on Peter B. Kyne's exciting story, "The Harbour Bar," and is one of the finest nautical film dramas that has been seen here. The tale of the tugboat captain who soothes the fears of his nervous wife by telling her "loving lies" whenever he is engaged in any dangerous work, and thus involves himself in a tangle of misunderstanding and distrust that threatens to ruin his domestic happiness is a logical and impressive story that has been most effectively transferred to the screen. The interest never flags for a moment. There are several big scenes that hold the audience spellbound, the most effective being the thrilling rescue by Captain Stover of his wife, who, running away from home, almost loses her eye in the wreck of a steamer. The director has developed this scene with realism and punch, and it is a masterpiece of filmcraft.

That whole action takes place on or beside the sea, giving an opportunity for a remarkable series of seascapes that make "Loving Lies" a notable one.

The featured members of the cast are Monte Blue, who is the Captain Stover of the production, and Evelyn Brent, who is the nervous Mrs. Stover. It is a part that thoroughly fits Blue. He is the tugboat captain to the life, a real seaman in look and action, and at no time is the illusion spoiled. Miss Brent gives a convincing impersonation of Mrs. Stover, and the assisting cast evidently carefully chosen as types, are never "out of the picture."

"Loving Lies" is worth a dozen of the cabaret pictures that are being inflicted on the public by some of the producers.

Two interesting scenic pictures, one dealing with winter sports, precede the feature film.

AT THE ROYAL

AMATEUR NIGHT TO-NIGHT

The weekly local talent evening is set for to-night at the Royal. New talent has been arranged for and some surprises are promised. Instead of the usual method of letting the audience judge the winners all entries will be given cash prizes as was the case at former amateur nights.

REAL CHAMPIONS AT THE ROYAL

A lot of interest has been aroused in sporting circles by the local appearance at the Royal of the two French ring champions Bobby Diamont and Chas. Raymonde. The six round exhibition of real fast boxing is attracting crowded houses. To-night is their last appearance.

SPEAKING OF REALISM, HERE IS A FIGHT THAT IS A FIGHT

Motion picture sets of to-day are supposed to be more or less sturdy affairs, but nevertheless a chair hurled in a fierce hand-to-hand fight in the Paramount picture, "The Stranger," pierced and dented on wall of an interior set so seriously that it was necessary to replace the entire section.

The fight is betwen Richard Dix and Robert Schable as Larry Darrant and Walenn in the Joseph Henabery production, which will be shown at the Royal Theatre on Monday next. And it's all because of Betty Compson, featured with Mr. Dix Lewis Stone and Tully Marshall in the picture, whom Walenn had attacked.

It's a great story—"The Stranger" —a picturization of "The First and the Last" by John Galsworthy.

AT THE CAPITOL

JACKIE RIDES BAREBACK .. ..IN CIRCUS STORY.

"How do they do it?"

This expression oftimes bursts forth from the lips of movie patrons as they sit in the theatre and see somebody climb the outer ledge of a skyscraper or dive off a cliff several hundred feet high.

There are tricks in all trades and the movies are not excluded. But in the case of "Circus Days," the circus story starring little Jackie Coogan, there are some real hair-rasing stunts pulled off. And Jackie does them.

Everybody has read "Toby Tyler" from which "Circus Days" was adopted. Everybody remembers how little Toby enters the circus ring dressed up in girl's clothes and rides bareback at a terrific pace for the first time, in order to save the job of the little girl that has injured her leg.

When somebody started to rig up piano wires to balance Jackie on the great white steed he was to ride, the starlet put his foot down.

"I can ride him wihout wires," he cried. Jackie has been taking riding lessons for over a year and is one of the best child riders in the film world—and that is going some.

So when you visit the theatre showing this Associated First National release this week, and when you see little Jackie Coogan tearing about the ring atop a mighty white horse, don't think he is "propped" on the horse's back with invisible wires, for he is not. And don't think the kid enacted these scenes without a fall. He had several, but American youth is strong and heaps of sawdust helped to break any fall the youngster might take.

"It was great fun," laughed Jackie, as cameras ceased their clicking. "Gee, that's a fine horse. Will you buy him, daddy?" Daddy Coogan did not buy the horse and between ourselves he was glad when that particular episode was completed.

SIR GEORGE E. FOSTER ON TEMPERANCE ISSUE

TORONTO, March 19. — To an audience that filled the main auditorium and the first gallery of the Massey Hall last night, at the evening session of the conference of the Ontario Branch of the Dominion Alliance, Hon. Sir George Foster and Rev. Dr. McCutcheon, of Montreal, in trenchant addresses, urged from two different angles the retention of the Ontario Temperance Act and consolidation of gains that had already been made by the temperance forces of the Province.

Despite repeated interruptions from "wets" who had entrenched themselves in the gallery, the address of Sir George Foster was a succinct, logical, convincing presentation of the temperance cause.

Ontario to-day, Sir George declared, was fighting ground in the temperance cause. If they lost Ontario, who could say how many years of temperance progress would be lost? Consolidate that position and they would put heart into the temperance forces of the whole Dominion.

CHARLES SNYDER IS STILL MYSTERY MAN

TORONTO, March 19.— Charles Snyder, whose name has been prominently mentioned in connection with certain bond trasactions, conducted by Provincial Securities Company with the Drury government, is a young man of about twenty-four years of age, it was learned from relatives in the city last night.

At the time of the organization of the Provincial Securities Company, somewhere around 1920, according to indefinite records of this company's history available, Snyder was a mere lad of twenty or twenty-one, but, notwithstanding his youth, seems to have been delegated wide powers in the company. The records in the hands of the government show he had full power to sign for the company and handle its correspondence.

STATES' SAILORS RUSH TO HONDURAS CAPITAL

WASHINGTON, March 19. — A landing force of 167 sailors and nine officers from the United States Cruiser Milwaukee at Amapala, Honduros isi being rushed from that port to Tegucigalpa, the Hunduran capital, where wild disorder prevails.

Consular advices from Tegucigalpa also said that many innocent persons were being shot down and looting was rampant.

The losses are estimated at $400,000 and have been suffered pricipally by the British, Chinese and United States merchants.

CRACK IN THE NECK OF FAMOUS ANTIQUE

CAIRO, March 19.— (United Press.)—After gazing out at a turbulent world for over 6,000 years, the famous sphynx of Gizeh has a serious crack in his neck, the Egyptian Antiquities Society reports, urging immediate appropriation of funds to repair the damage.

NATURE AT HER BEST.

Those who appreciate nature at her best and revel in a wealth of variegated scenery, will find the route travelled by the Canadian National Railways between Toronto and Vancouver, one of never-to-be-forgotten beauty.

First through the inimitable lake region of Northern Ontario, skirting many placid, mirrorlike lakes pocketed between tree-clad hills, catching a fleeting glimpse of many portentous, rock-strewn little waterways dashing madly towards the quiet level of the lakes below. From Winnipeg the fertile Prairie Provinces treat the traveller to a type of gently undulating scenery not to be seen in any other part of Canada.

The ever-changing scenery of the Canadian Rockies never grows wearisome, no matter how often it is viewed. Jasper Park, with its protected wild game and beauteous Mt. Edith Cavell; colossal Mt. Robson, gigantic, slow - moving glaciers stretching from snowclad peaks, are only a few of nature's wonders the traveller by the Canadian National Route sees before descending to the balmy climate of Vancouver and the Pacific Coast.

There are two Canadian National trains leave Toronto daily for the West. The National carrying standard sleeping car and compartment observation car departs at 10.45 p.m. Steel equipped, the National is luxurious in every detail. A standard sleeping car connecting with the Continental Limited, the train de luxe of the Canadian National System, leaves Toronto every evening at 8.45.

Travellers to California or other points on the Pacific Coast usually take the famous scenic route through Canada because of its beauty. Excellent connections are made at Vancouver with both steamship and train.

Make reservation or get further particulars from any Canadian National Ticket Agent.

A social evening will be held in the G.W.V.A. Hall on Friday evening next at which an excellent programme will be provided by the Ladies' Auxiliary of the G.W.V.A. The event is open to all returned men and their lady friends. The programme will be announced later. Everybody invited. 1d-68.

TO PROTECT MILK.

Although not endorsed by a unanimous vote of the Walkerville Board of Education, recently, a resolution passed the Board, that whereas no municipal legislation now exists in Walkerville whereby the supply of milk is protected and required to be pasteurised, and whereas this condition leaves the municipality as a possible dumping ground for poor milk, and whereas the Walkerville Board of Education feels it should endeavour to protect the school children of Walkerville insofar as possible, therefore be it resolved that the Board respectfully requests the Council of Walkerville to give immediate consideration of the enacting of legislation which will protect the milk supply of Walkerville.

PARENTS START TO EXPERIMENT WITH THEIR BABY PEGGY

Most Screen Prodigies Blow Up Somewhere Along the Road to Adolescent Importance in the Profession.

BY JACK JUGMEYER

HOLLYWOOD, March 19. — Whether it is possible for parents and mentors of a precocious child at the age of five to determine the career of her maturity is the interesting experiment being made with Baby Peggy Montgomery, picture star at an age when most youngsters start kindergarten.

The Montgomerys, abetted by Sol Lesser, her producer, have definitely in mind the pinnacle of stage success for Baby Peggy.

Considering her beginning and environment, this would seem the obvious goal and one perhaps easily reached in due time, hence worth no special effort to guide the already defined tendencies.

But Doesn't Flower

The most screen prodigies blow up somewhere along the road to adolescent importance in the profession. Some fatal error of training or defect of the ego sidetracks them. They become blase, case-hardened, lose charm and zest. Something is rubbed off. The bud doesn't flower.

Many great stage and screen actresses came in childhood to the footlights, notably Bernhardt, Rejane, Duse, Maudse Adams, Mary Pickford, Lillian Gish, Nazimova, Pola Negri. And of course it is too early the in history of the screen to generalize about the fate of its present-day infants, because baby stars, cultivated and featured as such, are still hardly out of the film cradle.

Charting Baby Peggy's life for the next 15 years, her parents for the present are stressing foundation of character; letting her meet people to encourage selfconfidence; stimulating unselfishness; encouraging normal expression of budding mental and spiritual life, instead of crowding the intellect which vain parents so often abuse to parade a prodigy.

Now five, she is to begin the study of French at seven.

At 10 she is to see every great actress when on stage and screen.

At 15 she is to be sent to Italy, to live there at least two years, to study voice culture and to be steeped in an atmosphere of art.

Time Will Tell.

At 17 she is to go to Paris for a year.

At 18 she is to begin definitely her projected stage career under the then most distinguished director.

Such is the plan—about which Baby Peggy, by the way, knows very little.

Whether or not it works out, whether or not the starlet will accept the program as he horizon broadens, it is an interesting attempt to mold a sensitive and talented youngster.

The dress styles of one period are the laughing stock of the next. At least until they become desirably "quaint." Wherefore in Goldwyn's rendition of Elinor Glyn's "Three Weeks," Aileen Pringle as the Slavic queen will wear modern creations instead of clothes de riguer 15 years ago when the story was written.

Claire Windsor, who has been dallying with real sheiks and their entourages in the Sahara, writes that the camels she is forced to ride "have nice kind faces, dont' drink and will carry you almost any place you want to go—but their olfactory influence is anything but inspiring." About the sheiks, deponent sayeth not.

Dorothy Farnum, signed by Warner Brothers to prepare the scenario of Sinclair Lewis' "Babbitt," soon to be pictured, has called on three personages to help her prepare the script. They are an eminent judge, a leading citizens of Toledo, O.; Miss Farnum's hair dresser, and the author himself, one of her personal friend. Willard Louis has been selected to portray "Babbit."

OBITUARY

IDA LATHANGUE.

The death occurred yesterday of Ida L. Lathangue, in her 69th year. She was well-known in the city, having lived here for the past 23 years.

There are left to mourn her loss, besides her sorrowing husband, David, two sons and two daughters: Norman Fallen of Chicago and Gordon Fallen of this city, Mrs. T. H. Tyndall of Moose Jaw, Saskatchewan, and Bernice Fallen, of Cleveland, Ohio, also two sisters: Mrs. R. Fox of Westwood, and Mrs. Doucette, of this city.

The funeral will be held to-morrow morning at 11 o'clock. Private. The Rev. H. Young will officiate.

HUGH HERBERT ROBERTSON.

PATERSON, N. J., March 7. — Funeral service for Hugh Robertson, the husband of Mrs. Addie Robertson, were held yesterday afternoon, at his home, 338 Park avenue, and were in the care of the Rev. A. G. Butzer, of the Presbyterian church, of Ridgewood. Mr. Robertson passed away on Friday last, and the remains were taken to Ridgewood from whence they will be sent to Canada for interment at the convenience of the family.

Mr. Robertson was the superintendent of the Paragon Can and Cup Company and for 18 years was employed at the Continental Can Company in New York. He is survived by his widow and one sister, the latter a resident of California.

The deceased was a brother-in-law of Mrs. M. J. Carter, Lindsay, and had visited her on several occasions. He was a native of Peterboro and a nephew of Mrs. Andrew McFarlane, Homewood avenue.

The Chinese year, which begins latein January or late in February, is similar to the Mohammedan in having 12 months of 29 and 30 days alternately.

THE PREVAILING FASHION

Novelty Earrings, Beads and Bracelets have become so very smart as to be almost indispensable for afternoon and evening wear.
We are showing them in a wide variety of shades to match the color of the gown worn.

Priced $1.00 and up

Warne Bros.

'Phone 880.

Society

Mrs. Austin Allen was the guest of her grandfather, Mr. Heffernan, over the week-end.

Mr. Gerald Howley of Douro was a visitor to the city this week.

Miss Margaret McNeeley, R. N., is spending a few days with her parents on Morrow street.

Mrs. Arthur Loftus Amys, Peterboro, spent the week-end with her sister, Miss Kathleen Jenkins, at the King Edward.—Toronto Globe.

Mr. and Mrs. J. R. K. Bristol announce the engagement of their daughter, Janet Templeton, to Mr. Wesley Franklin Maunder, son of Mr. and Mrs. J. Frank Maunder, of Lindsay, the marriage to take place quietly in Central Methodist Church on April 9.—Toronto Globe.

An enjoyable St. Patrick's entertainment was held at the Queen Mary School on Monday evening, under the auspices of the Home and School Association. There was a good attendance in the big hall, prettily decorated with seasonal green and white. At the conclusion of the programme, light refreshments were served. The president, Mrs. M. T. Breckenridge, had the chair for the preasant little programme, which included an interesting paper on St. Patrick, read by Mr. M. N. Clark, the principal of the school, vocal solos by Miss Trucie Pearson and Mr. Hugh Niven, readings by Miss Irene Breckenridge, and two Irish dances by the Hemphill sisters.

Members of the Women's Missionary Society of Trinity Methodist Church, to the number of about 80, assembled in the Reid Street Hall yesterday afternoon for their regular monthly meeting, which was featured by a splendid programme given by Groups F and G, in charge of Mrs. Morley Lyle. The president of the society, Mrs. A. F. Lane, presided at the meeting. A missionary exercise, entitled "The Voices of the Women," was very effectively staged by members of the society. Mrs. Ray Brown represented "The Dreamer," a girl of the period; Mrs. R. E. Hinton was 'Conscience," Miss Mabel Brown was a Mohammedan woman, Mrs. James Wolstenholm represented "Mexico,' Mrs. George H. King "China," Miss Marion Moore "Africa," Mrs. Jack Miller "India," Mrs. Watterworth "Korea," Miss Lenore Wolstenholm "Japan," Mrs. W. R. Cowain a Hindu widow, and Miss Dorothy Moore a child widow. During the presentation, Mrs. C. Cragg played soft music. A pantomime, "Nearer, My God, to Thee," was also very pretty. Those taking part were Mrs. Watterworth, Mrs. W. R. Cowain, Mrs. Ray Brown and Miss Lenore Wolstenholm. Mrs. George H. King sang the title song. During the business session of the meeting an interesting brief talk on Christian Stewardship, or Systematic Giving, was given by Mrs. M. A. Morrison.

Mrs. H. Gillespie of Lindsay, is visiting her son, Mr. George Lee and also attending the Grand Lodge meeting.

Mrs. James McDonald, Charlotte street has returned home after a six weeks visit with relatives in Los Angeles. She was accompanied on her return by Mrs. Warde who will be in Peterborough for a time.

WOULD CUT PRICE.

TORONTO, March 19 (Special to The Examiner). — Thirty-two implement concerns offer to cut the price of implements to the extent of the sales tax if Premier King drops the sales tax.

TO CALL ELECTIONS

PARIS, March 19. — Canadian Press. — The Cabinet has tentatively decided to call the elections for the Chamber of deputies for May 11, it was announced to-day.

HARD WINTER ABROAD.

BERLIN, March 19.—The unusually severe winter and its heavy snowfalls have, in many parts of Germany, driven wild game into the villages. It is not at all unusual to see grouse and other birds in the barnyards. Hares are common, and even deer occasionally make forays close to the houses.

POISONED BOOZE.

MINNEAPOLIS, Minn., March 19.—Virtually all alcohol seized in the many raids at warehouses and incoming shipments in the northwest in the last wo years has been found to contain poison, according to M. L. Harney, prohibition chief here.

A RECEPTION AT THE MOUNT

The usual impressive ceremonies that the Roman Catholic Church uses for its solemn occasions were observed this morning at the annual reception on St. Joseph's Day of candidates for admission into the Order of the Sisters of St. Joseph, celebrated in the chapel at the Mount. The altar was beautifully decorated and filled to overflowing with the relatives and friends of the young ladies, twelve of whom were postulants, receiving the Holy Habit this morning, while six sisters took their final vows, five pronounced their first vows and twenty renewed their vows.

The Mass was celebrated by His Lordship Bishop O'Brien, assisted by Rt. Rev. Monsignor McColl and Rev. F. Tierney, of Ottawa, brother of one of the novices. Other priests in the sanctuary were Rev. T. Crowley, Sault Ste. Marie; Rev. J. O'Leary, of North Bay; Rev. Father Scanlon, of Grafton; Rev. Father Gillogly, of Trout Creek; Rev. P. Kelly, of Victoria Road; Rev. Father Walsh, of Adjala; Rev. J. McCarthy, of Norwood; Rev. J. McAuley, of Ennismore, and local clergymen, including Rev. P. Costello, Rev. J. Finn, Rev. J. J. O'Brien, Rev. P. Butler, Rev. J. Collins, Rev. Father Meagher and Rev. C. Carroll. Rev. D. J. McDougall, C.S.S.R., of Toronto, who had charge of the Retreat which precedes profession, preached the sermon.

The young ladies who received the Habit of the Sisters of St. Joseph this morning were: Miss Anna Prendergast, of Sault Ste. Marie (Sister Mary Grace); Miss Kathleen Rore, of Galt (Sister Mary St. Ivan); Miss Mary Quinneville of St. Agnes de Dundee, Quebec (Sister Mary Rosary); Miss Anna Tunney, of Grafton (Sister Mary Gabriel); Miss Mary Harrington, of Downeyville (Sister Mary Ursula); Miss Eloise Prunty, of North Bay (Sister Mary Francis Teresa); Miss Elizabeth Hugli, of Sault Ste. Marie (Sister Mary Armand); Miss Irene Millaley, of Victoria Road (Sister Mary Adelrude); Miss Irene McFadden, of Hastings (Sister Mary Audrey); Miss Monica Quinn, of North Bay (Sister Moira); Miss Mary Tierney, of Ottawa (Sister Mary St. Camillus), and Miss Kathleen Martin, of Ottawa (Sister Mary Electa).

Final Profession was made by Sister Mary St. Albert, Sister Mary Albertine, Sister Mary Agnita, Sister Marion, Sister Margaret Marie and Sister Doloretta.

At an early Mass, five Sisters pronounced their first Vows, and twenty renewed their Vows.

Financial News and Views

Canadian Stock Exchange and Mines | New York Stock Exchange and Curb Prices

TO-DAY'S QUOTATIONS AND OPINION AND REVIEWS OF THE MARKETS.

NEW YORK, March 19—(Special)—The appearance of adequate support at critical moments in the previous session of the stock market had demonstrated that the list was in strong hands and had considerably discouraged professional speculators for the decline. One prominent operator was reported to have covered 50,000 shares in the late dealings yesterday over the Florida wires when the afternoon attack was launched on the soldier bonus news and the tobacco products reports failed to make an impression on the general list.

In the early trading to-day the retail of the bear element was continued, and further recoveries were scored by the speculative leaders. In addition to the improved technical position, encouragement was derived from Coolidge's leadership in the North Dakota Presidential race, with the decline in price of wheat, was expected to afford great assistance to the Radical contingent. Stocks mantained a strong tone through the first hour, several representative issues advancing to new highs for the year in the face of further heaviness in the motor group where Studebaker and Chandler broke to new lows. General Electric continued the sensational feature of the industrial group, rising to a new high on the movement at 231, against yesterday's low of 220.

SCOURGE DRIVES SETTLERS HOME FROM SOUTH SEAS

PAPEETE, Tahiti, March 19.—(Associated Press).—One of the perils that menace the settler in the South Sea Islands is the strange disease called elephantiasis. This malady, which is prevalent on Tahiti and the neighboring islands, is an affection of the lymphatic system caused by the invasion of a microscopic worm called "filarii Sanguinis."

There is a wide difference of opinion as to how the infection enters the system. Some investigators declare that the mosquito plays host to the worm until he enters the human body with the mosquito's attack thereon; others believe that the infection comes from drinking impure water, while the natives hold that the disease is contracted from walking in certain infected districts, through the pores of the feet, in much the same manner that hookworm invades the body.

Many Europeans who have settled in the various islands have contracted the disease. Indeed, on some islands every European resident suffers from it in a more or less advanced stage.

Elephantiasis takes the form of a chronic intermittent chill and fever, with inflammation and swelling of the lymphatics. With each attack a deposit of morbid lardaceous matter is left in the tissues of the arms and legs, and in time these become permanently deformed and of prodigious size.

The only treatment is residence in a cold climate. For this reason a goodly number of whites who have settled in the islands during the past years, and who do not know how to take care of themselves in the tropics, have been compelled to abandon their homes and go to a cold country for a prolonged sojourn.

RAMBUNCTIOUS BILLY.

WICHITA, Kas., March 19. — A Wichita man who owns a billy goat bought a new auto the other day. While the wife and children were admiring it, along came Mr. Billy, who, thinking he saw another goat in the glossy side of the new car, lunged at his reflection. The car went down for the count. Billy knocked it out of the lot.

JAZZ MUSIC SENT OUT BY CONVICTS.

No One Allowed to Return a Word of Thanks For Anything They Are Presented With.

JEFFERSON CITY, Mo., March 19.—Every time the thiry musical convicts of Missouri state prison broadcast their selections from station WOS, in the capitol dome here, they get thousands of letters, telegrams, telephone calls and gifts from appreciative listeners.

Yet none is permitted to return a single word of thanks!

This is the ironic realty behind the happy, jazzy selections for which fans throughout the country tune in WOS.

Without a guard, these prisoners, serving terms of from two years to life, walk out of confinement with their instruments twice a month, to help further entertainment on men, women and children already enjoying the comforts and pleasures of home. After the concert they return behind the prison bars to serve out their terms for breaking the law.

The best of these is Harry M. Snodgrass, known to the fans who have heard him as "king of the ivories," and adjudged recently the eighth best radio entertainer in the country.

Snodgrass is serving four years for robbery in St. Louis. He fell in with bad company when barely out of his teens and made one break. It was his last, he says, for he plans on a musical career after his release.

Most of the others in the band and orchestra look forward to a similar career when they get out. But Virgil W. Coombs, the band leader, will have enough of music when he goes free in July. Back to the farm for him, he says.

Offers of jobs come in regularly from appreciative listeners. Recently the owner of a large eastern summer resort appealed for a parole for Snodgrass. But the prison authorities decided it would be unfair to pardon any of the musicians just because he was more accomplished than any of the other prisoners.

But jobs are awaiting them. One members of the band on his release recently got a job with a Kansas community band. His playing by radio had attracted attention of the leader of the Kansas band.

PROFESSIONAL SALUTATIONS.

The doctor, a keen golfer, was rather weary of being called "doctor" on every possible occasion, suitable or otherwise.

On the links the other day, two members hailed him as usual, "Good morning, Doc."

"Good morning, chartered accountant. Good morning, sanitary engineer," replied the doctor.—Weekly Telegraph (London).

PUBLIC ACCOUNTS STILL IN SESSION

Ridout Bank Account Investigated -- The Loan to Curry.

TORONTO, March 19—(Canadian Press). — The first witness called before the Public Accounts Committee of the Legislature this morning was Bradley Patterson, manager of the King and Young branch of the Bank of Montreal, who furnished a copy of D. K. Ridout's account. Mr. Ridout deposited approximately $100,000 in the bank after he had sold for the Ontario Government ten million in Treasury bills in New York. Forty thousand was carried in savings account and the remainder in current.

Mr. Ridout, recalled, said that as he owed some money, he had put $60,000 in current account to meet his debts quickly. For a loan to J. W. Curry, K.C., he had drawn $5,000 cash. Mr. Curry only wanted $3,000, so he put the remaining $2,000 back in his pocket.

He went to Mr. Curry's house to give him the money, as Mr. Curry was ill at the time. There was no suggestion as to what Mr. Curry wanted the money for. It was a friendship loan.

Mr. Ridout said Mr. Curry knew he had made the money out of the sale of Government Treasury bills. Alex. Lewis said that although a member of the Legislature, he did not know. "It was common gossip among my friends," said Mr. Ridout.

FAMILY OF FIVE SWEPT TO DEATH BY FLOOD THAT UPROOTED TREE IN WHICH THEY SOUGHT SAFETY

Potomac River Bursting Its Banks Reported to Have Carried Off Six Other Victims, Members of the Same Family Engulfed With Their Home--Score of Blocks in Pittsburgh Inundated By Swollen Head Waters of the Ohio River—Trains Stalled, Tracks Damaged and Many Families Homeless

TRAIL OF WRECKAGE COSTS MILLIONS

KITZMILLER, Md., March 31.—(Canadian Press).—Five persons, members of an entire family, were drowned Saturday when a tree to which they were clinging was uprooted and swept away by the flood waters of the Potomac River. Two of the bodies were recovered Sunday.

The victims were Mr. and Mrs Samuel Beeman, their two children and David Beeman, grandfather of the children. They had left their home when it was flooded and had sought safety in a tree. The force of the current with their added weight uprooted the tree and swept it away. The bodies recovered were those of the two children, a girl and a boy.

Fifteen homes in this town were carried away by the flood. The bank building was the only structure left intact in the business section. A 100-foot bridge connecting Kitzmiller and Blaine, W. Va., was moved from its foundation, but not swept away.

Sir Reported Drowned.

CUMBERLAND, Md., March 31.—Six persons, composing an entire family, were reported yesterday as having lost their lives at McCoole, Md., 280 miles west of here, when their home was swept from its foundation and carried down the Potomac river. The family consisted of Mr. and Mrs. John Devilbliss and their four children. All wires into the town were broken by the flood and the report could not be verified.

Pittsburgh Flooded.

PITTSBURGH, Pa., March 31.—A score of city blocks in the lower sections were inundated and sections for several miles up-stream laid waste when both the Allegheny and Monongahela rivers, meeting here to form the Ohio, left their banks Sunday in Pittsburgh's greatest flood in ten years. No loss of life was reported.

The crest of the flood was reached at 1 o'clock Sunday at 20.2 feet, seven feet above the flood stage. A slow recession began at dusk.

Traffic Delayed.

Railroads following the courses of the various rivers were greatly affected. Baltimore and Ohio lines between Pittsburgh and Baltimore were under water at various points and trains were re-routed over the Pennsylvania to Baltimore, where they proceeded on their own lines. Traffic was delayed for 24 hours over the Pittsburgh and Lake Erie lines through the Monongahala Valley and the flooding of the Pittsburgh terminal tracks caused trains to be re-routed at McKeesport to the Baltimore and Ohio tracks and run into Pittsburgh terminal of that road. A landslide occurred on the Monongahela division of the Pennsylvania, but was cleared away within a few hours.

Business Suffers.

Thousands of basements in the affected area were flooded and many industrial plants along both the Monongahela and Alegheny rivers will be forced to suspend operations until damage wrought by the flood can be repaired. Rowboats and canoes were pressed into service to establish communiction between flooded districts and to remove marooned residents. At McKeesport several streets were under six feet of water. At Dravosburg, near McKeesport, six hundred families fled from their homes when the water reached the second floor.

Tide Subsiding.

Cumberland, Md., March 31.—The flood waters of Wills' Creek and the Potomac river were returning to their channels to-day, leaving scenes of desolation in their wake. Only one small section was under water in the city proper and the water was receding rapidly. Ridgeley and Dixie, however, two towns on the West Virginia side of the Potomac, remained inundated as was a wide area in the lower Potomac Valley.

Great havoc was wrought by the flood. Many miles of railroad track were washed away, two big steel bridges and a number of smaller structures were destroyed, while hundreds of buildings and houses were damaged and in some instances washed away.

Preparations were under way for relief work but it was believed that local organizations would be able to handle the situation. Until the plans for relief work are perfected those in need were being cared for by the pople of their respective communities.

Trains at Standstill.

Railroad traffic in and out of Cumberland was at a standstill. Five Baltimore and Ohio passenger trains, including the Capital Limited, were flood-bound at various points, while one Western Maryland train was stranded three miles west of Keyser, West Virginia. The passengers from that train spent the day at Keyser.

Cumberland was without light or power again last night, owing to the failure of the power plant during the flood.

Members of Company G, of the National Guard, were assisting the police in patrolling the streets. Every member of the police force has been on duty since Saturday with short rest periods. Food was being served to them by the local Red Cross chapter.

Damage of Millions.

Mayor Thomas W. Koon placed an estimate of $1,000,000 upon the individual property damage in Cumberland and $200,000 upon damage to the city streets. The damage to railroad property was estimated at at another million dollars.

HEAVY PROPERTY LOSS.

KANSAS CITY, Mo., March 31 (Canadian Press). — The number of known dead from the severe storm that swept south-west on Friday stood at fourteen last night with the total property damage running into hundreds of thousands of dollars.

Hundreds of persons were injured.

Eight lives were taken by the tornado that ripped across Central Oklahoma, centering at Shawnee.

Other cities that reported heavy property damage were Enid, Guthrie, Frederick, Noble, Hillis, and Holdenville.

The known dead in South-eastern Missouri increased to five yesterday, with one expected to die and unconfirmed reports of four others having perished.

Dead in Missouri include a a woman at Cape Girardeau, a woman near Sikeston, an infant near Charleston, and an unidentified negro.

Benjamin Wintroub was killed at Shelbina, Mo., when a brick wall, left standing from the fire, blew over on him.

In Kansas and Texas several persons were injured and considerable property damage done.

TOLL OF 13 LIVES.

PITTSBURGH, Pa., March 31 (Canadian Press).—Floods in Pennsylvania, West Virginia, and Maryland caused by warm rains and by melting snows in the mountains have devastated a wide area in those States last night, taken toll of 13 lives, and caused millions of dollars damage to property.

After having flooded an area of 175 miles, extending from its head waters at Gorman, Md., to Harper's Ferry, West Virginia, with greatest damage done at Cumberland, Md., the Potomac River was rapidly returning to its channel.

Western Pennsylvania district, Monongahela and Allegheny Rivers, meeting here to form the Ohio, swept over the lower sections of their valleys, and the Youghiogheny River, coming down the Allegheny Mountains, floored the section extending from Connelleville to McKee's, a short distance of 40 miles.

The Ohio River here reached the stage of 29.2 feet, 7 feet above the flood stage, but was receding last night at the rate of one-tenth of a foot an hour.

Cities along the Ohio River, however, were preparing for flood waters to-day.

An entire family of five persons was drowned at Kitzmiller, Md., three children lost their lives at Melcroft, Pa., and another child was drowned at Johnstown, Pa., while a father and mother were drowned rescuing their children at Pittsburg.

Other flood casualties occurred at Connelsville and Newcastle.

Mayor Quits Golf As Sunday Example

Noon Design

PHILADELPHIA, March 31.—Mayor Kendrick will play no more Sunday golf, according to the Rev. Dr. W. E. P. Haas, Assistant Secretary of the Philadelphia Conference of the Methodist Episcopal Church.

In a discussion of Sunday laws at the conference today in Lancaster Dr. Haas, who is pastor of the Wharton Memorial Church said:

"Recently the Mayor told me he could no longer conscientiously play Sunday golf, because he felt as a city official he should set an example by obeying all laws."

DENVER KLAN WAS ATTACKED

Riot Squads of Police Called Out Early Sunday Morning—Ku Klux Bill Peddlers Met Opposition.

DENVER, Colo., March 31—Police riot squads were called out early Sunday morning to quell a riot at Ninth and Downing Streets, in the Capitol Hill district. Approximately 200 men and boys were engaged in the fighting during which several shots were fired. It was reported to police that men distributing handbills favorable to the Ku Klux Klan were attacked by citizens who are opposed to the organization.

A ROUGH PASSAGE PREMIER POINCARE

Premier Was Not His Old Fighting Self

(By Webb Miller, United Press Staff Correspondent).

PARIS, March 31.—Premier Poincare received a reception from the Chamber of Deputies to-day, when he read his Ministerial declaration and presented the new Cabinet.

Frequent interruptions and laughter came from the Left benches.

Poincare was not his old, fighting self. His hands trembled, and he appeared noticeably overstrained.

Angry at his interrupters, the Premier stopped reading. "Name of a dog," shouted Deputy Lacotte, Radical leader. "Cannot we laugh?" Poincare retorted that he would reread his sentences each time there was an interruption. There were plenty of these, and at one time he read a phrase seven times. The white-bearded little statesman shook with rage as the Radical deputies ridiculed his announcement of the new Ministers, because four of them were Poincare's opponents, and politicians feel he has made a political compromise. When the reading was over, the Premier concluded that the Chamber postpone the interpellations, which were on the lips of the Opposition leaders, until to-morrow.

The deputies finally agreed to this, and agreed to the discussion of provisional credits which are badly needed by the devastated regions.

Scattered applause greeted Poincare's remarks on occasions, and really hearty applause when he referred to the continuance of the Ruhr policy.

The continuance of the foreign policies of the preceding Government and drastic domestic economy were the keynotes of Premier Poincare's Ministerial declaration. High spots of the declaration were: "France's greatest desire is to reach accord with her allies and associates on the two questions on which her future depends, reparations and security."

"The day the treaties are fulfilled and France has obtained reparations and security she will be the first to give an example of magnanimity."

"Let peace be given to-morrow and we will march with great haste towards the new sun the world has waited for so long. We must not introduce the slightest germ of inflation into our finances. We have creditors as well as debtors, and until a concerted settlement intervenes the situation demands attentive reserve."

LIGHTNING PUT OUT LIGHT AND STRUCK HOUSES

One Verandah Wrecked and Twelve Windows Smashed-- Fuses Blew Out in Sub-station.

LASTS TWO HOURS

A severe electric storm swept down on Peterboro on Saturday evening, doused the city lights for two hours, wrecked a verandah and did other damage and swept on its way to strike barns and buildings in the country districts. The worst sufferer in the city was Herbert Johnson, whose at 658 Aylmer Street was struck about 6.30. The bolt carried away an end of the verandah, smashed twelve windows, burned up a wire clothes line and knocked plaster from the interior walls. The telephone was put out of commission, and all the fuses in the house were burned out. Where the bolt struck the wall it left a scorched mark but failed to set fire to the woodwork.

Mr. Johnson, who served overseas, likens the affair to the arrival of a 5.9 shell, and says the effect was about the same. He was seated at supper with his family when the lightning struck, and considers it a miracle that no one was hurt.

An electric stove was struck in the home of George Roy Powell on Cricket Place, without much damage and in another house the curtains were torn from an attic window.

Two Switches Blown.

In the sub-station behind the Peterboro Cereal Company the lightning blew out two switches, plunging the city into darkness, and set the wood cornice afire. Considering the amount of damage done, good time was made in repairs, the men transferring the two circuits in about two hours and restoring the service about 7.30.

Meantime early Saturday night shoppers did their business by candle light and lamp light, and vendors of candles did a better business than in several months. At least one family which depends upon an electric stove for cooking purposes was compelled to seek a meal in a restaurant after waiting an hour for the power to be turned on.

LOCAL MAIL MEN FIRM IN DEMAND

Only One Man on Local Staff Voted Against Strike -- Believe Their Claim is a Fair One.

Asked by the Examiner to-day regarding the threatened postal strike, Postmaster John Corkery deprecated the probability of such an event. The question of salaries is now in the hands of a commission, he said and an adjustment will probably be satisfactorily made.

The objection of the men is leveled at the bonus system, whereby an amount is added to the salary, based on the amount of the salary. The men would prefer a straight salary, and contend that with the cost of living at its present height the amount of wages should not be decreased.

In conversation with a mail carrier later the Examiner was informed that only one man in the postal service of Peterborough voted against the strike in the event of its being necessary to safeguard their interests. The vote was taken last week.

There are seventeen routes in the city, ochupying seventeen regular men and three spare men; two parcel post carriers, and others, making a total of about 25 men. This informant said the railway mail clerks, the post office clerks, who have their own union, and even the locomotive engineers, are solidly behind the carriers in their protest against a decrease in salaries.

"We don't want to strike," this man said, "but with anything less than we are now paid life would not be worth living. On this job a man has no cushioned seat for his old age. When he reaches a certain time in life he must give up the work."

Fairs of Kent County Decide to Co-operate.

CHATHAM, Ont., March 31. — A Kent County Fairs Association was organized at a meeting here Saturday afternoon, with W. G. Sturgiss, Dresden, president.

Other officers were: Vice-President Mos. Roe, of Merling; Secretary-Treasurer, J. Webster, of Florence.

The object of the association, is to standardize the price of admission to be charged at the various county fairs as well as the attractions to be offered.

Escaped Convict Soon Overtaken

KINGSTON, March 31.—(Canadian Press).—William Hubert Jones, a convict at the Portsmouth Penitentiary who has served nearly a year of a two and a half year sentence received at Brampton, Ont., made an unsuccessful attempt to escape at 2.30 on Saturday afternoon while working outside the walls of the penitentiary as a member of the prison farm gang.

The gang were at work in a old stone quarry, Jones getting through the fence and seeking cover in the surrounding bush. Officials at the pentitentiary recaptured the convict after he had been at liberty only about thirty-five minutes, Jones allowing himing himself to be taken back to the institution without offering resistance. An investigation into the incident is being held by pentitientiary officials.

CANADA LACKS FAITH IN SELF

Is Country Too Big, Asks Hon. Frank Oliver, Or Are People Too Little—Finds Evidences of Doubt and Pessimism.

MONTREAL, March 31 (Canadian Press). — "Is it because Canada is too big or because the people are too little that whispers of fear and lack of confidence characterises so many men of affairs to-day?" asked the Hon. Frank Oliver, addressing the members of the Montreal Reform Club here on Saturday.

As a member of the Railway Commission, Mr. Oliver said he could not talk politics. He expressed anxiety at the "lack of confidence in themselves and the lack of faith in the country by many of those who come before the Railway Commission in all parts of the Dominion."

Mr. Oliver charged that the men of to-day seemed to be so obsessed with the idea of difficulties on every hand that they looked upon the future with pessimism. In the old days of the North-West Company, the merchants were men of faith and courage.

"You cannot," he concluded, "carry on the business of a country like Canada as if it were a parish, when it should be done in the Empire way. The country's affairs must be handled by big men in a big way."

SWALLOWED NAILS AS A PROFESSION

William Bartell, However, Bit off too Much When He Included a Spike on Saturday--Seriously Ill

CHICAGO, March 31.—(Canadian Press).—Two hundred and seventy-five individual objects were taken from the stomach of William Bartell, "professional swallower," in an operation performed by Dr. Max. Thorek, at the American hospital yesterday.

The surgeon's official inventory follows: Upholstery tacks 1, nails 110, nuts 2, screws 3, tack-heads 4, parts of safety pins 65, whole safety pins 12, paper clips 22, bolts 4, curtain hooks 1, can openers 1, beer checks 1, washers 2, cartridges 2, dimes 1, thumb tacks 32.

The list, according to Dr. Thorek, does not include "crockery, glass or brick."

Bartell was taken ill with peritonitis after swallowing a spike at the Logan Square Theatre on Saturday night. The spike penetrated the wall of his stomach. His condition is regarded as serious.

MONTREAL PAYS TRIBUTE TO NEW FRENCH CONSUL

Baron de Vitrolles Welcomed at Banquet Saturday Night By Representatives of State and Church —Ties With France Still Strong.

ENCOURAGE TRADE.

MONTREAL, March 30. — Canadian Press. — State and church, representatives of Montreal's higher educational movement, citizens prominent in the business and social life of the community and representatives of the bench, joined in welcoming to Canada the new Consul-General of France, Baron de Vitrolles, and Madame de Vitrolles, at a banquet here on Saturday night.

Senator Dandurand in greeting the new Consul said a new epoch for Canada was dawning as illustrated by the fact that soon the Dominion was to send a representative to Washington.

Premier Taschereau said those of French descent in Canada wished to keep intact the ties that bound them to France, and had done so, otherwise how could the French-Canadian miracle, be explained. Another link with France was the sixty thousand Canadians fallen in the war, who sleep on French soil. For our wheat paper, pulp, asbestos, cheese and fish he hoped France would send to Canada objects of art, beautiful creations for the use of women, and also the wines of France, if he might say so without offending the president of the temperance league present, Chief Justice Lafontaine.

Archbishop Gauthier told of the interest which P. E. Naggiar, Baron de Vitrolles' predecessor, had taken in educational matters in Montreal, and hoped the new consul-general would continue that interest.

Senator Beaubien told of his experiences on the Canadian exhibition train through France and of the reception accorded him there.

Among those present were: Hon. L. A. David, Mr. Justice Surveyor, Mayor Joseph Beaubien, Senator Beigue, Senator Casgrain, Right Hon. C. J. Doherty, Mr. Justice Archer, Fernand Rinfret, M. P., and Hon. George A. Simard.

TWO NEW MEMBERS ON HARBOR BOARD

A. O. Hogg and A. A. Mulholland Appointed by Dominion Government.

TORONTO, March 31. —(Canadian Press.)—A. O. Hogg, immediate past president of the Toronto Board of Trade, and A. A. Mulholland, retired business man and prominent Liberal of this city, have been named for appointment by the Dominion Government to the Toronto Board of Harbor Commissioners. The appointments have received the approval of Honorable George P. Graham, Minister of Railways, and will be formally passed by the Dominion Cabinet at a meeting called for to-day. The naming of Mr. Hogg was, upon the recommendation of the Toronto Board of Trade. The appointment of Mr. Mulholland is direct from the Dominion Government.

BRITISH ROUND THE WORLD PLANE DELAYED

(By Anthony Papayannakis, United Press Staff Correspondent).

ATHENS, March 31.—The British round-the-world flight plane was down to-day, after a forced landing in Lake Saint Mathew on the Island of Corfu.

Major Stuart MacLaren, the flight commander, was understood to be rushing the minor repairs to the big amphibian Napier Vickers machine in the hope of being able to proceed to Athens. The plane was flying from Rome to the Greek capital when it was forced down while over Corfu.

The Island of Corfu is a Greek possession in the Ionian Sea, a short distance off the mainland, where Greece and Albania meet. It was recently seized by Italy in reprisal for the murder of an Italian commission in Epiras.

EYES DESERVE PROTECTION
Why go on straining them? Eyes behave better and last longer when taken proper care of, besides the added comfort of using the right glasses when needed. See W. H. Lacey, Optometrist, 410 George St., Phone 1160.

Intoxicants May Be Fed to Cattle

CORNWALL, Ont., March 31.—(Canadian Press).—Cattle are entitled to eat intoxicants testing 14.35 proof alcohol, according to a ruling handed down by Magistrate Clines here Saturday.. A preparation of mollasses used by farmers in this district for making straw and marsh hay more palatable for cattle was found to test 14.35 per cent. proof spirits. As a result Antoine St. Onge, farmer, Clengarry county, appeared in police court here Saturday, afternoon, charged with trafficking in intoxicants. Magistrate Clines, however, dismissed the case on the ground that no proof had been submitted that the mixture was being used for any other purpose than that for cattle feed.

LIGHTSHIP HIT BY FREIGHTER

Dragging Itself to Staten Island With Great Hole In Port Quarter—Struck By British Vessel In Fog

NEW YORK, March 31 (Canadian Press). — Rammed by the British freighter Castilean in a fog yesterday afternoon, the Fire Island lightship, with a gaping hole in its port quarter, was proceeding to Tompkinsville, Staten Island, accompanied by the steamer Dorothy Luckenbach, the coastguard cutter Gresham, and the lighthouse tender Spruce, all summoned by an S.O.S. call.

Damage to the Castilean was not known.

Sunday afternoon radio programmes were interrupted when naval communications ordered all broadcasting stations to "clear the air" following the receipt of the S.O.S., which indicated that the lightship was sinking with 15 men aboard.

It was stated at Naval Communications that the lightship would not sink unless caught in heavy weather before it reached the shore.

The crew of 15 men were not taken off, but were in no danger because of the escorting vessels.

The Castilean, owned by the Westcott and Laurence Line, a British company, left Boston on Saturday for New York. She is 331 feet long and has a gross tonnage of 3,067.

FATHER AND SON KILLED BY TRAIN

Driving to Church When Express Crashed Into Their Buggy -- Horse Killed Too.

ST. THOMAS, March 31 (Canadian Press). — Michael Briody, well-known Aldborough farmer, aged about 45 years, and Thomas Briody, his son, aged 12 years, were struck by a Michigan Central passenger west-bound train No. 47, on the second level crossing east of West Lorne yesterday, and instantly killed.

The victims were driving to the Roman Catholic Church in West Lorne in a buggy, and evidently did not see the speeding train until it was on them.

The horse was also killed, and the buggy demolished.

The bodies were thrown some distance by the engine.

There is a clear view of the tracks at the crossing.

Mr. Briody was popular in the district. He is survived by his wife and daughter.

FIRE DESTROYS HOME IN VICTORIA COUNTY

KING'S WHARF, March 31.—On Saturday fire destroyed the home of Michael Murphy, who resides near here. Mr. Murphy was away at the time, and when discovered, the fire was burning through the roof. Neighbors turned in and saved the barn.

SENATOR'S WIFE GOING BACK TO FARM AND WORK

Mrs. Magnus Johnson Happy to Leave Washington and the Official Life She Found Impossible to Like—Home For Spring Planting.

MAGNUS TO "BACH."

WASHINGTON, March 31.—Senator Magnus Johnson of Minnesota, is about to become a "bachelor." That is to say, Mrs. Johnson finds it impossible to get accustomed to this climate and she has decided to gather up the "little Johnsons" and go back home to their farm.

She will leave Tuesday so as to reach home in time for the Spring planting. She will leave "Magnus to shift for himself," she said.

Plans to Cook

The Senator has made no plans "for a home or habitation" while Mrs. Johnson is away. He said he will probably get a small apartment and "go it alone, doing his own cooking."

For some time Mrs. Johnson has been discontented with life in Washington. In the first place, she had much trouble in keeping the furnace going in her little bungalow at Takoma Park, a suburb. She had never used coal, and on more than one occasion she let the fire get out, with the result that waterpipes were frozen, causing much trouble and inconvenience, said; while we have colder weather in Minnesota than we had here this winter, we were always able to keep warm out there by burning wood. This is the first time that I ever used coal, and it cannot compare with wood as a fuel.

Mrs Johnson Pleased

Mrs. Johnson is looking forward to her return home with the enthusiasm of a school girl. When she came here last December to take her place among the Senate ladies, it was the first time she had been away over night from the farm. She said she has tried her best to fall into official life, here and to became a part of it, but finds it impossible.

All sorts of efforts have been made by the Senate ladies to make Mrs. Johnson happy and contented while here, but their efforts were in vain.

While all the Cabinet members' wives and the wives of Senators and others high in official life here called on her, she returned few calls In her home she was gracious and hospitable, but she made no secret of the fact that she did her own washing.

THE WEATHER.

We had a varied assortment of weather over the week-end—hail, rain (freezing as it fell), snow and sleet, to the accompaniment of thunder and lighting. This (Monday) morning was quite sharp, the thermometer showing 9 degrees above zero. This is cold, but a year ago this morning it was 3 below. A year ago to-morrow was Easter Sunday. It was a genuine winter day, 4 below zero, with good sleighing and 15 inches of snow on the ground.—W.P.

Because she is teaching her pupils that the earth is flat, Mrs. C. E. Critchlow, a Palm Beach, Fla., school teacher, has been asked to resign.

But They Did See Cupid!

John M. Connors, blind soap salesman and newspaper vendor in New Orleans, gave a lecture one day at the Mississippi School for the Blind. He told how he, though sightless, had won his fight. After his talk, he confided to an instructor how mighty lonely he was. The instructor gave him the names of several blind pupils to whom he might write. One was Katie Blackledge of Bethel, Miss. Now John and Katie have a little "love nest' in New Orleans. They're spending their honeymoon there.

PRESENT GOVERNMENT IS NOT STABLE ENOUGH

TORONTO, March 31 (Special to The Examiner). — A London cable says: "There exists the belief in some sections of Labour, and almost universally outside of Labour, that the MacDonald Cabinet is not strong enough to weather the coming storm.

In this case dissolution, with a general election, is not far off, and may be fought out in accompaniment to big strikes and lock-outs.

Former Premier Baldwin is evidently of this latter opinion, as in a telegram to the conference of the Yorkshire Unionist Clubs yesterday he said:

"The Conservative Party is the present bulwark against revolutionary Socialism. I look to our Yorkshire clubmen to do their duty to the King and country in our coming fight.'

"This language is usually used by the party leader only on the eve of an election, and personally I believe the chances are even that Premier MacDonad will not last more than another six weeks, if so long, in office.

WHOLE WORLD TO HEAR KING GEORE'S ADDRESS

LONDON, March 31 (Canadian Press). — King George will deliver an address that is expected to be heard around the world at 11.30 a.m. (Greenwich time) on 23rd April, when he will formally open the British Empire Exhibition at Wembley.

For the first time in English history the actual voice of the monarch will be broadcasted and heard simultaneously in the homes of hundreds of thousands of his subjects who have seen him in public, but have never heard him speak, and by hundreds of thousands of others who have never even viewed his Royal person.

The King's actual speech may not carry to the ends of the Empire by wireless, but the underrea cables will take his message where the air waves fail.

As soon as the words leave his mouth they will be flashed from a special station in the Exposition grounds along the all-British cable route across Canada to New Zealand and Australia, thence to India and South Africa, and back to Wembley, thus encircling the world, the Imperial cable stations completing the circuit within five minutes.

THE FIRST FATALITY OF BASEBALL SEASON

MEMPHIS, Tenn., March 31, — (Canadian Press). — William E. Davis, 17, died late last night after being hit by a pitched ball in a game yesterday afternoon, the first fatality of the 1924 baseball season.

Davis regained consciousness after being struck, and went home on the street car, unaided, but collapsed upon arrival.

Developing New Wealth in Porcupine Gold Fields

We own 100 selected mining claims in the Porcupine gold area, located in Tisdale, Whitney, Deloro, Shaw, Cody and McVittie Townships.

Our mining experts and diamond drilling outfits are constantly on the move, followed by geologists and engineers, where ore veins are uncovered.

The plan of operation is to prove the value of a claim by initial development to make it available for sale to capitalistic interests.

Subscribers to the fund out of which our operations are financed, share in all profits.

There is no personal liability.

Write for booklet and information.

WARKWORTH RUMORS OF GRAFT IN HYDRO BOND SALE PROVED BASELESS

Village's Intention to Issue Debentures Was Read By Toronto Bond House in the Peterboro Examiner — Debentures Are Unsigned Awaiting Audit of Village Hydro Commission's Books.

ELECTION ISSUE.

(By a Staff Reporter).

WARKWORTH, March 31. — Probably no community ever had as hard a fight to secure the benefits of Hydro as did the police village of Warkworth. It was an ambitious move for so small a place, and the first problem was to convince the Hydro Commission that it could be made to pay. A transmission line had to be built from Bradley's Corners, about five miles away. Then there was opposition both within and without the village, the situation being specially peculiar owing to status of Warkworth, the management of those affairs of importance was really in the hands of the Township Council, on which the village had no representative.

In order to get Hydro power and light it was necessary for the village to incur a debt of $11,000, to be provided for by a debenture issue, the bonds to be guaranteed by the township as a whole. There were not lacking persons in the rural sections who, perhaps for lack of understanding of the situation, contended that the township residents were required to help pay for the "great white way" of the village. The guarantee of the bonds was a mere formality. Warkworth has an assessed value of $80,000, probably about half of its real material worth, and not a cent of debt outside these debentures. There was little danger of the village, one of the wealthiest in Ontario, defaulting; and as soon as it was settled that the bonds were to be issued, a purchaser appeared.

The Bond Issue.

This Hydro problem has figured in the municipal elections in Warkworth for years, and the fight was waged with more than the usual bitterness last January, when all but one member of the council were defeated. The bond question is still acute here. It is claimed that the township Council had no right to dispose of the debenture—that this was a matter that belonged to the village commissioners. The bonds were disposed of by private sale instead of being advertised, and there was objection to this also. That an audit of the books of the commissioners was demanded, and this is now being made by order of the Council and is still in progress. The report of Auditors Bowen and Smith will be presented to the Council at the next regular meeting on April 7th.

Ex-Reeve Herniston Speaks.

Ex-Reeve Herniston says that while last year's Council may have erred in some details, yet, in the main, their action was legal. The Council had to issue debentures when the villagers asked that this be done. The law, he says, is clear on that point. The bonds were disposed of at private sale without the expense and delay of advertising, because it was felt that the price offered by a representative of the Bird, Harris Company, of Toronto, 105, their first bid being 102, was considered the best that could be obtained even if the issue had been advertised. Township solicitor I. A. Humphries, of Campbellford, was consulted, and the Council was guided by his advice in every step which they undertook.

It was found that the time required between the second and third reading of the by-law providing for the bond issue, had not been allowed to elapse by the Council of 1923; so to make everything legal, the new Council were required to give the by-law a third reading. Now, Reeve McCubbin and Treasurer Bryce refuse to sign the by-laws until the audit above referred to is completed. A petition, signed by sixteen of the ratepayers of the village, having been presented to the Council asking that this action be taken.

Village Saving Money.

The bonds bear interest at the rate of 6 per cent. As the issue sold for 105 this reduces the interest charge to about 5½ per cent. The village, while the sale of the bonds is held up, is paying the Hydro 7 per cent. on a debt of $1,000, and is paying 6½ per cent. on $8,000 borrowed to carry them over until the money for the bonds is received.

Reeve McCubbin has been authorized to secure legal advice before signing the bonds. Some of the residents of Warkworth are not slow to declare that any expense, due to the excess interest they are now paying, or to any other cause, will not be borne by the village, but by the township in the last analysis.

Talk of Graft.

There has been talk of graft in connection with the sale of the debentures, some people maintaining that the fact that there was a purchaser for the bonds on hand before the issue was made public tended to show that the Toronto firm had been notified, for a consideration, by some party here.

Township Clerk P. S. Ewing wrote the Toronto firm with regard to this point and has received an emphatic disclaimer, the letter being on file in the clerk's office. The first intimation that the firm had was through reading in The Peterborough Examiner that the issue had been decided upon. The investment was regarded as a gilt-edged proposition, hence the haste of the firm to get in on the ground floor.

It is pointed out that it is nothing unusual for a municipality, whose credit is unimpaired, to receive bids for debentures before they are advertised. Campbellford had offers for its high school debentures before they were put on the market. The question of advertising is left to the discretion of the Council. Warkworth's bonds might have been sold locally, but it is douhtful whether any local bid would have exceeded, if it had equalled, the 105 received.

Hydro is Flourishing.

Warkworth pays $85 a horse-power for its light and power. This figure may appear excessive, but in actual practice the cost does not look so serious. One patron of the system, who has 26 lights, an electric range, vacuum cleaner, toaster and iron in his residence, pays $5 a month. His highest monthly bill since the system was installed was $6.90. The commission is steadily accumulating a surplus which, next year, will be applied to a reduction of the rates. There are new patrons constantly coming in, and the local lineman is unable to keep up with the orders for wiring houses.

BOY'S BAD COLD TURNED TO BRONCHITIS

The frequency with which bronchitis develops into pneumonia is appreciated by very few mothers. The danger of pneumonia is, probably, well understood too, but how many mothers take into consideration that a neglected attack of bronchiti is frequently leads to this dangerous disease.

We would advise all mothers to give their children Dr. Wood's Norway Pine Syrup the first moment they show any symptoms of a cold or cough as by doing this they save them from an attack of bronchitis or pneumonia.

Mrs. Lawrence Quick, Sandwich, Ont., writes:—"My little boy, six years old, had a bad cold which turned to bronchitis. I tried every thing I thought would be best for it but did not see him getting any better. I was told to try Dr. Wood's Norway Pine Syrup, and after giving him two bottles he got wonderful relief. I cannot praise it enough."

Price 35c. a bottle; large family size 60c.; put up by the T. Milburn Co., Limited, Toronto, Ont.

RADIO PROGRAMS

MONDAY, MARCH 31.

KDKA, PITTSBURGH—326

8.15 p.m.—University of Pittsburgh Extension Course—Opening night, with music by the Pitt male quartet, and addresses by representatives of the school.

8.45 p.m.—Concert by the KDKA Little Symphony Orchestra, conducted by Victor Saudek, assisted by Barbara Bess Wellman, contralto; William Hasselman, baritone.

WBZ, SPRINGFIELD—337.

7.40 p.m.—Concert by WBZ Trio.

WLW, CINCINNATI—390

9 p.m.—Special concert from the College of Music; Ladies' quartet—Florence Teal Wats, Carry Schaefer, Nora Beck Thuman and Bearix Williams Chipman; violin solos by John Eversman; piano solos and accompaniments by Miss Dorothy Stoizenbach and Mr. Clifford Lang.

WHAZ, TROY—380.

9 p.m.—Program by four blind artists, under the direction of Thompson Courtney of Troy, N.Y., pianist, assited by the Capital District Harmony Boys' Trio, composed of Joseph Carroll of Albany, Frank Hackett of Cohoes and John Nugent of Troy.

9.45 p.m.—Garden Talk by John Jeanin.

10.45 p.m.—Program of popular dance music by the Campus Serenaders. Rensselaer Polytechnic Institute Students' Orchestra.

WWJ, DETROIT—517.

7.00 p.m.—The Detroit News Orchestra; the Chapel Four, Miss Albertine Schmidtke, soprano; Mildred Williams, contralto; Paul Herbster, tenor, and Henry Horn, bass; Lenten speaker.

WOC, DAVENPORT—484.

7.30 p.m.—Sandman's visit.
9.00 p.m.—Musical program; Erwin Swindell, Musical Director.

WGY, SCHENECTADY—380

7.15 p.m.—Address, "The Essentials in Co-operative Marketing Movement," H. E. Babcock.

THE REASON FOR ALUMINUM

Because tea deteriorates very rapidly if exposed to the air many tests and experiments have been made to find an efficient means of packing it so as to preserve the flavor. The "Salada" Tea Company first used lead packages but some years ago adopted aluminum foil, aluminum being more durable and lighter than lead, besides of course being absolutely sanitary and air-tight. This method of packing tea is admitted to be the most effective known to preserve the flavor of the tea. All "Salada" is sold in air-tight aluminum packages.

COBOURG AND DISTRICT

COBOURG, March 31.—Rev. Canon Sawers has been transferred as chaplain from the Prince of Wales Dragoons at Peterborough to the Cobourg Heavy Battery, with the rank of major.

Chancel Redecorated.

The chancel of St. Peter's Church here, of which Rev. Canon Sawers is rector, has been redecorated, and the church will be opened for service next Sunday. Mr. P. Bradbury did the work. The services last Sunday were held in the Parish Hall.

Plainville W.M.S.

At the last meeting of the W.M.S. of Plainville Methodist Church the following officers were elected:

President—Mrs. Frank Westington.
Vice-President—Mrs. Frank Halligan.
Secretary—Miss Sarah King.
Treasurer—Miss Stella West.
Organist—Miss Beatrice Timlin.
Corresponding Secretary—Mrs. M. F. Ames.

Presentation at Bethesda.

Mr. Everett Phelp and his bride, before her marriage Miss Irene Chestnut of Welcome, were given a pleasant surprise at their home at Bethesda, when about sixty-five members of the Bethesda church gathered at their home to spend a pleasant social evening with them. At an opportune moment the presentation was made on behalf of those assembled of two beautiful chairs to Mr. and Mrs. Phelp. Mr. H. Tinney read a suitable address, and the presentation was made by Messrs. Wilbar Simpson and Stuart Morton. The evening was pleasantly spent with games and music. A dainty luncheon was served by the ladies.

Setting Out Walnut Trees.

A walnut plantation of between 1,200 and 1,500 trees is being set out on the farm of Mr. A. A. Rolph, Clarke Township.

Death of Former Resident.

Edward Mersiam, a former resident of Cobourg, has passed away at Pittsburg, Pa., where the family removed to from Cobourg a year or two ago. He was a man who was generally esteemed during his residence here.

Death of Mr. David Kernaghan.

The death of David Kernaghan, an esteemed Lakeport citizen, took place at the hospital here following an operation for appendicitis. He married Miss Conroy of Haldimand Township, who survives him with a family of sons and daughters. He was 60 years of age.

Death of George S. Morrow

George S. Morrow, a former Darlington township resident, who went west about five years ago, died in Winnipeg on Thursday last. He was a carpenter and a builder. He leaves a widow and family, a brother John Morrow and two sisters, Mrs. Frank Everson and Miss Morrow, residing at Courtice.

Farmers Moving in Newcastle District.

Mr. Sam Fudge has sold his farm near Newcastle on the Provincial Highway, and is returning to Toronto. Other changes in the locality are Jas. Clark is moving to the Burnham farm, on the lakeshore, and Mrs. Thomas Powell is moving upon the farm he is leaving; Mr. Fred Parker is moving to his new home on the Lakeshore, and Mrs. Robert Reid is succeeding him on the Dr. Farncomb farm.

Several Auction Sales.

James McCartney of Darlington township had a sale of farm stock and implements to-day. Mr. Samuel Fudge of Clarke Township held a similar sale to-day.

Presentation at Bethel Grove.

A few evenings ago about twenty friends from Bethel Grove drove over to the Zealand farm, near Port Hope to honor Mr. and Mrs. Herbert Moore, who had recently moved there. In appropriate words at a timely moment, Mr. and Mrs. Moore were presented with a clock and a cold meat fork, while those present united in wishing their host and hostess abundant health, happiness and prosperity in their new home.

Hobart—Bradley.

The marriage took place on Monday at the Baptist parsonage, at Colborne, Rev. L. H. Coles officiating, of Miss Dorothy Bradley, daughter of Mr. and Mrs. C. A. Bradley, Grafton, to Mr. Charles H. Hobart, of Cobourg. The bride was unattended. Mr. and Mrs. Hobart left afterwards for a trip to eastern points before taking up residence near Cobourg.

CHURCH UNION CAMPBELLFORD

Dr. A. H. Denoon Spoke in Support of Organic Union Yesterday—Two Sides of Question.

CAMPBELLFORD, March 31. — Carrying out the programme arranged some time ago by the session, to have two outstanding speakers discuss the church union question, from different standpoints, Rev. Dr. A. H. Denoon, pastor of the Avenue Road Presbyterian Church, preached at both services in St. Andrew's Church yesterday, in support of organic union. Selecting as the Bible lesson in the morning the same passage, the 17th chapter of the Gospel of St. John, and choosing the identical text, verses 20 and 21, as was used by Rev. T. Crawford Brown, who spoke in opposition to organic union from the same pulpit, the previous Sunday, Dr. Denoon placed an entirely different interpretation upon the spoken words of the Saviour, where he prayed that all who believe in His teachings should be one even as the Father and Son are one.

Beginning his address by thanking the members of the session for permission to speak in the church, Dr. Denoon preached for over an hour, presenting his side of the case, without any sign of bitterness or prejudice. Only once in the morning did he make direct reply or reference to any statement of Rev. T. Crawford Brown on the previous Sunday, and that he did without mentioning Mr. Brown's name. It is not fair to say, Dr. Denoon contended, that organic union was first conceived in the mind of a professor who spent only a short time in Canada. Neither is it fair to say that the movement is a conspiracy on the part of some of the leaders to get possession of the property to to disrupt the church. The latter charge he characterized as a libel upon the living and the dead, men who from the highest Christian motives had worked for church union from the beginning.

History of the Movement.

Dr. Denoon, who was formerly a missionary and a pastor in the west, and who spent three years as a chaplain overseas, gave a concise history of the church union movement, a knowledege of which, he said, was essential in order to properly understand it. The movement began about 30 years ago in the west when the pioneer workers found there was overlapping of effort.

In 1899 the Home Mission Committee of the Presbyterian Church, took up the matter, and at their request the General Assembly appointed a committee to confer with the committees of the Methodist and Congregational churches. This joint committee met three times in as many years and voted that no missionary should be sent into a field where one was already stationed.

In 1902 a definite proposal for organic union came from the Methodist General Conference, which met that year in Winnipeg. They asked the Presbyterians to appoint a committee, and the assembly referred the question to the committee corresponding with other churches.

This committee passed a resolution to the effect that organic union was both desirable and practicable. The joint committee representing the three churches, met and passed a resolution, stating that in the opinion of the members organic union was desirable, feasible and practicable. The members of the committee were unanimous, they had seen the overlapping of effort and had a vision of a united church. They agreed that union could be consumated without the sacrifice of principle. Organic union was conceived in the minds of gifted and godly men.

Basis of Union.

Dr. Denoon next took up the basis of union which he dealt with under five heads—doctrine, policy, ministry, administration and law of the church.

Few Presbyterians, he said, could find any difference in the doctrine as proposed for the United Church and that taught in the Westminster Confession of Faith. It should be remembered that the Confession of Faith had been drawn up in the days of controversy and contained some doctrines that had probably been over-emphasised.

The speaker said that at the beginnig, while he was pastor of a church in Halifax, he had been opposed to church union, but he had consulted with leaders in the movement, and had received from them the assurance that the doctrine of the proposed new church was in keeping with the teachings of Scripture. He accepted this view convinced that if this doctrine could be accepted by men who had spent their lives teaching doctrine it was good enough for him. Any one can accept the doctrine with the assurance that it is in line with the teachings of the church in the past.

Question of Policy.

Dr. Denoon maintained that the policy of the proposed United Church is distinctly Presbyterian. The session and the Presbytery are retained. The synod becomes the conference, which is to meet every two years. It is time that the ordination of ministers is to rest with the conference, but before this is done the candidates for the ministry must be recommended by the Presbytery, who also examines the candidates. The ordination by the conference is an additional safeguard. The policy is essentially Presbyterian as it is representative government in its highest form.

The Barrier Act is retained in the new policy, and before the general conference can make any change in the doctrine of the Church the consent of the people must be secured.

"We are not putting anything over on our Methodist friends," said Dr. Denoon, "but for some time their doctrine has been approximating ours."

Before a young man can begin to study for the ministry the session or presbytery must recommend him, every year while he is at college he must be recommended by the presbytery who, at last examine him and recommend him for ordination.

Calling a Minister.

If the three churches are united any congregation can extend a call to a minister and the Settlement Committee will place him when he is called. Under the present regulations a presbytery has the right to set aside a call and send a minister to a church that has not called him. A minister can remain in a church as long as he likes, and as long as the congregation want him. A congregation can call a minister now, but it is sometimes not too easy to get rid of him. In the United Church every needy congregation will have a minister and every minister will be given a charge.

The Enabling Act.

Dr. Denoon said that the Church Union Bill now before the Provincial Legislatures and the Dominion Parliament is simply the embodiment of the principals agreed upon by the three churches. Referring to the majority vote of one in favour of church union in the committee of the Legislature, Dr. Denoon said:

"Are we going to allow Anglicans and others to tell us that the voice of the churches that have spoken is not sufficient?"

The speaker advised his hearere to examine and study carefully the basis of union. There is a great work for the church to do. In the province of Alberta 43 per cent. of the population are non-Anglo-Saxon and in Saskatchewan 51 per cent. are aliens. In the city of Toronto 58,000 of the people are not Anglo-Saxon.

If it is proposed to bring these people into the light of Christianity, the work cannot be accomplished by a divided church.

Declaring that he believed in organic union with all his heart, the speaker went on to tell of his work overseas where he spent two years on the battle front. When he ministered to dying or wounded men, none ever inquired to what denomination he belonged. He does not believe in diversity in union, but in the unity that really makes the three churches one.

The Evening Service.

In the event of the consummation of church union how will the congregation of St. Andrews' church in Campbellford be affected?

That point, upon which so much difference of opinion appears to exist locally, was made clear by Dr. Denoon in his evening discourse. Two alternatives would be open to the people. They could vote to enter the union and at the same time decide to continue as they are without change of ministers or officials, or they could by a majority vote, adopt the form of government of the United Church.

The text chosen by Dr. Denoon for his evening sermon was the words of Paul to the Corinthians, "We are one in Christ Jesus," and a large congregation, made up of representatives from the various evangelistic churches of the town, listened with the closest attention to a clear and forceful exposition of the principles of organic union.

Organic union, he said, had been pure in its origin, regular in procedure and every step in its development had been constitutional. The late Dr. Cavan, principal of Knox College, was quoted as saying that where there were no conscientious scruples at stake the churches should unite to heal the schism in the body of Christ. The Anglicans and the Baptists had been asked to join the union movement but had refused.

The Presbyterians are not sacrificing anything in doctrine, policy or administration. The doctrine of the United Church is pure and simple, the policy is Presbyterian and the ministry is safeguarded.

Professor Curtis, of Edinburgh, has published an article in which he says that the proposed United Church of Canada is Presbyterian and that in policy and doctrine it is in line with the Church of Scotland. This was proof that in the judgment of competent men there is nothing to keep the United Church and the Church of Scotland apart.

How Denominations Voted.

When the basis of union was passed upon by the three churches interested the Congregationalists voted on the question in separate congregtaion.

The Methodists in general conference adopted it by a two-thirds vote.

The Presbyterians supported it by a majority in the assembly and 53 out of 66 presbyteries pronounced for it.

In 1911 and in 1915 the people of the Presbyterian church voted for it. There is nothing in the government of the church that requires a popular vote, but this question was so important that it was deemed best to give the people a chance to express their opinions. In that year a majority of the adherents, members, elders, presbyteries, the synod and the assembly declared for organic union.

In 1915 another vote was taken and it was clearly understood that the issue would depend upon the result of that vote. Fifty-six thousand members and 53 presbyteries were in favour of union and the assembly of 1916 voted for it, the record being 406 to 90.

The assembly of 1917 decided to defer the consideration of the question until the second assembly after the war. It was claimed that there were thousands of young Presbyterians who were in the military service in 1915 and who did not vote on the question, but Dr. Denoon contended that the majority of these voted before they went overseas, as he himself did.

Another objection urged by those opposed to union is that the membership of the Presbyterian church has increased since 1915 and for that reason aonther vote should be taken.

Dr. Denoon contended that these new members understood that when they joined it the Presbyterian church was committed to organic union.

In 1916 there were only about 16 union or co-operative churches in the west. The growth of union had been slow for the previous 17 years but since the churches have declared for it, union churches have sprung up all over the country. In some places it is the Presbyterian churches that are closed, in others the Methodist.

If organic union is a good thing for the mission fields of the west, it should be adopted in Toronto and the other large centres.

In 1917 the assembly decided to foster these union churches and now there are 1,245 representing about 3,000 congregtaions in existence.

Benefit of Union

Organic union would make for economy but that is the smallest and weakest reason that can be urged in its favor. It would save money and men. Ninety-five per cent of the foreign misionaries are in favor of union. There are in the home mission field 521 charges that receive $300 a year and of these 296 have sixty families or less.

The East needs union just as much as does the West. The rural sections are becoming depopulated so that the churches are finding it difficult to maintain themselves. In the Presbytery of Halifax alone there are 28 congregations in which some form of union exists. A great deal has been accomplished since 1916 but a great deal remains to be done.

Dr. Denoon is convinced that organic union will make for efficiency and righteousness. The will of the majority, he says must prevail in the church as in the state. We should in deciding the question drop all personal feelings.

"Some people," said the speaker, object to giving up the name of the Presbyterian church. For my own part I love the church but I love Christianity better and if I can advance the cause of Christ by giving up the name, Presbyterian, I am prepared to do so.

"In the United Church, we are going to have the order of the Presbyterianes, the fervour of the Methodists and independence of the congregationalists. All the vital things in our doctrine and policy are retained to us. By uniting our forces we can do much to strengthen the life of our countrfy.

Veteran In the Service

One fact that has been remarked on here since these special speakers have been heard is that while the one opposed to union is a man in the prime of life the pastor who spoke yesterday in its favor is a veteran whose locks have grown scant and while in the service of the Presbyterian church. Dr. Denoon says that it cost him some effort to cast in his lot with the unionists. His mother from whom he learned his first lessons in the ruditions of the church was opposed to union until her death. The congregation in Halifax where he was pastor when union was first proposed were not in favor of it. But the Doctor in time became convinced that in this way the prayer of Christ for a united body of believers could the sooner be fulfilled.

Dr. Denoon has a son who next summer will work in the mission field in the West where union is said to be so badly needed and where the father labored in the early days of his ministerial life.

HASTINGS AND THE DISTRICT

No Unemployment in the Town -- Personal News of Interest.

HASTINGS, March 31.—Hastings can boast of no lack of employment at the present time. The Hastings Foundry and Mr. McGrath's sawmill are running to full capacity, and the Hastings Tanning Company are also busy. The latter have six cars of finished leather to be rushed out at once.

Saturday's Storm.

The first electric storm of this year passed over here on Saturday evening. A remarkable feature of the storm was that a heavy flurry of snow and hail fell, while the lightning and thunder was flashing and rolling. Two years ago last month another such storm prevailed one Sunday evening. Some of the old-time weather prophets say this is a sign of a cold and backward spring.

Miss Sabra Huycke.

Word has been received here by relatives of the sad death of Miss Sabra Huycke, who died in Peterboro on Sunday, March 30, 1924. Miss Huycke was born here in Hastings, and lived here for some time, leaving here for Peterboro with her parents.

Her father and sister Gertrude and brother Asa are the surviving relatives.

Mr. L. T. Huycke and Mr. Chas. Huycke, both of Hastings, are uncles of the deceased.

The sympathy of the community is extended to the family.

Moving to Peterboro.

Mr. Stanley Stevenson spent the week-end with his parents. Stanley has accepted the position of treasurer of the Grand Opera House, Peterboro, and will be missed in the sports here for this season, as he played both lacrosse and baseball.

General News

Mr. Chas. Davidson of Campbellford will be at the Claredon House Hastings on Tuesday, April 1st 1924 to issue auto license from 9 a.m. until 5 p.m.

Maple Syrup is coming in for sale the prices for some arranging from $2.00 to $2.50 per gallon.

Miss Lillian Condon of Lakefield, is the guest of her cousin Miss Eva Barry.

Mrs. W. T. Tate is visiting at the home of her daughter Mrs. J. G. Staples in Lindsay.

Mr. E. A. Fairman spent Sunday at his home in Campbellford.

Mr. J. C. Wilson has accepted a position in the shipping department of the Hastings Tanning Co.

Miss Rosamond Hubbs spent Saturday in Peterboro.

Mr. A. U. Bailey and son Paul wkere visitors to Peterboro on Saturdayy.

Mr. Arthur Armour of Campbellford was in the village on Friday.

Miss Laura Walsh has returned from visiting friends in Peterboro and Lakefield.

Mr. R. Chapman of Keene spent the week end at his home here.

Miss Muriel Cruickshank was in Campbellford on Thursday.

Mrs. W. Atkinson and son Percy of Peterboro are spending a few days at the home of the former's mother, Mrs. S. Carter.

Mrs. J. Cruickshank spent Thursday in Campbellford.

Miss Lillian Montgomery was in Peterboro on Saturday.

SEVEN YEAR OLD CHILD KILLED BY AUTOMOBILE

TORONTO March 31 (Canadian Press). — Running in front of an automobile at Dundas and Dufferin Streets on Sunday afternoon, Jack Sullivan, aged seven, of Harrison Street, was knocked down, and so badly injured that he died two hours later in the Hospital for Sick Children.

The automobile was driven by John Wynne, Perth Avenue.

A bit of solder and touch of flux make the best connection.

DOMINION WIDE POSTAL STRIKE ON APRIL 14th

Unless Salaries of Postal Employees in All Branches Are Revised Upward, National Strike Will Be Instituted.

IMMEDIATE ACTION

TORONTO, March 31. Canadian Press. — A strike of postal employees of all branches of the service will begin on April 14th, unless the Federal government by that date has revised upward the salaries of thousands of employees of its postal department.

The strike will be national in its scope. The votes of local branches of the different organizations which comprise the Canadian Federation of Postal Employees, are 96 per cent. in favor of a strike if the government fails to meet their demand. They have been sent from every part of Canada to the officials of the Federation in Toronto.

The date of the strike was fixed yesterday at a meeting in the labor Temple, held under the auspices of the Federation, and presided over by M. Crosby.

The meeting was called to give every employee of the service an opportunity to hear a report from the deputation which had been despatched two weeks ago to Ottawa, when the employees were informed, through a press despatch, that the bonus that they had been receiving would be cut 50 per cent. The report which was presented by G. R. Jackson, chairman of the Federation, and an official of the Railway Mail Clerk's Association, wa considered unsatisfactory, and as an attempt upon the part of the Government to evade the questions put before it.

Inform Premier.

In the message which will be wired to Premier King to-day, the decision of the Federation will be formally communicated to the Government. Mr. Jackson refused to state the date upon which the service would cease to function, explaining courtesy compelled the Federation to give its decision in its entiret, to the government before making it public.

Mr. Jackson intimated that discussion of the bonus was over, and that the government must at once revise upward the salaries of the postal employees. He claimed this revision could be made within a few days, since the postal department had already been reorganized.

EAST EMILY BARN STRUCK IN STORM

Two Animals Killed and Young Farmer Knocked Unconscious.

EAST EMILY, March 31.— On Saturday evening during the progress of the thunder and sleet storm the barn of Mr. Evans Storey, was struck by lightning. The cattle in the barn were stunned and one heavy registered animal was killed and also one ewe. Mr. Esmond Storey son of Mr. Evans Storey who was in the barn at the time was knocked unconscious but this morning is able to be around although still suffering from the effects of the shock. The barn was badly damaged.

Ten years ago Mr. Evans Storey lost a barn by lightning and last year his house was struck but not destroyed.

SNOW AND THUNDER IN THE ONE STORM

Weather Sharps Say This Means Cold Weather and Late Spring.

CAMPBELLFORD, March 31. — The people of this town on Saturday evening witnessed the rare phenomenon of snow falling to the accompaniment of heavy thunder and vivid flashes of lightning. Those who profess to be learned in weather lore says that this indicates a spell of cold weather and a late spring. Last evening an infant blizzard made it uncomfortable for the worshippers on their way to and from the different churches. The ground at the time of writing is covered with snow.

Sale of Cooking.

The ladies of St. Mary's Parish held a very successful sale of homemade cooking on Saturday afternoon and they wish to thank all those who assisted in any way. The net receipts amounted to the handsome sum of $165.35.

There were three guessing contests, the winners of which were as follows:

Prize donated by Charles Black, won by Edmund Blute.

Cake donated by Mrs. Daniel Black, won by Mrs. Peter Corkery.

Jar of cakes, donated by Mrs. Michael O'Donahue, won by George Nicol.

Mr. Black Undecided.

Rev. N. H. MacGillivary, pastor of the Presbyterian Church in Orillia, to which Rev. J. J. Black, of Burnbrae, recently received a call to become assistant pastor and director of religious education, was in town Saturday and went out to Burnbrae to urge Mr. Black to accept the call. Mr. Black promised to give a definite answer in a few days.

Home From New York.

Dr. E. F. and Mrs. Richardson have returned from New York, where they have been since Christmas, and where the doctor took a special course in one of the hospitals in that city.

AT THE REGENT.

The programme for the week at the Regent Theatre is as follows:

Monday, Tuesday and Wednesday — "The Count of Monte Cristo," the dramatization of Alexandre Dumas' famous novel of that name. This is one of the most thrilling pictures ever shown on a screen in Campbellford, and is well worthy a generous patronage.

Friday and Saturday, with usual Saturday matinee—Priscilla Dean in "The White Tiger." Miss Dean is always a favorite with a Campbellford audience.

There will be no picture shown Thursday evening as the theatre has been engaged by the Twelve O'Clock Club for their fortnightly dance.

A tramp, footsore and hungry, approached a man ploughing in a field by the roadside. "Say, boss, it's gettin' dusk, can I stay at your place all night?"

"I dunno," was the cautious reply. "You'll have to ask the old woman. I can hardly stay there myself."

HOUSING AND LABOUR.

The Labour Party of Britain has made the housing problem particularly its own—in its public propaganda, says the Brandon Sun. It has, however, sought to make it a state task, this adequate supply of dwellings to help in upbuilding good citizenship. What may come of all the talk remains to be seen at no distant date. The present Government accepts the matter as a social problem such as transportation and education. The administration is going to propose the building of 120,000 houses a year to rent for nine shillings a week. The fate of the plan before Parliament is problematical. There is some suspicion of the labour unions who have forced the hands of the Government in this matter.

The main cause of the housing shortage in Britain is undoubtedly due to the restrictions placed by the unions on the bricklayers. The output of labour has been so reduced by union regulations that it does not pay to erect houses. The "ca' canny" rule in the building trades has produced unemployment in an industry that absorbs much labour as it has prevented investment of capital in dwellings. Those who were loudest in demanding houses and better housing are actually most responsible for the dearth of homes. The unions defeated the law of supply and demand and caused suffering among the people as well as all the evils of overcrowding and the ill-effects of inferior dwellings for use as family protection. The ideals of family life are destroyed when no decent homes are available to the people.

AN EXPERT NEEDED.

The present session of the Ontario Legislature should not pass without the appointment of a permanent financial controller for the Province, or at least without the passing of legislation authorizing the Government to select such an official.

The Premier announced soon after he came into power that a controller would be appointed, but afterwards intimated that there was difficulty in finding the proper man, owing to the high value financial experts put upon their services.

Undoubtedly to secure an official with the proper qualifications the Province will have to pay handsomely, but an experienced and competent financier, given authority enough to ignore political influences and run the financial operations of Ontario on a business-like basis, would be worth a big salary.

The revelations before the Public Accounts Committee of gross incompetency on the part of the Hon. Peter Smith in particular and the Drury Government in general, incompetency that resulted in the Province paying out in buying tax-exempt issues sums many thousands of dollars above the market value, show how useful an efficient financial controller could be.

All treasurers of course are not Peter Smiths, but few of them have the technical efficiency to guide the financial affairs of the Province with the utmost accuracy.

The services of a financial expert should be available at all times for that purpose, even if it will be necessary to pay a salary much bigger than the Premier receives.

A LABOUR VICTORY.

The bill to amend the Workmen's Compensation Act has been withdrawn by the Ontario Government as a result of the strong opposition offered by labour organizations to the proposed changes in the administration of that measure.

The amendments were considered by the Government to have been in the interests of labour, but the workers themselves could not see the matter in that light, and their attitude is not unnatural.

As the Examiner pointed out when Mr. Nickle's bill was introduced, the feature about the Workmen's Compensation Act that most appealed to the people for whose benefit the measure was framed was the absence of the element of litigation from the operation of the Act.

Its working was simplicity itself, and that phase was appreciated by labor as a refreshing change from old conditions, under which an injured workman often had to choose between accepting an inadequate compensation for his injuries or engage in litigation which, with his case carried from one court to another, usually left him the loser.

The introduction of an amendment thereto that provided for an appeal board, even if the privilege of appealing would perhaps work out to the advantage of the injured worker much more frequently than it would help his employer, was not hailed with enthusiasm in labour circles, and the Government has hastened to withdraw its legislation, doubtless feeling that from a political standpoint there would be no advantage in putting a measure that no matter how beneficial it might prove labour did not want.

PAGE PETER SMITH.

The Legislature, which was expected to wind up the session this week, may sit for several weeks because of the amount of work that the Private Bills and Public Accounts Committee still have in hand.

The fact that this will afford an opportunity for a thorough investigation of the financial operations of the late government will be appreciated by the public, anxious that the revelations already made by the Public Accounts Committee should be followed up.

In this connection there is a general desire to hear from the Hon. Peter Smith.

So far the former Provincial Treasurer has not been called upon by the committee, but as the inquiry could not possibly be considered complete until he has been heard, he will undoubtedly be given an opportunity to explain.

The people of the Province are eager to learn how unknown brokers could walk into his office and sell him bonds at par that could have been obtained by him at many points below that figure.

And there are several other matters upon which the Hon. Peter might be expected to throw some light.

So far he has remained silent.

Silence is an admirable quality sometimes, but not in the case of a former Cabinet Minister charged with almost unbelievable financial incompetency.

Peter Smith should be heard.

THE C.G.E. EXPANSION.

The announcement that the Canadian General Electric Company proposes to make a $400,000 extension to its local establishment, will be received with much satisfaction by the citizens of Peterborough, particularly as this addition is regarded as the beginning of an era of expansion that will see the present capacity of the local plant greatly enlarged, with a consequent increase in the working force and a general impetus imparted to business.

The company is accepting the city's offer to extend the present fixed assessment for 3 years, and the Council will at a meeting to-night pass a by-law providing for a vote to be taken on this question next month.

The Examiner feels that the people of Peterborough will have little hesitation in approving of this concession, in view of the benefits that will accrue from the enlargement of the C.G.E. plant.

Were a new industry to come along and offer to spend between $300,000 or $400,000 on building and machinery there is no doubt but that the citizens would favour a fixed assessment being granted.

There is no reason to suppose then that in the case of an old and long established local industry which has played such a prominent part in the building up of Peterborough there will be any less favourable reception accorded.

The vote should be large enough to show the officials of the Canadian General Electric Company that Peterborough appreciates the value of the plant to the community and welcomes the announcement of the beginning of a programme of expansion.

A STEP BACK IN INDIA.

Those who are interested in the welfare of India—quite apart from her value to the British Empire—will note with deep regret that the Viceroy has been compelled to exercise his power to "certify" such measures as a finance bill to the Council or State (or Upper House) as essential to the welfare of the Empire of India, in which case they can be put into force, even though previously rejected by the largely elective Legislative Assembly. The Council of State has now adopted this year's Finance Bill or Budget which the Assembly had voted down.

This means that the Viceroy has been driven to revert to the old system of governing India—in this regard at all events—without reference to any Parliamentary body. It signals the failure, thus far, of the new Montague-Chelmsford scheme for an experimental measure of Indian self-government. Obviously, some sort of a budget must be passed or the Indian services could not go on. The Swaraj majority in the Assembly refused to pass the Budget proposed by the Executive, knowing perfectly well that this would not kill the budget or drive the Executive from office, but would strike a blow at the Montague compromise.

The Swarajists are consistent in demanding that their Home Rule shall be supported by control of "the power of the purse." But the British authorities are not ready to go that far yet. They desire, in a word, to work a sort of "limited liability" revolution in India. But revolutions have never yet recognized any such restriction. They always want to go full circle. So the Swarajists have set themselves deliberately to proving the present partially autonomous institutions to be unworkable. They think the result will be "more autonomy." But it is just possible that the British authorities may deduce rather that, as the limited measure of autonomy possible under present conditions has not been accepted in a loyal spirit of co-operation by the politically-minded sections of the Indian population, the whole scheme had better be withdrawn.

This would be a step backward, and would be recognized as such by every British statesman having anything to do with India. Life-long students of the Indian problem like Sir Malcolm Halley are quite convinced that no British regime can last in India which lacks the co-operation of the enlightened, responsible and constructive elements among the native population. The wealthy Parsees of Bombay, for instance, cannot be autocratically governed by aliens as if they were a tribe of African bushmen.

But the trouble has been that, even with the exceedingly narrow franchise which everybody agrees is the best possible yet for India, the elections resulted in submerging these responsible commercial, financial and industrial elements with a flood of "pleaders" (lawyers) and other glib leaders of discontent. It is not commercial India which dominates the Assembly, but oratorical India. The Bombay members were with the Government, but they were out-voted.

So the British Raj is in the position of defending commercial India—and incidentally the ninety-four per cent. of Indians who are illiterate—against a handful of successful agitators who have captured a majority in the Assembly. When the Prince of Wales was in India he was approached by a great delegation of the lower castes who pleaded with him to maintain British rule and not expose them to the tyranny of their own upper castes. There are hundreds, if not thousands, of British men and women in India, many of them missionaries, who feel a very heavy sense of responsibility toward this overwhelming majority of illiterate, unenfranchised, poverty-ridden peasant and village peoples in India, and would be very loth to desert them at the bidding of a group of "intelligenzia" who at best only represent an infinitesimal fraction of the people of India.—Montreal Star.

EDITORIAL NOTES AND COMMENT.

March used the last few days to show us what kind of a bad month it might have been.

The Greyhounds are the top dogs in hockey circles.

The Public Accounts Committee inquiry will not be complete until Hon. Peter Smith has been heard. The people of the Province are waiting to hear his explanation of the bond deals.

Parliament should not forget the grievances of the rural mail carriers, because they have no organization to stand behind their claim.

The Progressives will never ride into power on the Hudson Bay Railway.

The people of Peterborough are reminded that the annual appeal for funds for the Grenfell Mission is being made this week.

It Pays to Advertise!

WISE AND OTHERWISE

In Texas a farmer has inherited $700,000. If he is careful this will be enough money to raise chickens three years, or to keep on farming four more years, or to send his son to college.

GARDEN HINTS.

Run bean vines on sticks instead of strings. The psychological effect of strings is to make the beans become stringy.

MUSIC NOTES.

Throw rocks at a policeman. If he doesn't catch you you will have some thing to sing about.

AUTO HELPS.

Autos are like radios. You can look at them and tell what distance you will get.

TO STAY SINGLE.

Let her know you are jealous.

SOCIETY.

Announcement is made that a special meeting of the Ladies' Aid Society will be held to-morrow behind closed doors to aid the ladies in finding out why Mrs. So-and-so has circles under her eyes lately.

FASHIONS.

The average length of dresses in Paris now is four inches from the knee, but we don't know if this is above or below the knee.

HOME HELPS.

Polished floors will not be scratched if you make the family go barefoot.

HOW TO MARRY.

When he invites you out to dinner order the cheapest dishes.

The rain falls on the just and the unjust, but especilly on the just started picnic.

The height of folly is doing crazy stunts in an airplane.

A stitch in time saves wondering if the hole in your sock shows.

The female of the species gets more sleep than the male.

Faint heart never won fair lady, but faint whisperings have.

While confession is good for the soul it causes many a black eye.

Experience is the best teacher, but her course is the longest and hardest and the only degree you get is the third degree.

Girls will be girls even though according to the new straight styles, they try to look like boys.

The only way to hold your own is to hold your own tongue.

If you think your luck is going to be bad it gets disgusted and is bad.

Among the shaky movements on foot is a woman in tight shoes.

Girls! Women! get a Husband

Husband need shaves, wear holes in their socks, smoke tobacco, don't make enough money, stay out late at night, and all such things as that, but no home is complete without one.

They track mud into the house, snore when they sleep, get mad when women have no reason for doing things, leave their dirty shirts in the middle of the floor, and smile at other women, but they are necessary.

A girl trying to catch a husband should eat lots of corn-on-the-cob. The exercise makes her lips soft, pliable and warm.

Health Hints

Never trim your nails with a hatchet or try to step off a street car backwards.

Brother Tom's Kitchen

Carrots improve soup if you leave them out.

Bedtime Story

'But she heard us laughing and pulled the shade down."

Spring makes people lazy. The other seasons that make people lazy are summer, fall and winter.

It pays to be honest, and it costs.

Keeping a stove from smoking is easier than keeping a boy from smoking.

If you must get mad at the wet this April, consider Burma: its annual rainfall is about 600 inches.

A big company is placing on the market a new oil which quiets engines. If successful it should be used by political machines.

Music Notes

A marble placed in the mouth while practicing singing may choke you and tickle the neighbors.

Home Helps

Keep one of the windows locks broken so you can always get in when you forget your key.

Garden Hints

Don't be optimistic. Don't get so far in debt to your grocer you can't buy veetables on credit.

Etiquette

On being run over by an auto smile and say, "Excuse me, I didn't know you were using the road."

Weather

The spring poets have started their "Oh, what is so raring?"

Peterboro--Toronto--Montreal--Winnipeg

PETERBOROUGH MARKETS.

Fruit.

Bananas, 50-60c doz., lb. 13c; Florida oranges 25-60c; California navel oranges, 25-70c; tangerine oranges, 40-60c; grape fruit, 2 to 6 for 25c; lemons, 30-40c doz.; apples, 40-95c peck; table apples, 50-60c doz.; Delicious apples, 50c doz.; Spies, 50c-80c peck, $6-$9 barrel; cooking apples 25-50c pk.; California grapes, 40c lb.; pineapples, 40-50c ea.; dates, 13-20c lb. Fard dates, 30c lb.; figs, 15-50c lb.; cranberries, 20-25c qt.; strawberries, 85c. qt. box; bitter Italian oranges, 50c doz.

Vegetables.

Potatoes, 35c peck, bag, $1.80 to $2.00; beets, 60c peck; carrots, 60c peck; turnips, 25c peck; parsnips, 60c peck; cooking onions, 5 lbs 25c; Spanish onions, 3 lbs. 25c; green onions, 5c bunch; dried peas, 13c lb.; dried beans, 10c lb.; cabbage, 5-20c head, lb. 7c; leaf lettuce 5c, head lettuce 20-25c; cauliflower 30-50c; tomatoes, Florida, 40c lb.; hothouse, 50 cents pound; endive, 10-20c; celery, 10-25c; parsley, 5c; watercress, 5c; Florida peppers, 10-15c each; new carrots, 10-15c bun.; imported green onions, 5-10c bunch, spinach, 20c lb.; mushrooms, $1.25 lb.; Lima beans, 2 lbs. 25c; new cabbage, 15c lb.; rhubarb, 15c; cucumbers, 50-60c each; artichokes, 25c each.

Nuts—Walnuts 25-30c lb.; budded 40-50c lb.; Brazil nuts, 25-30c lb; chestnuts, 30-35c lb.; almonds 25c; shelled almonds, 40-80c lb.; cocoanuts, 10-15c each.

Dairy Products.

Butter, creamery, 44-50c lb.; dairy, 41-45c; baking, 35c; oleomargarine, 25c lb.; lard, 18-24c; shortening, 18-20c; cheese, 28-40c lb.

Eggs: (Government graded); fresh specials, 40c doz.; fresh extras, 35c doz.; fresh firsts, 33c doz.; fresh seconds, 30c dozen.

Honey: Comb, dark and light, 20-25c; amber, 5 and 10 lb., 63c and $1.20; clover, 5 and 10 lb., 73c and $1.40; buckwheat, 10lb., 95c.

Fish.

Pink salmon, 20c lb.; red salmon, 20-25c pound; salmon trout, 24c lb.; salmon snacks, 35c pound; white fish, 20-22c; halibut, 35c; smelts, 15-35c pound; place, 2 pounds 25c; haddies, 18-20c; boneless, 25c; fillets, 25c; kippered herring, 20c; salt herring, 45-75c doz.; sea herring 10 lb.; fresh sea herring, 2lbs. 25c; boned cod, 20c lb.; oysters, $1.50-$1.75 qt.; shrimps, 40c pt.; fillet mackerel 2 lbs. 35c; Italian bloaters, 5c each; ciscoes, 25c lb.

Meats.

—Retail—

Beef, 10-30c lb.; pork, 15-35c; veal, 15-30c pound; lamb, 15-30c lb.; mutton, 10-25c lb.; bacon, 29-40c; sausage 18-20c lb.; chicken, 28c lb.

—Wholesale—

Hogs — Thick, smooth, cut, $8.00 cwt.; select graded $8.80; dressed head on, $12.00; head off, $13.00.

Grain (Wholesale) and Flour (Retail).

Fall Marquis wheat, 85-$1.00 bush; oats, 44-55c; rye, 65-75c; barley, 60-65c; alsike, $4-$5; peas, $1-$1.25 bush; buckwheat, 75c; red clover, $5-$10 bush.; sweet clover, $4.50.

Flour, half bbl., $3.35-$4.25; pastry flour, 24-lb. bag, 75-90c.

Hay, Bran, Etc. (Wholesale).

Loose hay, $14-$15; baled hay, $17; straw, $9-$12; bran, $28-$30 ton; shorts, $33 ton.

Hides and Wool (Wholesale).

Cow hides, 6c lb.; horse hides, $2-$2.50 each; calf skins, 12c; sheep and lamb skins, $1.00-$1.75 each. shearlings, 20-25c each.

Wool, 23-28c pound.

MONTREAL PRODUCE.

MONTREAL, March 31 (Canadian Press). — Cash grain was quiet on Saturday's local market. There was little doing in flour. A steady trade continues in milfeed but the rolled oats market was quiet. An active business was passing in eggs. Total receipts from 1st May to date were 603,725 cases as against 580,784 cases in the preceding period. The butter market closed quiet. Total receipts from 1st May to date have been 158,346 packages less than in the same period of 1922-1923. There is virtually no business in cheese. Total receipts from 1st May to date have been 132,492 boxes in excess of the same period of 1922-1923.

CHICAGO GRAIN.

CHICAGO, March 31 (Canadian Press). — Word that the Government Supervisor of Trading in futures grain had called attention to what he regarded as overselling of corn had much to do on Saturday with a quick advance in the price of corn, and of wheat and oats as well.

General evening-up of accounts by dealers who had been engaged on the bear side took place, and with offerings light the advance easily ensued.

Corn closed nervous, 3-4c to 7-8c to 1 1-8c net higher, May 76c to 76 1-8c.

The wheat finish was unselected 1-4c to 3-4c up, May $1.01 to $1.01 1-8 and July $102 5-8; oats at 1-2c to 3/4c gain, and provisions varying from unchanged figures to a rise of 15c.

GRAIN STOCKS.

FORT WILLIAM, Ont., March 31 (Canadian Press). — Stocks of grain in store at the head of the Lakes rose during the past week by over 850,000 bushels, the total now being approximately sixty million bushels, to which may be added over three and a quarter million bushels afloat on the harbour.

GIRL RESCUED AT RICE LAKE

Isabelle Ferguson, Riding Pony From Margaret's Island, Broke Through the Ice — George Ivatt Fell Through Air Hole.

ROSENEATH, Mar. 28.—The ice in Rice Lake is becoming very unsafe for travel. Miss Isabelle Ferguson, who resides on Margaret's Island, while crossing to the mainland yesterday, riding a pony, was suddenly precipitated into the water. Messrs. Wm. Taylor and George Ivatt were near at hand and after a time succeeded in getting the girl and the pony out safely. While they were finishing the trip, Mr. Ivatt also struck on an air-hole and received a cold bath but was got out without much difficulty.

Mrs. Rev. Walsh is suffering from a severe cold.

Mrs. Annie Lapp is confined to her bed with a cold.

George-Sherwin

A pretty wedding took place on Wednesday, March 26, when Miss Millie, third eldest, daughter of Mr. Fred Sherwin and the late Mrs. Sherwin, of Roseneath, became the wife of Edward George, eldest son of Mrs. Thomas George, of Alnwick Township, the Rev. A. R. Walsh officiating.

The bride, given away by her father, was becomingly attired in her travelling suit of navy with sand hat, blouse and gloves. At precisely four o'clock the bride took her place with her sister, Miss Carrie, as bridesmaid, while the groom was supported by his brother, John George.

After the wedding supper at five o'clock the happy couple left for Hastings, where they took the train. They will spend their honeymoon in Niagara Falls and Port Credit. On their return they will take up their residence on a farm of Mr. Walter Grigg, near Dunnet's Landing.

Before leaving Port Credit, Miss Sherwin was tendered a miscellaneous shower by her many girl friends when she received many valuable and useful presents.

C.G.I.T. Meeting

The regular meeting of the C.G.I.T. was held at the parsonage on Wednesday evening. There were sixteen members present. A pleasant feature of the meeting was the presentation of a merit pin to Miss Grace Blodgett for good attendance. The meeting closed with the singing of C.G.I.T. songs.

Report L.O.L. Convention

L.O.L. No. 261 held their regular monthly meeting on Tuesday evening. There was a good attendance, considering the condition of the roads. The initiatary degree was conferred upon Mr. Fred George in a very able manner. After the initiation, short addresses were delivered by Messrs. John Mattress, Worshipful Master; J. G. Honey, District Master, and C. W. Varcoe, Past Master, on the work of the Grand Orange Lodge of Ontario East, which held its annual convention in Peterboro' last week.

Jeanne Gordon, young contralto with the Metropolitan Opera Company, collects porcelain china banks as a hobby.

LUMBAGO RELIEVED

Rid yourself of those twinges. Apply Sloan's gently without rubbing. It sends straight to the pain-ridden tissues the fresh new blood that they need to heal them. Relief is quick and lasting. Get a bottle from your druggist today and have it on hand—35 cents.

Peterboro-Made Sporting Goods

Peterboro Canoes Prominent In Every Big Sporting Department — Trade Journal Article on Local Firms.

The March issue of the "Sport Goods Journal of Canada" contains several articles which deal with Peterboro firms and their products in very complimentary terms. Sports goods of all sorts are necessarily the only products touched on. There is quite a lengthy article having to do with the Peterboro Canoe Company, and the article, headed "Peterboro Canoe Company's plant a model of Efficiency," open with the sentences: "Two things struck me when I visited the Peterboro Canoe Company's plant not many days ago. One was the courtesy of the officials. The other was the apparent efficiency on all sides." The articles goes on to describe in detail the inner workings of the plant and the methods used in canoe construction. A fine cut of the plant accompanies the story.

On another page is an article headed "Peterboro can boast of several enterprising manufacturers and dealers in sport goods and recreational equipment," which contains references to several local dealers in sport goods. In it are mentioned Messrs. B. F. Ackerman, Son & Company, Messrs. J. J. Turner & Sons, accompanied by a cut of Mayor Turner, head of the firm; the Canadian Canoe Company, White's Cycles and Sports Limited, L. W. LeBarr's store, and Simpson, Copping & Company, as purveyors of sporting goods. The Albion Knitting Company, the Lavoie Knitters, Campbell & Best, and the Peterboro Hardware Company are also mentioned, the two latter as being dealers in fishing tackle. Cuts of White's Cycles and Sports Limited store, and of the president and vice-president, Messrs. Frank W. White and Oliver White, also a reproduction of the photograph of the Peterboro Snowshoe and Ski Club, accompany the lengthy space devoted to the White firm.

Miss Lena Michelson for seven years has served as wireless operator on a big tank steamer of which her father is captain.

Why Ford Predominates

Many Reasons From Many Users

If you were to ask the next fifty Ford owners you meet why they prefer Fords, you would get a wide variety of answers.

Some would say, "Because they seem never to wear out;" others would answer, "Because they cost so little." Many would reply "Because I can get service anywhere;" and just as many, "Because it is the only car I can afford to own."

All would tell you, "Because they master a bad road in any weather," a woman driver would respond, "Because I can drive it so easily." From the fleet-owners you would hear, "Because I can buy two or three or four Ford Trucks for the price of one big truck.

Wherever you might inquire you would hear expressed these basic reasons why Ford predominates—why, year after year, Ford sales equal the total sales of all other cars combined.

DOING GOOD WORK IN QUEBEC

F. M. Rutherford has just returned from Lennoxville, Que., where he delivered seven 2-year-old heifers to Stephane Borly, B.S.A., Federal Live Stock Branch, Sherbrooke, Que. The lot included 1 heifer from Chas. Macoun, Campbellford, 2 heifers from Hector Wood, Ivanhoe, 2 heifers from F. M. Rutherford, Bonar Law.

These heifers are to be used in a boys' club of 22 members at Waterloo, Que. They weer a splendid, uniform lot and Mr. Borly was pleased with the shipment. A splendid work of this kind is being done in Quebec province. Several clubs have been organized and interest and competition among the boys is very keen. They test and exhibit these heifers and often they form the nucleus of a rapidly developing herd. Mr. Borly reports that three heifers which Mr. Rutherford sold about sixteen months ago have upheld the splendid record of Carisbrooke stock.

1. Alice of Carisbrook, sired by Bonnie Doon of Menie, produced a net revenue of $169.33, cost of feed $56.15. Net profit $113.18.

2. Carisbrooke June, sired by a son of Hillside Peter Pan. Net revenue $162.09, cost of feed $57.50. Net profit $104.57. The boy who owns her refused $150 for her calf. These two heifers were estimated on actual butter sold at an average of 45 cents a pound and skim milk 25 cents a hundred.

3. Carisbrooke Perfect Lady 2nd, sired by son of Hillside Peter Pan, net revenue $259.28, cost of feed $70.09, net profit $189.19. This heifer's milk was sold 40 cents a gallon. Her bull calf sold for $100. If work of this kind was carried on more in Ontario it would be a great inducement to keep boys on the farm.

Returning Mr. Rutherford visited the following well known breeders and exhibitors: E. C. Bridge, Beauharnois; Gilbert McMillan, Huntingdon; R. R. Ness & Sons, Howick. Mr. Ness has 130 head at present and has 3 imported sires in his herd. Albert Ness, who owns some of the finest Clydesdales in Canada; also David Ness. Mr. Borly is in need of more heifers immediately, and any one having some for sale might communicate with Mr. Rutherford.

Mr. Rutherford has also purchased a new herd sire "Springburn Golden Beauty," 5 years old, bred by Gilbert McMillan, Huntingdon, Que. "Springburn Golden Beauty" is sired by Mr. McMillan's "Golden Love," an one of his best cows, Beauty (52643). His dam has two honour roll (305 dy.) records, 10320 milk and 390 lbs. fat and 9,000 lbs. milk and 355 fat. His sister, Lady Beauty (52917) has five records as follows: 2 yr. old 9,203 lbs. milk, 380 fat; 3 yr. old 10,322 lbs. milk, 458 fat, honour roll (305 dys); 4 yr. old, 10,183 lbs. milk, 446 fat, honour roll (305 dys.); 5 yr. old, 9,459 lbs. milk, 406 fat, honour roll (305 dys.); 6 yr. old, 10,560 lbs. milk, 453 fat, honour roll (305 dys.).

Another sister, "Beauty's Love" (59699) has two records: 3 yr. old, 7,719 milk, 293 fat, honour roll; 4 yr. old, 8,312 milk, 321 fat, honour roll.

This heifer has always been in Mr. McMillan's show herd and has never had a good milking chance. She and her sister were 1st prize "produce of a dam at 1922 Royal Winter Fair. They also stand 2nd and 4th in the get of a sire.

This bull should be a fine addition to the herd and combined with Carisbrooke blood, should give some real quality Ayrshires.

One is for You

A free test of a way to fight film on teeth

This ten-day test is yours for the asking. It will show you the way to whiter, cleaner teeth. It will convince you that old methods of teeth cleaning are wrong.

Let us prove that to you.

Film—your enemy

That viscous film you feel on teeth is the foe you have to fight. It clings and stays. No ordinary tooth paste can effectively combat it.

Food stains, etc., discolor it, then it forms dingy coats. That is why teeth lose luster.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Thus film causes most tooth troubles.

Modern science has for years sought ways to fight that film, and two methods have been found. One disintegrates the film at all stages of formation, one removes it without harmful scouring.

These methods have proved themselves effective in many careful tests. A new-type tooth paste has been created to apply them daily. The name is Pepsodent.

Leading dentists everywhere began to advise it. Now careful people the world over employ this new-day method.

You'll quickly see

Pepsodent brings astonishing results. It does more than fight film. It multiplies the alkalinity of the saliva, which is there to neutralize mouth acids. It multiplies the ptyalin in saliva, which is there to digest starch deposits on teeth.

These combined results will be a revelation to you.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth become whiter as the film-coats disappear.

Compare the new way with the old, and you will know in ten days what is best. Cut out coupon now.

Protect the Enamel
Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combatant which contains harsh grit.

W.H. NELSON WON ELECTION FIGHT

Was Re-elected Deputy Reeve of Percy Township

WARKWORTH, March 31.—In one of the most exciting and stubbornly fought municipal contests Percy Township has ever witnessed, ex-Deputy-Reeve W. H. Nelson was elected Deputy-Reeve to fill the vacancy caused by his own resignation, defeating John Allen by a majority of 45. In spite of the condition of the roads, there was a good vote polled, the result in each of the six sub-divisions being as follows:

	Nelson	Allen
Wilson Settlement	42	18
Norham	108	125
Warkworth Village	171	152
Dartford	95	82
Cobourg Road	33	34
Dutch Line	48	51
Total	497	452

Majority for Nelson—45.

Dartford district is the home of both candidates. Deputy-Reeve Nelson resigned some time ago when proceedings were started to unseat him on the ground that he could not legally hold the position as he was a school trustee in his section.

Sawmill Destroyed, Village Threatened.

BROCKVILLE, March 31. — The central portion of the village of Lyn, situated in the township of Elizabethtown, 5 miles west of here, was threatened by fire which last night totally destroyed the sawmill owned and operated by Orville A. Brundice.

New equipment had but recently been installed in the mill, which was a frame structure, and one of the oldest in the village. For many years it was operated as a last factory. Assistance was sent from the Brockville fire department, and the damage was largely confined to the mill, although several of the adjacent buildings were scorched.

The loss is set at $3,000.

HIS SLUGGISH LIVER MADE HIM FEEL DROWSY AND TIRED ALL THE TIME

When your liver becomes sluggish and inactive your whole health suffers, and the only way you can get back to feeling right is to make your liver right.

This you can do by the use of Milburn's Laxa-Liver Pills as they will stimulate the sluggish liver clean away all waste and poisonous matter from the system, and prevent, as well as relieve, all complications arising from a liver that has become inactive.

Mr. E. Hazel East Florenceville N.B., writes: —"I had been troubled with my liver and felt drowsy and tired all the time, and was unable to do my work with any comfort. I took your Milburn's Laxa-Liver Pills and to-day I am a different man, and would not be without them in the house."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

TOOK UNLICENSED INSURANCE, MUST NOW BEAR OWN LOSSES.

TORONTO, March 31. — That those who insure in an unlicensed insurance company must take their own risk, was the text of a judgment handed down at Osgoode Hall by Mr. Justice Smith.

Milan, Dimitroff, and others, merchants of Crowland Township, Welland, had an agreement with Cromwell Gonder whereby he arranged to have the plaintiff's goods insured. Later a fire took place, and they were told that the company carrying the insurance was not licensed in Ontario and was insolvent. The merchants subsequently sued Gonders for $7,600 and were awarded $5,000, but the Supreme Court of Canada ordered a new trial, which was heard before Mr. Justice Smith.

In dismissing the action His Lordship said: "I think that the defendant was entirely justified in telling the plaintiffs that he could not get them insured in licensed companies. He was guilty of no fraud, but said he could get insurance in unlicensed American companies, which Dimitroff accepted, and this constituted the whole contract."

WILLS TO GET A CHANCE.

NEW YORK, March 31 (Canadian Press). — Harry Wills, New Orleans negro, who has practically been barred for two years from the pugilistic "inner circle," yesterday took the first definite step toward reaching his goal of a title match with Jack Dempsey when he signed with Tex Rickard for two bouts this summer.

Rickard, in the most important pronouncement so far affecting the 1924 heavyweight programme, disclosed that Wills had signed for a match in June or July with Luis Firpo, or one of two other Latin-American prospects, and also, if successful in this test, for a title contest with Dempsey in September.

ALL HOPE ABANDONED.

BLUEFIELD, W. Va., March 29. —(Canadian Press).—Hope that any of the twenty-six men who were entombed by an explosion in the mine of the Yukon-Pocahontas Company at Yukon, would be brought out alive was virtually abandoned late last night.

Radio Mast

An old factory chimney in Plymouth, England, has been pressed into service as an aerial support for the new radio broadcasting station to be established there. Mr. Hine, steeplejack, of Battersea, affixed the aerial.

IN MILLBROOK AND DISTRICT

MILLBROOK, March 29.—The late Mrs. Joseph A. Richardson, whose maiden name was Mary Jane Nattrass, and whose death, following an extended illness, took place in Toronto last Sunday, was born in Cavan Township eighty-four years ago on May 25th, 1840.

Deceased was one of a family of six children, the other two daughters, Mrs. Steinthorpe and Mrs. James Richardson, having predeceased their sister, while of the three sons only one brother, Thomas Alfred Nattrass, of Alberta, still survives.

For some years after her marriage to the late Mr. J. A. Richardson, they resided in Millbrook, living in the late W. S. Given's homestead, now owned and occupied by Mr. H. A. Elson. Here their two sons were born, one of whom died when quite young from typhoid fever. The other, Wayne, lived to manhood, when he, too, passed away after an illness with the same disease. The late Mr. Richardson, who predeceased his wife nearly three years ago, was well known in railway circles throughout Canada through his long tenure of office as district and Canadian passenger agent of the Wabash railway.

Forty years ago, Mr. and Mrs. Richardson moved to Toronto to reside. For many years the latter was a faithful member of Broadway Tabernacle, and prior to that, of the Elm Street Methodist Church. Deceased was widely known and loved for her genuine Christian character and for the generous support which she gave to missions and to various forms of benevolent enterprise. No worthy claim presented to her for sympathy or aid, financial or otherwise, went unrecognized.

Besides her brother in the West, the immediate survivors are two grandsons, Clifford J. and Carleton S., both of Toronto, and five great-grandchildren.

Her pastor, Rev. W. L. Lawrence, B.A., conducted a largely-attended and impressive service at her late residence, 72 Henry Street, Toronto, on Tuesday evening, March 25th, the remains being brought to Millbrook on Wednesday at noon for interment beside her husband in the family burial plot at Gardiner's cemetery.

Rev. S. T. Tucker had charge of the brief service held at the undertaking parlors here, and also at the grave side, and referred in feeling terms to the fact that, although he had not the privilege of a personal acquaintance with the deceased, he had friends in Toronto, residing near her late home, who spoke in the highest terms of her Christian life and example.

The pall-bearers were: two grandsons, Messrs. Clifford and Carleton Richardson, of Toronto; two nephews, I. M. and H. Nattrass; a brother-in-law, James Donaldson; and G. E. Burnham.

At C.N.R. Conference.

Mr. P. Stinson attended the quarterly conference of C.N.R. officials which met in Lindsay on Tuesday, district extending from Portland, Maine, on the east, to Toronto on the west. Many important matters were under discussion, and keen disappointment was felt that Sir Henry Thornton, who had expected to be present, was called to New York instead.

The Rotary Club entertained the visitors at luncheon and the Board of Trade at dinner, the speakers in the evening being two former Millbrook boys, C. E. Weeks and T. B. Stinson, K.C.

Mr. P. W. Burton went to Lindsay for the At Home held in the Armouries in the evening, the C.N.R. employees of Lindsay being hosts for the latter function.

Mrs. (Rev.) J. E. Beckel Ill.

The many friends of Rev. James E. Beckel, of Castleton, who spent his last pastorate on the Bethany circuit, will regret to learn that Mrs. Beckel is seriously ill at the Oshawa Hospital. As director of religious education for the Bay of Quinte Conference, Mr. Beckel is well known as a successful organizer and speaker in all forms of young people's work, and there will be a general desire that Mrs. Beckel, whose illness has extended over a period of some weeks, may soon be restored to good health. Mr. Beckel spent the last week-end with her in Oshawa.

350 Contributed.

Three hundred and fifty dollars was received in contributions in connection with the 34th anniversary of the Bowmanville Methodist Church last Sunday, Rev. W. Harold Young, of Peterboro, speaking at the three services of the day. Rev. S. C. Moore, pastor of the church, was, in the early years of his ministry, a popular pastor on the Cavan South circuit, now united with the Millbrook charge. Rev. Mr. Young, who was born in Millbrook during his father's pastorate here, made his first appearance before a Bowmanville congregation on Sunday, the practical and interesting addresses which he delivered winning him a cordial reception, and assuring him of a welcome whenever his next visit shall be made.

Mrs. W. D. Bragg Dead.

Much sympathy will be felt for Mrs. J. W. Hamilton, who has been visiting her mother, Mrs. R. Osborne of Bowmanville, being called home owing to the serious illness of her sister, Mrs. Wesley D. Bragg, of Newcastle, the latter passing away at noon on Tuesday, March 25th. Mrs. Bragg's illness extended over a period of two months, and though two nurses were in attendance, and the best of medical aid was secured, her many friends in and around Newcastle who had been earnestly hoping and praying for her recovery, were saddened beyond measure when the news came that the Angel of Death had called her. Only a few weeks ago a large number of young people from the Methodist Sunday School, Newcastle, spent a delightful evening with Mr. and Mrs. Bragg and their daughters, in their home, none then realizing that it was the last time her hospitality would be enjoyed.

Deceased had been a very faithful member of the Newcastle Methodist Church, and, with her husband and family, took an active and capable part in all its undertakings and organizations, and her removal creates a vacancy which it will be difficult to fill.

Mr. Bragg and his three daughters —Mrs. Howard Allin, Miss Beatrice and Miss Grace—will have the deepest sympathy of the entire community in their time of bereavement. The funeral took place from the family residence on the Kingston Road, East, on Friday, March 28th, at 2 p.m. Interment at Bowmanville cemetery.

Leonard Morton, the eleven-year-old son of Mr. and Mrs. J. Morton, Pontypool, who was operated on for appendicitis in Dr. H. A. Turner's private hospital last Saturday, is progressing favorably toward recovery. Dr. Cameron, of Peterboro, was here to assist with the operation.

Mr. and Mrs. E. H. Syer, of Millbrook, announce the engagement of their daughter, Edna, of Toronto, to Mr. W. H. Clegg, of Montreal. The marriage will take place on April 12th.

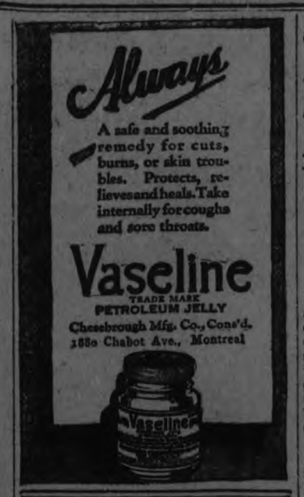
POLICIES OF FORMER CABINET TO CONTINUE

PARIS, March 29.—(United Press) —The policies of the former Poincare Cabinet, both foreign and domestic, will be continued by the new Ministry, it was declared by the leading members of the Cabinet after its rfist formal conference with the Premier this morning.

M. Poincare officially presented all the members of his new Cabinet to President Millerand at the Palace of Elysee at noon. The President warmly congratulated the Premier on having succeeded in grouping about him the "most brilliant personalities composing his Cabinet." He added that the new Government could be assured of the President's full collaboration on all occasions in conformity with the nation's best interests for the settlement of the difficult problems of the present situation.

GREEK MILLIONAIRES IN FAVOR OF REPUBLIC.

LONDON, March 29. — (United Press).—Fifteen Greek millionaires have formed a committee of propaganda in favor of a Republic, according to the Daily Express. The group includes George Averoff, Greece's greatest landed proprietory; M. Panayotpoulos, the banker, and M. E. Embiricos, the "Greek armament king." The papers on which the people will vote at a national plebiscite on the question of Monarchy or Republic are white for the latter and yellow for the former. The Government chose yellow for the Monarchy owing to the popular dislike for that color, which always is associated with malaria.



"BOOSTER" CLUB FOR MARMORA

Public Meeting Monday to Consider Organization of a Board of Trade—Possibilities of Town Not Being Realized.

MARMORA, Mar. 29.—Marmora folk have apparently awakened and are beginning to see that the village cannot progress if everybody remains of the "knocker" type. Last week saw the birth of the "Booster" Club, which, as far as the merchants are concerned, is merely a board of trade. On March 31 a public meeting will be held at which all good, loyal citizens should be in attendance.

Marmora has been exceptionally well favored by nature in order to grow into a thriving town of perhaps twice its present population. It has great mineral possibilities as well as being a centre of a big farming and lumbering area. Thousands of horsepower is going to waste on the Crowe River, while power is being brought from a distance to Marmora and Deloro at a heavy cost. It is thus seen that the forming of the "Booster" Club should be by no means in vain.

But the town cannot grow, in spite of the foregoing reasons, if its citizens continue to live for themselves only, and give most of their trade to mail order stores instead of the home merchants

Then, there are those who continually make the lives of the members of the council unbearable by their lack of co-operation. They demand economy and low taxes and at the same time look for many expensive improvements. The people should make their choice as to who should be the village executives and then co-operate with them.

It is to be hoped that this venture will bear fruit and it certainly will, if everyone gets behind and boosts it. Therefore, on Monday night the town hall must be filled to capacity with "boosters." But "knockers" please stay at home.

Car Upset

On Wednesday morning a car owned by Mr. Walter Clark, Deloro, turned turtle a short distance west of Deloro Village. Mr. Clark had several men in his car and was returning from the midnight shift. Mr. Joseph Doyle sustained two fractured ribs, but the rest of the party escaped injury.

Mr. Jack Barry, who has been working at Milnet, near Sudbury, all winter, is visiting his mother.

The home of Mr. and Mrs. John Gehan was blessed with a baby girl on Monday.

TOWN WAS SCORCHED.

SASKATOON, March 31 (Canadian Press). — Damages close to $100,000 was caused by fire that destroyed almost an entire block of buildings in the town of Maville, on Saturday.

FISH CAKES.

Leftover fish may be made into delicious fish cakes by mixing with cornmeal mush in the proportion of two cups of meal and one of fish, held together by an egg. Green pepper or onion juice may be added for flavor.

CAMPBELLFORD AND DISTRICT

Social Hour at the Home of Mrs. R. Weston—Will Leave Campbellford.

CAMPBELLFORD, March 31. — A very pleasant afternoon was spent at the home of Mrs. R. Weston, on Friday, 28th March. The members of the Women's Christian Temperance Union met to have a social hour with the president and first vice-president, who are leaving town to live in Toronto, Mrs. R. Ballantyne, president, and Mrs. M. Hart, first vice-president, leave on Thursday of next week for Toronto, where they have bought new homes. Mrs. R. Weston, the hostess, made a few remarks as to the object of the meeting and how sorry the W. C. T. U. members are at losing two of their officers, and how they will be missed in the work of the society as well as in the church to which they belong. Mrs. Weston, on behalf of the society, wished them all success and happiness in their new homes. Then she called on Mrs. L. Diamond to occupy the chair, and the following programme was given:

Solo—"Keep on Hopin'," Mrs. E. Bates.

Reading—"Prince Eric's Lily Wife," Mrs. Kingston.

Duet—"Breathe on Me, Oh God," Mrs. Hume and Mrs. T. Free.

Reading—"The Dandy Fifth," Mrs. Hammond.

Solo—"The Choir Boy," Mrs. C. W. Turner.

The programme ended, the hymn, "God be with you till we meet again," was sung, and prayer led by Mrs. Ashton. Afterwards all enjoyed the refreshments, which were supplied by the officers of the W. C. T. U., and a social hour was spent.

Mrs. Hume moved, seconded by Mrs. W. Hall, that a vote of thanks be tendered to Mrs. Weston as hostess, and the executive for the splendid lunch and for the programme.

Mrs. Hume also spoke of the great work done by the ladies who were leaving. This motion was carried, and hearty applause was given by those present.

Mrs. Ballantyne and Mrs. Hart each responded in a few words, and Mrs. Weston on behalf of the executive, he splendid afternoon closed by all singing "Blest be the tie that binds."

Born — In Campbellford, on 22nd March, 1924, to Mr. and Mrs. Bensinger, River Road—a son.

STEAMER CRIPPLED

NORFOLK, Va., March 30.—The French steamer Tours, which was in collision with the United States steamer Edward Luckenbach yesterday about 55 miles of Cape Charles, passed in through the Virginia Capes last night with a hole in her port side and leaking badly. The Luckenbach and the Coast Guard cutter Manning escorted the Frenchman. The vesels are bound for Hampton Roads.

WAFFLE PLEATING.

Waffle pleating is a new wrinkle from Paris, and it makes a pattern resembling that on the breakfast waffle. It is used on frocks and also on scarf ends.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears.

Try Musterole for sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it may prevent pneumonia). 40c and 75c. at all druggists.

The Musterole Co. of Canada, Ltd., Montreal.

MUSTEROLE
WILL NOT BLISTER
Better than a mustard plaster

Farmers Complain That Their Crops Too Heavy.

By M. T. MEADOWS.

BUENOS AIRES, March 29.—(United Press).—Argentina is a wonderful country and the mass psychology of great groups of her producers is more wonderful.

It is not rare to hear Argentine farmers, for instance, lamenting what one might call an excess of good fortune. Indeed, this is what is occurring in the Province of Tucuman, the centre of Argentina's sugar industry, due to the fact that on top of an increase of 45,000 acres planted to cane, the yield per acre of the whole crop promises to break all records.

In fact, some of the sugar people in Tucuman are on the verge of hysteria, and the deliberate distruction of crops have been carried out in certain regions. In the same way, during years of abundance the fruit-growers in the Tigre district near Buenos Aires dump into the river great quantities of fruit rather than allow any of this to be sold below the exorbitant prices charged in the city markets of Buenos Aires.

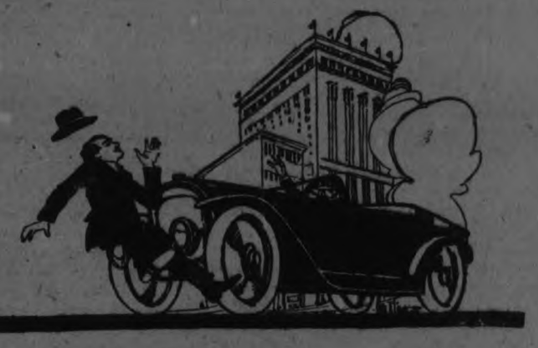
Likewise, the corn farmers of the country may be heard on all sides lamenting the fact that the corn crop this year is likely to exceed any ever produced and as a result a decline in prices may become inevitable.

From the potato-producing centres of the Province of Buenos Aires comes the same wail of overproduction.

TESTING FLOUR.

To test flour for bread making, wet a small quantity in cold water and work it into a stiff dough. If the dough becomes stiff and elastic the flour will make good bread.

FIRST AND PARAMOUNT, ABSOLUTE SECURITY TO POLICYHOLDERS



"I'LL take the chance of my early death," you say.

But you don't take the chance—you compel your wife and little ones to take it. Do you think that's fair to them?

Don't risk their future welfare! Invest a few dollars each year in an Imperial Life policy. It will provide for your family if you should die—it will care for yourself if you live to old age.

Our free booklet, "The Creation of an Estate," tells more about it. Ask for a copy to-day. You'll find it interesting.

MAN DRAINS BOTTLE AS SQUAD AIMS

The Fiddler Plays While the Executioner Works and Man Waits For Death.

(By Bob Dorman.)

SOLEDAD, Vera Cruz, Mexico, March 31. — The fiddler plays while the executioner works.

An the whole town turns out to see the condemned man go to his death.

Federal officers want it that way. It's an object lesson to others.

Take the executioner of Adrian Hermandez. The band wasn't there, but nearly all Soledad was.

Hernandez, a soldier in the army of General Eugenio Martinez, had been caught robbing a store. Now strict orders had been issued by Martinez against any looting. And Hermandez had disobeyed them.

A summary court martial was held that night. Hernandez was ordered to be shot at dawn.

Drinks and Smokes.

The break of day found a grim column of troops wending its way through the dust of the adobe lined streets. In the centre walked Hermandez, a stoical figure, nonchalantly smoking a cigarette.

Arriving at the scene of the robbery officers quickly formed a hollow square, Inside stood Hernandez, and the firing squad. Outside pressed against the lines of soldiers were the citizens of Soledad.

Men, women, children—all had come to see the final act.

The doomed man is led to the adobe wall of the store that he robbed. A bottle of tequila—the fiery drink of Mexico—is handed him. He drains it to the last drop, and then hurls the empty bottle against a rock.

He lights another cigarette, says a few words to the officer commanding the firing squad, who draws some money from his pocket.

A soldier leaves to return in a few minutes with another bottle of tequila.

Defiant unto Death.

Two swallows and the bottle is crashed against a rock.

Hernandez draws himself up. Defiantly he faces the store he robbed, his back to the firing squad.

Three sharp words break the early morning stillness—"Ready—Aim — Fire."

Hernandez has paid the penalty of his theft.

Lt. Col. Ramirez steps forward. His quiet voice sternly rises.

"Men, let your comrade serve as an example. You came to give guarantees—not to rob. March."

SAYS ICE IS SOLID AND WATER LOW

Chief Dan Whetung Does Not Remember the Water So Low at Buckhorn--Crossed on Ice.

Chief Dan Whetung of Curve Lake Reserve told The Examiner to-day that the ice is still so solid at the Curve Lake crossing that he drove over it this morning, and expects to cross again this afternoon, while the creeks and streams are still icebound. As a consequence, the trapping, which was expected a few days ago to be early, has not yet opened up.

The Chief, who is versed in such matters, declared the water has never been so low in his memory as it is now above Buckhorn, and The Examiner later verified this in an interview with Captain Richard Carson, game inspector.

Regarding the roads, Chief Whetung said they are in very bad condition, especially through Ennismore, and while fairly good in well-drained localities, they are almost impassable in others.

BOY RESCUED FATHER FROM A VICIOUS BULL

TORONTO, March 31 (Canadian Press). — Rushing into a pen at the Union Stock Yards, West Toronto, where two infuriated bulls had locked horns on Sunday morning, Michael Murphy, aged 55 years, of Keele Street, an attendant, was himself attacked.

He was forced into a corner by one of the bulls, and was being crushed when Murphy's young son, Edward, agd 15 years, entered with a heavy stick, saving his father from almost certain death.

Dr. George H. Gardiner, of Annette Street, who was called, found Mr. Murphy suffering from severe internal injuries caused by being forced against the side of the cattle pen.

The injured man was taken home in Speers' private ambulance.

NEGRO SLAYER MET DEATH EARLY TO-DAY

BELLEFONTE, March 31.—(Canadian Press.) —Lorenzo Savage, negro "Voodoo Doctor," of Pittsburgh, the convicted slayer of Miss Elsie Barthel, nurse, was electrocuted at the Penitentiary here to-day. Savage went to his death calmly.

Prosecuting Attorney charged that Savage killed Miss Bartel when she refused to pay for a "love charm."

GRENFELL LABRADOR MISSION

The Ministerial Association at its meeting on March 24th g. e its hearty endorsation to the Grenfell Mission, among the fishermen, along the barren coast of Labrador. It is hoped that the financial response may be worthy of the object.

Yours Sincerely,
C. W. ROSE.

The articles which have been published this week, have been sent to the local Society by Miss Warne, the coresponding secretary of the Labrador Medical Mission, or taken from the Grenfell Association Magazine, "Among the Deep Sea Fishers."

Those interested i the work are reminded that the annual member ship fee is only $2 and includes the quarterly magazine, and that a large membership will insure a regular income for the Mission.

A brief history of the Mission follows:

Dr. Wilfrid T. Grenfell, C.M.B., was sent out to Labrador in 1892 by the Royal National Mission to Deep Sea Fishers. On that occasion he found an honest, simple people totally lacking medical or surgical care, uneducated and without schools, earning by diligence a precarious living through fishing, furring and sealing and carrying on trade mostly through a system of barter. During the last 30 years, Dr. Grenfell, aided by other splendid medical men, nurses and teachers, has established eight hospitals at strategic points, four of which are open all the year, and the others situated on the fishing grounds, in the summer time only. There are other proofs of the advancement, a Seamen's Institute at St. John's, Newfoundlnad, provides a home when on shore for sailors, sealers and fishermen. A new cement block Orphanage has just been completed where the orphanage family is now housed, educated and equipped to earn a living. These orphans have one or both parents dead, and would get no chance in the world, but for that provided by this Mission. Industrial classes provide a means whereby women and girls can help out the meagre income, while nutrition classes for sub-normal babies and little children, give many a good physical start. Summer schools conducted by over 30 volunteer teachers, are steadily raising the standard of education in that remote part of the British Empire. Much has been done; more r ains to be done. Would you not like to have a share in supporting this humanitarian work? All funds are voluntarily contributed, and consist largely of annual membership of $2 a year or more. Your co-operation will be most welcome in carrying on the various activities of the Grenfell Medical Mission on our own North Atlantic Seaboard.

Subscriptions may be received by the Examiner, or may be sent to Mrs F. M. Somerville, 16 Inverlea Street, Peterborough.

Calomel is Greatest Medicine in The World

Cleans and Tones Up the Whole System

Your liver is poisoning the whole system, causing a tired feeling in the morning, sick headache, bad taste in mouth, sour stomach, indigestion, constipation, kidney trouble, etc. There is only one drug known that acts directly upon the liver, and that is calomel! Because so many people object to the ordinary calomel, it is now put up in a new form, called Tanol Calomel Tablets, which act with a gentle movement of the bowels and no salts or seidlitz powders are needed to remove it from the system, as it is self-eliminating. Get a few of these Tanol Calomel Tablets from the druggist and they will make you feel 100 per cent. better. For sale at Weber's Drug Store, Charlotte street. m.s tf

GROWING DISCONTENT IS THEME DISCUSSION

Two Million Workers Involved in Movement For Increased Pay.

LONDON, March 31.—(Canadian Press).—Existing and constantly growing discontent among the workers is the theme of much comment in the London press to-day. In section after section of industry demands for higher wages have reached a point of crisis, and it claimed that fully two million workers are involved in a big movement for increased pay.

Conservative and Liberal papers charge trade unions and their leaders with taking a narrow view of the opportunity presented by the accessation of the Labor party to power, holding that the Government's duty is to do what the unions desire and making demands which the country cannot grant. In these comments the Government is represented as in a critical position, the insistence of its supporters that it will introduce in the House of Commons a Minimum Wage Bill for the miners' benefit being cited as one instance of how the administration has been put in a serious fix.

GERMAN CYCLE RIDER SAYS HE HATES WAR

PARIS, March 31 (Canadian Press). — "I hate war, its horrors and massacres, and I take off my hat in profound pity at the graves of the men who have been its victims, regardless of their nationalities."

Thus spoke Carl Wittig, German rider, yesterday at the conclusion of the 50 kilometer paced bicycle race which he won.

It was his retort to the newspaper criticism over the fact that he last Sunday was warmly greeted by the spectators at Veldrome, and presented with a bouquet for his gameness. After the race Wittig placed the bouquet at the foot of the monument erected o the French bicycle riders killed in the war.

NEWCOMERS ARRIVED IN TORONTO SUNDAY

TORONTO, March 31.—(Canadian Press). — Substantiating the claims that one of the largest immigration movements for several years is taking place at present, was the arrival in Toronto yesterday of over 400 new citizens. For the past two weeks a steady stream of winter arrivals has been remarkably increased, and special trains of both railways have been utilized to carry the westward-bound tide.

Toronto receives approximately 150 of yesterday's total, the remainder being distributed throughout Western Ontario and the Prairie Provinces.

MUSSOLINI PREDICTS UPRISING IN ENGLAND

LONDON, March 31. — (United Press). — Premier Mussolini of Italy foresees, "sooner or later," an uprising of the middle classes in England in a somewhat different form from the Fascisti, Sir Eric Hambro, prominent British banker, said to-day in an interview.

Sir Eric referred to a recent conversation with the Italian dictator in which Mussolini visualized an entire Europe under the spell of Fascismo.

"The keynote of Fascism is a realization that capital is the friend of the people," Mussolini said, according to the banker.

"For this reason they will eventually succeed in eliminating oppressive taxation from capital, thereby hastening a revival of industry."

Sir Eric predicted that Mussolini would have no difficulty in balancing the Italian budget with such views.

FARMERS SEEK SUMMER LABOR

As High as $45 Offered With Board for Thoroughly Experienced Farm Hands-Local Situation.

Employment in Peterboro is at a low ebb just now, but this is treated as the slump in business that invariably preceds the opening up of the spring season work, varying with the uncertainty of the weather at this season.

The greatest number of calls on the books of the local branch of the Government Employment Bureau, Mr. Hugh Robertson, superintendent, said to day, and a fairly good range of wages prevail. While it is true that some farmers offer as low as $15 and board, this for inexperienced men, the majority offer more, and some go as high as $45 and board. The general wages in this district appear to be around $30 and board for a month's work on a farm, this of course being for experienced farm hands. Boys are offered $15 and $18 and board.

Employers of farm labor in this district are learning that the men they employ are not willing to work in summer for the same wages they receive in winter, and some who allowed good farm hands to leave rather than pay a higher scale are finding difficulty in replacing them.

Building has not claimed many men yet, but reports are optimistic from several builders, some having contracts for several houses, indicating that when the weather warrants a start being made there will be considerable building under way. lyqfl se c,Sce k2l. Tse v mhtmhth

MR. JOHN R. MARSHALL ADDRESSED YOUNG MEN

Mr. John R. Marshall of the Canadian Nashua Paper Co., and President of the Kiwanis Club was the special speaker yesterday afternoon at a meeting of the young men of Murray Street Baptist Church. Mr. Marshall spoke on the need of all young men having faith, hope, and charity showing how Paul had epitomized these qualities as the three essentials in life. In an eloquent address the speaker applied the maxim annunciated by the writer of Corinthians to the different phases of present day life and urged upon his hearers the necessity of acquiring the qualities described. The Sunday previous the class was addressed by Mr. J. F. H. Wallace, manager of the Sun Life Assurance Co.

Cause for Gratitude

"Alas! I fear I haven't written anything that will live."

"Cheer up! Be thankful you are alive in spite of what you've written."—Boston Transcript.

A Natural Flavor

Delicious and refreshing beverage — Ginger Wine —made with

PARKE'S Ginger Wine Essence

Easy to prepare. Just add sugar and water.

25c. and 50c. Bottles

BOND'S DRUG STORE
COR. GEORGE and HUNTER STS.

Look Out, Jack!

This youngster, Thomas F. Garland Jr. of Milwaukee, is quite pugilistic already, even though he is only sev en months old. Just look at the pass he's making at his Daddy's nose. And you ought to see him performing from a coat hanger trapeze. He tips the scales at 22 pounds. At birth he weighed 9 3-4.

POSTAL MONEY ORDER

The purchase of Post Office Money Orders is recommended to the public as the safest, surest, most advantageous and most economical method of transmitting money through the mails.

It is always unwise to take unnecessary risk by enclosing currency in ordinary letters, which may be received by others than the intended addressees.

Money Orders may be obtained at any Money Order office in Canada, and are made payable in most every Country in the World. The greatest possible care is taken to insure payment to the designated payee immediately upon presentation of the Order.

In connection with Post Office Money Orders payable in foreign countries, remitters in Canada are assured that the payee will receive exact equivalents in foreign currency of amounts deposited, in accordance with current exchange quotations.

On the 1st July next, the Department will adopt for use in Canada the new Form of Order which has been in effect with the United States since the 1st of November, last, with such entire satisfaction. The ease and facilities with which these Orders are issued and paid are being greatly appreciated, and the so-called "Red Tape" feature of Post Office Orders has been entirely eliminated.

Postal Money Orders which have become lost or destroyed are duplicated without extra cost upon application, and the amounts are either paid or repaid as desired.

The Post Office Money Order Service protects the purchaser of a Money Order and guarantees prompt payment to the Payee.

DO NOT ENCLOSE CASH IN LETTERS. SAFETY FIRST. SEND MONEY BY POST OFFICE MONEY ORDER.

ENTERED ENGAGEMENT WHILE ONCE MARRIED

Mrs. Rose Hammerstrom of Ottawa, Fails to Gain Property of Fire Victim

NEW LISKEARD, March 31.—(Canadian Press).—Mrs. Rose Hammerstrom, of Ottawa, has failed in her action to recover certain articles of jewelry and silverware and some furs from the estate of the late H. H. Elphick, victim of the Haileybury fire disaster of eighteen months ago.

Mr. Justice Kelly, giving judgment in the case at the close of the supreme court sittings here, holds that there had been no legal transfer of the property claimed. His Lordship also declares that the whole transaction would fail on the ground of public policy, inasmuch as the alleged engagement to marry which the plaintiff said existed between her self and Elphick was entered into while Mrs. Hammerstrom was a maried woman, although living apart from her husband.

The plaintiff was housekeeper for Elphick and it was alleged at the trial that they were to have been married when steps had been taken to secure her freedom.

Why Not Learn?

How many of us have all the attachments for our sewing machines but never use one of them? It is only a question of learning how, and a half hour at the shop where the machine was purchased would save many hours of labor.

MEASLES ATTACK THE CHILDREN'S SHELTER

Three Children Are Seized and Home Quarantined--A Runaway and a Bequest in the Week's Work.

Three children at the Children's Shelter are undergoing an attack of measles, supposed to have been brought here from London with a new arrival, and the Shelter is quarantined as a result.

Ten of the children could be placed immediately, Mr. G. W. Powell, superintendent, told The Examiner, but for this quarantine, and he intimated that the outbreak is being passed around, so it is problematical when the children can be sent to their positions.

One of the Shelter boys, Kenneth Windover, who had been working on a farm near Millbrook, ran away from his foster home last week with a Barnardo Home boy, and the two were missing for three or four days. On Saturday they were found on farms near Ida Church.

A bequest of $200 was received on Saturday from the estate of the late Mrs. Caroline White, of Dummer Township.

NEW YORK WOMEN AIM TO IMPROVE CHILD'S HEALTH.

Trying to Make May Day This Year a National Children's Health Day.

By Hortense Saunders.

NEW YORK, March 31. — Make May Day, this year, a national children's health day.

That's the ambition of a group of New York Society women, who aim to better the health of 35 million children of the United States, including the two million babies born each year.

"May Day belongs so especially to the children," says Mrs. Oren Root, leader of the health crusade, "that it seems the time, above all others, to call attention to the importance of child health. It marks the time when children return to the outdoors, the gayest season of the year."

Five thousand men and women are working under the banner of the Child Health Association.

Surveys are being made in 84 cities representing all sorts of climatic and industrial conditions, to show just how much milk each child gets, how pure it is, what medical supervision and care is given to the children in the schools, and what opportunities for healthful play and hygienic homes are afforded.

They are even going into the matter of what time each child goes to bed at night and what time he arises in the morning!

"We want to make use of all this information to emphasize that child health is the personal concern of every citizen in the United States," Mrs. Root declares.

"We hope that, wherever these May Day celebrations are held people will ask themselves: 'Is the water supply of our community pure?' 'Are vital statistics properly kept?' 'Are our children suffering from malnutrition?' 'Is our milk supply properly inspected?'

"In other words, we want May Day to mean a day for the people of the United States to stop and think of these things, and having thought—to act."

Mrs. Root calls attention to the fact that physical examinations, given 22 million school children, show that five million have defective eyes, a million have defective hearing, a million have active tuberculosis, and a quarter million have organic heart trouble, and three to five million are underfed.

"Showing surely," adds Mrs. Root, "that something should be done."

CLARENCE TOPPING APPEAL UP TODAY

Unless Court Interferes Topping Will Hang Next Month.

TORONTO, March 31.— (Canadian Press)—Second divisional court, Chief Justice Latchford, presiding this morning reserved judgment on application by D. A. J. Swanson, representing Clarence Topping, for a new trial. Topping is sentenced to hang on April 10th for murder at London, in November of Geraldine Durston, court suggested that Mr. Swanson should telegraph to Department of Justice for mental examination of Topping suggested by trial judge be made at once, E. Bayly, K. C., Deputy Attorney General for crown, stated that he had written department calling attention to imminence of excution "it is only proper", said Chief Justice Latchford" that examination should be made. Question is whether what occurred at the trial was such an interference with administration of justice that it would warrant us saying there was miscarriage of justice, in my view it was not, I shall have to consult my colleagues."

POLICE AMALGAMATION TO AFFESCT PETERBORO

The amalgamation of the Highway police with the Provincial Police Force will probably affect Peterborough, Provincial Constable R. F. Davis said to-day, but in what way he is not certain. There will probably be one man detailed to highway work while one carries on the duties for which he, as provincial constable is now responsible.

An announcement of this amalgamation, which will do away with the special force instituted by Mr. Biggs in the regime of the late government, was made by Hon. G. Howard Ferguson a few days ago. There will now be a special branch of the Provincial Police Force to attend to highway matters, but the amalgamation will reduce the total number of men needed by the province. This will insure, it is expected, more uniformity of administration.

PLEATED APRON.

An apron of accordion pleating is effective in crepe, satin, chiffon, or practically any material, and is an excellent idea since the pleating never comes out.

Y.W.C.A. WEEK'S ACTIVITIES.

Special attention is called this week to the sewing meetings each afternoon and evening. On Tuesday and Thursday evenings the older girls of the Association are especially asked to help. The help of everyone will be appreciated as there is a great deal of work to be done.

The "Y" courts are open for Badminton games and many are learning and enjoying the game. Reservation may be made at the office. The Beginner's Ukulele class meets on Tuesday at 5 and the advanced class at 7 on Tuesday.

A week from Thursday the 9 Home Nursing classes will meet for a review, conducted by Dr. E. Wood.

The big gymnasium pageant will be given in the Grand Opera House on May 2 and 3. Tickets are already out for sale. All pupils are requested to attend every class from now to the exhibition. Parents and guardians are asked to please co-operate.

The activities for the week are:

Monday— 2.00, Sewing meeting; 4.15, Intermediate gym; 6.30, De Laval basketball; 8.00, Elementary gym class and Senior school girls.

Tuesday— 2.00, Sewing meeting; 4.00, Elocution lessons; 4.00, Boys' special class; 4.45, Junior school girls special; 5.00, Ukulele class; 5.30, Collegiate basketball; 7.00, Ukulele class; 7.00, Quaker basketball; 7.30, Sewing meeting; 7.30, Home nursing class; 8.00, Senior gym class.

Wednesday— 2.00, Sewing meeting; 4.30, Intermediate gym special; 5.30, Junior aesthetic; 6.30, Western Clock basketball; 7.30, Cumjoynus club; 7.30, Cheerio club; 7.30, Home Nursing club; 7.30, United club.

Thursday —2.00, Sewing meeting; 4.00, Collegiate basketball; 7.00, Normal School basketball; 7.00, Senior aesthetic dancing; 7.30, Sewing meeting; 8.00, Ladies' gym.

Friday — 2.00, Sewing meeting; 4.00, Babies' class special; 4.45, Senior school girls' gym.; 4.30, C.O.S. club; 7.30 Monday and Tuesday night, senior gym. classes.

Saturday—9.30, Junior gym.; 10.45, Babies' gym.; 2.00, Ever Bright Club; 2.00, Sunshine Club; 4.00-9.30, Badminton games.

DAUGHERTY HAS NOTHING AGAINST THE PRESIDENT

ATLANTIC CITY, March 31 (Canadian Press). — Former Attorney-General Daugherty, in a formal statement issued last night, declared that he had no personal feeling against President Coolidge, and made known his intention of helping the Chief Executive "at any personal sacrifice."

MILK PRICE SET BY CHEESE COST

One Firm Reduces Price in Peterborough, Now on Level With Majority at 10 Cents.

With the advent of spring has come a reduction in the price of milk retailed by the Milk Products Company, bringing it to the level of the average independent dealer, but so far as could be ascertained from a few of the smaller dealers to-day, no general reduction below 10 cents is proposed.

G. A. Gillespie, manager of the Milk Products plant, said the reason for this decrease is the outlook for the cheese industry. All indications now are that the price of cheese will be lower this year, hence the reduction in the cost of milk. As usual at this time of year, the supply of milk is increasing, and this has a downward tendency on the price also.

Peterboro, with ten-cent milk, is as low as any city in the Province, according to the Government statistics, and is two and a half cents below the average for the Province, which is 12.5.

Ten cents a quart is the low mark in Ontario, Brockville, Kingston, Orillia, Guelph and Woodstock being the only other cities having so low a price, and on the other hand milk costs 20 cents a quart in Timmins, 15 cents in Windsor, 14 cents in Port Arthur and Fort William, and 13 cents in several other cities. The average price in the Dominion is the same as for Ontario, 12.5 cents, and only three cities in the Dominion have a price as low as 9 cents.

A BROADWAY COMEDIAN OCCUPIED THE PULPIT

NEW YORK, March 31.—(Canadian Press).—"Many have condemned me for continuing in my profession," said Fred Stone, Broadway comedian, speaking yesterday from the pulpit of Chelsea Methodist Church, "but men are not obliged to give up their business to become Christians. We have wonderfully religious people on the stage of all creeds.

"I will give my best to my audience, if my experience helps others to gain happier thought in life, and if I can be the means of advancing the faith I have adopted, I shall feel that I have been rewarded beyond my deserts."

Health is Practically Everything to Everybody

GOOD HEALTH—that rare feeling of perfect physical fitness—is the most-sought-for blessing in the world. It is practically everything to everybody. It is so definitely related to the things we eat that certain foods are a boon to the health of mankind.

Grape-Nuts is one of these foods!

For into Grape-Nuts goes all the nourishment of Nature's finest grains—wheat and barley. These grains supply Phosphorus for strength and vigor. Starches, happily changed to sugar form, by a special process of slow baking, to build and repair tissues. And roughage—to clear the body of toxic poisons.

Grape-Nuts have that delicious flavor. The tasty goodness of them makes you want to eat them. Their crispness makes you chew it—it is good for the teeth. It is easily digested, soundly nourishing and economical, because each package contains a great many helpings. Serve it right from the package—with cream or milk. Your grocer has it.

GRAPE-NUTS CLUSTERS

1 teaspoon butter, 2 tablespoons cream or top milk, 1 cup Grape-Nuts, 2 squares unsweetened chocolate.

Melt chocolate in double boiler, stir in butter, cream and Grape-Nuts. Drop from a spoon onto marble slab or oiled paper and let stand to harden. This recipe makes 12 to 15 clusters.

YOUR GARDEN

SOIL PREPARATION

Once you have the site for your garden selected, the next thing to do is get ready to plant it.

If the surface ground is so hard it cannot be spaded or plowed, a mattock should be used and the soil broken to a depth of eight or 10 inches.

Plenty of manure should be turned under. But do not use sawdust and mill-shavings on garden land.

Nothing is gained by working the land before it is sufficiently dry.

And remember that the longer rest you allow between spading and planting, the better your garden will grow

Plants do not live by water alone. They require air, too.

And the only chance air has of reaching the roots is by filtering into the ground after it has been turned and broken.

To see if the soil is ready for planting after you have prepared it, press a small quantity in the palm of the hand.

If it is too wet for working it will adhere in a solid mass. But if dry enough to work it will crumble apart

Should conditions be favorable following this test rake and hoe the soil to a depth of four to five inches

Coal ashes have little value as fertilizer. Their function when employed is mainly to loosen the soil and make it workable.

Rotted leaves also make good fertilizer.

But organic matter obtained from barnyards should be employed with care, as it may burn the seeds if placed in direst contact with them.

Best results are obtained with commercial fertilizers, where there is plenty of manure or organic matter in the soil.

Nitrate of soda is frequently used as a side-dressing, especially with crops grown for their leaf value, rather than for fruit.

The ideal soil is a dark, sandy loam rich in organic retentive matter to hold large quantities of moisture, which carry the crops through periods of drought.

Be sure you have all debris, such as tin cans, rocks and other trash removed from the land before planting.

Expensive tools for the garden are not necessary. A good spade or spading fork, a hoe, a steel rake, a trowel and a watering can are all the implements required for cultivation of the small plot.

If weeds grow rank upon the land it is a good indication that the soil is good.

But don't plant anything near maples and oaks. These trees steal the moisture and food from the crops.

To-morrow: Selection of seeds, and how, what and when to plant.

Norwood Correspondence

NORWOOD, March 31.—Mrs. Howard and daughter Lois, who have been visiting her mother, Mrs. Richard Beamish, returned home to Smith's Falls on Monday.

Mrs. F. J. Pearce was in Peterborough on Tuesday.

Mrs. I. Puffer and Miss Mabel Puffer were recent guests of Mr. Gordon Puffer, Peterboro.

Mr. C. W. Waters was in Toronto during the week on business.

Mrs. John McNeely of Peterborough is a guest at the home of her brother, W. J. McLaughlin.

Mrs. W. A. F. Campbell of Port Hope is visiting her mother, Mrs. J. B. Pearce.

Mrs. George Kirk and daughter Lila spent Tuesday in Peterborough.

Miss Blanche Pearce was in Peterborough on Wednesday.

Mrs. Wm. Chamberlain spent Wednesday in Peterborough.

Mrs. Outwater visited friends in Peterborough during the week.

Mr. F. J. Squire of Havelock was in the village on Wednesday.

Mr. F. J. Stewart was in Peterborough on Thursday on business.

Mr. M. Lonsborough was in Peterborough on Thursday.

Mrs. M. Engisch was in Peterborough on Thursday.

Mr. George Salome was on a business trip to Toronto during the week.

Mr. Harry Harper of Havelock was in the village on Wednesday.

Mr. Scott of the Union Bank staff, Campbellford, is relieving in the local branch.

Mrs. Jas. McNichol and Miss Annie McNichol visited the former's daughter, Mrs. W. J. Grady in Peterborough, on Friday.

Mrs. Lorne Fife was removed to the Nicholls Hospital, Peterborough, on Tuesday afternoon. Mrs. Fife has been seriously ill for some time.

Mrs. Herb McKay of Bethel was a recent guest of friends here.

Mr. and Mrs. John E. Roxburgh were in Toronto during the week attending the funeral of the late Miss Janet Manson, whose death occurred Wednesday in the Pembroke Y. W. A. The deceased had been superintendent of that organization since 1911.

Mrs. Thos. Ridyard of Detroit, Mich., is a guest at the home of her father, Mr. Wm. Rogers.

Mr. H. A. McColl has purchased from Mr. T. E. Finlay the brick house on Queen street, lately occupied by Mr. John Rogers.

Mr. I. Rusaw has purchased from Mr. J. Gardner the house on Colborne street recently occupied by Mr. Thos. McMaster.

Mr. Thos. McMaster is moving to the apartments over Mr. Stevens' harness shop on Peterborough street.

An illustrated lecture was given on Friday evening in the Baptist Church by Mr. Wilkinson, missionary to Africa.

A play, entitled "The Young Country Schoolma'am," will be presented in the Town Hall, Norwood, on Friday evening, April 4th, by some of the members of the Young People's League of the Methodist Church.

The Ladies' Aid of the Methodist Church held a tea and sale of homemade cookin, at the home of Mrs. B. W. Squire on Wednesday afternoon.

The W.M.S. of St. Andrew's Presbyterian Church held their March tea on Thursday afternoon at the home of Mrs. Hugh Robb.

SOUTH SEA PEARLS CLOTHE TAHITANS IN SILK RAIMENT.

Rich Returns For Divers Off Hikueru This Season--Successful Divers Clothe Wives in Finest Silk.

PAPEETE, Tahiti, March 31.—Pearl diving off the island of Hikueru has yielded rich returns during the season just closed. Both pearl shells and pearls of high value have been found in large numbers in the waters of the lagoon

These pearl oyster beds had been under restriction for a number of years and for that reason the jewel crop was unusually good.

The diving is done by natives who have trained themselves from childhood to descend to great depths and remain under water a long time. No diving machines are permitted.

The Tahiti merchants establish stations at the island during the season to buy shells and to sell provisions and luxuries to the divers and their families. Representatives from Paris jewelry houses always are on hand to compete for the better quality pearls. Pearls of lesser value fall into the hands of speculatively inclined Chinese and European schooner captains. From long experience the natives are fully aware of the value of their finds, so that not many bargains are available.

The South Sea island native reacts to prosperity ostenatiously. The wife of the successful diver parades the white coral beach of Hikueru clad in brilliant silks, high heel shoes, picture hats and most costly Chinese shawls. In the island of Bora Bora, where the high price of vanilla beans has raised growers of that staple to temporary affluence, the Chinese shawl has been by the men as the insignia of great riches. It is worn draped around the neck, with the embroidered ends hanging gracefully down the back and chest. The real vanilla barons wear, in addition, a second shawl of a different color about the waist.

Many stories of lucky finds at Hikueru have drifted into Papeete. One tells how the keeper of a semaphore signal at Papeete, who went to the island on a holiday, happened to see a large pearl oyster lying in a shallow water near the beach, dived for it and on opening it found a pearl for which he received 15,000 francs. Another relates that an old native woman, while fishing on the reef, stubbed her toe against an oyster that yielded a gem worth $1,000 gold.

Riches, however, never do a Tahitian native any permanent good. They are dissipated immediately in fine clothes, cases of tinned salmon (no native will wet his toe in the sea in search of fish if canned salmon can be had), guitars, accordions, and all manner of trivial amusements.

Then, when the tide af affluence has ebbed, the Tabitian returns to his loin cloth and his bread-fruit and fish diet until another crop of copra or vanilla has matured, or the restriction has been taken off another pearl island. But in the prosperous era he has lived gorgeously.

AVOID SOGGY FAT.

When frying doughnuts or making French fried potatoes in deep fat, avoid using too many pieces at one time, or the fat will be absorbed by the food.

TRAGEDY TOOK LOVING MOTHER

Mrs. Bauer's Every Moment Devoted to Little Girls, Says Her Parent.

Latter Had Premonition.

NEW YORK, March 31.—Somewhere a man is hiding or fleeing because he has broken the most primitive law of mankind—he has killed the mother of two young children. He has taken away the natural protector of two little girls.

Mrs. George Pero, the mother of Mrs. Maude Bauer, told of what motherhood had meant to her daughter. She said:

"Maude's every moment was devoted to the two children. She not only bathed them and dressed them and cooked the right kind of food fo them, but she was their companion.

"She used to tell them stories, and she used to take them for long walks and for rides. In the Summertime she took them swimming.

"More than that, she laid aside a little every month, so that when they were old enough she could send them to college."

What Can Atone?

Mrs. Pero let her eyes fall before the question that has recurred to her ever since the dread afternoon of the tragedy:

"What can atone for the loss to these children of their high-hearted young mother? What can ever bring back the beauty and love of her motherhood to them?"

It makes little difference whether the slayer of this young mother is found; little Maude and Helen Bauer have lost the most precious thing in the world.

Somewhere wanders at large a dangerous creature who insanely kills women; out of the world has gone a fine mother who was doing the most constructive job in the world—raising her family in love and high ideals.

Would Not Scream

Mrs. Pero looks out thoughtfully upon the world of facts and tells of that afternoon on the lonely road:

"When I saw my daughter's body lying there wanted to scream out, but I knew that would be the worst thing in the world for the children to hear. I had to keep a tight hold on myself to keep them from receiving a deep shock.

"It really made very little difference how I suffered at seeing my daughter there; the important thing was to shield Maude and Helen.

"They will remember their mother as strong and young and beautiful. That is something."

Maude Bauer was born on Staten Island in the neighborhood where she was living at the time of her death. Her childhood and young girlhood were spent among persons who live simply and placidly. Her mother told of how she sang in the choir:

"Maude had a lovely alto voice—not powerful, but most pleasant. She was soloist at the Park Baptist Church for many years."

Trained as Nurse

Mrs. Bauer took a nurse's training course at the Parker Hospital in New Brunswick. After that she returned to Staten Island and lived with her parents.

Eight years ago she was married to Walter Bauer. Last year the Bauers lived at Keyport, but a contemplated change in his business caused them to go back to Staten Island and stay with Mrs. Bauer's parents.

They were looking for a house to buy in Rutherford or Linden, New Jersey.

Mrs. Pero said:

"My daughter was always very strong and self-reliant. She could swim and skate and play tennis with the best of them. I think when she put up a fight in that closed car her slayer realized that he had met his match and in fear resorted to his pistol."

Mrs. Pero then remembered an intuitive warning. She said:

"I felt a strange uneasiness when Maude started out up the road. I never had felt it before."

DYING MAN CALLING LOST SON BY RADIO

Boy Ran Away to Become Minister Thirty-two Years Ago —Father Seeks Him Now.

WINDSOR, March 31 (Canadian Press). — Critically ill from an attack of pneumonia, from the effects of which physicians declare he is unlikely to recover, George Liezert, aged 79, lies gasping his life away.

His only hope is that before the Grim Reaper comes his only son William whom he has not seen since the boy ran away from home 32 years ago, following a parental reprimand, will reach his bedside in time to say farewell.

In an effort to locate the son, who after leaving home took the name of Murray and later became a Methodist minister, the aid of radio has been sought.

From broadcasting stations in Detroit last week appeals were broadcasted requesting the knowledge of Rev. William Murray.

Yesterday afternoon a message came from Detroit stating that "Rev. William Murray is pastor of the Methodist Church at Rose City, Mich."

RADIO NOTES.

Diaphragms Are Delicate.

The caps on telephone receivers should not be unscrewed unless it is absolutely necessary. If this must be done to tighten connections, etc., be carefull not to bend or dent the diaphgram in any way.

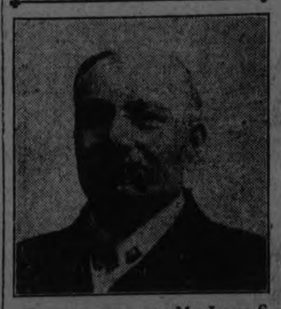
Fading Signals.

When a station "fades out' after it has been tuned in there is no use trying to find it by shifting the tuning dial. By waiting a few seconds the station will come in again with maximum intensity.

Remove Tubes Before Repairing.

Never begin repairs on a set or make a change in the hook-up until all the tubes are removed and laid carefully away. A fairly heavy tap with a screwdriver or other tool will break the glass bulb of a tube.

Health Restored by The Fruit Treatment



Fourteen years ago, Mr. James S. Delgaty, of Gilbert Plains, Man., was a nervous wreck. His system was shattered by Nervous Prostration, and he was reduced in weight from 170 to 115 pounds.

He wrote on May 15th, 1917, "Every medicine I tried proved useless until a friend induced me to take 'Fruit-a-tives.' I began to mend at once. After using this fruit medicine for three months, I was back to normal. I have never had such good health as I have enjoyed the past six years. We are never without a box of 'Fruit-a-tives' in the house."

Writing again on September 27th, 1923, Mr. Delgaty says, "I stand by my letter to you in 1917—I still recommend 'Fruit-a-tives'."

"Fruit-a-tives" is a complete fruit treatment—being made of the juices of fresh ripe fruits and tonics.

25c. and 50c. a box—6 for $2.50—at druggists or sent postpaid by Fruit-a-tives Limited, Ottawa.

MAKING MAKE MONEY MONEY

Brief but Important Lessons in Finance, Markets, Stocks, Bonds and Investments.

The New York Stock exchange does a great deal to prevent bucketing by denying ticker service to firms which cannot prove that they are respectable and reliable.

Even a bucket shop must have quotations on stock and bonds. No one will be fooled consistently by a concern which has no ticker service.

The New York Stock Exchange has a committee which is continually checking up doubtful firms. If a firm's conduct is unbusinesslike, the ticker service is taken out.

If crooked brokers could easily obtain quotations, one of the greatest handicaps to bucketing would be removed, and we would undoubtedly see a great spurt in the business of bucketing.

Before buying stocks from a broker who claims to be a member of the New York Stock Exchange, be sure he has a ticker.

Your credit in constant jeopardy will work for you no more efficiently than an employee in constant fear.

Credit is as sensitive as your neighbor's feelings. You cannot afford to be careless with either. Many men have ruined their credit and come to grief through their careless willingness to become responsible for others.

Surety is the protection the other fellow demands against the risk you are willing to take for nothing. If there were not risk involved, there would be no surety required. When men who cannot afford to lose money sign as sureties, they take chances they have no right to ask a friend to be your surety unless that friends can afford to lose the money. There are regular surety companies doing this sort of business.

Efficient "DX" Tuning.

Get into the habit of using the earphones when tuning in a station before turning on the loud speaker. It is easier to control the regeneration in this way and less squealing will be heard in others' receivers.

IN A MILLINERY SHOP

THE CHILD'S LUNCH BOX.

Never put any food objectionable to the child in the lunch box. See that the lunch box contains just as well-balanced food as the child would receive were he to eat at home. A small covered jar may be tucked in one corner of the box to contain a surprise of some sort—a little pudding, a few pieces of candy—anything pleasing that will make the jar more or less of a mystery.

CHEAPER CUTS.

Instead of always buying steaks and chops, which are the most expensive of meats, remember that the cheaper cuts may be used for meat pie, meat loaf, pot roast, hamburger or stew.

STRAIGHT PICTURES.

If pictures get out of alignment, hang them in this manner: Put the cord over the hook so that the picture faces the wall, but is quite straight. Then turn it over to the right side. The loop formed will prevent the cord from slipping.

Canada's Muzzled and Gagged Industries

THERE are some industries making products so good it is a shame not to spread the news about them all over Canada.

These industries might truly be termed Canada's *muzzled* and *gagged* industries.

The factory wheels turn, but the public hears them not. These industries do not speak to the great consuming public. They are silent. The mass of the people knows little or nothing about the good products these industries make.

Not knowing the true merits of the products of these *muzzled* and *gagged* industries, consumers are indifferent about them. They sidetrack them in favor of goods more widely known and more energetically sold.

The *muzzled* and *gagged* industries need to speak out. They need to tell the people about the quality of their goods.

Unless a manufacturer shows enough confidence in the merits of his product to come right out boldly in the newspapers, magazines and farm papers and advertise it, how can he expect the public to buy it with confidence or give it the preference?

It is only products the people know by reputation that they buy with ease and confidence.

National Advertising is the greatest creator and enhancer of reputation, the business world has ever known. It is the voice by which modern industries speak to vast audiences of consumers. By its use, many new products have been able, in a few years, to establish themselves on the market, and outstrip in sales and prestige older unadvertised lines that have been on the market for many long years. Advertising, also, has helped many an old industry get a stronger hold on its market and increase its prestige and sales.

Proofs of the power of advertising are known to you and to all of us. What it is doing for others it can do for you.

Let us help you take off the *muzzle* and remove the *gag* from your industry. Our large organization of experienced advertising men has helped other makers of good products to speak out successfully to the public. A conference with us, either in your office or in ours, will not obligate you in any way.

Service with Sincerity

HEARTS AFIRE

by May Christie

The Brilliant Novelist of Modern Society

(Continued from Saturday)

WHO'S WHO IN THE STORY

Prudence Page, a charming country girl, has fallen in love with

Bert Traymore, a fascinating philanderer, who is in no danger of losing his heart over any woman.

Janet Mercer, Prudence's dearest friend, an older woman, plain but clever, is in love with Will Ogilvie. She is masseuse to the delicate child of

Mrs. Vansittart, a pleasure-loving woman-of-the-world, owner of Winston Towers, a beautiful summer home, which she fills with visitors.

Virginia Dale, her ward, is a blase beauty, who counts Traymore among her many swains. She is genuinely interested in

Peter Armstrong, a brilliant young inventor, clever and ambitious, who has evinced considerable admiration for Prudence. Virginia finds nothing to admire in the country "chit," as she calls the girl.

Traymore is attempting to convince both Virginia and Prudence of his love, and Prudence is suffering deeply.

In an outburst to her father, Prudence tells him that she is not content with life on the farm.

CHAPTER XXXII.

A Perturbing Thrill

Prudence walked along the country roads towards the library, revolt against her present circumstances still welling in her consciousness, mingled with regret at having caused her father pain.

But, worst of all, was the interminable heartache over Traymore's conduct.

She hadn't seen or heard of him in days and days!

True love didn't act that way.

And—and the awful discovery of that letter to Virginia Dale—she couldn't shake it from her mind!

She hated Traymore even while she loved him. Queer anomaly!

And yet she longed for him, his kisses and his insincere love-phrases. To drug her mind with them meant a cessation from this pain.

It had rained heavily in the night, and ineffably sweet breezes fanned her flushed young face as she tramped along the winding roads that led to the little country town where the library was located. 'Growing weather,' the farmers called it; matter-of-fact men they were.

"Father would like me to marry one of them," thought Prudence, the tide of resentment welling in her heart again, and her soft lips curling in an unaccustomed twist of scorn. "Father would like me to be a vegetable, and 'safe'."

Who wanted safety when the outside world must be so wonderful and so inspiring?

Oh, to forget Bertram Traymore and his kind!

Alas! she couldn't!

She passed the wood that had been their trysting-place a score of times. Spikes of flowered bluebell that would soon spread to a sapphire flood, grew to its very edge. There was the butter yellow of bunched cowslips in the meadow, too; and in the marshy great splashes of king-cup gold. And all along the roadside there were trails of blue, blue seedwell that had drunk refreshingly of the soft April rain.

If the course of true love had run smoothly, never would she have wished to leave this lovely spot.

But, to-day, its beauty hurt her, just as Bert had hurt her, with his gay good looks and smiling care-freeness.

Swallows, their wings intensely blue in the sunshine, skimmed across the road. The warmth had opened more fully the moist sprays of the fruit-trees, too, and all the orchards of the countryside were blushing rosily. Chaffinches were warbling gaily everywhere, taunting Prudence with their song of joy and love fulfilled.

She swung along the road, her vagrant mind on Bert . . . Virginia Dale . . . hope of a coming letter . . . hope of an explanation . . . hope of an opportunity to grant him full forgiveness.

Ah! but would he give her such a chance? Had he not—(oh, painful, agonizing thought)—had he not planned this turn of affairs, just to let her know that he was 'through' with her?

If so, she couldn't beat it . . .

So wrapped up was she in her own perturbing thoughts that she failed to see a figure that she knew strolling in a cottage garden.

It was a very pretty cottage, set back a little from the road, with a big shed built on at the side for a laboratory.

But the tenant, at the moment, wasn't working. He was out in the early sunshine, taking a 'breather' from his toil, succumbing to the magic of a sweet spring morning, and listening to the deep humming of the bees about the hive.

"Good morning, Miss Prudence. Whither away?"

She started at the sound of Peter Armstrong's voice, for a moment staring at him stupidly.

"I—I didn't recognize you." Yes, of course, it was he, in the very shabby suit he'd worn the first occasion of their meeting, when she took him for a tramp! "I'm going to the library to get a book on sweet pea growing."

"Oh, I have a couple that maybe you'd like to have a look at." He opened the garden gate invitingly, his eyes eager. "Do come in and have a look at my domain."

She hesitated. Then, catching sight of old Nanny moving about the interior of Pear-Tree Cottage, yielded to curiosity, and an impulse for company and distraction.

"Just for a moment. I—I'd like to see the new addition. I can't pronounce its name right, lab—labor——'

"That's the Latin for 'work'," said Peter Armstrong, with a genial grin. "Nothing like hard toil, you know, to chase away the blues."

"I've got the blues this morning," supplemented Prudence, unexpectedly. "Can you give me a job?"

He laughed outright.

"Your job is just to go around looking the way you look just now. That's accomplishment enough."

She flushed. Bert Traymore often had said that sort of thing, but with a glib quickness the other lacked.

And Peter Armstrong's eyes—such handsome eyes—looked directly at one—honest and sincere. He didn't pay one compliments. Everything he said he meant. That was one sure thing about him.

"But I don't have to work to maike myself look the—the way I do."

She flushed hotly after the words were spoken, for fear he would misunderstand and think her vain.

But, for answer, he merely led the way to his laboratory.

It was a long, low shed, with several skylights and a couple of windows, giving lots of light for the 'experiments' conducted in the place.

A long shelf, crammed with books of reference, records of work accomplished, and bundles of paper, ran along one side of the room.

Below the shelf there was a long table with lots of bottles on it, of queer shapes and sizes—burettes, pipettes, and measuring flasks; a delicate balance, in a glass case, held a prominent position.

And on another, smaller, table in the centre of the place, was a queer, muddy mess, that looked like blacklead. The greasy mixture was on Peter Armstrong's coat, too, and a little of it on his hands.

"I've been mixing up lubricants," he said, cheerfully, noticing her glance. "I test them on these little spinning fraction discs"—he indicated the articles in question—"blending different kinds of oil with graphite."

Prudence didn't understand it, but the sound of his attractive voice somehow seemed to ease her pain. He talked as though he really enjoyed her company, and desired it.

"I wish I had a career," she said suddenly. "I envy workers, like yourself. I wish I were different from the—the stupid, dull creature I am——"

"Don't talk like that! If you only knew——!" the man began.

Their eyes met, his holding hers in an odd spell that sent a strange, perturbing thrill through every fibre of her being.

In To-morrow's Installment Virginia Suffers a Mishap.

PLAY PRESENTED AT WARKWORTH

New Members Received By Ladies' Aid of Methodist Church—Personal News From Percy Village.

WARKWORTH, Mar. 31.—Mr. and Mrs. Milford McVety were in Brighton on Thursday attending the funeral of the latter's uncle.

Mr. and Mrs. F. H. Moore entertained a number of friends on Thursday evening.

Mr. Geo. Stewart, of Belleville, was in town a few days, the latter part of the week, on business.

The Ladies' Aid of the Methodist Church held their regular meeting at the home of Mrs. S. A. Kemp. Two new members were added to the list.

A number of friends were entertained by Miss Nellie Ewing on Friday evening.

The play, "Red Acre Farm," which was given by the Oak Heights Dramatic Club in the town hall, Friday evening, under the auspices of the Women's Institute, was a success.

Contracts for Hydro lighting have been taken out by Mr. Harold Insley and Mr. Oscar Phillips.

LONDON CORNFLAKE CO. AND KELLOGG COMPANY AMALGAMATE.

Plant to Be Doubled.

LONDON, Ont., March 31. — Important negotiations for a large merging of commercial interests were concluded when the Battle Creek Toasted Corn Flake Company of city and the Kellogg Company of Battle Creek, Mich., were merged. This merger is of more than passing interest to the general public, because not only does it amicably terminate a long period of litigation, but it will enable the two companies to greatly enlarge their present manufacturing capacity, which has become a necessity to supply the rapidly increasing demand for the products of these two companies.

It is announced that the Toronto plant will be transferred to the new head office and mills in London, and increased production will take place with the least possible delay.

Mr. W. K. Kellogg and Mr. J. L. Kellogg, president and secretary of the Kellogg Company, were in the city for the closing of the deal, and Mr. J. F. O'Brien, vice-president and general manager of sales, who accompanied them, stated that the merger of the Canadian and American companies would enable the Canadian Company to at once cope with the huge daily increasing demand for Kellogg's breakfast cereals.

ADVENTURES OF THE TWINS

By Olive Roberts Barton

PATENT-LEATHER PUSS PAYS A PENNY

"This is great for me!" he shouted at them.

"Well," said Mister Fuzz Wuzz, the pipe-cleaner man, when the Twins got back to the courthouse in Doofunny Land, "did you find the tin mouse?"

"Yes," said Nick, "he's under a board and won't come out. He says to tell you he isn't there!"

"That shows that his guilt is as plain as the tail on my back," said the patent-leather cat. "I knew it all the time."

"I'm not so sure about that," said the rubber dog, and he whistled indignantly through the top of his head by drawing in a deep breath and then letting it out until his sides touched.

"Gentlemen! Gentlemen!" cried Mister Fuzz Wuzz, hammering loudly. "That is no place to fight. And since the mouse won't come to court, the court will go to the mouse. Come, ladies and gentlemen."

The napkin rabbit saw them coming and flopped his ears with joy. "This is great for me!" he shouted at them. "I can't move because I am coming untied. But now I'll see everything."

"My goodness gracious!" cried Nancy. "I could have tied you together. I never thought of it. Here I'll give you a good pull and you'll stay together for a long time. There! How's that?"

"Oh, fine, thank you!" cried the napkin rabbit, hopping around and shaking his nubbin of a tail. "That's like old times."

"Say," said Mister Fuzz Wuzz sternly, "is this a trial or a hospital for fixing rabbits? We'd better get down to business. Sit down everybody. Where did you say the tin mouse was?"

"He's hiding under that board," said the napkin bunny. "I've been watching so he couldn't get away."

"Are you there, Mister Mouse?" called Mister Fuzz Wuzz sharply.

"No," came a squeaky voice, "I'm not here at all! But if I was, I wouldn't come out anyway with that old cat there."

The patent-leather cat trembled with rage, but said nothing.

"Then we shall try you where you are," said Mister Fuzz Wuzz. "Now give us your testimony."

"My wh—what?" came the voice. "I never had anything like that in all my life."

"I mean, tell us all you know about the peanut boy's broken nose," said the pipe-cleaner man. "Did you or did you not break it?"

"Never did! Cross my heart!" came the tin mouse's voice promptly.

"Well, it's all the same thing," declared Mister Fuzz Wuzz. "You jumped at the pin-cushion lady, and she fell on the wooden waddle duck and he skidded and frightened the tin soldier's horse, and he stepped on the peanut boy and broke his nose. So it's your fault."

At that the tin mouse came popping out. "Yes, but who scared me?" he squeaked. "I was running from that cat there—and it's all his fault!"

Patent leather puss would have blushed if he hadn't been so black. But he looked guilty and tried to sneak away.

"No, sir! Come back here and pay the peanut boy one penny for damages," cried Mister Fuzz Wuzz. "Either that or go to jail for a week."

"I'll pay," said Puss meekly.

The rubber dog was so overjoyed that he whistled through the top of his head again.

Blue-jay

VOICE OF THE PEOPLE

To the Editor of The Examiner:

Sir,—The following resolution of The Children's Aid Society of Toronto, is the first sign of returning sanity. It will probably take about three years more before the patient reform people, who have so nearly wrecked everything, will get back to their boxes.

Toronto, March 27.—The Children's Aid Society has launched a movement to surround children as far as possible with good influences in their own homes. In a statement just issued it asserts:

"Public institutions may be well conducted and no expense spared, and yet the moral life of children brought up under this concrete and artificial plan is rarely of the type that will withstand the struggles and temptations of actual life when the world is to be faced as it must inevitably be sooner or later.

"Public sentiment is the mighty force that keeps the community clean and the Children's Aid Society can exert great influence in creating a high standard of public morals."

RADIO NEWS

Sixteen stations in the United States now broadcast on battery power alone.

Debating by radio from one continent to another may come sooner than expected.

Fifty million dollars will be spent for vacuum tubes alone in 1924, estimates Roger W. Babson, economist.

MARMORA NEWS

MARMORA, March 31.—A party of the Bell Telephone men are in town making alterations and repairs on the telephone line to Deloro.

The old game of marbles has at last gained the favor of the younger generation of the village. Even the older boys of the continuation school have seen the merits of the game, and in order not to miss the fun altogether, are taking it up, in spite of the fact that they are a little old for such amusement. The local merchants report a lively sale of marbles and pin-money seems to be going more for marbles than for the old standby, candy.

Mr. George Johnson has moved his family from Deloro and has taken up Mr. Donald Chisholme's farm just south of the village.

Mr. Frank Smith, Madoc, paid a short visit to the town on Friday.

On Friday evening the Lenten service in St. Paul's Anglican Church was taken by the Rev. W. H. Tawle of Rawdon. His words were based upon the idea contained in Matt. 5: 1-16.

If we live the true Christian life it will be evident to those around us just as it is evident that a candle shows its light to those around. This thought of us as the "light of the world" was emphasized by Rev. Tawle all through his discourse.

Mr. Ray Jones was a visitor to Madoc on Wednesday.

Miss Anna Burnes entertained a number of her young friends on her birthday, Wednesday.

Miss Violet Deacon has again opened a branch millinery store at Frankford. Her sister, Mrs. Myrtle Loveless, spent Wednesday and Thursday there this week at the millinery opening. They report that their business seems flourishing.

Miss Aileen Quinn, of Tweed, is at present with her sister, Miss Kathleen Quin.

The maple syrup season is beginning again. The first price asked was $2.75 a gallon.

Mrs. Hamilton Crawford, with her daughter, Grace, is spending a few days in Colborne with her daughter, Miss Dorothy Denike.

Within the last couple of weeks Mr. Donald Marett has become the proud possessor of a new radio.

The girls of the Cheerful Workers' Class of the Methodist Sunday School are busy practising a play entitled, "Aunt Susan's Visit."

The Rev. D. R. Clare is spending a week's holiday in Baptiste with the Rev. Terril of Napanee.

The Rev. C. I. Wickware, of Cloyne, is taking the regular services in the Methodist churches of Deloro, Springbrook and Marmora on Sunday.

Mr. F. S. Pearce spent last week in Montreal on business.

CRANBERRIES.

When cooking cranberries, it is well to prepare more than you will use immediately and put some away in jars for later consumption. It goes well with any kind of meat.

PARTNERS.

(H. F. White, in Los Angeles Times)

He came to me, when all the world seemed dark,
Though sunlight filled the skies;
He came and sat beside me in the park,
And looked his understanding in my eyes.

We talked as man to man, I told him how
I'd tried and failed—and failed;
And so had he, he said, but would not bow,
Nor own defeat, though everywhere assailed.

His touch upon my knee brought courage new,
His kinship buoyed me up;
We're partners now, we're going to see it through—
I and that blessed, brave-souled dauntless pup.

HEMORRHOIDS

Do not suffer another day with Itching, Bleeding, or Protruding Piles or Hemorrhoids. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 60c a box; all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free.

Oceans of Power!

Surging, irresistible power lives in the bigger new Overland engine. Power that sweeps you up the stiffest hills. Power that fascinates you! Action and energy that give you confidence wherever you drive.

Oceans of power—and worlds of satisfaction! The big, robust Overland engine is faithful as the tides. And amazingly lean on gasoline and oil. Every dollar of the Overland price buys the biggest possible dollar's worth of vigor and endurance. You cannot equal Overland power and reliability at anywhere near the money!

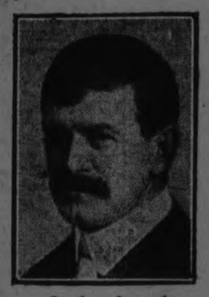
A PAGE ABOUT PEOPLE

Sidelights on Men and Women in the Public Eye

IS HEREDITY CAUSE OF YOUR FAMILY DUNCE

Leacock Once Made This Soothing Suggestion for an Ignorant Son to His Irate Papa

"IT is an amazing fact, but it is nevertheless true, that Mr. Rudyard Kipling or Sir James Barrie, or, let us say, ex-President Eliot, of Harvard, would fail hopelessly in English if they tried to pass the entrance examination of any American or Canadian university. King George, from whom presumably the King's English flows as from its fountain source, might get perhaps half-way through a high school in the subject."



Stephen Leacock

This is the opinion of Mr. Stephen Leacock. For ten years, he tells us, he was a schoolmaster. For those ten years he carried away nothing in money and less in experience.

But fortunately for us, unlike the bitter experience of many months, they have provided him with the material for his amusing volume, "College Days."

In this he continues, with his usual humor, his thoughts of English as she is taught at college.

As for Shakespeare, I doubt if he knew enough of what is called English by our education departments to get beyond a kindergarten.

As to passing an examination on one of his own plays, such as set by our colleges for matriculation, he couldn't have done it; he hadn't the brains—at least, not the kind of brains that are needed for it.

These are not exaggerations; they are facts. I admit that when the facts are not good enough I always exaggerate them. This time they don't need it.

The greatest nuisance of all to the schoolmaster, in Mr Leacock's opinion, is the parent who does his boy's home exercises and works his boy's sums. Probably his intentions are of the best, but:

Whenever I found myself correcting exercises that had obviously been done for the boys in their homes I used to say to them: "Paul, tell your father he must use the ablative after pro."

"Yes, sir," says the boy.

"And Edward, you tell your grandmother that her use of the dative case simply won't do. She's getting along nicely and I'm well satisfied with the way she's doing, but I cannot have her using the dative right and left on every occasion. Tell her it won't do."

"Yes, sir," says little Edward.

Once a parent who did not do the boy's exercise, but felt that he must have an active share in it, after letting him do it himself wrote across the face of it a withering comment to Mr. Leacock which read:

"From this exercise you can see that my boy, after six months of your teaching, is completely ignorant. How do you account for it?"

Mr. Leacock sent the exercise back to him with the added note: "I think it must be hereditary."

CUTE WAY OF MODERN MISS TO BREAK IT TO FATHER

AS instancing the independence of the modern society girl, Lady Askwith recently told a delightful little story concerning a young woman of twenty-two, or thereabouts, who came home one day in unusually high spirits.

"Well, dad," she cried, throwing her arms round her paternal relative's neck, "everything's settled. I've arranged our wedding for early in February."

"But I never knew you were engaged," said the astonished father.

"My dear old dad," she said, "don't you ever read the papers?"

PLEASED TO SEE HIM—GO

NOTHING can exceed the polished urbanity of Lord Curzon's manner.

"Lord Curzon was wonderfully kind when I called upon him," an American said the other day. "His manner was cordial in the extreme," continued the gentleman from across the herring pond. "Several times he got up and shook hands with me before I came away!"

Figure of Justice Incarnate Was Counsel Who Sealed Crippen's Doom

Carried Collection of Colored Pencils—Used Blue and Red Ink Pens—Master of the Art of Concealing His Hand—Death of Sir Richard Muir, Great English Counsel.

IT was when Sir Richard Muir began to marshal the evidence against him that Dr. Crippen felt he was doomed.

Never, perhaps, in the history of the Old Bailey has there been a trial more dramatic in incident, never one more intensely followed by the whole world.

Behind it all an impassionate figure of justice incarnate, was Sir Richard in those months of 1910. Remorselessly, deadly in accuracy, the great counsel's cross-examination of the little medical man after one of the most brutal poisoning cases of a wife in criminal history, reconstructed, piece by piece, the scattered puzzle blocks of evidence, that inevitably brought the prisoner's doom nearer minute by minute.

And now the great counsel will be heard no more. Death called him suddenly from influenza and double pneumonia in his 67th year.

Yet, so long as the art of cross-examination is studied, the fame of this formidable counsel will not fade. He studiously eschewed "fireworks," preferring to rely on the deadly logic of facts, which he was wont to marshal in a masterly way.

To prisoners and opposing counsel there was something hypnotic about Sir Richard's calm, deliberate methods.

These could not be better illustrated than the incident related by Lord Hewart, the Lord Chief Justice, at the Old Bailey Bar mess dinner in 1922.

Lord Hewart recalled that in one of the first cases in which he was engaged at Liverpool Assizes he heard with fear and trembling that Richard Muir was against him. He had heard of Muir as a sound and careful lawyer, with a great reputation, and he watched, as if fascinated, his opponent's preparations when the case was reached. He saw Sir Richard produce a large bundle rolled up in an indiarubber band.

Those were his carefully-made notes. He then put down side by side a red pencil, a blue pencil, a green pencil, a pencil with green one end and red the other, a blue ink pen, a red ink pen. Passages in his notes and copy-letters were scored underneath in blue, or red, or green, and Muir afterwards confessed to him, when questioned on the subject, that "red" at least meant danger. He admired Muir's conduct of the case immensely, and they had been friends ever since.

In appearance Sir Richard was short and thick-set. He looked more like a successful merchant than a prominent criminal barrister. He had a kindly blue eye, which one does not usually associate with a public prosecutor.

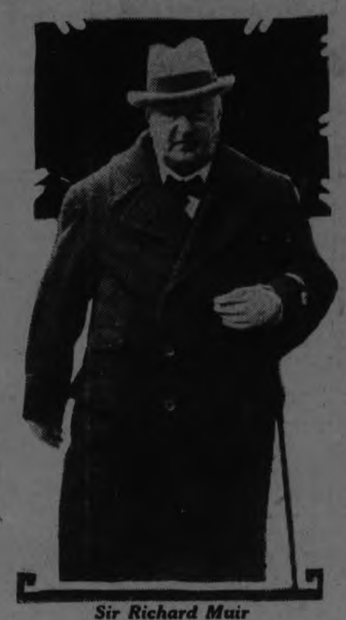
However, on occasion, he could be severe. His remorseless cross-examination of Crippen, which lasted three hours and 48 minutes, will stand out as one of the most famous performances in the history of the criminal bar. The kindliness had gone out of his blue eyes that day.

Many people will remember the grim manner in which he opened his speech for the prosecution, particularly the solemn way in which he described Mrs. Crippen's disappearance.

"From that moment," he said, "she passed out of the world that knew her (pause) as completely as if she were dead (pause).

"She left behind her everything she would have left behind her if she had died (pause). Money, jewels, furs, clothes, home, husband, (pause), all left (long pause).

"Crippen, the prisoner, made up his mind



Sir Richard Muir

that not only had she left, but left never to return (pause)."

Then came Crippen's ordeal of near four hours under cross-examination.

Sir Richard was a master of the art of concealing his hand. Seemingly innocent questions were put at first to witness. Then counsel would unexpectedly start on another track and with dramatic suddenness return to a previous subject, making it impossible for the man in the box to invent plausible explanations.

Crippen proved himself on the whole a skilful witness, but under the baffling cross-examination of Sir Richard his composure completely deserted him, and when he left the box it was realized by all in court that his fate was sealed. This was the peroration:

If the remains are not those of Belle Elmore, what conceivable explanation is there? None has been offered.

Who mutilated her body and put the remains there? Who but the tenant had the opportunity, the skill, the access to the pyjama jacket, pieces of which—Crippen's own pyjama jacket—were found in the grave?

And Sir Richard was right. Many people have not yet forgotten Crippen's cry from the dock as the jury returned with a verdict of guilty. In loud, emphatic tones he exclaimed, "I still protest my innocence."

Strangely coincident with the death of the great counsel is the published assurance in Old Country newspapers of one of the only two men competent to speak, that Crippen, hanged for the murder of his actress wife thirteen odd years ago, confessed to his crime before he went to the scaffold.

Thus the popular belief that he died proclaiming and protesting his innocence to the last is shattered. How Crippen killed Belle Elmore and buried her mutilated body in a cellar in Hilldrop-crescent, N. W.; how he fled the country with Ethel le Neve, his mistress; how the couple in disguise were arrested on an Atlantic liner—these are episodes in the story well remembered to this day.

Writing in the 'Express,' Mr. Newton Crippen's solicitor, says: "Prison governors, warders, chaplains, all denied that he had confessed. Nevertheless, he did—and to me. During a certain period of the proceedings, at one of our interviews, at which I was accompanied by a secretary, Crippen made a full confession of the murder. He told me the story of his life with Belle Elmore; how she grew bad-tempered and slovenly, and was gradually dragging him down. He told how, after a trip to America, she boasted to him of a lover who wished her to remain with him there. Finally, he was driven so desperate that he determined to get rid of her. As a doctor he could easily obtain drugs, and he decided on hyoscin, a little-known drug, used as a sedative and very powerful. After the dinner party on January 31 he gave his wife a glass of stout containing hyoscin. An hour later Belle Elmore was dead.

"'The knife with which I dismembered the body I flung over the garden wall at night,' added Crippen. And, search as I would, I could never discover it.' Somewhere, rusted and stained, that damning bit of evidence lay hidden in the bushes of a suburban garden while Crippen was f'ghting for his life!"

Despite the vigor and thoroughness of his methods, it could never be said that Sir Richard fought for convictions. He was always scrupulously fair. Long years as a crown prosecutor had perhaps given him a cold, unflinching manner, and he certainly had on occasions a sceptical and penetrating glance; but he was a man who concealed beneath the surface much sensibility and kindness. In his work he never forgot that the prosecuting counsel exercised the functions of a minister of justice

Sir Richard David Muir, who was born at Greenock, climbed to his high position from quite humble beginnings. His father was a shoemaker. Previous to his migration to London he was employed in the office of a Newfoundland merchant. Arrived in London, he studied at King's College, and while awaiting success at the law he looked—as many others have done—to journalism for a livelihood. The Times engaged him on its parliamentary staff, where he acquired so complete a mastery of shorthand as to earn for himself the name of the "writing wonder." He was called to the bar at Middle Temple in 1884.

He also appeared in many other famous trials, including the following: Stinie Morrison, Smith (Brides in the Bath), Seddon (poisoning case), Ronald True, who was convicted of murder and reprieved, and the Brixton taxicab murder trial last year. Recent cases in which he was engaged at the Old Bailey included the Lord Alfred Douglas libel trial.

Guarded Room Mystery Caught Even New York

Leading Financiers of the City Came to Col. Shaw and Floated His Mine

COL. GEORGE A. SHAW, the well-known veteran mining promoter, who is over 80 years of age and still actively engaged, likes to tell the following story as typical of American enterprise.

It was back in the early nineties when the colonel was trying to float the Silver Mountain Mining Company. In and about Toronto it had been impossible to interest capital in the proposed venture. Packing a large leather grip full of samples of silver ore, the colonel proceeded direct to the Hotel Astor, New York city, where he was at that time practically unknown. "I want a room and bath for myself, and I want the adjoining room to store my grips. These are fully insured, but I want a special man to be put on guard, and no one, not even the maid, must be permitted to enter this room, except in my presence," the colonel told the clerk as he registered. Lifting his eyebrows in surprise, the clerk asked no questions and proceeded to accommodate his new guest.

Col. Geo. A. Shaw

"That afternoon," relates the colonel, "half a dozen newspapermen visited my room in an effort to get a story of the mysteriously guarded room adjoining mine. Of course, I would say nothing—not that day. The following day, however, I let it be known that the mysterious room contained samples of the finest ore ever mined in northern Ontario. Within twenty-four hours I was visited by several of the leading financiers in New York, and within three weeks after my arrival I was on my way back to Toronto with an agreement to pay me $10,000 in cash, which they paid, and further to form a $2,000,000 company into which they were to put at least $25,000 for working capital and give my partner, Oliver Daunis, and me 30 per cent of the company's stock fully paid up. And now, as I look back thirty years, I am glad to say the venture on the part of my new American friends proved to be a great success, for as far as I can estimate the various owners took over a million and a half out of the mine I sold them."

A NOVEL PETITION

KNOWN years ago on the stage as "The Gibson Girl," Mrs. Evans, wife of Major J. M. J. Evans, M.C., and the proud mother of a baby boy, tells a delightful story of a small girl who was saying her prayers.

"And please God," she begged, "make Rome the capital of Turkey!"

"Oh, darling," exclaimed her mother, "why do you say that?"

"Because I put it like that in my examination papers to-day," came the reply.

WRITING in a contemporary Mr. James Douglas points out that Miss Mabel Normand, the Los Angeles film actress, is one of the few cinema artistes who have never been divorced. It seems a pity to drag up a thing like that just now.—Punch.

Balieff Throws Chairs at Company Then Pours Jokes Into the Wounds

Creator and Conductor of La Chauve Souris Looks Like Bulgy Butler—Made Fame in the Dumps and Depths—Cabaret Cafe Was Called "The Bat" Because Bat Flew Out—Clapped Into Jail by Lenin

By R. C. READE

THE full-moon face of Nikita Balieff for the first time is at last going to take a rise out of Canadians.

This creator and conductor of La Chauve Souris, in Russian "Letutchaya Muish" and in English "The Bat," is the world's unique jester. He is Coquelin and Charlie Chaplin, Gallagher and Shean, Will Rogers and Raymond Hitchcock, Puck and Grimaldi all rolled into one, a super clown and a super wit, a reincarnation of the medieval fool who was his monarch's wisest counsellor.

He is bald as an egg, but he has never had a shower of them. He loves to shut his eyes and stick out his tongue at his audience, but he is not blind as a bat to humanity's foibles. He looks like a bulgy butler or a paunchy Punchinello and has Billiken eyes and a cherubic face as childlike and bland as that of Bret Harte's Ah Sin.

Nikita Balieff

But this innocent is a Russian Peck's bad boy, accustomed to say bold impudent things. In his Balieff scrambled English he teaches his audience the Russian A, B, C, and then scolds them because they can't learn it. The other day he said to a Chicago audience, "Z'Americans are nozzo vurr smart. You have what you call the thick head. When I vas littel babe I learn Russian much more quick than you."

When Czar Nicholas visited him in his Moscow cellar he put the autocrat of all the Russias through his alphabet, and said, patronizingly, "Soon you will speak Russian as well as English."

Lenin came to his show, and he tried the same kind of public familiarity, but the Soviet frowned on court jesters. Lenin clapped Balieff, it is true, but into jail. Balieff will never discuss this incident. "The thought of it," he says, "is too, too bitter."

He ought to be used to massacres. He is an Armenian. He played as a school boy, and his father put him into his factory. As soon as he was in charge, the only production was the production of plays. He joined the army at the time of the Japanese war, but deserted it at Vladivostok for a musical company. He got put in the clink for his Glinka.

Balieff has as great a genius for raising money as for raising laughs. The Moscow Art Players were stranded in Berlin and he borrowed $16,000 for them. They made him secretary, but would never let him play. At last he got a one-line part, but, after the 250th rehearsal, on the eve of the first performance, it was turned into a mere walk-on part. Then he became Cousin Theodore in Knut Hamsun's "In the Claws of Life." His role consisted in opening his mouth to speak, never speaking, for some other character constantly interrupted him.

They made him the slice of bread in Maeterlinck's "Blue Bird," but he wanted the whole loaf. This master of gab wearied of the gag and went into a cellar near the Kremlin, not to sulk, but to laugh. His cabaret cave was called "The Bat," because when the door was first opened a bat flew out of it. Now whenever Balieff opens his mouth an epigram flies out of it.

Before he came two years ago to the Century Theatre roof and the top of the amusement stage, he made his fame in the dumps and in the depths. His first cellar was a cafe for artists only. They ate and literally drank in his jokes. His second cellar was a little larger, but still only for the profession. In his third cellar he let in the tired business men of Moscow and charged $6, real gold dollars, which is more than he has ever charged in America.

A Balieff show is an omnium gatherum of everything Russian and of everything farcical and artistic everywhere. It is full of Balalaikas and Pavlovas and Bakst landscapes. He mimics Russian tragedy and Italian opera. Perhaps its nearest equivalent in English is Bottom's Pyramus and Thisbe in Midsummer Night's Dream.

But always in the beginning is Balieff, his lips red with murdered English like the following, "Denfckts nom-ber-r-r onde progrom isde pfooden soldiers." Here is another characteristic prologue: "Ere come my grand quart. Two gret Ressian theatre fight for zis quart. Z'Moscow theatre she want him to sink in Petrograd. Z'Petrograd theatre she want him to sink in Moscow. Zey sink a Spanish limonade. You don't understand z'Spanish? I make it izzy for you. Zey sink him in Ressian."

This highbrow with the horse laugh though he mocks at the "Russian soul" has himself a Russian soul. When he is in a rage he throws chairs at his company and then pours jokes into their wounds. His wit is like the bat. It flies best by night. He never mourns except in the morning.

This fat man, whom all the world loves, loves his own stomach more than anything else in the world. He likes a menu as exotic as his Chauve Souris. "My Russian soul," he has said comically, "is in my stomach."

Another of his witticisms is, "My first play was about a distillery. Now I play in the dry country."

He gets $4,000 a week, but when he took out his first American naturalization papers he exclaimed: "I starf no more. Now I have a certificate to teach z'American."

Last winter he was asked to be the judge of the smallest foot in an actress' beauty show at the Plaza Hotel. The final pair were placed on a dais and Balieff slowly bent his corpulent form to their feet. He searched the floor in mock bewilderment and exclaimed, "Where are zese feet? Zey are too small. I cannot see them."

WOULDN'T BE A TOMCAT SAYS G. BERNARD SHAW

Other Material Was Just as Good Advertisement for Mrs. Pankhurst's Meeting, She Wrote Back

DR. C. J. O. HASTINGS, Toronto's genial medical health officer, when officiating recently at the opening meeting of a health gathering told a good story about Mrs. Pankhurst who is now a Canadian citizen interested in the social hygiene movement and whom Dr. Hastings characterizes as "a motherly soul, whom to know was to love."

Mrs. Pankhurst

"Years ago when this effective lady was engaged in the militant suffrage campaign in England," said the doctor, a man who was present at one of the big rallies in Albert Hall, popped up and yelled at Mrs. Pankhurst, 'If you were my wife, I'd murder you.' 'If I were your wife, you wouldn't have to,' retorted Mrs. Pankhurst.

"I can't remember that this ever happened to me," said Mrs. Pankhurst to the doctor after the meeting, but I can tell you what did happen to one of the speakers for suffrage. After she had said her say, just such a man as you describe rose heatedly to shout, 'If you were my wife I'd poison you.' 'No you wouldn't,' said she, 'I'd do it myself.'"

Another witty incident in which Mrs. Pankhurst crossed swords with Bernard Shaw is recalled by his new play, "Saint Joan."

Shaw's belief in the equality of the sexes is well known and has been a leading factor in both his writings and his life.

"We knew," said Mrs. Pankhurst, "all of us in the suffrage movement in Britain, that Bernard Shaw was theoretically with us. So, on one occasion I determined to try him out as a practiser of his preachments. We were soon to have a large meeting in Albert Hall and I wrote to Mr. Shaw and asked him to address us. He wrote back promptly to say that he not only believed in suffrage for women but in their duty to fight for it. "But," continued he, "if you or anybody else thinks that I am going to be the tame Tomcat of the suffrage movement or any other women's movement in this country, you will find yourself mistaken. I shall not be able to speak at the Albert Hall meeting."

Mrs. Pankhurst did not take this chivalry from Shaw sitting down. She replied to him in due season to this effect. "Dear Mr. Shaw. So sorry that you did not see your way clear to speak for us in Albert Hall, but it did not matter. We wanted you principally as an advertisement, and we found other material which did us just as well."

Booth's Retort Crushes Vanderbilt's Son-in-Law

Veteran Lumberman Considered His Time Was Most Valuable — Quietly Pocketed $250,000 Deposit

MANY anecdotes are told of Mr. J. R. Booth, the 96-year-old lumberman of Ottawa, whose granddaughter was married last week to Prince Erik of Denmark.

At one time he gave an option on his railway—the Canada Atlantic, afterwards sold to the Grand Trunk for about $13,000,000—to the Vanderbilt interests, who sent Dr. Seward Webb, of New York (son-in-law of W. H. Vanderbilt), to Ottawa to interview Mr. Booth. He arrived in his private train of three cars, with an observation room over the locomotive.

J. R. Booth

The doctor, immaculate in a seal-skin coat, top hat, patent leather shoes and diamond ring, emerged on the station platform for his interview at 8.30 a.m. Mr. Booth was across the tracks in a reefer coat, flannel shirt, and bowery cap.

Dr. Webb walked up and down, nervously, for nearly half an hour, glancing frequently at his watch. Finally, he said to a station hand: "Do you know where Mr. Booth is?"

"He's over there," replied the man, pointing to the magnate.

The doctor picked his way across the tracks and greeted Mr. Booth by saying: "I've been waiting for you for over twenty minutes, and my time is valuable."

The lumber king replied, quietly: "Well, I've been waiting for you for over half an hour, and my time is more valuable than yours."

Incidentally, the option was not taken up and Mr. Booth quietly pocketed the $250,000 deposit.

GREATEST COMPLIMENT EVER PAID TO CLERGYMAN

THE Bishop of London is never tired of impressing upon his clergy the necessity of tact and carefulness in dealing with individual members of their flocks, and as an example of his meaning he once cited the following story:

A curate in a poor parish, whom we will call Mr. Brown, had left, and the vicar was going his rounds, when he met a certain old woman.

"Well, Mrs. Smith," said he, "so Mr. Brown has gone away from us at last."

"Yes, sir," replied the old dame, "and I'm sorry for it. I don't 'old with curicks as a rule, well knowin' what a noosance they are pokin' their noses into our places just when they b'aint wanted. But Mr. Brown was different; he allus know'd when it was washin' day."

"I regard that," remarked the Bishop, "as one of the greatest compliments ever paid to a clergyman."

Disillusioned

"CAN I sell you a set of Shakespeare?" asked the affable agent.

"I don't think so," replied the patient person, "but I won't say for sure. After thinking over a lot of things I've been persuaded to buy almost anything seems possible."—Answers.

President Beatty Helps Proves Real Railroader

DORVAL, about ten miles west of Windsor Station, Montreal, is one of those little places where nothing much ever happens. Commuters use it going to and from pretty homes on the nearby banks of the St. Lawrence river. At other times it's a quiet enough place, particularly on a summer's evening about eight o'clock when commuters have commuted and the workers are at rest. That is why the station agent there, working long after regular hours one evening not long since, appeared to be a very lonely young man, even though he was too busy at his desk to notice it.

E. W. Beatty

He was a young agent, temporarily on the job to replace a man on holidays, and the monthly balance sheet, the first he had ever tackled, refused to balance with that exactness considered desirable in Canadian Pacific circles. Vainly he put one set of figures against another until the prospect of an all-night job began to be unpleasantly assured.

At a point where hope seemed about to finally dissolve, footsteps sounded from the other end of the station platform. They advanced until the fading evening light at the doorway was blocked by a figure, and a voice asked:

"Do you know if No. 17 is going to stop here to-night?"

The young agent did not know, and he said so. He knew little except that the balance had to be found if it took a week. The stranger walked up and down the platform while two friends who had come with him engaged in conversation at the far end. He had spoken as one who knew something about trains, he might even know something of station agent's balances. The young man was desperate enough to try anything, besides the stranger's face was not unfamiliar; he had seen it somewhere, probably about Windsor Station, where railroad men pass and repass like bees in a hive. Desperation impelled him to the platform.

"Are you a railroad man?" he asked.

Obviously astonished, the stranger admitted that he was.

"Do you know anything about balance sheets?"

The stranger did, and a moment later both he and the agent were busy with cash book, delivery book and outstanding sheet until, fifteen minutes later, the noise of No. 17 slowing up outside brought the joint operations to a close, but not before several elusive items had been brought to book.

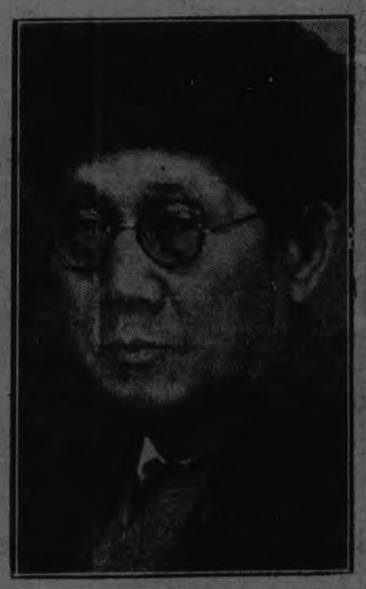
"You ought to be all right now," said the stranger, going to the door. "Check over the rest of the figures and you'll probably find your balance." So saying he left the station and saw his friends aboard the train.

As he turned to leave the platform the youth hurried after him. "I'm ever so much obliged to you," he said. "Do you mind telling me your name?"

"Beatty," replied the stranger, but his pleasant nod and "good night" seemed to in no way dispel the agent's sudden consternation.

"Are you the president?" gasped the youth.

"Yes," replied Mr. Beatty. "But that isn't important; the main thing is to get that balance



Jap is Russian Bolshevik

KATAYAMA, former leader of the Japanese Socialist party, is now an exile in Moscow, where he is a member of the Presidium, the ruling committee of the Third International, the extreme left wing of Russian Socialism.

LAKEFIELD CURLERS PUT PLEASANT PERIOD TO WINTER OF SPORT

Annual Meeting and Banquet Marked By Warm Fellowship — Dr. S. J. Gibson Succeeds H. G. Fitzgerald as President of the Club — Treasury Carries Credit Balance.

PRIZES PRESENTED.

Lakefield, Mar. 29.—The annual meeting and banquet of the Lakefield Curling Club was held in the Oddfellows' Hall on Thursday evening. There was an attendance of more than ninety per cent. of the members and associate members, and the spirit of good fellowship (one of the attributes of the club) was never more in evidence than at this closing meeting of the season of 1924. N. G. Fitzgerald occupied the chair and in a witty speech, opened the meeting for business.

The report of the secretary-treasurer showed a substantial cash balance which was gratifying and augers well for another season. The membership list was a representative one and while not quite as large as last year, was still between 60 and 70, which is a goodly number for a village of Lakefield's size.

J. C. Strickland took the chair for the election of officers which was then held. These officers were elected:

President, Dr. S. J. Gibson; vice-president, J. E. Galvin; secretary-treasurer, Percy Spence.

Executive Committee—W. J. Charlton, C. S. Tanner, N. R. Wagar, Jas. Millar, George N. Spence.

Then to Supper

There was a card game provided for the associate members at which prizes were offered for the best euchre players.

Supper was served about 10:30 in Leonard's hall, and was provided by the vice-president's rinks. A committee consisting of Messrs. G. G. Connell, J. W. Ridpath, W. G Morrison, Chas. Lake and B. Q. Dench, took charge of the arrangements which were carried through without a hitch. The vice-president, Dr. Gibson, made the tea, which was of excellent quality and much appreciated.

The supper menu included cold meats of various kinds, fish, salad, pies, cakes, sandwiches and numerous other dainties, in fact, to quote the words of Harry Lauder, "Mon, but that was a spread." The curlers were lauded to the committee for their splendid management. When the last biscuit, with its accompaniment of cheese, had vanished, and the cigars were being lighted, the third and not least important part of the programme took place, that of the presentation of prizes. So numerous and generous were the prizes that it carried one back to the days when every good little boy was rewarded.

Prizes Presented

The first trophy was the Fitzgerald trophy for the local competition which was won by J. C. Strickland's rink and with D. H. Charlton's rink, the runners-up.

The prizes to the winners were pipes, and to the runners-up leather collar boxes.

The winning rink were: Frank Pearson, S. J. Charlton, E. A. Tanner, J. C. Strickland, skip, and the runners-up were: E. H. Northey, Ed. Watson, Jas. Millar, D. H. Charlton, skip.

Last year R. C. Chittick's rink won, with B. Q. Dench's rink second.

Mr. Fitzgerald presented the trophy.

The Casement Cup

W. H. Casement presented his trophy, which was awarded in the local bonspiel.

This was won by Rev. P. L. Jull's rink, with D. H. Charlton's rink the runners-up. Mr. Jull's rink might easily be called a picked rink as it was composed of the two clerical members of the club, the principal of the high school and the warden of the county.

The first prizes were fountain pens and were awarded to Rev. J. J. Garvey, Martin Coughlin, J. M. Simpson and Rev. P. L. Jull, skip. The runners-up, W. H. Casement, J. R. Hill, E. A. Tanner, D. H. Charlton, skip, were given shaving brushes. Last year D. H. Charlton won the trophy, with Dr. Gibson the runner-up.

E. A. Tanner Trophy

Owing to the unavoidable absence of E. A. Tanner in Toronto, the Tanner cup for the vice-skip's bonspiel was presented by C. S. Tanner, and was won by Percy Spence's rink, with G. G. Connell the runner-up.

The prizes, which were cigars, were given to R. C. Chittick, Dr. G. E. Renwick, D. H. Webster, Percy Spence, skip.

Jack-knives were given as second prizes to U. A. Moore, T. B. Marling, Ed. Watson, G. G. Connell, skip.

Last year, R. J. Jory's rink won the trophy with G. G. Connell, also, the runner-up. As G. G. Connell has been the runner-up for two consecutive years, a special prize was given him, consisting of a handsome pair of antlers, secured by the president at considerable personal risk. Accompanying this beautiful offering were a number of batteries, no longer in their first high-powdered freshness, but still weighty.

The Douro Cup

The Douro cup, which was given last year to the rink which was beaten in the local competition by the greatest number of points, and was won by J. E. Galvin's rink, was presented by Mr. Galvin to Dr. Moore, whose rink this year occupied the same position. This cup, which is a veritable triumph of the tinsmith's art, was presented with regret as Mr. Galvin admitted that he hated to part with it. Accompanying this trophy were China loving-cups, which were highly prized by the recipients who were: R. H. Little, J. R. Hill, E. W. Bailey, and Dr. Moore.

President Remembered

J. W. Ridpath presented H. G. Fitzgerald, the retiring president, with a token of regard, not only from himself, but from the club, which would serve as a reminder during the summer of his position during the winter. Mr. Fitzgerald, who was taken by surpsise, replied in a "peppy" little speech, thanking the club for their offering and asserting that when he found the donor someone would travel to Kingston.

Hamilton Relay Team to Compete

PHILADELPHIA, March 31. — (Canadian Press). —The Hamilton Collegiate Institute of Canada will be represented in three events in the annual relay carnival at the University of Pennsylvania next month, relay officials announced today.

The Canadian school's track athletes are coached by Captain J. R. Cornelius, recently appointed head track and field coach for the Canadian Olympic team. They will be entered here in the inter-scholastic medley relay championship of America and the interscholastic two-mile and one-mile high school championships. Last year the team finished second on the interscholastic medley, third in the one-mile and won the two-mile.

Dr. S. J. Gibson presented the prizes to the associate members, who do not contest with "stane and besom" but with the mysterious ways of the right and left bower. F. J. Burgess won the first prize, a box of cigars, and John Blewett, the second prize, a pipe.

The prize winners made short speeches, which were heartily enjoyed, being enriched by anecdotes. Two outstanding speeches of the evening were those of Rev. P. L. Jull and J. R. Hill.

Votes of thanks were tendered the Oddfellows, and W. W. Leonard, for the use of their halls, and also to Theodore Crawford and S. W. Sutton for their work in connection with the schedule of games, and by the president's rinks to the vice-president's rinks which provided such a splendid repast.

The occasion will pass into history as one of the happiest ever spent in the village—a community gathering, in every sense of the word. As one curler regretfully said as he wended his way home, "a year is a long time to wait for another."

PETES BEATEN BY TORONTO TEAM

In One of the Fastest Games Seen This Year the Locals Were Eliminated From O. B. A. Race.

Treating the fans to some of the fastest basketball seen on the local "Y" floor in years, the Broadview Y.M.C.A. quintette defeated the locals 38 to 20 Saturday evening, thus eliminating the Petes from the O.B.A. The Toronto team will now meet the western repersentatives in the finals.

The Broadview squad played a brand of basketball that ranked nearly on a par with that exhibited here by the famous Association College team of Chicago. They have lightning combination, work the ball down swiftly after a "throw-up" and they make every shot count. They are strong defensively and kept the Petes from working in. Walken, Mercer and Rankin were the best. The two forwards were as slippery as eels and could "plug" the basket equally well from close in or well out.

The Petes, although they never really had a chance, fought gamely. Rus. Pogue and "Hip" Hardill were the best for the locals, and the Petes 'centre didn't have his usual horseshoe luck. The Petes had their hands full trying to watch their checks.

The Toronto outfit were supreme right from the outset. They had chased in ten points before Rus. Pogue dropped in Peterborough's first basket. Hardill scored immediately after. At the end of the first period Toronto had 18 points to the Petes '10.

In the second half the Petes scored another eight points, but Toronto chased in an even twenty. The boys who guarded the score board had to be good in arithmetic because the Toronto points did not come singly but in flocks:

Summary:

WIFE LOSES AL HOPE THAT HUERTA IS ALIVE

NEW ORLEANS, March 30. — Senora de la Huerta, wife of the Mexican rebel leader, told the New Orleans Item to-day she believed her husband to be dead.

She added that she came here with the understanding he would arrive March 18. De la Huerta, according to the Mexico City government, is known to have boarded a vessel at Frontera, Tabasco, March 18. It is feared the vessel foundered in a storm.

PORT HOPE TO ENTER JUNIOR

Oshawa May Put Two Teams In Proposed Central Ontario Minor League — Lindsay and Bowmanville Unheard From.

In an item that appeared in the Port Hope Guide on Friday it said that they were in favor of the Junior Central Ontario League and that they consider it a move in the right way. At present they have not yet found a team to enter in this loop but they are scouring the town for recruits and one is sure that they have enough baseball material in their to make up a team that will give any of the rest a good battle.

Oshawa are also strongly in favor of this league and at present it is thought that two teams will be entered. Both of these teams played junior ball last year and were only beaten during the summer by each other. They are both so evenly matched that both think they have a chance in the finals and want to enter in this league. Cobourg are expected to enter a team but no word has yet been received from either Lindsay or Bowmanville. Along with the Lakeviews of Peterboro the Crescents, last year's Sacred Heart team are in favor of entering a team if a City League is not formed. If all these teams are entered it will make a six team group.

Mr. J. J. Solomon and L. LeBarr who are both strongly in favor of this league and are doing all in their power to promote it state that they have no doubt that the league will be a success.

Mr. Solomon has written to all the surrounding towns, explaining the league and inviting them to join it. He expects that a meeting will be called in Port Hope some time next week in an effort to get the league started, and draw up the schedule for the coming season. Two representatives from each town wishing to enter a team or wanting to find out the ins and outs of the league are requested to attend so that the league will be certain of how many teams will be entered.

Lindsay Not Optimistic.

If one judged by the articles on baseball players being issued from the headquarters of the Central League at Oshawa, one would be led to believe that a number of old Lindsay C.O.B.L. players are already back here for the coming season. Such, however, is not the case, says the "Post."

Lloyd Chambers, pitcher, and Redge Mills short stop, of the Bowmanville nine, (both Lindsay boys) have been in Toronto all winter where they have good positions and where they figured prominently in industrial hockey league circles. "Batsy" Bates has been working in Orillia for some months past and will turn out with Orillia Tri-County League team. Jack Stark is, it is believed, still in Bowmanville.

Locally the prospects for baseball are not a bit bright, but hopes are entertained that the town will after all be represented by a good team. Entry has been made in the Tri-County League where they play a first class brand of intermediate baseball. As to a team—that has to come. Baseball in the Tri-County League should help to develop players and at the same time bring many fans to Lindsay on baseball days.

Lindsay will also have a junior baseball league and will be represented in the O.B.A.A. as in former years. This is the brand of ball that should be encouraged as it develops material.

It is also hoped to establish a public school league.

Several fans and players would like to see a senior town league and there is a possibility of this branch of baseball being organized.

SATURDAY EXHIBITION GAMES.

Boxer Suffers From Concussion of Brain.

NEW YORK, March 30.—Peter Swan, 18 year old boxer, who suffered concusion of the brain and a possible fracture of the skull when he knocked out last night in a boxing bout with Harry Mills, to -night was said to be in a serious condition at the hospital where he is under treatment.

Swan was knocked out in the fourth round after having fought a losing battle from the beginning of the bout. He remained unconscious or half an hour.

Giants Have Smallest Pitcher in Gearin

DENNIS GEARIN

SARASOTA, Flar., March 31.—In Denny Gearin the New York Giants boast the smallest pitcher in the major leagues. Gearin's ability, however, is not measured by his size. Bought from Milwaukee late last season Gearin managed to break in a few games at a Giant. He worked 24 innings and is credited with one victory and a defeat. Gearin is a southpaw. McGraw is hoping he will make the grade.

BOXING COMMITTEE'S REMINDER TO FANDOM

Peterborough, March 31, 1924.

Sporting Editor of Examiner.—

May the Boxing Committee be permitted to ask the sportsmen of the city for their support at tonight's boxing show at the G.W.V.A. Hall? We have as visitors from the United States two clever boxers, both of them clean-cut athletes and a credit to the sport. The conduct of our own boxers in and out of the ring has been that of good sportsmen. The bill of eight bouts tonight is a particularly good one, and a large attendance of fans will mean much encouragement to all those taking part.

Yours truly,

BOXING COMMITTEE OF P.A.A.A.

BOSTON TURNED ON PITTSBURG

After Two Defeats in U. S. Hockey Finals the Eastern Champions Won By Score of 4-1.

BOSTON, March 30. — Boston Athletic Association hockey team, champions of the eastern Division of the United States' Amateur Hockey Association, last night turned the tables on Pittsburgh after two straight defeats, winning from the western champions, 4 to 1, in the third game of the East-West series for the national championship.

The westerners played a listless game and Boston was on the attack throughout. Worters, Pittsburgh goal-tender, had 25 stops, to 12 by Lacroix, defending the Boston nets. Manners, shooting from centre ice, scored Pittsburgh's only goal eight minutes after the game started. Enwright, substituting for Cronin, tied the score two minutes later.

Boston scored again in the second period when Harrington drove in a pass from Small behind the Pittsburgh net. Geran and Harrington scored in the final period, the last goal being made when McGovern, substituting for Conacher, was off the ice. There were only two penalties in the game and McGovern had both of them. The fourth game will be played in Pittsburgh April 2. The line-up:

Boston A.A. (4)—Left wing, Harrington; centre, Geran; right wing, Cronin; left defence, Smith; right defence, Small; goal, Lacroix.

Pittsburgh (1)—Left wing, McCurry; centre, Cotton; right wing, McKinnon; left defence, Conacher; right defence, Manners; goal, Worters.

Referees —Steve Vair, Toronto; Frank Synnott, Boston.

World-Wide Junior Olympic Announced.

CHICAGO, March 31— A world wide junior olympic, open in 26 countries, is a feature of plans for Boys' Week, April 27 to May 3, according to an announcement by the National Boys' Week Committee of which President Coolidge is the honorary head. Four events are to be run off simultaneously in thousands of cities and towns on May 3, and winners' names and the time will be sent here by cable and telegraph.

The events are to be a sprint, distance throw, broad jump and barchinning.

DEMPSEY NOT ENGAGED

LOS ANGELES, Calif., March 30 ....Just to clear the atmosphere of any doubt regarding Jack Dempsey's 1924 ring campaign, Jack Kearns, the heavyweight champion's manager, who arrived yesterday from the east, announced he has signed no contract for Dempsey to fight anyone. Kearns left last night for San Diego, where he will join the champion.

STRIBLING AND M'TIGUE MEET

Second Encounter of Light Heavyweights — Fight Starts at Newark at 10 O'clock To-Night.

NEW YORK, March 31. —Mike McTigue, guardian of the world's 175 pound pugilistic crown, will meet one of the most formidable opponents in his division to-night, at Newark, N.J., when he meets Young Stribling, Macon, Ga. schoolboy, in a 12-round bout.

Physically the two light heavyweights will be well matched. Stribling faces the task of having to stop McTigue to gain the title which the Irishman won a year ago from Battling Siki. If the battle goes the limit, Mike will not lose his title, even if outpointed.

McTigue has been idle ever since his sensational draw with Stribling at Columbus, Ga., last October, while the Georgian has kept himself on edge with a steady campaign of bouts. Both have wound up their heavy training, and are taking only light exercises to keep limbered up. McTigue declared to-day he was in the best condition of his career and is fully confident of his ability to stop his youthful challenger.

On the other hand, Stribling, speaking through "Pa" Stribling, asserted that after Monday's battle the light heavyweight crown will rest on new shoulders.

The McTigue-Stribling bout will start about 10 p.m., and be preceded by several preliminaries, including a 10-round semi-final match between Paul Berlenbach, hard-hitting New Yorker, and Harry Krohn, of Akron, Ohio.

Newark Franchise Dispute Is Settled.

NEW YORK, March 30. —The waters of agitation which have surged unhampered around control of the Newark International League baseball franchise since February 1, assumed a placid aspect yesterday when the two warring factions settled their differences out of court and control of the club legally passed from the hands of the Newark syndicate, headed by Michael McTighe, to the former owners, William H. Ashton and Bernard Moan, of Baltimore.

Peace was declared following a conference between the rival factions and President John Conway Toole at which it was agreed to withdraw all pending court actions. McTighe relinquished all claims to the franchise and officially turned over his interests to the Baltimore men, for which, it is understood, he received a small consideration.

U. S. SOCCER CHAMPIONS

ST. LOUIS, Mo., March 31—The a smooth running attack and well-nigh impenetrable defense, became the United States soccer champions Saturday by defeating the Vesper-Buicks of St. Louis, aggressive contenders for the national title, 4 to 2.

BELLEVILLE GIRLS BEAT PETES TEAM

Two Teams Invaded the Local "Y" and Defeated Them by 207 Points in Three Games--Petes to Play Return Game Soon.

BELLEVILLE, March 29. — Ten Belleville lady bowlers, their followers and two male escorts who arrived back "within the shadows of the fold," at the dead of night on Thursday, will fast for two days, after the generous banquet which was supplied them by the officials of Peterboro Y.M.C.A. following the two exhibition games which they bowled Thursday afternoon. The success of the banquet reflected much credit on Max Sloan, social director at the Peterboro "Y." One hundred and fifty enjoyed the excellent "spread," after which several neat speeches were given. Miss Stella Ford gave a very neat speech in response to the toast to the visitors. Peterboro bowlers are coming to Belleville sometime to play the return engagement, but not until they learn more about the game, for the locals won everything hands down.

The first game was played at 3.30 p.m. and in the first string the local bowlers got away to a good start, obtaining a lead of 41 points. Although they lost a portion of this in the second frame, they more than made up for it in the third, finishing up the three games with 207 points to the good.

The Peterboro bowlers have a "pinch hitter" system, whereby they use seven players on a team instead of five, the two extra members substituting when any regular member of the team happens to make a low score. In this game Miss Coon replaced Miss Porter in the last two frames and Miss Sayers relieved Mrs. Beal in the last frame.

The second fixture followed immediately after the first and this also went to the visitors who won each of the three strings. The Belleville ladies were winners by 335 pins when the scorer checked up at the conclusion of the game. Miss Goyer's three string score in this game was the highest score of the two contests and her single score the high single of the game.

The trip to Peterboro was replete with thrills and romantic occurrences according to a despatch received from an unknown source. On the way up there was furors in camp as it was rumored that "purse snatchers" were aboard. Later it developed that only one purse was lost (thirty cents). The bowlers played cards on the way out and many of the party are grateful for the 'feed' which they were tendered (gratis).

Miss Bessie Sayers will be presented with a gold mounted riding crop, in the near distant future. It is the prize awarded to the first young lady who would be capable of "subduing" one male member of the party "post-haste." The heavy grip "packed" by "Jovial" Jim Alexander, contained four B balls for the benefit of "Strike" Ford. When a Peterboro bowler "copped" the Belleville balls, Miss Ford gave her the D. Jim all but missed the train at Port Hope, the fact that he is a long distance runner saving the situation which drew "shouts" from the other members of the party. Jim it seems was stealing a "beauty sleep" on the railway's time. It would have been bad to be stranded in Port Hope with a heavy grip. Coffee was served to one member of the party at Cobourg, and Harry Poste, understudy to escort Alexander, was severely censured on the homeward trip. It appears that Harry inadvertently (?) neglected members of his own party—well, Harry can tell who they were.

One young lady forgot her emerald ear-rings and naturally suffered from the cold on the way home.

Owing to Mrs. Lee's strenuous efforts to reach the four pin, she had to be given first aid on the train coming home. Mrs. Beal was unable to accompany the team home at all so remained over the week-end to recuperate. Miss McColl had to be locked on the train to get her back to Broadway. Frances Potter strayed from the fold after the banquet but returned just as the train pulled out.

First Game.

Peterboro—

HARRY GREB INJURED.

BOSTON, March 30.—A bout between Harry Greb, middleweight champion, and Kid Norfolk, light heavyweight, scheduled to take place here next Friday night, has been indefinitely postponed, it is indicated by the promoters. According to information received from Greb's manager, the champion received a bad cut over one eye in a motor car accident yesterday. The injury, requiring four stitches, will make it impossible for Greb to box here Friday, the promoters were informed.

KINGSTON TEAM LOOK DANGEROUS

Strengthening In All Departments Will Present a Classy Lineup.

KINGSTON, March 31.— Just a few more weeks and the local C. O. B. L. team will be on the field at the Fair Grounds forgetting there ever was such a thing as winter, and proceeding to limber up for the coming season to which indications point as the best ever experienced in Kingston.

It doesn't take much to arouse the interest of local fans in baseball, for Kingston has just as hot a stove-league as has any big league city and the fans are all set for a bumper season. Local club officials made a visit to the Fair grounds this morning looking over the field. Out in deep centre the erstwhile skating rink is now just a pool of water and if Old Sol stays on the job for a stretch of two or three days, the entire field will be as dry as "Pussyfoot" Johnston would like to see the world. As it is the greater part of the field is even now almost ready for the husky cohorts of the Daley Clan.

Contrary to reports it is expected Herbie Teepell will be on deck again and will likely be groomed for an outfield job. Teep is a mightly handy man to have around a team, for he can hop in at short-stop and keep his head in the air and both feet on the paths.

The pitching staff naturally causes a great deal of speculation among the fans and it is in this vital spot that Manager Daley intends to show greater strength. The Nubian beast of burden, otherwise known as the dark horse from Queen's, is daily getting nearer to the local team, and the prospects are that he will toss them up for Daley's team this summer.

Then there is "Teddy" Gallagher, and while he might not have been a howling sucess last year, he's determined to show the C. O. B. L. fans he still can catch winning ball. If Teddy gets going right there will be no stopping him. He's the kind of pitcher who turns in either a very good game or a pretty bad one. If he's right he's unbeatable; when he's not right he's duck soup for the other clubs. And everybody knows how he can twirl when he's right. If he gets down to business and pitches as he knows how, everything will be cushy.

But Mgr. Daley is not spending too much energy over the pitching staff. He knows, as every smart baseball man knows, that it won't win him a raft of games to have the team strong as onions in the box and weak as boarding-house tea in the other positions. A bang-up outfield, a snappy infield, a good receiving staff, and a bunch of murderers with the stick will overcome slight pitching weakness, and the fans will have an agreeable surprise when the curtain goes up for the first game here. If things pan out as they ought there certainly will be few managerial wocs on the team this year.

More women in porportion to men are employed in factories in Japan.

WESTERNERS WIN FINAL GAME BUT LOSE THE ROUND

Sault Ste. Marie Are Champions of O.H.A. Series--Carried Off the Silverware by 6 to 3 on the Round.

TORONTO, March 31.—(Canadian Press).—Showing a wonderful reversal of form, characterized by strenuous tactics, the Selkirk players, champions of the Manitoba League and the Western representatives in the Allan Cup finals, defeated Saulte Ste. Marie, the pride of the northland, by 1 to 0 here on Saturday night. But the Greyhounds, having taken the opening game by 6 to 2, won the round and the Canadian championship by 6 to 3. The northerners stuck closely to a defensive battle throughout, but played better hockey, and it was apparent that had they needed a victory they were powerful enough to achieve that aim.

It was with the criticism of the fans ringing in their ears that the fishtown players opened up a fierce offensive early in the game and demonstrated in a hurry that they were determined to battle to the last ditch for the Cup.

The Westerners played a vastly different game from that they were guilty of in the first contest. They had the speed and used it to good advantage, and their attack was dangerous every time the puck carriers swung down the ice two or three abreast. Only the wizardry of Walsh prevented them from winning by several more goals.

Sault Ste. Marie has every right to feel proud of the team which overcame all opposition in the march to the Canadian championship. The Greyhounds compare favorably with any team that has gone before them. They are consistent and effective, and without doubt the best trained team that the O.H.A. ever sent after the silverware.

BEST BOXING OF SEASON TONIGHT

Tonight's the night of the big boxing bill at the G.W.V.A. hall, and it confidently expected that the card will prove to be the best show yet put on by the P.A.A.A. boxing committee. Great interest is being evinced in the appearence in the ring of Willie Buff, the sensational Rochester boxer, who will meet Lorne Combe, and a second visit by Billy Cutt who faces sturdy Joe Jordon. The main bouts have been arranged so that the Cutt-Jordon bout will go on at 9.15 o'clock to be followed by Harvey Smith and Tony Minnicola, and Ray Millard and L. Minnicola, and conclude with the Buff-Combe clash. The preliminaries of of four bouts will start at 8.15 o'clock. Ringside reserved seats may be had up to eight o'clock at the Empress Hotel.

Mrs. Annie M. Dike, an American woman, is the first of her sex in America to be admitted to the French Academy of Agriculture.

Mothers!

Give the children WRIGLEY'S after every meal

A prominent physician says:

"It is surprising how free from decay the teeth can be kept by using gum after each meal."

You know how hard it is to get the children to clean their teeth. By giving them WRIGLEY'S you not only reward them for cleaning their teeth, but *the reward is actually the means of performing this important service!*

WRIGLEY'S aids digestion too, and acts as an antiseptic wash for the mouth and throat. Several flavors—all of WRIGLEY quality.

The Flavor Lasts

Norma In a Flaming Drama of Desert Love

A story of a beautiful Dancing Girl whose favor all the Shieks of the desert fought for. A drama of burning love amid the white hot sands of the Sahara.

BOWLING

PETES AND TORONTO PLAYED A TIE GAME

The Harris Dairy team of Toronto and the all-star team from Peterboro played a tie game Friday night at Solomon's Alleys. The method of scoring an important game of this kind is the same as that used in the big tournaments. The total number of pins for the three games are counted and not the best two out of three. Both teams therefore, finished a tie, each having 2547 pins.

No sensational scores were set up by either team but good steady rolling featured. Curvin was the high man of the evening with a nice score of 544 for his three games. Kearns was next with 529. Curvin had the high single of 202.

There was a great crowd on hand and they packed the alleys. So great was the crowd that some could not gain admission. Those who were lucky enough to gain admission witnessed three nice games.

The Toronto bowlers proved themselves real gentlemen and sports and they found the Peterboro team the same. A return game with the Toronto bowlers will be played by the Peterboro team in Toronto next Saturday.

Following are the scores:

Harris Dairy—				
Truhler	138	170	201	509
Scott	184	141	163	488
Kearns	155	178	196	529
Donaldson	154	179	180	522
Cusack	174	167	158	499
	805	835	907	2547
Peterboro—				
J. C. Green	160	141	199	500
Hayes	190	170	153	513
Dawson	183	140	170	493
Dedman	185	167	145	497
Curvin	159	202	183	544
	877	820	850	2547

TIED FOR HIGH SINGLE

Mrs. G. Johnson and Miss M. Porter both finished a tie for last week's prize given for the lady rolling the highest single at Solomon's Alleys. Both ladies rolled a nice high single score of 215.

WINS BLIND SCORE.

Geo. Cairns won the blind score prize for the Mercantile League, defeating H. Ballard. Both Cairns and Ballard were tied at the end of the rolling for the prize, each rolling the perfect score. Friday night when they rolled off for the prize each finished with 149. This necessitated and extra game and Cairns won rolling 149, while Ballard rolled 139.

TORONTO BOWLERS WERE BANQUETED.

Following their game at Solomon's Alleys Friday night the Toronto bowlers were banqueted and entertained by the Peterboro bowlers at the Class Cafe.

After the meal a few speeches were made and singing also featured the program. The Toronto bowlers thanked the Peterboro team for their fine reception and assured them of a good time next Saturday when they play the return game in Toronto.

THIS WEEK'S BOWLING AT SOLOMON'S ALLEYS

(City Ten Pin League)
Monday at 8—High Rollers vs Crescents.
Tuesday at 8—De Laval vs Examiner.
Thursday at 8—Lawn Bowlers vs C.P.C.
Friday at 8—C.P.C. vs Belmont Club.

(Brinton Carpet Intershop League)
Tuesday and Thursday at 7 p.m.

(Examiner Intershop League)
Wednesday at 5 p.m.

(Belmont Club Tournament)
Wednesday at 7 p.m.

(Ladies Five Pin League)
Wednesday at 8.30 p.m.

INDIVIDUAL AVERAGES OF CITY TEN PIN LEAGUE

The following are the indivdual averages of each player of the City Ten Pin League complied by the Examiner Bowling Editor.

Jake Solomon won the high average for the season finishing with an average of 182 for 41 games. Dr. J. C. Green won the high three games for the season with a lovely score of 636. Bill Smithson won the high single with a nice game of 264.

The following are the averages in the order that the teams finished:

	Games	Pinnage	Ave.
C. P. C.			
Dedman	42	7427	177

FOOTBALL MEETING

The annual general meeting of the Peterboro ond District Junior Football Association will be held at the Chamber of Commerce on Wednesday evening April 2nd at 7.30 p.m. All interested in Junior Football are cordially invited to attend. Medals will be presented to the De Laval Juniors winners of last season's Junior League by His Worship the Mayor.

FROM PINE BLUFF

A recent issue of the "Pine Bluff Daily Graphic", published at Pine Bluff, Arkansas, contains an account of a movie film entitled "Youth's Romance," which is being filmed in Pine Bluff by the Athenian Picture Corporation of Los Angeles, who are using home talent for the production. The paper records as present among those who took tests to permit them to take part in the movie, of Col. J. W. Merriam. Col. Merriam was the oldest of those applying, and gave his age as 69 and his weight at 170, with a height of five feet, six inches.

Col. J. W. Merriam was born and raised near Hiawatha, Ontario, and was a member at one time of "Number Two, Company 57, Battalion British Volunteers," known as "The Peterboro Rangers." A few years ago, The Examiner published and article by him immortalizing "The Lost Battalion."

BABY

Did you read about the 22-pound baby born recently in New York City? Every woman on earth would be interested in this baby—walk blocks to see it. It's a girl, Rosa. When she came into the world she was 26 inches tall, nearly 16 inches around the chest. A delightful baby, health, cooing, gurgling.

If you want to break up a dry discussion of politics, just mention this baby.

Babies in general can't get too much atention. They later will shoulder, and possibly solve, the frightful mess our generation has made of the world's affairs.

In these, however, will be found the chemical basis. Put them down in your note book.

SOO GREYHOUNDS TO SWITCH OVER

Team Wants to Turn Professional -- Application Going In.

MONTREAL, March 31.—(Canadian Press).—The Soo Greyhounds, who on Saturday night won the Canadian amateur hockey honors and the Allan Cup, may operate a team in the National Hockey League next season. This development in the hockey situation arose Saturday during the progress of the spring meeting of the N. H. L., when President Frank Calder received a long distance 'phone call from George McNamara, who coaches the Soo team, stating that he and his team wished to ally themselves with the professional circuit, and proposed to operate the team, with Detroit as the home city. President Calder advised Mr. McNamara to submit an application for franchise through the formal channels, and promised that it would receive full consideration by the League officers. This proposal from the Soo management followed upon the report that the Toronto Granites, Olympic hockey champions, were to seek a berth with the professionals. Their application was not submitted at Saturday's meeting here. Major McDowell, of the Ottawa Hockey Association, stated that he had not been retained to present their claims.

The trading of players, the proposed addition of two United States clubs to the circuit, the possible inclusion of other Canadian teams in order to bring the League to a six-club organization, and the question of artificial ice plants were all discussed at length, but beyond the general cleaning up of the year's business and clarifying to a degree of the present situation in professional hockey, nothing definite developed.

COBOURG GOLF CLUB READY FOR OPENING

COBOURG, March 28 (Special).—The Cobourg Golf Club is preparing to open the season here under auspicious circumstances. The reports presented at the annual meeting, held this week, showed the club to be in good financial standing. A large membership is expected, and a successful and enjoyable season is looked forward to. Officers were elected as follows:—

Hon. President—W. L. Abbott.
Hon. Vice-presidents—F. G. Kay, S. Haas, W. J. Cronen, A. R. Maxwell, Mrs. Rowe, Mrs. G. F. Oliver, Mrs. A. G. Miles.
President—Capt. C. D. Dick.
Vice-president and chairman of grounds—J. E. Stone.
Chairman House Committee—H. C. Higginbottom.
Captain—W. H. Roper.
Directors—John Dick, D. H. Burn, R. T. Mohan, R. E. Barnes, K. K. McCallum, Miss Johnston, Mrs. Hayden, Mrs. Forrest.
Ladies' March Committee—Mrs. John Dick, Mrs. H. C. Higginbottom, Mrs. D. H. Burn.

CRICKET NEWS

A meeting was held in the Chamber of Commerce on Friday evening March 28, with an attendance from each club, the following rules were down. Each club entering the Association will send their representative to a meeting to be held on Friday evening April 4, 1924 at 7.30 p.m. and all entrance fees must be in by that date.

The entrance fee to the Association is $15.00 per club, the Association to provide everythin except the bats, and the Association to bear the expense of keeping the crease in good shape. Be sure to have your representative on hand next Friday.

The moon always presents the same face to us.

LEAGUE SOCCER IN BACKGROUND

Cardiff's Hope Dimmed By Draw With Everton — Bury and Crystal Palace Provided Lively Football.

LONDON, March 31 (Canadian Press Cable). — League football was somewhat out of the picture on Saturday in view of the Cup tie semi-finals at which the gate receipts at Sheffield were led 4,400, at Birmingham led 3,733.

In the First Division Cardiff City seem to be on a decline and their goalless draw with Everton to some extent spoils their hope of heading the league table.

Spurs who were defeated by Liverpool by the only goal scored, played cleverly, but were ineffective near goal.

West Ham defeated West Bromwcih by 1 to 0, but both teams were stale, and the game was without interest. Ruffell scored the only and winning goal for West Ham, and there was some doubt as to whether it was not offside.

Swansea was erratic against Portsmouth, and this accounts for the latter's easy 3 to 0 victory. Offside tactics failed to save the Welsh team.

The Bury-Crystal Palace match resulting in a 1-1 draw, produced some lively football, and Bury missed their chance by taking the game by failing to score from a penalty shot.

Fulham who lost to Leicester City by 2-1 were a disjointed team, and only their sound defence averted a big defeat.

Southampton had all the worst of the exchanges, but managed to scrape through with a goalless draw against Clapton Orient on the latter's ground.

Millwall defeated Plymouth by 1 to 0, and they owe their victory to the vigour of their attack, Plymouth giving way in a clever game.

Hopkins of Brighton scored all their three goals against Norwich City, who failed to respond. This is the second time this season that Hopkins has performed the hat trick.

A curious situation will be created if Fulham and Bristol City are relegated from the Second Division. Both are Southern clubs, and they will undoubtedly prefer to play in the Southern section of the Third Division.

CORINTHIANS WON.

LONDON, March 31 (Canadian Press Cable). — In a friendly Association football game on Saturday, Brmingham defeated the Army by 2 goals to 1.

Another friendly game was staged between Chelsea and Corinthians and provided one of the best struggles seen at Stamford Bridge this season. Creek scored twice for the amateurs, and after this Chelsea, stung to desperate endeavours, fought as though relegation were at stake.

Andy Wilson played experimentally at inside left, but was unable to lead his men to victory.

The amateurs gave a first-class all-round display, and won by 2 goals to 0.

$15,000 SOCCER STAR FOR WANDERERS' TEAM

NEW YORK, March 31.—The greatest capture in the history of Soccer football in this country has been made by the Brooklyn Wanderers in the person of George Brewester, Scotch International star, who will make his first appearance on Sunday at Wanderers' Stadium, Brooklyn, in an American League match against New York.

Brewster was purchased by Everton from Aberdeen for $15,000, and later Wolverhampton Wanderers purchased his release from Everton. He is considered one of the greatest centre halves playing the game and was capped for Scotland against England in 1921.

MISS IRMA WRIGHT WON CHAMPIONSHIP

Typists Compete in Massey Hall on Saturday

TORONTO, March 31.—(Canadian Press).—On the Massey Hall stage 100 typists competed on Saturday night for the championship honors, and in spite of bad weather, 3,000 people were there to cheer them on. Seldom has there been a typewriting contest to equal this, either in number of entrants or number of spectators.

In the international championship event Miss Bessie Friedman was first, with a net rate of 131 words a minute; George Gaskill second with 128 words a minute.

The Canadian championship was won by Miss Irma Wright, 115 words a minute; Ethel Hahndorf, 108; Lottie Betts, 105; Rita Spencer, 104; Doris Russell, 100.

Christmas and New Year are observed the world over.

Mars will be unusually brilliant in the summer months.

Norma Talmadge and Joseph Schildkraut in "The Song of Love"

Norma Talmadge and her new leading man, Joseph Schildkraut, the famous stage actor, in "The Song of Love," at the Capitol to-day, Tuesday and Wednesday.

THEATRES

AT THE REGENT

"THE SOCIAL CODE" SHOWS VIOLA DANA AT HER BEST.

Metro Star Triumphs in Photoplay of Society and Blackmail.

It is always refreshing to see a Viola Dana picture and this is especially true of her latest Metro starring vehicle, "The Social Code," which opened an engagement at the Regent Theatre to-day. In it the versatile Miss Dana turns from light comedy to drama and offers one of the most captivating performances it has been our good fortune to witness for some long time.

As a member of the Long Island society colony Miss Dana enacts the role of a young girl who faces disgrace to protect her married sister. The role calls for a number of highly dramatic and emotional scenes, in each of which the charming little star acquits herself superbly. "The Social Code" is another genuine triumph for Miss Dana and will be hailed with delight by her many admirers.

Supporting the star are Malcolm McGregor, playing a juvenile role in excellent fashion; Edna Fluvarth, sister of the star both in real and reel life; Huntly Gordon, Gyril Chadwick, John Sainpolis and William Humphrey. These players have all been well chosen for their respective parts and work for the general good of the picture as a whole rather than for individual glory. The result is a decidedly well acted photo-drama.

"The Social Code" is an adaptation of Rita Weiman's story, "To Whom It May Concern," which enjoyed wide popularity in print but seems destined to find even greater success as a motion picture. It was adapted for the screen by Rex Taylor. The direction of Oscar Apfel adds more fame to this capable producer, who has brought out forcibly the high lights of the drama. John Arnold was responsible for the excellent photography.

The story is built around the mystery of the murder of a notorious clubman and it holds spectators breathless with suspense.

Short Review.

Viola Dana in her latest Metro offering, "The Social Code," is the featured attraction at the Regent Theatre this week. The new photoplay can be heartily recommended as thoroughly worth while and one that film fans will not want to miss.

"The Social Code" is a modern society drama, with numberless thrills, highly dramatic scenes, elaborate sets and enacted by a cast that could hardly be improved upon. It was adapted by Rex Taylor from Rita Weiman's story, "To Whom It May Concern," and directed by Oscar Apfel.

AT THE ROYAL

"MINNIE" IS LISTED AS EXCEPTIONAL PICTURE

Another picture of exceptional entertainment value is coming to the Royal Theatre next Thursday. It is Marshall Neilan's latest production, "Minnie," released by Associated First National. In this picture Neilan has featured the beautiful Leatrice Joy and popular Matt Moore and has backed them with a cast that fit nicely into his story of happenings in a small town hotel.

Minnie's father owns the hotel, but he is more interested in a radio invention that will give off power to run trucks, water pumps and other necessities that require motivation. So Minnie becomes the drudge. In taking this role Miss Joy has to cover up her beauty, has to dab her face with grease paint and powder and let her pretty black hair hang loose. She wears a mole, too. But she's funny. She does the oddest things in her anger against the people who are constantly sneering at her homelineess.

For the first time in his screen career Matt Moore steps out of "straight" roles to do a character part. He's the inquisitive but forgetful reporter. And he's full of ine humor, too. Those who see the picture at the Royal will agree that Matt Moore was never more delightful.

In cast also are George Barnum, Josephine Crowell, Helen Lynch, Raymond Griffith, as a chewing gum salesman Richard Wayne, Tom Wilson and George Dromgold, that give the picture its many laughs and side splitting humor.

AT THE GRAND

THE MAID OF THE MOUNTAINS.

"The Maid of the Mountains," that most tuneful of comic operas, paid a return visit to the Grand on Saturday, with the same excellent company as was seen here earlier in the season, and added to the laurels won on that occasion. The production was thoroughly enjoyable, with not a weak spot in the cast, and the singing both of principals and chorus was much above the average. Particularly was this true of Miss Ethel Walker, the Australian prima donna, who scored heavily in the role of Teresa, and Louis A. Templeman, a splendid baritone, whose handling of the fine numbers that fall to the lot of Beppo, was a feature of the "Farewell" song, with a depth of feeling that made a lasting impression, and her rendition of the always popular "Love Will Find a Way," was equally effective. Mr. Templeman's singing of "Live for To-day," and the lilting "Bachelor Gay" number, as of splendid quality. Walter Greaza's portrayal of the part of Baldasarre, left nothing to be desired, and the comedy roles were well taken care of by Ronald McMillan as Tonio. Herman Hirshberg as Gener Malona, and Sam A. Burton, as Cru pet; Mona Desmond scored as Vittoria and the Angela of Mary Angell, was a convincing piece of acting.

The whole production was artistic and effective, and it was unfortunate that the audience was not nearly as large as the merit of the attraction warranted.

It was the farewell appearance of "The Maid of the Mountains" here and its passage is to be regretted.

AT THE CAPITOL

ACTRESS PLAYS FEMININE SHEIK.

Norma Talmadge Appears As the Arabian Dancing Girl in "The Song of Love."

Norma Talmadge has introduced another Hollywood novelty which it is predicted will cause an even greater furore among both feminine and masculine patrons of the theatre than the Sheiks.

She has brought the Ouled Nail dancing girl to Hollywood. Of course, Norma's is an idealized version of this strange creature of the Sahara, who in real life is very, very good, but dances very intriguingly. The Ouled Nail dancer, say members of Norma's entourage, will appeal both to women and to men.

Like the sheik who seized what he wanted in caveman fashion, Norma's Ouled Nail girl fights savagely to obtain the man she covets. And she gets him.

"The Song of Love," which is a drama of the Algerian Sahara, will be shown at the Capitol Theatre to-day, Tuesday and Wednesday.

Joseph Schildkraut, idol of feminine theatre-goers of two continents, heads the supporting cast, which also includes Arthur Edmund Carewe, the "Svengali" of "Trilby"; Maude Wayne, Hector V. Sarno, Laurence Wheat, Mario Carillo, James Cooley, Albert Prisco and Earl Schenck.

"The Song of Love" is a First National attraction, produced by Joseph M. Schenck.

SELECTED VAUDEVILLE AT CAPITOL THEATRE TO-NIGHT

The first bill of the Capitol's new policy of presenting a programme of selected vaudeville opened at that theatre this afternoon to a good audience who were greatly pleased with the programme. Maples and Pach, in a pleasing medley of singing and dancing, delighted the audience, while Hope and Mantion, in a novelty musical act, were found to be tip-top entertainers.

Norma Talmadge in her latest picture, "The Song of Love," in which the popular star appears as a dancing girl of the desert, is a romantic drama of love and adventure. A longer review will appear in Tuesday night's paper.

The Capitol has made an excellent start with its vaudeville, and Capitol patrons look forward to seeing many more high-grade entertainers.

LARRY SEMON AT CAPITOL IN NEW COMEDY THURSDAY.

Larry Semon, the Laugh King, will appear at the Capitol next Thursday, Friday, and Saturday in his latest comedy, "Trouble Brewing." Every Larry Semon comedy is good, and this one is reported to be one of his best. William De Mille's story, "Ace Bound," featuring Richard Dix and Lois Wilson, will be the feature attraction.

Capitol selected vaudeville will also be presented.

LITTLE THEATRE CLUB SOON TO APPEAR AT CAPITOL THEATRE.

An announcement of unusual local interest comes from the Capitol Theatre, where the Peterborough Little Theatre Club are busy rehearsing a comedy in one-act, to be offered at the Capitol on Monday, Tuesday, and Wednesday, 7th, 8th, and 9th May.

Mrs. W. McKee Bingham is directing the newest production of the Peterborough players, with Mrs. E. H. Wood as stage manager. The comedy is called "Melage," or "Three Women and a Man," and is the work of Miss Kathleen L. McCarthy (Jeannette of The Examiner).

In the cast are Miss Clare Mason, Mr. J. Galger, Mrs. McKee Bingham, Miss Dorothy Engel, Miss Mathilde Masson, Miss Jean Eastwood, and Miss Audrey Huycke.

Special stage settings are being prepared.

Along with this act will be presented Thomas Meighan in his latest comedy hit, "Pied Piper Malone," and Capitol selected vaudeville.

HUNTLEY GORDON AND GERTRUDE ASTOR in "The Wanters," now playing the Royal.

Society

Dr. J. J. Craig, returned last night from Toronto, where he had been studying pyorrhoea, with Dr. Harold Box.

Mr. and Mrs. F. Cann, are visiting their son, Mr. F. L. Cann, at Montreal.

Miss Florence Hill of Toronto, is visiting Mrs. Vera Sanderson, 212 Charlotte street.

Mrs. Wm. Blackwell, Benson avenue, entertained the French class of the Conservatory of Music at her home yesterday afternoon.

Mrs. O'Reilly of Kingston, is the guest of her nephew, Dr. F. O'Reilly, Hunter street.

Mr. Frank W. Simpson, son of Mr. and Mrs. W. J. Simpson, city, has accepted a position with the First State Bank of Detroit, and has just recently been appointed permanent manager of a new branch of that bank, known as the Charlevoix District Branch, in a rapidly growing residential and better business district.

Mrs. James L. McCamus, of Bailieboro, is the guest of her sister, Mrs. Mann, Smith street, for a few days.

Dr. Leslie Williamson of Edmonton, is in the city to-day attending the funeral of his father the late Thomas Williamson.

BURNALL HEAT SAVING SYSTEM MEETS APPROVAL

At a meeting of the Orillia School Board, the members pased their seal of approval upon the Burnall heat saving system, which after being tried out from January 3rd to January 10th and undergoing various tests at the West Ward school, has been found to fulfill all that was claimed for it, effecting an all-round saving in fuel of 34 1-2 per cent. A table of temperatures in the various rooms was submitted to the Board, showing a great improvement in the matter of uniformity of heat with an attendant reduction in fuel. One instance of this is noteworthy: Under the old system room 2 averaged 59 degrees, and room 10 average 63 degrees. Under the Burnall system both rooms averaged 66 degrees.

A vote of thanks was passed to Messrs. D. C. Patmore and E. G. Arens, for their work in connection with the Burnall tests.

The system was installed by the Peterboro Sales Agency of the Burnall Fuel Saving System, Mr. P. J. Mulvihill, Peterboro representative supervised the installation. A similar system has been in operation in the Peterboro fire department and is giving splendid results.

RAILWAY LABOR UNION ELECT R. TALTON PRES.

MONTREAL, March 31 (Canadian Press).— R. J. Talton, Toronto, was re-elected president or Division Four of the Railway Employees' Department of the American Federation of Labour, comprising all shop crafts in Canada, at yesterday's session of the fifth biennial conference of the Division held here, it was announced.

ONE CHILD KILLED WHEN TWO FAMILIES CLASHED

BOONEVILLE, Ark., March 31. —(Canadian Press.)—One child was killed and three other children and two men and two women were wounded in a fight between the members of families of Sam McCarson and Geary Van Allen in Lick-creek Valley, seven miles southwest of Booneville yesterday.

NET DEBT MAY SHOW DECLINE

Financial Year of Dominion Closes Tonight With Satisfactory Results.

OTTAWA, March 31.—(Canadian Press.)—Financial year of the Dominion, which closes to-night, is expected to show that, for the first time since the outbreak of the war, the balance has been reached between revenue and expenditure. The exact figures will not be available for some time. Statement for March, which will be issued by the Finance Department in about a week, will probably indicate a decrease in the net debt as compared with the standing last year, but the monthly statement covers only such receipts and payments as have passed through the books of the Finance Department up to the end of the month. So far as receipts are concerned, it is fairly complete. In expenditures it is considerably behind the full figuers. The expectation, however, is that if there has been any addition to the net debt during the closing year it is small.

A Caucus To-morrow.

A Liberal caucus is understood to have been called for to-morrow, when several issues that are disturbing the surface of parliament are expecting to be threshed out in Family Council or Party. One of these is the question of economy in relation to estimates and particularly that section of estimates affecting public works and popularly known as "pork barrel." Already this issue has threatened an awkward situation in the House and its seriousness is regarded as likely to increase as the session advances.

Hon. G. P. Graham, Minister of Railways, to-day celebrated his 65th birthday. To-morrow Mr. Graham will submit to the House his 26 bills covering the branch line programme of the Canadian National Railways.

THE COGNAWAGA CLUB HELD ENTERTAINMENT

The Cognawaga Club of St. James 'church entertained the official and trustee boards, along with their wives and sweethearts, to a banquet on Friday evening, March 28, in the Sunday school room. The tables were laden with good things to which all did justice. Songs and speeches were interwoven with the spread and created a variety of fun and frolic, and the following programme was put on:

Programme.

Hymn, "All Hail the Power"—Everybody.
7 p.m.—Supper—Everybody.
Cognawaga yell—The boys.
Chairman's address—Mr. W. McLaren.
A Royal Welcome to All.
Selection by the S. S. Orchestra, Mrs. E. Hotston at the piano, Mr. E. Hotston led the singing.
Violin selection—Mr. C. Ruseau.
5 Minute Addresses.
The Club, Mr. D. Davis; reply Mr. F. Kitney.
Sports, Mr. W. Wright; reply Mr. A. E. Prest.
Social, Mr. S. Church; reply, Mr. J. O. Fife.
Moral, Mr. G. Wagar; reply Mrs. Welbourne.
Presentation of gold cuff links by Mr. Merrell for clean hockey playing—Won by A. Davis.
Address by Rev. J. D. Richardson.
More songs and more music—S. S. Orcestra.
God Save the King.

At 9.30 p.m. the boys put on a physical display in the basement.

THEODORE ROOSEVELT WAS ASKED TO RESIGN

WASHINGTON, March 31. — (Canadian Press.) — A resolution calling for the resignation of Theodore Rooseyelt, Assistant Secretary of the Navy because of his connection with the oil leasing programme, was drawn up to-day by Senator Dilt of Washington, Democratic member of the Oil committee.

IRELAND SCENE OF MORE DESTRUCTION

BELFAST, March 31.—(Canadian Press.)—A number of bridges on the main road between Longford and Athlone in Central Ireland, were blown up last night and the roads were blocked with felled trees. Republicans disclaim responsibility for destruction.

IN MEMORIAM.

WILSON. — In loving memory of Mrs. W. M. Wilson, who died March 31, 1922.
Not dead to us. We love her still;
Not lost, but gone before;
She lives with us in memory still,
And will for ever more.
—Inserted by her friend, Mrs. Mehew.

EX-PRESIDENT HONORED BY ROTARIANS

V. J. McElderry Presented With Diamond Pin--Duties of City Clerk Are Explained by S. R. Armstrong.

MORE COMMITTEES

The retiring president of the Peterborough Rotary Club, Rotarian V. J. McElderry, was honoured at to-day's weekly luncheon of the club at the Empress, when he was presented with a diamond pin of Rotary design as a mark of appreciation for his services during the past year.

The presentation was made by Past President Fred I. Roy, who referred to the affection in which Rotarian McElderry was held by every member of the Peterboro Rotary Club.

President Reed Wren was in the chair to-day, and there was a large attendance, among the visitors being Rotarian Sir Alexander Bertram of Montreal, who expressed his pleasure at being present.

A committee composed of J. H. Seels, Chairman Jack Primeau, and Harry Thompson, was appointed to confer with a similar committee from the Kiwanis Club as to the best manner in which the two organizations could co-operate with the Peterboro Health Association in promoting the success of the Motor Show.

President Wren announced that the Juvenile Delinquency... Committee would consist of Adjutan: Smith and any members called upon by him for assistance, while the Attendance Committee would have Harry Thompson as chairman, and W. R. Widdess, Lee Barnes, James Lynch, Dr. Bruce Marshall and Lou Potvin as members.

The following additions to other committees were announced:

Entertainments—Leon Frazer, Dr. A. McNair.
Boys' Camp—J. H. Seels.
Boys' Work—George C. McDonald
Music — Robert Abbott.

The speaker of the day was Rotarian S. R. Armstrong, who gave a most interesting address on his classification, supplying the Rotarians with much information as to the duties of a municipal clerk who according to the speaker, had to be somewhat of an accountant, somewhat of a lawyer, and a great deal of a clerk.

One of the biggest duties that had to be performed in the clerk's office he pointed out, was that of preparing the collector's rolls, which had to be done after the assessor's roll was returned. This work involved figuring the amount that had to be paid by the individual taxpayers, and altogether in Peterboro 7013 assessments had to be calculated, ranging from $35 to $1,000,000, with the vast majority under the $10,000 mark. In addition the local improvement assessments had to be prepared.

Another big task was the preparing of the voters' lists, each name having to be written out each year, with the property qualifications, etc, a total of 10,190 names, while in addition a list had to be prepared each year of those qualified to vote at parliamentary elections, but not at municipal elections. There were over 3000 names in this class.

The fact that much of this kind of work had to be done within a certain time limit kept the clerk and his staff busy.

The clerk had to keep an accurate account of the proceedings of the city council, and in Peterborough of the committee meetings as well. He had to look after all vouchers and to file them where they would be readily available, as well as to file all bylaws, reports and other documents, a task of considerable difficulty, where there was not sufficient vault accommodation, as was unfortunately the case in Peterborough.

In addition he was required to act as secretary of the Board of Health, Clerk of the Court of Revision, and of the Judge's Court, dealing with appeals form the Court of Revision.

He had also to act as division registrar to record births, deaths and marriages and send the records to Toronto and to issue marriage licenses.

The clerk was also required to look after municipal elections, the voting on by-laws, etc., and to satisfy brokers that certain by-laws in regard to issuing debentures had been legally passed.

There were many returns to be made to both Provincial and Federal governments whom the speaker described as insatiable after informations.

The duties of a clerk varied. He did not know of any other place where the clerk was called upon to carry out the work of an Industrial Commissioner and there were not many cities where the city clerk was also clerk of the police court as in the case here.

In conclusion, Rotarian Armstrong said the municipal clerk was often embarrassed by too much publicity. If a mistake was made it was sure to become public property, as was any application that might be made for an increase in salary.

He asked Rotarians to have consideration for the members of the city council, who were also victims of publicity, being criticized not only for their acts but for what they said. Constructive criticism was not resented, but there was too much of a carping, jeering, sneering style. He urged that in letters to the paper and in conversation this form of criticism should be dropped.

DEATH.

THOMPSON.—On Sunday, March 30, 1924, at her late residence, 31 Dennistoun avenue, Peterborough, Roxie May McKee, beloved wife of C. Stanley Thompson.
Funeral from residence to Little Lake cemetery, Tuesday, April 1, at 2 p.m.
Listowel papers please copy.

Financial News and Views

Canadian Stock Exchange and Mines | New York Stock Exchange and Curb Prices

TO-DAY'S QUOTATIONS AND OPINION AND REVIEWS OF THE MARKETS.

NEW YORK, March 31.—Stocks showed slight advances over last week's closing prices in the early dealings today, but strengthened by news that the Senate hoped to conclude work on the tax measure this week and by the General Electric's favourable showing for 1923 when the balance for the stock was equivalent to $18.25 a share against $14.86 in 1922, General Electric moved up half a point to 214 1-2 and Steel made an equal gain to 97 3-4, while most of the other industrial leaders were steady at Saturday's finals.

Special selling came into Cosden, which broke to a new low on the movement at 33 5-8 and Republic Steel at 44 3-4. Stocks in the first hour experienced the first spirited rally in more than ten days. Corn Products rebounded to 171, a 10-point recovery from last week's low. General Electric came back to 218 against the recent low of 210 1-4 and gains of 1 to 2 points took place in Republic Steel, Baldwin, Hide and Leather Preferred, and other issues lately under pressure, the background for the improved tone was furnished by the Washington News. Senator Walsh's statement yesterday indicated that the end of the oil hearings was not far off. Senator Wheeler intimates that the Daugherty hearing will not be prolonged. bankers, brokers, and manufacturers hoped that conditions in Washington within the next few weeks will return to normal stocks continued to show an improved tone through the morning and further progress on the recovery was scored by the main body of stocks in the noon dealings. Norfolk and Western led the betterment in the rails coming back more than 2 points. Groups in which trade conditions were reported better, made the best showing among the industrials. Central Leather Preferred recovered 2 points to 41, while Hide and Leather Preferred made an equal rebound to 75, an over-extended short interest coupled with buying based on the certainty that in the report for the quarter will show at least as good earnings as in the last three months of 1923, when the net was 78 cents a share on 215,483 shares of preferred were the cause for Hide & Leather's rally, plants are running near capacity.

(Quotations Supplied by Arthur C. Hawley. 'Phone 186).

NOT MUCH BUSINESS BEFORE COMMISSION

Following Special Meeting a Week Ago There Were No Routine Matters to Attend To.

Declaring that Chief Constable Samuel Newhall threw him down stairs in the Police Station and out on to the street, Norman Graham appealed in writing to the Police Commission on Saturday for redress.

He intimated that if Chief Newhall did not apologise he would take action against him on grounds of assault.

The Chief denied the charge and refused to apologise.

In his communication Graham said he called the Chief to ask permission to run his car a few hours with a 1923 license, and later called on the Chief, when without provocation he was set upon and cast out to the street.

Chief Newhall told the Commission: "Let him lay his charge; I'm not going to apologise."

When Graham called up, the Chief continued, he refused to tell where he was, saying it was his business. The Chief asked him about an anonymous letter which it was supposed he sent the Chief, and about having Constable Harry Young in Revoy's barn at midnight, which he denied.

"He said he would make me swallow my words, and he came around here and up the stairs—so the men tell me—three steps at a time. He came in and used disgusting language and notified me he was in with some of the City Council. He banged his fist on my desk, and when I told him to leave the office he said he would go when he was ready. I marched him to the stairs and sent him down and out to the street. He wasn't in my office more than a minute. I used no more force than was necessary to put him out."

Mayor Turner: "If this statement of Norman Graham's is correct, it cannot be tolerated by the public or by the Commission."

Chief Newhall: "No more force was used than was needed to put a man out. I don't think he had been drinking, but I think he had been using this other vile stuff."

Mayor Turner: "I'm quite content to have him lay a charge of assault if he thinks he has grounds."

Chief Newhall: "He should have gone in the cells, but I know what he is. His father has to suffer. We have had him in and out of our hands for years."

Magistrate Langley said he remembered one occasion and Graham had told him that was my only offence. "If the Chief refuses to prosecute there is nothing we can do. The question for us is whether we have sufficient explanation from the Chief."

A resolution was passed authorising the secretary to inform Mr. Graham that Chief Newhall's explanation had been heard, and if Mr. Graham wishes to take further action he may do so.

Magistrate Langley refrained from voting, since the question may come before him for adjudication if action is entered by the complainant.

UNABLE TO GET WORK SLASHED HIS THROAT

TORONTO, Ont., March 31.—(Canadian Press).—After inflicting a wound three inches in length in his throat, George H. Johnston boarded a radial at Lansing and rode into the city. He changed cars at North Toronto and came on to Queen and Yonge streets. While walking west on Queen street Johnston collapsed and was found unconscious and taken to the General Hospital. Johston told the police he committed the act because he could not get work.

FERGUSON AND RANEY LEAD FORCES IN LONG BATTLE OVER TIMBER

Premier Asserted That the Drury Government Had Coerced Austin Nicholson Lumber Company Because Nicholson Was Prominent Conservative — Acrimonious Clashes In Afternoon Engagement.

WMAN EXPLAINS.

RONTO, April 1.—(Canadian Press).—Conservative and members battled all afternoon in the Legislature Monover the treatment that the administration had given Austin Nicholson Lumber pany, while the Liberals sat interested spectators. The ernment accused the U.F.O. e in power of using coercion getting the company to sign greement. The U.F.O. mem- challenged the statement, declare the late Governhad simply got a settleof a long standing dispute. e U.F.O. Government hired Arr Roebuck to make a report on at he thought the Austin-Nichol- Company owed for cutting timon Crown lands and short scal- Mr. Roebuck made an estimate 00,000. This was later reduc- claim of $136,000, which the refused to pay. This again ed to $28,800, which the reed to pay, but did not w claim that they were signing.

ed Company.

stated that the U.F. after getting their the absurdity of the uced it $136,000. The e courage to stand sum, and at last the ving that they had demanded $28,000, eat over the comt if it did not pay no nses would be issued in his business Mr. "

said the Premier did se correctly. The mply an estimate. things that would accurate report. ment had never billfor the large amount. wn to the reasonable 0, and there was no at the company at all.

Political Animus.

Premier contended that the government was out to get Mr. Nicholson, because he was an outstanding Conservative. Mr. Doherty replied that no bills were sent to the company. "It was a matter of negotiation between Mr. Roebuck, acting for the government and Mr. Nicholson, and the sum finally agreed on was $28,800. Does the government think the sum too small? Will it now take the responsibility of collecting it or more from this firm?"

Mr. Lyons said that at present he wasn't concerned with the payment.

Sam Clarke (Lib.) wanted to know by what right Mr. Roebuck reduced the sum alleged to be owing. Mr. Doherty said it was a matter of negotiation and not charging. During the debate the Premier and Hon. W. E. Raney had several clashes

Reasonable Settlement.

Hon. Beniah Bowman, former Minister of Lands and Forests, went into a long explanation of the settlement of the government claim with the Austin Nicholson Lumber Company, in which Hon. James Lyons declared there had been improper force used. Mr. Bowman said that the original claim of over $2,000,000 was based on the act by which a claim of $15 per tree could be made against those trespassing on Crown lands. The department had never been able to find any authority for the company cutting timber as far north as the height of land. Finally

Crown Appeals to Increase Sentence

OTTAWA, April 1.—(Canadian Press).—The right of the crown to appeal for an increase in sentence, after it has accepted a fine from a defendant, is involved in a reference heard by the Supreme Court of Canada Monday. Judgment is reserved.

The case was that of Goldhamer versus the King, which in the Ontario court of king's bench last year resulted in a sentence of $400 fine or three months being changed to $400 fine and six months imprisonment. Mr. Goldhamer was convicted of an offence under the Bankruptcy Act. The jurisdiction of the supreme court to hear this appeal was questioned and the appellant was allowed to argue the case and submit his views on jurisdiction later.

ALCOMBRACK FACES TWO DRUG CHARGES

Arraigned in Police Court This Morning -- Case Enlarged One Week.

Edgar J. Alcombrack appeared before Magistrate O. A. Langley this morning on two charges of having drugs illegally in his possession contrary to the provisions of the Opium and Narcotic Drugs Act, and was released on bail of $1000. Of this $500 is personal security and $500 in one surety.

The charges against Alcombrack are that on February 28 he had in his possession two hundred and twenty-five morphine tablets, and on March 1 one hundred morphine tablets, of ¼ grain each.

The case will be heard on Tuesday, April 8th.

Dog Catcher Keeps A Watchful Eye on All Straying Dogs

James Gates, the city dog catcher, told the Examiner this morning that people are now getting rid of superfluous dogs in anticipation of the tag time that is drawing near. He has not yet been appointed for this year but is keeping a watchful eye on developments in his sphere of activity.

In the course of conversation Mr. Gates said instead of appointing him for a few weeks the council should date his appointment some months ahead of the time when he takes over the bathing beach in order that he might have time to make a proper clean-up of stray dogs, and enforce the by-law calling for all dogs to be on leashes. He told of several cases of children being bitten by dogs, including Gertie Lemings, 64 Auburn street. In this case, he believes, action will be taken against the owner of the dog.

ST. PAUL'S YOUNG MEN HAD ANOTHER BANQUET

A very enjoyable banquet, attended by about 75 of the members and their friends, was held in the Sunday school room of St. Paul's Presbyterian church last evening, under the auspices of the men of St. Paul's Society. A bountiful supper was served by the Ladies' Aid Society, and a good musical programme including community singing, led by Alex. Dick, and vocal solos led by Alex. Dick, and vocal solos by Messrs. H. Snelgrove and Hugh Niven. The speaker of the evening, Col. W. G. McKendrick, D.S.O., of Toronto, gave a very interesting and instructive address on "Britain's Future."

Three Trips to Europe For the Government.

OTTAWA, April 1.— (Canadian Press.)—In reply to a question by Donald Sutherland, (Conservative member for South Oxford), a return yesterday shows that $11,774 in all has been paid by the Canadian government to Duncan Marshall in salary plus $8,163 for expenses. Mr. Marshall has made, on behalf of the departments of agriculture and immigration, three trips to the United States, tow to Great Britain and one to Britain and France.

One Bandit Gang Riddled But Two Others Got Away

Pair of Bank Robbers Shot and Loot Recovered In Los Angeles—Wheeling, W. Va., Bank Yields $35,000 to Raiders — Detroit Suffers Again.

LOS ANGELES, Calif., April 1. — (Canadian Press). — One bank robber was slain, his companion crippled by gunshot wounds and $12,000 taken from the Security Trust and Savings Bank branch was recovered Monday during two revolver fights and a chase.

One of the robbers was fatally shot by a civilian who saw the two men commandeer an automobile truck. The second robber was shot and captured at Huntington Park, near here, by a deputy-sheriff. From him the loot was recovered.

STOLE $35,000.

WHEELING, W. Va., April 1. — (Canadian Press). — Bandits entered the National Bank of Elm Grove, a suburb of Wheeling, late Monday, held up the employees and escaped with about $35,000 in cash, according to police report..

AND $5,000 HERE.

DETROIT, Mich., April 1. — (Canadian Press).—In another holdup Monday morning Walter Barylski, proprietor of a soft drink saloon, was held up by four men who jumped from an automobile in front of his place and robbed him of $5,000.

SECTION MEN GAIN POINTS

Given Time and a Half For Overtime After Regular Day of Eight Hours—Rate of 37 Cents Extended to Eastern Lines.

MONTREAL, April 1.—Negotiations in regard to wages and working conditions that commenced a year ago between the railroads and employees in the maintenance of way and bridge, and building departments ended here Monday with three concession made to the men.

Overtime at the rate of time and a half is granted after 8 hours work; hitherto the ninth and tenth hours have yielded the same rate as the preceding eight. In addition the probationary period a man must work to qualify for agreed rates is reduced from six to four months. The fixed rate of 37 cents an hour for laborers in permanent bridge and building gangs up to now ruling only west of Port Arthur, is extended eastward. In the east the roads have been paying these laborers under individual agreements.

Agreement for Year

The new agreement, applying to ninety per cent. of Canadian railroad mileage extends for one year. Official announcement of the agreement was made here yesterday by the Railway Association of Canada.

This decision averts a strike. In the spring of 1923, maintenance-of-way employees asked the railroads for a wage increase of five cents an hour. The roads rejected the demand. The men then invoked the services of a conciliation board operating under the Industrial Disputes Act. That board recommended an increase of two cents an hour for all employees earning less than forty cents an hour. The roads also rejected that recommendation, holding that earnings and current cost of living did not justify the change.

Voted to Strike

A ballot by the men followed, the majority favoring a strike. On March 1, the roads again were approached and on March 10 negotiatiosn re-opened, the conciliation board's recommendation being the basis of discussion.

Railroads subscribing to the new agreement are the Canadian Pacific, Canadian National and the Temiskaming and Northern Ontario. It is anticipated that the balance of the roads will ultimately adopt the changes.

Reward Offered For Rumor Monger's Arrest.

LINDSAY, April 1.—(Canadian Press).—J. Sutcliffe and Sons (drygoods, clothing, etc.) yesterday offered a reward of $300 to the party giving them the information that will lead to the conviction of the party who circulated a report that Mr. F. W. Sutcliffe had written Canadian National headquarter urging the cancellation of railways passes to employees. The report which is utterly false intimated that the passes were taking customers out of town for their shopping.

CITY COUNCIL START WHEELS VOTE MACHINE

Question of Extension of C. G. E. Fixed Assessment and Expansion Will Be Put to People on April 23.

G.W.V.A. APPROVES

At a special meeting of the City Council last night the only business on the agenda was the passing of a by law to fix a date for voting on the C. G. E. fixed assessment extension.

The following report from the manufacturers committee was adopted:

Representatives of your Committee had several interviews with officials of the Canadian General Electric Company in regard to an extensive expansion which they were considering making either in Montreal or Peterborough. During the negotiations it was suggested by representatives of this committee that the City would extend the period of the fixed assessment of the company for about three years if they would make the expansion here. Mr. Patterson representing the Company met your Committee on March 28th and said the Company had decided that if the present fixed assessment were extended for three years and eight months the company would erect another building of brick and steel not less than 87 by 160 feet, three stories and basement, with approximately 50,000 square feet of floor space, and instal additional machinery in the new building and additional machinery between $300,000.00 and $400,000.00 by July 1st., 1925.

Your committee gave instructions to have a by-law prepared to submit to the electors to extend the fixed assessment of the Company for three years and eight months on the conditions outlined and recommend that this by-law be approved of by the Council and recommended to the electors.

The bylaw fixing the date for the poll for April 23 and naming the poll ing places was passed and the by-law to be submitted to the people was read and approved.

A communication from the G.W.V.A. executive unanimously and heartily endorsed the plan and promised the support of that organization.

Mayor Turner: "That's the kind of co-operation we want to put it over big.

POLICE TAKE HAND IN THE HOME BANK

Commission of $55,000 Paid to Persons Unknown -- Chief Cuddy, Head of Criminal Investigation Department, Called.

TORONTO, April 1.—(Canadian Press).—Expert examination of the books of the Home Bank made for Hon. W. F. Nickle, K.C., Attorney-General, by H. D. Lockhart Gordon, auditor, shows that $110,000 was paid out in commissions to various parties, of which F. H. Richardson, former City Controller, and ex-Warden of Ontario County, got $13,000, and the late manager of the Home Bank, James Cooper Mason, got $42,000; while $55,000 was paid to parties whose identity has not yet been revealed through any of the public investigations.

It was learned last night that it was with reference to this second $55,000 that the Premier, the Attorney-General and the Provincial Treasurer held an emergency conference in the Premier's office, lasting most of yesterday, and called in Deputy Commissioner Alfred Cuddy, chief of the Criminal Investigation Department of the Provincial Police.

Certain variable dark area on the moon are thought due to vegetation.

Rumania Refuses Soviet's Demands

VIENNA, April 1.—(Canadian Press).—At Monday's session of the Russo-Rumanian conference, M. Rascanu, the Rumanian delegate, read a reply to Russia's demands for a plebiscite in Bessarabia on the question of the annexation of the province by Rumania. The reply of M. Rascanu asserted that Rumania was not prepared to negotiate further with Russia if Russia did not recognize the Bessarabian question as having been settled or if Russia persisted in her demands for a plebiscite.

The Russian delegation requested permission to defer its answer to Rumania until next Wednesday. The conference therefore was accordingly adjourned to that date.

Irish Strikers Blew Up Bridges

DUBLIN, April 1.—(Canadian Press).—The blowing up of bridges and destruction of roads in the counties of Longford and Westmeath, the news of which was confirmed here Monday, is due to labor troubles and not to action of a political nature, according to responsible opinion.

The road workers are on strike in the two counties in consequence of proposals by the County Councils for a reduction of wages and the destruction described in the despatches is alleged to be the outgrowth of the strike.

The Republicans strongly deny any responsibility for the damage done to the roads and bridges, declaring Eamonn De Valera's orders against violent action is still operative and is being obeyed.

STRIKE WOULD BE JUSTIFIED

Tom Moore, President of the Dominion Trades Congress, Says Postal Employees' Bonus Should Be Absorbed In Upward Salary Revision

MONTREAL, April 1, Canadian Press. — A declaration that the postal service of Canada was absolutely entitled to go on strike, and that unless some assurance was given to the postal employees that the bonus would not be taken away but would be absorbed by an upward salary revision, there would be grave possibilities of a tie-up in the postal services, was the statement made here on Monday by Tom Moore, the president of the Trades and Labor Congress of Canada.

"Any worker who cannot get just consideration from his employer, whether the employer is a private individual or a public authority, is justified in withholding his labor," said Mr. Moore. "If a strike does take place the responsibility must be placed on the arbitrary action of the government in attempting to force these salary reductions upon the men in an arbitrary manner."

Mr. Moore declared that it was not a question of a bonus being taken off. "It is an actual reduction," he declared. He stated that for the last two years the government had been going to take up the question of the revision of employees' salaries, but it had done nothing. It could not therefore be wondered at, he thought if the employees now said they had no further confidence in promises.

DOESN'T EXPECT STRIKE

OTTAWA, April 1. Canadian Press —The government does not expect that any strike of the Canadian postal workers will take place. The Prime Minister, Right Hon. W. L. MacKenzie King, yesterday informed the House that the delegation which visited here last week apparently were not aware, when they advised the possibility of a strike, that the civil service commission had been advised by the government that any increase in salary should be made retroactive to the beginning of this fiscal year, that is to-day.

B. C. POSTMEN ACCEPT PROMISE OF GOVERNMENT

VANCOUVER, B.C., April 1.—The British Columbia post office employees do not belong to the postal workers of Canada, the organization which announced from Toronto that 96 per cent. of its membership had voted in favor of a strike in protest against the federal government's readjustment of salary.

Fred Knowles, national president of the Amalgamated Civil Service of Canada, to which the local postal men belong, states that his organization has not considered a strike, and no strike vote had been taken.

"We have been under the impression that the government would meet us," stated Mr. Knowles, "and had promised a salary revision. We are inclined to accept this promise until we are assured that it will not be met. On March 24, we had a wire from Ottawa that leads us to believe that salary revision was being given every consideration. The government also promised us a superannuation scheme and we still have faith in this promise."

Mr. Knowles would not forecast what effect the pending strike of postal workers would have in British Columbia.

Sudbury Miner Fell to Death Down Shaft.

SUDBURY, April 1.—The inquest into the death of John Hendrickson, who was instantly killed when he fell from the fifth to the sixth level at Garson mine on Friday morning, a distance of 100 feet, will be held on Wednesday afternoon at three o'clock. Hendrickson was a drill runner and had been in the employ of the Mond Nickel Co. for the past two years. Besides John Wirta, who was working in the mine beside Hendrickson and who saw him slip and fall down the shaft, the shaft boss and mine captain McAllister, have been called as witnesses.

SE DEBATED MOTION TO USE ALBERTA'S COAL

T. L. Church of Toronto Proposed the Adoption of a Policy Giving Canada An All-British and Canadian Supply, Eliminating United States Fields.

APPLY IMPORT DUTY.

OTTAWA, April 1. — (Canadian Press.)— A resolution calling upon the government to initiate a policy which would give to the Dominion an all-British and Canadian coal supply was moved in the House of Commons Monday afternoon by T. L. Church, Conservative, North Toronto.

Mr. Church's motion called for the placing of a duty on coal from the United States "to ensure all British supply for Canada and thus afford adequate protection to coal mined and coked under the British flag."

His resolution also set forth that "whereas coal is a necessity in effect equal to that of food, it should therefore be carried on a preferential toll basis by the railways on the same basis as food."

Anticipate Embargo.

Mr. Church stated that the United States was likely to put an embargo upon the export of coal either before the coming elections in that country or just after, and such an embargo, would place central Canada at the mercy of that country. The Canadian National Railway should use its ships to carry coal from the Maritime provinces instead of selling them. The Canadian National Railways should be used to break up shipping combines, and he was surprised to hear that the representatives of these railways sat in with combines to fix rates. The railway commission of Canada had practically abdicated its functions in this connection and had allowed Sir Henry Thornton to fix his own rates for carrying coal from Alberta to Ontario.

Mr. Church had written to Hon. F. B. Carvell, chairman of the railway commission, and had called the matter to his attention. Mr. Carvell had, replied that if Mr. Church would make an application for an investigation of coal rates, the commission would be very glad to give him every assistance. Mr. Church added that he had then written to the city of Toronto and to the Ontario government upon the matter and that the Ontario government had filed an applictaion for an investigation.

Enquire Into Costs.

Hance Logan (Liberal, Cumberland), proposed the formation of a national coal commission, for which he suggested M. J. Butler, former deputy minister of railways as chairman, to investigate in the United States the actual cost of carrying coal and bring back recommendations for the solution of the coal transportation problem. Mr. Logan urged that proper railway equipment for the carrying of coal in big trains from Alberta and the Maritime provinces to Central Canada, was the probable solution of the difficulty.

Anthracite In Free.

Mr. Logan quoted figures of coal importations for 1923 showing that anthracite to the quantity of 5,165,383 tons at a customs valuation of $46,457,962 had been imoprted into Canada. The total imports of bituminous coal during 1923 were 18,822,240 tons valued at $9,899,099. The duty collected on this coal totalled $6,844,217. The total tonnage imported during 1923 was 20,987,622 with a customs valuation of $96,357,061. The ad valorem rate of duty therefore was 7.1 per cent. No one would pretend that this was a high duty, said Mr. Logan. Since 1867 there had been no duty on anthracite coal. The duty was on bituminous, the poor man's coal.

The country needed money to carry on its affairs, therefore he advocated a duty of 20 per cent. on bituminous coal which would amount to about 66 cents a ton, and a duty of 50 cents a ton on anthracite.

J. F. White, Conservative, London, interrupted to ask Mr. Logan if he favored a 20 per cent. tariff on agricultural implements.

Mr Logan replied that there was no use trying to drag a red herring across the trail He was interested in trying to secure an independent coal supply for Canada, and also to raise revenue for the country. When the total value of coal as well as other products imported into Canada was taken into account it would be seen that this country had lost approximately $15,000,000 in exchange last year.

Policy For the East.

A. W. Neill, Independent, Comox, Alberni, spoke of Mr. Church's policy as a "national policy, intended for the east. He criticized the Canadian government merchant marine for not buying Alberta coal for use on their ships. The same coal had

Tuppence Strike At Wembley Fair

LONDON, April 1.—(Canadian Press).—No sooner had Londoners learned that the tramway and bus strike had been settled than they were given the news that the thousands of workmen engaged in the British Exhibition at Wembley struck for an increase of twopence per hour in their pay. The strikers are members of the building trades and allied unions.

It was said last night that the walkout would not postpone the opening on April 23 of the exhibition, but that if the strike continues even for a few days, it is certain the exhibition will bear a far from finished appearance on the opening day.

CREAM WOLVES PELT NOVELTY

Unusual Color of Two Pelts Caught Near Sudbury — Thirty Pelts Turned In By Trappers and Farmers For Total of $1,200.

SUDBURY, April 1.—During the past five weeks twenty wolf pelts have been brought into Crown Land Agent MacLennan's office and the Government bounty claimed. This makes total of thirty pelts delivered to the local office during the winter, or a total of $1,200 given in wolf bounties for this district.

Mr. MacLennan says this is more than twice the number of pelts brought in other years. Trappers and farmers, bringing in the pelts, report that they have seen several more wolves around the district during the 1923-24 winter than in several years past. Trappers say that there is no truth in the majority of stories given out of attacks by wolves.

The trappers are not in favor of the proposed reduction of the wolf bounty in view of the large number of wolves seen during the past season. They are of the opinion that the present bounty of $40 should be continued as an incentive to trappers and farmers to wage war on the animals. One farmer was able to shoot one of two wolves that had been pillaging in the farmyard and had destroyed two sheep. Other residents of the district tell of the animals roaming on the outskirts of their homestead.

Alex. Laamenen a sixteen-year-old boy residing at Nairn Centre made his warfare on the wolves, a remunerative one during the past winter, bringing in three pelts and claiming $120 in bounty. The boy trapped the three animals, using rabbit as bait. Most unusual were two of the four pelts brought in by David Lehikonin, of Worthington, which were a deep shade of cream. The unusual color is sometimes explained by a mixture of breed but trappers claim it is caused by an unhealthy condition in the animal which causes the fur to change color.

Pilgrims to Wembley Arrive From Orient.

VICTORIA, B. C. March 31. — With the first rush of passengers to the British Empire Exhibition at Wembley, England, the steamer Empres of Asia docked here this mornin from the Orient. There were 633 passengers on board. The vessel also brought a record mail and consignment of cargo.

F. W. Strathy, well known in Toronto banking circles was among the passengers. Mr. Strathy has been on a world tour. He says the reconstruction of Japan is proceeding slowly and conditions show little improvement from the situation of last September following the earthquake and fire

CABINET CALLS POLICE IN INVESTIGATING THE PROVINCE'S BOND DEALS

Hon. Peter Smith's Name Mentioned for First Time Last Night.--Auditor Says $15,000 Cheque Payable to Former Treasurer Untraced in Government Coffers.

ANOTHER MYSTERY

TORONTO, April 1.—(Canadian Press).—For the first time in the Public Accounts Committee's investigation of the Province of Ontario bond transactions, the name of the former Provincial Treasurer, Hon. Peter Smith, was brought into evidence last night in connection with the disbursements of profits on Provincial business.

In delving into the Home Bank bond dealings with the Province and the much discussed one per cent. commissions paid to persons to influence Toronto and the Province of Ontario deposits, Auditor G. T. Clarkson stated in evidence that there had apparently existed a $15,000 cheque, made payable to Hon. Peter Smith, as Provincial Treasurer, in respect of profits on a $4,000,000 bond sale. No record had been found of this money reaching the Provincial coffers.

Although Mr. Clarkson produced the stub of the cheque he stated before the committee that he had been unable to find the cheque itself among his bank documents. He stated his conclusion that it had been "abstracted, because the cheques before and cheques after are there."

Police Called In.

Both Provincial Auditor Brown and Chief Accountant Douglas stated positively before the committee there was no record of that $15,000 ever coming to the Province. At midnight last night, when the committee arose, Provincial Treasurer Price was asked for a statement as to the evident dealings of the Cabinet earlier in the day with Provincial Police officials.

Mr. Price stated: "The Provincial Police have been called in on this. Further than that he would make no statement."

Of almost equally sensational nature was the evidence which the committee received regarding the commissions paid to persons to influence the deposits of Provincial and city funds in the Home Bank. There were a score of bank documents produced showing payments to F. H. Richardson and the late J. C. Mason.

The inference, said Mr. Clarkson, was that in one instance $13,500 had been paid for influencing the City of Toronto deposits in the bank and that $38,100 had been paid to influence Provincial deposits. In the case of the payments to Mr. Richardson, he said it was always Mr. Mason's instructions behind it, and in the case of payment to the late Mr. Mason; in respect of Provincial deposits it was made payable to Mason on instructions from Mason and taken out in legal tender, of which there would now be no trace. Ostensibly Mr. Clarkson said bank was paying 4 per Ontario and Toronto

SYNOPSIS OF A PROPOSED BYLAW

The Municipal Council of the Corporation of the City of Peterborough propose to pass a By-law entitled "A BY-LAW TO FIX THE ASSESSMENT OF THE CANADIAN GENERAL ELECTRIC COMPANY, LIMITED."

The purpose of this By-law is to fix the assessment of the said Company for a period of ten years from the first day of January, 1925, at $150,000.00, including business assessment, but excluding taxes and local improvements.

The By-law is to have no force or effect unless the said Company spend the sum of between $300,000.00 and $400,000.00 on building and equipment to be completed and finished before the first day of July, 1925, unless prevented by causes beyond the Company's control and in that event the building and equipment shall be completed within a reasonable time after the first day of July, 1925.

The assessment is fixed on the lands, premises, property, buildings, machinery, plant, fixtures, appliances and all other assessable property within the City of Peterborough of the said Company used for manufacturing purposes only, or which the said Company may hereafter own or occupy in connection with its business, and all additions to such building, machinery, plant, fixtures and appliances, but does not include any dwellings on the property or premises of the said Company.

It is also provided that if at any time the said Company should cease to carry on its manufacturing operations for a period of twelve consecutive months the fixed assessment shall cease and be of no force or effect.

TAKE NOTICE that the foregoing is a synopsis of a Proposed By-law of the Corporation of the City of Peterborough to be submitted to the votes of the Electors on the 23rd day of April, A.D., 1924, between the hours of Nine o'clock in the forenoon and Five o'clock in the afternoon at the following places:

HASTINGS AND THE DISTRICT

Miss Nellie Fife Died in the West — Personal Mention.

HASTINGS, April 1—The death took place at the home of her brother, James A. Fife, Edmonton, Alberta, of Miss Nellie Fife, eldest daughter of the late John Malcom Fife, at the age of seventy years.

Deceased spent the most of her life at the old homestead in Asphodel until fourteen years ago. In the fall of 1923 she went west to visit her brother, and had been in apparent good health when she was seized with pneumonia, and was ill two days when she died.

The surviving relatives are: Mrs. S. Wildman, Norwood, Ont.; Mrs. A. Hoare, Belleville; Mrs. Jno. Carter, of Westwood, and James A. Fife, of Edmonton, Alberta.

The funeral took place from the residence of her brother at Edmonton on Monday, March 31, 1924.

Miss Verna Hooper, of Campbellford, spent the week-end with friends in the village.

Mr. G. B. Stevenson was in Toronto on business recently.

Mr. W. Wills, of Cobourg, is the guest of Mr. and Mrs. W. J. Warner.

Mr. Allan Leckman, of Peterboro, was in Hastings on Monday.

Mrs. Edgar McKee spent the week-end with her husband in Muskoka.

Messrs. Redmond Walsh, Cecil Wave and William Whitred are leaving for Berea, Ohio, where they intend securing positions.

SHOT TO DEATH BANDIT LEADER.

The Band Is Known to Have Committed Thirty-Eight Armed Assaults.

By JOHN GRAUDENZ

MOSCOW, Mar. 31.—(United Press). —"Vanca of the Golden Tooth," noted bandit leader, has been shot to death, with twenty-seven members of his band. Fifty-four others have been arrested, while twenty-four members are still at large.

Vanca was commander-in-chief of the band of ninety men and sixteen women. Their operations extended from Moscow to the Crimea, and even to the Caucasus.

For two years the band defied the Government to detect and punish the members. The band is known to have committed thirty-four armed assaults, train and bank robberies, and four murders, and is suspected of hundreds of others.

One of the bandits was sniped off the running board of the motorcar of the British Trade Mission in the spring of 1923. Being disturbed by the police during an assault in one of Moscow's most frequented streets, he jumped on the running board of the mission's car, which was passing. He ordered the chauffeur to drive for his life, covering him with one revolver and the two inmates of the motorcar with another.

The police, who chased the motorcar in a truck, fired on the car, assuming it to be one of the bandit's own cars and wounded one member of the mission.

They might have got away with it much longer had they not added criminal assault to their other crimes. Women held up were assaulted "out of anger," one of the bandits told the court, "because they did not have any money, in spite of their flashy clothes."

Public indignation became so great that the police concentrated their attention on the band until the arrest and conviction of the ring-leaders, who were promptly shot.

Inauguration Day is a holiday in the District of Columbia only.

PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of Lydia E. Pinkham's Vegetable Compound

Brantford, Ont.—"I was always tired and the least exertion would put me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stooped over I could not get up without help, because of pain in my back. I did not sleep well and was nervous at the least noise. I keep house, but I was such a wreck that I could not sweep the floor nor wash the dishes without lying down afterwards. A friend living near me told me what Lydia E. Pinkham's Vegetable Compound had done for her so I began to take it. With the first bottle I felt brighter and got so I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I can truly say that your wonderful medicine cannot be beaten for putting health and vim into a woman."—Mrs. JAMES H. MACPHERSON, 309 Greenwich St., Brantford, Ont.

If you are suffering from a displacement, irregularities, backache, or any other form of female weakness write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women." Q.

THIRD ANNUAL HOLSTEIN SALE

Millbrook Man is President of the Club--Forty-Two Head Sold.

MILLBROOK, April 1.—The third annual sale of Holstein-Friesian cattle, under the auspices of the Durham County Holstein Club, of which W. Fred Fallis of Millbrook, is president, was held at Bowmanville recently, a large number of local and outside breeders being in attendance.

For the first time a pedigree expert was employed, James Caskey, of Madoc, filling the office. L. E. Franklin of Toronto, being the auctioneer. Forty-two head of cattle were offered for sale, including three young bull calves, and the total sales' receipts were nearly $6,000. Eliminating the calves, the average price received was $133.00., though nineteen cows brought $3,215, an average of $170.04 each. Altogether the prices were slightly under those of last year, but were considered satisfactory as many of the animals were young.

The highest price was paid by Messrs. Noble & Hambly, of Bronte Ont., who gave $375 and $265 for two cows consigned by R. R. Stevens of Bowmanville. A. J. Wilmott of Kingston, was the largest purchaser, buying fifteen head. W. C. Snowden of Bowmanville, is secretary-treasurer of the Durham County Club, and R. R. Stevens is sales' manager.

In view of the fact that dairy cattle, in which particular the Black and Whites excel, are rapidly becoming the popular type in Ontario, and indeed in Canada, and that one of more accredited herds are owned in this vicinity, it becomes interesting to note that the first herd of Holsteins in Canada west of Brockville, was established by the late Alfred Gifford, of Meaford, who passed away recently in his eighty-fifth year. Mr. Gifford was born in Clarke Township, Durham County his grandfather having been one of its pioneer settlers. His great-grandfather, a pioneer settler of Vermont State, learned from the French traders along the border of the rich wilderness of Canada lying to the north and was one of the first white men to travel along the north shore of Lake Ontario, this country being then under French rule. He journeyed on foot along the St. Lawrence and through the Ontario forest, skirting the lake shore, never once encountering another white man on the toilsome tramp. Crossing again at Niagara on his return journey, up on reaching his home he described to his sons the rich country through which he had travelled and several years afterwards they took up homesteads in what was later surveyed as Durham County, the section chosen being afterward named Clarke township.

IN MILLBROOK AND DISTRICT

Sale of Homemade Cooking--Death of Old Resident.

MILLBROOK, April 1.—In spite of the very unfavorable weather the sale of home-made baking held in Mr. C. Garside's store on Saturday, under the auspices of the "Golden Links" Mission Circle, of the Methodist church, proved quite successful. By the opening hour of three o'clock a goodly array of bread, tea biscuit, pies topped with whipped cream, and cakes of many varieties was displayed on the shelves and counter, and these found a ready sale though the icy condition of the pavements and the sleet storm, accompanied by thunder and lightning, made the out-of-doors anything but attractive and caused some fears lest there be not enough buyers abroad to dispose of all the tempting wares.

However even from the country both contributors and purchasers were present, and by shortly after six o'clock practically everything was sold. Probably the worthy object for which funds were being raised, the Circle trying in this way to help make up their annual contribution of fifty dollars to the salary of Miss E. C. Hawken made those who desired to help come out and give financial assistance though weather conditions were bad.

Mrs. J. L. Byam, superintendent of the Circle, Miss Marjorie Skitch, president, Mrs. F. Smith, and Mrs. McKnight, were among those who were in charge on Saturday. Total receipts were nearly $250.00 and some personal contributions previously promised are yet to come in. Mrs. McKnight was cashier at the sale. The Circle officers and members are deeply grateful to Mr. Garside for kindly giving the use of his store for the occasion.

The quarterly review conducted in the Methodist Sunday school on Sunday afternoon by the superintendent, Mr. W. Fred Fallis, was most comprehensive and helpful. The period covered was from Abraham to Solomon, and the series of slides used, most of them copied from famous paintings, were a decided aid in making the scenes and characters depicted more real, and fixing the facts related to them more firmly in the minds of teachers and scholars.

Mr. G. W. Sayles briefly took up the first ten of the series, and Mr. Fallis completed the review. There was a good attendance considering the state of the roads, and the quarterly reports were encouraging.

Jas. Saunders' Death.

The death of the late James Saunders in his 94th year, removes yet another of the oldest residents of Millbrook. For many years, probably as far back as many of those present resident in the village can remember, Jimmy Saunders, as he was locally called, was a familiar figure going up and down the streets.

Of late years, until growing infirmity compelled him to be cared for at the Cobourg Old Folks' Home, deceased had been a regular attendant at the Methodist church and Sunday school. The funeral took place from the W. E. Gillott undertaking parlors on Saturday, March 29th, at 2 p.m., Rev. S. T. Tucker having charge of the services. The pall-bearers were Messrs. John Gray, F. W. Weeks, William Gray, Alex. Hunter, William West and William Raper.

The immediate survivors are two daughters, Mrs. Hadden, of Toronto, and Mrs. McHaffey of Monaghan, and two sons, Wesley Saunders, of Millbrook, Thomas of South Monaghan and Robert of Peterboro.

Died: On Sunday, March 30, 1924, Andrew Lackie, in his 95th year. The funeral will take place from the residence of his nephew, Hamilton Lackie, Cavan, on Tuesday, April 1st, at 2 p.m. Interment in the Millerville cemetery.

Mr. Wilbert Belch of Cavan, has purchased the white brick house at the west end of the village belonging to the estate of the late W. Noble Stewart, and with his mother will shortly move into Millbrook to reside.

Mr. J. R. Eakins went to Toronto on Monday to accompany his mother, Mrs. S. Eakins, who has been spending the winter with her daughter, Mrs. Harry Armstrong, back to her home here.

Mr. Pue, who came from Toronto for the funeral of her aunt, the late Mrs. Jos. Richardson, returned to the city on Monday.

STRANGE VOTE OTTAWA HOUSE

Tommy Church Resolution Provided a Little Midnight Vaudeville For Politicians.

OTTAWA, April 1. — (Canadian Press).—The House of Commons was the scene at midnight of one of the strangest divisions ever recorded in the Canadian Parliament. Amid excitement and roars of laughter, it saw an absolutely new vote on either side of the House, and the Speaker called upon to give a casting vote. For hours the House had discussed the resolution by T. L. Church,—North Toronto, calling for a national policy on the coal supply. To the resolution both an amendment and sub-amendment had been moved, the sub-amendment referring the question to the House Committee on Mines and Minerals.

The House voted first on the sub-amendment and divided evenly—82 to 82. All Liberals voted for the sub-amendment, with the exception of Hance Logan (Cumberland), who voted against, the House breaking into roars of laughter when explained that he had voted with the Government members by mistake.

The Speaker was about to give his casting vote when an objection was raised to the vote cast in favor of the sub-amendment by R. E. Finn, Liberal member for Halifax. The point was taken that Mr. Finn was not in his seat when the question was put. The Speaker ruled that Mr. Finn's vote should be struck out. This left the division: Against 82, for 81.

Subsequently the main amendment was rejected by 112 to 52. But the resolution was only carried after a further amendment was adopted with the division.

LUDENDORFF WAS ONLY ONE FREED

MUNICH, April 1. — (United Press).—General Ludendorff was acquitted to-day of a charge of treason for his share in the embryonic beer cellar putsch of November, 1923.

Adolf Hitler, one of the eight other defendants, was found guilty and sentenced to five years' imprisonment.

Troops and special police kept the people moving on the streets and broke up all gatherings of two or more, fearful of a demonstration.

Word that Ludendorff had been freed was received with enthusiasm. The Reichswehr, marching with rifles on their shoulders and hand grenades stuffed in their belts, prevented an outburst, however. Of the defendants, Ludendorff was the only one completely exonerated. Hitler, together with Weber, Kriebel and Poehner, was found guilty of high treason. They were fined 200 gold marks and sentenced to five years in the fortress.

The whole affair had its comedy aspect, however. It was explained that these four would be freed on probation within six months, and they need not serve longer "if they behave themselves."

DELANEY WON IN THIRD.

BRIDGEPORT, Conn., April 1 (Canadian Press). — Jack Delaney, of Bridgeport, recent conqueror of Paul Berlenbach, scored a technical knockout over Leo Leonard of Wilkesbarre, Pa., in the third round of a scheduled twelve-round bout here last night.

GIBBONS BEAT LEE.

MEMPHIS, Tenn., April 1 (Canadian Press). — Tommy Gibbons, the St. Paul light heavyweight, scored a technical knockout over "Soldier" Lee of Chicago, in the third round of a scheduled eight-round bout here last night. Gibbons weighed 180 pounds and Lee 210.

WINTER VEGETABLES.

Keep winter vegetables in a cool, dark place piled up to exclude air. Keep green vegetables in the refrigerator or some other cool place, until they are used.

STRIBLING WINS FIGHT ON POINTS BUT NOT LAURELS

The Young College Student Fought a Great Battle and Outpointed McTigue All the Way Through.

NEWARK, N.J., April 1 (Canadian Press). — William L. (Young) Stribling, the Georgia schoolboy boxer, battered his way to a spectacular victory last night over Mike McTigue, the world's light heavyweight champion, but his youthful eagerness cost him a golden chance to lift the coveted crown with his triumph.

A record crowd of nearly 15,000 in the First Regiment Armoury saw the Georgia youngster decisively outpoint his veteran rival from start to finish, and have the champion on the verge of a knockout in the tenth round, but McTigue weathered the storm.

Under the New Jersey, no-decision laws the championship cannot change hand except by a foul or a knockout, and when McTigue was on his feet at the end of the twefth and final round, his crown, though at a disjointed angle, remained on his head.

Stribling boxed the most sensational and determined battle of his career. He won at least eleven of the twelve rounds in the opinion of the majority of newspapermen.

In the tenth round Stribling came within the proverbial eyelash of winning the championship, at least nominally, by a knockout.

The challenger floored McTigue for the count of two with a terrific right to the jaw. In this round it required all the ring craft at McTigue's command to survive the trying situation produced by that wicked right driven home to the point of the chin by the challenger.

But McTigue clinched and retreated until his head cleared and escaped Stribling's frenied efforts to land the knockout.

McTigue was a disappointment as a champion. He fought defensively almost exclusively throughout the twelve rounds.

Paul Berlenbach, New York middleweight sensation, whose knockout streak was stopped recently by Jack Delaney, staged a comeback when he knocked out Harry Krohn, of Akron, Ohio, in the fourth round of a ten-round semi-final.

CABINET CALLS

(Continued from page 1.)

"Peter Smith never saw $15,000; if you can get him and ask him about it he won't know what you are talking about," was Hon. Manning Doherty's comment early this morning upon last night's evidence before the Public Accounts Committee. Mr. Doherty inferred that the cheque had been cashed at the bank by a party who kept the money.

All efforts to raise the former Provincial Treasurer at the Prince George, however, failed early this this morning. A message from the hotel was that Mr. Smith was there but would not answer the telephone.

TWO MEN MISSING.

Charles A. Matthews, suspended Deputy Provincial Treasurer, and his son-in-law by marriage, L. C. Mason, have left the city, it was learned at midnight, when the Provincial police officers started in search of them.

Chief Inspector William Greer of the Provincial police force has had subpoenas for them since Saturday, in connection with the disclosures under evidence before the Public Accounts Committee concerning the four-way "split" of profits made from bond sales to the province during the regime of Hon. Peter Smith.

Inspector Greer has not been able to locate the two men, and Inspector Hammond of the Provincial police, was detailed late last night to trace their whereabouts.

It was learned that within the last few days, according to the Provincial police, Mr. Matthews had been in conference with his former chief. His home has been under surveillance for several days.

Telephone call to Mr. Matthews' home, early this morning, was answered and Mr. Matthews was said to be too indisposed to come to the telephone.

Statement from Drury.

The Globe publishes the following this morning:

Dear Sir,— In your issue of Wednesday, March 26th, appeared report of speech made by me at Newmarket on the previous evening. This report would give the impression that I was repudiating responsibility for the Department of the Provincial Treasurer under Mr. Smith's administration.

My remarks, taken as a whole, did not justify this interpretation. What I did say was this, that I had and could have no knowledge of the transaction in question for which Mr. Smith and the officials of his department were responsible. I further said that I was responsible for Mr. Smith being in the Cabinet.

This responsibility I have neither the intimation or the desire to evade. When four years ago, I asked Mr. Smith to become my colleague, I believed him to be a man of honour. After four years of close contact with him I still hold this belief.

(Signed) E. C. DRURY.
Crown Hill, March 31st, 1924.

WORLD-WIDE POPULAR TENOR SOLOIST DIED

DETROIT, April 1.—(Canadian Press.)—Harold Jarvis, nationally known tenor soloist, died at his home here last night following an illness of ten weeks from heart trouble. He is survived by his widow and two sons, Murray and Harold Jr. Mr. Jarvis was a native of Toronto, and a son of Annie McLear, professional singer of that city. It was through his introduction of the song "Beautiful Isle of Somewhere" that Mr. Jarvis attained much of his world-wide popularity.

The moon's diameter is 2,160 miles.

TUESDAY, APRIL 1, 1924.

WATCHING IMMIGRATION.

The necessity of a close inspection of immigrants into Canada is shown by the case reported from Sudbury where a Finlander only a few weeks in the country, was sentenced to eight years in the penitentiary after having been found guilty of an outrage against a fourteen-year-old girl.

Saturday Night tells of a much more serious instance in which a prisoner with a foreign name in Toronto was found to have a father who was an ex-convict, a brother serving a five-year sentence in Kingston Penitentiary and two other brothers pupils of the School for the Deaf and Dumb at Belleville.

A little calculation will show that this family is costing the people of Canada a nice sum each year.

Immigration would be a losing proposition if foreigners of this type were numerous—and there is evidence that too many are in some way or other reaching this country.

Canada wants new citizens, it is true, but she doesn't want men who in a week or two assault young girls or families whose members are soon in the penitentiary or taken care of in institutions such as the Deaf and Dumb School.

THE VOTERS' LIST.

City Clerk Armstrong in his address to the Rotary Club on Monday explained the amount of work involved each year in preparing the municipal voters' list, and stated that over 10,000 names have to be written out each year.

He didn't say so, although he must often think it, that much of this labour might just as well not be performed at all if there was any way of weeding out the dead-wood from the lists.

As a matter of fact at least 50 per cent. of this routine work is done unnecessarily, for the simple reason that 50 per cent. of the people on the lists usually neglect to exercise their franchise.

They would be the first to complain if their names were omitted, just as they are often the loudest kickers about the manner in which municipal affairs are administered and the most outspoken critics of the City Council and its work.

Each year the tedious operation of preparing a list from scratch, as long as is needed has to be gone through.

An efficiency expert would probably suggest that voters who fail two years in succession to use the franchise should be dropped from the next year's list.

The City Clerk would doubtless appreciate having the power to do so, but in the meantime the whole operation has to be carried out with voters and shirkers both included.

THE BELLS CAN WAIT.

The agitation being carried on in some quarters in Ottawa to have a peal of bells installed in the tower of the Parliament Buildings should receive scant attention from the Government.

There was a strong current of opposition to the finishing of the tower itself at the present time in view of the very evident desire of the people of this country for economy.

There are numerous voters in all parts of Canada who feel that this expenditure could easily have been deferred for a while.

To attempt to instal a "carillon" in the tower at the present time would be to intensify the opposition towards the whole project, and those who are agitating for this additional expenditure should be told plainly that the Government has no money at present to spend on bells, no matter how sweet they might sound to the people of Ottawa and how soothing they might be to the hard-working employees of the Civil Service.

There are many public works throughout the country that are being held up because of the necessity of economy somewhere.

It would be folly to continue to leave these works undone while money that might have been used on them was being thrown away on a set of bells for the Parliament Buildings, and there should be an announcement that there is no intention on the part of the Government to go ahead with the installation at present.

MANHOOD.

The other night the Hamilton Chamber of Commerce gave a banquet to a number of young men of the city, many excellent addresses being heard. The one upon which we desire to comment especially in this week's talk, says the Hamilton Spectator in an editorial for young people, is that of Mr. Westaway, who chose for his subject "Young Manhood," and showed how young people ought to set about the development of character. He spoke of several things which should not be done—enticing things which it is not easy for youth to resist, but which, nevertheless, if not resisted, are certain to prove hampering and injurious. Taking it for granted that our young readers are prepared to forgo the gay life, are eager to "make good," and willing to make the necessary effort and sacrifices to get on, there remain other conditions which must be fulfilled, and they are, perhaps the hardest and most discouraging of all demanding all the "manhood" at the command of the individual, be he young or old. They are the ability to persevere in spite of all obstacles and disappointments, the faithful holding on to an ideal, the steady pursuit of worthy objects. "Manhood" really consists in the determination and capacity to push forward whatever may happen.

It is well for young people to be reminded that their path will not be strewn with roses. Optimism is good, but realities have to be faced. Success comes by surmounting difficulties, and these difficulties are bound to crop up under the most favorable circumstances. The real test of manhood comes when the hard places are encountered. That is where the quitters are separated from the strong. And there are times when even the bravest find circumstances too hard for them, and they fail. Almost without exception, said Mr. Westaway, the men who have made their manhood outstanding have met with failure after failure. That is a curious fact, and an inspiring thought for the rest of us. These men, who are so clever, so masterful, so successful, have arrived at their position of eminence not by sudden leaps, but by slow, laborious progress, and oftentimes have had to retrace their steps and start all over again.

LET US HEAR FROM PETER SMITH.

Mr. Drury is not the only representative of the U.F.O. to turn upon the Hon. Peter Smith whose amazing methods of financing have brought him into the limelight.

Thus we find the official organ of the United Farmers, the Farmers' Sun, calling upon the former Treasurer for an explanation.

"The question that now calls for an answer is how it was that large sums were secured from the Provincial cash-box, with an ease paralleling that of Home Bank financing, while Hon. Peter Smith was supposed to be on guard. That question calls for an immediate answer. Fairness to Mr. Smith demands that he should be given full opportunity to show that his only fault was incompetence to fill the office to which he was called. Justice to the Farmer movement which gave Mr. Smith his opportunity for passing political eminence requires an unequivocal declaration for a thorough probe to the very bottom of an unsavory mess. That declaration should find prompt expression by Mr. Doherty, Leader of the Farm group in the Legislature."

Mr. Doherty, however, does not seem to share the Sun's anxiety for a prompt declaration from Mr. Smith, suggesting that that gentleman be called last.

Apparently the Public Accounts Committee is waiting for the ex-Treasurer to volunteer a statement.

The Examiner believes that the public interest would be best served if Mr. Smith were to be summoned by the committee without further delay to give his version of the bond deals and to be questioned as to his general administration of the financial affairs of the Province.

Mr. Doherty's plan may be good politics, but the majority of people care little or nothing about political advantage just now.

They have been astounded by the story of how easy it was to take honey out of the Provincial Treasury, and they want to hear what the man in charge has to say about it all.

Mr. Smith should be given the floor now.

PROBE THE HOME BANK.

The outstanding public interest in the whole malodorous Home Bank affair is the immediate and firm re-establishment of public confidence in our banks and banking system.

To say that public confidence has been shaken of late is merely to repeat what everybody knows. It began with the shocking revelations that followed the disappearance of the Merchants Banks. Until that occurred, most of us believed in our simplicity that such things could not happen in Canada. We had looked upon our banks as great, solid, granite structures as impregnable as a Norman "keep" in the Middle Ages.

Then the good old "Merchants" collapsed before our eyes.

We shall not go into the tragic and shameful story again, but it is the simple truth that from that moment the investing public looked on our banks with a new and apprehensive eye. "Bank stock" was believed to be much more hazardous as an investment than it had been before.

* * * *

Then the dramatic failure of the Home Bank injected quite another element into the situation. It very widely extended the area of apprehension.

It alarmed the depositor.

This was infinitely more serious. The depositor is the foundation of our whole banking system. If he is afraid to deposit, banks will have no money to lend, and business will be starved for capital. How badly the depositor has been scared and how nervous he has become was illustrated not so long ago by a "run" on a perfectly sound bank through the spreading of a "fool" rumor.

Consequently the first duty of Parliament in this affair is to reassure the depositor. Our people must be made to understand once more that they have a supremely good and safe banking system, infinitely sounder than the branchless banking system across the border.

* * * *

The only way to do this is to show that no bank can be wrecked as the Home Bank was—that no such network of serious charges can be flung over the ruins of any important financial institution in this country—without a full, fearless and prompt investigation being launched into the whole scandal, and stern justice being meted out to those found to be in fault.

The decision of Parliament not to start an investigation at Ottawa—as it infallibly would have been started at Washington—imposes upon the Government the responsibility of seeing that its Royal Commission gets to work without delay. It is utter nonsense to talk as if the whole enquiry could be comfortably postponed until after the present session has closed. The Parliamentary Committee on Banking and Commerce should have a lot of evidence secured by the Royal Commission in its hands for consideration long before the Governor-General comes down to prorogue both Houses.

The hands of the courts are tied by an appeal to the Privy Council. We may be very sure that the delays of the law will be invoked to the last shred possible. But nothing can stop the Royal Commission if it and its maker, the Ministry, mean business.

And if they do not mean business, they ought to hear from the country.—Montreal Star.

EDITORIAL NOTES AND COMMENT.

An investigation of the Drury administration of lands and forests would also seem to be in order.

It looks as if the Government in Britain may be wrecked by the element it represents, Labor troubles may eventually drive it from office.

In England just now life seems to be just one strike after another.

Builders estimate that Peterborough will have the busiest building season this year than since before the war. That is welcome news to everybody, as the benefit will be felt directly or indirectly by the whole community.

The hiking British harvesters will demand work or maintenance. Deportation is a third alternative that may suggest itself to the Government.

Wool, 23-28c pound.

CHICAGO GRAIN

CHICAGO, March 31.—All grain scored a material advance in price today after some uncertainty due to recent charges that the corn market had been subject to manipulation. Decrease of the visible supply both of corn and oats, and of wheat as well, aided the upturn of values. Wheat closed strong, 1-8c to 1 3-8c net higher, May $1.02 1-4 to $1.02 3-8, and July $1.03 5-8 to $1.03 3-4, with corn 7-8c to 1 1-8c up, and oats showing 5-8c to 7-8c rise. In provisions the outcome ranged from 2c decline to an equal gain.

Right from the start wheat displayed an upward tendency, but for quite a while failed to overcome the handicap resulting from nervousness in the corn market. However, belief gradually spread that price declines had about run their course and this belief received emphasis from reports that Italy had bought six million bushels of Canadian wheat in the last ten days. Then came announcement of 1,075,000 bushels falling off in the United States visible supply total, and with offerings light the wheat market readily ascended as the day neared the finish.

STERLING RATES

MONTREAL, March 31.—Sterling exchange rates were quoted here today: Demand 4.39; Cables 4.3938.

EGG MARKETS

OTTAWA, March 31.—Fresh receipts of eggs continue to increase fast. The market has been a little more steady during the past few days. Brokers are offering cars of prairie province eggs. Best bids 28 for extras delivered. Only one car of United States fresh eggs arrived during the week.

Toronto exchanges. Country shippers paying extras 22 to 24, firsts 20 to 22, seconds 18 and making sales extras 24 to 28, firsts 23 to 26, seconds 22 f.o.b.

Montreal egg market easier. Fresh extras 31 to 32, firsts 28 to 29.

CHICAGO LIVESTOCK

CHICAGO, March 31.— Cattle, receipts, 15,000; fairly active, uneven; beef steers, yearlings fat she stock, and bulls generally 10c to 25c higher; few plain light steers showing little advance; best matured steers in load lots averaging 1,500 pounds, $12.10; bulk steers and yearlings $8.50 and $10.50; few low-grade cows offered; bulk fat cows and heifers $5.50 and $7.50; bulk bologna bulls $4.40 and $4.85; vealers scarce steady; quality plain; bulk to packers $9.00 and $10.00; few sorted kind up to $11.50 and above; stockers and feeders slow, around steady.

Hogs, receipts 39,000; opened moderately active; mostly 15c to 20 higher; closing dull; big packers talking 10c lower; bulk good and choice 250 to 325 pound butchers $7.60 and $7.70; desirable 160 to 210 pound weight mostly $7.65 and $7.70; top $7.75; bulk better grades 140 to 150 pound average, $7.35 and $7.55; bulk packing sows $6.75 and $6.90; slaughter pigs strong to 25c higher; bulk good and choice strong weights $.50 and $7.00; estimated holdover $16,000.

Sheep, receipts 15,000; fat lambs strong to 25c higher; sheep strong; shearing lambs 10c to 15c higher; bulk fat wooled lambs $16.50 and $16.75; top $16.80; clipped $14.50 and $14.65; good and choice fat ewes $11.00 to $11.50; choice shear in lambs $16.1.

WINNIPEG GRAIN

WINNIPEG, March 31.—After opening about unchanged to day's wheat market exhibited signs of returning buoyancy and although the trade was not very active with only a light trade passing, values remained very steady throughout the session. Liverpool cables were firmer and there were indications that a better feeling is slowly developing. Export business over the week-end was light but advices from the seaboard suggest an enlarged demand from the United Kingdom and the comment for Canadian wheat and views are expressed that there will be no burdensome carry over, despite large stocks on hand at present. At the close May wheat improved 1 2c July 5-8c and October 7-8c. Unfavorable weather conditions in the spring wheat sections of the United [illegible] Chicago and the local market strength, and caused [illegible] covering based on uncertainty surrounding the market.

Poisoner Warring On Dogs Around Sudbury.

SUDBURY, April 1.—(Canadian Press)—No less than eleven dogs, some of them valuable have been poisoned on the streets of Sudbury. Two were found lying dead on Elm street Saturday morning. Not does the epidemic appear to be confined to Sudbury as the Soo, Blind River and Copperclift report similar occurences in the past few weeks. A post mortem performed on one of the most valuable dogs poisoned in Sudbury revealed a meat ball containing strychnine. Apparently there have been scattered about town by some maniac. The police are investigating.

ROSES FOR HON. GEO. P. GRAHAM

Birthday of Minister of Railways and Canals Recognized By Friends--Desk Banked With Bloom.

OTTAWA, April 1.—(Canadian Press)—Hon. George P. Graham's desk which stands just at the right of the Prime Minister in the House of Commons was literally covered with beautiful roses when the House met after dinner recess last evening. The floral display was in honor of the 65th birthday of the Minister of Railways and Canals, one of the veterans of the House of Commons. Mr. Graham had been out of town, and made his first appearance in the House shortly after eight o'clock. His entrance was marked by applause, and a number of his friends left their seats to shake hands with him. He then sat down behind the rampart of roses, which covered not only his desk but also that of Hon. E. M. MacDonald, Minister of National Defence, who sits next him. The flowers were sent by the Cabinet Ministers and members of the Liberal party, Sir Henry Thornton, the staff of the Department of Railways, and Hon. S. F. Tolmie, former Minister of Agriculture.

RUSSIAN RIVERS INUNDATE TOWNS

Thousands in Warsaw Flee From Their Homes as the Vistula Rises — The Niemen Threatens City of Kovno.

WARSAW, April 1.—(Canadian Press).—The Vistula River overflowed its banks here Monday, causing a flood such as has not been experienced here for ten years. Thousands of the inhabitants of the city and its suburbs were forced to flee from their homes. Great chunks of ice are floating in the river, which is still rising. The right bank has flooded to nearly two miles inland. Committee of citizens are being formed to rescue and aid the population.

THE NIEMEN'S THREAT.

KOVNO, Lithuania, April 1.—(Canadian Press).—Large numbers of people have been made homeless and great damage been caused by the overflow of the Niemen River at Mariampol, the town being inundated. The Niemen is still rising and Kovno itself is in danger. Steps are being taken by the authorities to safeguard the inhabitants.

MANSLAUGHTER CHARGE AGAINST TORONTO MAN

TORONTO, April 1.—(Canadian Press.—Through negligence of Clayton Johnson, Lappin Avenue, one armed war veteran employed at gate man, R G. Patterson and William G Wilson, salesmen of Durant Motors of Canada, lost their lives on the John street crossing of the Canadian Pacific Railway on the evening of March 21st according to a coroner's jury findings.

After it had heard twenty-five witnesses in a five hour session at the morgue yesterday afternoon, the jury, sitting under Chief Coroner George Graham, briefly reviewed the confusing stories of railway employees and eye witnesses, then decided that the responsibility for the accident rested upon the shoulders of Johnston.

Johnston was placed under arrest on a charge of manslaughter.

Building Permits In Ottawa Show Increase.

OTTAWA, April 1.—(Canadian Press).—A substantial advance in the estimated value of new building construction in Ottawa was shown during March, when fifty permits calling for new work having an estimated valuation of $139,333, were issued. This brings the total new construction for 1924 up to $240,333, being an advance of $90,133 over the corresponding period in 1923.

Are Known in All Parts of the Province

Quebec Lady Tells of Dodd's Kidney Pills

After suffering for several years from Kidney trouble Dame G. Gamelin finds relief in Dodd's Kidney Pills.

Hebertville, Que., March 31.—(Special)—No place appears to be too small to furnish at least one person who is prepared to say that she owes her health to the great Canadian Kidney Remedy. Dame G. Gamelin, a well known resident here, is one of them.

"My health has greatly improved since I have been taking your splendid pills. I have been suffering from Kidney trouble and after the first box of Dodd's Kidney Pills, I found relief. I continued taking them and am now able to work."

Dodds' Kidney Pills have become a family remedy all over the Province because people have tried them and found them good. They are purely and simply a Kidney remedy. They help Rheumatism, Lumbago, Diabetes, Lame Back, Heart Disease and urinary troubles because all of these are either Kidney diseases, or are caused by the Kidneys failing to do their work.

ARCHBISHOP RELEASED

ROME, April 1. — (Canadian Press).—Archbishop Zepliak, head of the Roman Catholic Church in Russia, who was sentenced to death by a Soviet tribunal in March of last year, has been released from prison, according to information received at the Vatican, and has left Moscow for Rome.

RICH, RED BLOOD BUILDS STRENGHTH AND NERVE POWER

To Renew Vitality We Must Enrich the Blood Which is the Driving Force of Life.

What gives the athlete his strength? Red blood. What drives the worker, and the business man, also, up the steep hill of success Red Blood. What makes the glowing, vital beauty of woman? Red Blood.

Rich, red blood is the supreme driving force of life. If our bodies no longer respond to Natures processes that should re-build strength and vitality, then we should enrich it, nourish it. Red blood feeds the body tissues, stimulates the nerves, makes our systems tingle with the pulsing of life.

If we lack strength and nerve power we should always think first of our blood. Discouraged or exhausted men and women should get from their druggist to-day a generous size bottle of Wincarnis. Start this home treatment at once. It cost less than ten cents a day. In twelve days see the improvement Wincarnis, the blood builder, brings. No need to worry. Wincarnis will give you new strength, vitality, nerve force.

Swiss Buy American Grain With Big Loan.

NEW YORK, April 1.—(Canadian Press).—A loan of $30,000,000 to the Government of Switzerland, which will be utilized for the purchase of wheat and cereals in the United States, was announced last night by J. P. Morgan and Company. In distributing the grain through an internal arrangement with private interests, the government will receive payment in Swiss francs. Sale of the loan started today by an offering of 22 year, 5½ per cent. bonds, at 97½, and interest, to yield the investor approximately 5½ per cent. Negotiations for the loan have been pending since last November.

"Child's Eyelids Inflamed Stuck Together and Bled"

Mr. E. P. Kimball, Entwhistle, Alta., writes:

"Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of seven months her eyes could not be opened after sleep without bleeding, a waxy discharge sticking the lids together and adhering with great tenacity. The child's grandmothers were consulted by mail, and both responded with a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain a further supply from Edmonton. Improvement was very marked from the first application. The waxy discharge was easier removed and did not reappear. Inflammation subsided and has not returned."

Dr. Chase's Ointment

60 cts. a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto

GAVE A COMEDY IN ENNISMORE

The three-act comedy, "My Irish Rose," was presented in the Irish Hall by the Amateur Dramatic Club, and each member of the cast, determined to make the play a success, threw himself into his part with the greatest zeal and abandon. Not a little of the success was due to the very natural farm scenery and to the numerous beautiful costumes.

Miss E. Sullivan, as Aunt Ann Mary McCormack, and her brother Colum (Mr. H. Flood), were typical, simple and unselfish Irish farmers, devoting their lives to the upbringing of their dead sister's child, Rose, against whose merry wiles neither was proof, though they tried to "raise her strictly." Half the parish, with the widow, Oonah Hannigan, as its mouthpiece was criticizing them for the liberties allowed to Rose; but we are inclined to think that the said Oonah was chiefly interested because, desirous of winning Colum since she had the special attractions of "a farm of her own and money in the bank," Miss M. Killeen made a very effective Oonah, in changing suddenly from the modest reserve of the widow to the hot-tempered, meddlesome village busy-body. Miss Agnes Cavanagh, as the Irish Rose, made a charming, vivacious Irish lass, and showed herself a true daughter of Erin, in alternating between smiles and tears. She gave eloquent expression as well to deeper emotions, in the climax of the play, when the happiness of her home was being undermined by Lady Agnes Barrickclow, a scheming Dublin society leader, who hesitated at nothing. Miss M. E. McDonald played this part with a great deal of spirit and animation. Mr. James Harrington was the Dublin artist, Maurice Fitzgerald (afterwards Sir Maurice), and showed himself equally at ease on his sketching tour or in his castle in the city. Mr. Michael Pepperdine, his legal adviser (Mr. J. Gifford), was also a polished man of the world. The maid, Pegeen Burke (Miss M. Harrington), in accompanying Rose to the castle, quickly laid aside her country bow and manners, and was very amusing in the city airs she assumed with the cap and ribbons. Worthy of admiration, too, was the quiet dignity and poise displayed by Miss M. Twomey, as Eileen, the sister of Maurice Fitzgerald. Particular mention must also be made of Bill Scollard, who added considerable humor to the part of Shawn McGilly, "the laziest man in Killare," and of Mr. John Harrington, as Mr. Archibald Pennywit, a wealthy English tourist, whose accent John imitated splendidly, "Bah jove." Mr. William Cavanagh, as Terence Creigan, Rose's brother, an outspoken young Irish patriot, was also all that could be desired.

Then, too, between the acts, were many good songs, two choruses by the girls of the Continuation Class, a duet by the Maguire twins, and a quaint old song by two tiny Misses Shanahan. Several Irish solos were also rendered by Mr. William Bell, who had to respond frequently to very enthusiastic applause. Mr. D. Crough, senior, in his monologue, "After Fifty Years," introduced the only pathetic note of the evening, while Mr. J. Howern played the fiddle in real old-time style for the St. Patrick's frolic which formed part of the play. The Ennismore orchestra also provided splendid music all evening.

Had a Weak Heart Was Very Nervous For Three Years

Miss Jessie Paterson, Zealandia, Sask., writes: "I wish to let you know how much good Milburn's Heart and Nerve Pills have done for me.

"For nearly three years I was very badly run down, had a weak heart, and was so nervous that sometimes I would almost faint away.

"I heard of many people who had recommended your Heart and Nerve Pills, so I decided to give them a trial. After I had used two boxes I found they had done me good, and after having taken five boxes I was completely relieved.

"I cannot recommend your Pills enough, and I would advise anyone having a weak heart or troubled with nervousness to use them."

Milburn's H. & N. Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

FERGUSON

(Continued from page 1.)

the government got a settlement for $28,000, the minimum that it would accept. "In view of the circumstances we made a reasonable settlement," said Mr. Bowman.

"The settlement was made in Mr. Arthur Roebuck's parlor, in Moore Park," said the Premier, "when the pistol was held at the head of Mr. Nicholson, and he was told that he would get no timber licenses unless he signed."

Raney Involved.—

W. C. Chamber (Wellington) said he thought the idea of the forced settlement was born and failed in the office of the Attorney General.

"If you never intended to ask them for two million why did you bill the company with it?" asked the Premier, who said that the former Attorney-General (Mr. Raney) got a hold of Roebuck."

"That's not true," said Mr. Raney.

"Will you say you didn't interfere?" asked the Premier.

"I don't think I did, but I was in touch," said Mr. Raney.

"Yes, I know all about it," returned the Premier. "When the former Attorney-General was chasing me around the stump I wasn't far behind him and at times I was ahead. We'll tell some more about the former government and show the rottenest state of affairs in the history of the province."

Mr. Raney—"Get on with the business—do something."

"Mr. Raney was the driving force of the whole thing and there was coercion on the company."

"I suppose there was coercion on the Shevlin-Clarke Company," interjected Mr. Raney.

"Yes, there was, and there was plain blackmail," replied the Premier. "Even when Nicholson refused to pay the $28,000, the government gave him four fresh townships in which to cut timber."

Mr. Raney again protested, drawing the remark from the Premier that it was difficult to get straight arguments into tortuous minds.

The Premier said that Mr. Roebuck had been engaged against the will of Mr. Bowman, then Minister of Lands, and had been thrust on him.

Didnt Get Value.

Premier Ferguson stated that the government under the U.F.O. administration had given certain companies timber at a price away below the actual value of the stand. Even after so doing they (the late government) had endeavored to collect further amounts."

"My belief is that Roebuck was retained against the personal inclination of Mr. Bowman," stated Premier Ferguson.

Mr. Raney: "No, he wasn't."

Premier Ferguson: "The member can speak for himself."

Mr. Bowman: "No, he was not."

"In coming to a settlement with the Nicholson Company, no one had any intention of going to the fullest extent of the law," stated Mr. Bowman.

Continuing his speech, Mr. Bowman stated that 2,1000,000 acres of timber land had been burned with fire last year. This represented two acres for every dollar spent in fire protection. He urged a greater expansion of fire protection, and complimented the government on the intended use of aircraft for this work.

HOUSE DEBATED

(Continued from page 1.)

been proved to be the best coal for use on marine vessels on the Pacific.

Hon. Charles H. Stewart, minister of the interior, said he would be delighted to see Canada completely independent in the matter of coal. Some day he hoped Canada would be in that position. The value of Alberta coal had been proved conclusively. It was a question of transportation. Alberta was able to compete successfully with any coal as far east as Winnipeg and Nova Scotia would compete as far west as Montreal and perhaps Ottawa. The central portion was the "acute fuel area." The bituminous coal fields in the United States close to the Canadian border would aways be a large factor in competition with the Dominion product.

Mr. Stewart referred to the success of the coking plant at Hamilton where satisfactory results were being obtained with the use of Nova Scotia coal.

Peat Experiments.

Mr. Stewart said that Nova Scotia coal could be laid down in Hamilton by water transportation at a cost of $6.00 a ton. Coke manufactured from it could be sold at $10 a ton plus transportation costs. Regarding the experiments with peat, Mr. Stewart said the government had decided that it should be carried on henceworth as a commercial proposition, although some further inquiries were to be made regarding the development of eelctric power at the peat bogs. Recent trials with a new machine had resulted in the successful briquetting of the low grade lignite fuels of Sasaktchewan, and these briquettes could be sold in competition with coal within a reasonable distance of the mouths of the mines.

Wages and Freight.

High wages in both coal mines and on railways were cited by John Pritchard (Progressive, North Wellington) as one of the causes for the difficulty of selling Canadian coal in Ontario and Quebec in competition with the United States product.

H. C. Hocken (Conservative, Toronto West) referred to the proposal that Canadian coal should be utilized more extensively as one that ought to bring about co-operation between the central provinces and the eastern and western provinces. He suggested that coking plants be established near the mines.

Hon. George P. Graham interjected that coke had to be manufactured in a place where its by-products could be used in order to be profitable.

Mr. Hocken replied that if necessary he thought Nova Scotia coal could be brought up to Ontario by water.

He was amazed that railway officials had stated they were unable to bring Alberta coal to the head of the lakes for $7 per ton while wheat could be brought from Calgary for $5 per ton. Alberta coal should be sold for $12 a ton or less at Toronto and other lake ports, said Mr. Hocken. He quoted a mine owner as saying that if the men could work all the year round coal could be bought at the mines for $1.75 per ton. Under the present conditions it was selling at $2.50 a ton. Shipping interests, mine owners and railways should co-operate to work out a plan along the lines of the resolution proposed by T. L. Church he said.

Federal Assistance.

E. J. Garland (Progressive, Bow River) stated that the situation would not be relieved by reducing the wages of the mine workers. The average earnings of employees in Alberta mines was $7.50 a day. He criticized the Federal Government for not giving more support to the experiments in regard to the distribution of Alberta coal in Eastern Canada.

Hon. Charles A. Stewart, Minister of the Interior, in reply said that the Federal Government had given a great deal of assistance through the mines branch of the Department of the Interior in the distribution of coal in the east.

Mr. Garland pointed out that a great market of the future for Alberta coal was in the United States and, if Canada was to put up tariff against coal from the United States, that country would likely retaliate by tariff against Alberta coal.

Mothers Prefer Cuticura Shampoos For Children

Regular shampoos with Cuticura Soap and hot water, preceded by touches of Cuticura Ointment to spots of dandruff and itching, keep the scalp clean and healthy. Proper care of the hair during childhood is the basis for healthy hair through life. Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, 344 St. Paul St., W., Montreal. Cuticura Soap shaves without mug.

PITTSBURGH STREETS FLOODED WITH WATER

PITTSBURG, March 31.—(Canadian Press)—Floor waters of the Monongahela and Allegheny Rivers swollen by rains and melted snow from the mountains of Western Pennsylvania and West Virginia were sweeping west ward through the Ohio Valley to-day. A stage of 41 feet was expected this afternoon at Wheeling which would submerge the district fronting the river bank. Streets in most of Pittsburg disrict bordering the rivers were inundated some to the depth of six or seven feet. Much damage was done to industrial plants and at many other operations will be stopped until repairs are made. The flood waters were receding to-day. Railroad transportation was greatly affected but service is being slowly restored.

POPULAR ON FARMS.

Illinois Agricultural Association reports that more than 20,000 families on farms in 73 counties of the state have receiving sets. The survey seems to show that between 7 and 10 per cent of the state's rural population have receiving sets.

HOLD THE RUHR UNTIL SECURE

Poincare to Insist On German Reparations, With Ruhr As Pledge Until Equitable Settlement — Premier Was Cooly Received.

PARIS, April 1.—(Canadian Press).—In his ministerial declaration to Parliament Monday, in presenting his re-constituted Cabinet, Premier Poincare insisted upon the payment of reparations by Germany, with France holding the Ruhr until an equitable settlement was made by guarantees of security from an unprovoked attack. As for the internal affairs of the country he spoke for safe and sane financial measures, application of the fiscal reforms just voted by Parliament, and stringent economies.

The Premier made reference to the role which he said the League of Nations was destined to play as arbitrator of the nation's international differences, but in his opinion intervention by the league was somewhat distant.

Will Set Example.

"When the treaty has been fully executed and we have obtained reparations, security and justice," he declared, "France, with maintenance of her independence as her only desire, will be the first to give an example of magnanimity and will help to develop the League of Nations, the idea and ideals of which she first conceived, and in which she has played the role of conciliator for the past four years."

France has the keenest desire to reach an agreement with her Allies and associates as soon as possible, he said, but there were two questions upon which her future depended, namely, reparations and security.

Chamber Hostile.

The declaration was received with almost open hostility by the Chamber and "respectful indifference by the Senate. In the Chamber he was interrupted repeatedly, while after he had concluded his statement in the Senate, Senator Duplantier, Radical, showed his hostility by introducing a resolution inviting the Government to begin its policy of economy by saving the cost of printing the declaration.

The balky temper of the Chamber was shown when a protracted, acrimonious debate developed over the voting of provisional credits for the devastated regions and for the programme of reconstruction, which it had been expected would be voted in short order. The credits, amounting to 3,029,000,000 francs, (about $582,000,000), which are recoverable through the payments for damages caused by the war in northern France, were finally passed. They is not working.

MAGIC BAKING POWDER

MADE IN CANADA

Magic Baking Powder is scientifically made and has never failed to give the maximum leavening efficiency. Because of this and the uniformly satisfactory results obtained by its use, we recommend it as Canada's perfect baking powder.

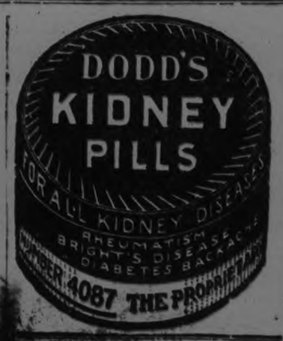
RICHARD HALL & SON LIMITED



EIGHT THOUSAND MINERS STRIKE

Every Indication That the Struggle Will Be Long Drawn Out.

CALGARY, Alta., April 1.—(Canadian Press.)—Eight thousand men in Alberta and British Columbia quit work last evening as a result of the failure to reach a wage agreement between them and the operators. The latter offered the present wage scale for one year, but with a reduction of $1.17 a day war bonus. This the miners' officials refused and demanded a renewal of the existing contract for three years.

All preparations have been maid at the mines for the strike which will begin and the only men that will be employed will be those who will be required for maintenance work.

The mines have only been running to about 35 per cent. of their capacity recently owing to the exceptionally mild weather, but even on this basis the loss of wages will be around $25,000 a day.

There is every indication that the struggle will be one of the longest drawn-out in the history of the provinces.

To-day not a miner will be at work at the Mountain Park, the Cadomin or the Luscar collieries.

The number of men affected by the close down in this field will total about 1,650.

At the stripping pits of the Coal Valley Mining Company, and the Sterling Collieries no cessation of work is anticipated at the present time. The workmen are organized under the steam shovel men's union, and have no affiliation with the United Mine Workers of America.

INDIGESTION GAS ON STOMACH PAINS AFTER MEALS

[illegible] people suffer terribly from gas on the stomach after every meal and are kept in constant misery.

For the past 44 years Burdock Blood Bitters has been bringing hope and joy to thousands suffering from various forms of stomach trouble, helping them to eat three square meals a day; helping them to eat anything they wish, without having to suffer for it after.

Mr. Fred. Nielson, Moose Jaw, Sask., writes: "All last summer I was troubled with stomach trouble and indigestion, and also gas on the stomach. I could not eat anything except some light food and even then I would be bothered with pains after each meal. I could not work a whole day without being done out. I had tried everything; doctors, medicines and pills, until I read about Burdock Blood Bitters. I have taken four bottles and it has [illegible] completely, restored me to health again."

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Fur Prices Steady At New York Auction.

NEW YORK, April 1.—(Canadian Press.)—Fur prices at the auction which began here Monday held [illegible] White and black wolf sold [illegible] per cent., while fox [illegible] fifteen per cent. and blue [illegible] heads. A reform of the calendar that would cause Easter to fall on a fixed day has frequently been proposed.

The yard and the pound are the only two independent standards for weights and measures.

BRITISH FISCAL YEAR'S SURPLUS FIFTY MILLIONS

Pounds Not Dollars — Britons Running Their Government Well Within Their Appropriations — Receipts Exceeded Estimates—Surplus Applied to National Debt.

New Budget Shortly.

LONDON, April 1.—(Canadian Press).—John Bull continues the excellent practice of living well within his means, a pre-war virtue not yet resumed by all of his European neighbors In the fiscal year ended last night his expenditures in running the government of the United Kingdom were nearly £50,000,000 less than his total income.

The official figures, as announced by the Exchequer, were: Revenue, £837,169,284; expenditures, £788,840,211.

In the previous fiscal year John Bull's books showed a surplus more than twice as large as the one revealed with no little pride last night. It was £101,500,000.

The slump in this year's surplus is almost entirely attributable to the reduction in the tax on the incomes of the British people, a tax which is still very high—from about twenty per cent. upwards.

The income and supertaxes imposed for the year ceased last night yielded £[illegible],000, a decrease of £49,074,000 from last year. Other items showed slight increases or decreases, but the lighter income tax burden explains almost by itself the fifty per cent. cut in the national surplus.

Further Reductions.

It is to be expected that as the Government has again effected a saving, a campaign will begin immediately for a still further reduction of taxes. The theatrical people have already asked that the amusement tax be lightened or eliminated. Whiskey distillers and brewers of beer are almost sure to ask for lighter taxes. There is little prospect that the Chancellor of the Exchequer, Philip Snowden, will grant their requests, however, as the beer tax was decreased last year, and there is a general feeling that the comfortable classes who can afford whiskey can afford to pay high for it, thereby helping the country to recover from the war.

Reduce National Debt.

Chancellor Snowdens' budget for the ensuing year will be presented in Parliament this month. It is not likely that there will be any extensive tax-cutting because of the past savings, for the surplus revealed last night will go, perhaps has already gone, to the reduction of the national debt.

The total revenue was £20,000,000 more than Stanley Baldwin, as Chancellor of the Exchequer, estimated a year ago. It was his government and the Laborites who followed, which succeeded in avoiding the expenditure of $28,000,000 of the originally estimated expenditures.

With the exception of the excess profits duties, which yielded absolutely not a penny, the land taxes and miscellaneous special receipts, the proceeds from all heads of the revenues surpassed the estimates. Compared with the previous year, the net decrease in revenue was £76,843,168, of which £49,074,000 represents the falling off in the income tax and supertax, while customs and excise yielded £12,390,000 less.

On the other hand, the corporations profits taxes yielded £4,036,- more, while the motor vehicles [illegible] increased £2,570,000, and telegrams and telephones £910,000.

Simple Application That Dissolves Blackheads

Squeezing and pinching to remove those unsightly blemishes is needless. There is one simple, safe, sure way to get them out, and that is to dissolve them. Get an ounce of peroxine powder from your druggist—sprinkle a little on a hot wet cloth—rub briskly over the blackheads for a few seconds—wash the parts, and every blackhead will be gone. Pinching and squeezing out blackheads make large pores, and you cannot get all of the blackheads out this way—while this simple application of peroxine powder and water dissolves every particle of them and leaves the skin and pores in their natural condition

ST. LOUIS TEAM AT LAW.

ST. LOUIS, Mo., March 31.— A temporary injunction preventing the St. Louis Americans from excluding the St. Louis Nationals from the use of Sportsman's Park as a ball ground, was returned by Circuit Judge Frey here to-day.

Issuance of the injunction will assure the Cardinals a place to play in St. Louis until the permanent hearing is held. It directs the landowners to refrain from closing the Cardinals' leasehold as had been requested by the Browns because of an over-due payment of rent.

FREIGHT EXCHANGE RATES

OTTAWA, April 1.—(Canadian Press).—The rate of exchange in connection with shipments of freight between points in Canada and the United States from April 1 to April 15 inclusive, will be two and one-quarter per cent., in accordance with an order issued by the Board of Railway Commissioners. The rate of surcharge on international freight shipments will be one per cent. During the same period the rate on international passenger business will be based on two per cent. exchange.

Plantol

An Exquisite Toilet Soap

The exquisite quality of Plantol has made it popular among particular people for over a quarter of a century. Now we've given it a dainty new shape and wrapper to sell at a very reasonable price.

WARSAW WOMEN'S INSTITUTE MEET

Mrs. William Lloyd Gave An Address on Australia —Peculiar Conditions.

WARSAW, Mar. 31.—At the last Women's Institute meeting, Mrs. Wm. C. Lloyd gave an address on Australia, where she spent seven years. In part, she spoke of the formation. It is the oldest land surface in the world, and has never been joined to any of the other continents since the stone age. The native plants and animals are peculiar to itself. There is no native horse nor cow; but there are other animals which take their place. The kangaroo family stand on their hind legs, and use their tail as a third leg. If a kangaroo has fought with a man or a dog, or any foe, and captured it, he carries it in his front feet and holds it under water until drowned, if he can get the water.

There is a duck-billed otter, which lays eggs, and suckles its young. There are many snakes, the cooler part of Australia having over 100 varieties of quite poisonous snakes. Most poisonous among them is the tiger snake. In the warmer portion of the country the snakes are larger, but crush rather than poison.

There are many varieties of ants, among them the white ant, which will destroy wood. It will eat the boards of a house, and just leave a thin piece of wood like paper where the paint or varnish is. You can poke your fingers through it. The woods are full of gay-colored parrots, cock-a-too's, a large pretty white bird with a green topknot, the laughing jackass, mag-pie, etc. The hairy emu is a peculiar Australian bird.

The native trees are mostly the gum (eucalyptus), in all its varieties, over three hundred; and the [illegible] also a gum, which is the national plant. These trees shed their bark instead of their leaves and the leaves hang edgeways instead of flat.

The centre is a vast desert. In many inland elevations the rain is very irregular. It may rain properly for years, and then go seven or 10 years and no rain.

Civilized population occupies a border around the western and eastern sides. In the south the desert goes directly to the great Australian bight. The north is inhabited by aborigines.

It is a wonderful country. The growth of any vegetation, native or imported, which will grow at all is wonderful. The soil is very fertile. Some things refuse to grow, because of what the soil lacks. The rivers are very short, the mountains are only high hills. The Koscinsko, 7,328 feet above the sea level, is the highest peak. The Murray River, with its main branch, the Darling, is the longest river, but in dry weather it is only a succession of mud-holes, and those lakes which we see marked in south Australia dry up to salt crusts. Children can sometimes go out and play on the river-bed of sand, the water having disappeared. Through South Australia there is a railroad joining Eastern and Western Australia in which, for a stretch of 430 miles, there is not a bridge, nor even a culvert built, and which has no [illegible] no tunnel, nor any exc[illegible] grading, no deviations to go around hills.

They cool water in hemp bags by evaporation. Though the days in summer are hot, the nights are always cool.

Before they build a school, they plant trees and have lovely shade and beautiful grounds, and hold school outdoors some times. In winter, this some times chilly, for the fires are only small. There is one fire-place in the corner of a large school-room.

Those on fruit farms, if they care for their trees and vines, can grow large and well-flavored oranges, lemons, peaches, pears, plums, prunes, apricots, grapes, almonds, etc. Potatoes and beets grow well in some places, in the southern (cooler) parts. In Victoria and New South Wales large tracts are equipped with good irrigation plants.

In Queensland sugar cane is grown, but sugar is expensive, as they do not import labor and Australia is "white." Sugar may not be imported; this is to aid the sugar grower, but it is lessening the fruit growing industry.

Australia is noted for its sheep ranches, 2,000 to 20,000 acres are average ranches. The wool is long and fine, and the mutton excellent.

Australia is rich in minerals, but many mines have had to close because the miners wanted more pay than could be paid and run the mine.

The government sets the wages, and even the meals. A man must have tea and biscuit on rising, then breakfast (almost a dinner) at 7 a.m.; at 10 a.m., tea and buns; at noon, dinner; between 3 and 4 p.m., tea and sweet buns; at 5, a third dinner, and refreshments upon retiring. The speaker had never boarded men, as she was beide a town, but had supplied drinks (lemonade), for which she had used about 300 pounds of sugar a year. She had her own lemons.

Drinking water is rain water, stored in large tanks, ordinarily 2,000 gallons each.

Water for other purposes is often obtained in the northern part of New South Wales, and the interior of Queensland from artesian wells, which are from 46 feet to over 4,000 feet deep. N. S. W. and Queensland has the greatest artesian basin in the world. The water from the deep wells is quite hot, from 120° F. to 190° F., and is often brackish. Stock has to become accustomed to it. It is often alkali.

The population in Australia centres in the cities.

$325 to Freeland Fund Given By Legislature.

TORONTO, April 1.—(Canadian Press)—The whips in the Legislature yesterday collected $325 from the members of the House for the widow of Herbert Freeland who was killed trying to save the lives of a woman and two children on Toronto streets. Hon. Thos. Crawford will present the money, to which every member contributed.

Harmless Means of Reducing Fat

Many fat people fear ordinary means for reducing their weight. Here is an extraordinary method. Extraordinary because while perfectly harmless, no dieting or exercise are necessary. Marmola Prescription Tablets are made exactly in accordance with the famous Marmola Prescription. You reduce steadily and easily, with no ill effects. Procure them from your druggist at one dollar for a case or send price direct to the Marmola Company, 4613 Woodward Avenue, Detroit, Mich.

New Italian Cruisers To Be Fastest Afloat.

LONDON, April 1.—(Canadian Press).—"Italy's new naval program provides for the laying down of a number of cruisers, each of 10,000 tons, carrying twelve 6-centimeter guns and far speedier than any existing cruisers," says a despatch to the Exchange Telegraph from Rome.

The immediate building of submarine chasers also is provided for in the program, which has been agreed upon by Premier Mussolini and his chiefs of the general staff, and a committee of admirals.

SMALL HATS.

Raffia embroidery is used effectively on the close turbans and [illegible] toque hats.

Watch your Skin!

It's up to you to look your best

Young girls, old girls, plain girls, prety girls—don't we all know those days before the mirror when, with a sigh, we turn away and say,

"Gosh—I do look plain!"

On those days when our skin looks bad and won't get right—our noses won't powder—our eyes are dull! We all know them. But we women watch their skin and at the first sign of something take the best remedy—a dose of

Beecham's Pills

They purify the blood, clear the skin, make you happy, bright and attractive. *Sold Everywhere in Canada.*

MARATHON ROUTE SECRET.

NEW YORK, March 31. — Protests against keeping secret until the day of the race the course for the Olympic Marathon in France this year has been lodged with the French Olympic committee by the International Amateur Athletic Federation. Advice to this effect has been received by the Amateur Athletic Union of the United States, which already has voiced its disapproval of the plan on the ground that there is nothing in the international rules providing for holding the event over a secret course.

RADIO QUESTIONNAIRE.

The idea of broadcasting questions by radio, for the listener to answer to himself, has become a popular weekly event for WJZ, New York. Questions of varied popular interest are asked, a thirty-second wait allows the listener to try answering it, and then the correct answer is broadcast.

Ladies' Fine Quality Lisle Hose

MUCH LESS THAN HALF-PRICE
MAKER'S SUBSTANDARDS

3 Pairs for 50c

Hose at actually less than seventeen cents a pair. You can scarcely believe it. They are here though—a fine Lisle Stocking with hardly a pair with more than a very slight imperfection. Colors are black, brown, fawn and navy.

BARGAIN ANNEX.

FIFTY DOZEN LADIES'

50c "Harvey Knit" Undervests, 39c Each

These are Harvey knit lisle-finish garments, coming in three styles, one of which is the popular opera top with strap shoulders. There are sizes from 36 to 40 in each style. One day, Wednesday, only, 39c each.

BARGAIN ANNEX.

BE SURE AND TAKE FULL ADVANTAGE OF WEDNESDAY'S HALF-PRICE SALE OF

Ladies' "Crown Brand" Silk Hose, 49c Pair

Every pair is "perfect" in every way. There are positively no "seconds" in this lot. An excellent quality Silk Stocking in the season's most popular colors of brown and grey. There is a good range of sizes from which to choose for first buyers. Wednesday, 49c pair.

STREET FLOOR AND BARGAIN ANNEX.

THESE WILL FAITHFULLY SERVE YOU

Mahogany Serving Trays at 98c

SELLING WEDNESDAY

The lowest price we have been able to offer in many a day. These are the useful size, 11 x 17 inches. They have attractive inlaid centre mats and strong metal handles. Only a limited quantity on hand, so we would advise an early selection.

THIRD FLOOR AND BARGAIN ANNEX.

WITH REAL SPRING COMES THIS

4-Ply Otonabee Scotch Fingering

29c ¼-LB. SKEIN
$1.10 LB.

You no doubt have used this Peterborough product, and having once done so have wisely decided to use no other, realizing as we have done that it is better than much higher priced Wools. It comes in eight very popular shades.

BARGAIN ANNEX.

FIVE PIECES ONLY OF GOOD QUALITY

Circular Pillow Cotton

SELLING IN THE BARGAIN ANNEX ON WEDNESDAY ONLY

33c Yard

This is an odd lot we were fortunate enough to procure, and it is priced considerably below the regular cost to sell quickly on Wednesday. The width is forty inches wide. Five pieces only.

BARGAIN ANNEX.

LADIES' 50c

Zimmerknit Balbriggan Bloomers 39c

A snug-fit Balbriggan Bloomer is the popular undergarment for early season wear. Sizes 38 and 40 in white and 38, 40, 42 and 44 in pink. A low price for brisk selling at 39c.

STREET FLOOR AND BARGAIN ANNEX.

NEW FRINGED ECRU LINEN

Stamped Cushion Slips and Scarfs 59c

The Cushions are "made-up" and the Scarfs are the usual length and width. They are especially attractive with new stamped designs. Both lines have fringed ends.

STREET FLOOR AND BARGAIN ANNEX.

English Dress Ginghams, 39c Yard

38 INCHES WIDE

Excellent quality English Ginghams in a selection of the season's smartest plaids. Note the very wide width of 38 inches, which will cut to such good advantage. Good assortment of designs and colorings, but only one piece of each.

BARGAIN ANNEX.

9 A.M. TO 10.30 A.M.—NINETY MINUTES ONLY
Yard-Wide

Art Drapery Chintz and Silkolines, 25c

Every piece is a full yard wide and in a most attractive assortment of designs and colorings. Occasionally a pattern is slightly "shaded," but really not enough to notice it. It will be wise to be on hand early. Ninety minutes only. No 'phone orders, please.

BARGAIN ANNEX ONLY.

4.30 P.M. TO 5.30 P.M.
One Hour's Brisk Selling of Good Quality

Full Bleached Canadian Sheeting

49c Yard

Just for one hour can you buy this real good quality Canadian Fully Bleached Sheeting at this price. It is double bed width and comes in a strong heavy weave. For one hour only, 49c.

No telephone orders, and not more than ten yards to the one buyer.

BARGAIN ANNEX.

MILL REMNANTS

Rockfast and Steelclad Shirtings, 35c Yard

BARGAIN ANNEX

You save ten cents on every yard you buy of this better quality Heavy Shirting. Black with white striped patterns. Lengths are from 10 to 20 yards, but we will readily cut any length you desire. Wednesday, 35c.

MILL REMNANTS IN THE BARGAIN ANNEX WEDNESDAY

White Flannelette

27 Inches Wide—19c Yard
34 Inches Wide—25c Yard

These "mill remnants" are all real good qualities. All-white, Canadian-made, coming in lengths of two to ten yards. They are divided in two lots for rush selling on Wednesday.

STREET FLOOR AND BARGAIN ANNEX.

ABOUT SEVEN HUNDRED YARDS

"Mill Shorts" Wash Goods, 15c Yard

SELLING IN THE BARGAIN ANNEX ON WEDNESDAY

By "Mill Shorts" we mean pieces under twenty yards. This clearing mill lot offers a big assortment of light, dark and medium colors. The materials are mostly Percales and Printed Crepes. This is a price offering that is truly remarkable. Come early. Wednesday, 15c.

BARGAIN ANNEX ONLY.

The GRESSMAN Company Limited
The Store of Smiling Service

Lakefield Correspondence

LAKEFIELD, April 1.—At the Sunday morning service in St. John's Church, Mrs. Williams (nee Agnes Wigg) of England sang a solo which was much appreciated by all who heard her. Mrs. Williams was born in Lakefield, the only daughter of the late P. S. Wigg and his first wife, Agnes Strickland. Mrs. Williams, as a young girl, visited her father here about eighteen years ago and there are many who still recall her beautiful voice and who were delighted to hear her rendition of that beautiful hymn of Horatius Bonar's "I heard the voice of Jesus Say" Although Mrs. Williams is a native of the village most of her life has been spent in England. She is a granddaughter of the late Robt A. Strickland and a great granddaughter of the late Col. Samuel Strickland, Lakefield's first settler.

In the absence of Rev. P. L. Jull the services in the Presbyterian Church on Sunday were conducted by Mr. Manning.

The stork visited Lakefield twice last week. On Tuesday a daughter arrived at the home of Mr. and Mrs. Richard Hunter and on Thursday the stork visited Mr. and Mrs. Ira Lennox leaving a daughter.

The funeral took place on Friday of Zelda Dunford, the ten month's old daughter of Mr. and Mrs. Wellington Dunford of Douro.

March which came in like a lamb and has been a beautiful month with an abundance of sunshine, is living up to its traditions by going out like a lion. Saturday a mild thunder storm, followed by a severe sleet storm and Sunday a snow storm made one know that March may be nearly gone but that winter has still a little "kick."

On Monday evening, April 7th a meeting will be held in the Council Chamber to re-organize the baseball club for the season. Those who are interested in this popular sport hope for a good attendance and a greater degree of enthusiasm than was seen last season.

The challenge issued by the Irish has never been taken up and it is believed that the Irish players must be the strong men of the Lakefield Club.

A special service will be held in the chapel of The Grove school on Thursday evening at 7.30 to which visitors are invited. Rev. Walter Cox of the parish church will be the preacher.

Miss Mildred Bailey of the University of Toronto spent the week-end in the village with her mother, Mrs. E. W. Bailey.

T. A. Simpson is visiting friends in Dummer.

E. A. Tanner was in Toronto last week on business for a few days.

Dr. C. M. Scott of Rutlan, India, was the guest of Rev. and Mrs. P. L. Jull last week and addressed the W.M.S. Tuesday afternoon on his work in India.

Miss Veronica Johnston of Peterboro Normal School, spent Saturday in the village with her parents, Capt. and Mrs. Jas. Johnston.

Llewellyn Douglas of Young's Point was in the village on Friday.

Harry Morrison of Washagami is visiting his father in the village.

Mrs. Williams, who has been visiting friends in Peterboro, spent the week-end in the village with Mrs. F. J. Tate.

Wilfred Murduff who spent the past winter at Point Anne returned to the village last week.

W. A. Nixon, who has been spending the past few weeks visiting his family in the village, has returned to Maine Centre.

E. W. Bailey is in Montreal attending the annual meeting of the Canada Cement Co. held there last week. Mr. Bailey will visit relations in Ottawa before returning home.

S. R. Sherin spent the week-end in Peterboro with friends.

Miss Mary Mackenzie was in Ottawa last week playing hockey with the Campbellford team against the Ottawa Alerts team.

D. W. Edwards of Toronto was in the village last week visiting friends.

F. M. Dela Fosse of Peterboro motored to the village on Friday and called on a number of friends.

Lawrence O'Neill of Peterboro spent the week-end in the village with friends.

Orlando Mowry, who has been in Pakesley for the past few months returned last week to the village.

A. Quinn who has been visiting his family in the village returned to Milnet last week.

Capt. P. J. Young of Young's was in the village on Wednesday en route from Toronto.

Miss K De La Rond of Niagara Falls was in the village on Friday.

Miss Gwendoline Simpson of Buckhorn was in the village for the week-end.

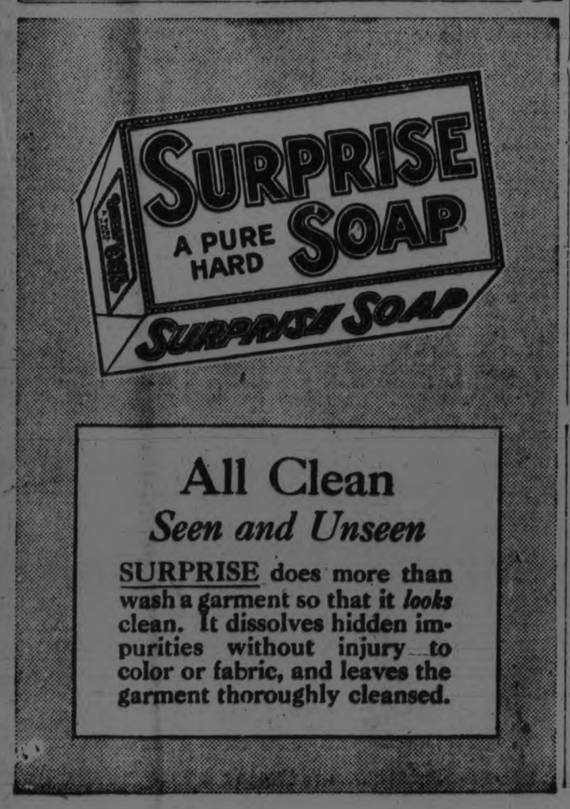
Miss Florence Mackenzie of Guelph is spending the week-end with her parents at The Grove.

Mrs. Marling was in Peterboro on Saturday with friends.

Mrs. G. J. Elmsley is confined to the house with a severe attack of pleurisy.

IMPROVES FLAVOR.

A bit of stick cinnamon added to the oatmeal improves the flavor immensely.



All Clean
Seen and Unseen

SURPRISE does more than wash a garment so that it *looks* clean. It dissolves hidden impurities without injury to color or fabric, and leaves the garment thoroughly cleansed.

Cobourg and District

COBOURG, March 31.—There is very little snow left in the vicinity of Cobourg and roads generally along the front are getting into good shape. Everything at present points to an earlier spring than last year. The ice banks along the shore of Lake Ontario have disappeared and the gulls have been back at the harbour for a fortnight, filling the early morning air with their noisy calls. Many of the sailors who spend the winter at their homes here have received summonses to join their boats about the first of April. This also is considerably earlier than last year.

Death of Mrs. S. A. Ash.

The funeral took place here yesterday of Mrs. Ash, wife of Mr. Samuel Allen Ash and mothers of Mrs. T. J. Hoskin, James street with whom she made her home. Mrs. Ash had a stroke three years ago and had been an invalid since. For more than six months before her passing she was practically helpless. Mrs. Ash was a daughter of the late Hiram McEvers of Hamilton township where she was born. She is survived by three daughters and a son, Mrs. Henry Fisher, Mrs. Mark Fisher, Cobourg; Mr. Allen Ash, Hamilton township and Mrs. T. J. Hoskin of Cobourg.

Death of Robert Duncan.

Mr. Robert Duncan, formerly of Roslin died recently at Aneroid, Sask., aged 66 years. He has been in the West for the last twelve years and had been ill since Christmas. Surviving him are his widow, before her marriage, Miss Lizzie Montgomery of Stirling, Ont. and three sisters, Mrs. Houston of Mansfield, Conn.; Mrs. Vermilyea, of Corbyville, and Mrs. James Montgomery of Stirling. Mr. Duncan was a member of the Presbyterian Church and a man who was generally highly esteemed.

The Late Mrs. John Trenear.

The death of Adeline Skelton, wife of the late John Trenear has removed one of the oldest residents of Salem, East Northumberland. A few weeks ago her home was destroyed by fire and she went to live with her daughter, Mrs. Jas. Bellamy. In her 93rd year Mrs. Trenear was remarkably active although for the past two years deprived of her sight. After her marriage to Mr. Trnear who died twelve years ago, they resided for more than a half a century at Little Lake. She was born at Iroquis, Ont. She is survived by her daughter, Mrs. Bellamy and by a son, C. W. Trenear who lived at the homestead, until the fire deprived them of their home there. Of a cheery, affable disposition Mrs. Trenear was well beloved.

Hockey At Trenton.

Hockey at Trenton was not finished until Wednesday evening the 26th, when the Junior O.H.A. team defeated an all star team of Trenton juveniles.

Death Of Trenton Man

Edward Puryea, who as far as is known, has no relatives in this locality, died on Tuesday at the home of Mr. Charles Nobles, Trenton. The funeral took place yestrday with solemn Requim Mass at St. Peter's Church there. His death was due to pneumonia.

Miss Olive S. Allen's Tested Recipes

No. 123

Spinach—A New Way

(Unusual and delicious way to prepare spinach, so that almost anyone will like it. Just the thing with steak or roast beef)

2 eggs
3 cupfuls milk
3 cupfuls rolled crackers
2 cupfuls cooked spinach
4 tablespoonfuls melted Crisco
salt

Beat the egg, add the milk, crackers and spinach. Stir in the melted Crisco and salt to taste. Bake in deep glass dish in a slow oven until fairly stiff. (About 1 hour.)

CRISCO
Made in Canada

For light, tender cakes
For digestible and flaky pastry
For crisp, digestible fried foods

ENGINEER BURIED.

LINDSAY, April 1.—(Canadian Press).—Two hundred railway men attended the funeral of the late Engineer "Ted" Higgs who was killed at Waubaushene. The I.O.O.F. Lodge 100 also turned out in large number. Higgs was buried on his 36th birthday. He was to have been married to a young lady at Kirkfield in June.

TASTY COMBINATION.

Candied orange peel and gingerbread are a good combination to serve with afternoon tea.

BETHANY NEWS

BETHANY, April 1.—A few farmers have tapped for the sap run and a small run is predicted on account of very little frost in the ground and the heavy snow still in the woods making it impossible to get around with the necessary equipment.

The roads in and around the vicinity are in a deplorable condition. Some places several feet of snow still remains while in others they are bare. Rev. Mr. Walker was unable to make the trip from Janetville. Rev. Mr. Dafoe and Rev. Fierheller were unable to get to their outside appointments on Sunday.

Mr. W. A. Jakeman was a visitor in Toronto on Wednesday.

Miss Mildred Sisson of Peterboro spent the week end with her parents, Mr. and Mrs. John Sisson.

Mrs. Carscadden and her sister, Miss Preston visited friends in Pontypool on Saturday.

Mr. and Mrs. C. Smith were Lindsay visitors on Wednesday.

Mr. and Mrs. H. Bigelow were business visitors in Peterboro on Saturday.

Miss L. Washington spent Saturday in Lindsay.

Messrs. Twigg and Staples shipped a carload of cattle to Toronto on Saturday.

Mrs. A. Driver was a Lindsay visitor on Saturday.

Mrs. V. Rowan of the 8th line Cavan spent Sunday with her son, Mrs. W. Rowan.

Mr. W. Rowan of Millbrook was a visitor in the village on Friday.

SUGAR HELPS.

A little sugar in mayonnaise or French dressing is always an improvement.

Internal cleanliness protects against disease

IT is but a step from those immediate results of constipation—headache, heaviness, loss of appetite—to serious disease. Such minor ailments are a warning that poisons from food waste are flooding your body. Keep clean internally.

Your Bath Goes Only Skin Deep

In constipation, say intestinal specialists, lies the primary cause of more than three-quarters of all illness including the gravest diseases of life.

Laxatives Aggravate Constipation

Lavatives and cathartics do not overcome constipation, says a noted authority, but by their continued use tend only to aggravate the condition and often lead to permanent injury.

Why Physicians Favor Lubrication

Medical science, through knowledge of the intestinal tract gained by X-ray observation, has found at last in *lubrication* a means of overcoming constipation. The gentle lubricant, Nujol, penetrates and softens the hard food waste and thus hastens its passage out of the body. Thus Nujol brings internal cleanliness.

Not a Medicine

Nujol is used in leading hospitals and is prescribed by physicians throughout the world. Nujol is not a medicine or laxative and cannot gripe. Like pure water it is harmless.

Get rid of constipation and avoid disease by adopting the habit of internal cleanliness. Take Nujol as regularly as you brush your teeth or wash your face. For sale by all druggists.

Nujol

The Brilliant Novelist of Modern Society

(Continued from Yesterday)

WHO'S WHO IN THE STORY

Prudence Page, a charming country girl, has fallen in love with

Bert Traymore, a fascinating philanderer, who is in no danger of losing his heart over any woman.

Janet Mercer, Prudence's dearest friend, an older woman, plain but clever, is in love with Will Ogilvie. She is masseuse to the delicate child of

Mrs. Vansittart, a pleasure-loving woman-of-the-world, owner of Winston Towers, a beautiful summer home, which she fills with visitors.

Virginia Dale, her ward, is a blase beauty, who counts Traymore among her many swains. She is genuinely interested in

Peter Armstrong, a brilliant young inventor, clever and ambitious, who has evinced considerable admiration for Prudence. Virginia finds nothing to admire in the country "chit," as she calls the girl.

Traymore is attempting to convince both Virginia and Prudence of his love, and Prudence is suffering deeply.

In an outburst to her father, Prudence tells him that she is not content with life on the farm.

Meeting Prudence on the road, Peter invites her to visit his laboratory. Prudence tells him of her desire to live a different sort of life, to be something else but a "dull, stupid country maid."

CHAPTER XXXIII.

An Accident.

"If you only knew," said Peter Armstrong, his handsome eyes looking directly into those of Prudence, and his voice low and vibrant with a note she had not heard before; "if you only knew the freshness, the inspiration that a girl like you can bring into a man's life, you would never dare to call yourself names again."

(Freshness? Inspiration? And Bjrt T'ymore had already tired of her! She could scarcely credit what Peter Armstrong said. She wanted desperately to believe it, and she knew he wasn't insincere, or a payer of idle, empty compliments, but—but——.)

Prudence's heart thrilled to the words. She told herself that this strange, electric excitement was because of Bert—that if one man, and he as famous as Peter Armstrong, found her an inspiration, there might be hope that Bert would feel that fascination, and return to her again.

The girl did not realize the full magnetism of Peter's personality. Her reaction had been to Peter, and not to the absent Bert. Miss Prudence had a good deal to learn about herself, if the truth be told.

She stood there, in the dusty laboratory, looking up at Peter with her pretty eyes, a picture sweet enough to warm the heart of any man.

Peter was human. This trusting child had filled his thoughts considerably of late, more than he yet fully realized. She was so different from the women he had known. So different from that one who once had hurt him terribly . . . and yet there was a curve of cheek, a wave of hair, the upward lift of long, black lashes . . . strangely reminiscent . . . it filled him with an agony of memory, and yet an odd, inexplicable hope. Could a man love a second time?

What words were these that she had dragged from him, almost against his will? 'Freshness'? 'Inspiration'? Yes, she was both these things. There was a dewiness about her like this sweet spring morning, an unconscious charm one couldn't quite define—but it was there.

Hardly realizing that he did it, he put out his hand and touched her wrist—the little wrist that was so fragile-looking and yet so capable.

"Prudence! We're—friends, aren't we?" The words seemed dragged from him.

She nodded dumbly. Heaven knew she needed a real friend . . . if Peter Armstrong meant it. (Did he, though?)

The man was thinking: "That lift of dark lashes—that turn of the head—how like to someone! But this girl hasn't got the selfishness, the cruelty——!"

Memory stirred within him, and the old ache he'd hoped was dead. Queer how the fact that she looked like that 'someone' drew him as though she were a magnet!

She had been in trouble, too. He knew what that suffering meant.

She spoke now, with an effort seeking to break the magic spell, and sound normal and natural and at ease.

"I—I didn't like you the first time I met you. But now, things are different. I—I—misjudged.

"About the Traymore incident?" Peter raised his brows. They were well-defined, and had a little air of breeding all their own, as though his ancestors had been aristocrats. "I was a bit summary in meting out justice to the fellow. But he was asking for it. And you know, when I flung him in the water, I didn't realize that you were there."

Prudence's heart had given a stab at the mention of Traymore's name. But, all the same, her spirits rose. She was going to fight this miserable feeling, and strive to be what Peter Armstrong thought she was.

"Oh, it wouldn't have made a scrap of difference if you had seen me. You're a cave-man," she said rallyingly.

"Perhaps," he smiled. "Anyhow, I could fight for the woman I loved—if that's what you mean."

Another thrill shot through the girl, and a flush rose to her smooth forehead. How different from Bert Traymore! She couldn't see him fighting over a woman. Hadn't he run off and left her on that occasion and deserted her on many others, when she most needed his help?

"I thought you were a woman-hater," said Prudence slowly.

And at that very moment a mocking laugh came from the region of the open door, and, turning quickly, the man and girl saw, silhouetted in the aperture, the slim, elegant figure of Virginia Dale, clad in a white, woolly skirt and jumper she had bought in a French watering-place of the ultra-fashionable kind, with a white felt hat in sailor shape set jauntily upon her golden locks, her face painted to a perfect peachiness, but so cleverly done that mere man would not detect it—no, not even in the bright spring sunlight that flooded Peter's workshop!

"I echo Miss Page's observation," she cried gaily, nodding in assumed bone hmic towards the pair. "Peter, you sinner, you pretended you didn't care to have women around the place. And now I've actually caught you—flirting!"

According to Virginia's creed, the one sure way to 'put a man off' another girl was to chaff him about her before the time was ripe for teasing. Of course, he wasn't serious yet about this Page chit, but she—Virginia—would get the good work in, in time.

Peter looked at her with a twinkle in his eyes.

"And who constituted you our chaperon?"

She hated that insinuation, giving her the weight of years.

And so at once she tried another tact, that of flattering interest in his work.

"Oh, do show me how the little wheels go round!" She skipped over to the central table, eyeing the friction discs. "What's that messy stuff, Peter?"

"Not an aid to beauty," he grinned. (Oh! had he recognised her after all on that unfortunate encounter at the Towers, when Virginia's face had worn its mask of mud? Up till now, she'd quite convinced herself he hadn't. But this hint pointed otherwise. Wretched little Lucia must have given the show away!)

"Do show me the experiment," she urged to hide her confusion.

"All right. It's quite simple. Mixing lubricants—so Now I start spinning the disc—then pour the mixture on——" Peter's hand shook a little with suppressed amusement at Virginia's antics, so that he poured too much of the greasy mixture on one of the little discs, and off the messy compound flew at a tangent, spattering the enthusiast's snow-white frock, white shoes and stockings, and even the new white hat and peach-blown complexion with a long-muddy trail!

To-morrow's Instalment Brings an Unexpected Meeting.
(To Be Continued.)

Thirteen Specials Carried Newcomers.

MONTREAL, April 1.—It required thirteen special trains from Halifax and St. John on Sunday to convey to this city 3,908 passengers and settlers who had reached these ports from five steamers. The larger number of the passengers were British settlers making for Ontario and points farther west. There were also Danish and Scandinavian families.

ADVENTURES OF THE TWINS

By Olive Roberts Barton

MRS. CUCKO IS OFFENDED

"Where are you, Mrs. Cuckoo? Aren't you at home?"

"Do climb up and see what is the matter with the town clock," begged Mister Fuzz-Wuzz of Doofunny Land.

"What's wrong with it?" asked Nancy.

"I dont' know, but the cuckoo hasn't been out for four hours and nobody knows the time. Mrs. Cut-Out said she didn't have the breakfast dishes done when her husband came home from lunch.

"Come on, Nancy, we'll borrow the ladder from the Humpty Dumpty Circus clown," said Nick.

So they got the ladder and up they went and peeped inside the cuckoo clock.

"Where are you, Mrs. Cuckoo? Aren't you at home?"

"Yes," answered the cuckoo from a dark corner. "But I'm mad."

"What are you mad about?" asked Nancy.

"Well, I'll tell you," said the cuckoo. "For years and year's I've had it all my own way and I've worked faithfully. But what happens? Instead of getting my reward, they put an imposter in my place to mock me. Every time I go out and call the hour, he jumps out of a little doo, too, and I know he's making fun of me."

"You must be crazy," said Nick. "Theer isn't another bird anywhere near. There isn't another bird in Doofunny Land except the cut-out parrot."

"Is it the parrot?" asked Nancy. "Parrots aren't any too polite and do mock people sometimes."

"No, it isn't the parrot!" declared the cuckoo. "She's silly and has gotten me mixed up a lot of times by her cackling, but she is a good-hearted soul. No, I'll tell you who it is. It's the dog that lives in that dog-house over there across the street."

"Why, that's Radio Rex," laughed Nancy. "He wouldn't hurt a flea—I mean he wouldn't hurt anything else but a flea, and I'm sure he wouldn't make fun of you."

"Wouldnt' he though!" exclaimed the cuckoo. "I'll just show you."

With that she came out of her dark corner and as it was exactly 5 o'clock, she called out loudly: "Cuckoo! Cuckoo! Cuckoo! Cuckoo! Cuckoo!"

Scarcely had her voice died away tha nout of his house sprang Radio Rex so suddenly that he nearly fell over.

"There! Didn't I tell you?" demanded the cuckoo. "He's had a house built almost exactly the shape of my clock and had the door made the same and everything. You can't tell me he isn't mocking me!"

"But he can't help it," said Nick. "He is made that way. He can't go back into his house alone. He has to wait until someone puts him there. And when anybody calls him he has to pop out whether he wants to or not. He thinks you are calling him when he hears your voice. eSe, I'll show you."

Nick climbed down and gently lifted Rex back into his little house. Then he called sharply, "Rex come out!"

And the little dog came hopping out so quickly he hit Nick in the nose.

"Well, well, well! I declare!" laughed the cuckoo. "I'm not mad any more, and I promise to tell the time promptly every hour. It will be fun to watch the little dog come out!"

What a difference it makes—the way we look at things, kiddies, doesn't it?

. . . . (To Be Continued) . . . .

GERMANY WISHES TO STAY OUT OF LEAGUE

BERLIN, April 1.—(Canadian Press).—Germany is not contemplating a fresh application for admission to the League of Nations at the present time, according to statements made in official circles to-day.

Denial was given to-day to a report from London to the effect that conversations were in progress between Premier MacDonald and Chancellor Marx with this end in view. The German attitude, it was said, was precisely formulated by Foreign Minister Stresemann in the course of his recent speech before the Reichtag, in which Dr. Stresemann declared that Germany was only prepared to enter a "universal league of nations" under conditions which assured her a voting franchise based on parity with other nations and that a reiteration of the war guilt admission contained in the Versailles Peace Treaty would not be exacted in connection with Germanys reception into the League.

354 IN ONE DEPARTMENT.

OTTAWA, April 1.—Canada's bureau of statistics employs 354 people at a total monthly salary of $33,010, a return tabled in the house Monday shows.

SON IS SEARCHING FOR MISSING DAD

Who Is Believed to Have Gone Through the Ice on the Richelieu River Last Monday.

MONTREAL, April 1.— (Canadian Press.)—Acting on rumors that Captain J. A. Douglas, living at Ile aux Sevres, six miles south of St. Hilaire had been drowned in the Richelieu river, his son Allan Douglas and Mayor Bruce F. Campbell, of St. Hilaire, went ot Ile aux Sevres and found that the captain's house and poultry farm on the island had been abandoned for several days.

The report of the disappearance came from Xiste Prefontaine, a farmer of a nearby village, St. Marc. Prefontaine said he had seen Captain Douglas crossing the ice on the Richelieu river last Monday at a point where it was unsafe. On the following Thursday Prefontaine went again to the island but could find no trace of the captain. eH did not report the disappearance until yesterday.

Mayor Campbell and Allan Douglas made every possible search for the captain but without result. It is presumed he fell through the ice and was drowned. Search will be continued to-morrow.

Cancel Mine Permits If Land Tax Unpaid.

TORONTO, April 1.—(Canadian Press).—Hon. W. F. Nickle, Attorney-General, introduced a bill in the legislature yesterday to uphold by legislation the action of the department of mines in cancelling mining permits on property on which the taxes were not paid. Hon. Chas. McCrea introduced a bill containing the amendments to the fish and game act as coming from the committee on that matter.

CHILDREN CRY FOR "CASTORIA"

A Harmless Substitute for Castor Oil, Paregoric, Drops and Soothing Syrups — No Narcotics!

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatuleney, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep without opiates.

The genuine bears signature of

Chas. H. Fletcher.

SALVATION ARMY BAND CONCERT

Paying his first visit since his election as Mayor, His Worship J. J. Turner was cordially welcomed at the Salvation Army Temple last evenin when the Temple Band rendered a first class programme of music to an appreciative audience. Owing to His Worship's official duties concert was well on before his arrival, Adjt. Smith very ably acting as chairman, but with very little difficulty His Worship took charge and piloted the proceedings, and in a few words assured the Salvation Army of his interest and support.

The playing of the Band was of high standard and Bandmaster F. W. Robinson is to be heartily congratulated on the efficiency of his Band. A new feature was introduced during the evening when the Male Voice Choir, composed of bandsmen very ably rendered 'Roll Along Jordan," for the first effort the choir very ably acquitted themselves;; also worthy of mention was the trio sung by three Danish bandmen who are members of the local combination, and a recital "The Veteran" by Bandsman Grieves Sr. who affectionately fondled an old brass cornet while telling the story of the bygone days and with an "old time flavour" concluded his story by conducting the Band. A solo by Bandsman Grieves Jr. was ably rendered and Band Sergt. Hill read a portion of Scripture. Bernard Smith very ably rendered two violin solos.

Adj. Smith proposed and R. C. Braund Esq., seconded a hearty vote of thanks to His Worship the Mayor for his presence. A visit to the Temple to hear the local musical combination is well worth while and the Temple Band is a credit to the city.

The programme follows:
Opening Song "Stand up for Jesus."
Prayer.
Introduction of Chairman.
Chairman's Remarks.
March "Seattle", Band.
Violin Solo "Iris", Bandsman Bernard Smith.
Saxaphone Selection, "Old Comrades' Saxaphone Selection.
Vocal Solo "Nazareth" Bandsman W. Grieves.
Selection "Conquering Faith" Band.
Recitation "The Veteran" Bandsman J. Grieves.
Vocal Selection "Roll Along Jordon", Male Voice Choir.
Selection "My Fortress" (by request) Band.
Vocal Trio. "Selected" Danish Trio.
Violin Solo "A Twilight Idyl" Bandsman Smith.
Saxaphone Selection 'Saxaphobia' Saxaphone Section.
Bible Reading, Band Sergt. R. Hill.
Concert March 'Departed Heroes' Band.
Hymn Tune "Hollingside", Band.
Doxology.

TWENTY EXPERTS ENTERED CONTEST

Results Will Be Known Later--Several Contests

Some twenty of the young typewriting experts of the city assembled at the Peterboro Business College on Saturday evening, to enter the Canadian Typewriting Championship Contest, in which this city, together with Toronto, Edmonton, Calgary, Vancouver, Victoria and Brockville, was taking part simultaneously. The results of these several contests, all organized under similar conditions, will be sent to Mr. Fred Jarrett, typeing expert of Toronto, who, acting for the Central Committee, will issue a statement on the returns, for comparison between the different centres, and awards of various trophies to the winners. President J. A. McKone supervised all arrangements for the local contest, and a committe of judges was composed of the following members: Mr. Joseph Wearing, Mr. Adrian Macdonald, Miss M. Baker, of the Baker Business College, Lindsay; Miss M. Elliott, of the P.C.I. commercial staff; Mrs. J. A. McKone and Miss Theresa Hurley, of the local Business College staff. A number of spectators gathered to watch the contest, which was done from new, unfamiliar matter, according to the terms of the contest. Mr. McKone is of the opinion that, under normal conditions, each of the competitors could have written at the rate of 20 to 25 words faster per minute, but the final results were nevertheless quite gratifying.

The contest, open to all typists wishing to take part, whether students of the Busines College or the Collegiate Institute, or engaged in actual office work, was divided into several sections. The contestants, with one exception, that of William Killaby of Lindsay, were local young ladies. Ten words were deducted from totals for each error made. In the Novice Class, which included students beginning instruction since August 1st, 1923, the following results were arrived at in a 15-minute test: William Killaby, Lindsay, 1061 words, 24 errors, making an average rate of 55.4 words per minute; Miss G. Lewis, 1039 words, 30 errors, 47.4 words per minute; Miss O. Lane, 947 words, 27 errors, 45.3 words per minute; Miss J. Edgeton, 903 words, 30 errors, 40.2 words per minute. Two other contestants came below this average.

In the fifteen-minute Intermediate Championship test, open to typists commencing study since August 1, 1922, the results were: Miss W. Evans, 1187 words, 23 errors, 63.8 words per minute; and Miss E. Brown 1024 words, 40 errors, 40.2 words per minute.

In the Inter-Provincial fifteen-minute contest, taking in advanced typists, the standing of the four taking part was: Miss G. Brownlee, 1417 words, 32 errors, 73.1 words per minute; Miss Edna Conner, 1338 words, 25 errors, 72.3 words per minute; Miss A. Davis, 1488 words, 48 errors, 67.2 words a minute; Miss E. Walker, 1292 words, 41 errors, 58.1 words per minute. In this contest the close standing of Miss Brownlee and Miss Connor necessitated reconsideration and a recount, which has been submitted to the contest judges in Toronto for a final decision.

A one-minute test showed the following results: Miss Ada Davis, 113 words, 1 error, making a total of 103 words in the minute; Miss Edna Conner, 95 words, 1 error, 85 words; Miss Winnie Evans, 85 words, 1 error, 73 words; Miss Elsie Walker, 84 words, 2 errors, 64 words, Miss Greta Brownlee, 103 words, 4 errors, 63 words per minute.

On interesting test, taken locally, and quite outside the general contests tests, was a five-minute Accuracy competition, in which Miss Ada Davis, who stood highest in the one-minute test, and came third in the Inter-provincial, stood first once once more. The results were as follows:

Miss Ada Davis, 525 words, with 3 errors, making a final total of 99 words per minute. Miss Greta Brownlee, 494 words, 3 errors, 93 words per minute; Miss Edna Conner, 460 words, 2 errors, 89 words per minute; Miss Minnie Evans, 437 words, 3 errors, 81.3 words per minute; Miss Flossie Brown, 333 words, 3 errors, 65.3 words per minute, and William Killaby, of Lindsay, 388 words, 7 errors, 65 words per minute.

MARBLES ARRIVED IN PETERBOROUGH

His Worship Mayor Turner Was Told Today That the Big Sack is Safely Here.

Mayor Turner was worried this morning when the Examiner reporter called on him. He said he was quite sure the C.G.E. by-law would pass, and everything else in the way of civic administration was progressing smoothly, but he didn't know whether the marbles he had promised the boys and the jacks for the girls would arrive in time for Saturday.

Just before noon, however, he called someone on the 'phone and found that the sack of 15,000 marbles had arrived in the city, and he promised to go this evening to look at them to see that they are all right.

When telling the boys and girls about His Worship's gift a few days ago a mistake was made in saying alleys would be given the girls, and in reality it's much better than that. The Mayor has a little bag of jacks for every girl in the city under twelve.

Arrangements have not yet been made for a place from which the presents will be distributed, but this will be announced in plenty of time.

NEWS OF BURNBRAE AND THE DISTRICT

Sunday Schools Re-open For the Remainder of Year.

BURNBRAE, April 1.—A severe electric storm swept over this district on Saturday evening. The home of Mr. John McKeown, 12 Concession Rawdon township was struck by lightening, it seemed to go through the whole house tearing plaster from the walls. It took a piece out of the back kitchen. The front veranda was somewhat damaged. Mr. McKeown was standing at the front door and was very badly shocked. He recovered after a little while and was able to be out as usual on Sunday.

The Sunday School of Seymour and Rylstone reopen next Sunday, Seymour at 10 a.m. Rylstone at 2 p.m. It is the custom in these congregations to close Sunday School for first three months of the year, as the roads are usually bad. The parents conduct family worship, when the lessons are studied in the home. In other words for three months the school is run on the lines of the Home Department. The Home Department report sheets and envelopes are used.

Mr. and Mrs. William Wallace are receiving congratulations on the birth of a son.

Mrs. James Linn of Rawdon, has been seriously ill for the past week and her condition is still very critical.

Mr. John Coutt and Miss Mabel Coutts have gone to Bancroft to visit Mr. George Coutts.

Mr. Thomas Wetherill has been confined to his home for the past few days with a very sore throat.

The snow storm here on Sunday night prevented a number of people in East Seymour from attending the Presbyterian service in Campbellford Sunday night, when Dr. Denoon of Toronto, was speaking on the question of Church Union, representing the cause of those who desire the union of the three negotiating churches

ORANGEMEN HAD A GOOD BANQUET

Reference to the Recent Convention Held in Peterborough -- The Toast List.

Peterboro County Orangemen held a banquet in Victoria Hall last night, with County Master E. I. Reid presiding, and a good attendance was registered to hear enthusiastic reports of the progress of the Order in this county.

The chairman referred to the recent successful convention of the Grand Orange Lodge in Peterboro. He thanked the ladies of Vimy Ridge L.O.B.A. 244 and Eastern Star L.O.B.A. 525 for the catering provided for the banquet.

With County Master Reid acting as toastmaster, the following toasts were given:

"The King," responded to by the singing of the National Anthem.

"Our City," proposed by R. W. Bro. William Boulton; responded to by His Worship Mayor Turner.

"Grand Lodge of British America," proposed by Rev. Bro. R. M. Patterson; responded to by M. W. Bro. M. J. O'Brien.

"Grand Lodge of Ontario East," proposed by Rev. Bro. J. D. Richardson; responded to by E. H. Brown, P.C.M., and E. F. Reid, C.M.

"Sister Lodges," proposed by J. J. Cunningham, D.C.M.; responded to by R. W. Bro. George Porter, G.M.R.B.C., R. W. Bro. Robert Hendry and R. W. Bro. W. E. Curry.

"The Ladies," proposed by R. W. Bro. McLaughlin; responded to by W. M. of L.O.B.A. 244 and 525.

MAKING MONEY MAKE MONEY

Brief but Important Lessons in Finance, Markets, Stocks, Bonds and Investments.

Is your family pocket-book helped out by the present slight reduction in living costs?

The department of labor has recently published figures which show that there is now a slight reduction in all living costs.

While the better part of these reductions affect the wholesale market more than the retail, still, there are some definite reductions that should bring increased affluence to the family provider.

Usually when there is a slight lowering in prices, the family spends the same and simply gets a little slack in the way of increased luxury or careless buying.

It is much more profitable to keep continual and careful watch on family purchases. Then in case of small reductions in cost, the lowering in price is noticed at once and the saving may be used for definite pleasures for investment.

The family buyer should follow the market exactly as does the buyer for a business house.

DUCHESS WILL TRY TO SAVE MURDERER

NEW YORK, April 1.—(Canadian Press).—Duchess De Richelieu left New York last night for Montreal in an effort to save Walter Muir, a New York boy, from the gallows. Muir, she said, before leaving, will be hung Friday unless her appeals to the Federal and Provincial officials are successful.

The Duchess was Miss Elinor Douglas Wise, and is a resident of New York. She and a group of others in New York have been interested in the trial of Muir, who claims that the shooting for which he was convicted was an accident growing out of a row in a roadhouse in Valleyfield on September 22 last year.

TRAM AND BUS MEN ON THE JOB TO-DAY

LONDON, April 1. — (United Press).—The tram and bus service was resumed to-day on full schedules in all parts of London, following the acceptance by the striking workers of the terms effected them last week.

Financial News and Views

Canadian Stock Exchange and Mines | New York Stock Exchange and Curb Prices

TO-DAY'S QUOTATIONS AND OPINION AND REVIEWS OF THE MARKETS.

NEW YORK, April 1.—The close of the first quarter altho not very buoyant started well on its spring expansion and with high ratios of operation in most industries but most particularly in iron and steel and in the motors, on the other hand bears at ultimate sources are hesitant and not inclined to order far ahead, because of this the backlog of forward business is not large and some curtailment in operations and softening of prices is to be noted. The market is a little calmer it has lost a little more than five points without a rally of importance, should spring buying develop with a rush the present irregularities would soon be straightened out.

Market Opinions

Hennera and Beane— Speculative fraternity for the most part is inclined to postpone committments on the constructive side until the possible result for the presidential conventions are more clearly outlined and the consequent effect on general business more accurately forecast for the present the oils and rails seem more desirable from a speculative stand point.

Walle and Steiglitz. Oils and sugars on any weakness should be bought.

Horn Blower and Weeks. Technical rally of sufficient extent to cancel one third of this decline would be a normal development and we expect it. Bear in mind however, that the start of a rally period is not taken for anything more than an interruption in a well defined downward trend.

The mining market was inclined to sell off further this morning from yesterday's close. Clifton Cons which was called to the board for the first time yesterday afternoon was somewhat weaker this morning and closed at 20 at noon.

The feature of the Toronto and Montreal boards was the decline in all the British Empire stocks on the announcement that the dividend on the first preferred had been discontinued. Such an announcement was not at all unlooked for in view of the annual statement.

French Francs also got up to a new high from their decline of ten days ago being quoted at $5.71 per hundred.

(Quotations Supplied by Arthur C. Hawley. 'Phone 186).

VOICE OF THE PEOPLE

To the Editor of The Examiner:

Sir,—I must commend Mr. A. Allison for his effort to prove that Prohibition is in line with creation and God's commandments. But Mr. Allison is making a mistake. He thinks, or seems to think, that an order forbidding a thing, followed by a penalty for doing it, is Prohibition. That is not the case at all. Certain things were pointed out, as in the case of the Garden of Eden, the Commandments, etc., as entailing a punishment if persisted in. The individual disobeying these commands (God's commands, not man's) may disobey the commands so given if he likes. The opportunity is given him. He must choose. And the drinking of alcohol is not one of them. But men get the idea that God's plan is no good. They say: "What is the use of letting a man do a thing and then punishing him afterwards?" That is only the old, familiar method of punishing a wrong-doer." The prohibitionist, accordingly, forbids the making of the opportunity. He would have forbidden the making of the Garden of Eden and of all the other sources of temptation. The prohibitionist forbids and punishes not the crime, not the sin, as God does, but demands that the opportunity be withheld. Can Mr. Allison not see the tremendous difference? Then, again, if God really inaugurated prohibition, as Mr. A. seems to think, did He fail to realize that He had not provided for alcohol? If Mr. A. will think for a moment he will see that the whole theory of Christianity depends upon the voluntary act of men and women. They are warned what the fate will be which they will draw upon themselves by their sins, but the opportunities are not prohibited. They are everywhere. Prohibition is just the opposite—in fact, the diametrically opposite. It seeks to remove the opportunity. Mr. Allison's mistake is a general one, I am aware, but it is a serious one, since it seeks to do that which God did not do, and which He quite apparently regards as a wholly improper method of making a true man and true woman. Can't Mr. Allison see that if a Being, powerful enough to extirpate and prohibit all the sources of temptation and evil, did not do so, it is sacrilege for men to attempt it? It is a contempt of God; and, further, if God could have done all that which prohibitionists believe in, why did He send His Son to death? Is not Mr. Allison's position that of entire disbelief in the Atonement, which was to give men an opportunity to repent of drunkenness and every other form of evil, and to be saved by their repentance and belief in Christ, not by attempting to blame the direct causes of their sin? Prohibition really the father of Modernism, which believes that the old way is no good, and that God has paid no attention to us, leaving it to man to reform himself, and that, too, not voluntarily, but by force.

But let us suppose, for a moment, that Mr. Allison is right, and that God undertook to prevent evils by prohibiting the very sources of temptation to do evil. Is it possible that because God does it, Mr. Allison thinks he can do it? Is it possible that Mr. A., looking round and seeing that God had left a loophole for alcohol, says: "Here! This won't do. We must prohibit alcohol." And that, too, in the fact of the fact that God Himself has made in Nature no less than forty thousand different kinds of alcohol! Does Mr. A. propose to punish God for that? Surely it is plain that God has actually "prohibited" nothing, but has forbidden the misdoing of many things amongst others getting drunk, but, nowhere, the reasonable consumption of alcohol. Now, if God has forbidden the making (prohibition) of anything, what is it? Let us have that first. And if men can create or make anything without the help of God, let us know that too. But—and here is where the difference come is—if any man misuses anything, or causes his brother to do so, woe to him. Such a condition of things must be, if we are to have the voluntary choice by humans of whether they will voluntarily do what is good or will do what is evil, the only possible condition of guilt. For men to undertake the ordering of the moral world is for them to set themselves up in the place of God, who, they say, has not proven equal to providing a proper way of handling the world. The prohibitionist would have prohibited the manufacture of every thing that can be misused, which would just about leave nothing at all. If he were not so tyrannical and so contemptuous of God's Plan, he would be amusing. Now for a last picture of the difference between God's Plan and Mr. Allison's plan. God says you may drink alcohol, but if you get drunk you cannot go to Heaven. Mr. Allison says that he will save that man in a different way, and will order it so that the man cannot even drink, and therefore cannot get drunk at all and will be sure of Heaven. Mr. Allison says it is wrong to drink even if one does not get drunk. Now, which is right—God or Mr. Allison?

NEW DOMINION MAY BE ESTABLISHED ON THIS SIDE ATLANTIC

OTTAWA, April 1. — (Canadian Press).—The peril of a new dominion being created within the Dominion of Canada is set forth in a petition which the people in the vicinity of Dauphin, Manitoba, have sent to their Progressive member, John W. Ward. They demand the construction of the Hudson Bay Railway, and state that if it is not completed by 1925, "we, the people," will carry the matter to the foot of the Throne, asking the King to divorce them from the rest of Canada.

POET LAUREATE LANDS.

HALIFAX, N. S., April 1.—(Canadian Press).—Among the passengers on the White Star liner Celtic, which called here Sunday, en route to New York, was Dr. Robert Bridges, Poet Laureate of England, and Mrs. Bridges. Dr. Bridges is on his way to the University of Michigan, as part of the arrangement for an exchange of professors and lecturers between the universities of England and the United States. He refused to talk to newspaper men here.

JUDGES' DECISION NOT POPULAR WITH CROWD LIKED JORDAN'S WORK

Billy Cutt of Rochester Was Picked As Winner Over Joe Jordan After Two Extra Rounds In One of Main Bouts at P.A.A.A. Smoker.

HALL WAS PACKED.

Billie Cutt of Rochester was awarded the decision over "Irish" Joe Jordan in one of the main bouts of the P.A.A.A. smoker held last night in the G.W.V.A. Hall. Jordan had the best of the first and second rounds and the first of the third while Cutt came back strong in the latter part of third round. Jordan should have been awarded the bout at the end of the third but the judges disagreed, one giving the bout to Cutt and the other two declared it a draw. An extra two minute round was called for and in this round Jordan was the aggressor most of the way and handed most of the punches, but the judges once more called the bout a draw and in the second two minute extra round Cutt had the better of the battle most of the way and at the finish the judges awarded an unearned bout to Cutt, much to the dissatisfaction of the large crowd that filled the hall to capacity.

Cutt fought a great battle but Jordan who is coming along fast packs a left punch that Cutt's guard was not strong enough to hold back and time after time this same old punch landed on the point of Cutt's jaw. The bout was the fastest seen this year in the G.W.V.A. Hall, and caused more excitement than all of the rest put together. Jordan is coming along very fast and in the last two bouts that he has appeared in he has put a wonderful battle but this decision was a keen disappointment to him.

Coombe Was Game.

The next bout of interest which was the main bout of the evening was fought between Willie Buff, the National Amateur Champion of the 135 pound class of United States and Lorne Coombe, a local boxer. Coombe put up a game fight but he was outclassed by the more experienced boxer who hit when he wanted to and where he wanted to. Coombe tried hard all during the bout but he only succeeded in landing a couple of clean cut punches which were far between each other. Buff started off fast but soon found that he was superior to Coombe and showed great sportsmanship by not cutting loose on Coombe. Instead he warded off Combe's healthy blows neatly and kept out of the road of Coombe's punches for the rest of the round.

Awarded to L. Minicola

In the 130 lb. class Ray Millard and Leonard Minicola, both local boxers put on a snappy exhibition of boxing that appealed to the fans. For three rounds both boxers put up a hard hitting battle, mingled with good defensive work on both parts. Millard was the aggressor most of the way in the first two rounds but Minicola came back strong in the third. The bout was satisfactorily declared a draw and an extra two minute round was called for, but Millard, whose both thumbs were out of joint refused to fight any more and the bout was awarded to Minicola.

A Fast Bout.

The Tony Minicola vs. Harvey Smith was a hair raiser from start to finish with both fighters giving all they had in an effort to win the laurels. In the first two rounds Smith fought his best battle this year but his wind began to tell in the third round and Minicola seeing this kept pushing the fight and when the round ended he made enough points to make the bout a draw. George Graham, referee, announced that both boys had put up a good game fight and that there was no use having them go an extra round so the bout was left as a draw.

Menzies Showed Form.

Harold Menzies a new boxer in the P.A.A.A. circles made a great showing last night against Des Hunt in the 126 lb. class. Menzies was the aggressor most of the fight that was awarded to him in the second when he staged a technical knockout over Hunt. He is a lad that is full of gameness and he has a pair of dukes that pack a wicked punch. Hunt has been fighting all winter but he was badly beaten in the second round when Menzies cut loose on him. In the bout between Mike Murray and Daniels both in the 108 class Daniels was awarded the decision after an extra two minute round was fought. Murray has appeared before in the squared circle against Lynch and has made a wonderful showing against this boy who is much larger all round than he. Murray did not appear to be able to hit as hard last night as before but he fought a game battle all the way through.

Spin Heffernan and Cole in the 90 lb. class put on a scrappy bout that gave the fans lots of excitement. Both boys were game all the way and when the third round ended the bout was declared a draw. An extra two minutes was fought in which Cole had the better part and was awarded the bout over Heffernan.

LINDSAY STILL CURLING

LINDSAY, April 1.—(Canadian Press).—The single rink championship of the Lindsay Curling Club was decided when Skip "Hec" Cuthbert defeated Skip Aldous by 20 to 3. It was the first night for ice following a three weeks' thaw. Cuthbert's rink won 15 games out of 20. His rink: J. Crimmons, Fred Hall, Jack Smale and R. H. Cuthbert (Skip).

It Pays to Advertise.

EXAMINER BALL CLUB ORGANIZE FOR SEASON

The Examiner Baseball Club held its annual meeting last night and plans were discussed for the coming season. The Examiner club intend joining the Mercantile League, if it is again operated this season.

The following officers were elected:

Honorary President — R. M. Glover.
President—R. A. Baker.
Vice-President—G. Long.
Secretary-Treasurer—R. Taylor.
Manager—H. Franks.
Captain—H. Dugan.
Coach—A. K. Whyte.
Executive Committee— G. J. Johnson, J. H. McCauley, M. Dunkley.

The prospects for the Examiner team for the coming season look exceedingly bright as a good live executive has been elected and several new players have been secured. Outside of this the Examiner have a good coach this year. Mr. Whyte who will coach the Examiner team this year has had lots of experience in this line having coached several teams in Montreal, one of them being a semi-pro aggregation. He will be a very valuable man in coaching the Examiners' staff of heavers, and will also be abie to impart some of his knowledge to the other members of the team.

OMEMEE ATHLETES ELECT OFFICERS

H. Lamb Retained As President of the Athletic Association--Will Arrange Empire Day Celebration.

OMEMEE, March 31.—The annual meeting of the Omemee Athletic Association was held on Friday evening last in the Council Chamber with the President, H. Lamb in the chair. The secretary S. J. Mackey read the minutes of the last meeting and showed that during the past year $227.00 had been received from the skating rink and $100 paid on the park mortage. A number of accounts were presented and ordered to be paid.

It was decided that the next meeting would be held on April 16 when arrangements will be made for baseball and football organization, and for the 24th of May celebration. The local clergymen, Rev. Black, Weir and Rowland were appointed a committee with power to add to their numbers, to have charge of the entertainment for 24th of May evening.

The election of officers for ensuing years resulted as follows.

President—H. Lamb.
Vice-President—R. Bradley.
Secretary—S. J. Mackey.
Treasurer—Horace Hill.
Auditors—L. A. Southworth and G. D. Gowans.

LAKEFIELD CLUB BACK ON THE ICE

Housecleaning Is Delayed Another Week in Lakefield—Results of Games

LAKEFIELD, March 31. — The curlers who had put away their brooms, or turned them over to their wives for the approaching orgy of house cleaning, reclaimed them on Saturday night, and returned to the rink, and had a good evening's sport. Ice No. 2 was in good condition, in fact better than it was for some time before the curling stopped, but ice No. 1 was entirely out of commission. Last year the curling lasted till Easter Monday, April 2nd, and with an occasional night, but on Saturday morning April 14th the last game of the season was played with good ice. This was of course a record which one hardly expects to see broken but this season another record has been made, as it is surely an unusual thing to curl during a thunderstorm, as was done on Saturday night.

On Saturday night two very exciting games of curling were played at the Lakefield rink.

The first game was between Skip W. G. Morrison's rink and Skip H. G. FitzGerald's rink, and was full of excitement, as the result was uncertain till the last stone was played.

The personnel was as follows:

B. Q. Dench	H. G. Armstrong
P. Spence	J. E. Galvin
R. J. Jory	D. H. Charlton
H. G. FitzGerald	W. G. Morrison
Sk.....11	Sk.....10

The second game was played at 9 o'clock, and the personnel was:

H. Kidd,	P. Spence
H. G. Armstrong	R. J. Jory
J. E. Galvin	Geo. Millar
D. H. Charlton	B. Q. Dench
Sk..... 6	Sk..... 9

JORDAN HANDING ONE.

Slow motion picture of young local boxer in action against Cutt of Rochester. He broke through the visitor's guard repeatedly.

Cambridge Vaulter

J. R. Higginson won the high jump in the Light Blues Sports Meet held at Cambridge, England, recently.

The NUT CRACKER BY JOE WILLIAMS

TAMPA, Fla., April 1.—One-Punch O'Goofty was insistent that he must spend his time here with Nick Altrock, noted comic of the Washington team.

"There's a funny bird for you," declared Mr. O'Goofty. "He can give me more laughs than both the Philadelphia teams put together."

Mr. Altrock greeted his old Bourbon companion in his characteristically humorous manner.

"Well, how's tricks?" asked Nick, without even cracking a smile.

Mr. O'Goofty, who is no part of a slow-wit himself, shot back promptly, "You'd be surprised!"

Well, when the laughter finally subsided, the two got down to cases—speaking in a strictly non-alcholic vein—and began to settle the affairs of the world.

Mr. O'Goofty reminded the waiter that he would have White Rock in his this time.

"What do you think of our new manager?" inquired Altrock.

"What new manager?"

"Harris."

"I thought he was your veteran manager. He's been with Griff three weeks now, hasn't he?"

Mr. O'Goofty has a delightfully subtle way. We recall that Weber and Fields were somewhat like him.

"Where do you think you'll finish?" resumed Mr. O'Goofty.

Mr. Altrock's lips tightened. A vast silence enveloped him and he made it unmistakably plain that this was not place to discuss religious beliefs.

"I hear Walter Johnson is going to quit. Who'll Griff get to take his place?"

"Alexander, Uhle, Ehmke, Pennock, and Rommell," answered the conservative Mr. Altrock.

The strains of an adjacent cabaret orchestra floated in on the warm spring night. A saxophone moaned "Mama Loves Papa."

"Terrible stuff!" growled the esthetic Mr. O'Goofty.

"Well, why don't you stick to water then?" demanded the sensible Mr. Altrock.

Farmers in the United States who cultivated cranberries las year earned an average of $280 an acre.

SOCCER NOTES

At the practice game on Saturday afternoon there was as many enthusiasts kicking the ball around as would make six good teams. The Vets mere out practicing at Central Park.

The question of "hogging" players was discussed last evening by the directors. Some of them criticized it a "spoil-sport" and was unfair to other teams where they were signing on many players who will never get a place on the team. If a player desires to transfer he will have to furnish necessary $2.00 fee. Think before you sign.

The committee on the league schedule will meet Thursday evening to draw up the games and first round ties.

In all probability the question of affiliation with the senior organization will be discussed and settled at the special annual meeting of the J. F. A. on Wednesday evening. It will be a step in the right direction and will be controlled by the junior body along with the Board of Directors.

Since the signing up forms were issued there has been many an adventure recorded by officials of various clubs. One fellow was hunted all over the city until he was secured; also as many as twenty-five forms being left at the boarding-houses for the prospective players to sign.

One local enthusiast, Mr. Oliver White of White's Cycles and Sports, Ltd., stated that he was quite willing to run a team of his own if he would get a little assistance. In fact, maybe, he will have all arrangements made before next meeting to enter his team. Get behind him, boys, for the sake of the sport.

TURF PRECEDENT.

LOUISVILLE, Ky., April 1 (Canadian Press). — The Kentucky Racing Commission has accepted the entries of H. Guy Bedwell, Maryland turf man, after they had been turned down by the New York Jockey Club, thereby establishing a precedent, turf authorities declared here yesterday.

BOXING LESSONS.

Want to learn the art of self-defense? Tune in on WJZ, New York, at 7:20 every Friday evening. An experiment is being conducted to see how effective such lessons could be.

AMENDMENTS ON O. B. A. AGENDA

Meeting of Ontario Baseball Moguls Will Be Held Saturday at Carls-Rite Hotel--Officers Re-elected By Acclamation.

President D. P. MacFarlane will reign over the amateur ball players for another year in the Province, for, at the annual meeting of the Ontario Baseball Association, to be held on Saturday at th Carls-Rite Hotel, he will be returned to office by acclamation.

First vice-president, W. J. Snyder, Hamilton; second vice-president, J. J. Solomon, Peterborough; secretary, M. B. Dulmage, Owen Sound; and treasurer, A. J. Walsh, Toronto, will also hold office for another year, they having been returned to office without an election.

Eleven names have been turned in for councillors. Four of these are to be elected and two to be appointed by the president.

Following is the list of nominations for office and the important amendments to the constitution and by-laws:

Nominations for Officers.

President, D. P. MacFarlane, Harriston; first vice-president, Wm. J. Snyder, Hamilton; second vice-president, J. J. Solomon, Peterborough; secretary, M. B. Dulmage, Owen Sound; treasurer, A. J. Walsh, Toronto; A. A. U. of C. governor, W. J. Smith, Toronto; executive committee, C. R. Penfold, Guelph; Geo. S. Martin, London; Hugh Maguire, St. Catharines; W. H. Farrell, Sudbury; John C Burns, Beaverton; R. G. Brophey, Windsor; J. Turner, Toronto; C. K. Jutten, Hamilton; W. C. LaMarsh, Chatham; John G. Nott, Oshawa.

Proposed Amendments.

The following are the proposed amendments to the constitution:

"That in all series where a third game is necessary, and where it is played on neutral ground, 10 cents a mile to both teams shall be paid from the gate receipts, and should there be any surplus it shall be divided in the usual manner between the association and the two teams competing."

"That in case of postponed games on account of rain and a team remaining in town over night, actual hotel expenses be guaranteed by the home team, instead of going back for the second trip."

"That all playing certificates be passed by the O.B.A.A. executive or by their appointee before being passed by the various leagues."

"That Clause 2 of the by-laws be amended as follows: (b) Leagues in this association shall be classed in six sections for the purpose of deciding which series they are entitled to play for the Ontario championship, viz., Senior, intermediate, junior, juvenile, midget and bantam. The executive shall have the power to make the classification.

Enforce Sunday Law.

"Any club or player who shall play under an assumed name, or who shall play on Sunday, shall be expelled from the association. The executive shall have no power to reinstate such club or player, and the club for which he has played shall be expelled.

(c) The age limit in the junior series is under 20 years on 1st May; juvenile under 18 years on 1st May; midget under 17 years on 1st May; bantam under 15 years on 1st May of each year.

"That the clause in the O.B.A.A. constitution regarding professional coaches be rescinded."

"That where a player's class is governed by an age limit and there is no team of his class in the place where he resides he may play with the nearest team of his own class." This is an amendment to By-law No. 2.

"That By-law No. 3, Section C, be amended by adding the word 'Senior' after the word 'games' in the first line, and adding the following clause —'Intermediate home clubs be allowed $50.00 for expenses and visiting clubs legitimate travelling and hotel expenses.'"

"That for the protection of baseball in the Nickel Belt League and in the interests of the O.B.A.A. that pressure should be brought to bear on all Northern Ontario Baseball Leagues to affiliate with the O.B.A.A., and that an O.B.A.A. representative be sent to Northern Ontario as soon as possible in an effort to accomplish this end."

"That the following clause be added to the constitution: "No player who has been professionalised, whether by this or any other recognised association, or who has become a professional under the conditions of the amateur definition, shall be eligible for re-instatement into this association upon any ground whatsoever, and the executive shall have no power to entertain an application for the re-instatement of a player expelled for any other cause must be considered at the annual meeting, and must be forwarded to the secretary of the association not later than two weeks before the date of the annual meeting."

ENGLISH TEAM CHOSEN.

LONDON, April 1 (Canadian Press Cable). — Members of the English Association football team which will meet Scotland in the International match at Wembley Park on 12th April are:

Taylor, Huddersfield; Smart, Aston Villa; Wadsworth, Huddersfield; Moss, Aston Villa; Spencer, Newcastle; Barton, Birmingham; Butler, Bolton; D. Jack, Bolton; Walker, Aston Villa; Chambers, Liverpool; and Tunstall, Sheffied United.

HIGH ROLLERS TOOK TWO FROM CRESCENTS

Last night in the City Ten Pin League at Solomon's Alleys the High Rollers won two out of three from the Crescents. Great rolling was a feature of this engagement.

Solomon was the high man of the evening with a nice score of 578. G. Green was next with 526. Dr. Green rolled 515 and Roberts and even 500. Solomon had the high single of 235.

Following are the scores:

Crescents—				
Pidgeon	187	148	175	510
Brooks	132	138	167	437
G. Green	213	132	182	527
O. Sharpe	167	122	149	438
J. C. Green	154	135	226	515
	853	675	899	2427
High Rollers—				
Hayes	155	166	170	491
Kearns	137	119	159	415
Miller	131	139	156	426
Roberts	151	136	213	500
Solomon	167	176	235	578
	741	736	933	2410

EXAMINER LEAGUE

The Job Room and the Linotype Room of the Examiner played a friendly match last night at Solomon's Alleys the former winning three straight. Good scores were set up and three interesting games resulted from their efforts.

RUTH HITS LONG ONE.

MOBILE, Ala., April 1 (Canadian Press). — The New York Yankees won their first exhibition game here yesterday afternoon from the Rochester International Club, 8 to 2. Babe Ruth hit a home run over the centre field fence, a distance of 436 feet. Ward and Hofmann, of the Yankees, also hit home runs.

OLD COUNTRY SOCCER GAMES

LONDON, April 1 (Canadian Press Cable). — Association football League games played yesterday resulted as follows:

Second Division.

Stockport 2, Clapton Orient 0.

Southern Section, Third Division.

Aberdare 2, Bristol Rovers 0.

Friendly Games.

Corinthians 4, Queen's Park R. I.

RUGBY.

LONDON, April 1 (Canadian Press Cable). — Following rugby games were played yesterday:

Rugby Union.

Coventry 0, Crose Keys 27.
Leicester 21, Nuneaton 5.
Southampton 6, Newport 3.

Northern Union.

Halifax 15, Hull Kingston 8.
Featherstone 10, Old Ham 27.

Rugby Friendly.

Devonport 16, St. Bart's 11.

BEN TURPIN TAKES TILDEN'S PLACE ON U. S. OLYMPIC TEAM

LOS ANGELES, April 1.—The announcement today that Benjamin H. Turpin III, celebrated buffoon of the films, will play for America in the Olympic tennis matches startled the sport world.

Turpin is to replace William Tilden II, national champion and one of the greatest players of all time. Tilden was rendered ineligible to compete by the recently adopted rule barring paid writers from amateur competition.

At first the tennis world was inclined to accept the statement that Turpin would be a member of the Olympic team as the work of a wag. Then it became known that Turpin has been playing tennis for more than 20 years, and is the holder of numerous trophies.

As is generally known Turpin is afflicted with crossed vision. This condition has netted him a fortune in the screen comics. It is also develops that his great skill as a tennis player is directly attributable to this same condition.

Turpin appears to be looking in one direction, then hits the ball in the opposite direction. This is said to have a most befuddling effect on the opposition and gives Turpin an unusual advantage. Turpin has been known to win set after set without having a single return made on his service.

It is reported that Turpin defeated Tilden decisively in a private match here some months ago when the national champion was visiting in Hollywood. Owing to the actor's native abhorrence for publicity the result of the match was not made public.

Turpin has not positively decided that he will have time to make the trip abroad. He is engaged currently in making a new dramatic spectacle, entitled "Home and Honor", and it is his wish to finish this before turning to tennis.

Turpin promises to announce definitely his intentions to officials of the United States Lawn Tennis Association the first of the month.

TURPIN ON THE COURTS

Yes, the first of the month is the first of April, isn't it? Darned these April Fool things anyway!

Any dealer can sell you an Exide Battery

When you need a battery, any service station or dealer in the Dominion can, under our new policy, sell you an Exide. We have recently announced to the trade our entire willingness to supply batteries to all.

Make sure you get a long-life Exide. Reasonable in first price, seldom out of order and lasting far beyond the time you expect a battery to give service, the Exide is the most economical battery you can buy. Be sure you get one. Exides are from $19.35 up, according to size and geographical location.

Use whatever service station renders you the best service and don't expect good service free. Demand good service and expect to pay for it. That is the modern, sensible way of doing business.

C.O.B.L. PRESIDENT PICKS OSHAWA TO WIN TITLE

Anticipates Successful Year--Peterboro, Kingston, Belleville and Oshawa Have Apparently Rounded Up Some Good Material -- Belleville Have Great Hopes in Keon, Who Will Succeed Williams.

President M. P. Duff of the Central Ontario Baseball League expresses the opinion that Oshawa is the team to beat for the championship this summer. He is also rather dubious as to Belleville's prospects on account of Williams' departure. The Lindsay Post carries the following interview with the league president: "Among the visitors to Lindsay in connection with the C.N.R. official visit was Mr. M. B. Duff, of Belleville, who this year holds the responsible position of president of the Central Ontario Baseball League.

"In conversation with a Post representative Mr. Duff stated that he looked for a very successful year for the league, as the four teams Belleville, Kingston, Peterboro and Oshawa) have apparently rounded some good material together. He at the same time expressed his regret that Lindsay had found it a matter of policy to drop out. Lindsay, he stated, had always been a good supporter of the league, and a drawing card.

"At the same time President Duff said he understood just why Lindsay and other towns had dropped out, that they were unable to carry on in face of the enormous expense of playing baseball today. He hoped for better conditions.

"Regarding the Belleville team he had very little to say, except that the Grand Trunks would make an effort to put in a strong team. They would suffer greatly by the loss of "Lefty" Williams, the Indian twirler, but had great hopes in Keon, the young twirler from Tweed.

"The president looks for Oshawa to be the team to beat this year for honors."

ST. THOMAS ACE IN BROOKLYN

Claimed He Will Make Regular Staff of the Brooklyn Nationals.

Kingston Whig.—There is little doubt in the minds of St. Thomas fans that Danny McPhee, noted southpaw, will make good with the Brooklyn Nationals. Despite the fact that while pitching for the Robins in an exhibition game he allowed six runs in three innings, there is every reason to believe that the West Lorner will make good. He is being personally coached by Manager Robinson who thinks the world of Danny. He has become a great favorite among the big-leaguers. There is also the fact that another recruit named Green was tried out the other day in an exhibition match and did worse than McPhee. Breaking into the big leagues cannot be accomplished in a day or even weeks and there is plenty of time for Danny to make the grade. It is a well-known fact that he has the goods and needs a little big league cultivation and the proper coaching.

The Brooklyn Dodger pitching staff was recruited, as every big league crew is, from the tall and uncut. But Uncle Robbie, rotund leader of the outfit seems to have found them where they grow unusually tall. Most of his flingers look down on six footers as little fellows.

Harry Shriver, for instance, stands a modest six foot four inches. Paul Schreiber is one inch shorter, due to a slight stoop he acquired looking for additions to his pitching repertoire.

Dazzy Vance is six feet one but doesn't crow about it when he's near Shriver. Young Nelson Green goes a fraction over six feet.

Alongside these skyscrapers little Danny McPhee, from St. Thomas, Ont., looks quite tiny although he boasts of about five feet eight inches altitude. But that doesn't worry Danny.

"Up where I came from I pitched against a lot of big fellows. When they were big I whittled 'em down to my size," he confided.

Having gotten rid of that remark he ducked half a dozen gloves and extra bats and then came back to tell a bit about himself.

McPhee hails from the town that John Gladstone Graney, the greatest waiter baseball ever knew, made famous. Daniel pitched for the St. Thomas team in the Ontario Baseball Association—a league composed of the strongest amateur teams in the Dominion. McPhee's team finished second in the league scramble last season. Danny losing the title game in a 14 inning battle with Galt.

"And the play that won the game for Galt was one for the book," says Dan.

"The last man up in the fourteenth smacked one for a double and tried to stretch it to three bases. The fielder hit him on the head with the ball and the runner dropped to the ground and acted as if he were unconscious. Then when he heard the crowd yelling that the ball ahd bounded into the stands he got up and ran like blazes for home. And he got away with it. Look that one over."

McPhee has a lot of smoke for a little fellow and a nice change of pace. He seems to have the physique to stand the gaff too. With the average pitching staff he wouldn't create the impression of diminutiveness he does with Robinson's sun flowers.

Despite his dig at the tall boys Daniel is a modest youth. He tells of an Indian pitcher that went from the Dominion to Rochester this spring that was a hummer in the Canadian circuit. His name is Williams. He's a lefthander and pitched for Belleville.

If he gets going good he may be the next "Big Indian" in the big show, opines McPhee.

NEW PROFESSIONAL TEAM IS PROPOSED IN OTTAWA

OTTAWA, April 1. — (Canadian Press).—Ottawa is to have a new professional hockey team to be known as "Superba", states the Journal this morning.

Plans have already been formulated by a coterie of hockey interests and an application will be made to the National Hockey League," the newspaper says. "If they cannot gain admittance they may be the means of forming a new group with players from Toronto, Granites and Soo Greyhounds as the Nucleus.

Mercantile Baseball League Organized.

The City Mercantile baseball magnets met last evening in the Chamber of Commerce to organize for the season. There were present a good number of enthusiasts, and four teams were represented, viz.: Westclox, Lock Works, Bankers and Examiner. The executive is desirous of obtaining two more teams, who should have their entry in before Monday, April 7. Next meeting in Cressman's Store, Monday, April 7, at 7 o'clock.

Office-bearers for the season: President, H. Cressman; Vice-President, O. De Graw; Sec. Vice-President, Fred. Whaley; Secy.-Treas., J. Ackman. Grounds Committee—Messrs. Ackman and Whalley.

PETER SMITH MET ASSOCIATES TODAY

Said He Had No Knowledge of Proceeds of Cheque.

TORONTO, April 1.—(Canadian Press).—Peter Smith, treasurer in the late Ontario Provincial Government, this morning described as "absolutely false" any suggestion that he had received a cheque, or any proceeds of a cheque, in connection with rebates or other affairs being investigated by the Public Accounts Committee of the Legislature. Mr. Smith's denial to-day followed the evidence given last night by G. T. Clarkson, liquidator of the Home Bank, before the committee.

Mr. Smith further declared that he had no knowledge of the commissions being paid to anybody by banks for obtaining Provincial Government deposits. So far as he knew, he said, all the banks paid the same rate of interest on Government deposits.

The former Provincial Treasurer, who was in conference early to-day with Messrs. F. C. Biggs and Manning Doherty, stated that he had not seen Charles Matthews, his former deputy, for many months and had no knowledge of his whereabouts.

Asked if it was possible that a cheque made out in his favor could be cashed by somebody else, Mr. Smith replied, "Anything is possible."

It is understood that Mr. Smith will appear before the Public Accounts Committee to-morrow to give evidence along the above line.

CAVAN LUMBER CAMP IS IDLE

Ground Too Muddy For Work — Operations Are Suspended — Methodist Church Buys Electric Light Plant.

CAVAN, March 30.—At Cody's lumber camp, L. Graham is not sawing at present as the ground has been too muddy. All the men have been allowed to go home until such time as the ground becomes firm enough to resume work. There are yet great piles of logs to be sawed into lumber.

Ladies' Aid.

The Ladies' Aid of Cavan Methodist Church will hold their April meeting at the home of Mrs. Harry Tinney next Thursday afternoon.

Cut Domestic Piles.

Wood bees, both with cross-cut and circular saws, are quite numerous at present. The majority of farmers had their wood supply drawn home, while the sleighing was good, and are now having it sawed.

Instal Electric Lights.

Cavan Methodist Church Trustee Board have given the contract for wiring the church for the electric lighting system to F. R. J. Macpherson Co. Ltd., Peterboro. The electric light plant was purchased from Fairbanks-Morse Co., Toronto.

Hearts of Oak.

The "Hearts of Oak" Tuxis Square of Cavan Methodist Church enjoyed a social time on Friday evening in the basement of the church. Invitations had been given by the members to other young people of the neighbourhood—boys and girls. The evening was spent in playing crokinole and and other games.

A VERY HIGH CLASS PICTURE AT ROYAL

"The Wanters" is a Picture You Should See—Only Pictures by Good Ones at Royal.

Probably one of the most pleasing pictures that has appeared in Peterborough this season was shown at the Royal last evening. The audience was not a very large one but there was more genuine appreciation shown than is usually the case, and to-night and to-morrow should see the theatre well filled with a most satisfied audience.

A thrill, a laugh, a tear and something to take home to think about! Motion pictures are essentially entertainment, but when they combine these eminent ingredients with a lesson that registers, they reach their greatest achievement and full the highest mission of the screen.

Such a completely-satisfying motion picture is "The Wanters." An arraignment of snobbishness, and a glorification of romance, it deals with life, gripping the attention through its true reflection of reality.

After making "The Dangerous Age" Director John M. Stahl found an unusualy high standard to live up to but he has more than met his obligations in "The Wanters."

Presented by Louis B. Mayer through first National, "The Wanters" sets out to dethrone old bromide that real happiness lies in poverty, and at the end of the picture this old story book theory is shattered, but so also is the popular belief that happiness necessarily goes with riches.

An all-star cast of unusual excellence interprets the roles of this fascinating drama. Marie Prevost, as the heroine, is seen as a "wanter" who in order to be surrounded by the luxuries she craves, takes a position as maid in the home of a wealthy New York family. The dramatic plot hinges around her marriage to a younger member of the family, their efforts to humiliate her, the parting of the lovers and their ultimate happy reunion in a powerful denouement.

The novelties preceding the feature presentation are worthy of more than passing mention. Lyman Howe's Hodge Podge has a little of everything. Two comedies supply the laughs, and a half hour western adds variety. This is as good a programme of pictures as we have seen in some time and the prices are reduced to 10 and 15c for matinees and 20 and 25c for evening performances.

YOUR GARDEN

SEEDS AND PLANTING

SEEDS AND PLANTING.

It is not advisable to plant too many kinds of vegetables in the small garden.

As a rule, cultivation of not more than 10 or 12 varieties in the average sized plot measuring 30 by 60 feet should be undertaken.

The time to plant is immediately following the last killing frost.

Nature will guide you to some extent in determining this matter. For, generally speaking, budding time is planting time.

Watch for signs of life on the trees and plants about your home.

But, amateur gardeners, especially those who will make their first attempt this year, had best consult a neighbor who is posted on the proper time to set out seed.

Too much stress cannot be laid on this matter. For in the long run it largely determines the success of your garden.

By carefully planning your garden and utilizing every available foot of space, it is possible to grow an almost unbelievable amount of produce on even a very small plot.

However, don't make the mistake common to so many beginners who show a tendency to go in too heavy for lettuce and radishes to the neglect of everything else.

Try for a happy medium in your garden. Aim for an assortment of standard produce that will be of practical value to the entire family and come within range of the various, individual appetites.

Beets, onions, lettuce, parsnips, carrots, tarnips, radishes, tomatoes, asparagus and artichokes in mild climates are best adapted to the small garden. Spinach is good, too.

In a limited sized plot don't attempt the cultivation of such vegetables as corn, squash, pumpkins, melons and similar plants in any quantity, as they take up too much room.

Buy only the best seeds, as they are cheapest in the long run.

Be sure the seeds aren't too old for if they are you uare liable to reap nothing but disappointment. Old seeds often fail to reproduce.

Don't buy seeds in wasteful quantities. Enough is sufficient. Let it go at that. But if any are left over, put them in a ventilated tin or glass container until needed for later planting.

TOMORROW: Speeding up. Use Cut

PAY WITHOUT WORK IS THE LAW IN ARGENTINE

Citizens Feel a Little Apprehensive About Their New Status.

(By Morgan Easterling, United Press Staff Correspondent).

BUENOS AIRES, April 1.—Salaries without work — a monetary millenium—came true in the Argentine to-day.

Under the new pensions law effective this morning, every one who has worked for 25 years for any one in any capacity is entitled to toil no more, and receive the full salary earned at the time as a life pension. There was no indication of a rush to take advantage of the new law, however, for there was some little doubt as to where the money is coming from. The law provides that workers who have not served their 25 years must contribute five per cent. of their salaries to the fund from which the pensions are to be paid.

Employers are also requested to pay five per cent. of their pay-rolls as for the first month. President Alcear on Saturday signed a degree making the new law effective April 1st. It applies to foreigners as well as natives. But as nothing has been done officially toward establishing an organization and setting up machinery to carry out the measure, uncharitable opponents of the Government declare the whole pensions plan a political manoeuvre to help win the coming elections.

Minister of Finance Molina announced to-day, however, that the collection would start at once, as well as the work of organizing the pensions paying machinery. He said the Government would welcome advice regarding modifications that might make its law more practical.

The plan as it stands is for everyone, except minors and domestic servants, to contribute five per cent. of their earnings into a general fund to be administered by the Government. When one reaches the end of 25 years of work, one receives automatically each month the salary one was earning at the time.

The general opinion to-day was that the law will not become actually effective for at least several months owing to its vagueness and lack of proper preliminary organization. Collections must be based upon accounts kept by employers in special books.

Labor unions and employers' organizations are opposing the law.

The average citizen finds it much more complicated than an income tax.

But everyone knows work has been abolished.

GRENFELL LABRADOR MISSION

An article, written by Dr. Grenfell, which appeared "Among the Deep Sea Fishers," for January last, gave a resume of the work done in Labrador during 1923. The following extracts may be of interest to readers who do not see the magazine:—

"The hospitals were all busier than they have ever been. Doctors Curtis, Padden, Knapp, Frost, Rafter, at the hospitals, all were busier than usual. The new Memorial Hospital at Twillingate is nearly finished. Doctor Charles Parsons, most unselfish of men, is consecrating his splendid talents to that greatly needed development, and he is now trying to raise the last few thousand dollars to enable him to equip the building before the opening day. The Government of Newfoundland gave $10,000 and will pay $10,000 per annum toward upkeep. Doctor Parsons expects beyond that to make the hospital self-supporting, and will also start social work in conjunction with our workers —as every model hospital has recognized how inevitably that is part of its responsibility and opportunity.

"The orphanage work has taken a big leap. No one can see the big new orphanage at St. Anthony at work, or the beautiful one in Sandwich Bay without wanting to thank God, and put his hand in his pocket. That is a literal fact. I had the pleasure of showing people around whom I felt were most unlikely to be practically interested, but not a single one went away without asking to be allowed to leave a memento, "to help out," as evidence of his aroused interest from what he saw.

Among great events for 1923 we should note the installation of two radio outfits generously sent us by friends. It is marvellous to sit down in Labrador and listen to the clergyman preaching in Boston, and to hear him better than from his own gallery; or to listen to a concert from Havana, Cuba. But a friend is working up that problem still more intensively, and intends, he says, next year to inaugurate a system that will enable us to talk from station to station, and also to keep in touch with the hospital steamer at sea."

Subscriptions to the Grenfell Mission will be received by The Examiner or may be sent to Mrs. F. M. Somerville, 16 Inverlea Street, Peterboro.

DEMAND PROSECUTION SIR RICHARD SQUIRES

ST. JOHN'S, Nfld., April 1. — (Canadian Press). — The announcement in his personal organ, the Daily Mail, to the effect that Sir Richard Squires had left St. John's for Halifax, en route to Toronto on a business trip, led to the publication by the Telegraph of a demand that Premier Warren have Sir Richard arrested at Halifax and returned here for trial, for offences of which the report of Commissioner Walker adjudged him guilty. Opposition papers are insistent in their demands for the prosecution of the ex-Premier. The Executive of the Board of Trade has also urged such action.

It is thought that the authorities may decide to initiate probes subsidiary to that recently conducted by Commissioner Walker, before proceeding o the legal action against any of the parties involved in charges of malfeasance. During the Walker investigation it developed that the accounts of the Controller's department gave no inkling as to the dispositon of a quarter of a million dollars worth of stock during the period under review.

LAWN BOWLING.

All old and new members of the Peterboro Lawn Bowling Club are urgently requested to attend the annual general meeting in the Chamber of Commerce Rooms tonight at 8 o'clock. Important business to be discussed. An early season is anticipated, and preliminaries may be discussed. Be there at 8 sharp.

THEATRES

AT THE ROYAL

SPLENDID GOWNS ARE SEEN IN "THE WANTERS"

Aside from its dramatic value, John M. Stahl's latest production, "The Wanters," to be presented by Louis B. Mayer through First National at the Royal Theatre today is of especial interest to women because of the stunning costumes worn.

It is a drama of society life with the plot hinging on the romantic elevation of a serving maid to a high place on the social register through marriage.

Such famous beauties as Marie Prevost, Norma Shearer and Gertrude Astor are among those who display the beautiful wardrobes that are a feature of this picture.

Misses Prevost, Shearer and Astor are three distinct types of femininity, and accordingly, the clothes each wears are entirely different in style. Marie Prevost's charming girlishness sets off admirably a bouffant-skirted frock of gray satin, opening over a petticoat of accordion pleated rose chiffon. A gray lace panel down the front with innumerable loops of satin, and a demure bodice with gray lace collar forming a small cape in the back and finished with many fluttering loops of gray satin edging the sleeves and down the front of the bodice, describes only one of the many costumes she wears.

Norma Shearer, whose beauty is Grecian in type, chooses the dignity of long lines, flowing panels and ingenious drapings, while Gertrude Astor's stately height permits her to wear the striking costumes belonging to the tall woman. One chic gown of black canton falls in narrow, slender lines to the ankles and is untrimmed except for heavy silk fringe which falls from the under part of the long tight sleeves, to the floor, a narrow crepe girdle confines the gown at the hips.

AT THE REGENT

VIOLA DANA TEAMS WITH RITA WEIMAN.

Star and Author Again United in Metro's "The Social Code."

Rita Weiman is the author of "The Social Code," the latest Metro production starring Viola Dana, which is playing at the Regent Theatre to-day. Miss Weiman also wrote "The Acquittal" and other plays which won her recognition as a dramatist for the stage; as well as "Footlights," a book of short stories of stage life, which has been received with highest acclaim and is currently enjoying a deservedly successful vogue.

Miss Weiman has also conducted a syndicated newspaper column widely read throughout the country, dealing with problems that concern women. Viola Dana's last previous Metro starring vehicle, "Roughed Lips," was also written by her.

The story of "The Social Code" relates to a butterfly who bares her soul to accomplish her sister's release from a web of compromising circumstances. This sacrifice she makes without hope of reward, yet it is the means of winning for her the man she loves. The action is dramatic throughout, with most of it transpiring in a crowded courtroom.

In "The Social Code" a notable cast appear in support of the star, including Malcolm McGregor, Huntly Gordon, Edna Flugarth, Cyril Chadwick, John Sainpolis and William Humphrey. Rex Taylor adapted Miss Weiman's story for the screen, Oscar Apfel directed and John Arnold photographed the production.

AT THE CAPITOL

There was a filled house at the Capitol Theatre last evening for "The Song of Love," with the popular Norma Talmadge as the heroine, and the two acts which opened the Capitol's new programme of vaudeville as an adjunct to its picture programme. There was plenty of applause for two snappy acts, which included an excellent musical team, Hope and Mantion, in an xylophone duett, a trumpet solo, and a combination of both that was brilliant and novel, and a second pair, in Maples and Pach, in comedy singing and dancing. As Angelo, the Italian flower-vendor, and his 'bride' companion, the latter have a line of gay patter, and the gentleman does some catchy eccentric dancing. There was plenty of applause for both bright acts, and lots of mirth met the comedy which precedes the feature, and depicts the struggles of a love-lorn youth and his charmer.

In "The Song of Love," Norma Talmadge has the role of an Arabian dancing girl, one of the Ouled Nail dancers of Ahamar, in the Sahara desert. The fair Norma is an incorrigible poseur. She occupies a large portion of the stage at most times, in a manner that detracts somewhat from the undeniable strength of her acting. In this picture, she has the role of a feminine sheik, capturing the man she wants and using every art to win him. In the gambling den of Chandra Lal, she waits for the savage Ramlika, leader of the fanatical Tuaregs of the desert, and here she meets Raymon Valverde, the secret service man, who plans to outwit the Arabs' uprising. Joseph Schildkraut, handsome and dark-eyed, plays this part to perfection.

Scenes from the Algerian Sahara are shown, with the warlike tribes riding to attack the small French colony of Ahamar. Intrigue and passion, love and revenue, jealousy and sacrifice, wind through the big picture, that has an interesting and unusual screening. Scenes in half light from the darkened Arabian village streets show the dignified Arabs with their flowing white garb, and hard riders on Arabian horses gallop over the white sands of the desert. The interiors are planned to accord with the general atmosphere. Noormahal, Rose of all the World, the dancing girl, preens herself in beautiful robes in the gambling den of Chandra Lal.

OBITUARY

WILLIAM HARTLEY.
The death occurred on Monday morning, March 24th, 1924, at the home of his daughter, Mrs. Walter Spera, 563 Lague street, Rochester, N.Y., of William Hartley, a former resident of Peterborough.
Mr. Hartley spent the first twenty years of his life in Peterborough, when he crossed the border and took up residence in Rochester, N. Y. For a number of years he carried on a building and contracting business, but retired about ten years ago.
His wife predeceased him nine years ago. He was a man well known and highly respected by all who knew him.
He leaves to mourn his loss two sons, William and Charles and one daughter, Mrs. Walter Spera, also one sister, Mrs. E. V. Gommingenger, all of Rochester, N.Y., and one brother, J. J. Hartley, of 234 Antrim street, Peterborough.

Society

Madame Bonnaure Walsh and the pupils in her French class were entertained on Friday afternoon last by Mrs. Wm. Blackwell at her home on Benson Avenue.

Mr. W. H. Brandon of Midland, spent the week end with his sister, Mrs. W. J. Routly, Charlbond Apartments.

Mrs. Henry Brandon of Cannington, his returned home after spending two weeks with her daughter, Mrs. W. J. Routly Charlbond, Apartments.

Mr. and Mrs. H. Powell and three children, left on the afternoon train to-day for their home in Caron, Saskatchewan. Mr. and Mrs. Powell spent the winter here with Mrs. Powell's parents, the late Mr. and Mrs. Joseph H. Taylor, both of whom died during the past few months.

Mr. J. J. Hartley, 234 Antrim street, returned home last evening from Rochester, N.Y., where he was attending the funeral of his brother, Mr. William Hartley.

ASYLUM ATTENDANTS ON STRIKE BELFAST

Police Patrol the Grounds and Keep Inmates In

BELFAST, April 1. — (Canadian Press.)—April Fool's Day was chosen by Donegal Lunatic Asylum attendants as a day to inaugurate a strike for more pay with the result that 800 inmates of the institution are enjoying liberty hitherto undreamed of. They cannot escape from the asylum grounds, however, as bordering of this area are patrolled by the police.
Relatives of the inmates are likely to be asked to withdraw them until the strike is over, or they may be distributed among other institutions.

GOVT. LIKELY SETTLE RESOURCES QUESTION
OTTAWA, April 1. — The desire of the government to have the natural resources question settled amicably was reaffirmed by Premier King last night, when he was interviewed by the Hon. James Gardiner, of the Saskatchewan government, who presented a number of resolutions passed by the Saskatchewan Legislature. The Premier pointed to the frequent conferences on the subject as evidence of the cabinet's determination.

SIGN OF SPRING ON PARKS BOARD

Alderman Turner's Committee Seeks Caretakers for Parks and Painters for Park Buildings.

A meeting of the Parks Committee last night disposed of one of the biggest slates of business that has confronted a committee this year. That spring is in the air was shown by asking for tenders for the painting of Lake Street bathing house, and the stands at Riverside Park. The chairman will also call for tenders for repairing the Cantain Brown monument in Central Park, and caretaking of the parks and bathing beaches, and the City Engineer will be requested to report on improving Riverside Park and on the most dangerous places along the river.
The committee forwarded to the Police Commission, with a request for their co-operation, a letter from Peterboro Rangers' Band, endorsing the proposed quiet zone around Victoria Park during the hours when a band concert is in progress. The action of the chairman in closing Victoria Park while the ground is wet was endorsed.
A letter was read from J. J. Turner and Sons, Ltd., offering $50 a year for the exclusive advertising privileges in and around Riverside Park, the contract to be for five years, and to be on condition that the Central League baseball games be played in that park.
On receipt of a letter from Sir Henry Thornton regarding the proposed carrying of automobiles on the Lake Ontario ferries, the chairman was instructed to procure all available data on the subject and follow up the matter.
The committee decided to fill in and seed the old raceway in Riverside Park.
There were present Alderman E. M. Turner, chairman; Aldermen N. Phelan, W. Stocker, R. N. Jones, R. Morrison and J. W. Meyers, and Mayor J. J. Turner.

STATISTICS FOR MONTH OF MARCH

Stork Keeps Up His High Average—Other Records

The vital statistics for the month of March show a slight increase in marriages over the same period last year. In March, 1923, there were 7 marriages, and in march of this year the total was 11. The stork is keeping up his high average, and as result 54 births were recorded last month, which is a decrease of one over March of last year. The death toll for the month was 28 while in March last year the number was 27.

Customs Receipts.
Last month's customs receipts compared with February's, shows an increase of $11,940.98. For February the receipts totalled $68,856.83, while March had a nice total of $80,797.81.
For the year ending 1924, the receipts amounted to $1,115,728.91. For the year ending March, 1923, the receipts amounted to $971,156.24. Making a net increase this year of $114,572.67 over the previous year.

FIREMEN INJURED IN TORONTO FIRE

Four Men Rushed to Hospital -- Chemicals Exploded.

TORONTO, April 1.—(Canadian Press).—Four firemen sustained burns, cuts and bruises, the condition of one being regarded as serious, when fighting fire which followed an explosion at the plant of the Transparent Rubber Goods Company this morning.
The men were rushed to St. Michael's hospital, where Fireman Culling was found to be suffering from severe burns. Captain Bird, Lieut. Agnew and Firemen Smith were reported at noon to be progressing favorably.
Shortly after the fire fighters arrived quantity of sulphur and carbide exploded, men being showered with burning chemicals. Twenty girls and three men were employed on premises and they escaped through windows.

CLARENCE TOPPING APPEAL DISMISSED

Convicted of Murder of His Sweetheart, Topping Must Hang on April 10, Court Says.

TORONTO, April 1 (Canadian Press). — The Second Division of the Appellate Court, with Chief Justice Latchford presiding, this afternoon dismissed the appeal of Clarence Topping, under sentence to hang on 10th April for the murder of his sweetheart, Geraldine Durston, last November.

BIRTHS.
SIMPSON.—To Mr. and Mrs. Lewis Simpson, 59 Sophia Street, on March 30th, a son — Douglas Kenneth.
GRAHAM.—On Saturday, March 29, at Nicholls Hospital, to Mr. and Mrs. H. H. Graham, 8 Aberdeen Avenue, a son—John Davis.

AFFAIR SETTLED.
LONDON, April 1. — (United Press).—The affair of the American Consul at Newcastle, which was closed by the British Government after the Consul had been accused of influencing persons seeking passports to travel on American-owned vessels, has been satisfactorily settled.

Amended Church Union Bill Permits Freedom Of Choice to Prevail

Congregation Opposing Union May by Vote of Its Members Stay Out of Pact and Retain Property Owned by It--Vote Was 36 to 26.

NOT A PARTY VOTE

TORONTO, Ont., April 1.—(Canadian Press).—After another strenuous session, the Private Bills Committee of the Legislature, at noon to-day, amended the Church Union Bill so that the congregations of any of the three Churches concerned may, by vote, stay out of the Union and retain their congregational property. The amendment, which came as an amendment to another amendment, was proposed by W. Finlayson (East Simcoe) and seconded by J. A. Currie (South-East Toronto).
The previous amendment was that Presbyterian churches only be allowed the right to stay out. It was moved by R. L. Brackin (West Kent), but a further amendment, including all three Churches, was agreeable to Mr. Brackin, who offered to withdraw in favor of the Finlayson amendment. There was a demonstration of applause from those opposed to the Union Bill when the amendment carried by 36 to 26.
The text of the amendment which passed follows:
"That before proceeding further with the bill, the law clerk of the committee be instructed to draft clauses by which the bill will be amended by adding clauses providing for the preservation of the Presbyterian Church of Canada, the Methodist Church or Congregational Church as separate entities and for giving to any congregation the right by vote of its members to remain in its mother church and keep therein any property owned by it."
Mr. Fisher said the amendment would put the bill in such shape that it would not be worth reporting to the House.
Mr. Crawford maintained that the first question should be: "Are you in favor of the principle of the bill?"

Not a Party Vote.
The vote on the amendment was not a party vote, and members in some instances voted against others of their own religious denomination. During the discussion on the amendment Charles McKeown and W. E. Raney, who were in favor of the bill without the amendment, said that the effect of the amendment would be to destroy the principle of the bill.

BUILDING PICKING UP IN PETERBOROUGH
From January 31st., until March the 10th there was nothing doing in the line of building in the city. For the rest of the month things picked up and the cost of building in the city for the month amounted to $7,850.00 which is fairly high for this time of the year. For the month of March 1922 building amounted to $10,020.00.
The following permits were issued during the month.
J. H. Anderson, alterations to store at a cost of $200.00.
W. W. Mallory, 148 Hart avenue repairs dwelling house. Cost $400.00
G. W. Carter, a garage at 233 Engleburn avenue, to cost $50.00.
D. Maher, 47 Park street alternations to cost $50.00.
Mrs. K. Welsh, 450 Smith street, roofed stable at cost of $25.00.
Fred H. Rowan, 172 Westcott street, repairs dwelling at a cost of $400.00.
Fred H. Rowan erected store house on Dalhousie street, cost $150
Mrs. Elliott, 93 Aylmer street, reshingled dwelling. Cost $150.00.
Fred H. Rowan reshingled dwelling at 275 Sherbrooke street. Cost $150.00.
I. Lucano, 513 Albert street altered kitchen. Cost $300.00.
A. N. Robinson, 508 Bolivar street, repaired verandah at cost of $75.00.
Mrs. N. Broadbent, 190 Simcoe street, repaired dwelling. Cost $150.
A. H. Stratton, 373 Park street, repaired garage. Cost $75.00.
C. H. Huffman, 247 Hunter street erected a stable, drive shed and altered house at a cost of $4,500.00.
Walter J. Oke corner of Bethune and Simcoe streets, built an addition to his warehouse at a cost of $600.
L. Younos, 553 Bolivar street, erected a kitchen. Cost $575.00.
Total cost of building for the month was $7,850.00.
Number of permits issued for the month was 16.

A RECEPTION FOR THE NEW MINISTER
A reception to the new pastor of St. Andrew's Presbyterian church, Rev. James W. Gordon, M.A., B.D., and to Mrs. Gordon and family, was tendered in the auditorium of the new Sunday school hall last evening, when a large number of members, adherents and friends of the church turned out to welcome the newcomers to the city. Arrangements were in charge of the Ladies' Aid Society. Mr. G. A. Gillespie acted as chairman for the programme of music and speeches.
The congregation was introduced to Mr. and Mrs. Gordon by Mr. and Mrs. Richard Lees, and Mr. and Mrs. and Mrs. Andrew McFarlane, the two gentlemen being, respectively, chairman of the Session and the Board of Managers of the church.
Addresses of welcome to Mr. and Mrs. Gordon were voiced by Mr. Lees for the Session, Mr. McFarlane for the Board of Managers, Mr. J. John for the Sunday school, Mr. R. Cotton for the young men, Miss Bella King for the Elizabeth Bell Auxiliary, Mrs. J. John for the Womens' Foreign Missions, and Mrs. F. L. Robinson for the Ladies' Aid Society. Rev. R Pogue extended the welcome from the Presbyterian churches of the city, Rev. Dr. Rose for the Baptists, and also for the Ministerial Association, Rev. A. J. Langford for the Methodists, and Rev. G. J. Bousfield, in the absence of Rev. Dr. Bingrave, for the Anglicans. Rev. Mr. Gordon responded in appropriate terms.
A pleasant musical programme included vocal solos by Mrs. Gerald McClelland, Mrs. Ford Turner, Mr. Douglas Carlisle and Mr. Hugh Niven.
At the conclusion of the reception, refreshments were served by the Ladies' Aid Society, Mrs. M J. Kerr and Mrs. John Matheson pouring tea.

ASSISTANT TREASURER HAS NOW DISAPPEARED
TORONTO, April 1. Canadian Press. — Although the provincial police deny that C. A. Matthews, the former assistant treasurer, has eluded them, it is stated freely at the Parliament Buildings to-day that Mr Matthews has left for parts unknown.

FALSE ALARMS STILL BOTHER THE FIREMEN
Last night a false alarm called the entire fire department out to box 43, at the corner of Edinburgh and Bethune streets, at 14 minutes past 9.
This false alarm business will have to be stopped as it is very dangerous and may mean the loss of life. When the firemen are hurrying to a fire they might have an accident that might mean the loss of life. Again while answering a false alarm another call to a real fire might be sent in and with nobody to answer the fire at the station the fire may be out of control before the firemen reach the scene of the fire. A warning was given a few months ago about tampering with fire boxes and if the person or persons who send in these alarms are caught they will be treated rough.

The Story of
The Charm School
was written by Alice Duer Miller, dramatized by Robert Milton, and is familiar to Peterborough readers. It appeared in serial form in a prominent magazine recently.
It relates the adventures of a handsome young automobile salesman scarcely out of his 'teens who, upon inheriting a girls' boarding school from a maiden aunt, insists on running it himself, according to his own ideas. The situations that arise are teeming with clean, wholesome humour.

COMPENSATION ACT TO PROVIDE FOR INJURED WORKMEN IN RECOVERY

Amendment Authorizes a Special Fund of $100,000 For Rehabilitation of Beneficiaries—Sir Adam Beck Reviews Hydro Expansion and Is Twitted By Hon. Manning Doherty For Having Flirted With U. F. O.

Hotel Act Progresses.

TORONTO, April 2.—The legislature Tuesday afternoon passed the second reading of the bill amending the Workmen's Compensation Act whereby injured workmen will be helped to rehabilitate themselves. The act provides that up to $100,000 may be taken out of the fund provided by the employers for this purpose. The Prime Minister said that the amount of compensation was reduced as the man got better in his trade. Peter Heenan (Lab. Kenora) supported the bill and complimented the government on introducing it.

Another amendment puts the man who works in Ontario and lives in another province on the same basis as the workman who lives and works in Ontario as far as the provisions of the act are concerned.

W. E. N. Sinclair, Liberal leader, asking if C. A. Matthews, formerly assistant treasurer and his son-in-law, L. C. Mason had left for unknown places and if they were being followed by the police, was informed by the Premier that it was not in the public interest to say what was going on. The Premier said that the publicity already given in the press had delayed if not defeated certain ends of justice.

Hotel Defined.

The act for licensing hotels in Ontario also passed second reading. It provides that an hotel shall be a place of at least six bed rooms distinct from a boarding house or ordinary residence. The remainder of the bill is left to such regulations as may be provided by order-in-council.

Sir Adam Beck on Hydro estimates discussed the general Hydro affairs of the province. He said that there were 360 municipalities in the system now. He reviewed the history of the movement and declared that all the faults the Gregory commission could find with hydro were legal technicalities.

There had been no charge of neglect of duty or of scandal. He said Hydro difficulties "had brought gray hairs to some of us" because of the tremendous opposition and propaganda but that the main portion of the people were still loyal to the movement. He did not know what the object of the investigation by the Gregory commission was.

Carmichael's Bomb.

The bomb shell had been forced into the movement he said when Col. Carmichael late Hydro commissioner had told the Legislature that the commission had been inefficient or not sufficiently frank, in the matter of Chippawa construction. Sir Adam complained that Mr. Carmichael had never mentioned the matter to his colleagues on the commission.

"I know that it was not his action," said Sir Adam. "Where the motive was he knows better than I." Sir Adam said that it came from the Drury government.

Hon. Manning Doherty said his reputation would stand beside any for honesty and stand along Sir Adam's in his stand on the Hydro matter. Cries of "Oh" greeted the statement.

Flirted With U.F.O.

Mr. Doherty twitted Sir Adam with being willing to become a member of the U.F.O. government in 1919 when it was formed.

"It is not honest to say that I was nibbling to bite at a hook when you were at the other end," said Sir Adam. "I knew you too well."

"I could say that you made several springs for the hook," said Mr. Doherty.

"Did I ask for a portfolio?" queried Sir Adam.

"It would be interesting for this House to know what you said about your present colleagues on that occasion," said Mr. Doherty.

"You are welcome to state them publicly when you like," said Sir Adam. "I waited my time and here we are."

Resignation Not Asked.

Sir Adam said that despite Drury government opposition they had never asked him for his resignation. He said that there had never been a complaint by any municipality against the Hydro commission. He declared that Mr. Drury had tried double shuffle on public ownership and had got his answer at the elections in Halton and in London. He declared that the Drury government had appointed ward politician Geo. Ramsden to the Hydro commission.

Sir Adam said that no taxpayer in Ontario either in municipal or provincial had ever paid a dollar in taxes to maintain the Hydro.

She Bet on Races Wanted Money Back

NEW YORK, April 2.—Ada G. Smith, asserting she had given H. S. Abrams, said to be a bookmaker, $10,000 to make bets on local race tracks, was anxious to tell in the Supreme Court about her failure to get returns on her investments.

But Justice Delehanty discovered defects in the complaint, withdrew a juror and ordered the case to Special Term after the complaint has been revised. Charles H. Tuttle, counsel for Abrams, argued that while the law prohibits betting it does not authorize such an action as that brought by Mrs. Smith.

Besides, Abrams said, Mrs. Smith won $8,000, which might be set off against the $10,000 claimed. He added:

"She did not object to the winnings."

FATHER DIES WITH BABIES

Charred Body Found With One of Them In His Arms --Wife Escaped By Jumping From Upstair Window of Blazing Home.

IROQUOIS FALLS, Ont., April 2.—(Canadian Press.) —Henry D. Jewett, 30 years of age, and two infant children, were burned to death in a fire which destroyed their home here Monday night, Mrs. Jewett, the only surviving member of the family, escaping a similar fate by jumping from a second storey window.

The fire is supposed to have originated from a defective stovepipe in the kitchen and spread so rapidly that the inmates, who had retired for the night, were unable to reach safety by the stairway. Mrs. Jewett jumped to safety while the husband and father went to the bedroom where the two children were asleep in an effort to save them. The badly burned body of the father and a four months old son were found at the top of the stairway, while the eighteen months old daughter was suffocated in her crib, cuddled tightly up to a toy rabbit, as if asleep. The flames had not reached the girl's crib but the smoke had suffocated her before she could be rescued.

The fire department managed to extinguish the fire before the building was a total loss.

WILL SELL COOPERATIVELY

At the annual meeting of the patrons of the Buckhorn Cheese Factory held last Friday the best methods of selling the cheese of the Company was discussed. It was decided by a unanimous vote to sell this year through United Dairymen Cooperative, Limited. At the close of the meeting a contract was signed with the Cooperative Company. This factory expects to have a good season this year. It is one of the best equipped factories in the county having an excellent cold storage room.

WURTTEMBERGERS SEEK AMERICA

STUTTGART, Wurttemberg, April 2. — (Associated Press). — Eighteen thousand persons left Wurttemberg for America in the first half of 1923 and the estimated emigration in the last six months of last year is 40,000, making roughly 58,000 emigrants to America from this state alone, or about half the German quota. The entire population of Wurttemberg is about two and a half million.

FARMER INJURED.

OMEMEE, April 2.—Mr. Walter Magee, of Orange Corners, had the misfortune of having his nose broken on Monday when the crank of the litter-carrier struck him, while working at his barn.

Unconventional, to Be Sure!

Winston Churchill, former British cabinet minister, forgot conventions in his recent campaign for Parliament. Just look, he's shaking hands with one of the "common folks!" But with all his disregard for traditions, Churchill failed in his attempt to come back.

MACDONALD STARTLES COMMONS BY PROPOSAL TO PUBLISH TREATIES

'Open Conventions Openly Arrived At,' the Policy of British Premier — Americanization of the British Constitution Is Liberal's Comment — Conservatives to Ask For Special Debate — Turks Press For Ratification of the Treaty of Lausanne.

REGAIN STRAITS.

LONDON, April 2.—(Canadian Press). —An interesting episode bearing on the Labor Government's treatment of Treaty questions arose yesterday when Arthur Ponsonby, Under-Secretary for Foreign Affairs, moving the second reading of the bill to ratify the Treaty of Lausanne, pointed out that the present government was in no way responsible for the provisions of the treaty, which was concluded by the late Government, but nevertheless was anxious that all formalities should be accomplished, permitting resumption at the earliest possible moment of normal political and trade relations with Turkey.

Mr. Ponsonby then made the important announcement that in order to strengthen the control of Parliament over international treaties the Government had decided that in future Parliament would be allowed an adequate opportunity for the discussion of all treaties before their final ratification. He said that hitherto there had been no constitutional obligation on the government of the day to submit treaties before ratification.

Provoked Protests.

This announcement provoked protests from a number of the Opposition members that such weighty constitutional changes were not in order on this bill, and finally the Speaker ruled further pursuit of the matter out of order.

H. A. L. Fisher, Liberal, said that the Under-Secretary, instead of explaining the Lausanne Treaty, had raced away from it and had delivered a plan for the Americanization of the British Constitution.

Conservative speakers intimated that they would ask for a special debate on the subject.

Mr. Ponsonby's proposal was that the Government would lay on the table in both House of Parliament every treaty, when signed, for a period of twenty-one days, after which the treaty would be ratified and published, and in the event of important treaties an opportunity for discussion would be given within this period. Thus, secret treaties would be rendered impossible. Further, while in office, the present government would submit to the House all agreements, commitments and understandings which might in any way bind the nation to specific action.

Hurled Off Bridge By Train--Drowned

PRESCOTT, Ont., April 2.—(Canadian Press).—Struck by a locomotive as he was crossing the railroad trestle near Pyrites, N.Y., a few miles from Ogdensburg, Levi Taylor, 54, who resides three miles from Canton, was hurled into the river and drowned. His body was recovered. He is survived by his wife and three children.

REPORTS FAVOR POWER SCHEME

Correspondence Pertaining to St. Lawrence Deep Waterways Project Is Tabled in the House of Commons — Covers Several Years.

OTTAWA, April 2.—(Canadian Press.—General approval of the St. Lawrence deep waterways project is voiced in a mass of official correspondence between Canadian and United States authorities tables in The House of Commons yesterday. The most recent official communications refer the scheme to an international board whose findings will be subject to the approval of Parliament and Congress.

The correspondence dates over several years. It contains reports from British diplomatic representatives at Washington and Chicago, who found generally an optimitic attitude to the scheme in official life here. A long report from the Swedish consul to his Government is also embodied recommending the scheme. Reports of the international joint commission and a United States board of engineers also is embodied. They recommend an exhaustive investigation which has now been ordered by both Governments.

Separate files of correspondence also were tabled, giving the approval of the Ontario Legislature by resolution adopted in June, 1922 and a favorable resolution passed in the Washington House of Representatives, in January, 1922.

The international joint commission recommended, in the matter of cost that an apportionment of cost would be made within the five years following the completion of the work on the basis of exact benefit received by each country, taking into consideration such benefits as foreign and coastwise traffic. tI recommends that the cost of "works for the combined use of a navigation and power over and above the cost of works for navigation alone, should be apportioned equally."

POLITICS COURSE

A course of ten lectures on "Practical American Politics" has been arranged for broadcasting through station WEAF, every Wednesday night at 8. The lecturer will be Schuyler C. Wallace of Columbia University.

WORKMEN FAIL TO QUIT WORK IN ARGENTINE

No Work Law Not Working Out Very Good and Few Are Willing to Take a Chance.

RAISING THE MONEY

(By Morgan Easterling, United Press Correspondent.)

BUENOS AYRES, April 2. — Nobody laid down his tools to take advantage of the new law abolishing work for everyone who has toiled 25 years. The new pensions law become officially effective yesterday, but all indications were that it did not operate.

Everyone in the Argentine who had worked a quarter of a century or more was entitled to quit, and draw a pension from the Government for the rest of their lives.

As no provision for raising in advance the huge funds required had been made, however, no one took a chance and stopped work.

Central headquarters for the elaborate machinery that will be required to give effect to the pensions laws were opened in a business block in Buenos Ayres with considerable ceremony. Federal and city employees attended. Apparently they are to be the first affected.

Commercial labour organisations are holding aloof to see how the Utopian proposition works, and whether the Government is going to be able to enforce the measure. Whereas as everyone who had laboured 25 years was entitled to stop and draw his pay just the same under the law, anyone who had not was supposed to pay 5 per cent. of his salary to the pensions fund.

No greater rush to comply with this portion of the law was observed than was the case with those who might have dropped shovel or hoe and started on a life rest.

Opponents of the measure still hope to cause it to fail, and are talking of a strike due to the dissatisfaction of labour with the provision requiring that the dues be paid in to-day.

The Government is endeavouring to persuade municipalities throughout the Argentine to rally to support of the new law. It was said semi-officially that many towns and cities were ready to put the plan into effect, but that business houses and a considerable portion of organised labour have started passive resistance.

Opponents of the law hope that the initial confusion will end in complete chaos and the abandonment of the whole scheme. Its friends say that once the necessary machinery is established, and dues collected, while pensions are paid, a wave of appreciation will sweep the country.

It is estimated that should the law become fully effective for two years, 15 per cent. of the salaried men of the Argentine, numbering about 150 000, would cease work and draw full salaries for ever after, which would mean expenditures of 300,000 pesos annually, which would be considerably more than the receipts plus the cost of operation.

ROYAL THEATRE. PICTURES ONLY

But They Will Be Good Pictures All the Time--No Disappointments.

The policy of the new management of the Royal will be to run nothing but high class pictures, and those secured for this week's shows certainly bear out this claim. If you have not seen "The Wanters" showing for the last time to-night you certainly should do so, and there is a comedy that is very funny, clean and surprising, which was new yesterday. To-morrow Marshall Neilan's latest picture "Minnie," will be the feature. It is full of wholesome human humour. New prices, Matinees, 10 and 15c evenings, 20 and 25c, including war tax.

RADIO FOR CHARITY.

Poor children of Detroit recently were converted to radio without cost. A Detroit radio manufacturer furnished each with a small radio set, good enough to receive local concerts. They were already so tuned that they needed no adjustment.

EYES DESERVE PROTECTION

Why go on straining them? Eyes behave better and last longer when taken proper care of, besides the added comfort of using the right glasses when needed. See W. H. Lacey, Optometrist, 410 George St., Phone 1160.

Radio doctors have sprung up—amateurs offering to put up, repair and improve receiving sets.

Many Victoria Farmers Border on Bankruptcy

Low Prices of Agricultural Products Ascribed As the Cause of Conditions Said to Be Disheartening—One Cent and a Half a Pound Offered For Fat Cattle—Fathers Would Follow Sons If They Could Sell Out.

LINDSAY, April 2.—(Special to Examiner).—A review of the agricultural conditions in sections of Victoria County discloses the fact that many farmers are face to face with conditions bordering on bankruptcy.

In talking with a well-known farmer in Ops Township the information was given that the farmers in that section were going behind as a result of low prices prevailing for the products. If conditions did not improve and improve steadily, the farmer declared there would be many vacant farms in the townships before long. Another farmer from the same township told of having received an offer last week from a Lindsay butcher of one cent and a half per pound for his fat cattle. Another farmer in Verulam Township shipped a carload (five tons) of pressed hay to Toronto last week and received in return $26.00—just what it cost him to press the hay.

A Fenelon Township farmer is responsible for the statement that at least seven farmers in the vicinity of Cambray are leaving their farms because of economic conditions.

YOUNG MEN LEAVING DAILY.

The conditions prevailing point to a further trek of the young manhood of the townships to the United States. Every day sees the departure from Lindsay for U. S. points of young farmers, who are forced to leave the farms and seek some other means of livelihood.

Nowhere is this move noticeable, perhaps, than in the township of Emily. Fine farms with modern buildings and up-to-date homes are practically deserted, save for the father and mother of boys, and girls, too, who have crossed the line and are making good. Many farmers would gladly sell out and join their boys, but there is no market for farm property at present. The population of the parish of Downeyville is just what it was twenty-five years ago. The exodus continues, and it will continue so long as the present agricultural situations prevail. That is why the young people leave the farms in Victoria County.

CIVIL SERVICE SALARY REVIEW

Revision Already Begun With Post Office Workers Receiving First Attention — Working Day to Be Considered Also.

OTTAWA, April 2.— (Canadian Press.)—Premier King in the House yesterday afternoon tabled a copy of the order in council under which the Civil Service Commission is directed to undertake immediately a revision of the salaries of the civil service. The order in council provides that the revision be made in conjunction with the board of audit and deputy heads of the departments, also that there be referred to the civil service commission the report of th sub-committee of the cabinet which has had under consideration the question of civil service hours, holidays, remuneration and kindred subjects.

"The president of the privy council," the order continues, "is of the opinion that the revision should be made, amongst other considerations, with a view to a discontinuance of the cost of living bonus which has been paid to certain members of the service of recent years, with the understanding, however, that as respects such members of the service as on and after April 1st may suffer a reduction in the amount of bonus payable to them at the present time, said revision when made shall become effective as of April 1st, 1924, with respect to any amounts which would have been payable to members of the service between April 1st and the time of the revision coming into effect had no reduction of bonus allowance been made on April 1st."

Posties First.

The sub-committee of the cabinet in its report takes the ground that the civil service commission, in its revision of salaries, should give first consideration to postal employees and customs officers, although no branch of the civil service should be excluded. It recommends inquiry into the normal work day; church or other statutory holidays; the annual leave of absence; the length of the luncheon period. It recommends that full opoprtunity be given to representatives of associations of civil service employees to present their claims.

Question of Hours.

On the normal work day, the sub-committee's report observes: Mercantile and industrial employees performing practically similar service, work longer hours, and the matter is one of sufficient importance to ascertain if in the interests of economy longer hours should be worked in the service.

The report also suggests that the question of salary revision would appear to be overdue when it is recognized that the cost of living bonus has been reduced more than once and that civil servants generally have long contended for general salary revision which would be permanent, having regard not only to the cost of living, but all other factors entering into their work and responsibilities.

30 HARVESTERS REACH OTTAWA

End Long Tramp From Toronto and Were Congratulated For Their Pluck By Prime Minister — Referred to Employment Bureau.

OTTAWA, April 2.—(Canadian Press).—A deputation of five men representing 30 British harvesters who walked from Toronto to Ottawa waited on the Prime Minister here last night. Mr. Mackenzie King congratulated the men on their pluck in undertaking the journey to Ottawa. He explained that the Government had no desire to lure men to this country by making false promises. Canada had no system for the care of the unemployed men as England had. The Government indicated its interest in the matter by receiving the deputation and the Prime Minister pointed out that in the Old Country it would be more difficult to obtain a hearing. The men were referred to the Ottawa Employment Bureau.

The deputation was introduced by J. G. Woodsworth (Labor-Winnipeg Centre). The men said they had been brought to this country by false promises in advertisements. They had been promised work in their own trades. In Toronto they had been reduced to hunger, the city refusing to takes the responsibility since they had been in the country less than a year. The men said they were anxious to remain in Canada and become citizens. The only offers of work they had had were for farm labor as inexperienced hands, which employment would not enable them to maintain their dependents in the Old Country.

Hon. J. R. Robb (Minister of Immiration) said he understood the men had been offered work in the mining and lumbering camps. This was denied emphatically by all the men present. Hon. James Murdock was present at the hearing. The Prime Minister offered to take care of two men personally if they were in desperate straits.

The deputation consisted of F. Fleming, J. Law, John Gallagher, A. Constable, A. Milne.

Manhattan's First White Baby Honored.

NEW YORK, April 2.—(Associated Press).—The stork's first visit to Manhattan Island bearing a white child is to be commemorated with a bronze tablet in the Town Hall. The tablet will bear the youngster's name, Jean Vinge, and that of his mother, Ariantje Cuvillie Vinge.

Historians are just a little hazy as to the exact date of the stork's visit. Some place it in 1614, while others assert it was 1623. But that Jean Vinge was the first white child born on Manhattan, there is no doubt.

The Vinge home was located on a small farm at about the place where Wall and Pearl streets now cross.

OPPOSITION IN PARLIAMENT TO RAIL BRANCHES

Proposed Extensions to C.N.R. System Touch Twenty - Six Branch Lines, Adding 1,000 Miles at Cost of $28,000,000 — Liberals Among Opponents to Program Urging Need of Economy

DEBATE'S OPENING.

OTTAWA, April 2 (Canadian Press). — The debate over the Canadian branch lines proposals opened in the House of Commons yesterday afternoon.

There are twenty-six of these resolutions and each of them is to be followed by a Bill.

The subject was introduced by the Hon. George P. Graham, Minister of Railways, in a brief statement upon the first resolution, and the minister was at once followed in a critical speech by Herbert Marler (Lib., St. Lawrence-St. George, Montreal).

Mr. Graham's statement was limited to an explanation of the immediate resolution before the House, which was to provide for the construction of a line from Kingsclear on the St. John and Quebec Railway in the Province of New Brunswick to a point on the St. Croix River, opposite Vanceboro, in the State of Maine. The estimated mileage of the line, including existing grading is 41 miles, and the estimated cost $2,123,000.

Mr. Graham stated that it might not be found necessary to build the whole line, as an arrangement might be made with the C.P.R. which would eliminate the necessity for covering 14 miles of the distance. He added that it was proposed to grade the road during the present season and lay the track in 1925.

Consider Economy.

Mr. Marler opened his criticism by pointing out that the various resolutions on the order paper provided for twenty-six branch lines, with a total mileage of 1,000, and at a cost of a little over $28,000,000. In the present state of the finances of the Dominion, he added, this expenditure should not be allowed to pass the House without careful scrutiny.

"Hear, hear," interposed A. R. McMaster (Liberal, Brome).

Owing to the proximity of the United States, Mr. Marler proceeded, it was of the utmost importance to consider our national policy in this regard carefully. If direct taxation in the United States was lower than in Canada, it meant that our population would drift to the United States. The exodus was still proceeding, and many of the best of those who left us would never return. In order to keep down taxation, therefore, no expenditure should be allowed which was not vitally necessary. He did not say that there should be no capital expenditure. Such an attitude would be the height of stupidity. But before any capital expenditure was authorised the House should be sure that the work to be built served some vital need of the population of Canada.

J. J. Denis (Liberal, Joliette) said that he agreed with Mr. Marler as to the necessity for economy in building roads. But he urged the claims of Quebec Province, where there was less mileage in proportion to the population than elsewhere.

Quebec's Mileage.

He read figures to show that Quebec had one mile of railway to every 460 persons. Ontario had 266 people to the mile, and the Western Provinces had less than 200 people to the railroad mile. If there was no money for building roads which had been sorely needed in Quebec Province for years, there should be corresponding economy in the matter of Western branches.

He was constantly interrupted by Progressive members with sugges-

SUNDAY SCHOOL KNOX GAVE A GOOD CONCERT

Play Has Plenty of Dramatic Incidents—The Cast.

In the Lecture Hall of Knox Presbyterian Church last evening, a sparkling little play entitled "Martha Made Over," was put on under the auspices of the teachers and officers of the Sunday School. The superintendent, H. J. McCannan, made the announcements.

The play, which was described by those who filled the big Lecture Hall to see it as being one of the best ever put on in Knox Church buildings, without a dull moment, was written by the widow of a Presbyterian minister, Mrs. Clara R. Anderson, of Ottawa, from the book, "Martha Made Over." It has plenty of dramatic incidents, and humour and pathos alike in its story. A splendid success was registered by the clever acting of those taking part in the play, which will be repeated this evening.

The cast was as follows:

Mr. Hayes, played by Hugh Rose; Martha Hayes (Mrs. H. M. Hobson), Annie (Miss Helen Wedlock), Blanche (Miss Ruth McLeish), Davy Hayes (John Heard), Ruth Dawn (Miss Mina Waldie), Uncle Joe (Allan Trussler), Mrs. West (Miss Cora Clarke), Mrs. Fare (Miss Agnes Wallace), Samantha (Miss Annie Crocker), Dr. Molar (Harvey Henry), Mrs. Box (Miss Ruby Carr), Rev. Mr. Black (Arthur Pitchford).

Vocal soloists taking part in a musical programme were Misses Edna and Violet Buckham and Ted Jackson. Between acts, pianoforte duets were given by Misses Kathleen and Muriel Benson and Jean and Marion McCannan.

MISS LAVINA CREIGHTON

LINDSAY, April 2.—Miss E. Lavina Creighton, a nurse of Boston, Mass., who had been visiting her sister, Mrs. M. Mulvihill, died at the Ross Hospital last night, as a result of injuries received during the day.

She was assisting her sister in some housework, and while standing on a chair she slipped, and fell heavily to the floor. She sustained two dislocated shoulders, and was also injured in the abdomen. Death took place on hour after she was admitted to the hospital.

Miss Creighton had made arrangements to return to Boston to-day.

FEDERAL GOVERNMENT WARNED HIM TO STAY OUT OF LOAN MARKET

Says Hon. Thomas McGarry, Former Provincial Treasurer — Dominion Was Floating a Large Loan—Police Keep Vigil at Matthews' Home.

NO WARRANTS YET.

TORONTO, April 2 Canadian Press). — Replying to criticisms of an agreement under which he floated a loan for the Province in September, 1919, Hon. Thomas McGarry, former Provincial Treasurer, said early this morning that these criticisms were unfair, and that he would at the earliest opportunity justify the agreement before the Public Accounts Committee. He added he would also be able to show that loans obtained by his successor, Hon. Peter Smith, were still more expensive to the Province.

Hon. Mr. McGarry pointed out that during 1919 and 1920 money was fluctuating badly, and that he had been warned from the market by the Dominion Government which intended to float a large loan.

Government Means Business.

Extradition proceedings will not be necessary to bring either Charles A. Matthews, suspended Deputy Provincial Treasurer, or his son-in-law, L. C. Mason, befoer the Public Accounts Committee of the Legislature.

Queen's Park feels that when Matthews and Mason find that the Government mean business and will wait for them, the two men wanted as witnesses in connection with the Goverment bond deals will return to the city.

Mason, while out of the city, is not out of the country, is the reassuring information secured by the authorities, who look for his return at the proper time.

As to Matthews, Provincial Police officers are keeping up their twenty-four-hour vigil at Matthews' home on Runnymede Road, and they confidently look for results.

So far there are no warrants for either of the men, and the Provincial Police hesitate to take any drastic action without proper authority.

Nobody at the Parliament Buildings will talk about possible developments concerning the whereabouts of Matthews and Mason.

CASHIER HELD UP AND SHOT BY BROOKLYN GIRL BANDIT

Bob-haired Mystery May Have to Answer Charge of Murder — Police Ordered to Shoot Her on Sight.

NEW YORK, April 2. — Brooklyn's bob-haired girl bandit and her male companion yesterday shot and probably fatally wounded Nathan Mazzo, the assistant cashier of the National Biscuit Company's factory in that borough, in an unsuccessful attempt to rob him of the company's payroll.

When Mazzo replied to a command to "hand over the cash," with an incredulous "you're kidding," he was shot in the breast three times. The bob-haired bandit and her companion fled in a sedan.

Police found a similar machine several blocks from the National Biscuit plant, and in it a liveried chauffeur, bound and gagged. The car had been stolen, the detectives said.

Series of Robberies.

The girl was said by Brooklyn police to answer almost perfectly the descriptions of the bob-haired young woman who, always accompanied by a tall dark man, has figured in a series of robberies in Brooklyn and Manhattan.

In a general alarm broadcast throughout greater New York, the police described her as a blonde, 5 feet, 3 inches tall, weighing about 112 pounds, and dressed in a gray beaded dress, pink turban and sealskin coat. Her hair was bobbed.

Orders of Police Captain Carey were "Shoot on sight, if necessary."

This was the first hold up by the girl bandit in which a victim was shot Mazzo was unable to say whether it was she or her male companion who fired on him.

Thought it a Joke.

His story was that the woman entered the retail department of the biscuit company's factory, just after he arrived with the weekly pay-roll, and ordered ten cents' worth of confections. Her companion followed close behind and before Mazzo could move ordered him to hand over the payroll.

"You're kidding, aren't you?" Mazzo countered, and lunged forward to grapple with the man. He was stopped by three pistol shots fired into his chest. Pedestrians who heard the shooting rushed into the building as the bandits rushed out.

LEARNED PBOFESSOR FAVORS A CAVE MAN

Says Man of 40,000 Years Ago Could Compete With Modern Young Man in Academic Life

NEW YORK, April 2.—(Canadian Press).—Henry Fairfield Osborn, former professor of comparative anatomy in Princeton, paleontologist, zoologist, geologist and author of "The Evolution of Mammalian Molar Teeth," yesterday lectured to the students of Columbia University and Faculty in the Assembly Hall. Before giving the anxious students his message Professor Osborn added another title to his "Who's Who in America" list. "I am a consistent evolutionist," he said, "but not a gloomy one either."

The Professor of Comparative Anatomy paused a moment.

"If a cave man of 40,000 years ago should come back to life," went on the Professor of Zoology, "and could enter Columbus University, he could compete with the present students and show himself their equal, if not their superior, on any terms in any branch of academic life."

Warkworth Personals

WARKWORTH, April 2.—Miss Ruth Brooks of Hastings, is visiting her sister, Mrs. Oscar Phillips.

Mrs. Violet Richardson of Campbellford is spending a couple of days with Mrs. T. Richardson Sr.

The Misses Parks have taken possession of the house which was purchased from Mr. John Wood a couple of weeks ago.

The members of the Ladies' Guild of the Anglican church held their regular meeting Friday afternoon in the community hall.

Expedition Seeks Bird That Breaks Stones With Bill

NEW YORK, April 2.—(Canadian Press).—A bird that breaks rock with its bill, swims and resembles a bat, will be sought by a University of Pennsylvania expedition which will sail from Brooklyn to-day for exploration in the valley of the Amazon.

Prof. Joseph McGoldrick, of the University of Pennsylvania; Henry Morris and R. M. Deschauensee are members of the expedition. It will disembark at Para. Thence it will proceed hundreds of miles up the Amazon to Manaos. The expedition plans to push through to the Peruvian border, emerging at Oquitz.

Specimens of the hoatzin, as the bird is called, are said to be valued at $50,000.

RED SNOW FALLS IN SWEDEN.

LONDON, April 2.—(United Press).—Red snowflakes have been falling in Sweden.

Snow had been falling continuously for several hours at Halmstead, Sweden, when it was noticed that the flakes were tinged a deep red.

Close examination revealed that thousands of small worms, lying lightly on top of the snow, were the cause of the phenomenon. It was evident that they had fallen with the snow and had not forced their way up through it from the ground below.

The worms varied in length from one to four inches. Specimens have been submitted for scientific investigation.

YOU CAN GET RID OF DYSPEPSIA

By Taking the Fruit Treatment in the Form of "Fruit-a-tives"

You can get rid of the pain; the heavy, uncomfortable feeling; the bilious attacks, headaches and constipation that accompany this trouble.

The Fruit Treatment—which is the intensified juices of apples, oranges, figs and prunes combined with tonics —will always relieve Dyspepsia.

Mrs. Thomas Evans, Everett, Ont., says: "I have been troubled for years with Dyspepsia, Liver and Kidney Disease from which it was impossible to get relief until I took "Fruit-a-tives". Thanks to their wonderful results, I am free of these ailments and am in normal health again".

This is the kind of proof that convinces. The Fruit-Treatment—"Fruit-a-tives"—is sold by all dealers at 25c. and 50c.—or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

SHOOT BANDIT IN A ROBBERY

Thrilling Climax to Montreal Bank Robbery—Two Dead.

MONTREAL, April 2. — Canadian Press. — With loot estimated by Y. Von Lamarre, chief inspector of the Banque D'Hochelaga at $142,288, mostly in small denomination bills, a gang of hold-up men, variously estimated at from four to eight succeeded in making a get-a-way, after shooting dead the chauffeur of the bank's collection car and wounding a bank messenger, yesterday afternoon in a subway on Ontario St. East, one of the most crowded shopping districts of the city. One of the bandits was shot dead in the melee.

The dead are Henri Cleroux, aged 24, chauffeur, of St. Dominique St., and Harry Stone, alias Peter Ward, alias Warren, alias Powell, 43 years of age, stated to have had an international reputation as a narcotic ruler and smuggler.

Three men suspected of being participants in the hold up and killing were brought to the police headquarters late last night.

Their names are being withheld by the police pending investiagtion.

The police are also investigating another clue from Terrebonne.

The dead bandit was identified by the police after the shooting, and he was said to be Peter Ward, alias Stone, 30 years of age. He had a police record, having been arrested here in 1917 on a charge of smuggling narcotics. He jumped his bail at that time.

In 1922 he was again arrested on a similar charge, and once more he skipped his bail.

It is alleged that Ward was wanted by the police in Winnipeg.

A search of the clothes of the dead bandit indicated that either he had been careful not to go on the expedition with incriminating documents upon him or that everything had been removed from his pockets before he was deserted.

Franc Boosted to New High By Short Interest.

NEW YORK, April 2.—Rushing to buy French francs for settlement of short contracts executed in March speculators, trapped by the currency's sensational rise, yesterday forced the rate up 30 points to a new high for the year at 5.80 cents. Having delayed covering their requirements on the upward swing, which followed the establishment of an extreme low price of 3.45 cents on March 8, short interests to-day were forced into the market to avoid the heavy penalties attached to deferred payments.

The sharp advance of the franc took place in one of the most active foreign exchange markets of the year, in which Belgian, Swiss, Italian and Scandinavian currencies attained new high levels for 1924.

RADIO RESTORED SON TO HIS DYING FATHER

WINDSOR, April 2.—(Canadian Press.) — Re-united by radio, Rev. William Murray, 41 years old now pastor of the Methodist church at Rose City, Mich., who ran away from the home of his father, George Liezert Sr. When he was only a lad of nine, last night stood by the bed side of his dying father, now 79 years old and prayed that he be forgiven. The re-union of father and son was brought about by means of messages sent out from Detroit broadcasting station last week, which sated that Liezert was dangerously ill and wanted to see his son before he died.

BELGIUM SEEKS CREDITS IN U.S.A.

Reported to Be Following Example of France In Effort to Stabilize Exchange — News Not Definite.

NEW YORK, April 1.—Negotiations for the establishment of a credit of between $25,000,000 and $50,000,000 for the Government of Belgium, to be used in stabilizing its exchange through an operation similar to the $100,000,000 loan recently granted to the Bank of France, were reported under way to-night. The rumors were given weight by a sharp rally of 75 points in the Belgian franc, which sold above 5 cents for the first time this year.

Members of J. P. Morgan and Company, who arranged the recent French credit and would be expected to assume the leadership in handling the Belgian financing, refused either to confirm or deny reports that a loan was impending. Other bankers admitted that the proposal had been discussed.

The success of the French Government in combatting the raid on the franc is said to have inspired Belgium to attempt a similar measure, since bear speculators in foreign exchange are reported to have transferred their short selling activities from the French to Belgian and other continental currencies.

HASTINGS AND THE DISTRICT

Young People Held Meeting—Personal Mention.

HASTINGS, April 2. — The Epworth League meeting of the Methodist Church was held on Monday evening in the School Room, and was in charge of Mr. C. E. Jones. All the items on the programme were taken by the male members of the church. The opening hymn was sung and Rev. M. L. Hinton led in prayer. Mr. W. E. Tate favoured the gathering with a piano solo. The Scripture lesson and introductory words were given by Mr. Jones. Mr. Neil Macdonald sang a solo. Mr. R. C. Doxsee gave an address, and took for his subject "Good Citizenship and Its Relations to Prohibition." A musical selection was rendered by Mr. Tate, piano, Mr. J. Knight, violin, Mr. W. Knight, saxophone. Another address was given by Mr. Hinton on "Prohibition."

After a hymn was sung, the meeting closed with the Mizpah prayer.

Young People Meet.

The young people of St. Andrew's Presbyterian Church held their last meeting for this term on Friday evening last.

Miss Helen Dodd had charge of the meeting, which opened by the singing of a hymn and prayer by Rev. L. A. Thompson. A reading was given by Miss Norna Anderson, after which a hymn was sung. The topic was taken by Miss Hazel Whitred. After the singing of another hymn the business part of the meeting was taken over by the president, and it was decided to discontinue the meetings until the fall.

The meeting closed with the benediction.

Personal Mention.

Mr. Fred Scott, of Trent River, was in the village on Tuesday.

Mr. Charles York, of Trenton, spent Tuesday in Hastings.

Mrs. G. Kerr was in Campbellford on Tuesday.

Mr. C. G. German and Mr. W. German, of the Oak Heights, called on friends in the village on Tuesday.

Mr. W. H. Chapman was in Campbellford on Tuesday.

Mr. Marcel O'Brien, of Kingston, was in the village on Tuesday.

OBITUARY

MRS. PATRICK TANGNEY

The death occurred this morning of Mrs. Patrick Tangney at her late residence 485 Roger street, after a lingering illness. The deceased was born in Douro but later moved to Peterboro, where she has resided the past 40 years. She was well known in the city and surrounding district and was highly respected.

There are left to mourn her loss, a sorrowing husband, four sisters: Mrs. Thomas Heffernan, Otonabee, Mrs. W. Leahy, Peterboro, Mrs. D. Conroy, Peterboro and Mrs. J. Barry, Vancouver. Two brothers, John of Douro and Robert of this city.

Funeral announcements will be made later.

C.P.R. Shopmen to Raise Revenue For 'Militancy.'

MONTREAL, April 1.—To enable their union to become "more militant," railroad shopmen of the Canadian Pacific Railway Company Tuesday afternoon devised ways and means of increasing the revenue of their organization by 100 per cent.

The decision was made by forty delegates who attended a convention of the system federation of railway employees, Canadian Pacific Railway held here. The exact scheme worked out was not divulged, but the action is regarded as significant in view of the railroaders' approval last week of a draft wage scale which would raise earnings of shop men fifteen per cent. and reinstate the 1920 wage scale.

THREE TIMES A DAY TEN HUNDRED AND NINETY FIVE TIMES A YEAR.

THE use of Gold Dust for washing dishes saves time and labor. It quickly dissolves the grease. No other soap required.

ANTI UNIONIST DECLARES BILL DEFEATED HERE

Action of Legislature of Ontario Will Have Far-Reaching Effect In Canada — Bulk of Property Affected Is In Ontario.

UNION UNLIKELY.

TORONTO, April 2 (Canadian Press). — Unionist leaders of the various denominations refused to comment last night on the action of the Ontario Legislature Committee in so amending the Church Union Bill as to retain various churches as separate entities.

As the Bill was at present in the hands of the law clerk it was stated that it had been deemed advisable to say nothing whatever on the subject just now.

By the action of the Legislature of Ontario, one prominent anti-unionist stated, the Bill is virtually defeated in this Province, and the action of the Government, he thought, would have a far-reaching effect on the Dominion Government's attitude toward the Bill when it came up in the Federal House.

It was always understood, he said, that the real fight on the Bill would be in Ontario, and the Dominion Parliament, and the action by this Province, he declared, would be felt throughout all Canada.

The legislation which is sought in the Provinces as well as at Ottawa, it was explained, purely concerns the property holding rights of the United Church.

While the action of the Ontario Legislature does not affect the union of the churches in other Provinces should they so desire, the great bulk of the property of the three negotiating denominations is held within this Province, and it is extremely unlikely that any union would take place unless incorporating legislation is passed by Ontario.

WEATHER STOPS SYRUP MAKING

Relapse to Winter Affects Flow of Maple Sap In Cavan Woods—Personal News of District.

CAVAN, April 2.—The cold weather of the last few days has stopped the flow of maple sap for this time.

Mr. and Mrs. Oscar Hutchison and babe, of Carleton Place, have been guests of Mr. L. Hutchison and Miss Essie for the past few days.

Ray Staples spent the week-end in Toronto.

Miss Edna Syer, Toronto, arrived at her home in Cavan on Saturday morning.

Mr. R. Falls, South Monaghan, spent Friday, the guest of F. M. Staples.

Mrs. T. Kellott was called to the home of her mother last week on account of the serious illness of the latter. Mrs. Medd has not been well for some time, but on Tuesday night had a serious attack of illness. She is somewhat better.

Gordon Reynolds spent the week-end with Mr. and Mrs. J. Paul.

PRIDE RUINED SCREEN STAR.

SARANAC LAKE, N.Y., April 2.—(United Press).—A moving picture company working in this section told their scouts to dig up an old-timer with a lot of chinchillas, such a one being needed to film an important scene.

One of the scouts found a real prize in an aged resident, who had a regular cascade of alfalfa flowing down both front and back. From reports reaching here he would have been welcome at any mattress factory in the country.

The old man, however, was so elated at breaking into the big-time stuff that he had his hair cut, and parted with his fear-reaching beard in order to restore the bloom of youth.

As a result when he arrived ready for work on the great day the movie director found the prize had become a total loss.

SPANISH PROGRAM.

Station KDKA, Pittsburgh, in its efforts to reach out beyond the bounds of the United States, is preparing special programs for other countries. Thus, for instance, a special program for Spanish speaking people—in Mexico, Central and South America—has been arranged It may become a regular institution.

SCREENINGS IN CAR ABOUT TON

Average Cost In Freight Bill Estimated Less For Farmer Than Cleaning Grain on Farm and Slowing Up Market.

WINNIPEG, April 2.—Professor George Clark, of the Federal Agricultural Department at Ottawa, concluded his evidence on the scientific aspect of screenings at the afternoon session of the Royal Grain Inquiry Commission. He said the screenings on the farm and the slowing up of marketing would be more costly than this to the average farmer. He emphasized that the refuse screenings should in all cases be burned.

In conclusion, Professor Clark warned Ontario farmers that the low grade grain they are now using for feed contains more of a noxious weed menace than re-cleaned screenings.

Professor Clarke gave it as his considered opinion that the use of screenings except as a low grade fuel will ultimately disappear. Screenings, he said, have a fuel value between sawdust and low grade lignite coal. Experiments with a central heating plant have developed this fact. Briquettes cannot be manufactured from them.

Originally all country elevators were equipped with cleaners but in 1906, with the introduction of the loading platform which meant obviously that grain so shipped could not be cleaned until it reached the lake head, the cleaning in elevators diminished. Cleaning at the lakes became the substitute.

"The farmer," he said, "after all must be the judge whether it is more expensive to clean the grain at threshing or to pay the freight on screenings to the lake head. I find in my experience that the average farmer does a lot of intelligent thinking over matters of this sort and can be trusted to work out this problem."

The witness said the danger from noxious weeds is fairly well eliminated in re-cleaned screenings.

Counsel Fisher: "Can anything be done to further reduce the weed evil in screenings?"

Witness: "I know the distribution of re-cleaned screenings through Ontario has created profound alarm for fear of noxious weeds, but I believe the danger they fear from screenings is greater in some of the low grade grain they use for feed. What Ontario needs is a system by which screenings will be removed at the lakes and sent to some point at the lower bay ports to a central plant where they can be ground before distribution. They should be graded before being ground into one and two grades. I should say all screenings should go into a kind of a pool but I cannot say how it should be administered. The authority of the grain inspector ceases as soon as screenings are ground. The grinding at bay ports would be a matter for the Federal department of Agriculture to take the responsibility for administering."

C. N. R. SHOP CHANGES.

QUEBEC, April 1.—As a result of the investigation carried out last week into conditions in the St. Ralo shops, Canadian National Railways, a change in the staff was made today when the appointment of A. C. Nelanson as Acting Superintendent was announced. Mr. Melanson was formerly stationed in Moncton, and more recently at Montreal and Toronto.

Do you handle money?

WHO touched it last? You never can tell. It may be filthy with invisible germs carrying contagion of every description. Protect yourself by keeping your hands clean with Lifebuoy Health Soap.

The rich, creamy lather of Lifebuoy goes deep into the pores of the skin, purifying them of any lurking infection. The clean, antiseptic odour of Lifebuoy vanishes a few seconds after use, but the protection of Lifebuoy remains.

Rush In Paris For New French Olympic Stamps.

PARIS, April 1.— Such demand developed for the special Olympic stamps placed in circulation by the postal authorities to-day that the Paris sub-post offices ran short of their supplies early in the afternoon and sent hurry calls to the main post office for additional lots.

The stamps placed on sale were of twenty-five and ten centime denominations, the others not yet being ready. The smaller stamp represents an Olympic athlete taking the oath as an amateur, and is regarded by Philatelists as a work of art.

Make them with *natural* Bran

A product of The Quaker Mills, Peterborough and Saskatoon

Tillson's Bran is the pure, clean cost of selected wheat in its *natural* form, not cooked or treated in any way. It is not mixed with any other grain.

That's why it can be combined with so many other foods to make delightful, wholesome dishes that one and all enjoy. Keep your body healthy with this *natural, palatable* bran.

FALSE ALARMS.

In every community there is the practical joker with a distorted conception of what constitutes fun.

In Peterborough just now the genius is represented by an individual or a number of them labouring under the impression that it is the height of humour to send in a false alarm to the Fire Department.

The fire fighters have on a number of occasions during the past few months been given a long run for nothing, the last call of this kind coming on Monday night.

Those who are responsible for these calls should understand that in sending the fire apparatus out at full speed through the city traffic there is always the danger of a serious accident.

Motorized fire vehicles lose no time when an alarm is sent in, and the chance of a collision or of the fire truck skidding is always present.

The firemen accept these risks as part of their job, but they have a right to protest against having to face the possibility of an accident simply because somebody thinks it is funny to tamper with an alarm box and fool the department.

Another aspect of the situation is that there is always a chance that when the firemen are answering one of these false alarmsthat a fire in another section of the city will break out.

WHY NOT ARBITRATION?

Whatever may be thought of the claims of postal employees for an upward revision of their salary list, there seems to be a strong current of public opinion that would favour an agreement between the Government and its employees who are operating a public service essential to the transaction of business that would permanently remove the danger of a strike.

While it might be possible, in the event of a general walkout of postal employees, to keep His Majesty's mails moving and distributed because there is a long waiting list for admission into the postal service, and there would in any case beenough employees remaining on the job to direct operations, yet a dislocation of business and a considerable amount of delay and annoyance would be inevitableand the public should not have to suffer.

The principle of arbitration has been adopted satisfactorily in agreements between many private industrial firms and their employees.

It should be possible to have a similar agreement between those employed in the Federal service and the Government.

The people of Canada do not want men to work in any Government service for remuneration that is below a proper living wage.

Neither do they want to face every now and then the possibility that a vital public service may be tied up by a strike.

Arbitration seems to be the logical way out of the trouble.

MR. DRURY'S EXPLANATION.

A letter from ex-Premier Drury in regard to his reference to Hon. Peter Smith in his speech at Newmarket last week shows the head of the late Government in a more favourable light inasmuch as Mr. Drury explains that he has no intention or desire to evade responsibility for the selection of the former Provincial Treasurer as a Cabinet Minister.

The first impression after reading Mr. Drury's speech was that he was seeking to throw the entire blame for questionable transactions upon his former colleague.

The ex-Premier does not fall back upon the usual alibi of public men who make an important statement and then claim they have been misreported when they discover their utterances had made some trouble for themselves.

He does say that his remarks taken as a whole did not justify the interpretation that he was repudiating responsibility.

And he adds: "When, four years ago, I asked Mr. Smith to become my colleague I believed him to be a man of honour. After four years of close contact with him I still hold this belief."

This attitude becomes Mr. Drury much better than the stand the Province believed him to have taken last week.

The people will respect him for his admission of personal responsibility for the choosing of Mr. Smith and for standing by that official in his dark hour.

For a politician who would deliberately attempt to evade his own share of responsibility and pin the whole onus on his colleague's shoulders they would have little more than contempt.

THE SQUEEZE OF HIGH TAXES.

There is a growing disposition on the part of ordinary people to study the economics of taxation; and this should be distinctly helpful. The old and long-accepted fallacy that taxation attaches wholly to the state, and therefore should be left to the state without interference, is yielding to the light of truth. Men are now realizing that both the rate and volume of taxation are matters not only vitally related to community and national welfare, but may be affected materially by the degree of popular resistance. That there ought to be popular resistance is based on the steadily widening knowledge of how taxes stand in the way of progress.

Henry Ford said recently that it was immaterial to himself whether taxes absorbed one per cent. or 99 per cent. of his profits. The one per cent. would supply all he would care to spend on himself. On the other hand, if he were taxed but one per cent., the difference would go into industrial development. That is to say, whatever might be taken from him by the tax-gatherer would leave just so much less for his enterprises.

At that point the general interest comes in Expansion of Ford enterprises, or any other enterprises, means employment, earnings, comforts and so on for thousands of men and women. The rich man in that way makes his riches serve the common good. Obviously, therefore, the less money that is taken from men in possession of capital—speaking quite broadly, of course—the more will be available in the form of wages. High taxes have the effect of cutting off supplies for the wage-earner, on one hand, and increasing the cost of his living on the other.

Canada is suffering just now from lack of normal industrial expansion. Other countries may be in greater distress; but that does not help us. That we are being pinched at all is in considerable degree due to high taxation on the part of Federal, Provincial and municipal governments. The common people are the greatest sufferers, because they happen to draw sustenance from that end of the economic fabric which answers first to the constricting force of conditions. For that reason, it is important they should clearly understand the cause of their troubles.

Let no one say they are helpless. This is a matter that will have to reach its ultimate settlement through the ballot box. There is no other way. By no other means can the people be heard; and every man and woman may most effectively be heard through that democratic medium. Politicians listen to voices from that quarter, and to no other. It may take a little more pinching and privation before everybody realizes that there is only this one way, and that it is wide open. The pinching is sure to come. With it should come a general determination on the part of the people to make some sacrifices in the matter of those public services to which they have grown accustomed.

In the meantime, soap-box economists will insist that this medium of the ballot box may be used to load all the taxes upon the backs of the rich, thus letting the common people go free. By the same argument it can be proven that two and two make five, or that one may eat his pudding and have it. The thing that makes the wheels of industry go round is capital, and capital is really the savings of the hard-working and thrifty. When money is diverted from the savings bank to the tax office, industry lags; but as industry lags fewer pay envelopes go out. Tax reform of the nature preached by the communists can have but one effect. That effect is to curtail productive investments. In the sequence of events it cuts off wages, raises rents, and makes everything dear. We have been taught that much by experience since 1915. Let us now go to the roots of the trouble, and the sooner we do it the sooner will relief come to those who are suffering most from excessive taxation. The cure is in their own hands.—Ottawa Journal.

THE SPIRIT OF EMPIRE.

The extreme autonomists continue to be anxious about the position of Canada in the Empire. They are not made comfortable even by Mr. Mackenzie King's assurances that in the Imperial Conferences which he attended as the representative of Canada no conspiracy against the Dominions was discovered nor any word spoken by a British statesman which could not have been spoken with complete propriety by statesmen from the overseas British nations. The truth is there is a school of autonomists who thrive on suspicion and feel that they are treated with gross injustice by British political leaders who will not "conspire" to restrict the freedom of the Dominions or otherwise meddle in the domestic affairs of the countries in which they have neither citizenship nor authority.

As always, these autonomists put all the emphasis upon extension of the constitutional sovereignty of the outlying British nations. They demand for the Dominions a voice in the foreign policy of the Empire, full control over their fiscal and political relations with contiguous nations, and complete exemption from all Imperial treaties in which they are not directy concerned. But they never suggest that they should provide fully for their own defence or that they should be "relieved" of the protection of the British Navy. They want freedom for the Dominions from all Imperial obligations with no diminution of the responsibility of Great Britain for the safety of the Empire all round the world and even for the security of the Dominions, which are urged to accept no obligations under the Imperial partnership. It is strange teaching, but fortunately teaching which has no authority in the actual, practical relations between the Mother Country and the Dominions and which is repudiated by the whole Empire in any time of strain and crisis.

The attitude of many Canadian autonomists towards defence is very like that of British free traders towards inter-Imperial preferences. The autonomist thinks that his country should have the protection of the Imperial Navy and all the security of Empire. But he will not admit that he should be taxed for these privileges or accept any constitutional obligation to defend the Empire in which he expects and intends to retain an influential partnership. The British free trader accepts the preferences extended by the Dominions to Great Britain, but insists that in British markets the Dominions shall have practically no advantages over foreign countries. It is certain, however, that if Canada, Australia, New Zealand and South Africa repealed the existing preferences in favor of British manufactures the mass of British free traders would feel that an untoward thing had happened and that the bonds of Empire had been perceptibly weakened. So if Great Britain tomorrow announced that hereafter the Dominions would have to rely for defence wholly upon their own naval and military resources a flame of wrath would sweep across the overseas British countries and the Empire would be brought to the verge of disruption. But one could argue powerfully that a natural commercial policy would be Preference for Preference or No Preference at all and that in simple equity within an Imperial partnership there is no more to be said for Defence without Taxation than is to be said for Taxation without Representation.—Montreal Star.

EDITORIAL NOTES AND COMMENT.

The bond probe seems to have driven the O.T.A. plebiscite off the stage altogether.

Daylight saving is being re-introduced into Germany. The Germans were always keen about a place in the sun.

If the Private Bills Committee of the Legislature has not completely killed the principle of the Church Union Bill, it has left that measure so changed that its friends will have difficulty in recognizing it.

April might just as well understand now that the manner in which it opened will not do.

With the hiking harvesters and a delegation from the Canadian Council of Agriculture both in Ottawa at the one time the troubles of the Government cannot be said to be decreasing.

WISE AND OTHERWISE

Crop failure is causing a financial shortage in Scotland, proving nature can do what man can't.

The French franc is down and the Frenchmen are out.

The new secretary of navy should be kept busy in Washington where everything is at sea.

Details involving oil and whisky are laid to Teapot Dome, and it isn't the first time the two have been mixed.

Egg prices are down a little now, but Easter will come to their rescue.

Keep your receipts when you pay the coal man. They will make good reading for hot summer days.

One senator wants to limit the oil scandal probe, but right now the sky is the limit.

Every now and then you hear about a robber being caught, but you don't hear it often enough.

Silk stockings are being frowned upon. This is in Warsaw, not here.

It is not clean-up time until you can leave the windows clean up.

Many a farmer would say the greatest farm relief measure would be to relieve him of his farm.

Building up a checkered career wouldn't be so bad if you didn't always find it your move.

A government job is a building which has become a landmark by the time it is completed.

Never count your chickens before they return from a neighbor's garden.

In Wyoming, an Indian chief is wearing a monocle, proving there still are wild Indians in Wyoming.

Oil in Washington is a good palm greaser.

The boys' kites are making some people look up for the first time since last fall.

More people would be sensible if it didn't take so much practice.

Wool, 23-28c pound.

TORONTO IVESTOCK

TORONTO, April 1.—The exporters took 400 steers on Monday from $7.50 to $8.50 a cwt., and about 100 heifers, cows, and bulls. The heifers cost 7¼ cents a pound, and this price was paid this morning. Cows cost 5 to 6 cents and bulls 4 to 5 cents a pound. For export steers today the price paid was $7.75 to $8 a cwt. Good butchers, 1,000 lbs. each and up, are selling at an average of $6.75 a cwt. and mediums 6 to 6.25. Some common light butchers' heifers sold at 5 cents a pound.

Quite a number of loads of feeders are being worked off with a price range of $6.10 to $6.75 a cwt. and good cows $5 to $5.50. A fair grade of butchers' cows cost $4.50 to $4.75

The bulk of the dairy calves are selling from 8 to 9 cents a pound. Top calves are 11½ to 12 cents a pound.

A fair sized run of hogs today prevented this market from further strengthening and the quotations stand $7.25 to $7.50 a cwt. f.o.b. Monday's hogs were taken without a definite price being set in many of the trades, but the impression is that this will be $7.50 a cwt.

Col. Harry Mullins was down with 212 steers he had fed in the west. These he was shipping to Dundas by the Canadian Government boat Victor. Transporation charges, he said, were much against the trade. The ocean space is now $25 a head against, and formerly this was only $7.50.

Current Quotations.

Choice heavy ex. steers	$7.75	8.25
Good heavy steers	7.25	7.65

CHICAGO GRAIN.

CHICAGO, April 1.— Scarcity of supplies made itself felt in the corn market to-day and the price, which had been wavering, began to climb. Business was then of good volume, and the closing was firm, 1-8c. to 1 1-8c. net higher, May 78c. to 78 1-8c. Wheat suffered neglect and closed unsettled, 3-8c. to 7-8c. off, May $1.01 1- 2to $1.01 1-2 and 5-8c, and July $1.03 1-8, with oats unchanged to 1-8c. lower and provisions varying from 2c. decline to an advance of 2 1-2 and 5c.

STERLING RATES.

MONTREAL, April 1.—Sterling exchange rates were quoted here today:

Demand 4.3900.

Cables 4.3938.

EGG MARKETS.

OTTAWA, April 1.—Receipts at consuming centres are just about equal to the demand. Ontario country shippers report paying extras 22 to 24, firsts 20 to 22, seconds 18, and making sales extras 24 to 28, firsts 23 to 26, seconds 22 f.o.b. It is reported that some country operators have commenced storing eggs, which would indicate that prices have reached the ideas of some dealers as to a storage basis.

Toronto unchanged. Jobbing specials 23, extras 31, firsts 28, seconds 24.

Montreal jobbing extras 31 to 32, firsts 28 to 29, seconds 26 to 27. Dressed poultry quiet and unchanged.

Winnipeg weak. Retailing 30 to 33, firsts 25 to 30, seconds 23 to 26.

CHICAGO LIVE STOCK.

CHICAGO, April 1.— Cattle, receipts 11,000; beef steers and yearlings, uneven; best killing quality considered; trade generally steady to 15c. lower; top 12.00 paid for mixed yearlings; best handyweights 11.50; bulk fed steers 8.25 and 10.25; some plain light kind downward to 7.50; she stock generally steady with yesterdays' advance; yearling beef heifers fairly numerous 7.80 and 8.50; some good to choice yearling heifers 10.15; most fat cows 5.00 and 6.50; bologna bulls strong to 15c. higher; weighty sausage bulls up to 5.25; bulk 4.75 and 5.10; vealers uneven, mostly 25c. higher; bulk to packers 10.00 and 11.00; few 11.50; outsiders upward to 12.00; stockers and feeders strong.

Hogs, receipts 25,000; fairly active, mostly 5c. lower than yesterday's average; few early sales showing less decline; bulk good and choice 160 to 300 pound average, 7.55 and 7.65; top 7.70; bulk 140 to 150 pound weight 7.25 and 7.40; packing sows mostly 6.80 and 6.90; killing pigs unchanged; desirable strong weight largely 6.50 and 6.90; estimated holdover 15,000.

Sheep, receipts 20,000; fat lambs 25c. to 50 lower; sheep steady; fed and shearing lambs weak to 35c. lower; bulk fat wooled lambs 15.75 and 16.25; top 16.40; desirable clipped lambs 13.85 and 14.25; prime handyweight farm fed kind 14.80; bulk fat ewes 11.00 and 11.50; choice shearing lambs mostly 15.75.

If You Keep Hens

You Can Get FREE This Book on Poultry

IF you are a poultry-raiser, whether for pleasure or for profit, you need the Ful-O-Pep Poultry Calendar. It tells of proper care and feeding. It describes all poultry diseases and tells how to cure them. Full information about the new "Chick-Starter" with cod liver oil which is causing such a sensation among breeders this year.

Free Poultry Course

Twelve lessons by leading, practical experts—FREE to users of Ful-O-Pep feeds. Write us for particulars.

Send no money. Just drop us a line and we will send you this valuable book FREE by return mail.

CAMPBELLFORD AND DISTRICT

Church Concerts Still Numerous -- Personal Mention.

CAMPBELLFORD, April 1.—A special missionary meeting in the Sunday School was held on Sunday, March 30, at two-thirty in the afternoon. There was no classes, and all the school assembled for the programme given. After the opening hymn, "Jesus Saves," and prayer, a duet, "There's a Story to Tell to the Nations," was sung by Misses Ruth and Jennie Taylor, with the chorus by the whole Sunday School choir, under the direction of Mr. George Lucy, followed by a hymn by the school, "Whosoever Will May Come." Mrs. G. A. Kingston then gave a splendid address on David Livingstone. This was listened to with close attention by all present.

The missionary offering was then taken. This amounted to nearly thirty-five dollars.

An exercise, "The Sign of the Cross" was given by seven young ladies. It represented a young lady just graduated as a doctor from Toronto University, who was wondering where to put out her sign. This part was taken by Miss Grace Payne. Some of the foreign countries come to ask her to put her sign up in their country.

China (represented by Miss Ruth Taylor) bids for the sign, and gives the reasons why she should go to China. Then follow Japan (Miss Cherrie Turner) bidding for her country; Korea (Miss Verna Sanders); Christian Missionary (Miss Beatrice Ayrhart) bits for Africa; the Moslem Women (Miss Winnifred Phillips) bids for the sign for them; the United States, on behalf of the Phillipines (Miss Jennie Taylor), bids for those Islands; and last, India (Miss Myrtle Forde) bids for her land.

This was followed by a recitation, "A Prayer to the Women of the West," by Cherrie Turner.

The doctor was so impressed that she decided to go as a medical missionary to the land that needed her most, and she made an appeal to the congregation to send others to the rest of the countries. This exercise was very helpful, and those taking part were dressed in the costume of the country which they represented, and all took their parts well.

Then followed a trio, "Gird on the Armour," by Messrs C. Maguire, F. Dorie and H. Boyd. A missionary reading by Enid Richardson, an anthem, "The Whole Wide World for Jesus," by the Sunday School choir. The Rev. W. Elliott made a few closing remarks, after which the benediction was pronounced.

A Special Concert.

The other meeting was a special concert evening given on Monday night under the auspices of the Young People's League. Mr. Thomas J. Craighead, president of the League, had charge of the programme. The first item on the programme was a hymn played on violins by a class of small boys, under the leadership of their instructor, Mr. R. T. Cowell; then a duet by Mrs. C. W. Turner and Cherrie.

One of the features of the night was a debate—Resolved that "a limited monarchy, like England, is better for a country than a Republic, like the United States." The affirmative was taken by Mr. S. A. Maguire, who took the place of his son Carl, who could not be present, and Mr. Wilbert Kingston. The negative was taken by Miss Dafoe and Miss Helen Wood. Each of the debaters brought out their points clearly, and their papers were very interesting and showed careful study. Each had fifteen minutes, and W. Kingston, leader of the affirmative, had five minutes extra at the last. The judges were Miss K. Ferris, Rev. W. Elliott and G. A. Payne. While they were making a decision, an instrumental duet was played by Dr. Lillian Young and Miss K. Dolman. The Rev. W. Elliott then gave the decision of the judges. This was in favor of the affirmative. A vote of thanks was extended to the judges. A recitation, "The Last Hymn, was given by Mrs. A. E. Wragg in her usual good style. A violin solo by Mr. Harry Boyd, accompanied by Miss Ina Boyd on the piano, was enjoyed by all. A beautiful vocal solo was then sung by Miss Nelly M. Hoover. Another reading by Mrs. Wragg, and the singing of the National Anthem closed a splendid entertainment. The members of the League are grateful to those who took part in the debate, and also to those who assisted in the rest of the programme. The proceeds amounted to over eighteen dollars.

Personals.

Mr. Walter Turner, of Hastings, spent Monday in town on business.

Mr. Harry Kerr, who came over from Ireland a few months ago and has since lived in Toronto, is visiting at the home of his cousin, Mrs. George Frederick, Church Street.

Mrs. D. W. Douglas gave a very pleasant evening to the choir of St. Andrew's Church on Friday night, when she entertained them at her home.

Mrs. J. A. Loucks entertained about twenty-five of her friends to an afternoon tea on Friday.

Mrs. Charles Montgomery and her little daughter (Betty), and her brother, Mr. Victor Cochrane, went to Kingston on Friday to spend a few days with their mother, Mrs. Burnham.

ENO's for Constipation, Indigestion, Heartburn, Nervousness, Impure Blood, Depression, Failing Appetite, Liver Disorders, Sleeplessness, Rheumatic Conditions.

TO the healthy—all days are glorious and full of possibilities. For health means a strong and willing body—a mind bright and unclouded.

ENO's banishes constipation by cleansing the system of all impurities and contributes to Nature's process of maintaining a supply of rich, pure blood. ENO's contains no harsh mineral salts but only the purest of natural products. Take exercise in the open air, breathe deeply and don't forget your morning glass of ENO's—sparkling and effervescent with cleansing purity.

JUNKERS CHEER LUDENDORFF ON BISMARCK'S DAY

Acquittal of War Lord Charged With Treason in Beer Cellar Revolt Delighted Reactionaries — Demonstrations Coincided With Celebration of Bismarck's Birthday — Republic's Enemies Are Emboldened.

ELECTION STRUGGLE.

BERLIN, April 2. — The 109th anniversary of the birth of Bismarck, and the conditional acquittal of former Field Marshal Ludendorff before the special tribunal at Munich, afforded the nationalistic organizations and the reactionary leaders an obvious text for familiar diatribes against the young German republic.

In certain political circles the opinion is expressed that there are plenty of other symptoms accumulating, and with sufficient intensity to warrant the prediction that the principles of democracy, which so far have been received inhospitably, shortly will find themselves locked in a life and death struggle with the pre-war reaction.

The very moment the news tickers were announcing the vindication of Ludendorff hundreds of admirers of the Iron Chancellor made their annual pilgrimage to his huge monument before the Reichstag Building, where scores of wreaths, be-ribboned with the old monarchical colors, were laid down, many of them bearing expressions of anti-republican sentiment.

Look to Elections.

Almost at the same hour 2,000 delegates in attendance upon the convention of the German Nationalist Party at Hamburg, rose to cheer the announcement of Ludendorff's acquittal, while Dr. Hergt, chairman of the convention, and the Nationalist party leader in the Reichstag, sounded the slogan: "The time has come!" the import of which was interpreted in certain quarters as indicating that the reactionaries were prepared to take over the government in anticipation of a decisive success in the forthcoming elections.

A far more significant indication of the reascendence of the monarchical sentiment, in the opinion of some of the political observers, is contributed by the German People's Party, popularly known as the "Stinnes-Vresemann Party," which under the leadership of Foreign Minister Stresemann is making a bid for votes on a platform which calls for the restoration of the old monarchical colors. The party further avers that Germany's regeneration will be possible only through the establishment of a "democratic monarchy."

Joins Junkers.

The fact that the Industrialists' Party, which at present is an active member in the Republic government, and sitting cheek by jowl with the Clericals and the Democrats, has moved bag and baggage into the monarchical camp, is considered by far the most significant development thus far reflected in the current realignment of Germany's internal politics. It leaves the Clericals, Democrats and Socialists the only constitutional parties and defenders of the democracy within the republic.

Only the count of the ballots in the elections of May 4th will give a reply to the question which to-day looms large on the disturbed political and economic horizon of Germany.

TWO DEPARTMENTS OF CAMPBELLFORD CLOTH COMPANY FOR TORONTO

Employees of Finishing and Dyeing Departments Notified That Their Services Will Not Be Required After This Week — Fifty Hands Affected By Transfer of Departments to Toronto.

REGRETTED BY TOWN.

CAMPBELLFORD, April 1.—The employees in the finishing and dyeing departments of the Campbellford Cloth Company, formerly the Trent Woollen Mills, have been notified that after this week their services will not be required, as it is the intention of the company to move these departments to Toronto and operate them in connection with their plant there. The removal of the equipment has already begun.

This announcement has created a sensation in Campbellford, as the mill, employing as it does over 300 hands, has always been regarded as one of the best industrial assets of the town. About 50 hands, some of whom have been in the employ of the company for over thirty years and who, in that time, have worked their way up to lucrative positions, are affected by this order. Resident officials of the company refuse to discuss the matter beyond saying that they are carrying out orders from headquarters in Toronto, and that there is a possibility that the situation may be adjusted.

Some of the employees have been given to understand that they may be given places in the Toronto plant, and others are encouraged to hope that new positions will be found for them here when the departments in which they are now employed are closed down. Naturally there is a feeling of unrest among the workmen even in the departments that are not directly affected by the order. Citizens, the merchants especially, regret to hear of this reduction in the working population of the town. Many of the men who are to be thrown out of work own their own homes, and are among the most prominent of the local residents.

Dates from 1881.

The factory in question has been an institution in Campbellford since 1881, when the first building was erected. Galt Brothers and D. Morice, of Montreal, where the prime movers and chief owners of stock in the enterprise, and when they started business they were granted concessions. It was not, however, until 1909 that the factory assumed anything like its present proportions.

In that year the company asked for a fixed assessment of $50,000 a year for twenty years, obligating themselves, in return for this concession, to spend $25,000 in extensions and to employ 70 hands more than were then on the payroll.

This question was submittee to the people and was carried, and the fixed assessment, with the usually statutory exceptions of local improvement and school taxes, became effective on January 1st, 1910, and has, consequently, over 5½ years to run. The by-law providing for the fixed assessment, stipulated that the company should give employment to at least 220 hands for eleven months in the year. If they failed in this condition for one year their fixed assessment was to be forfeited for the next year, and if the failure in the agreement lasted for two years, the property was to be assessed thereafter at the prevailing rate.

Company Sold Out.

The ownership of the factory was changed at the beginning of 1923 when the management was assumed by the Toronto Carpet Company and the Barrymore Cloth Company, of Toronto. The new owners made extensive improvements. A new office building was secured to allow more factory space, and last summer a large storehouse was erected. A year last winter, the hum of machinery was heard day and night. A large number on skilled workmen, including J. H. Bell, resident manager, were brought from England last year; and President F. B. Hayes, who resides in Toronto, asked the Town Council to do something to encourage the building of houses to accommodate the new arrivals.

School Taxes.

The fixed assessment of the company is $50,000, but the valuation placed upon the plant last year, for school purposes, by Assessor Mulhearn, was $131,920. President Hayes wrote the Council stating that he was sole owner of the stock, and that it was his desire that 60 per cent of the taxes paid by the company should go to the separate, and the balance to the public school.

Uses Hydro Power.

The company is not a patron of the municipal power plant. It gets its electrical energy from the Hydro in return for a dam which it turned over to the Hydro some years ago.

In common with other Canadian cloth manufacturers, the company has felt the competition of European factories manned by cheaper labor. No one can foretell what the future has in store, but there will still be a large working force retained here, and with the return of prosperity the departments to be closed now may be utilized for the extesion of other branches of the business.

The Crow of Croup A Warning To All Mothers

Croup starts with a dry cough and rattling in the throat; after which the croup crow gives warning of the diseases. The child, after tossing restlessly about, will start up with a flushed face, protuding eyeballs, and a distressing look of terror and anxiety. There is a struggle for breath, and the expectoration of the mucous matter is so difficult to get rid of that the effort appears to threaten strangulation.

On the first sign of the "croupy crow" mothers should administer Dr. Wood's Norway Pine Syrup, and thus give the child prompt and permament relief, and perhaps the life saved by taking this precaution.

Mrs. H. A. Langhorn, Hamilton, Ont., writes:—"My little boy was very bad with the croup and I could not get anything to relieve him until I tried Dr. Wood's Norway Pine Syrup. I cannot praise it too highly for the relief it gave him."

Price 35c. a bottle; the large family size 60c; put up only by the The T. Milburn Co., Limited, Toronto, Ont.

MACDONALD

(Continued from page 1.)

Treaty Condemned.

The debate brought much criticism of the Lausanne instrument, which many members described as a bad treaty, the point especially objected to being the guarantee under the Traty of Demilitarized Zones on both sides of the Straits.

Sir Edward Grigg, Liberal, moved an amendment declining to proceed with the bill unless assured that the dominion and India were fully informed and acquiesced in the liabilities the Empire assumed under this guarantee. He declared that the guarantee of a status quo for the Straits and Constantinople was one of the most dangerous obligations Great Britain could possibly have undertaken, and he wanted to know if the dominions and India were fully cognizant of it.

Sir Edward maintained that the United States under the favored nation clause had obtained the whole of the advantages which Great Britain had obtained in the Straits without incurring obligations of any kind. Premier MacDonald was giving a guarantee to Turkey which he had refused to France.

Demands From Turks.

The Prime Minister, in replying to the criticisms, admitted that it was an unsatisfactory treaty, but contended that Lord Curzon had done the best possible under difficult circumstance, and that it would have been absurd for Great Britain to refuse ratification at the risk of having another conference and continuance of state of war. The treaty must be ratified because the other powers have done so. and Turkey, becoming suspicious under the delay, was pressing to know what its status would be in Europe under the treaty and refusing pointblank to put the provisions of the treaty into effect until ratified.

Mr. MacDonald went on to say that he had been pressing and cajoling Turkey to appoint its representative on the commission to settle the boundary of Irak. Turkey's reply was a definite "not until you have ratified the treaty," but in the meantime all sorts of movements and agitations were going on along the Irak frontier, and he refused to be responsible for a policy of delay which might at any moment cause military outbreaks in that part of the world. He was satisfied the treaty could be made the basis of a good working understanding with Turkey.

Dominion Agreeable.

The Prime Minister entered into a long explanation of the effect of the guarantee, which he maintained would become operative only through the decision of the League of Nations, and was not such a serious matter as the critics represented. He could assure Sir Edward Grigg that the Dominions and India were fully conversant with the treaty and agreeable to its ratifications, and he hoped therefore that Sir Edward would withdraw his amendment.

The debate was then adjourned.

WOMEN WHO LOOK OLD

In many cases they are not old in years, but because they are overworked, over-tired, nervous and rundown, ailments have developed peculiar to their sex and this condition makes them look years older than they actually are. Such women should consider the remarkable record held by Lydia E. Pinkham's Vegetable Compound. In a recent canvass among over one hundred and twenty-one thousand women who have used it, ninety-eight out of every one hundred women reported benefit from its use.

PROMINENT ARRIVALS FROM OTHER CENTRES

VANCOUVER, B.C., April 2.—Dr. Frank D. Gamewell, the hero of Pekin during the Boxer rebellion when he had charge of the fortification of the city through the 76 day seige, a quarter of a century ago was a passenger on board the Canadian Pacific S.S. Empress of Asia when she docked here this afternoon from the Orient. As general secretary of the China Christian Educational Association and Editor of the Educational Review, Dr. Gamewell is now on his way to Springfield, Mass., to attend the General Conference of the Association to be held there in May.

Frank W. Strathy, prominent banker of Toronto who has just concluded a five months "pleasure trip around the world" was also among the passengers and will leave for the east on Tuesday morning. Dr. and Mrs. T. E. Williams of Winnipeg was also on board. Dr. Williams is head of the largest missionary hospitals in China.

SQUIRES CHALLENGES COMMISSION FINDING

HALIFAX, N.S., April 1 (Canadian Press). — That in his judgment the finding the Walker Royal Commission dealing with the Liquor Control Department in so far as the finding affected him was "absolutely contrary to the weight of evidence," and he proposed seeking an early opportunity of demonstrating that fact by other process, was the statement of Sir Richard Squires, former Premier of Newfoundland, on his arrival here to-day en route to Toronto.

With respect to the finding of the Commission in relation to the contributions of the Dominion Iron and Steel Sir Richard said it was true that the company during his absence "assisted the finances of the St. John Daily Star, which paper had been the political organ of my party, but not a cent of that assistance was used personally."

CANOES WITH RUNNERS APPEAR ON RICE LAKE

Ice Unsafe As Seasons Merge — Sleighs and Horses Have Made Last Trip Over Winter's Highways — Trappers Propel Their Amphibious Sleds With Poles.

DEBATERS CLAIM CUP

BAILIEBORO, March 31.—Owing to the fact that the Peterboro U.F.Y.P.D. club lost to the Indian River club in the U.F.Y.P.D. debating league on Tuesday night last, in Peterboro, the South Monaghan club are very happy to claim the silver cup presented by the Peterboro County U.F.O., and which was the trophy which all of the different clubs worked so hard to bring to their club rooms.

The South Monaghan debaters in the League debates were:—Miss C. M'Connachie and Harold Dawson—debated against the Peterboro club at Centreville, and were victorious; Messrs. Harry Campbell and George Morrison—debated against Indian River at Indian River, and won; Misses Rose Kidd and Loretta Barnard were chosen to debate against the Indian River club at Centreville, but owing to the Indian River club defaulting that set debate, and refusing to be present after setting the date for it twice, the decision was given to South Monaghan by the executive committee. Messrs. Douglas Deyell and Harold Bebee debated against the Peterboro club for the final debate, and won a decisive victory over that club, but some of the members of the Peterboro club protested the debate on the grounds that the judges did not use the score card while judging, and also on account of a misunderstanding in one word of the subject of the debate. Miss Connie M'Connachie and Douglas Deyell debated the debate over again on a different subject, and the Peterboro neutral judge gave the decision in favour of the Peterboro debaters. However, when they lost against Indian River in the final debate it left South Monaghan ahead, and they rejoice greatly over their success that they have had during their first year in the Debating League, and also as this is the first year that they have been organized. Mr. Tarvas has acted as neutral judge for South Monaghan on all occasions and has made a very competent judge.

The members of the club regret that the debates for this season are over, because some very enjoyable evenings have been spent in the different club rooms, and, altogether, the winter's work has been very instructive and educating to the young folks.

Traffic Closed on Rice Lake.

For some days there has not been anyone to venture on the lake with horses. The last traffic noticed at the head of the lake was on Monday morning last, when a team and sleigh was seen going from the lower end to Bewdley. The ice is very unsafe for anyone to travel on. The trappers state that they have to be careful where they walk, or they are apt to step into a hole or opening in the ice.

The Rice Lake trappers are very busy, although the ice has not started to move around the shore. They have mostly all of their traps set out, but they are not getting many rats as yet, because the marshes are still too widely frozen to allow the rats to run much yet. The way the majority of trappers get around to their traps is in a canoe with steel runners attached to the bottom, and they shove themselves along with a pike pole. Thus they are able to see their traps quite easily without endangering their lives on the unsafe ice.

For the past three years rats have been scarce in the smaller marshes along the lake front, but it has been years since there has been so many rat houses in the marshes as there is this spring, and an extra large catch is looked for.

The frosts that have prevailed during the nights of the past week have aided the sap to run more freely. Although there have been no heavy runs as yet, still there may be considerable syrup made yet, if the night frosts continue.

Crops Look Well.

The fall wheat and fresh seeds are looking fine this spring. They have wintered well and been practically covered with snow all winter. The farmers are in high expectation of a bountiful crop this year, if there is not too much cold windy weather. There has been very little water run off the land this spring, as there was so little frost in the ground that the earth absorbed all the water, and the great quantity of snow disappeared without scarcely any floods.

Mrs. Rose Peters

Toronto Woman Advises Young Mothers

Toronto, Ont.—"During all my years of wifehood and motherhood I have had such great comfort from the use of Dr. Pierce's Favorite Prescription that I do not hesitate to recommend it to other women who need strength and help during expectancy. Favorite Prescription relieved me of all nausea, or sick stomach, and kept me well and strong. I took this splendid tonic and nervine during each of my four expectant periods and I feel quite sure that my babies were just as greatly benefited as I myself, for they were plump and exceedingly healthy from the first moment."—Mrs. Rose Peters, No. 257 Sackville Street.

Health is most important to every woman. You cannot afford to neglect it when your neighborhood druggist can supply you with Favorite Prescription, in tablets or liquid This Prescription is made in Dr Pierce's Laboratory in Bridgeburg, Ont. Send 10 cents there if you wish a trial package.

OPPOSITION

(Continued from page 1.)

tions that waterways and port facilities offset the lesser railway mileage in Quebec. These questions, he said, did not affect the present one, which was whether or not branches should be built.

Mr. Denis asked that a connection between Montreal and the Transcontinental Railway be built, for one thing.

Mr. Denis declared that there were communities in his own county and the constituency of Berthier which were sixty miles away from a railway, and had been so for thirty years. Some of the communities had population in the neighbourhood of 3,000. eH gave notice that he would examine all the Bills separately, and would support only those which he approved.

Cape Breton's Need.

C. W. Kyte (Liberal, Richmond and Cape Breton South) said that the House had heard chiefly from members residing in Montreal or close to it, where there was great rivalry between the two railway systems. (Progressive cheers.) Mr. Marler had no constituents very far from railways.

"We have to pay for them," interrupted Mr. Marler.

"The other people of Canada contribute their portion as well," was Mr. Kyte's reply. He went on to say that for two years Mr. Archambault had been asking for the construction of a bridge.

"It is very necessary indeed," put in that member.

"My honourable friend should conceive that railways are necessary for rural constituencies," replied Mr. Kyte. He then went on to quote figures showing that while Quebec had one mile of railway for every 463 people, Cape Breton had one mile for every 600 people only. He added that he regretted that the Minister of Railways had not included among his resolutions provision of a railway from St. Peter's, C.B., to Sydney and Louisburg. The lumbering and coal mining of the district would justify the building of the line.

Liberal Insurgent.

Donald Sutherland (Conservative, South Oxford) congratulated members of the Government on their support of the attitude the Conservative party had taken a year ago. There was evidence, he said, of an insurrection at the Liberay Party displayed in the debates during the afternoon. Ontario districts were also urgently in need of branch lines. Mr. Forke was inclined to boast of the carloads taken from the Prairies, said Mr. Sutherland, yet in his constituency thirteen carloads had been taken off a single acre during one year, and the acre was not yet depleted.

John Evans (Progressive, Saskatoon) asked Mr. Sutherland what nature of produce came from the acre.

"Stone, quarried stone," replied Mr. Sutherland amid applause. "Ontario is discriminated against in the matter of railways," said Mr. Sutherland. He hoped that Northern Ontario would receive fair consideration in branch line construction in the future.

Resolution Carried.

Hon. George P. Graham, Minister of Railways and Canals, suggested that the discussion would be more satisfactory if the resolutions were passed and an opportunity was given him to introduce the Bills. There would be ample opportunity for the fullest discussion when the Bills were in.

The first resolution then carried, and the House went into committee on it. It provides for the construction of a line from Kingsclear on the St. John and Quebec Railway in New Brunswick to a point on the St. Croix River, opposite Vanceboro', Maine. The estimated mileage, including existing grading, is 41 miles, and the estimated cost $2,123,000.

Right Hon. Arthur Meighen, Opposition leader, asked the Minister to say whether construction of this line had been recommended by the president of the railway. Not only should it have been recommended, but it should have been recommended purely as a result of railway considerations.

Mr. Graham replied that there was not a line in the list that had not been recommended by the Canadian National Railway Board. This line provided a connection with the New England States.

"Has the Minister a recommendation in writing for the construction of this line from the president, and is he prepared to lay it on the table of the House?" pursued Mr. Meighen.

Not In Writing.

Mr. Graham replied that he had no written recommendation. He had discussed construction of this line with the president. There was general agreement among the members of the management that this line was necessary. Shipments of pulpwood would be made over this line, and it would facilitate the return of cars belonging to the Canadian National Railway. He stated that the list of lines for the construction of which the Government was asking legislation, had been prepared and presented to him by the board of directors of the railway system.

Editorial Comment.

Dr. Murray McLaren (Conservative, St. John) read an editorial from the St. John Globe opposing the construction of the proposed line on the grounds that it was unnecessary at the present time and that national economy should extend to the construction of these lines. Dr. MacLaren said that he was in full accord with the opinion expressed in the editorial.

R. B. Hanson (Conservative, York-Sudbury) asked the Minister of Railways why the present Bill was different from the Bill introduced last year.

Build Direct Line.

Hon. George P. Graham, Minister of Railways, said his information was in the form of a memorandum from the board of directors stating that the rout chosen in the present Bill was the best. The railways were bound to inconvenience some communities, but for the benefit of the railway it was best that a short direct route should be taken when possible.

Mr. Hanson told of the need in Southern New Brunswick for an outlet to the New England States for the Canadian National Railways. Much business was lost to the National line because there was no independent line connecting with an American railway. The Bill under consideration deserved sympathy at the hands of the House.

LOOP AERIAL, TOO.

Besides its large antenna, the S.S. Leviathan has a large loop atop the radio shack for use in case of emergency and for direction finding.

MISS WETHERED WINS ODD GAME

Fourth Victory In Seven Engagements With Cecil Leitch—Rivalry Renewed After Lapse of Two Years.

NORTHWOOD, England, April 2.—After a lapse of two years Miss Joyce Wethered and Miss Cecil Leitch resumed their rivalry in golf yesterday afternoon. Miss Wethered won 5 up and 3 to play.

It was the seventh match between the young women and the fourth victory for Miss Wethered, who is regarded by British followers of the game as far and away the best woman golfer in the world.

Those who watched the match appeared inclined to recognize the superiority of Miss Wethered, who under the soft skies of Middlesex, played superbly and with cool confidence from the first tee to the fifteenth green, where the match ended.

Miss Wethered made but one faulty shot—she topped a brassie approach to the 14th. She squared the hole, however, as the ball of Miss Leitch, after three putts, was still out of the cup.

From start to finish Miss Wethered had Miss Leitch on the defensive. Miss Wethered always was banging her approaches near the pin, while Miss Leitch often was short or over. Almost invariably Miss Leitch had to play the odd twice; she missed short putts that would have won holes for her, while on the other hand Miss Wethered putted with crisp precision.

MAKING SAUCES.

For making sauces a small double boiler is much easier to manage than a large skillet or frying pan.

Geniuses Not Offspring of Young Parents.

BERLIN, April 2. — (United Press).—Geniuses, as a rule, are not the offspring of young parents.

The Society of Bavarian School Teachers, after investigating into seventy-four cases of prominent personalities of the artistic and literary world found that amongst them were only ten first-born children.

The vast majority were late-born offspring. Fenimore Cooper was [illegible] of twelve children; Honoré Balzac, the youngest son of [illegible]ms; Napoleon Bonparte, the eighth child; Benjamin Franklin, the youngest of seventeen; Rembrandt, the fifth of six children; Richard Wagner and Wolfgang Amadeus Mozart were the last of seven; Robert Schumann, the fifth, and Franz Schulbert, the thirteenth of fourteen children.

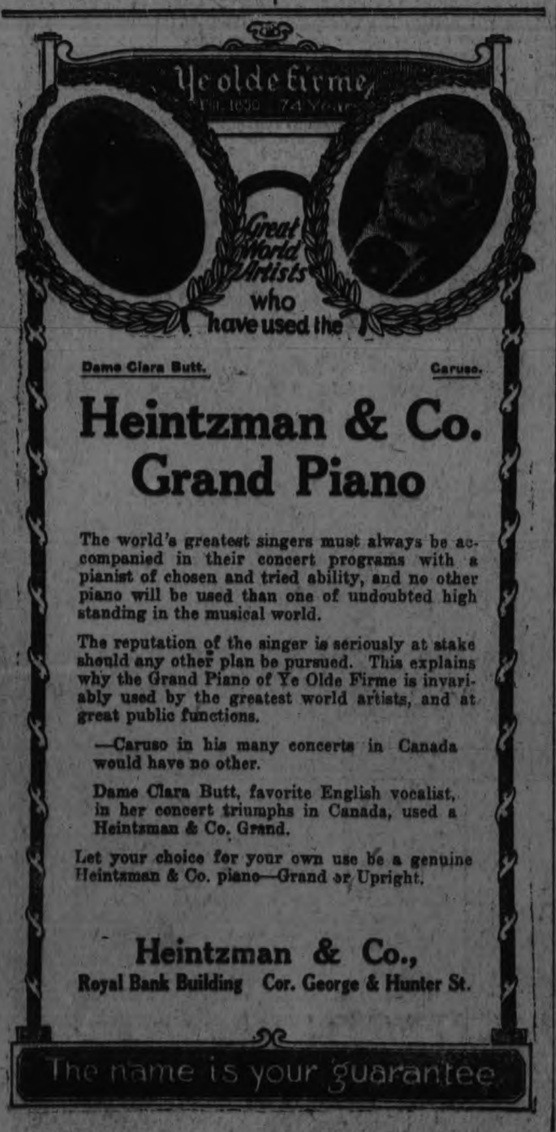
The investigations thus show that a rather advanced age of the parents seems to be more favorable to the production of great personalities.

CHEAP FRANCS LEGAL AS RENT

PARIS, April 2.—(Associated Press).—Paper francs are still legal currency for the payment of rent despite their depreciation, French courts have ruled. In 1870 a landlord introduced into a long term lease a clause exacting that the rent should be paid in gold or silver. The tenants with great difficulty fulfilled the terms of the lease, but finally appealed to the court, which has ruled that the clause was contrary both to public order and law.

SMALL FIRE

An overheated motor in Cressman Company Store this morning at 8.27 caused a small fire that was extinguished by the Fire Department shortly after it started. The only damage done was to the motor which will not amount to much.



Heintzman & Co.
Grand Piano

The world's greatest singers must always be accompanied in their concert programs with a pianist of chosen and tried ability, and no other piano will be used than one of undoubted high standing in the musical world.

The reputation of the singer is seriously at stake should any other plan be pursued. This explains why the Grand Piano of Ye Olde Firme is invariably used by the greatest world artists, and at great public functions.

—Caruso in his many concerts in Canada would have no other.

Dame Clara Butt, favorite English vocalist, in her concert triumphs in Canada, used a Heintzman & Co. Grand.

Let your choice for your own use be a genuine Heintzman & Co. piano—Grand or Upright.

MANY REPORTS TO BOARD EDUCATION

Mrs. Morris Presents Interim Report Regarding South Central School--Cadet Uniforms to Be Obtained

The receiving of routine reports and the passing of accounts were the only items of business engaging the attention of the Board of Education at its regular meeting last night.

Mrs. Morris presented an interim report on the project of utilizing the South Central School for vocational training. The Advisory Vocational Committee, she said, had forwarded plans to the Education Department of the Provincial Government, and an architect from that branch had been in Peterboro to examine the building. A comprehensive report had been presented, but the plans had not been returned. Up to date, Mrs. Morris intimated, only a few have been made acquainted with the report, and no indication was given in her report as to whether the Department is favorably impressed or not with the proposed adaptation of the building to the purposes of a technical school.

The school attendance officer, James Abraham, reported 64 absentees during the month. There were eleven cases of measles, 1 of scarlet fever and two of chickenpox, his report intimated. Four children were absent through lack of boots, which had since been supplied by the Home and School Association. There were four removals from the city and three arrivals.

Dr. A. W. McPherson, school medical officer, reported 600 pupils subjected to the Schick test. Of these 442 re-acted positively and were inoculated, with the exception of a few who were absent. The remainder, 158, showed negative reaction. Dr. McPherson gave credit to Dr. A. W. McNair for his valuable assistance, and on motion of Messrs. McKone and A. A. Fowler, a letter of thanks will be forwarded to Dr. McNair.

Uniform For Cadets.

Leo. Copp, Cadet instructor at King George School, applied to the Board for uniforms for his Cadets, the yearly grant of $1.25 paid by the Government for each uniform to be retained by the Board in payment of the outlay. Mrs. Morris remarked that the Home and School Associations cannot provide uniforms, since they expend their money on current needs in the way of boots and clothes.

On motion of Messrs. Denne and McKone, the request was granted.

Dr. J. C. Green, school dental officer, reported 108 fillings done during the month and 101 extractions made.

Miss M. I. V. Jory, school nurse, reported 297 examinations and 15 exclusions during the month. Of those excluded from school, four were for rash, five for sores on their faces, five for uncleanliness, one for scarlet fever, two for chickenpox and one for measles. "There is very little infection showing," Miss Jory said, "with the exception of colds among the smaller children."

The attendance reports presented by Mr. A. Mowat, public school inspected, and H. R. H. Kenner, principal of the Collegiate Institute, were:

	Enrollment.	Aver. attendance.	Per cent.
Prince of Wales	604	571	94

Measles Outbreak Far From Serious

The records of the Medical Officer of Health, Dr. T. W. H. Young, and the Sanitary Inspector, C. H. Stapleton, show that conditions in the city in so far as the outbreak of measles is concerned, are very different from last spring. In March this year, there were only four cases of measles reported, of which three were school children. The outbreak came from the Children's Shelter, where there are now three cases, and was introduced there by a child who came from a measles-stricken home in London. The fourth case was traced to contagion from a Shelter child.

Of other contagious diseases there were four of scarlet fever, one of spinal meningitis, and one diphtheria, an exceptionally good record for a city of this size at this time of the year, Dr. Young said.

E. H. S. FLOOD HAS RESIGNED HIS JOB.

Owing to the Increase of Canada's Export Trade With Trinidad and British Guiana the Barbadoes Office Has Been Closed.

OTTAWA, April 2. — Changes in the personnel of the Commercial Service have been announced by Thos. A. Law, Minister of Trade and Commerce.

F. H. S. Flood, Trade Commissioner, at Barbados, has been retired.

Owing to the increase of Canada's export trade with Trinidad and British Guiana the Barbadoes office has been closed, and H. R. Poussette, formerly director of the Commercial Intelligence Service, is taking over the trade commissionership at Port of Spain Trinidad. Mr. Poussette will sail from Halifax on April 25th.

Mr. Beddoe former trade Commissioner in New Zealand, has been retired, and Mr Croft, junior trade commissioner at Auckland, is acting trade commissioner pending the transfer of a senior trade commissioner to that coast.

The South African has been temporarily filled by the transfer of R. S. O'Meara, junior trade commissioner at Calcutta. B. H. Ross, Canadian trade commissioner of Australia, is on his way to Canada where he will visit various centres of manufacture for export to that country.

A BUSINESS MEETING THE MISSION CIRCLE

The annual business meeting of the Women's Mission Circle of the Murray street Baptist church was held yesterday afternoon, the president, Mrs. W. D. Scott, in charge. Interesting reports of the year's activities, showing encouraging progress, were given by the treasurers for Home and Foreign Missions; Mrs. F. M. Somerville and Mrs. G. Stenton, and by the secretary, Mrs. W. R. Breyiogle, who also read Miss Garbutt's report on the Young Ladies' Mission Circle and Mission Band work.

Election of officers resulted in re-election of the present board, with the exception of one vice-president, as follows: President, Mrs. W. D. Scott; 1st vice-president, Mrs. C. W. Rose; and vice-president, Miss Margaret Matthews; secretary, Mrs. W. R. Breyiogle; treasurer for Foreign Missions, Mrs. G. Stenton; treasurer for Home Missions, Mrs. F. M. Somerville.

At the conclusion of the business session, a pretty vocal duet was rendered by Mrs. T. E. Curvin and Mrs. R. B. Burwell of Moose Jaw, with accompaniment by Mrs. F. M. Somerville.

BUILDERS TO SUPPORT C.G.E. EXTENSION BY-LAW

The regular meeting of the Peterborough Builders' and Supply Association was held last evening with Mr. T. C. Ephgrave in the chair. There was a large turn-out of members and considerable business attended to. Among other things a resolution was unanimously passed supporting the by-law in connection with the Canadian General Electric Company's proposed extensions, which goes before the electors on April 23rd.

NORMAN GRAHAM SAYS HE IS NOT DOPE CASE

Mr. Norman Graham, whose name was linked with a controversy affecting the police department, resents Chief Newhall's insinuation that he was addicted to dope and states that he is willing to go before a board of doctors and prove otherwise. He also denies the statement that Chief Newhall has had him in and out of his hands for years. "To my knowledge" said, Mr. Graham, I have only been convicted twice on minor charges since I returned from overseas in [illegible] I had nothing against me before that."

Many astronomers cling to the idea that the moon is a dead world.

IMPOSE PENALTY TOWN OF FOREST

For Failure to Install Waterworks -- Judgment Handed Down Today.

SARNIA, April 2. — (Canadian Press).—Judgment imposing a penalty of $1,400 on the municipality of Forest was handed down to-day by Magistrate Woodrom in police Court case in which municipality was charged with having refused or neglected to carry out provsions of report of Provincial Board of Health, ordering installation of waterworks system in town, individual members of town council were freed of charge at previous session. The judgment a lengthy one, sets out that sufficient notice was given to municipality to take necessary steps to install waterworks and was served on Mayor and for that reason it was held that municipality had been in default or liable to penalty since receipt of notice.

BOYS' WORK BOARD MET LAST EVENING

The Boys Work Board of the city held their monthly meeting last night in the reading room of the Y.M.C.A.

The constitution as presented by the executive was adopted by the board.

An invitation from the local Religious Educational Council to take charge of the boys division of the forthcoming Sunday School convention was accepted, and a committee hosen to prepare the program.

A committee was also chosen to make arrangements for a week-end retreat early in the summer at one of the cottages on the lake, for two "key-boys" from each church, in the interests of C.S.E.T. work.

The chairman was given authority to make arrangements for the holding of a mass meeting for boys in the fall.

The treasurer reported receipt of a contribution of fifteen dollars from the Provincial Board.

The meeting closed with prayer by Fred McNeely.

IRISH WOMEN ON JURY

DUBLIN, April 2.—(Canadian Press.—Irish women now have same rights and liberties as men to serve on jurys, For most part they do not like it and there is bill before Dail proposing to strike off jury list names of all women objecting to such service. This has provoked protest from Irish Women's Association but general opinion favors permitting these women wishing to, to stay at home and attend to children.

Nature's Minerals Are the Basis of Health

Untold millions of tiny, red corpuscles inhabit the veins and arteries of your body. They form the vital structure of the blood, imparting its familiar color. It is the function of these red corpuscles to supply the body with energy and "building materials" and to carry off the waste tissues and toxins.

Like all other organisms the red corpuscles must have adequate nourishment to keep them well and active. Lack of proper nourishment causes them to die or disintegrate and thus brings about a broken-down condition of the blood. This condition develops into Anaemia. But this is not all. The depleted blood supply is unable to perform its functions properly. New tissue is not built up as it should be. Old, worn-out cells are not moved and replaced. The system becomes weakened so that disease gets a hold. The constitution is not strong enough to combat these invaders. The result is illness and general debility. Every part of the body must suffer. There is but one law for the restoration of health and vigor—that is to supply the lacking elements for enriching and vitalizing the blood.

Build up the red corpuscles or blood-cells and disease cannot live and thrive in your body. Get the rich, red blood coursing through your veins and you will regain your strength and vitality — you will feel well and strong again.

Science has proven that Iron and Sulphur are the two great blood builders, and, following them, comes a number of other minerals essential to bodily welfare.

The Basis of All Health is Mineral.

Lang's Mineral Wonder is composed entirely of Nature's Minerals —Iron and Sulphur in large proportion, then lesser quantities of Phosphates, Alkalies, Alumina and Silica. All of these minerals are combined in this pure product of Nature—unadulterated. And their medicinal value lies directly in their great tonic effect upon the blood. By building up the broken-down blood-cells, Lang's Mineral Wonder overcomes the many afflictions from which humanity suffers, Rheumatism Anaemia, Kidney, Liver and Bladder Troubles, Stomach complaints, Piles, Female Internal Disorders, Eczema and Skin Affections, etc.

Instead of using drugs and narcotics for the pains and diseases which threaten you—get at the root of the trouble and remove it. Lang's Mineral Wonder restored hundreds of men and women to perfect health after all other remedies had failed.

Accept no substitute. Get Lang's Mineral Wonder from your druggist at the new low price of $1.25, or write to us for particulars of this remarkable remedy.

MONTREAL TRAMWAY DIRECTORS RESIGN.

MONTREAL, April 2. — William C. Finlay, president of the Montreal Tramways and Power Company, Limited, and three fellow directors of the company, forming the remainder of the old directors prior to the last annual meeting, have resigned. Mr. Finlay says:

"In view of the late developments we do not think it our duty to remain on the board for the Montreal Tram and Power Company, so teh following have resigned: William C. Finlay, Hon. George Foster, Hon. G. M. Wilson, and G. Malcolm MacIntyre."

This confirms the report that the control of the company had passed to the new interests elected at the last annual meeting.

The selling of the stock became most marked yesterday when over 2,000 shares were dumped on the market, which was all taken up at $5.00 per share, as compared with $6 per share at the beginning of March.

This morning the market opened at $4 and the selling being somewhat larger than yesterday, the price broke another point to $3.

Alberta, Canada, has 60,000 square miles of standing timber.

Drone of Flying Plane Mystifies Norwegians.

CHRISTIANIA, April 2.—(Associated Press).—The police believe that a large airplane is engaged in the smuggling trade in connection with a mother craft out at sea in the region of Fosnaes.

On several moonlight nights recently, an airplane with immense engines and powerful lights has been observed flying along the coast, and is believed to be operating with a smuggler somewhere among the intricate maze of islands and channels off the coast near Trondhjem.

ARRESTED AFTER 9 YEARS.

PARIS, April 2.—(United Press). —After nine years of hiding in a barn, Paul Anglois, 33, a war deserter, has been arrested. He was wounded while serving with the 21st Colonial Infantry early in 1915, and given leave of absence. He went to Formerie and remained at the home of his former employer, a farmer, Lasnes, whose wife took care of him. Gossip among neighbors about a mysterious man about the farm led to a police investigation. The deserter was found hiding in a haystack. The farmer's wife has been arrested as an accomplice.

CZAR DOWN, LENIN UP.

MOSCOW, April 2.—(United Press).—The professional unions of Petrograd (or Leningrid) have demanded that the monument to Czar Alexander III., still standing in "Uprisal Square," in front of the Nicolay Station, should be replaced by a monument to Lenin. To raise a "Lenin Monument Fund," the State theatres are all organizing monster concerts, the entire returns to be turned over to the monument fund.

A bill was recently introduced in the French Senate, to restore the citizenship and facility of divorce and remarriage to those French girls who were married to American soldiers during the World War, and were abandoned by their husbands. Many of the soldiers returned to America without leaving any address or communcating with their French wives after their departure.

THIS sparkling, *oxygenated* mineral water will add zest to every meal. No other drink is like *Aquazone*—no other possesses the great energizing store of "free" oxygen and the important mineral salts that come to you in *Aquazone*. It is the only true substitute for the natural streams at which our forefathers quenched their thirst.

Drink *Aquazone* if you would have "good digestion wait on appetite, and health on both."

A glass of *Aquazone* will relieve headache and fatigue. It's good—and good for you. Keep a case in the home for table use.

Can be obtained at the leading
HOTELS—CLUBS—SODA FOUNTAINS
throughout Ontario

In cartons and cases from all leading druggists and grocers in the province.

OWN YOUR OWN HOME IN PETERBOROUGH

MORE PEOPLE OWN THEIR HOMES THAN RESIDE IN RENTED HOUSES COUNT IN PETERBOROUGH SHOWS

Over Fifty-Six Per Cent. of Peterboro Citizens Are Home-Owners—West Ward Leads In Number—Tradesmen At Top of the List With Laborers Following Close.

"A CITY OF HOME-OWNERS."

More than fifty-six per cent. of the houses in Peterborough are owned by the people who live in them, amply justifying the slogan, "Peterborough—a City of Home Owners."

Figures obtained from the city assessor show 2608 dwellings occupied by owners and only 2034 occupied by tenants, the west ward leading with 313 more home owners than tenants.

Classified by The Examiner according to the business occupations of these home owners, it is found that more tradesmen own homes than any other classification of workers, and clergymen, doctors, lawyers and dentists, a small group in the community, are lowest in the total list of home owners.

In this tabulation, tradesmen are shown to own 839 homes, laborers 293, storekeepers and traders 199, office workers 149, manufacturers and business executives 146, agents, salesmen and travellers 125, and barristers, clergymen, physicians, dentists, and other professions 73. The total of 2,608 home owners is completed by the addition of 146 whose classification is given as "gentlemen"; 184 who are unclassified and 452 women.

The following list gives in alphabetical order the businesses and the number of men engaged in each who own their own homes:

Accountants 21, agents 29, agent (railway) 1, architects 2, assessors 2, auctioneer 2, baggagemen 6, bakers 23, bankers 7, barbers 22, barristers 13, bicycle dealer 1, billposter 1, blacksmiths 15, boatbuilders 14, boilermakers 3, bookkeepers 9, boxmaker 1, Brakemen 5, brass polishers 3, brewer 1, bricklayers 10, brickmakers 2, butchers 17, cabinetmakers 2, car inspectors 3, carpenters 105, carpet maker 1, carriage makers 2, cashier 1, cement finishers 3, cereal employees 39, chauffeurs 2, chemist 1, city clerk 1, city treasurer 1, cleaner 1, clergymen 7, clerks 42, clockmaker 1, coal dealers 6, collar makers 2, conductors (street car) 9, contractors 42, cooks 3, coopers 4, county clerk 1, customs officers 8, dairymen 6, De Laval workers 27, dentists 6, draftsmen 7, drovers 4, druggists 6, dyers 3, editor 1, electrical employees 144, electricians 25, engineers 27, engineers (stationary) 7, expressmen 6, farmers 29 filer 1 firemen 2 fitters 2 florists 2, foremen 30, fur cutters 2, garage men 11 gardeners 6, gasfitters 1, gentlemen 146, grain dealer 1, grocers 29, harness makers 13, horse dealers 2, hotelkeepers 4, ice dealers 1, inspectors 16, insurance agents 23, janitors 15, jewellers 3, judge 1, junk dealers 2, laborers 234, lathers 2, linemen 2, lock makers 3, loom fixer 1, lumbermen 8, machinists 76, mail carriers 17, managers 24, manufacturers 31, marble workers 2, masons 7, mechanics 31, merchants 105, milkman 1, millers 11, millwrights 6, moulders 28, motormen 8, musicians 2, optometrists 2, orderly 1, packing employees 9, painters 31, patternmakers 6, photographer 1, physicians 24, plasterers 8, plumbers 15, policemen 2, polishers 3, post office employees 3, printers 17, real estate dealers 5, registrar 1, roofers 2, saddlers 3, sailors 3, salesmen 38, sawyer 3, secretaries 3, sectionmen 5, shoemakers 11, shippers 13, signalmen 10, sign writer 1, spinner 1, superintendents 11, surveyor 1, tailors 9, taxidermist 1, teachers 17, teamsters 53, telegraph operators 6, telephone operators 2, tentmakers 2, tinsmiths 22, toolmakers 16, travellers 39, unclassified 184, undertakers 3, upholsterer 1, veterinary surgeons 2, watchmen 7, weavers 3, wood ranger 1, wood workers 3, wool workers 20, women 452.

Last Year's Record.

Building in the city last year amounted to $295,447.50, made up of 287 permits, of which 36 were for houses. April was the biggest month with a total of $61,526.50. The permits were taken out for the houses in the following months:—March, 1; April, 4; May, 6; June, 7; July, 3; August, 3; September, 4; October, 3; November, 2; December, 3.

During the year there were 212 marriages in the city, and while a number of these couples may have purchased houses already built, it is obvious that the majority started housekeeping in rented houses.

The following is the building record by months last year:—January, 5 permits, $6,250; February, 5 permits, $4,595; March, 8 permits, $2,015; April, 46 permits, $61,526.50; May, 56 permits, $22,325; June, 34 permits, $53,127; July, 27 permits, $50,095; August, 19 permits, $25,033; September, 30 permits, $17,686; October, 25 permits, $21,455; November, 19 permits, $12,855; December, 12 permits, $14,885.

BUILT-IN GARAGE IN MODERN PLANS

Many Advantages in the Attached Garage, Say Users — Must Have Fireproof Door.

At the present time there is probably no one influence that affects home building so much as the automobile. With the automobile have come conveniences little dreamed of a few years ago.

The attached garage is but a natural outgrowth of circumstances. The automobile has come to stay. The advantages of having the garage as close to the living quarters as possible are obvious. The disadvantages of the detached garage are equally obvious. Any one who has had experience in the matter knows how the detached garage makes necessary added expense and cutting up of the backyard and spoiling of the garden. The problem has always been one of finding a place for the garage most accessible to the house and yet interfering to the least possible degree with the arrangement of the yard and the garden space. With the garage planned as a part of the house, a layout is made possible that is at once orderly and convenient and at a reduction in cost.

Time was when the detached garage was an absolute necessity. Like all new developments, the auto craze ran faster than home building and, for the time being at least, attached garages were out of the question. This article, therefore, pertains more to home building from now on.

Saves One Wall.

The attached garage, because of its construction, saves one wall, which is quite an item. There is a board with cement plaster. From the standpoint of cost, the cement plaster is much to be preferred over concrete, being only about half as expensive. In addition, the garage, which has a direct connection with the house, must have a fireproof door and be equipped with a fusing link. This link will fuse and allow of the automatic closing of the door in case the temperature rises beyond the danger point. In some cases this specification of the underwriters has been complied with by having a separate entrance to the garage and house, covered by a common canopy.

Many other advantages are to be associated with the attached garage, such as, for instance, convenience and comparatively low cost of heating. The unattached garage must have its separare heating plant as a rule, and usually even then the temperature is so low in the winter time that starting the car is difficult. The cost of heating the attached garage is much less owing to the fact that it is accessible to the heating plant, and having, possibly, only two walls exposed to the weather.

The necessity and expense of a driveway running to the back of the lot is entirely eliminated. The yard is left intact, and the garden is not encroached upon.

The conveniences added by means of the attached garage more than double, in the estimation of many, the advantages of the automobile. To be able to actually step from the inside of one's home into one's machine without going out of doors is a definite luxury. To know that a distinct aving has also been made, adds, if anything, to the feeling of satisfaction.

The matter of design can be so handled that instead of the garage seeming to form an addition to the house, it will actually become a unit of the house and have as distinct an architectural meaning as the front door itself.

Architecture defined in a broad sense is a conforming of the lines of the house to the requirements for beauty, while at the same time taking care of the comfort of the occupants of the house. Just where the garage should attach or become a part of the house depends entirely upon the house itself, and is a matter to be decided between the owner, architect or contractor.

HOME SWEET HOME STILL THE FAVORITE

Vote of People Shows it is Most Popular Song Because Home is as Attractive as Ever.

In a voting contest, conducted by a number of daily newspapers, to determine which is the most popular song in America, "Home Sweet Home" was the winner. It proved to be overwhelmingly stronger in the hearts of the people than any other song or tune, and its selection settles an argument that has gone on for years, say the experts in such matters.

For you know, "Home Sweet Home," beautiful in sentiment as it may be, has been criticised by some, who held it "poor stuff," "cheap sentiment," "bad music," and so forth. But, be that as it may, the people love it. Perhaps they don't sing it as often as they do some new jazz tune, but they go back to it as each new tune proves stale, insipid, and untrue in sentiment. For it's sentiment that makes "Home Sweet Home" live, just as, after all, it is sentiment that rules men's lives and makes the world go round.

There's a note of comfort in that vote, by the way, for the people who are constantly worrying because things aren't as they used to be.

It is true that "home, sweet home" isn't the place it used to be. There is seldom a cosy rag rug on the kitchen floor, or a cellar that's spicy with the fragrance of russet apples in the fall. Neither is there an old-fashioned sitting room which never blushed at the shabby, but comfortable rocker and the old arm chair with its crocheted tidies which invited repose. No, the sitting-room has emerged into a living-room, all done in the latest-oldest period furniture. But the fact remains that whether the apples come from the grocer by the peck or from Uncle Ezra by the barrel, and whether the chair is ancient or modern, it is home, sweet home just the same, and everybody loves it enough to put the song by that name at the top of the list. So perhaps the world isn't traveling down grade so fast as some people think.

RED FOX.

Red fox is very fashionable this year for banding wraps as well as for summer neckpieces.

Peterborough Citizens Have Reason for Pride in the Beautiful City

Peterborough has no slums. There may be a house here and there less pretentious than its fellows, or less carefully kept, but there is no district to which a citizen can point and say, "there are the slums."

The city is built on a good location, and Dr. T. W. H. Young, medical health officer of the city, told The Examiner there is no one section healthier than another. Peterborough is as healthy as any city of its size, and is freer from contagious disease than most cities with 20,000 population and over.

Sir Henry Thornton, like many other distinguished and widely-travelled visitors, remarked on the beauty of its streets and homes.

These are features that make citizens proud to welcome visitors.

Young Bride Is Afraid to Avoid Conventional

By M. H. D.

Everyone knows the bleak, cold look of a collection of furniture in a store window, where the arrangement is to suggest an interior, and in an effort to heighten the effect, flowers, curtains and cushions are added. What is it that is lacking that makes the whole effect repellant instead of homelike? Well, it just hasn't that atmosphere of being lived in, those individual personal touches that give a really comfortable look to a room.
